(v) In the event any debt is incurred by the holding company to purchase shares of the bank: (*a*) The amount of the loan does not exceed 75 percent of the purchase price of the shares of the proposed subsidiary bank; (*b*) an agreed plan for amortization of the debt within a reasonable time exists, such period normally not exceeding 12 years; (*c*) the interest rate on any loan to purchase the bank shares will be comparable with other stock collateral loans by the lender to persons of comparable credit standing; (*d*) no compensating balances, specifically attributable to the loan, will be deposited in the lending institution and the amount of any correspondent account which the proposed subsidiary bank will maintain with the lending institution should not exceed the amount necessary to compensate the lending bank for correspondent services rendered by it to the proposed subsidiary bank; (*e*) the Reserve Bank determines that the managerial and financial resources including the equity capital accounts[3] of the proposed subsidiary bank are adequate, or will be adequate within a reasonable period of time after the bank is acquired, and any debt service requirements to which the proposed holding company may be subject are such as to enable it to maintain the capital adequacy of the proposed subsidiary bank in the foreseeable future.[4]

* * * * *

Effective date. This amendment is effective with respect to applications received by the Reserve Banks after the date of this order.

By order of the Board of Governors, October 30, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-18936 Filed 11-3-72;8:51 am]

[2] Less than all of the outstanding shares of the bank may be acquired provided that where a greater number of shares are tendered than are proposed to be purchased, the offeror will purchase the shares tendered on a pro rata basis (except for fractional interests) according to the number of shares tendered by each shareholder. Where an offer is not identical to all shareholders, the burden is on the applicant to demonstrate the substantial equivalence of the offers extended.

[3] The term "equity capital accounts" means capital stock, surplus, undivided profits, and reserves for contingencies, and other capital reserves.

[4] This delegation includes authority to approve (a) a merger transaction under the provisions of section 18(c) of the Federal Deposit Insurance Act (12 U.S.C. 1828(c)) and (b) an application, under section 9 of the Federal Reserve Act (12 U.S.C. 321), for membership in the Federal Reserve System that are incidental to an application to become a one-bank holding company.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 72-CE-33-AD; Amdt. 39-1551]

PART 39—AIRWORTHINESS DIRECTIVES

Cessna Models 336 and 337 Airplanes

AD 72-3-3 applicable to certain models of Cessna airplanes is an airworthiness directive which provides for modification of the flap actuator system and requires repetitive inspections and certain maintenance of the actuator jack screw until said modification is accomplished. This modification, which consists of an improved flap system developed by the manufacturer, eliminates any possibility of sudden flap retraction due to actuator malfunction and insures proper functioning of the electrical wing flap actuator. AD 72-3-3 is not applicable to Cessna Models 336 and 337 airplanes. It has now been determined that these airplanes have the same or similar unmodified flap system utilizing the same components as those airplanes to which AD 72-3-3 is applicable. Accordingly, in the interest of safety a new AD is being issued, applicable to Cessna Models 336 and 337 airplanes, which will require modification of the flap actuator system on or before April 1, 1973, in accordance with applicable manufacturer's service instructions and will impose repetitive inspection and maintenance requirements with respect to the actuator jack screw until the modification has been accomplished.

Since a situation exists which requires expeditious adoption of the amendment, notice and public procedure hereon are impracticable and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator 14 CFR 11.89 (31 F.R. 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new AD.

CESSNA. Applies to Models 336 (Serial Nos. 336–0001 through 336–0195) and 337 (Serial Nos. 337–0001 through 337–0239) airplanes.

Compliance: Required as indicated, unless already accomplished.

To prevent inadvertent retraction of wing flap and to insure positive operation of the electrical wing flap actuators, accomplish the following:

A. On all aircraft with more than 100 hours' time in service, within the next 25 hours' time in service after the effective date of this AD, unless already accomplished within the previous 75 hours' time in service, and thereafter at intervals not to exceed 100 hours' time in service, visually inspect the actuator jack screw for condition of lubricant and presence of contamination and scale in accordance with the procedure described in Cessna Service Letter SE70-16, Supplement 1, dated July 10, 1970, or later FAA-approved revision. If any of the conditions prescribed in the inspection criteria are noted, prior to further flight, remove, clean and relubricate the actuator jack screw in accordance with Cessna Service Letter SE70-16, dated June 12, 1970, or later FAA-approved revision, or any equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

B. On all aircraft with more than 500 hours' time in service, within the next 25 hours' time in service after the effective date of this AD, unless already accomplished within the previous 75 hours' time in service, remove, clean and relubricate the actuator jack screw in accordance with the procedure described in Cessna Service Letter SE70-16

V 37 - 214 NOV 4 72 XUM

dated June 12, 1970, or later FAA-approved revision, or any equivalent procedure approved by Chief, Engineering and Manufacturing Branch, FAA, Central Region.

C In addition, on all aircraft at each annual inspection, or at intervals not to exceed 12 months, whichever occurs first, remove, clean and relubricate the actuator jack screw in accordance with the procedure described in Cessna Service Letter SE70-16, dated June 12, 1970, or later FAA-approved revision or any equivalent procedure approved by Chief, Engineering and Manufacturing Branch, FAA, Central Region.

NOTE: Cessna Servcie Letter SE70-16, Supplement 2, dated August 28, 1970, specified some brand names of Molybdenum Disulfide Grease.

D On or before April 1, 1973, modify the aircraft in accordance with Cessna Service Letter ME72-19, dated October 6, 1972, or later revisions. Equivalent methods of compliance with this paragraph must be approved by Chief, Engineering and Manufacturing Branch, FAA Central Region.

E Upon compliance with paragraph D, the requirements of paragraphs A, B, and C are no longer applicable.

NOTE: The agency recommends that the procedures for maintaining the flap system as specified in applicable Cessna Service Manuals be followed.

This amendment becomes effective November 10, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421 and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on October 27, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.72-18897 Filed 11-3-72;8:47 am]

[Docket No. 72-EA-108; Amdt. 39-1550]

PART 39—AIRWORTHINESS DIRECTIVES

Lycoming Aircraft Engines

The Federal Aviation Administration is amending § 39.13 of the Federal Aviation Regulations so as to amend AD 71-5-2 applicable to Lycoming IO-360-A type aircraft engines.

In the process of revising AD 71-5-2 by Amendment 39-1537, a reference to -C series engines was inadvertently omitted from the applicability statement. This reference had been in the original AD.

Since the foregoing amendment will merely correct an obvious omission, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13697) § 39.13 of the Federal Aviation Regulations is amended so as to amend AD 71-5-2 as follows:

1. In the applicability statement after the figures "IO-360-A" add the following "and -C".

This amendment is effective upon publication in the FEDERAL REGISTER (11-4-72).

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on October 27, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.72-18896 Filed 11-3-72;8:46 am]

[Airspace Docket No. 72-NW-08]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On August 23, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 16979) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Walla Walla, Wash., transition area.

Interested persons were given 30 days in which to submit written comments. No objections to the proposed amendment were received.

In consideration of the foregoing, the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective at 0901 G.m.t., January 4, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Seattle, Wash., on October 25, 1972.

C. B. WALK, JR.,
Director, Northwest Region.

In § 71.181 (37 F.R. 2143) the description of the Walla Walla, Wash., Transition Area is amended as follows:

In the first line of the text, between the phrase, "* * * 700 feet above the surface * * *", and the phrase, "* * * within 5 miles southeast * * *", insert the following: within 4 miles each side of the Walla Walla VOR 036° radial, extending from the VOR to 16 miles northeast;"

[FR Doc.72-18898 Filed 11-3-72;8:47 am]

[Airspace Docket No. 72-RM-13]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On September 23, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 20040) stating that the Federal Aviation Administration was considering amendments to Part 71 of the Federal Aviation Regulations that would alter the descriptions of the Brookings, S. Dak., Control Zone and Transition Area.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendments are hereby adopted without change.

Effective date. These amendments shall be effective 0901 G.m.t., January 4, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Aurora, Colo., on October 27, 1972.

M. M. MARTIN,
Director, Rocky Mountain Region.

In § 71.171 (37 F.R. 2056) the description of the Brookings, S. Dak., control zone is amended to read:

BROOKINGS, S. DAK.

That airspace within a 5-mile radius of Brookings, S. Dak., Municipal Airport (latitude 44°18'12" N., longitude 96°48'40" W.); within 2.5 miles each side of the Brookings VOR 316° radial extending from the 5-mile-radius zone to 7 miles northwest of the VOR and within 2.5 miles each side of the Brookings VOR 118° radial extending from the 5-mile-radius zone to 8.5 miles southeast of the VOR. This control zone is effective during the specific dates and times established in advance by a notice to airmen. The effective dates and times will thereafter be continuously published in the Airman's Information Manual.

In § 71.181 (37 F.R. 2143) the description of the Brookings, S. Dak., transition area is amended to read:

BROOKINGS, S. DAK.

That airspace extending upward from 700 feet above the surface within a 9.5-mile radius of the Brookings, S. Dak., Municipal Airport (latitude 44°18'12" N., longitude 96°48'40" W.); within 4.5 miles northeast and 9.5 miles southwest of the Brookings VOR 316° radial extending from the 9.5-mile-radius area to 18.5 miles northwest of the VOR; within 9.5 miles southwest of the Brookings VOR 300° radial extending from the 9.5-mile-radius area to 18.5 miles northwest of the VOR and that airspace extending upward from 1,200 feet above the surface within 4.5 miles southwest and 9.5 miles northeast of the Brookings VOR 118° radial extending from the 9.5-mile-radius area to 18.5 miles southeast of the VOR.

[FR Doc.72-18899 Filed 11-3-72;8:47 am]

Title 49—TRANSPORTATION

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

[Docket No. 71-23; Notice No. 2]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires; Labeling Requirements

The purpose of this notice is to amend Motor Vehicle Safety Standard No. 109, "New Pneumatic Tires," to require safety labeling information to be placed on the tire between the maximum section width and the bead, in order that this information can be retained on the casing if the tire is retreaded. A notice of proposed rule making regarding this subject was issued on December 21, 1971 (36 F.R. 24824).

A majority of the comments received in response to the notice agreed with the intent of the proposed amendment. However, objections were raised to the proposed requirement that the labeling information be located between the maximum section width and the bead on both sidewalls. The comments indicated that the use of whitewall designs limited the area between the section width and the bead, and that as a consequence certain labeling information is placed between the maximum section width and the shoulder area to comply with the labeling requirements of Standard No. 109. Placing the information between maximum section width and bead on both sidewalls would evidently require the redesigning both of molds and lines of tires.

The agency has concluded after review of the information submitted to the docket that all labeling information should be located on both sidewalls of the tires as presently required by Standard No. 109. However, in response to the objections to the proposed requirements, only one sidewall is required to have the labeling information between the maximum section width and the bead. This will still allow information to be retained on casings so that retreaders need not relabel tires in meeting the requirements of Standard No. 117 (49 CFR 571.117).

In light of the above, Paragraph S4.3 of Motor Vehicle Safety Standard No. 109, "New Pneumatic Tires," § 571.109 of Title 49, Code of Federal Regulations, is amended to read as follows:

S4.3 *Labeling requirements.* Except as provided in S4.3.1 and S4.3.2, each tire shall have permanently molded into or onto both sidewalls, in letters and numerals not less than three thirty-seconds of an inch high, the information shown below in (a) through (g). On at least one sidewall, the information shall be positioned in an area between the maximum section width and bead of the tire. However, in no case shall the information be positioned on the tire so that it is obstructed by the flange of any rim designated for use with that tire in Standard Nos. 109 and 110 (sections 571.109 and 571.110 of this part).

(a) One size designation, except that equivalent inch and metric size designations may be used;

(b) Maximum permissible inflation pressure;

(c) Maximum load rating;

(d) The generic name of each cord material used in the plies (both sidewall and tread area) of the tire;

(e) Actual number of plies in the sidewall, and the actual number of plies in the tread area if different;

(f) The words "tubeless" or "tube type" as applicable; and

(g) The word "radial" if the tire is a radial ply tire.

Effective date: July 1, 1973.

(Secs. 103, 112, 113, 114, 119, 201, National Traffic and Motor Vehicle Safety Act, 15 U.S.C. 1392, 1401, 1402, 1403, 1407, 1421, and the delegation of authority at 49 CFR 1.51)

Issued on October 31, 1972.

CHARLES H. HARTMAN,
Acting Administrator.

[FR Doc.72-18962 Filed 11-2-72;8:45 am]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 3—STATEMENT OF GENERAL POLICY OR INTERPRETATION

Hexachlorophene as a Component in Drug and Cosmetic Products for Human Use

In the FEDERAL REGISTER of September 27, 1972 (37 F.R. 20160), the Commissioner of Food and Drugs published a statement of general policy or interpretation § 3.91 *Hexachlorophene, as a component of drug and cosmetic products.*

Paragraph (f) of § 3.91 states that the "* * * Quantitative declaration of hexachlorophene content on the labeling of products, where required, shall be on a w/w basis. For aerosol products, the declaration will be independent of the propellent."

At the request of some manufacturers of aerosol products containing hexachlorophene this paragraph was reconsidered. Since it has been shown that the amount of hexachlorophene delivered to the skin depends upon the content of hexachlorophene when considered on a total weight-in-weight basis and that no more hexachlorophene will be delivered to the body by an aerosol product than by any other topical product of equivalent hexachlorophene content when their respective directions for use are followed, the Commissioner concludes that the method of determining the amount of active ingredient in aerosol products should be on a total weight-in-weight basis including the propellent.

At the request of representatives of several consumer interest groups, the provisions of § 3.91 allowing continued limited use of hexachlorophene as a preservative at levels not to exceed 0.1 percent in drug and cosmetic products packaged in aerosol containers were also reconsidered. The Commissioner concludes, based upon current benefit to risk ratio, that hexachlorophene is not necessary as a preservative in any drug and/or cosmetic products, which in normal use may be applied to mucous membranes or which are intended to be used on mucous membranes, e.g., chapsticks, feminine hygiene sprays, rectal ointments, and that § 3.91 should be revised as set forth below to exclude further continued use of hexachlorophene as a preservative in such products.

Accordingly, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 502 (a), (f), (j), 503(b), 505, 601(a), 602 (a), (c), 701(a), 52 Stat. 1041, 1050–1055 as amended; 21 U.S.C. 321(n), 352 (a), (f), (j), 353(b), 355, 361(a), 362 (a), (c), 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), § 3.91 is amended by revising subparagraph (5) of paragraph (c), the first sentence of paragraphs (d) and (e) and paragraph (f) to read as follows:

§ 3.91 Hexachlorophene, as a component of drug and cosmetic products.

* * * * * *

(c) *Prescription drugs.* * * *

(5) Prescription drug products may contain hexachlorophene only as part of an effective preservative system under the conditions and limitations provided for under paragraph (d) of this section.

(d) *Over-the-counter (OTC) drugs.* Over-the-counter drug products, other than those which in normal use may be applied to mucous membranes or which are intended to be used on mucous membranes, may contain hexachlorophene only as part of an effective preservative system, at a level that is no higher than necessary to achieve the intended preservative function, and in no event higher than 0.1 percent. * * *

(e) *Cosmetics.* Hexachlorophene may be used as a preservative in cosmetic products other than those which in normal use may be applied to mucous membranes or which are intended to be used on mucous membranes, at a level that is no higher than necessary to achieve the intended preservative function, and in no event higher than 0.1 percent. * * *

(f) *Content statement.* All reference to hexachlorophene limit in this order is on a weight-in-weight (w/w) basis. Quantitative declaration of hexachlorophene content on the labeling of the products, where required, shall be on a w/w basis.

* * * * * *

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER (11-4-72).

(Secs. 201(n), 502(a), (f), (j), 503(b), 505, 601(a), 602(a), (c), 701(a), 52 Stat. 1041, 1050-1055 as amended; 21 U.S.C. 321(n), 352 (a), (f), (j), 353(b), 355, 361(a), 362 (a), (c), 371(a))

Dated: October 31, 1972.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.72-18855 Filed 11-3-72;8:49 am]

V 37-214 NOV 4 72 XUM

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

ADHESIVES

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 2B2776) filed by E. I. du Pont de Nemours & Co., 1007 Market Street, Wilmington, DE 19898, and other relevant material, concludes that the food additive regulations should be amended, as set forth below, to provide for use of fumaratochromium (III) nitrate as a component of food packaging adhesives.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner, 21 CFR 2.120, § 121.2520(c)(5) is amended by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2520 Adhesives.

* * * * * * *

(c) * * *

(5) * * *

COMPONENTS OF ADHESIVES

Substances	*Limitations*
* * *	* * *
Fumaratochromium (III) nitrate	
* * *	* * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (11-4-72).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: October 30, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72-18909 Filed 11-3-72;8:47 am]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

TEXTILES AND TEXTILE FIBERS

The Commissioner of Food and Drugs, having evaluated the data in a petition (FAP 2B2730) filed by Celanese Fibers Marketing Co., c/o TRW/Hazleton Laboratories, 9200 Leesburg Turnpike, Vienna, VA 22180, and other relevant material, concludes that the food additive regulations should be amended as set forth below to provide for the safe use of polyethylene terephthalate fibers and of 4-ethyl-4-hexadecyl morpholinium ethyl sulfate as a lubricant in the manufacture of polyethylene terephthalate textile and textile fibers used as articles or components of articles intended for use in contact with food.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), § 121.2535(d)(5) (i) and (ii) are amended by alphabetically inserting the following new items:

§ 121.2535 Textiles and textile fibers.

* * * * * *

(d) * * *

(5) * * *

List of substances	*Limitations*
(i) fibers:	
* * *	* * *
Polyethylene terephthalate complying in composition with the provisions of § 121.2524(d)(4)(i).	For use only in the manufacture of items for repeated use.
* * *	* * *
(ii) Adjuvant substances:	
* * *	* * *
4-Ethyl-4-hexadecyl morpholinium ethyl sulfate.	For use only as a lubricant in the manufacture of polyethylene terephthalate fibers specified in subdivision (i) above at a level not to exceed 0.03 percent by weight of the finished fibers.
* * *	* * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (11-4-72).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: October 30, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72-18908 Filed 11-3-72;8:47 am]

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Combination Antibiotic Drugs Used in Animal Feeds No Longer Sanctioned; Stay of Effective Date

An order was published in the FEDERAL REGISTER of October 7, 1972 (37 F.R. 21279), establishing a new section, § 135e.1000 *Combination antibiotic drugs in animal feeds no longer sanctioned.* The order became effective upon publication on October 7, 1972.

The Commissioner of Food and Drugs has been informed that there appears to be errors in the drug listing under § 135e.1000(c) and has received a request to allow 30 days for interested parties to report errors to the Food and Drug Administration.

Accordingly, good reason therefor appearing, the Commissioner is staying the order of October 7, 1972, and inviting interested parties who find what they believe to be errors in the listing to submit such in written comment to the Bureau of Veterinary Medicine (VM-100), Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852, within 30 days after date of publication of this order in the FEDERAL REGISTER.

The effective date of the October 7, 1972 order is hereby stayed until Monday, December 4, 1972.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: October 30, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter X—Federal Insurance Administration, Department of Housing and Urban Development

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

In the entry to the table in 24 CFR 1914.4 which was published in the FEDERAL REGISTER on October 17, 1972, at 37 F.R. 21937, the unincorporated areas of Montgomery County, Md., were listed as eligible for the sale of flood insurance under the National Flood Insurance Program effective October 13, 1972. The entry was incomplete in that it did not list other communities in Montgomery County, Md., which also became eligible for the sale of flood insurance on October 13, 1972. Hereinbelow is the complete entry for Montgomery County, Md., as it should have appeared in the October 17, 1972, entry. The complete entry reads as follows:

§ 1914.4 Status of participating communities.

* * * * * *

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

Communities With Special Hazard Areas

In the entry to the table in 24 CFR 1915.3 which was published in the FEDERAL REGISTER on October 17, 1972, at 37 F.R. 21938, the unincorporated areas of Montgomery County, Md., were designated as a flood plain area having special flood hazards effective October 13, 1972. The entry was incomplete in that it did not list the other communities in Montgomery County, Md., which were also designated as flood plain areas having special flood hazards on October 13, 1972. Hereinbelow is the complete entry for Montgomery County, Md., as it should have appeared in the October 17, 1972, entry. The complete entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

[CGD 72-96 R]

PART 92—ANCHORAGE AND NAVIGATION REGULATIONS; ST. MARYS RIVER, MICH.

Speed Limits for Vessels of 50 Gross Tons or Over

This amendment establishes permanent speed limits for the St. Marys River in Part 92 of Title 33 of the Code of Federal Regulations.

This amendment is based on a notice of proposed rule making published in the Wednesday, June 7, 1972, issue of the FEDERAL REGISTER (37 F.R. 11342), and public hearings held at Cleveland, Ohio, on July 6, 1972, and at Sault Ste. Marie, Mich., on July 12, 1972.

At the public hearing held in Cleveland, Ohio, on July 6, 1972, five (5) persons attended. Comments were received from a representative of the Lake Carriers' Association to the effect that the establishment of permanent speed regulations as proposed would not accrue the intended results; would unwarrantably restrict the navigation of commercial vessels; and under adverse conditions may jeopardize the safety of such vessels with possible adverse environmental impact on the adjacent surroundings. It was further stated that the Lake Carriers' Association believes that this further abridgement of reasonable access by users of the waterway is not warranted and urged that the present method of flexibility in the adjustment of speed regulations on the St. Marys River be continued. It was recommended by the representative of the Lake Carriers' Association that an unbiased organization be commissioned to study the problem.

A representative of the Great Lakes and Rivers District Masters, Mates and Pilots supported the stand taken by the Lake Carriers' Association.

The proposed regulations authorizes the Commander, Ninth Coast Guard District to establish, raise, lower, or otherwise amend the speed regulations. In exercising this authority, the District Commander will consider all interests affected by the speed of vessels, including the mariner as well as the protection of the property of riparian owners.

At the public hearing held in Sault Ste. Marie, Mich., on July 12, 1972, approximately 100 persons attended. Representatives of the marine transportation industry objected to making the lower temporary speeds permanent feeling that they would be permanently penalized since the reduced speeds were established as a result of high water which history indicates is of a temporary nature. The high water has existed for the past few years and it has been necessary to impose temporary speed limits in an effort to reduce damage to littoral property. The safe navigation of large commercial vessels transiting areas of changing river currents as well as the efficient utilization of the waterway were considered. The proposed regulations provide that the Commander, Ninth Coast Guard District may establish, raise, or lower the speed limits on the St. Marys River should future needs require such change.

All of the property owners who testified recommended that the proposed speed limits be adopted, and in some instances, recommended a lower-speed limit.

Several pilot organizations commented that the regulations should contain a provision to the effect that when conditions of good seamanship indicate, a departure from the prescribed speed limits is authorized. These recommendations were not adopted. The Coast Guard, in processing violation cases, takes into consideration all aspects of each case including unusual conditions and circumstances which might require a pilot to exceed the speed limit on occasion to maintain control of his vessel. The Coast Guard has the authority to close such cases without action and remit or mitigate any penalties involved.

Three comments were submitted to the effect that the $200 penalty assessment for violation of the speed limits was ineffective and should be substantially increased. This suggestion cannot be adopted as the $200 penalty is prescribed by statute and not by regulation.

Eight comments were submitted recommending that the speed limits apply to pleasure craft as well as vessels of 50 gross tons or over. Since this proposal was not contained in the original notice of proposed rule making, the Coast Guard will consider this amendment by separate rule making action.

The notice of proposed rule making recommended that various speed limits be established for the entire St. Marys River from Point Iroquois to Point De Tour.

Based on comments received at the public hearings and observations by Coast Guard personnel, some of the areas in the original proposal have been deleted as no erosion problems exist in these areas. These include the areas in Lake Munuscong between Point Aux Frenes and Buoy Lt 9 off Winter Point and between Point Aux Frenes and Buoy R–8. Also deleted was the proposed speed limit between Sweets Island and Round Island. Additionally, the proposed speed limit has been terminated at Point Louise instead of Point Iroquois.

The representative of the upper Great Lakes pilots objected to the proposed speed limit of 14 m.p.h. between Round Island and Lake Munuscong Lighted Bell Buoy. He pointed out that this was an area of relative open water which is an ideal place for vessels to pass.

In view of these comments, the proposal has been amended so that the 14-m.p.h. speed limit will apply only between Round Island and Point Aux Frenes.

The Upper Great Lakes pilots representative further objected to the fact that, under the proposal, a vessel would be required to reduce speed from 12 m.p.h. to 10 m.p.h. at Light 33 Downbound just when a vessel is maneuvering for a left turn into the narrower and swifter waters of Rock Cut. At the public hearing the residents of the shore in this area, as well as residents along the shore from Nine-Mile Point to Light 33 complained of the wake damage caused by passing vessels.

In view of these comments the amendment has been changed from the proposal so that the 10 m.p.h. speed limit in the Downbound channel will apply from Nine-Mile Point to West Neebish Channel Light 10 off Winter Point.

An additional comment was made by the Upper Great Lakes pilots representative regarding the establishment of a 10 m.p.h. speed limit between Nine-Mile Point and Six-Mile Point. It is pointed out that the temporary speed limit in this area is presently 10 m.p.h. imposed because of the extreme high water and the resulting wake damage along the shoreline based on comments received and observations made by the Coast Guard.

A 15 m.p.h. speed limit was proposed between Buoy R–2 in Lake Munuscong and Everens Point and a 9 m.p.h. speed limit between Everens Point and Johnson Point. In accordance with comments received, the amendment has been changed from the proposal to establish a 12 m.p.h. speed limit between Buoy R–8 and Everens Point to allow vessels to slow down prior to entering the 9 m.p.h. speed zone at Everens Point. This will decrease the chances of wake damage in this area.

In consideration of the foregoing, §§ 92.49 and 92.53 of Part 92 of Title 33 of the Code of Federal Regulations are amended to read as follows:

§ 92.49 Speed limits for vessels of 50 gross tons or over.

(a) The speed limits in paragraphs (b), (c), and (d) of this section are in statute miles per hour over the ground. The speed limits may not be exceeded by any upbound or downbound vessel of 50 gross tons or over.

(b) Detour Reef Light to Point Aux Frenes: The speed limit between—

(1) Detour Reef Light and Sweets Point is 17 miles per hour; and

(2) Round Island Light and Point Aux Frenes is 14 miles per hour.

(c) Munuscong Channel Lighted Buoy 8 to Lake Nicolet Light 80: The speed limit between—

(1) Munuscong Channel Buoy 8 and Munuscong Channel Buoy 14 is 12 miles per hour;

(2) Munuscong Channel Buoy 14 and Munuscong Channel Buoy 26 is 9 miles per hour;

(3) Munuscong Channel Buoy 26 and Lake Nicolet Lighted Buoy 62 is 10 miles per hour; and

(4) Lake Nicolet Lighted Buoy 62 and Lake Nicolet Light 80 is 12 miles per hour.

(d) Lake Nicolet Light 80 and West Neebish Channel Light 10: The speed limit between Lake Nicolet Light 80 and West Neebish Channel Light 10 is 10 miles per hour;

(e) Lake Nicolet Light 80 to Point Louise: The speed limit between—

(1) Lake Nicolet Light 80 and Six-Mile Point Range Rear Light is 10 miles per hour;

(2) Six-Mile Point Range Rear Light and the lower limit of the St. Marys Falls Canal is 8 miles per hour for upbound vessels and 10 miles per hour for downbound vessels; and

(3) The upper limit of the St. Marys Falls Canal and Point Louise is 12 miles per hour.

(f) The Commander, Ninth Coast Guard District may establish, raise, lower, or otherwise amend speed limit regulations on the St. Marys River. In exercising this authority, the District Commander considers all interests affected by the speed of vessels in the river, including the protection of the property of riparian owners. The regulations issued by the Commander, Ninth Coast Guard District are published in the FEDERAL REGISTER and in the Notice to Mariners.

§ 92.53 [Deleted]

(Secs. 1–3, 29 Stat. 54, as amended, sec. 6(b), 80 Stat. 937; 33 U.S.C. 474, 49 U.S.C. 1655(b); 49 CFR 1.46(b))

Effective date: This amendment becomes effective on December 1, 1972.

Dated: November 1, 1972.

C. R. BENDER,
Admiral, U.S. Coast Guard, Commandant.

[FR Doc.72-18959 Filed 11-3-72;8:51 am]

[CGD 72 217R]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Three Mile Creek, Ala.

This amendment adds regulations for the Southern Railway drawbridge across Three Mile Creek, mile 1.1 to permit the draw to remain closed to the passage of vessels from November 15, 1972, through January 13, 1973. The draw is presently required to open if at least 5-days notice has been given. This closure is required to permit necessary repairs.

This rule is issued without notice of proposed rule making. The Coast Guard has found that good cause exists for taking this action on the basis that it would be contrary to the public interest to delay this work.

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by adding a subparagraph (i) to subparagraph (20) of paragraph (i) of § 117.245 to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

* * * * *

(i) * * *

(20) * * *

(i) From November 15, 1972, through January 13, 1973, the draw need not open for the passage of vessels.

* * * * *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall become effective from November 15, 1972, through January 13, 1973.

Dated: November 1, 1972.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Title 40—PROTECTION OF THE ENVIRONMENT

Chapter I—Environmental Protection Agency

[EPA Order 1360.1]

PART 11—SECURITY CLASSIFICATION REGULATIONS PURSUANT TO EXECUTIVE ORDER 11652

A new Part 11 is added to Title 40 of the Code of Federal Regulations to implement Executive Order 11652 (37 F.R. 5209, March 10, 1972) and the National Security Council Directive of May 17, 1972 (37 F.R. 10053, May 19, 1972), pertaining to classification and declassification of national security information and material. This part establishes procedures for employees of the Environmental Protection Agency.

These regulations have been approved by the Interagency Classification Review Committee as required by Executive Order 11652 and National Security Council Directive of May 17, 1972. The regulations as set forth below, are effective June 1, 1972, in compliance with Executive Order 11652.

WILLIAM D. RUCKELSHAUS,
Administrator.

OCTOBER 30, 1972.

Sec.
11.1 Purpose.
11.2 Background.
11.3 Responsibilities.
11.4 Definitions.
11.5 Procedures.
11.6 Access by Historical Researchers and Former Government Officials.

AUTHORITY: The provisions of this Part 11 issued pursuant to Executive Order 11652 (37 F.R. 5209, March 10, 1972) and the National Security Directive of May 17, 1972 (37 F.R. 10053, May 19, 1972).

§ 11.1 Purpose.

These regulations establish policy and procedures governing the classification and declassification of national security information. They apply also to information or material designated under the Atomic Energy Act of 1954, as amended, as "Restricted Data," or "Formerly Restricted Data" which, additionally, is subject to the provisions of the Act and regulations of the Atomic Energy Commission.

§ 11.2 Background.

While the Environmental Protection Agency does not have the authority to originally classify information or material in the interest of the national security, it may under certain circumstances downgrade or declassify previously classified material or generate documents incorporating classified information properly originated by other agencies of the Federal Government which must be safeguarded. Agency policy and procedures must conform to applicable provisions of Executive Order 11652, and the National Security Council Directive of May 17, 1972, governing the safeguarding of national security information.

§ 11.3 Responsibilities.

(a) Classification and Declassification Committee: This committee, appointed by the Administrator, has the authority to act on all suggestions and complaints with respect to EPA's administration of this order. It shall establish procedures to review and act within 30 days upon all applications and appeals regarding requests for declassification. The Administrator, acting through the committee, shall be authorized to overrule previous determinations in whole or in part when, in its judgment, continued protection is no longer required. If the committee determines that continued classification is required under section 5(B) of Executive Order 11652, it shall promptly so notify the requester and advise him that he may appeal the denial to the Interagency Classification Review Committee.

(b) Director, Security and Inspection Division, Office of Administration: The Director, Security and Inspection Division, is responsible for the overall management and direction of a program designed to assure the proper handling and protection of classified information, and that classified information in the

V37-214 NOV 4 72 XUM

Agency's possession bears the appropriate classification markings. He also will assure that the program operates in accordance with the policy established herein, and will serve as Secretary of the Classification and Declassification Committee.

(c) Assistant Administrators, Regional Administrators, Heads of Staff Offices, Directors of National Environmental Research Centers are responsible for designating an official within their respective areas who shall be responsible for:

(1) Serving as that area's liaison with the Director, Security and Inspection Division, for questions or suggestions concerning security classification matters.

(2) Reviewing and approving, as the representative of the contracting offices, the DD Form 254, Contract Security Classification Specification, issued to contractors.

(d) Employees:

(1) Those employees generating documents incorporating classified information properly originated by other agencies of the Federal Government are responsible for assuring that the documents are marked in a manner consistent with security classification assignments.

(2) Those employees preparing information for public release are responsible for assuring that such information is reviewed to eliminate classified information.

(3) All employees are responsible for bringing to the attention of the Director, Security and Inspection Division, any security classification problems needing resolution.

§ 11.4 Definitions.

(a) *Classified information.* Official information which has been assigned a security classification category in the interest of the national defense or foreign relations of the United States.

(b) *Classified material.* Any document, apparatus, model, film, recording, or any other physical object from which classified information can be derived by study, analysis, observation, or use of the material involved.

(c) *Marking.* The act of physically indicating the classification assignment on classified material.

(d) *National security information.* As used in this order this term is synonymous with "classified information." It is any information which must be protected against unauthorized disclosure in the interest of the national defense or foreign relations of the United States.

(e) *Security classification assignment.* The prescription of a specific security classification for a particular area or item of information. The information involved constitutes the sole basis for determining the degree of classification assigned.

(f) *Security classification category.* The specific degree of classification (Top Secret, Secret or Confidential) assigned to classified information to indicate the degree of protection required.

(1) *Top Secret.* Top Secret refers to national security information or material which requires the highest degree of protection. The test for assigning Top Secret classification shall be whether its unauthorized disclosure could reasonably be expected to cause exceptionally grave damage to the national security. Examples of "exceptionally grave damage" include armed hostilities against the United States or its allies; disruption of foreign relations vitally affecting the national security; the compromise of vital national defense plans or complex cryptologic and communications intelligence systems; the revelation of sensitive intelligence operations; and the disclosure of scientific or technological developments vital to national security. This classification shall be used with the utmost restraint.

(2) *Secret.* Secret refers to that national security information or material which requires a substantial degree of protection. The test for assigning Secret classification shall be whether its unauthorized disclosure could reasonably be expected to cause serious damage to the national security. Examples of "serious damage" include disruption of foreign relations significantly affecting the national security; significant impairment of a program or policy directly related to the national security; revelation of significant military plans or intelligence operations; and compromise of scientific or technological developments relating to national security. The classification Secret shall be sparingly used.

(3) *Confidential.* Confidential refers to that national security information or material which requires protection. The test for assigning Confidential classification shall be whether its unauthorized disclosure could reasonably be expected to cause damage to the national security.

§ 11.5 Procedures.

(a) *General.* Agency instructions on access, marking, safekeeping, accountability, transmission, disposition, and destruction of classification information and material will be found in the EPA Security Manual for Safeguarding Classified Material. These instructions shall conform with the National Security Council Directive of May 17, 1972, governing the classification, downgrading, declassification, and safeguarding of National Security Information.

(b) *Classification.* (1) When information or material is originated within EPA and it is believed to require classification, the person or persons responsible for its origination shall protect it in the manner prescribed for protection of classified information. The information will then be transmitted under appropriate safeguards to the Director, Security and Inspection Division, who will forward it to the department having primary interest in it with a request that a classification determination be made.

(2) A holder of information or material which incorporates classified information properly originated by other agencies of the Federal Government shall observe and respect the classification assigned by the originator.

(3) If a holder believes there is unnecessary classification, that the assigned classification is improper, or that the document is subject to declassification, he shall so advise the Director, Security and Inspection Division, who will be responsible for obtaining a resolution.

(c) *Downgrading and declassification.* Classified information and material officially transferred to the Agency during its establishment, pursuant to Reorganization Plan No. 3 of 1970, shall be declassified in accordance with procedures set forth below. Also, the same procedures will apply to the declassification of any information in the Agency's possession which originated in departments or agencies which no longer exist, except that no declassification will occur in such cases until other departments having an interest in the subject matter have been consulted. Other classified information in the Agency's possession may be downgraded or declassified by the official authorizing its classification, by a successor in capacity, or by a supervisory official of either.

(1) *General Declassification Schedule*—(i) *Top Secret.* Information or material originally classified Top Secret shall become automatically downgraded to Secret at the end of the second full calendar year following the year in which it was originated, downgraded to Confidential at the end of the fourth full calendar year following the year in which it was originated, and declassified at the end of the 10th full calendar year following the year in which it was originated.

(ii) *Secret.* Information and material originally classified Secret shall become automatically downgraded to Confidential at the end of the second full calendar year following the year in which it was originated, and declassified at the end of the eighth full calendar year following the year in which it was originated.

(iii) *Confidential.* Information and material originally classified Confidential shall become automatically declassified at the end of the sixth full calendar year following the year in which it was originated.

(2) *Exemption from the General Declassification Schedule.* Information or material classified before June 1, 1972, assigned to Group 4 under Executive Order No. 10501, as amended, shall be subject to the General Declassification Schedule. All other information or material classified before June 1, 1972, whether or not assigned to Groups 1, 2, or 3, of Executive Order No. 10501, as amended, shall be excluded from the General Declassification Schedule. However, at any time after the expiration of 10 years after the date of origin it shall be subject to a mandatory classification review and disposition in accordance with the following criteria and conditions:

(i) It shall be declassified unless it falls within one of the following criteria:

(a) Classified information or material furnished by foreign governments or international organizations and held by the United States on the understanding that it be kept in confidence.

(b) Classified information or material specifically covered by statute, or pertaining to cryptography, or disclosing intelligence sources or methods.

(c) Classified information or material disclosing a system, plan, installation, project, or specific foreign relations matter, the continuing protection of which is essential to the national security.

(d) Classified information or material the disclosure of which would place a person in immediate jeopardy.

(ii) *Mandatory review of exempted material.* All classified information and material originated after June 1, 1972, which is exempted under any of the above criteria shall be subject to a classification review by the originating department at any time after the expiration of 10 years from the date of origin provided:

(a) A department or member of the public requests a review;

(b) The request describes the document or record with sufficient particularity to enable the department to identify it; and

(c) The record can be obtained with a reasonable amount of effort.

(d) Information or material which no longer qualifies for exemption under any of the above criteria shall be declassified. Information or material which continues to qualify under any of the above criteria shall be so marked, and, unless impossible, a date for automatic declassification shall be set.

(iii) All requests for "mandatory review" shall be directed to:

Director, Security and Inspection Division, Environmental Protection Agency, Washington, D.C. 20460.

The Director, Security and Inspection Division shall promptly notify the action office of the request, and the action office shall immediately acknowledge receipt of the request in writing.

(iv) *Burden of proof for administrative determinations.* The burden of proof is on the originating Agency to show that continued classification is warranted within the terms of this subparagraph (2).

(v) *Availability of declassified material.* Upon a determination under subdivision (ii) of this subparagraph, that the requested material no longer warrants classification, it shall be declassified and made promptly available to the requester, if not otherwise exempt from disclosure under section 552(b) of title 5 U.S.C. (Freedom of Information Act) or other provision of law.

(vi) *Classification review requests.* As required by subdivision (ii) of this subparagraph of this order, a request for classification review must describe the document with sufficient particularity to enable the Department or Agency to identify it and obtain it with a reasonable amount of effort. Whenever a request is deficient in its description of the record sought, the requester should be asked to provide additional identifying information whenever possible. Before denying a request on the ground that it is unduly burdensome, the requester should be asked to limit his request to records that are reasonably obtainable. If nonetheless the requester does not describe the records sought with sufficient particularity, or the record requested cannot be obtained with a reasonable amount of effort, the requester shall be notified of the reasons why no action will be taken and of his right to appeal such decision.

§ 11.6 Access by historical researchers and former Government officials.

(a) Access to classified information or material may be granted to historical researchers or to persons who formerly occupied policymaking positions to which they were appointed by the President: *Provided, however,* That in each case the head of the originating Department shall:

(1) Determine that access is clearly consistent with the interests of the national security; and

(2) Take appropriate steps to assure that classified information or material is not published or otherwise compromised.

(b) Access granted a person by reason of his having previously occupied a policymaking position shall be limited to those papers which the former official originated, reviewed, signed, or received while in public office, except as related to the "Declassification of Presidential Papers," which shall be treated as follows:

(1) *Declassification of Presidential Papers.* The Archivist of the United States shall have authority to review and declassify information and material which has been classified by a President, his White House Staff or special committee or commission appointed by him and which the Archivist has in his custody at any archival depository, including a Presidential library. Such declassification shall only be undertaken in accord with:

(i) The terms of the donor's deed of gift;

(ii) Consultations with the Departments having a primary subject-matter interest; and

(iii) The provisions of § 11.5(c).

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 1—Federal Procurement Regulations

PART 1-3—PROCUREMENT BY NEGOTIATION

Subpart 1-3.9—Subcontracting Policies and Procedures

MAKE-OR-BUY PROGRAMS

This amendment of the Federal Procurement Regulations changes Subpart 1-3.9—Subcontracting Policies and Procedures, by revising § 1-3.902-1 *Review of program,* to provide procedures whereby the Small Business Administration (SBA) representative may appeal a decision regarding a "make-or-buy" program.

Section 1-3.902-1 is amended to read as follows:

§ 1-3.902-1 Review of program.

* * * * *

(g) Before agreeing to a "make-or-buy" program (or consenting to any change therein which, in the opinion of the contracting officer, would reduce the anticipated participation of small business), the procuring activity shall invite the advice and counsel of the SBA by permitting SBA representatives (regularly assigned to the activity) to review all pertinent facts and make recommendations thereon. Such review by SBA should be concurrent with the review by the procuring activity (or, in the case of changes, the contracting officer). Where urgent circumstances do not permit such a concurrent review, or where SBA fails to respond on a timely basis, the contracting officer shall include an explanatory statement in the contract file and shall transmit a copy to the SBA representative. Where the SBA review results in a disagreement between the procuring activity (or, in the case of changes, the contracting officer) and the SBA representatives regarding a "make-or-buy" program decision, SBA may appeal such decision to the head of the procuring activity, or other appropriate level above the contracting officer in accordance with agency procedures. Decisions by the procuring activity shall be final.

* * * * * *

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This regulation is effective December 29, 1972, but may be observed earlier.

Dated: October 31, 1972.

ARTHUR F. SAMPSON,
Acting Administrator of General Services.

V 37-214 NOV 4 72 XUM

[Federal Procurement Regs., Temporary Reg. 27, Supplement 2]

PART 1–3—PROCUREMENT BY NEGOTIATION

Subpart 1–3.12—Cost Accounting Standards

1. *Purpose.* This regulation supplements the interim policies and procedures prescribed in FPR Temporary Regulation 27 to implement the Cost Accounting Standards Board (CASB) rules and regulations with respect to certain negotiated defense contracts and negotiated nondefense contracts in excess of $100,000.

2. *Effective date.* This regulation is effective upon November 1, 1972.

3. *Expiration date.* This regulation will continue in effect until canceled.

4. *Background.* Public Law 91–379, 50 U.S.C. 2168, authorized the establishment of the Cost Accounting Standards Board to prescribe cost accounting standards applicable to negotiated defense contracts as provided by the act. The initial regulations prescribed by the Board appeared in the FEDERAL REGISTER February 29, 1972 (37 F.R. 4139). FPR Temporary Regulation 27 implemented the CASB regulations for negotiated defense contracts.

The CASB regulations also have been made applicable to negotiated nondefense contracts in excess of $100,000 (subject to specified exceptions) by FPR Temporary Regulation 27, Supplement 1 to that regulation postponed the effective date for the application of the CASB regulations to negotiated nondefense contracts from October 1, 1972, to November 1, 1972.

With respect to the Government, extension of the Board's regulations to negotiated nondefense contracts provides for a substantial degree of Government-wide uniformity in its procurement policies and procedures. The effect will be greater uniformity and consistency in the cost accounting practices of contractors and subcontractors.

5. *Agency implementation.* Based on information provided after the issuance of FPR Temporary Regulation 27, it has been deemed desirable to modify the implementation instructions in paragraphs 5a and 7c. Paragraph 5a of that regulation is modified to read:

5. *Agency implementation.* a. Pending the issuance of a permanent amendment to the Federal Procurement Regulations, agencies shall proceed as follows:

(1) In the award of negotiated defense contracts, agencies shall follow the policies and procedures set forth in the FPR (41 CFR 1–1.000 et seq.), except as they may be inconsistent with the promulgations of the Cost Accounting Standards Board (such as 4 CFR 331 et seq.). This regulation does not apply:

(a) To certain small business contracts exempted by the Cost Accounting Standards Board's regulations (see 37 F.R. 10454, May 23, 1972, and 37 F.R. 12784, June 29, 1972);

(b) To contracts where the price is based on established catalog or market prices of commercial items sold in substantial quantities to the general public; or

(c) To contracts where prices are set by law or regulation.

(2) In the award of negotiated nondefense contracts, agencies shall follow the policies and procedures in the FPR (41 CFR 1–1.000 et seq.), the promulgations of the Cost Accounting Standards Board in 4 CFR 331 et seq., 37 F.R. 4139, February 29, 1972, and such additional promulgations of the Cost Accounting Standards Board as are hereafter implemented by the Federal Procurement Regulations. This regulation does not apply:

(a) To certain small business contracts exempted by the Cost Accounting Standards Board's regulations (see 37 F.R. 10454, May 23, 1972, and 37 F.R. 12784, June 29, 1972);

(b) To contracts where the price is based on established catalog or market prices of commercial items sold in substantial quantities to the general public;

(c) To contracts where prices are set by law or regulation;

(d) To contracts with educational institutions subject to FPR 1–15.3 (41 CFR 1–15.3);

(e) To contracts with State and local governments subject to FPR 1–15.7 (41 CFR 1–15.7);

(f) To contracts with hospitals; or

(g) For a period of 120 days from the date hereof, where a firm fixed-price contract is to be awarded after receiving offers from at least two firms not associated with each other: *Providing*, That (1) the solicitation to all competing firms is identical; (2) price is the only consideration in selecting the contractor from among the competing firms solicited; and (3) the lowest offer received in compliance with the solicitation from among those solicited is accepted.

Paragraph 7c is modified as set forth below.

1. Section 1–3.1203 (41 CFR 1–3.1203) is amended by adding the following introductory paragraph:

§ 1–3.1203 Prime contractor disclosure statement.

The notice entitled Disclosure Statement—Cost Accounting Practices and Certification set forth in Attachment A shall be inserted in all solicitations which are likely to result in negotiated contracts exceeding $100,000, except contracts which are exempt under the provisions of paragraph 5 of this regulation.

* * * * *

2. Section 1–3.1204 (41 CFR 1–3.1204) is revised to read as follows:

§ 1–3.1204 Contract clause.

The Cost Accounting Standards clause set forth in Attachment B shall be inserted in all solicitations which are likely to result in negotiated contracts exceeding $100,000, except contracts which are exempt under the provisions of paragraph 5 of this regulation.

ARTHUR F. SAMPSON,
Acting Administrator of General Services.

OCTOBER 31, 1972.

Chapter 5A—Federal Supply Service, General Services Administration

PART 5A–60—CONTRACT APPEALS

PART 5A–73—FEDERAL SUPPLY SCHEDULE PROGRAM

Miscellaneous Amendments

The following amendments are made in chapter 5A:

Subpart 5A–60.2—Rules of the Federal Supply Service on Contract Appeals

Section 5A–60.201(b) is amended to read as follows:

§ 5A–60.201 Notice of appeal.

* * * * *

(b) An appeal must be mailed or otherwise furnished by the contractor within 30 days from the date the decision of the contracting officer is received. Any request for an extension of the 30-day appeal period shall be denied by the contracting officer.

Subpart 5A–73.1—Production and Maintenance

Section 5A–73.119–1(c) is revised and § 5A–73.123–6 is amended, as follows:

§ 5A–73.119–1 Progressive awards.

* * * * *

(c) Progressive awards must not be confused with multiple awards.

§ 5A–73.123–6 Federal supply schedules selected for source inspection.

* * * * *

(b) The contracting officer, prior to preparation of solicitations, shall coordinate with the Office of Standards and Quality Control, Central Office (FMQP), as follows:

(1) To determine whether Federal supply schedule solicitations (other than multiple award) for schedules which are not listed in § 5A–76.317 will contain the source inspection provision in (c), below, and

(2) To advise of any proposed significant changes in Federal supply schedules selected for source inspection now set forth in § 5A–76.317, such as cancellations, splitting, or consolidation of schedules, or transfer of items from one schedule to another.

(c) Contracting officers involved shall include the following clause in each Federal supply schedule solicitation selected for source inspection, quality control, and assigned field contract administration assistance.

SOURCE INSPECTION

(a) Clause 5(a) of GSA Form 1424 is applicable to this solicitation, and the following sentence is added at the end of paragraph 5(a)(1): Notwithstanding the foregoing, the Government may perform any or all tests contained in the contract specifications at a Government facility without prior written notice by the Contracting Officer before release of the supplies for shipment.

(b) Offerors shall complete the following spaces to indicate where supplies will be available for inspection.

Item No.	Name of manufacturing plant or other facility	Address (including county)
.....	.....	.....
.....	.....	.....
.....	.....	.....

(End of Clause)

(d) Promptly after the award of each Federal supply schedule contract containing the source inspection provision, the contracting officer shall furnish:

(1) Each regional Director, Quality Control Division, having cognizance under the contract, with two sets of contract information for each inspection point. Each set consisting of (i) two copies of the solicitation and (ii) two copies of GSA Form 1535 (front page only), Request for Approval of Awards, and pertinent pages of the contract which contain information necessary for source inspection. Where the inspection point(s) is different than the production point, the contracting officer shall include such information on the front page of the GSA Form 1535.

(2) The Quality Control Division, Central Office, with one set only of contract information as described in (1), above.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5–1.101(c))

Effective date. This regulation is effective 30 days from the date shown below.

Dated: October 20, 1972.

M. S. MEEKER,
Commissioner, Federal Supply Service.

[FR Doc.72–18938 Filed 11–3–72;8:51 am]

Title 7—AGRICULTURE

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Sugar Reg. 811, Amdt. 12]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

Requirements, Quotas and Quota Deficits for 1972

Basis and purpose and bases and considerations. This amendment is issued pursuant to the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, as amended; 7 U.S.C. 1101) hereinafter referred to as the "Act." The purpose of this amendment to Sugar Regulation 811, as amended, is to determine and prorate or allocate the deficits in quotas established pursuant to the Act.

Section 204(a) of the Sugar Act of 1948, as amended, provides in part that "The Secretary shall, at the time he makes his determination of requirements of consumers for each calendar year and on December 15 preceding each calendar year, and as often thereafter as the facts are ascertainable by him but in any event not less frequently than each 60 days after the beginning of each calendar year, determine whether, * * * any area or country will not market the quota for such area or country."

The Government of Haiti has informed the Department that they will be able to supply only 22,522 short tons, raw value, of sugar to the United States under its quota for the calendar year 1972. On the basis of this information a deficit of 478 short tons, raw value, is hereby declared for Haiti. Since the Republic of the Philippines and several Western Hemishere countries have notified the Department that they will be unable to supply sugar in addition to their currently established quotas, the entire deficit is herein prorated to Western Hemisphere countries able to supply additional sugar.

It is hereby determined that deficits previously declared and that declared herein constitute all known deficits on which data are currently ascertainable by the Department.

By virtue of the authority vested in the Secretary of Agriculture by the Act, Part 811 of this chapter is hereby amended by amending §§ 811.12 and 811.13 as follows:

1. Section 811.12 is amended by amending paragraph (a) to read as follows:

§ 811.12 Proration and allocation of deficits in quotas.

(a) The total deficits determined in quotas established under section 202 of the Act in short tons, raw value, are as follows: Domestic Beet Sugar Area 292,000; Puerto Rico 680,000; Bahamas 23,667; Bolivia 5,659; Haiti 4,721; and Uganda 15,252. The deficits for the domestic areas and Western Hemisphere countries totaling 1,006,047 tons are reallocated by allocating 275,741 tons to the Republic of the Philippines (the maximum quantity which it can supply in 1972), providing a special allocation of 21,507, 17,950, and 4,415 tons to Costa Rica, Guatemala and Honduras, respectively, and prorating the remainder to Western Hemisphere quota countries on the basis of quotas determined under section 202 of the Act, except such prorotions to the West Indies, Panama, Honduras, Bahamas, and Bolivia are limited so that total quotas for each country will not exceed 206,788, 43,500, 17,495, 61, and 54 tons, respectively. The deficit in the quota for Uganda of 15,252 tons is reallocated by allocating 30.08 percent to the Republic of the Philippines and prorating the remainder on the basis of quotas determined under section 202 of the Act to Eastern Hemisphere quota countries, except Ireland.

* * * * *

2. Section 811.13 is amended by amending paragraph (c) to read as follows:

§ 811.13 Quotas for foreign countries.

(c) For the calendar year 1972, the prorations to individual foreign countries other than the Republic of the Philippines, pursuant to section 202 of the Act, are shown in columns (1) and (2) of the following table. Deficit prorations previously established in this Sugar Regulation 811 are shown in column (3). New deficit prorations established herein are shown in column (4). Total quotas and prorations are shown in column (5).

Countries	Basic quotas	Temporary quotas and prorations pursuant to Sec. 202(d)[1]	Previous deficits and deficit prorations	New deficit prorations	Total quotas and prorations
	(1)	(2)	(3)	(4)	(5)
	(Short tons, raw value)

V37-214 NOV 4 72 XUM

(Secs. 204 and 403; 61 Stat. 925 as amended, and 932; and 7 U.S.C. 1114 and 1153)

Effective date. In order to promote orderly marketing, it is essential that this amendment be effective immediately so that all persons selling and purchasing sugar for consumption in the continental United States can promptly plan and market under the changed marketing opportunities. Therefore, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of 5 U.S.C. 553 is unnecessary, impracticable and contrary to the public interest and this amendment shall be effective when filed for public inspection in the Office of the Federal Register.

Signed at Washington, D.C., on October 31, 1972.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

[FR Doc.72-18970 Filed 11-3-72;8:52 am]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

PART 906—ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

Expense and Rate of Assessment

On October 17, 1972, notice of rule making was published in the FEDERAL REGISTER (37 F.R. 21947) regarding proposed expenses and the related rate of assessment for the period August 1, 1972, through July 31, 1973, pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas. This notice allowed interested persons 10 days during which they could submit written data, views, or arguments pertaining to these proposals. None were submitted. This regulatory program is effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Texas Valley Citrus Committee (established pursuant to said amended marketing agreement and order), it is hereby found and determined that:

§ 906.212 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Texas Valley Citrus Committee during the period August 1, 1972, through July 31, 1973, will amount to $825,000.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 906.34, is fixed at $0.045 per 7/10 bushel carton, or an equivalent quantity of oranges and grapefruit.

It is hereby found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) Shipments of oranges and grapefruit are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular fiscal period shall be applicable to all assessable fruit from the beginning of such period; and (3) the current fiscal period began on August 1, 1972, and the rate of assessment herein fixed will automatically apply to all assessable oranges and grapefruit beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: October 31, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-18920 Filed 11-3-72;8:45 am]

[Valencia Orange Reg. 415, Amdt. 1]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Valencia oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i), and (ii) of § 908.715 (Valencia Orange Regulation 415, 37 F.R. 22874), during the period October 27, through November 2, 1972, are hereby amended to read as follows:

§ 908.715 Valencia Orange Regulation 415.

* * * * *

(b) *Order.* (1) * * *

(i) District 1: 344,000 cartons;

(ii) District 2: 281,000 cartons;

* * * * *

(Sec. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 1, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-18917 Filed 11-3-72;8:45 am]

[Lemon Reg. 558]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.858 Lemon Regulation 558.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are

identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on October 31, 1972.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period November 5 through November 11, 1972, is hereby fixed at 200,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 4 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 2, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-19014 Filed 11-3-72;8:53 am]

[Grapefruit Reg. 86]

PART 912—GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA

Limitation of Handling

§ 912.386 Grapefruit Regulation 86.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 912, as amended (7 CFR Part 912, 37 F.R. 21308), regulating the handling of grapefruit grown in the Indian River District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Indian River Grapefruit Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for the regulation stems from the current market situation which reflects a weakness in prices for Florida Indian River grapefruit and a strong threat that, in the absence of regulation, shipments during next week will be in excess of the market demand. Such excess shipments would, most likely, further depress prices for Florida Indian River grapefruit. The need for the regulation is also based on the prospective marketing conditions. The present market is slow and there are no indications of an improvement in the demand. It is estimated by the committee that after the week ended October 29, 1972, 14,289 carlots of Indian River grapefruit are remaining for interstate shipment. Thus, a regulation is needed to prevent excessive shipments during the week of November 6 through November 12, 1972.

(3) There is not sufficient time to give preliminary notice and engage in public rule-making procedure because (i) determinations as to the need for, and extent of, regulation of volume shipments of such grapefruit must await the availability of information on the demand for such fruit, (ii) information on the current and prospective market conditions during the period November 6 through November 12, 1972, could not be fully evaluated before November 2, 1972, and (iii) shipments likely to be made in the absence of regulation, and the amount of grapefruit needed to satisfy the market demand for the period November 6 through November 12, 1972, could not be anticipated at an earlier date.

(4) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Indian River grapefruit, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time; are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Indian River grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on November 2, 1972.

(b) *Order.* (1) The quantity of grapefruit grown in the Indian River District which may be handled during the period November 6, 1972, through November 12, 1972, is hereby fixed at 100,000 standard packed boxes.

(2) As used in this section, "handled," "Indian River District," "grapefruit," and "standard packed box" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 2, 1972.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-19072 Filed 11-3-72;8:53 am]

[Grapefruit Reg. 52]

PART 913—GRAPEFRUIT GROWN IN THE INTERIOR DISTRICT IN FLORIDA

Limitation of Handling

§ 913.352 Grapefruit Regulation 52.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 913 as amended (7 CFR Part 913), regulating the handling of grapefruit grown in the Interior District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Interior Grapefruit Marketing Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for the regulation stems from the current market situation which reflects a weakness in prices for Florida Interior grapefruit, and a strong threat that shipments during next week, in the absence of regulation, would be in excess of the market demand. Such excess shipments would most likely further depress prices for Florida Interior grapefruit. The need for the regulation is also based on the prospective marketing conditions. The present market is slow and there are no indications of an improvement in the demand. It is estimated by the committee that after the week ended October 29, 1972, 9,759 carlots of Interior grapefruit are remaining for interstate shipment. Thus, a regulation is needed to prevent excessive shipments during the week of November 6 through November 12, 1972.

(3) There is not sufficient time to give preliminary notice and engage in public rule-making procedure because: (1) Determinations as to the need for, and extent of, regulation of volume shipments of such grapefruit must await the availability of information on the demand for such fruit, (2) information on the current and prospective market conditions during the period November 6 through November 12, 1972, could not be fully evaluated before October 31, 1972, and (3) shipments likely to be made in the absence of regulation, and the amount of grapefruit needed to satisfy the market

V 37-214 NOV 4 72 XUM

demand for the period November 6 through November 12, 1972, could not be anticipated at an earlier date.

(4) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Interior grapefruit and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Interior grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on October 31, 1972.

Order. (a) The quantity of grapefruit grown in the Interior District which may be handled during the period November 6 through November 12, 1972, is hereby fixed at 250,000 standard packed boxes.

(b) As used in this section, "handled," "Interior District," "grapefruit," and "standard packed box" have the same meaning as when used in said marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 2, 1972.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 987—DOMESTIC DATES PRODUCED OR PACKED IN RIVERSIDE COUNTY, CALIF.

Expenses and Rate of Assessment for Crop Year 1972–73

Notice was published in the October 19, 1972, issue of the FEDERAL REGISTER (37 F.R. 22387) regarding proposed expenses of the California Date Administrative Committee for the 1972–73 crop year and rate of assessment for that crop year. This action approves such expenses and assessment rate, and is pursuant to §§ 987.71 and 987.72 of the marketing agreement, as amended, and Order No. 987, as amended (7 CFR Part 987). The amended marketing agreement and order regulate the handling of domestic dates produced or packed in Riverside County, Calif., and are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons an opportunity to submit written data, views, or agruments on the proposal. None were received.

After consideration of all relevant matter presented, including that in the notice, the information and recommendations submitted by the California Date Administrative Committee, and other available information, it is found that the expenses of the California Date Administrative Committee and the rate of assessment for the 1972–73 crop year (which began October 1, 1972, and ends September 30, 1973), shall be as follows:

§ 987.317 **Expenses of the California Date Administrative Committee and rate of assessment for the 1972–73 crop year.**

(a) *Expenses.* Expenses in the amount of $29,899 are reasonable and likely to be incurred by the California Date Administrative Committee during the 1972–73 crop year beginning October 1, 1972, for its maintenance and functioning, and for such other purposes as the Secretary may, pursuant to the applicable provisions of this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for that crop year which each handler is required, pursuant to § 987.72, to pay to the California Date Administrative Committee as his pro rata share of the expenses is fixed at 10 cents per hundredweight on all assessable dates. Assessable dates are dates which the handler has certified during the crop year as meeting the requirements for marketable dates, including the eligible portion of any fieldrun dates certified and set aside or disposed of pursuant to § 987.45(f).

It is further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular crop year shall be applicable to all dates certified during that crop year as meeting the requirements for marketable dates, including the eligible portion of certain fieldrun dates; and (2) the current crop year began October 1, 1972, and the rate of assessment herein fixed will automatically apply to all such dates beginning with that date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 1, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-18972 Filed 11-3-72;8:50 am]

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Expenses and Rate of Assessment Crop Year 1972–73

Notice was published in the October 20, 1972, issue of the FEDERAL REGISTER (37 F.R. 22625) regarding proposed expenses of the Raisin Administrative Committee for the 1972–73 crop year and rate of assessment for that crop year, pursuant to §§ 989.79 and 989.80 of the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989; 37 F.R. 19621, 20022), regulating the handling of raisins produced from grapes grown in California. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons opportunity to submit written data, views, or arguments with respect to the proposal. None were received during the prescribed time.

After consideration of all relevant matter presented, including that in the notice, the information and recommendations submitted by the Raisin Administrative Committee, and other available information, it is found that the expenses of the Raisin Administrative Committee and the rate of assessment for the crop year beginning September 1, 1972, shall be as follows:

§ 989.323 **Expenses of the Raisin Administrative Committee and rate of assessment for the 1972–73 crop year.**

(a) *Expenses.* Expenses (other than those specified in § 989.82) in the amount of $193,700 are reasonable and likely to be incurred by the Raisin Administrative Committee during the crop year beginning September 1, 1972, for the maintenance and functioning of the committee and the Raisin Advisory Board and for such purposes as the Secretary may, in accordance with § 989.79, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for that crop year which each handler is required, pursuant to § 989.80, to pay to the Raisin Administrative Committee as his pro rata share of the expenses is fixed at $1.90 per ton applicable to each of the following:

(1) Free tonnage raisins acquired by the handler during the crop year, exclusive of such quantity thereof as represents the assessable portions of other handlers' raisins pursuant to subparagraph (3) of this paragraph;

(2) Reserve tonnage raisins released or sold to the handler for use as free tonnage during the crop year; and

(3) Standard raisins (which he does not acquire) recovered by the handler by the reconditioning of off-grade raisins but only to the extent of the aggregate quantity of the free tonnage portions of these standard raisins that are acquired by other handlers during the crop year.

It is further found that good cause exists for the not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of said amended marketing agreement and order require that the rate of assessment fixed for a particular crop year which handlers are required to pay shall be applicable to all free tonnage raisins of the crop year and to all reserve tonnage raisins released or sold to handlers for use as free tonnage during the crop year; and (2) the current crop year began on September 1, 1972, and the rate of assessment fixed herein will automatically apply to all such raisins beginning with that date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 1, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

V37-214 NOV 4 72 XUM

Proposed Rule Making

FEDERAL POWER COMMISSION

[18 CFR Part 260]

[Docket No. R-308]

GAS PIPELINE COMPANIES

Annual Report of Total Gas Supply; Proposed Form

OCTOBER 31, 1972.

Notice is hereby given pursuant to section 553 of title 5 of the United States Code and sections 10, 14, and 16 of the Natural Gas Act (52 Stat. 826, 15 U.S.C. 717i; 52 Stat. 828, 15 U.S.C. 717m; and 52 Stat. 830, 15 U.S.C. 717o) that the Commission proposes to amend paragraph (a) of § 260.7 of Part 260—Statements and Reports (Schedules); Subchapter G—Approved Forms, Natural Gas Act; Chapter I, Title 18 of the Code of Federal Regulations to prescribe a revised FPC Form No. 15, Annual Report of Total Gas Supply, for the reporting year 1971 and thereafter.

In the proceeding in Docket No. R-239 the Commission proposed to require the filing, as part of the then-proposed Form No. 15, of certain detailed reservoir reserve estimate, contractual, and deliverability data. These data were to be submitted on electric accounting punch cards, electric data processing magnetic tape, or paper tape. By Order No. 279, issued March 31, 1964 (31 FPC 750), the Commission promulgated § 260.7 of its statements and reports (Schedules) prescribing Form No. 15 which did not include the detailed reservoir reserve estimate, contractual, and deliverability data to be filed in automatic data processing (ADP) media. The then-prescribed report was designated as the first phase and further consideration of the requirements for filing the additional detailed data was deferred as the second phase.

By notice issued in the instant proceeding on September 22, 1966 (31 F.R. 12729, September 29, 1966), the Commission proposed to require the filing of first phase data in ADP media. By Order No. 337 issued February 16, 1967 (37 FPC 326) the Commission deferred requiring the submission of Form No. 15 in ADP media and revised § 260.7 by requiring the filing of a revised Form No. 15 with minor changes. The instant proceeding was continued by said order.

By notice issued in the instant proceeding on November 11, 1968 (33 F.R. 17195, November 20, 1968), the Commission proposed both substantial and minor revisions in Form No. 15. By Order No. 399 issued April 27, 1970 (43 FPC 563), the Commission amended § 260.7 by requiring the filing of revised Form No. 15 with minor changes. The instant proceeding was continued by said order.

Since the issuance of Order Nos. 337 and 399, it has become evident to the Commission that it should have the second phase reservoir data in order to establish criteria to check the reasonableness of the data filed by any single company and to evaluate independently the data filed by parties to Commission proceedings. This will also permit the Commission through ADP methods to have an instant check on the current Form No. 15 deliverability status of each interstate natural gas pipeline company. Accordingly, it was proposed to amend Form No. 15 by the addition of new Schedule Nos. 4 and 5 for the collection of reservoir data and flow test data for nonassociated gas completions, respectively. The second phase contractual data are presently being collected as part of independent producer rate schedule filings.

In addition to the new schedules, the Commission proposed to revise the instructions to Form No. 15 by permitting the filing of all schedules in ADP media. A magnetic tape prepared for the electronic computer, accompanied by a verified, attested electronic computer printout, will be the preferred form for filing the report. The Commission recognizes that all companies may not have the resources or their modes of operation do not include the use of the electronic computer and, therefore, filing of the report in ADP media will be optional. It is the Commission's plan, however, eventually to require all companies to report in ADP media.

The amendment proposed herein would be made under authority granted to the Federal Power Commission by the Natural Gas Act, as amended, particularly sections 10, 14, and 16 thereof (52 Stat. 826, 15 U.S.C. 717i; 52 Stat. 828, 15 U.S.C. 717m; and 52 Stat. 830, 15 U.S.C. 717o).

Accordingly, it is proposed to amend paragraph (a) of § 260.7 of Part 260—Statements and Reports (Schedules); Subchapter G—Approved Forms, Natural Gas Act; Chapter I, Title 18 of the Code of Federal Regulations, to read as follows:

§ 260.7 Form No. 15, annual report of gas supply for certain natural gas companies.

(a) A revised form of Annual Report of Total Gas Supply, designated FPC Form 15, is prescribed for the reporting year 1971 and thereafter to be used by natural gas companies as provided by and in accordance with paragraph (b) of this section.

* * * * *

It was further proposed to revise Form No. 15 by adding new Schedule Nos. 4 and 5 and by permitting the filing of all schedules in ADP media.

It is herein proposed to revise Form No. 15 by substituting three schedules to replace the previously proposed five schedules and adding a fourth special schedule for gas not directly related to wells, reservoirs and fields, all as set forth in Appendix A hereto.[1]

It is further proposed that the newly proposed Schedule No. 4 be used to replace Form No. 15–A. Companies which formerly filed Form No. 15–A under these regulations need file only Schedule No. 4 of this revised Form No. 15 and the Table of Contents and Page No. 47, which is the Synopsis of Pipeline Company Gas Supply with Attestations. Such companies would not be required to file Schedule Nos. 1, 2, and 3 of this revised Form No. 15.

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than November 27, 1972, data, views, comments, or suggestions in writing concerning the amended regulation and revised form. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C., during regular business hours. The Commission will consider all such written submittals before acting on the matters herein proposed. An original and 14 conformed copies should be filed with the Secretary of the Commission. In addition, interested persons wishing to have their comments considered in the clearance of the revised report form under the provisions of the Federal Reports Act of 1042, 44 U.S.C. 3501–3511, may at the same time submit a conformed copy of their comments directly to the Clearance Officer, Office of Statistical Policy, Office of Management and Budget, Washington, D.C. 20503. Submittals to the Commission should indicate the name, title, mailing address, and telephone number of the person to whom communications concerning the proposals should be addressed and whether the person filing them requests a conference with the staff of the Federal Power Commission to discuss the proposed amendment and revision. The staff, in its discretion, may grant or deny requests for conference.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

CIVIL AERONAUTICS BOARD

[14 CFR Part 239]

[Docket No. 24510, EDR-234A]

FREIGHT LOSS AND DAMAGE CLAIMS BY CERTAIN AIR CARRIERS AND FOREIGN ROUTE AIR CARRIERS

Proposed Reporting Data; Extension of Time for Comments

NOVEMBER 1, 1972.

By circulation of notice of rule making EDR-234, dated September 29, 1972, and published at 37 F.R. 21175 (October 6, 1972), the Board gave notice that it had under consideration proposed amendments to Part 239 of its regulations (14 CFR Part 239). These proposals would modify certain definitions of terms used in the part and other provisions thereof. Interested persons were invited to file comments with the Board on or before November 7, 1972.

On October 25, 1972, certain carrier members of Air Transport Association of America (ATA) and Airlift International, Inc., requested an extension of 30 days for the filing of comments.

It is maintained that 12 days of the time within which to prepare comments was lost since the Board's notice was not issued until October 10, although dated September 29, 1972, and that the additional time requested is needed to study the proposed rule and to prepare and file meaningful comments.

The above allegation that 12 days of the time to prepare comments was lost because the notice was not issued until October 10th, although dated September 29th, is not factually accurate. The notice was published in the FEDERAL REGISTER on October 6, 1972 (37 F.R. 21175) and the 30 days intended to be allowed for the filing of comments was computed from such date. Considering that the proposed rule making does not involve novel issues but rather relates to refinements of existing regulations and that the carriers are familiar with the issues raised, and in the interest of completing this rule making proceeding in sufficient time to enable the new requirements, if any, to become effective as of January 1, 1973, the undersigned finds that an extension of time of more than 15 days would not be warranted.

Accordingly, pursuant to the authority delegated in § 385.20(d) of the Board's Organization Regulations, the undersigned hereby extends the time for submitting comments to November 22, 1972.

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324)

Bureau of Narcotics and Dangerous Drugs

[21 CFR Part 308]

SCHEDULES OF CONTROLLED SUBSTANCES

Exempt Chemical Preparations

The Director of the Bureau of Narcotics and Dangerous Drugs has received applications pursuant to § 308.23 of Title 21 of the Code of Federal Regulations requesting that several chemical preparations containing controlled substances be granted the exemptions provided for in § 308.24 of Title 21 of the Code of Federal Regulations.

Therefore, under the authority vested in the Attorney General by sections 301 and 501(b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 821 and 871(b)) and redelegated to the Director of the Bureau of Narcotics and Dangerous Drugs by § 0.100 of Title 28 of the Code of Federal Regulations, the Director hereby proposes that Part 308 of Title 21 of the Code of Federal Regulations be amended as follows:

a. By amending § 308.24(i) by adding the following chemical preparations:

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 966]

[Amdt. 1]

TOMATOES GROWN IN FLORIDA

Proposed Limitation of Shipments

Consideration is being given to the issuance of an amendment to the limitation of shipments regulation, as hereinafter set forth. This proposal was recommended by the Florida Tomato Committee, established pursuant to Marketing Agreement No. 125 and Marketing Order No. 966, both as amended (7 CFR Part 966), regulating the handling of tomatoes grown in the Florida production area. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit data, views, or arguments with respect to this proposal may file the same with the Hearing Clerk, Room 112, U.S. Department of Agriculture, Washington, D.C. 20250, not later than November 10, 1972. Written submissions received pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed amendment would reduce the minimum and maximum diameters of each size classification presently in effect by one thirty-second of an inch to become effective on or about November 15, 1972. This reduction would result in the Florida tomato industry's size classifications becoming closer to those used in other tomato production areas while still remaining within the size arrangements set forth in § 51.1860 of the U.S. Standards for Grades of Tomatoes, but without its overlap between sizes.

Regulation, as proposed to be amended. In § 966.310 (37 F.R. 21423), the size classification paragraphs are amended to read as follows:

§ 966.310 Limitation of shipments.

• • • • • •

(a) • • •
(1) • • •

Size classification:	*Diameter (inches)*
7 by 8	2 3/32 and smaller.
7 by 7	Over 2 3/32 to 2 9/32, inclusive.
6 by 7	Over 2 9/32 to 2 17/32, inclusive.
6 by 6	Over 2 17/32 to 2 27/32, inclusive.
5 by 6 and larger	Over 2 27/32.

Measurement of diameters shall be in accordance with the methods prescribed in the U.S. Standards for Grades of Fresh Tomatoes (§§ 51.1855 to 51.1877 of this title).

(2) Tomatoes of designated sizes may not be commingled unless they are over 2 17/32 inches in diameter and each container shall be marked to indicate the designated size.

(3) To allow for variations incident to proper sizing, not more than a total of ten (10) percent, by count, of the tomatoes in any lot may be smaller than the specified minimum diameter or larger than the maximum diameter.

• • • • • •

Dated: October 31, 1972.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

SCHEDULES OF CONTROLLED SUBSTANCES

Proposed Addition of Certain Substances

All interested persons are invited to submit their comments and objections in writing regarding this proposal. Comments and objections should be submitted in quintuplicate to the Office of Chief Counsel, Attention: Hearing Clerk, Bureau of Narcotics and Dangerous Drugs, Department of Justice, Room 611, 1405 I Street NW., Washington, DC 20537, and must be received no later than November 30, 1972.

Dated: October 30, 1972.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

[7 CFR Part 1050]

MILK IN THE CENTRAL ILLINOIS MARKETING AREA

Notice of Proposed Suspension of Certain Provisions of the Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the suspension of certain provisions of the order regulating the handling of milk in the central Illinois marketing area is being considered for the month of November 1972.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 3 days from the date of publication of this notice in the FEDERAL REGISTER. All documents filed should be in quadruplicate.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The provisions proposed to be suspended are as follows: In § 1050.14, paragraphs (c) (2) and (3).

STATEMENT OF CONSIDERATION

The proposed suspension would remove for the month of November 1972 the limitations on the proportion of each producer's monthly milk production that may be diverted as producer milk from a pool plant to a nonpool plant. A similar suspension was in effect for the month of October 1972.

Associated Milk Producers, Inc., requests this suspension for another month in order to enable a large number of its member producers to maintain producer status under the order for November and thereby continue receiving the uniform price for their milk, pursuant to the order.

On October 4, 1972, a large distributing plant to which many of this association's member producers shipped their milk ceased all receiving and processing operations. Since that time the cooperative association has been attempting to find alternative outlets for the milk of these producers.

The association states that the milk of some of these producers has been accommodated on another market via shipment through a reload station at McConnell, Illinois. It is claimed, however, that the remaining volume of milk cannot be brought through this reload point due to the distance involved, or can it be economically assembled in the small trucking equipment and transported long distances to other markets. According to the association there are not sufficient reload points in the area to accommodate this problem.

While an arrangement has been made with another handler in the market to receive this remaining volume of milk for 1 day in the month, this handler cannot receive this milk on a regular basis. The cooperative claims that more time is required to find satisfactory outlets for the milk.

This suspension of diversion limits will afford the cooperative an opportunity to divert the milk of these member producers, thereby maintaining their producer status under the order, and provide the association the needed time to obtain other marketing arrangements with respect to the milk of these producers who have supplied the market for many years.

Signed at Washington, D.C., on November 1, 1972.

E. L. PETERSON,
Administrator, Agricultural Marketing Service.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[24 CFR Part 1270]

[Docket No. R-72-218]

LOW-RENT HOUSING HOMEOWNERSHIP OPPORTUNITIES

Notice of Proposed Rule Making

Notice is hereby given that the Department of Housing and Urban Development proposes to amend Title 24 of the Code of Federal Regulations by adding a new Chapter XII. Chapter XI and Parts 1200 through 1269 and 1271 through 1299 are reserved. A notice of availability of material relating to public housing homeownership opportunity programs was published in the FEDERAL REGISTER on September 3, 1971. The following proposed amendment, which sets forth the essential elements of the HUD Homeownership Opportunities Program for Low-Income Families (Turnkey III), is a substantial revision of the material made available on September 3, 1971, and is therefore being published at this time for comment.

A significant revision is in the method of determining the purchase price of a home buyer's home. In order to bring the purchase price of the home more in line with that of comparable privately built homes, relocation costs, costs of counseling and training, and the cost of any community buildings are not included in the estimated development cost used in computing the purchase price. To enable computation of a firm purchase price when occupancy begins, the price will be determined from the estimated cost based on the development cost budget, rather than actual development cost, and the home buyer will be

V 37-214 NOV 4 72 XUM

furnished a purchase price (i.e. amortization) schedule based on this estimate.

To provide greater assurance that a homeowner will be able to meet the obligations of homeownership, the eligibility limit for continued occupancy with the aid of HUD annual contributions is being set at the level at which 20 (instead of 25) percent of adjusted monthly income equals or exceeds the home-buyer's monthly housing cost.

The following forms and guides are being provided: Annual contributions contract—special provisions for Turnkey III homeownership opportunity project; home-buyers ownership opportunity agreement (Turnkey III); Articles of Incorporation and Bylaws of Home Buyers Association; recognition agreement between local housing authority and Home Buyers Association; promissory note for payment upon resale by home buyer at profit; and content guide for counseling and training program.

To provide for greater local flexibility, specific guidelines are not offered with respect to citizens participation committees.

Interested parties are invited to submit written comments, suggestions, or objections regarding the proposed amendment, by December 5, 1972, addressed to the Rules Docket Clerk, Office of the General Counsel, Room 10256, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410. All relevant material will be considered before adoption of a final rule. A copy of each communication will be available for public inspection during regular business hours at the above address.

The proposed rule is issued pursuant to 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Issued at Washington, D.C., October 31, 1972.

GEORGE ROMNEY,
Secretary of Housing and Urban Development.

Subpart A—Introduction to Low-Rent Housing Homeownership Opportunity Program

§§ 1270.1–1270.100 [Reserved]

Subpart B—Turnkey III Program Description

§ 1270.101 Introduction.

(a) *Purpose.* This subpart sets forth the essential elements of the HUD homeownership opportunities program for low-income families (Turnkey III). It is intended to enable local housing authorities to develop homeownership programs to provide low-income families with an opportunity to become homeowners through Federal assistance in the form of annual contributions to the local housing authority. In the early planning stages, such local authorities should consult with the appropriate HUD area office so as to develop a homeownership project best suited to their own particular needs. A local housing authority may develop or acquire dwelling units for this program through any low-rent public housing program production method (except leasing).

(b) *Applicability.* This subpart shall be applicable to all Turnkey III projects, including projects under development or in operation as follows:

(1) With respect to projects under development pursuant to an executed annual contributions contract (ACC) where no home-buyers ownership agreements have been signed, the ACC shall be amended: (i) To include the "Special Provisions for Turnkey III Homeownership Opportunity Project" as set forth in Appendix I; (ii) to extend its term to 30 years; and (iii) to reduce its maximum contribution percentage to a rate that will amortize the debt in 30 years at the minimum loan interest rate specified in the ACC. Further development and operation of the project shall be in accordance with this subpart including use of the form of home-buyers ownership opportunity agreement set forth in Appendix II.

(2) With respect to projects under development or in operation where home-buyers ownership agreements have been signed, the following steps shall be taken:

(i) The annual contributions contract shall be amended to include the "Special Provisions for Turnkey III Homeownership Project No. ------" as set forth in Appendix I and further development and operation of the project shall be in accordance with this subpart.

(ii) The LHA shall offer all qualified home buyers in the project a new home-buyers ownership opportunity agreement as set forth in Appendix II with an amendment to section 14(a) to refer to "the latest approved Development Cost Budget, or Actual Development Cost Certificate if issued," in lieu of "the Development Cost Budget in effect upon award of the Main Construction Contract or execution of the Contract of Sale," and an amendment to section 14(b) to refer to a term of 25 years, instead of 30, for the purchase price schedule. Each purchase price shall commence with the first day of the month following the effective date of the former home-buyers ownership agreement. No home buyer shall be required to accept the new agreement.

(iii) For each home buyer who has not accepted the new home-buyers ownership opportunity agreement, the LHA shall provide a purchase price schedule showing the amortization of the development cost attributable to

the home as the monthly declining purchase price in accordance with the provisions of § 1270.114 except: (*a*) A 25-year amortization period shall be used; (*b*) the development cost for each home shall be computed on the basis of the latest approved development cost budget, or the actual development cost certificate if issued.

§ 1270.102 Definitions.

(a) The term "HUD" means the Department of Housing and Urban Development which provides the LHA's with financial assistance through loans and annual contributions and technical assistance in the development and operation of the project.

(b) The term "LHA" means the local housing authority which acquires or develops a low-rent housing development with financial assistance from HUD, owns all the homes until titles are transferred to the home buyers, and is responsible for the management of the homeownership program.

(c) The term "home buyers" means low-income families who have entered into Home Buyers Ownership Opportunity Agreements with the LHA.

(d) The term "home buyers association" (HBA) means an association comprised of home buyers whom it represents in dealings with the LHA and others.

(e) The term "homeowners" means home buyers who have acquired title to their homes.

(f) The term "homeowners association" means an association comprised of homeowners, having responsibilities with respect to common property of the project, including condominium associations.

(g) The term "Community Participation Committee" (CPC) means a voluntary group, made up of representatives of the low-income population primarily and representatives of community service organizations, which may be utilized by the LHA to assist in the development and ongoing support of a homeownership program.

§ 1270.103 Project development.

(a) *Financial framework.* The LHA shall finance development or acquisition of the project by sale of its notes (bond financing shall not be used). The principal amount of these notes shall be the capital debt of the project. Payment of the debt service is assured by HUD commitment to provide debt service annual contributions to the LHA based on a 30-year amortization period.

(b) *Contractual framework.* Underlying this arrangement are three basic contracts:

(1) An annual contributions contract containing "Special Provisions For Turnkey III Homeownership Opportunity Project," Form HUD–53010C (see appendix I);

(2) A Home Buyers Ownership Opportunity Agreement (see appendix II), which sets forth the respective rights and obligations of the low-income occupants and the LHA, including conditions for achieving homeownership; and

(3) A Recognition Agreement (see appendix II of Subpart C of this part) between the LHA and HBA under which the LHA agrees to recognize the HBA as the established representative of the homebuyers.

(c) *Community Participation Committee (CPC).* In the necessary development of citizens participation and understanding, the LHA should consider formation and use of a CPC, made up of interested citizens, to promote the project.

§ 1270.104 Eligibility and selection of home buyers.

(a) *Eligibility.* Home buyers shall be low-income families as determined in accordance with the income definitions and limits established by the LHA for the program and approved by HUD. The LHA shall determine the eligibility of each applicant as to income and shall select home buyers from among the list of eligible applicants.

(b) *Standards for Admission.* The HUD-approved standards for admission to low-rent housing, including the LHA's established priorities and preferences, and the requirements for administration of low-rent housing under title VI of the Civil Rights Act of 1964 (Public Law 88–352, 78 Stat. 241, 42 U.S.C. 2000a), shall be applicable except for the plan for selection of applicants as provided in §------ of this chapter. The LHA shall use the procedures set forth in paragraph (c) of this section for home buyer selection under the Turnkey III homeownership program. In carrying out these procedures the aim of the LHA shall be to provide for equal housing opportunity in such a way as to prevent segregation or other discrimination on the basis of race, creed, color, or national origin, in accordance with the Civil Rights Acts of 1964 (Public Law 88–352, 78 Stat. 241, 42 U.S.C. 2000a) and 1968 (Public Law 90–284, 82 Stat. 73, 18 U.S.C. 245);

(c) *Selection of home buyers.* Fair and objective procedures for home buyer selection shall be established as follows:

(1) *Availability of housing.* The availability of housing under the homeownership program shall be announced to the community at large.

(2) *List of applicants.* A separate list of applicants for the homeownership program shall be maintained, consisting of families who specifically apply for admission to such housing.

(3) *Dating of applications.* All applications for the homeownership program, including those from families on the waiting list for conventional housing and families in occupancy in such housing shall be dated as received.

(4) *Effect on applicant status.* The filing of an application for the homeownership program by a family which is an applicant for rental public housing or an occupant of such housing shall in no way affect its status with regard to rental public housing. Such applicants shall not lose their place on the rental public housing waiting list until they are accepted for the homeownership program, and such occupants shall not receive any different treatment or consideration than other occupants because of their having applied for the homeownership program.

(5) *Selection process.* (i) The LHA shall determine the eligibility of the family in respect to the income limits for the development. The LHA shall then assign each applicant his appropriate place on a waiting list for the development, in sequence based upon the date and time his application is received, suitable type or size of unit, and factors affecting preference or priority established by the LHA's regulations. Selection shall be made from the resulting list of eligible applicants by the LHA or a recommending committee. If a recommending committee is used it shall be composed of representatives of the CPC (if any), the LHA, and the HBA after it is formed. Where such a committee is utilized, it shall establish the criteria for selection and shall recommend qualified applicants to the LHA which shall make the final determination of acceptability. The LHA shall submit to the committee prompt written justification of any rejection, stating grounds, the reasonableness of which shall be in accord with HUD regulations and the LHA's HUD-approved regulations.

(ii) The selection criteria and procedures whether established by the LHA or the recommending committee shall insure the following:

(*a*) Selection of those applicants who have the greatest potential for homeownership;

(*b*) Protection of the applicant's constitutional rights, and selection on a basis that does not automatically deny admission to a particular class and that does insure selection on a nondiscriminatory basis;

(*c*) Achievement of an average monthly payment for the project, including consideration of the availability of the Special Family Subsidy, which is at least 10 percent more than the break-even amount (see § 1270.108); and

(*d*) Priority in selection to homebuyer families who have at least one member gainfully employed or who has potential for gainful employment.

(6) *Selection of lower income families.* If there are applicants who have a potential for homeownership but whose required monthly payment under the LHA's rent schedule would be less than the break-even amount (see § 1270.108), the LHA may select them as homebuyers. However, in any event, the initial and subsequent selection of homebuyers by the LHA shall result in an average monthly payment, including consideration of the availability of the Special Family Subsidy for the project, which is at least 10 percent more than the break-even amount. Such an average monthly payment may be achieved by selecting some low-income families who can afford to make required monthly payments substantially above the break-even amount.

(7) *Notification to applicants.* (i) Applicants who are determined to be eligible for admission to the development shall be notified of the approximate date of

V37-214 NOV 4 72 XUM

occupancy insofar as such date can reasonably be determined.

(ii) Applicants who are not selected for a specific homeownership development shall be so notified in accordance with HUD-approved procedure. The notice shall state the reason for the applicant's rejection (including a nonrecommendation by the recommending committee unless the applicant has previously been so notified by the committee), and provide the applicant, upon request, within a reasonable time after the determination is made, with an opportunity for an informal hearing on such determination regardless of the reason for the rejection.

(d) *Eligibility for continued occupancy.* (1) The home buyer shall cease to be eligible for continued occupancy with the aid of HUD annual contributions when the LHA determines that his adjusted monthly income has reached the level, and is likely to continue at such level, at which 20 percent thereof equals or exceeds the monthly housing cost (see subparagraph (2) of this paragraph). In such event, if the LHA determines, with HUD approval, that suitable financing (such as a subsidized or unsubsidized HUD insured mortgage, or a VA-guaranteed loan) is available, the LHA shall notify the home buyer that he shall either: (i) Purchase the home or (ii) move from the project; *Provided, however*, That if the LHA determines that, due to special circumstances, the homebuyer is unable to find decent, safe, and sanitary housing within his financial reach although making every reasonable effort to do so, the home buyer may be permitted to remain for the duration of such a situation if he pays an increased rent consistent with his increased income. This rent shall not, however, exceed the greater of the sum of the monthly breakeven amount plus the monthly debt service amount shown on the purchase price schedule for the home, or the rent for comparable unsubsidized housing in the locality. Such an increased rent shall also be payable by the home buyer if he continues in occupancy without purchasing the home because suitable financing is not available.

(2) The term "monthly housing cost," as used in this paragraph, means the sum of: (i) The monthly debt service amount shown on the Purchase Price Schedule (except where the home buyer can purchase the home by the method described in § 1270.114(c)(1) of this subpart); (ii) one-twelfth of the annual real property taxes which the home buyer will be required to pay as a homeowner; (iii) the current monthly per unit amount budgeted for routine maintenance (EHPA), Nonroutine Maintenance Reserve, and routine maintenance-common property; and (iv) the current LHA and HUD approved monthly allowance for utilities paid for directly by the home buyer plus the monthly cost of utilities supplied by the LHA.

§ 1270.105 Counseling of home buyers.

The LHA shall provide counseling and training as provided in Subpart C of this part. It shall be funded as provided in § 1270.206 of this part. Applicants for admission to the project shall be advised of the nature of the counseling and training program available to them and the application for admission shall include a statement by the applicant that he and his family shall participate and cooperate fully in all official preoccupancy and postoccupancy training activities. Failure to participate as agreed may result in the family not being selected or retained as a home buyer.

§ 1270.106 Home buyers Association (HBA).

A Home-Buyer Association (HBA) is an incorporated organization composed of all the families who have entered into Home-Buyers Ownership Opportunity Agreements. It is formed and organized for the purposes set forth in § 1270.304. The HBA shall be funded as provided in § 1270.305.

§ 1270.107 Responsibilities of homebuyer.

(a) *Repair, maintenance, and use of home.* Each homebuyer shall be responsible for the routine maintenance of his dwelling and grounds to the satisfaction of the HBA and the LHA. This routine maintenance includes the work (labor and materials) of keeping the dwelling structure, grounds, and equipment in good repair, condition, and appearance so that they may be utilized continually at their designed capacities and at the satisfactory level of efficiency for their intended purposes, and in conformity with the requirements of local housing codes and applicable regulations and guidelines of HUD. It includes repairs (labor and materials) to the dwelling structure, plumbing fixtures, dwelling equipment (such as range and refrigerator), shades and screens, water heater, heating equipment, and other component parts of the dwelling. It also includes all interior painting and the maintenance of grounds (lot) on which the dwelling is located. It does not include maintenance and replacements provided for by the Nonroutine Maintenance Reserve described in § 1270.111.

(b) *Repair of damage.* In addition to his obligation for routine maintenance, each homebuyer shall be responsible for repair of any damage caused by him or members of his family.

(c) *Care of home.* A homebuyer shall keep his dwelling in a sanitary condition; cooperate with the LHA and HBA in keeping and maintaining the common area and property, including fixtures and equipment, in good condition and appearance; and follow all rules of the LHA and of the HBA concerning the use and care of the dwellings and the common areas and property.

(d) *Inspections.* A homebuyer shall agree to permit officials, employees, or agents of the LHA and of the HBA to inspect his home at reasonable hours and intervals in accordance with rules established by the LHA and the HBA.

(e) *Use of home.* A homebuyer shall not: (1) Sublet his home without the prior written approval of the LHA and HUD, (2) use or occupy his home for any unlawful purpose nor for any purpose deemed hazardous by insurance companies on account of fire or other risks, or (3) provide accommodations (unless approved by the HBA and the LHA) to boarders or lodgers. Each homebuyer shall agree to use the home only as a place to live for himself and his family (as identified in his initial application or by subsequent amendment with the approval of the LHA), for children thereafter born to or adopted by members of such family, and for aged or widowed parents of the homebuyer or his spouse who may join the household.

(f) *Structural changes.* A homebuyer shall not make any structural changes in or additions to his home without first obtaining the written consent of the HBA and the LHA.

(g) *Charges.* The LHA shall agree to accept monthly payments without regard to any charges otherwise owed by the homebuyer to the LHA, and without regard to other rights and remedies applicable with respect to such other charges.

(h) *Statement of condition and repair.* When each homebuyer moves in, the LHA shall inspect the home and shall give the homebuyer a written statement, to be signed by the LHA and the homebuyer, of the condition of the home and the equipment in it. Should the homebuyer vacate the home, the LHA shall inspect it and give the homebuyer a written statement of the repairs and other work, if any, required to put the home in good condition for the next occupant (see § 1270.113). The homebuyer and/or his representative may join in any such inspections with the LHA and the HBA.

(i) *Maintenance of common property.* The home buyer may participate in nonroutine maintenance of his home and in maintenance of common property as discussed in § 1270.110(d) and § 1270.111(c).

(j) *Home buyer's required monthly payment.* (1) The term "required monthly payment" as used herein means the monthly payment the home buyer is required to pay to the LHA on or before the first day of each month. Except as otherwise provided in subparagraph (2) of this paragraph, the required monthly payment shall be an amount equal to 20 to 25 percent of the home buyer's adjusted monthly income (depending on the LHA's established rent schedule), less a monthly allowance for those utilities which the home buyer pays for directly.

(2) Notwithstanding the above, the required monthly payment, plus the monthly allowance for utilities supplied by the home buyer, shall not exceed 25 percent of the family's adjusted monthly income as defined by HUD in accordance with the Act.

(3) The required monthly payment may be adjusted as a result of the LHA's regular scheduled or specially scheduled reexamination of the home buyer's income and family composition. Interim changes may be made in accordance with the LHA's policy on reexaminations. If a homebuyer requests a rent adjustment based on circumstances not covered by the LHA's policy, an adjustment may be made if both the LHA and the HBA agree that the circumstances warrant it.

(4) The required monthly payment may also be adjusted by changes in the required percentage of income due to changes in operating expenses as described in § 1270.109 and also to reflect changes made in the amount of the utility allowance to reflect current utility costs.

(k) *Assignment and survivorship.* Until such time as the home buyer acquires ownership of his home it shall be used only to house a family of low income. Therefore:

(1) A home buyer shall not assign any right or interest in his home or under his Home Buyers Ownership Opportunity Agreement without the prior written approval of the LHA and HUD;

(2) At the time of execution of his Home Buyers Ownership Opportunity Agreement, the home buyer shall designate a relative or household member who shall be his successor as a home buyer in the event of the home buyer's death, mental incapacity, or abandonment of family. The designee shall succeed the home buyer upon the occurrence of such an event unless the designee is then determined by the LHA and HUD to be no longer qualified.

(l) *Termination of occupancy.* (1) Should a home buyer breach his Home Buyers Ownership Opportunity Agreement, by failure to make his monthly payment or otherwise (including but not limited to misrepresentation or withholding of information in applying for admission or in connection with any subsequent reexamination of income and family composition), the agreement may be terminated by the LHA, after consulting the appropriate officers of the HBA. The LHA should provide the home buyer with an opportunity for special counseling designed to help him with his particular problem in fulfilling his agreement. The home buyer shall be given 30 days' written notice and shall be informed by a representative of the LHA of the reason for the termination. The home buyer shall be given a reasonable period of time to reply to the same representative of the LHA, and, if he wishes, to another representative, or other representatives of the LHA. The home buyer shall have the right to be accompanied by a representative of the HBA when he presents his reply or replies.

(2) The home buyer may terminate his agreement by giving the LHA 30 days' notice in writing of his intention to terminate and vacate his home. In the event that the home buyer abandons his home, or vacates it without notice to the LHA, the agreement shall be automatically terminated and the LHA may dispose of, in any manner deemed suitable by it, any items of personal property abandoned by the home buyer in the home.

§ 1270.108 Break-even amount.

(a) *Definition.* The term "break-even amount" as used herein means the minimum monthly amount required to provide funds for:

(1) Payment of monthly operating expense, including provision for operating reserve (see § 1270.109);

(2) The monthly amount to be credited to the earned home payments account for the home buyer (see § 1270.110); and

(3) The monthly amount to be credited to the nonroutine maintenance reserve for the home (see § 1270.111).

Illustration. The following is an illustration of the computation of the break-even amount:

(1) *Operating Expense (see § 1270.109):*		
Administration	$8.50	----
Homebuyer services	2.00	----
Project supplied utilities	3.00	----
Routine maintenance-common property	3.00	----
Protective services	2.00	----
General expense	4.50	----
Provision for operating reserve	2.00	$25.00
(2) Earned home payments account (see § 1270.110)		12.00
(3) Nonroutine maintenance reserve (see § 1270.111)		7.50
Break-even amount		44.50

The break-even amount shown above does not include the monthly allowance for utilities which the home buyer pays for directly.

(b) *Excess over break-even.* When the home buyer's required monthly payment (see § 1270.107(j)) exceeds the break-even amount, the excess shall be used to supplement that portion of the required monthly payment designated for operating expense (i.e., project income): *Provided*, That such excess shall not be used to pay operating expense in excess of the HUD approved operating budget.

(c) *Deficit in monthly payment.* When the home buyer's required monthly payment is less than the break-even amount, the deficit shall be applied as a reduction of that portion of the monthly payment designated for operating expense (i.e., as a reduction of project income). In all such cases, the earned home payments account and the nonroutine maintenance reserve account shall be credited with the amount included in the break-even amount for these accounts.

§ 1270.109 Monthly operating expense.

(a) *Definition and categories of monthly operating expense.* The term "monthly operating expense" means the monthly amount needed to pay operating expense of the project including the provision for operating reserve. The monthly operating expense shall consist of the following categories of expense and provision for operating reserve:

(1) *Administration.* Administrative salaries, travel, legal expenses, office supplies, postage, telephone, and telegraph, ect.;

(2) *Home buyer services.* LHA expenses in the achievement of social goals, including costs such as salaries, publications, payments to the HBA to assist its operation, contract, and other costs;

(3) *Utilities.* Those utilities (such as water), if any, to be furnished by the LHA as part of operating expense;

(4) *Routine maintenance common-property.* For community building, grounds, and other common areas, if any. The amount required for routine maintenance of common property depends upon the type of common property included in the development and the extent of the LHA's responsibility for maintenance (see also § 1270.109(c));

(5) *Protective services.* The cost of supplemental protective services paid by the LHA for the protection of persons and property;

(6) *General expense.* Premiums for fire and other insurance, payments in lieu of taxes to the local taxing body, collection losses, payroll taxes, etc.;

(7) *Operating reserve.* Extraordinary maintenance of equipment applicable to the community building and grounds, and unanticipated items for both dwelling and nondwelling structures (see § 1270.112).

(b) *Monthly operating expense rate.* The monthly operating expense rate for each fiscal year shall be established on the basis of the LHA's HUD-approved operating budget for each such fiscal year. If it is subsequently determined that the actual operating expense for a fiscal year was more or less than the amount provided by the monthly operating expense established for such fiscal year, the rate of monthly operating expense to be established for the next fiscal year may be adjusted to account for the difference (see § 1270.112(b)). For the possible effect of such adjustment on the required monthly payment, see § 1270.107(j)(2).

(c) *Investment of excess.* When the aggregate amount of all EHPA balances exceeds the estimated reserve requirements for 90 days, the LHA shall notify the HBA and shall invest the excess in federally insured savings accounts, federally insured credit unions, and/or securities approved by HUD and in accordance with any recommendations made by the HBA. If the HBA wishes to participate in the investment program, it should submit periodically to the LHA a list of HUD approved securities, bonds, or obligations which the association recommends for investment by the LHA of the funds in the EHPA's. Interest earned on the investment of such funds shall be prorated and credited to each home buyer's EHPA in proportion to the amount in each such reserve account. Periodically, but not less often than semiannually, the LHA shall prepare a statement showing: (1) The aggregate amount of all EHPA balances; (2) the aggregate amount of investments (savings accounts and/or securities) held for the account of all the home buyers' EHPA's, and (3) the aggregate uninvested balance of all the home buyers' EHPA's. This statement shall be made available to any authorized representative of the HBA.

(f) *Voluntary equity payments.* To enable the home buyer to acquire title to his home within a shorter period, he may either periodically or in a lump

V 37-214 NOV 4 72 XUM

sum voluntarily make payments over and above his required monthly payments. Such voluntary payments shall be deposited to his credit in his EHPA.

(g) *Delinquent monthly payments.* Under exceptional circumstances as determined by the HBA and the LHA, a home buyer's EHPA may be used to pay his delinquent required monthly payments, provided the amount used for this purpose does not seriously deplete the account and provided that the home buyer agrees to cooperate in such counseling as may be made available by the LHA or the HBA.

(c) *Provision for common property maintenance.* During the period the LHA is responsible for the maintenance of common property, the annual operating budget and the monthly operating expense rate shall include the amount required for routine maintenance of all common property in the project, even though ownership of a number of the homes may have been acquired by home buyers. During such period, this amount shall be computed on the basis of the total numbers of homes in the project (i.e., the annual amount budgeted for routine maintenance of common property shall be divided by the number of homes in the project, resulting in the annual amount for each home; the figure shall in turn be divided by 12 to determine the monthly amount to be included in the monthly operating expense (and in the break-even amount) for routine maintenance of common property. After the homeowners association assumes responsibility for maintenance of common property, the monthly operating expense (and break-even amount) shall include an amount equal to the monthly assessment by the homeowners association for the remaining homes owned by the LHA. See § 1270.112 for nonroutine maintenance of common property.

(d) *Posting of monthly operating expense statement.* A statement showing the budgeted monthly amount allocated in the current operating budget to each operating expense category shall be provided to the HBA and copies shall be provided to home buyers upon request.

§ 1270.110 Earned Home Payments Account (EHPA).

(a) *Credits to the account.* The LHA shall establish and maintain a separate EHPA for each home buyer. Since the home buyer is responsible for maintaining his home, a portion of his required monthly payment equal to the LHA's estimate, approved by HUD, of the monthly cost for such routine maintenance shall be set aside in his EHPA. In addition this account shall be credited with (1) Any voluntary payments made pursuant to paragraph (f) of this section, and (2) any amount earned through the performance of maintenance as provided in paragraphs (c) and (d) of this section.

(b) *Charge for failure to provide maintenance for dwelling unit.* If for any reason the home buyer is unable or fails to perform any item of required maintenance as described in § 1270.107(a), the LHA shall arrange to have the work done in accordance with the procedures established by the LHA and the HBA, and the cost thereof shall be charged to the home buyer's EHPA. Inspections of the home shall be made jointly by the LHA and the HBA.

(c) *Exercise of option; required amount in EHPA.* The home buyer shall not be entitled to exercise his option to buy his home until he has built up a minimum balance of $200 in his EHPA, at which time he shall receive a certificate to this effect (see appendix III to this subpart). The home buyer shall be obligated to build up this minimum balance within the first 2 years of his occupancy and shall also be obligated to continue performing the required maintenance thereby adding to his EHPA. If the home buyer fails to meet either of these obligations, the LHA and the HBA shall investigate and take appropriate corrective action, including termination of the agreement in appropriate cases.

(d) *Additional equity through maintenance of common property.* Home buyers may earn additional EHPA credits by providing in whole or in part any of the maintenance necessary to the common property of the project. When such maintenance is to be provided by the home buyer, this may be done and credit earned therefor only pursuant to a prior written agreement between the home buyer and the LHA (or the homeowners association, depending on whose property is involved), covering the nature and scope of the work and the amount of credit the home buyer is to receive. In such cases, the agreed amount shall be charged to the appropriate maintenance account and credited to the home buyer's EHPA upon completion of the work.

(h) *Annual statement to home buyer.* The LHA shall provide an annual statement to each home buyer specifying at least: (1) The amount in his EHPA, and (2) the amount in his nonroutine maintenance reserve. During the year, any maintenance or repair done on the dwelling by the LHA which is chargeable to the EHPA or nonroutine maintenance reserve shall be accounted for through a work order. A home buyer shall receive a copy of all such work orders for his home.

(i) *Withdrawal and assignment.* The home buyer shall have no right to assign, withdraw, or in any way dispose of the funds in his EHPA except as provided in §§ 1270.113, 1270.114, and 1270.115.

§ 1270.111 Nonroutine maintenance reserve.

(a) *Purpose of reserve.* The LHA shall use a portion of the home buyer's monthly payment to establish a separate nonroutine maintenance reserve for each home. The purpose of this reserve is to provide funds for the infrequent but costly items of maintenance and replacements which may be required over a period of years. Such items may include the replacement of dwelling equipment (such as range and refrigerator), replacement of roof, exterior painting, major repairs to heating, plumbing, and electrical systems, etc. This reserve shall not be used for maintenance and replacements of any items of common property; funds for such purposes shall be set aside in the operating reserve (see § 1270.112). Items of common property shall include all nondwelling structures and equipment, common areas, playgrounds, etc., and in some instances, it may include certain component parts of dwelling structures.

(b) *Amount of reserve.* The amount of the monthly payments to be set aside for the nonroutine maintenance reserve shall be determined by the LHA, with the approval of HUD, on the basis of maintenance engineering estimates of the amount needed during the term of the home buyers ownership opportunity agreement, taking into consideration the type of construction and dwelling equipment.

(c) *Charges to reserve.* When the LHA provides maintenance and/or replacements for which this reserve is established, the cost shall be charged to the nonroutine maintenance reserve for the home involved. Such maintenance may be provided by the home buyer but only pursuant to a prior written agreement with the LHA covering the nature and scope of the work and the amount of credit the home buyer is to receive. The amount of any credit shall, upon completion of the work, be charged to the nonroutine maintenance reserve for the home involved and credited to the home buyer's EHPA.

(d) *Transfer to home buyer.* When a home buyer purchases his home, the nonroutine maintenance reserve applicable to the home shall be transferred by the LHA to the home buyer and may be used if he so wishes to pay the downpayment, settlement, and related costs.

(e) *Investment of excess.* (1) When the aggregate amount of the nonroutine maintenance reserve balances for all the homes exceeds the estimated reserve requirements for 90 days, the LHA shall invest the excess in federally insured savings accounts, federally insured credit unions, and/or securities approved by HUD. Income earned on the investment of such funds shall be prorated and credited to each home buyer's nonroutine maintenance reserve in proportion to the amount in such reserve account.

(2) Periodically, but not less often than semiannually, the LHA shall prepare a statement showing: (i) The aggregate amount of all nonroutine maintenance reserve balances, (ii) the aggregate amount of investments (savings accounts and/or securities) held for the account of the nonroutine maintenance reserves, and (iii) the aggregate uninvested balance of the nonroutine maintenance reserves. A copy of this statement shall be made available to any authorized representative of the HBA.

§ 1270.112 Operating reserve.

(a) *Purpose of reserve.* To the extent that total operating receipts (including subsidies for operations) exceed total operating expenditures of the project,

the LHA shall establish an operating reserve up to the maximum approved by HUD in connection with its approval of the annual operating budgets for the project. The purpose of this reserve is to provide funds for: (1) The infrequent but costly items of nonroutine maintenance and replacements of common property, taking into consideration the types of items which constitute common property, such as nondwelling structures and equipment, and, in certain cases, common elements of dwelling structures, (2) any repairs to the dwelling units for which the LHA is responsible and which are not covered by the nonroutine maintenance reserve, and (3) a deficit in the operation of the project for a fiscal year, including a deficit resulting from monthly payments totaling less than the break-even amount for the project.

(b) *Provision for operating reserve.* (1) The amount of the provision for operating reserve to be included in operating expense (and in the break-even amount) established for the fiscal year (see § 1270.108) shall be determined by the LHA, with the approval of HUD, on the basis of maintenance engineering estimates of the monthly amount needed to accumulate an adequate reserve for the items described in paragraph (a)(1) of this section. This provision for operating reserve shall be made only during the period the LHA is responsible for the maintenance of any common property; and during such period, the amount shall be determined on the basis of the requirements of all common property in the project in a manner similar to that explained in § 1270.109(c).

(2) The amount of the provision for operating reserve to be included in computing the break-even amount may be increased (or decreased) when total routine expense for the preceding fiscal year is over (or under) the amount budgeted and used as a basis for establishing the break-even amount for such preceding fiscal year. When the operating reserve reaches the maximum authorized in paragraph (c) of this section, the break-even (monthly operating expense) computations (see § 1270.108) for the next and succeeding fiscal years need not include a provision for operating reserve unless the balance of the reserve is reduced below the maximum during any such succeeding fiscal year.

(c) *Maximum operating reserve.* The maximum operating reserve that may be retained by the LHA at the end of any fiscal year shall be the sum of:

(1) One-half of total routine expense included in the operating budget approved for the next fiscal year; and,

(2) One-third of total break-even amounts included in the operating budget approved for the next fiscal year.

Total routine expense means the sum of the amounts budgeted for administration, home-buyers' services, LHA-supplied utilities, routine maintenance of common property, protective services, and general expense, or other category of day-to-day routine expense (see § 1270.109 above for explanation of various categories of expense).

(d) *Transfer to homeowners association.* The LHA shall be responsible for and shall retain custody of the operating reserve until the homeowners association acquires voting control (see § 1270.119(c) and § 1270.120(f)). If the homeowners association then elects to assume full responsibility for management and maintenance of common property under a plan approved by HUD, there shall be transferred to the homeowners association the portion of the operating reserve then held by the LHA which is allocable to maintenance of common property, computed as follows:

(1) If the operating reserve is then at the allowable maximum, the sum of the amounts for: (i) Routine maintenance of common property; and (ii) the provision for operating reserve for common property which were included in the computation of the maximum operating reserve.

(2) If the operating reserve is then below the allowable maximum, a proportion of the amount computed in accordance with subparagraph (1) of this paragraph, based upon the proportion that the amount in the operating reserve bears to the allowable maximum.

In no case shall any portion of the operating reserve be transferred to individual home buyers or homeowners.

(e) *Disposition of reserve.* If, at the end of a fiscal year, there is an excess over the maximum operating reserve, this excess shall be applied to reduce the debt on the project (i.e., advance amortization). Following the end of the year next preceding the last annual contribution date for the project, the balance of the operating reserve held by the LHA shall be paid to HUD for application to reduction of annual contributions paid or payable.

§ 1270.113 Application of funds upon vacating of dwelling.

(a) *Charges to EHPA.* (1) In the event a home-buyers ownership opportunity agreement with the LHA is terminated or if the home buyer vacates the home (see § 1270.107(d)), the LHA shall charge against his EHPA the amounts required to pay: (i) The amount due the LHA, including the monthly payments he is obligated to pay to the date he vacates; (ii) the monthly payment for the period the home is vacant, not to exceed 30 days from the date of notice of intention to vacate, or 30 days from the date the home is vacated if the home buyer failed to give notice of intention to vacate; and (iii) the cost of repair and other work required to put the home in good condition for the next occupant in conformity with § 1270.107.

(2) If the EHPA balance is not sufficient to cover all of these charges, the LHA shall require the home buyer to pay the additional amount due. If the amount in the account exceeds these charges, the excess shall be paid to him.

(b) *Nonroutine maintenance and operating reserves.* The unused balance of the nonroutine maintenance reserve and of the operating reserve shall not be refunded but shall be retained by the LHA.

(c) *Settlement.* Settlement with the home buyer shall be made within 30 days from the date he vacates and after the actual cost of repairs has been determined: *Provided, however,* That the home buyer may obtain settlement within 7 days of the date he vacates if he has given the LHA notice of his intention to vacate 30 days prior to the date he vacates and if the amount to be charged against his EHPA pursuant to paragraph (a)(1)(iii) of this section is based on the LHA's estimate of the cost thereof (determined after consultation with the appropriate representative of the HBA).

§ 1270.114 Achievement of ownership by initial occupant.

(a) *Determination of purchase price.* The initial purchase prices of the homes shall be determined by the LHA on the basis of the estimated total development cost (including the full amount for contingencies as authorized by HUD) of the project as shown in the development cost budget in effect upon award of the main construction contract or execution of the contract of sale less the amounts, if any, attributed to: (1) Relocation costs, (2) counseling and training costs, (3) the cost of any community buildings, and (4) the cost of any other land, buildings, equipment, and other facilities which are not part of the property to be owned by home buyers or the homeowners association. The LHA (subject to HUD approval) shall determine the initial purchase price of each home by prorating such estimated total development cost for the project, after deducting costs for items identified in subparagraphs (1) through (4) of this paragraph, on an equitable basis taking into account the size of the homes, the type of construction, the size of the lot (land) which becomes a part of the home, and such other factors as may affect the relative value of the home.

(b) *Purchase price schedule.* Each home buyer shall be provided with a purchase price schedule showing: (1) The monthly declining purchase price over a 30-year period commencing with the initial purchase price on the first day of the month following the effective date of his home-buyers ownership opportunity agreement; and (2) the monthly debt service amount upon which the schedule is based. This schedule and debt service amount shall be computed on the basis of the initial purchase price, a 30-year period, and a rate of interest equal to the minimum loan interest rate as specified in the annual contributions contract for the project on the date of HUD approval of the development cost budget, described in paragraph (a) of this section, rounded up, if necessary, to the next multiple of one-fourth of 1 percent (¼%).

(c) *Methods of purchase.* (1) The home buyer may achieve ownership when

V 37-214 NOV 4 72 XUM

the amount in his EHPA, plus such portion of the nonroutine maintenance reserve as he wishes to use for the purchase, is equal to the purchase price as shown at that time on his purchase price schedule plus costs incidental to acquiring ownership. If for any reason title to the home is not conveyed to the home buyer during the month in which such circumstances occur, the purchase price shall be fixed at the amount specified for such month and the home buyer shall be refunded the net additions, if any, credited to his EHPA subsequent to such month, and such part of the monthly payments made by the home buyer after the purchase price has been fixed which exceed the sum of the break-even amount attributable to the unit and the interest portion of the debt service payment shown in the purchase price schedule.

(2) Where the sum of the purchase price and costs described in subparagraph (1) of this paragraph is greater than the amounts from his EHPA and nonroutine maintenance reserve as described in subparagraph (1) of this paragraph, the home buyer may achieve ownership by obtaining financing for or otherwise paying the excess amount. The purchase price shall be the amount shown on his purchase price schedule for the month in which the settlement date for the purchase occurs. Among the sources from which the home buyer may obtain funds for such excess is mortgage financing under a federally insured or guaranteed home-loan program.

(d) *Period for achieving ownership.* The maximum period for achieving ownership shall be 30 years, but depending upon increases in the home-buyers income and the amount of credit which the home buyer can accumulate through maintenance and voluntary payments, the period may be shortened accordingly.

§ 1270.115 Payment upon resale at profit.

(a) *Promissory note.* (1) The home buyer (regardless of whether ownership is achieved under § 1270.114 or 1270.116) shall be required to make a payment to the LHA if he sells his house at a profit within 5 years of actual residence in the home after he becomes a homeowner. The obligation to make such a payment shall be provided for in a non-interest-bearing promissory note (see appendix IV to this subpart) to the LHA which shall be executed at the time he becomes a homeowner and shall be secured by a second mortgage. The initial amount of the note shall be computed by taking the FHA-appraised value at the time the home buyer gets title to his house (that is, when he becomes a homeowner) and subtracting: (i) The price for which the home buyer acquires title to this home; (ii) the closing and other costs incurred by the homeowner in acquiring title; and (iii) the amount of increased value of the home caused by improvements made by the home buyer. The result shall be the initial amount of the note.

(2) The promissory note shall provide that the amount of the note shall be automatically reduced by 20 percent of the initial amount at the end of each year of residency as a homeowner with the note terminating at the end of the 5-year period of residency as determined by the LHA. To protect the homeowner, the note shall provide that the amount payable under it shall in no event be more than the net profit on the sale, that is, the amount by which the sales price exceeds the sum of: (i) The home-buyer's purchase price; (ii) the closing and other costs paid by him at time of purchase; (iii) the costs of the sale, including commissions, mortgage prepayment penalties, if any, and other costs paid by him at time of closing; and (iv) the value of home improvements added by him as a home buyer or homeowner.

(3) Amounts collected by the LHA under such notes shall be applied: (a) To reduce the LHA's capital indebtedness on the project; and (b) after such indebtedness has been paid, for such purposes as may be authorized or approved by HUD under such annual contributions contract as the LHA may then have with HUD.

Illustration. If the homeowner's purchase price is $10,000, the closing and other costs are $500, the added improvements are $1,000 and the FHA appraised value at the time is $17,000, the note computation would be as follows:

FHA appraised value		$17,000
Homeowner's purchase price	$10,000	
Improvements	1,000	
Closing and other costs	500	−11,500
Initial note amount		5,500

In this example, the amount of the note during the first year of residence is $5,500. In the second year, the amount of the note is $4,400, and in the third year it is $3,300, etc. The note shall terminate at the end of the fifth year.

If the homeowner in this example sells his home during the first year for a sales price of $17,500, has sales costs of $1,600 (including a sales commission), and has made $1,500 in further improvements, he would be required to pay the LHA $2,900 rather than the $5,500, as indicated in the following computations:

Sales price		$17,500
Sales costs	$1,600	
All improvements	2,500	
Purchase price and costs	10,500	−14,600
Payable to LHA		2,900

(b) *Residence requirement.* The 5-year note period does not end if the homeowner rents or otherwise does not use the home as his principal place of residence for any period within the first 5 years after he achieves ownership. In this case, only the actual amount of time he is in residence is counted and the note shall be in effect until a total of 5 years time of residence has accrued, at which time the homeowner may request the LHA to release him from the note, and the LHA shall do so.

§ 1270.116 Achievement of ownership by subsequent occupants.

(a) *Low-income successors.* A low-income family succeeding the initial home buyer may achieve ownership in the same manner as described in § 1270.114 for its predecessor—under a home-buyers ownership opportunity agreement—by making the required monthly payments, performing its own maintenance and repairs, and making voluntary payments.

(b) *Determination of initial purchase price.* The initial purchase price for a successor home buyer shall be an amount equal to: (1) The purchase price shown on the initial home-buyer's purchase price schedule as of the date of the home-buyers ownership opportunity agreement with the successor home buyer plus; (2) the amount, if any, by which the fair market value of the home determined or approved by HUD as of the same date, exceeds the purchase price specified in subparagraph (1) of this paragraph.

(c) *Purchase price schedule.* The successor home-buyer's purchase price schedule shall be the same as the unexpired portion of the initial home-buyer's purchase price schedule except that where his purchase price includes an additional amount as specified in paragraph (b)(2) of this section, the initial home-buyer's purchase price schedule shall be followed by an additional purchase price schedule for such additional amount based upon the same monthly debt service and the same interest rate as applied to the initial home-buyer's purchase price schedule.

(d) *Continued eligibility and repayment upon resale.* The provisions of §§ 1270.104(d) and 1270.115 apply to successor home buyers as well as to initial home buyers.

(e) *Residual receipts.* After payment in full of the LHA's debt, if there are any successor occupants who have not acquired ownership of their homes, the LHA shall continue to pay to HUD all residual receipts from the operation of the project, including payments received on account of any additional purchase price schedules applicable to the homes, provided the aggregate amount of such payments of residual receipts does not exceed the aggregate amount of annual contributions paid by HUD with respect to the project.

§ 1270.117 Transfer of title to home buyer.

When the home buyer is to obtain ownership, as described in § 1270.114 or § 1270.116, a closing date shall be mutually agreed upon by the parties. On the closing date, the home buyer shall pay the required amount of money (including any amounts available in his EHPA and such portion of the nonroutine maintenance reserve as he may wish) to the LHA and receive a deed for the home.

§ 1270.118 Responsibilities of home buyer after acquisition of ownership.

After acquisition of ownership, each homeowner shall be required to pay to the LHA or to the homeowners association, as appropriate, a monthly fee for: (a) The maintenance and operation of community facilities including utility facilities, if any, (b) the maintenance of grounds and other common areas, and (c) such other purposes as determined by the LHA or the homeowners association, as appropriate, including taxes and a provision for a reserve. This requirement shall be set out in the planned unit development or condominium documents which shall be recorded prior to the date of full availability, or in an LHA-homeowner contract in this regard.

§ 1270.119 Homeowners Association—Planned unit development (PUD).

If the development is organized as a planned unit development:

(a) *Ownership and maintenance of common property.* The common areas, sidewalks, parking lots, and other common property in the development shall be owned and maintained as provided for in the approved planned unit development (PUD) program except that the LHA shall be responsible for maintenance until such time as the homeowners association assumes such responsibility (see § 1270.112(d)).

(b) *Title restrictions.* The title ultimately conveyed to each home buyer shall be subject to restrictions and encumbrances to protect the rights and property of all other owners. The homeowners association shall have the right and obligation to enforce such restrictions and encumbrances and to assess owners for the costs incurred in connection with common areas and property and other responsibilities.

(c) *Votes in association.* There shall be as many votes in the association as there are homes, and at the outset all the voting rights shall be held by the LHA. As each home is conveyed to the home buyer, one vote shall automatically go to the home owner so that when all the homes have been conveyed, the LHA shall no longer have any interest in the homeowners association.

(d) *Voting control.* The LHA shall not lose its majority voting interest in the association as soon as a majority of the homes have been conveyed, unless the law of the state requires control to be transferred at a particular time, or the LHA so desires.

If permitted by State law, provision shall be made for each home owned by the LHA to carry three votes while each home owned by a homeowner shall carry one vote. Under this weighted voting plan, the LHA shall continue to have voting control until 75 percent of the homes have been acquired by homeowners. However, at its discretion, the LHA may transfer voting control to the homeowners when at least 50 percent of the homes have been acquired by the homeowners.

§ 1270.120 Homeowners association—condominium.

If the development is organized as a condominium: (a) The LHA at the outset shall own each condominium unit and its undivided interest in the common areas;

(b) All the land, including that land under the housing units, shall be a part of the common areas;

(c) The homeowners association shall own no property but shall maintain and operate the common areas for the individual owners of the condominium units except that the LHA shall be responsible for maintenance until such time as the homeowners association assumes such responsibility (see § 1270.112(d));

(d) The percentage of undivided interest attached to each condominium unit shall be based on the ratio of the value of the units to the value of all units and shall be fixed when the project is completed. This percentage shall determine the homeowner's liability for the maintenance of the common areas and facilities;

(e) Each homeowner's vote in the homeowners association shall be identical with the percentage of undivided interest attached to his unit; and

(f) The LHA shall not lose its majority voting interest in the association as soon as units representing 50 percent of the value of all units have been conveyed, unless the law of the State requires control to be transferred at a particular time or the LHA so desires. For voting purposes, if permitted by State law (until units representing 75 percent of the value of all units have been acquired by homeowners), the total undivided interest attributable to the homes owned by the LHA shall be multiplied by three. Under this weighted voting plan, the LHA shall continue to maintain voting control until 75 percent of the homes have been acquired by homeowners. However, at its discretion, the LHA may transfer voting control to the homeowners when units representing at least 50 percent of the value of all units have been acquired by the homeowners.

§ 1270.121 Relationship of homeowners association to HBA.

The HBA and the LHA may make arrangements to permit home buyers to participate in homeowners association matters which affect the home buyers. Such arrangements may include rights to attend meetings and to participate in homeowners association deliberations and decisions.

§ 1270.122 Use of appendices.

Use of the following appendices is mandatory for projects developed under this subpart:

Appendix I—Annual Contributions Contract "Special Provisions for Turnkey III Homeownership Opportunity Project";

Appendix II—Home Buyers Ownership Opportunity Agreement (Turnkey III);

Appendix III—Certificate of Acknowledgment of Home Buyer's Right to Purchase Home;

Appendix IV—Promissory Note for Payment Upon Resale by Home Buyer at Profit.

No modification may be made in format, content or text of these appendices except: (a) As required under State or local law as determined by HUD; or (b) with approval of HUD.

APPENDIX I

ANNUAL CONTRIBUTION CONTRACT

(—) Special provisions for turnkey III homeownership opportunity project No. ——.

(1) The local authority agrees to operate the project in accordance with requirements for the homeownership opportunity program for low-income families (turnkey III) as prescribed by the Government. The local authority shall enter into an agreement with the occupant of each dwelling unit in the project which agreement shall be in the form of the home buyers ownership opportunity agreement approved by the Government, and provides for the ultimate ownership of the dwelling unit by each occupant who has performed all of the obligations and conditions precedent imposed upon him by such agreement: *Provided*, That upon conveyance of any such dwelling unit, the local authority's outstanding obligations in respect to the project shall be reduced by the amount received for such conveyance, and the Government's obligation for payment of annual contributions in respect to the project shall be reduced by the amount allocable to the initial purchase price of the dwelling unit. The term "initial purchase price" as used in these special provisions shall have the same meaning as in the home buyers ownership opportunity agreement, and the term "dwelling unit" shall have the same meaning as the term "Home" used in the home buyers ownership opportunity agreement.

(2) Failure of the local authority to enter into such home buyers ownership opportunity agreements at the time and in the form as required by the Government, failure to perform any such agreement, and failure to meet any of its obligations under these special provisions shall constitute a substantial default under this contract.

(3) The books of account and records of the local authority shall be maintained to meet the requirements of the homebuyers ownership opportunity agreement as well as the other provisions of this contract and in such manner as will at all times show the operating receipts, operating expenditures, reserves, residual receipts, and other required accounts for the project separate and distinct from all other projects under this contract.

(4) As of the date of full availability, or at such earlier date as the Government may require, the local authority

V 37-214 NOV 4 72 XUM

shall determine and submit to the Government for its approval the amount below which the development cost of the project will in no event fall. Upon approval thereof by the Government, such amount shall constitute and be known as the "Minimum Development Cost" of the project. The local authority shall issue its project loan notes, permanent notes, or project notes as the Government may require to finance the minimum development cost.

(5) Notwithstanding section 403(A)(4), the term "Development Cost" shall include interest on that portion of borrowed moneys allocable to the project for the period ending with the date of full availability or such earlier date as may be specifically approved by the Government.

(6) The Government shall make debt service annual contributions and additional annual contributions for the project as provided in section 415. In determining the total amount of annual contributions for the project pursuant to section 415(e) prior to the determination of the minimum development cost for the project, such term shall be construed to mean the estimated total development cost of the project. The first debt service annual contribution shall: (i) Be paid or made available as of the annual contribution date following the date as of which the minimum development cost of the project is first established, and (ii) be in an amount, as determined by the Government, which if applied annually at the interest rate (adjusted to the nearest one-eighth of 1 percent) charged the local authority during the preceding fiscal year would fully amortize the amount of the minimum development cost of the project on the first day of the month following the _____[1] anniversary of the annual contribution date on which the first debt service annual contribution was paid or made available with respect to the project. Not more than 40 annual contributions shall be paid with respect to the project nor shall any such annual contributions be paid or made available subsequent to 40 years from the date the first such annual contribution was paid or made available for the project.

(7)(a) During the maximum contribution period established for the project, the local authority shall, within 60 days after the end of each fiscal year, pay to the Government all residual receipts of the project for such fiscal year, provided that such receipts shall be applied to the reduction of the notes issued to finance the minimum development cost of the project.

(b) During the period of years immediately following and equal to the maximum contribution period established for the project, the local authority shall, within 60 days after the end of each fiscal year, pay to the Government all residual receipts of the project for such fiscal year, provided that such receipts shall be applied to the reduction of the annual contributions payable under section 415 for the project.

(c) Following the end of the fiscal year in which the last dwelling unit has been conveyed by the local authority, the balance of the operating reserve held by the local authority shall be paid to the Government, provided that the aggregate amount of payments under (b) and (c) of this paragraph shall not exceed the aggregate amount of annual contributions paid by the Government with respect to the project.

(8) No part of the funds on deposit in the debt service fund or the advance amortization fund with respect to any other project under this contract, or the funds available for deposit in such funds for such other projects, shall be applied to the retirement of notes issued for this project, nor shall any such funds on deposit or available for deposit from this project be used with respect to any other project or projects under this contract.

(9) To the extent that the provisions of this section conflict with other provisions of this contract, the provisions of this section shall be controlling with respect to the project.

[1] This shall be the number equal to the number of years of the maximum contribution period.

APPENDIX II

HOME BUYERS OWNERSHIP OPPORTUNITY AGREEMENT

(Turnkey III)

PART I

This agreement, made and entered into _____, 19____, by and between _____ (herein called the "Authority"), and _____ (herein called the "Home Buyer");

WITNESSETH:

In consideration of the agreements and covenants contained in this agreement and in home buyers ownership opportunity agreement Part II, which is hereby incorporated into this agreement by reference, the authority leases to the home-buyer the following described land and improvements thereon together with an undivided interest in all common areas and property (herein called the "Home") located in the _____ development (project No. _____), which home is identified and located as follows: (Insert address and legal description of location of home, including rights with respect to common areas and property, and making reference to book and page number in recorder of deeds office).

A. *Term of agreement.* The term of this agreement shall commence on _____, 19____, and shall expire at midnight on the last day of this same calendar month. Said term shall be extended automatically for successive periods of 1 calendar month for a total term of _____[1] years from the first day of the next calendar month unless the home buyer acquires his home pursuant to § 14 or 15 of Part II, as applicable, or unless this agreement is terminated pursuant to § 22 of Part II hereof.

B. *Monthly payment.* 1. Until changed in accordance with this agreement, the home buyer's monthly payment shall be $_____ per month, due and payable on or before the first day of each month. If liability for the monthly payment shall start on a day other than the first day of a calendar month, or if for any reason the effective date of termination occurs on other than the last day of the month, the monthly payment for such month shall be proportionate to the period of occupancy during that month.

2. The amount of the monthly payment may be increased or decreased only by reason of changes in the rent schedule (see § 7d of Part II) or changes in the home buyer's family income or other circumstances (see § 7e of Part II). Any such change in monthly payment shall become effective by written notice from the authority to the home buyer as of the date specified in such notice, and such notice shall be deemed to constitute an amendment to this agreement.

C. *Option to purchase and purchase price.* In consideration of the covenants contained herein, the authority grants the home buyer an option to purchase the home for the applicable purchase price, which option he may exercise after he has built up a credit of $200 in his earned home payments account according to § 8 of Part II. The initial purchase price of this home is $_____ (this price has been determined in accordance with § 14 or 15 of Part II hereof, as applicable); this amount shall be reduced periodically in accordance with the schedule (hereinafter called purchase price schedule) for that amount, which schedule is hereby furnished the home buyer.

D. *Home Buyers Association.* The signing of this agreement entitles the home buyer to membership in the Home Buyers Association, as provided in § 5 of Part II.

E. *Designation of successor.* For the purpose of § 23 of Part II, the designee and his address are:

_____
First name Initial

_____
Last name

_____
Relationship

F. *Entire agreement.* This agreement (comprising Parts I and II) is the entire agreement between the authority and the home buyer, and, except as otherwise provided in this agreement, no changes shall be made other than in writing signed by the authority and the home buyer.

This agreement is signed in duplicate, either copy of which may be considered the original for all purposes. The home buyer hereby acknowledges receipt of one of these signed copies.

WITNESSES:

_____

_____

By _____
The Authority

By _____
[ ] Initial Home buyer
[ ] Successor Home buyer

[1] Fill in term of years equal to term of purchase price schedule (and additional purchase price schedule, if applicable, see § 14 or 15, as applicable).

PART II

TERMS AND CONDITIONS

1. *The development.* a. *The home.* The home described in Part I of this agreement is included in a project (herein called the "Development"), which the authority has acquired or caused to be constructed. This development contains a number of dwelling units including related land, and common areas and property (certain projects may not contain such common areas and property), for occupancy by low-income families under lease-purchase agreements, each in the form of this home buyers ownership opportunity agreement. This development is financed by sale of the authority's notes which will be amortized over the period of years specified in the annual contributions contract relating to this development.

b. *Annual contributions contract.* The authority has entered into an annual contributions contract (ACC) with the Department of Housing and Urban Development (HUD) under which the authority will receive annual contributions provided by HUD, and will perform certain operational functions, to provide housing for the home buyers and assist the home buyers in achieving homeownership.

c. *Management.* The authority may enter into a contract or contracts for management of the development or for performance of management functions, by the Home Buyers Association, or others.

2. *The home buyers ownership opportunity agreement.* Under this home buyers ownership opportunity agreement, the home buyer may achieve ownership of the home described in Part I of this agreement by making the required monthly payments and providing maintenance and repairs to build up an equity in his earned home payments account (hereinafter called "EHPA"). While the home buyer is performing his obligations, the purchase price will be reduced in accordance with the purchase price schedule, so that, while this purchase price is being reduced, the home buyer is increasing the amount of his EHPA. The home buyer may also make voluntary payments to his EHPA which will enable him to acquire ownership more quickly. The home buyer may take title to his home when he is able to finance or pay in full the balance of the purchase price as shown on the purchase price schedule plus the costs incidental to acquiring ownership, as provided in § 14 or 15, as applicable.

3. *Status of home buyer.* After the home buyer achieves a credit of $200 in the EHPA, either by an initial payment of $200 or through monthly payments and provision of repairs and maintenance, he shall be entitled to exercise his option to purchase his home for the applicable purchase price pursuant to § C of Part I of this agreement. Until he achieves an EHPA credit of $200, the home buyer has the status of a lessee of the authority from month to month with an obligation to build up the minimum balance of $200 in his EHPA within the first 2 years and to continue adding to his EHPA thereafter. For convenience the term "home buyer" also refers to the occupant during his status as a lessee.

4. *Counseling of home buyers.* The authority shall provide training and counseling, as required and approved by HUD. The authority's own staff and resources, and/or existing community resources, and/or contracting with a private agency, shall be utilized to prepare home buyers for the rights, responsibilities, and obligations of homeownership including participation in the Home-Buyers Association. The home buyer agrees to participate in and cooperate fully in all official training and counseling activities.

5. *Home-Buyers Association.*[1] The signing of this agreement entitles the home buyer to membership in the Home-Buyers Association, composed of the home buyer to membership in the home-home buyers in the development and having the purposes set forth in the articles of incorporation of said association.

6. *Repair, routine maintenance, and use of premises.*

a. *Routine maintenance.* The home buyer shall be responsible for the routine maintenance of his dwelling and grounds, to the satisfaction of the Home-Buyers Association and the authority. This routine maintenance includes the work (labor and materials) of keeping the dwelling structure, grounds and equipment in good repair, condition and appearance so that they may be utilized continually at their designed capacities and at the satisfactory level of efficiency for their intended purposes, and in conformity with the requirements of local housing codes and applicable regulations and guidelines of HUD. It includes repairs (labor and materials) to the dwelling structure, plumbing fixtures, dwelling equipment (such as range and refrigerator), shades and screens, water heater, heating equipment, and other component parts of the dwelling. It also includes all interior painting and the maintenance of grounds (lot) on which the dwelling is located. It does not include maintenance and replacements provided for by the nonroutine maintenance reserve described in paragraph 9.

b. *Repair of damage.* In addition to his obligation for routine maintenance, the home buyer shall be responsible for repair of any damage caused by the home buyers or members of his family.

[1] There may be cases, such as where the homes are on scattered sites, where there is no Home-Buyers Association but an alternative method for home-buyer representation and counseling is provided (see 24 CFR, § 1270.307). In such cases, § 5 and other portions of this agreement referring to the Home-Buyers Association should be modified to reflect the alternative method provided for home-buyer representation and counseling.

c. *Care of home.* The home buyer agrees to keep his dwelling in a sanitary condition; to cooperate with the authority and the Home Buyers Association in keeping and maintaining the common area and property, including fixtures and equipment, in good condition and appearance; and to follow all rules of the authority and of the Home-Buyers Association concerning the use and care of the dwellings and the common areas and property.

d. *Inspections.* The home buyer agrees to permit officials, employees, or agents of the authority, and of the Home-Buyers Association to inspect his home at reasonable hours and intervals in accordance with rules established by the authority and the Home-Buyers Association.

e. *Use of home.* The home buyer shall not: (1) Sublet his home without the prior written approval of the authority and HUD, (2) use or occupy his home for any unlawful purpose nor for any purpose deemed hazardous by insurance companies on account of fire or other risks, or (3) provide accommodations (unless approved by the Home Buyers Association and the authority) to boarders or lodgers. The home buyer agrees to use the home only as a place to live for himself and his family (as identified in his initial application or by subsequent amendment with the approval of the authority), for children thereafter born to or adopted by members of such family, and for aged or widowed parents of the home buyer or his spouse who may join the household.

f. *Structural changes.* The home buyer shall not make any structural changes in or additions to his home without first obtaining the written consent of the Home Buyers Association and the authority.

g. *Charges.* The authority agrees to accept monthly payments without regard to any charges otherwise owed by the home buyer to the authority, and without regard to other rights and remedies applicable with respect to such other charges.

h. *Statements of condition and repair.* When the home buyer moves in, the authority shall inspect the home and shall give the home buyer a written statement, to be signed by the authority and the home buyer, of the condition of the home and the equipment in it. When the home buyer vacates, the authority shall inspect the home and give the home buyer a written statement of the repairs and other work, if any, required to put the home in good condition for the next occupant (see § 8h). The home buyer and/or his representative may join in any such inspections with the authority and the Home Buyers Association.

7. *Monthly payments by home buyer.*

a. *Determination of amount.* Except as otherwise provided hereinafter, the home buyer agrees to pay to the authority, so long as this agreement is in effect, a required monthly payment in an amount determined in accordance with a schedule adopted by the authority and

V 37-214 NOV 4 72 XUM

approved by HUD. The schedule shall provide for payments to be based upon a percentage of the family's adjusted monthly income and shall indicate allowances for those utilities which the home buyer will pay for directly.

b. *Break-even amount.* The term "Break-even Amount" means the minimum monthly amount needed to provide funds for:

(1) Monthly operating expense, including provision for operating reserve, pursuant to § 7c below;

(2) The monthly amount to be credited to the home-buyer's EHPA pursuant to § 8 below; and

(3) The monthly amount to be credited to the nonroutine maintenance reserve for the home pursuant to § 9 below.

c. *Monthly operating expense.* (1) The term "Monthly Operating Expense" means the monthly amount needed to pay operating expense of the development including the provision for operating reserve. The monthly operating expense rate for each fiscal year shall be estabilshed on the basis of an operating budget for such fiscal year as approved by the authority and HUD, which budget shall control the operation. Subject to changes in the approved operating budget, the monthly operating expense shall consist of the following categories of expense and provision for operating reserve:

Administration.
Home-buyers services.
Utilities furnished by the authority.
Routine maintenance of common property.
Protective services.
General expense (insurance, payroll taxes, collection losses, payments in lieu of taxes, etc.).
Provision for operating reserve.

(2) During the period the authority is responsible for the maintenance of common property, the annual budget shall include the amount required for routine maintenance of all common property in the development, even though a number of the homes may have been acquired by home buyers. During such period, this amount shall be computed on the basis of the total number of homes in the development (i.e., the annual amount budgeted for routine maintenance of common property shall be divided by the number of homes in the development, resulting in the annual amount for each home; this figure shall in turn be divided by 12 to determine the monthly amount to be included in the monthly operating expense (and in the break-even amount) for routine maintenance of common property). After the Homeowners Association assumes responsibility for maintenance of common property, the monthly operating expense (and break-even amount) shall include an amount equal to the monthly assessment by the Homeowners Association for the remaining homes owned by the authority.

(3) The amount of the provision for operating reserve to be included in monthly operating expense shall be determined by the authority, with the approval of HUD, on the basis of maintenance engineering estimates of the monthly amount needed to accumulate an adequate reserve for the infrequent but costly items of nonroutine maintenance and replacements of common property, taking into consideration the types of items which constitute common property, such as nondwelling structures, nondwelling equipment, and in certain cases common elements of dwelling structures, etc. This provision for operating reserve shall be made only during the period the authority is responsible for the maintenance of common property; and during such period, the amount shall be determined on the basis of the requirements of all common property in the development in a manner similar to that explained in subsection (2) above.

(4) The amount of the provision for operating reserve may be increased or decreased when total routine expense (as defined below) for the preceding fiscal year exceeds or is less than the amount budgeted and used as a basis for establishing the break-even amount for such preceding fiscal year. When the operating reserve balance reaches the authorized maximum (see § 10a below) the break-even amount (monthly operating expense) for the next and succeeding fiscal years need not include a provision for reserve unless the operating reserve balance is reduced below the maximum during any such succeeding fiscal year. Total routine expense means the sum of the amounts budgeted for administration, home buyers' services, utilities furnished by the authority, routine maintenance of common property, protective services, general expense, and other categories of day-to-day routine expense.

(5) A statement showing the amount allocated to each monthly operating expense category shall be provided to the Home Buyers Association, and a copy shall be furnished to each home buyer upon request.

d. *Changes in monthly payment due to changes in rent schedules.* The required monthly payment may be adjusted: (1) By changes in the required percentage-of-income (and resulting change in rent schedule) due to changes in the break-even amount, and (2) to reflect changes made in the amount of the utility allowance to reflect current utility costs.

e. *Changes in monthly payment due to changes in family income or other circumstances.* The required monthly payment may be adjusted as a result of the authority's regularly scheduled reexamination of the home buyer's income and family composition. Interim changes may be made in accordance with the authority's policy on reexaminations, which shall include a provision for hardship adjustments. If a home buyer requests a rent adjustment based on circumstances not covered by the authority's policy, an adjustment may be made if both the authority and the Home Buyers Association agree that the circumstances warrant it.

f. *Application of monthly payment.* The home buyer's monthly payment shall be applied by the authority as follows: First, to the credit of the home buyer's EHPA pursuant to § 8 below; second, to the credit of the nonroutine maintenance reserve for the home pursuant to § 9 below; and third, for payment of monthly operating expense, including establishment of operating reserve as provided in § 10 below.

g. *Monthly payment below break-even amount.* In the event the home buyer's required monthly payment is less than the break-even amount, the amount to be used for payment of monthly operating expense and establishment of operating reserve shall be reduced accordingly; the credits to the EHPA and the nonroutine maintenance reserve account shall not be reduced by reason of such deficit.

h. *Monthly payments in excess of break-even amount.* When the home buyer's required monthly payment exceeds the break-even amount, the excess will not go into the EHPA but shall be used to supplement that portion of the required monthly payment designated for monthly operating expense, including operating reserve.

i. *Voluntary equity payments.* To enable the home buyer to acquire title to his home within a shorter period, he may either periodically or in a lump sum voluntarily make payments over and above his required monthly payments. Such voluntary payments shall be deposited to his credit in his EHPA.

8. *Earned home payments account (home buyers ownership reserve).* a. *Credits to the account.* The authority shall establish and maintain a separate EHPA for each home buyer. Since the home buyer is responsible for maintaining his home as provided in § 6, a portion of his required monthly payment equal to the authority's estimate approved by HUD, of the monthly cost for such routine maintenance shall be set aside in his EHPA. In addition, this account shall also be credited with: (1) Any voluntary payments made pursuant to § 7i, and (2) the amounts earned through the performance of maintenance pursuant to subsection e of this section. All amounts received by the authority for credit to the home buyer's account, including credits for performance of maintenance pursuant to subsection e of this section, shall be held by the authority for the account of the home buyer.

b. *Use of EHPA funds.* The unused balance in the home buyer's EHPA may be used toward purchase of the home as provided in § 14 or 15, as applicable, or shall be payable to the home buyer if he leaves the project as provided in subsection h of this section.

c. *Charge for failure to provide maintenance.* If for any reason the home buyer is unable or fails to perform any item of required maintenance as described in § 6 above, the authority shall arrange to have the work done in accordance with the procedures established by

the authority and the Home Buyers Association, and the cost thereof shall be charged to the home buyers' EHPA. Inspections of the home shall be made jointly by the authority and the Home Buyers Association.

d. *Required amount in EHPA; right to exercise option to buy.* The home buyer shall not be entitled to exercise his option to buy his home until he has built up a minimum balance of $200 in his EHPA, at which time he shall receive a certificate to this effect in the form attached hereto. The home buyer shall be obligated to build up this minimum balance within the first 2 years of his occupancy and shall also be obligated to continue performing the required maintenance thereby adding to his EHPA. If the home buyer fails to meet either of these obligations, the authority and the Home Buyers Association may investigate and take appropriate corrective action, including, where appropriate, termination of this agreement by the authority (see §§ 8h and 22).

e. *Additional equity through other maintenance.* Besides the maintenance which he must provide, as provided in § 6, the home buyer may earn additional EHPA credits by providing in whole or in part any of the maintenance necessary to the common property of the development or maintenance for which the nonroutine maintenance reserve is established (see § 9). When such maintenance is to be provided by the home buyer, this may be done and credit earned therefor only pursuant to a prior written agreement between the home buyer and the authority (or the Homeowners Association, depending on who has responsibility for maintenance of the property involved), covering the nature and scope of the work and the amount of credit the home buyer is to receive. Upon completion of such work, the agreed amount shall be charged to the appropriate expense account or to the nonroutine maintenance reserve of the home, as applicable, and credited to the home buyer's EHPA.

f. *Investment of excess.* When the aggregate amount of the EHPA balances for all the home buyers exceeds the estimated reserve requirements for 90 days, the LHA shall notify the HBA and shall invest the excess as provided below. The Homebuyers Association, if it so desires, should submit periodically to the authority a list of HUD-approved depositaries and securities which the association recommends for investment by the authority of EHPA funds. The authority shall invest such excess EHPA funds in federally insured savings accounts, federally insured credit unions, and/or securities approved by HUD and in accordance with the recommendations, if any, of the Homebuyers Association. The income earned on the investment of such funds shall be prorated and credited to each home buyer's account in proportion to the amount in each such account.

Periodically, but not less often than semiannually, the authority shall prepare a statement showing: (1) The aggregate amount of all EHPA balances, (2) the aggregate amount of investments (savings accounts and/or securities) held for the account of all the home buyers' EHPA's, and (3) the aggregate uninvested amount of all the home buyers' EHPA's. This statement shall be made available to any authorized representative of the Home Buyers Association.

g. *Delinquent monthly payments.* Under exceptional circumstances as determined by the Home Buyers Association and the authority, a home buyer's EHPA may be used to pay his delinquent monthly payments, provided the amount used for this purpose does not seriously deplete the account and provided that the home buyer agrees to cooperate in such counseling as may be made available by the authority or the Home Buyers Association.

h. *Application of EHPA funds upon termination of agreement.* (1) In the event this agreement is terminated or if the home buyer vacates the home, there shall be charged against the balance in his EHPA the sum of the amounts, if any, required to pay: (A) The amount due the authority, including monthly payments the home buyer is obligated to pay to the date he vacates, (B) the monthly payment for the period the home is vacant, not to exceed 30 days from the date of notice of intention to vacate, or 30 days from the date that the home is vacated if the home buyer failed to give notice of intention to vacate, and (C) the cost of repairs and other work required to put the home in condition for the next occupant in conformity with § 6. If the home buyer's EHPA balance is not sufficient to cover all of these charges, the authority shall require the home buyer to pay the additional amount due; if the amount in the EHPA exceeds these charges, the excess shall be paid to the home buyer.

(2) Final settlement with the home buyer shall be made within 30 days from the date he vacates, and after the actual cost of repairs has been determined. The home buyer may, however, obtain final settlement within 7 days of the date he vacates if he has given the authority notice of his intention to vacate 30 days prior to the date he vacates and if he agrees that the amount to be charged against his EHPA pursuant to subsection h(1)(C) above is based on the authority's estimate of the cost thereof (determined after consultation with the Home Buyers Association).

i. *Withdrawal and assignment.* The home buyer shall have no right to assign, withdraw, or in any way dispose of the funds in his EHPA, except as provided in this agreement.

9. *Non-routine-maintenance reserve.* a. *Purposes of reserve.* The authority shall use a portion of the home buyer's required monthly payment to establish and maintain a separate non-routine-maintenance reserve for his home. Funds in the non-routine-maintenance reserve shall be available for the infrequent but costly items of maintenance and replacement, which may be required over a period of years. Such items may include replacement of dwelling equipment (such as range and refrigerator), replacement of roof, exterior painting, major repairs to heating, plumbing, and electrical systems, etc. Maintenance and replacement costs applicable to common property will not be funded from the non-routine-maintenance reserve but shall be provided from the operating reserve (see sec. 10).

b. *Amount of reserve.* The amount to be set aside from the home buyer's required monthly payment for the nonroutine maintenance reserve will be determined by the authority with the approval of HUD, on the basis of maintenance engineering estimates of the amount needed during the term of this agreement, taking into consideration the type of construction and dwelling equipment.

c. *Charges to reserve.* When the authority (or the home buyer pursuant to § 8e) provides maintenance and/or replacements for which the nonroutine maintenance reserve is established, the cost thereof shall be charged to that reserve for his home.

d. *Use of reserve funds.* When the home buyer purchases his home pursuant to § 14 or § 15 hereof, the balance of the Nonroutine maintenance reserve applicable to his home shall be transferred by the authority to him and may be used, at his option, to pay any downpayment and costs incidental to acquiring ownership.

e. *Investment of excess.* When the aggregate amount of the nonroutine maintenance reserve balances for all the homes exceeds the estimated reserve requirements for 90 days, the authority shall invest the excess in federally insured savings accounts, federally insured credit unions, and/or securities approved by HUD for the investment of moneys on deposit in the authority's general fund. The income earned on the investment of such funds shall be prorated and credited to each home buyer's nonroutine maintenance reserve in proportion to the amount in such reserve account.

Periodically, but not less often than semiannually, the authority shall prepare a statement showing: (1) The aggregate amount of all nonroutine maintenance reserve balances, (2) the aggregate amount of investments (savings accounts and/or securities) held for the account of the home buyers' nonroutine maintenance reserves, and (3) the aggregate uninvested balance of the home buyers' nonroutine maintenance reserves. This statement shall be made available to any authorized representative of the Home Buyers Association.

10. *Operating reserve.* a. *Purpose of reserve (maximum reserve).* To the extent that total operating receipts (including subsidies for operations) exceed total operating expenditures of the project, the authority shall establish an operating reserve up to the maximum allowed by HUD in connection with its approval of the annual operating budgets for the development. The purpose of this

V 37-214 NOV 4 72 XUM

reserve is to provide funds for: (1) The infrequent but costly items of nonroutine maintenance and replacements of common property (see § 7c(3) above); (2) repairs to the dwelling units for which the authority is responsible and which are not covered by the non-routine-maintenance reserve; and (3) a deficit in the operation of the project for a fiscal year, including a deficit resulting from monthly payments totaling less than the break-even amount for the development.

b. *Disposition of reserve.* If, at the end of a fiscal year, there is an excess over the maximum operating reserve, this excess shall be applied to reduce the capital debt for the development (i.e., advance amortization). Following the end of the year next preceding the last annual contribution date for the development, the balance of the operating reserve held by the authority is to be paid to HUD for application to reduction of annual contributions paid or payable.

c. *Transfer to Homeowners Association.* The authority shall be responsible for and will retain custody of the operating reserve until the Homeowners Association acquires voting control as provided in §§ 19 and 20 hereof. If the Homeowners Association then elects to assume full responsibility for management and maintenance of common property under a plan approved by HUD, there shall be transferred to the Homeowners Association the portion of the operating reserve then held by the authority which is allocable to maintenance of common property, computed as follows:

(1) If the operating reserve is then at the allowable maximum, the sum of the amounts for: (A) Routine maintenance of common property; and (B) the provision of operating reserve for common property which were included in the computation of the maximum operating reserve.

(2) If the operating reserve is then below the allowable maximum, a proportion of the amount computed in accordance with (1) immediately above, based upon the proportion that the amount in the operating reserve bears to the allowable maximum.

In no case shall any portion of the operating reserve be transferred to individual home buyers or homeowners.

11. *Annual statement to home buyer.* The authority shall maintain books of accounts and provide a statement at least annually to each home buyer which will show the following: (a) the amount in his EHPA; (b) the amount in the nonroutine maintenance reserve for his home.

12. *Insurance.* Until transfer of title to the home buyer, the authority shall carry all insurance prescribed by HUD including fire and extended coverage insurance upon the home buyer's home in such form and amount and with such company or companies as it determines. The authority shall not carry any insurance on the home buyer's furniture, clothing, automobile, or any other personal property, or personal liability insurance covering the home buyer. In the event the home buyer's home is damaged or destroyed by fire or other casualty, the authority shall consult with the home buyer as to whether the home shall be repaired or rebuilt. If the authority determines that the home should not be repaired or rebuilt but the home buyer disagrees, the matter shall be submitted to HUD for final determination. If the final determination is that the home should not be repaired or rebuilt, the authority shall terminate this agreement upon reasonable notice to the home buyer. In such case, the home buyer shall be paid the balance in his EHPA and (to assist him in connection with relocation expenses) the balance in his nonroutine maintenance reserve, less amounts, if any, due by him to the authority, including monthly payments he may be obligated to pay. In the event of termination or if the home must be vacated during the repair period, the authority will use its best efforts to assist in relocating the home buyer. If the home must be vacated during the repair period, monthly payments shall be suspended during the vacancy period.

13. *Eligibility for continued occupancy.*

a. *Eligibility determination.* The home buyer shall cease to be eligible for continued occupancy with the aid of HUD annual contributions when the authority determines that his adjusted monthly income has reached the level, and is likely to continue at such level, at which 20 percent thereof equals or exceeds the monthly housing cost (see subsection b immediately below). In such event, if the authority determines, with HUD approval, that suitable financing (such as a subsidized or unsubsidized HUD-insured mortgage, or a VA-guaranteed loan) is available, the authority shall notify the home buyer that he shall either: (1) Purchase the home, or (2) move from the development: *Provided, however,* That if the authority determines that, due to special circumstances, the home buyer is unable to find decent, safe, and sanitary housing within his financial reach although making every reasonable effort to do so, the home buyer may be permitted to remain for the duration of such a situation if he pays an increased rent consistent with his increased income. This rent shall not, however, exceed the greater of the sum of the monthly breakeven amount plus the monthly debt service amount shown on the purchase price schedule for the home, or the rent for comparable unsubsidized housing in the locality. Such an increased rent shall also be payable by the home buyer if he continues in occupancy without purchasing the home because suitable financing is not available.

b. *Monthly housing cost.* The term "monthly housing cost," as used in this section, means the sum of: (1) The monthly debt service amount shown on his purchase price schedule (except where the home buyer can purchase the home by the method described in § 14c (1) below); (2) one-twelfth of the annual real property taxes which he will be required to pay as a homeowner; (3) the current monthly per unit amount budgeted for: (A) Routine maintenance (EHPA), (B) nonroutine maintenance reserve, and (C) routine maintenance—common property; and (4) the current authority- and HUD-approved monthly allowance for utilities paid for directly by the home buyer plus the monthly cost of utilities supplied by the authority.

14. *Achievement of ownership by initial home buyer.*

a. *Determination of initial purchase price.* The initial purchase price of the home is based on the estimated total development cost of the development as shown in the development cost budget in effect upon award of the main construction contract or execution of the contract of sale, less the amounts, if any, attributed to: (1) relocation costs, (2) counseling and training costs, (3) the cost of any community buildings, and (4) the cost of any other land, buildings, equipment, and other facilities which are not part of the property to be owned by home buyers or the Homeowners Association. The authority (subject to HUD approval) has determined the initial purchase price of each home by prorating such estimated total development cost, after deducting costs for items identified in (1) through (4) above, on an equitable basis taking into account the size of the homes, the type of construction, the size of the lot (land) which becomes a part of the home, and such other factors as may affect the relative value of the homes.

b. *Purchase price schedule.* The purchase price schedule mentioned in section C of Part I of this agreement shows: (1) The monthly declining purchase price commencing with the initial purchase price on the first day of the month following the effective date of this agreement, and (2) the monthly debt service amount upon which the schedule is based. This schedule has been computed on the basis of the initial purchase price, a term of 30 years, and a rate of interest equal to the minimum loan interest rate as specified in the annual contributions contract for the development on the date of HUD approval of the development cost budget described in subsection a above, rounded up, if necessary, to the next multiple of one-fourth of 1 percent (¼ percent).

c. *Methods of purchase.* (1) The home buyer may achieve ownership when the amount in his EHPA, plus such portion of the nonroutine maintenance reserve as he wishes to use for the purchase, is equal to the purchase price as shown at that time on his purchase price schedule plus costs incidental to acquiring ownership. If for any reason title to the home is not conveyed to the home buyer during the month in which such circumstances occur, the purchase price shall be fixed at the amount specified for such month and the home buyer shall be refunded any net additions to his EHPA subsequent to such month, and such part of the monthly payments made by the home buyer after the purchase price has been

fixed which exceed the sum of the break-even amount attributable to the unit and the interest portion of the debt service payment shown in the purchase price schedule.

(2) Where the sum of the purchase price and costs described in (1) above is greater than the amounts from his EHPA and nonroutine maintenance reserve as described in (1) above, the home buyer may achieve ownership by obtaining financing for or otherwise paying the excess amount. The purchase price shall be the amount shown on his purchase price schedule for the month in which the settlement date for the purchase occurs. Among the sources of financing for the excess amount is mortgage financing under a federally insured or guaranteed home loan program.

d. *Counseling.* The home buyer shall be offered counseling and guidance by the authority and the Home Buyers Association in connection with the purchase of his home.

15. *Achievement of ownership by successor home buyers.*

a. *Determination of initial purchase price.* The initial purchase price for a successor home buyer shall be an amount equal to: (A) The purchase price shown on the initial home buyer's purchase price schedule as of the date of this agreement with the successor home buyer, plus (B) the amount, if any, by which the fair market value of the home determined or approved by HUD as of the same date, exceeds the purchase price specified in (A).

b. *Purchase price schedule.* The successor home buyer's purchase price schedule shall be the same as the unexpired portion of the initial home buyer's purchase price schedule, provided, however, that where his purchase price includes an additional amount as specified in "B" of subsection a above, this schedule shall be followed by an additional purchase price schedule for such additional amount based upon the same monthly debt service and the same interest rate as applied to the initial home buyer's purchase price schedule.

c. *Methods of purchase.* The methods of purchase for a successor home buyer shall be the same as stated in § 14c for the initial home buyer.

16. *Transfer of title to home buyer.*

a. *Closing date.* When the home buyer is to obtain ownership, a closing date shall be mutually agreed upon by the parties.

b. *Closing.* On the closing date the home buyer shall pay the required amount of money (including any amounts available in his EHPA and such portion of the nonroutine maintenance reserve as he may wish) to the authority and receive a deed for the home.

17. *Payment upon resale in 5 years.*

a. *Promissory note.* The home buyer shall be required to make a payment to the authority if he sells his home at a profit within 5 years of actual residence in the home after he becomes a homeowner. The obligation to make such a payment shall be provided for in a non-interest-bearing promissory note (secured by a second mortgage) to the authority which shall be executed at the time he becomes a homeowner. The initial amount of the note shall be computed by taking the FHA appraised value at the time the home buyer gets title to his home (that is, when he becomes a homeowner) and subtracting: (1) The price for which title to the home was acquired, (2) the closing and other costs incurred by the homeowner in acquiring title, and (3) the amount of increased value of the home caused by improvements made by the home buyer. The result shall be the initial amount of the note. The note shall provide that the amount of the note shall be automatically reduced by 20 percent of the initial amount at the end of each year of residency as a homeowner with the note terminating at the end of the 5-year period of residency as determined by the authority. To protect the homeowner, the note shall provide that the amount payable under it shall in no event be more than the net profit on the sale, that is, the amount by which the sales price exceeds the sum of: (1) The home buyer's purchase price, (2) the closing and other costs paid by him at the time of purchase, (3) the cost of the sale, including commissions, mortgage prepayment penalties, if any, and other costs paid by him at time of closing, and (4) the value of home improvements added by him as a home buyer or a home owner.

b. *Residency requirement.* The 5-year-note period does not end if the homeowner rents or otherwise does not use the home as his principal place of residence for any period within the first 5 years after he achieves ownership. In this case, only the actual amount of time he is in residence is counted and the note shall be in effect until a total of 5 years' time of residence as a homeowner has accrued, at which time the homeowner may request the authority to release him from the note, and the authority shall do so.

18. *Responsibilities of homeowner.* After acquisition of ownership, the homeowner shall pay to the authority or to the Homeowners Association, as appropriate, a monthly fee for: (a) The maintenance and operation of community facilities, including utility facilities, if any, (b) the maintenance of grounds and other common areas, and (c) such other purposes, as determined by the authority or the Homeowners Association, as appropriate, including taxes and a provision for a reserve. This requirement will be spelled out in the planned unit development or condominium documents which shall be recorded prior to the date of full availability of the development, or in an LHA-homowner contract in this regard.

19. *Homeowners Association—Planned unit development (PUD).*[1] If the development is organized as a planned unit development:

a. The common areas, sidewalks, parking lots, and other common property in the development shall be owned and maintained as provided for in the approved planned unit development (PUD) program, except that the authority shall be responsible for maintenance until such time as the Homeowners Association assumes such responsibility (see § 10c above).

b. The title ultimately conveyed to each home buyer shall be subject to restrictions and encumbrances to protect the rights and property of all other owners. The Homeowners Association shall have the right and obligation to enforce such restrictions and encumbrances and to assess owners for the costs incurred in connection with common areas and property and other responsibilities.

c. There shall be as many votes in the association as there are homes, and at the outset all the voting rights will be held by the authority. As each home is conveyed to the home buyer, one vote shall automatically go to the home buyer, so that when all the homes have been conveyed, the authority shall no longer have any interest in the Homeowners Association.

d. The authority shall not lose its majority voting interest in the association as soon as a majority of the homes have been conveyed, unless the law of the State requires control to be transferred at a particular time, or the authority so desires. If permitted by State law, provision shall be made for each home owned by the authority to carry three votes while each home owned by a homeowner shall carry one vote. Under this weighted voting plan, the authority will continue to have voting control until 75 percent of the homes have been acquired by homeowners. However, at its discretion, the authority may transfer voting control to the homeowners when at least 50 percent of the homes have been acquired by the homeowners.

20. *Homeowners Association—Condominium.*[1] If the development is organized as a condominium:

a. The authority at the outset shall own each condominium unit and the undivided interest of such unit in the common areas;

b. All the land, including that land under the housing units, shall be a part of the common areas;

c. The Homeowners Association shall own no property and shall merely maintain and operate the common areas for the individual owners of the condominium units, except that the authority shall be responsible for maintenance until such time as the Homeowners Association assumes such responsibility (see § 10c above);

[1] See footnote to § 20.

[1] If this home is a development of scattered sites, delete both §§ 19 and 20. If this home is in a planned unit development, delete § 20. If this home is in condominium, delete § 19.

V 37-214 NOV 4 72 XUM

d. The percentage of undivided interest attached to each condominium unit shall be based on the ratio of the value of the unit to the value of all units and shall be fixed when the development is completed. This percentage shall determine the homeowner's liability for the maintenance of the common areas and facilities;

e. Each homeowner vote in the Homeowners Association shall be identical with the percentage of undivided interest attached to his unit; and

f. The authority shall not lose its majority voting interest in the association as soon as units representing more than 50 percent of the value of all units have been conveyed, unless the law of the State requires control to be transferred at a particular time or the authority so desires. For voting purposes, if permitted by State law, until units representing 75 percent of the value of all units have been acquired by homeowners the total undivided interest attributable to the homes owned by the authority shall be multiplied by 3. Under this weighted voting plan, the authority will continue to have voting control until units representing 75 percent of the value of all units have been acquired by homeowners. However, at its discretion the authority may transfer voting control to the homeowners when units representing at least 50 percent of the value of all units have been acquired by the homeowners.

21. *Relationship of Homeowners Association to Home Buyers Association.* The Home Buyers Association and the authority may make arrangements with the Homeowners Association to permit home buyers to participate in Homeowners Association matters which affect the home buyers. Such arrangements may include rights to attend meetings and to participate in Homeowners Association deliberations and decisions.

22. *Termination of agreement.*

a. *Termination by the authority.* In the event that a home buyer breaches this agreement by failure to make his monthly payments or otherwise (including but not limited to misrepresentation or withholding of information in applying for admission or in connection with subsequent reexamination of income and family composition), this agreement may be terminated by or at the direction of the authority, after consulting the appropriate officers of the Home Buyers Association. The authority should provide the home buyer with an opportunity for special counseling designed to help him with his particular problem in fulfilling this agreement. The home buyer shall be given 30 days' written notice and shall be informed by a representative of the authority of the reason for the termination. The home buyer shall be given an opportunity to reply to the same representative of the authority, and, if he wishes, to another representative, or other representatives of the authority. The home buyer shall have the right to be accompanied by a representative of the Home Buyers Association when he presents his reply or replies.

b. *Termination by the home buyer.* The home buyer may terminate this agreement by giving the authority 30 days' notice in writing of his intention to terminate and vacate the home. In the event that the home buyer abandons the home, or vacates it without notice to the authority, this agreement shall be automatically terminated and the authority may dispose of, in any manner deemed suitable by the authority, any items of personal property abandoned by the home buyer in the home.

c. *Application of funds.* The unused balance of the EHPA funds shall be applied as provided in § 8h above. The unused balance of the non-routine-maintenance reserve and of the operating reserve will not be refunded, but shall be retained by the authority.

d. *Failure to terminate.* The failure or omission of the authority to terminate this agreement for any cause shall not impair the right of the authority to do so later for similar or other causes.

23. *Survivorship.* In the event of the death, mental incapacity, or abandonment of the family by the home buyer, the designee under section E of Part I of this agreement shall be his successor as a home buyer, unless such designee is then determined by the authority and HUD to be no longer qualified.

24. *Nonassignability.*

a. *Nonassignability.* The home buyer shall not assign this agreement, or assign, mortgage, or pledge any right or interest therein including any right or interest in any reserve or account, without the prior written approval of the authority and HUD.

b. *Use of reserves and accounts.* It is understood and agreed that the home buyer shall have no right to receive or use the money in any reserve or account created pursuant to this agreement except for the limited purposes and under the special circumstances set forth by the terms of this agreement. It is further understood and agreed that both the authority and HUD have a financial and a governmental interest in the earned home payments account and other reserves as security for the financial integrity of the development, as a means of savings in cost to the Government by minimizing the amount and period over which HUD annual contributions must be paid, and as a means of advancing the public interest and welfare by assisting low-income families to achieve homeownership.

25. *Notices.* Any notice required hereunder or by law shall be sufficient if delivered in writing to the home buyer personally, or to an adult member of his family residing in the dwelling unit, or if sent by certified mail return receipt requested properly addressed to the home buyer, postage prepaid. Notice to the authority shall be in writing, and either delivered to any authority employee at the office of the authority or sent to the authority by certified mail, properly addressed, postage prepaid.

26. *Grievance procedure.* All grievances or appeals arising under this home-buyers agreement shall be processed and resolved pursuant to the grievance procedure of the authority, which procedure shall be revised to reflect the participation of the Home Buyers Association in the grievance process consistent with § 5 of part II of this agreement. This grievance procedure, as revised, shall be posted in the authority's office, and is incorporated herein by reference.

APPENDIX III

CERTIFICATE OF ACKNOWLEDGMENT OF HOME-BUYER'S RIGHT TO PURCHASE HOME

State of _____ }
County of _____ } ss

I, the undersigned, being the duly qualified and acting _____ of
(officer)
the _____ housing authority, do hereby certify that, as of the date hereof, _____ has attained a balance of at least $200 in his earned home payments account and has thereby achieved the status of home buyer, pursuant to which he is entitled to exercise the option to purchase the home located at _____, all in accordance with and subject to provisions of the home-buyers ownership opportunity agreement dated _____, 19____.
(Home buyer)

In witness whereof, I have hereunto affixed my official signature and seal this _____ day of _____, 19____.

[SEAL] _____
(Authorized officer)
_____
Housing authority

APPENDIX IV

PROMISSORY NOTE FOR PAYMENT UPON RESALE BY HOME BUYER AT PROFIT

For value received, _____ (Homeowner) promises to pay to _____ (Authority) or order, the principal sum of _____[1] dollars ($_____), without interest, on the date of resale by the homeowner of the property conveyed by the authority to the homeowner.

Such principal sum shall be reduced at the time of resale either to: (A) The difference between the resale price and the sum of (1) the homeowner's purchase price, (2) the costs incidental to his acquiring ownership, (3) the cost of such resale including commissions, mortgage prepayment penalties, and closing costs, and (4) the value of all improvements to the property made by the homeowner whether as a home buyer or homeowner; or (B) the remaining amount, if any, after deducting 20 percent of such principal sum for each year of residency by the homeowner on the property as determined by the authority; whichever is lower.

If the home owner shall pay this note at the time and in the manner set forth above, or if, by its provisions, the amount of this note shall be zero, then the note shall terminate and the authority shall, within thirty (30) days after written demand therefor by the homeowner, execute a release or satisfaction of this note, and the homeowner hereby waives the benefits of all statutes or laws which require the earlier execution or delivery of such release or satisfaction by the authority.

Presentment, protest, and notice are hereby waived.

Dated _____, 19____.

Homeowner's spouse

[1] Amount determined in accordance with § 17 of the home buyers ownership opportunity agreement.

Subpart C—Homeownership Counseling and Training

§ 1270.201 Purpose.

The purpose of the counseling and training program shall be to assure that the home buyers, individually and collectively through their home-buyers association (HBA), will be more capable of dealing with situations with which they may be confronted, making decisions related to these situations, and understanding and accepting the responsibility and consequences that accompany those decisions.

§ 1270.202 Objectives.

The counseling and training program should seek to achieve the following objectives:

(a) Enable the potential home buyer to have a full understanding of the responsibilities that accompany his participation in the homeownership opportunity program;

(b) Enable the potential home buyer to have an understanding of homeownership tasks with specific training given to individuals as the need and readiness for counseling or training indicates;

(c) Assure that the role of the HBA is understood and plans for its organization are initiated at the earliest practical time;

(d) Develop an understanding of the role of the LHA and of the need for a cooperative relationship between the home buyer and the LHA;

(e) Encourage the development of self-help by the home buyer through reducing dependency and increasing independent action;

(f) Develop an understanding of mutual assistance and cooperation that will develop a feeling of self-respect, pride, and community responsibility;

(g) Develop local resources that can be of assistance to the individual and the community on an ongoing basis.

§ 1270.203 Planning.

(a) The counseling and training program shall be flexible and responsive to the needs of each prospective home buyer. While many subjects lend themselves to group sessions, consideration shall be given to individual counseling. Individuals should not be required to attend training classes on subject matter they are familiar with unless they can actively participate in the instruction process.

(b) The program may be provided by contract with an outside organization, or by the LHA staff, in either case with voluntary involvement and assistance of groups and individuals within the community. It must be recognized that most of the objectives stated require specialized instructional skill and content knowledge. There shall be recognition of the differences in communication and in value systems, and an understanding and respect for past experience of the individual. Maximum possible use shall be made of indigenous trainers to insure good communication and rapport. Special attention shall be directed to the needs of working members of the family for counseling and training sessions to be held when they can attend. Where the services of outside groups are utilized, there shall be a close working relationship with the LHA and a program for phasing in LHA staff who will have the ongoing responsibility for the program. The value of local agencies, educational institutions, etc., for implementing the program rather than an outside firm shall be carefully considered since their presence in the community can often develop into an ongoing resource beyond the contract period.

(c) In planning a homeownership counseling and training program, whether self-administered or contracted, the LHA shall consult with HUD for advice and information on programs, qualified contractors, local resources, reasonable costs, and other similar matters.

(d) Where the program is to be contracted to an outside group, proposals shall be secured either by public advertising or by sending requests for proposals to a number of competent public or private organizations.

(e) In areas where there are large concentrations of home buyers who do not read, write, or understand English fluently, the native language of the people shall be used. If feasible all instructional matters shall be in both languages.

§ 1270.204 General requirements and information.

The counseling and training program shall be designed to meet the needs of the home buyers and be sufficiently flexible to meet new needs as they arise. The nature of the program suggests four phases of counseling: (1) Preoccupancy; (2) move-in; (3) postoccupancy; (4) assistance to the HBA. While some elements of the program lend themselves more to one phase than another, the program areas shall be coordinated and interrelated. It is recommended that the entity providing these services work closely with the participants and insure that policies established are agreeable to both the LHA and the home buyer.

The following is a description of major elements of the program which experience thus far has shown to be relevant. More detailed information is set forth in Appendix I, "Content Guide for Counseling and Training Program."

(a) *Preoccupancy phase.* The scheduling of this phase should be related to construction schedules and occupancy dates and it should be completed before the families and the LHA enter into the home buyers ownership opportunity agreements. During this phase, each family and the LHA should be able to assess the family's potential and the desirability of its participating in the homeownership project. It should provide basic preparation for the families to assume the responsibilities of homeownership, though many of the elements to be covered will be dealt with in greater depth as the program develops. An overload of information should be avoided in this phase, because experience has shown that much of the information will be more relevant to the families in the postoccupancy period.

(b) *Move-in phase.* During this phase, the counseling and training staff should be available to the home buyers on an individual basis. Services may include: (1) Inspecting the units, interior and exterior, with the home buyers and a representative of the LHA, (2) testing appliances and equipment, (3) providing information on the moving process (packing, trucks, etc.), and (4) assisting home buyers in making adjustments occasioned by the move, serving as liaison among home buyers, LHA, builder, and other agencies, and assisting home buyers in meeting new neighbors.

(c) *Postoccupancy phase.* Before this phase begins, a period (possibly 1 month) should elapse to allow home buyers an opportunity to adjust to their new surroundings. This is a time when new questions and problems come to light that can be dealt with in further counseling and training. This phase should be designed to cover the same basic subjects as the preoccupancy phase, both by review and refresher where necessary, but in much greater depth.

(d) *Assistance to the HBA.* The parties responsible for the counseling and training program shall be responsible for the formation, incorporation, and development of the HBA, including the execution of the recognition agreement between the LHA and HBA, as provided in Subpart D of this part.

§ 1270.205 Training methodology.

Equal in importance to the content of the pre- and post-occupancy training is the training methodology. Because groups vary, there should be adaptability in the communication and learning experience. Methods to be utilized may include group presentations, small discussion groups, special classes, and workshops. Especially important to a successful program are individual family home visits for discussion and instruction on unique problems and operation of equipment.

§ 1270.206 Funding.

(a) *Source of funds.* The LHA may, with the approval of HUD, include up to $500 per dwelling unit in the development cost of the project for expenses in connection with: (1) Pre- and post-occupancy counseling and training activities for applicants and home buyers, and (2) organization and operation of the HBA, provided that such expenses

V 37-214 NOV 4 72 XUM

are incurred no later than a date set by the LHA with the approval of HUD. If additional funds should be needed for such purposes, the LHA, with the assistance of the CPC, if any, shall explore all other possible sources of services and funds.

(b) *Application for funds.* (1) The LHA shall apply for fund approval by preparing a narrative statement outlining the counseling and training program, including services and funds to be obtained from other sources. This statement, together with copies of any proposed contract and other pertinent documents, shall be submitted to the HUD area office at the time of the submission of the development program for the project or as soon thereafter as possible.

(2) The statement outlining the counseling and training program shall include the following:

(i) Description of the needs and problems of prospective home buyers;

(ii) The method to be used to determine individual training and counseling needs;

(iii) The scope of the proposed program, including a detailed breakdown of tasks to be performed, products to be produced, and a time schedule, including provision for progress payments for specific tasks;

(iv) An outline of the content of the counseling and training to be provided;

(v) The methods of counseling and training to be utilized;

(vi) The experience and qualifications of those providing the counseling and training;

(vii) The local community resources to be utilized;

(viii) The estimated cost, source of funds, and methods of payment for the tasks and products to be performed or produced, including estimates of costs for each of the following cost categories:

(*a*) Counseling and training: Salaries; materials, supplies, and expendable equipment; contract costs; and other costs.

(*b*) Home buyers association costs.

(3) Upon approval by HUD of the application for funds, the total amount of HUD funds included in the approved counseling and training program shall constitute the maximum amount that may be included in the development cost of the project: *Provided*, That such amount may be amended, if necessary, with HUD approval, subject to the overall limitation of $500 per dwelling unit.

(c) *Approval of funds.* The development program for each homeownership project shall include an estimate of the costs for the counseling and training program. However, the approval of the development program does not constitute approval for incurring such costs prior to the approval of the counseling and training program. Upon approval of the counseling and training program, the LHA shall include the approved amount in its contract award development cost budget.

§ 1270.207 Use of appendix.

A content guide for counseling and training program (appendix I) is provided as further detailed information, for consideration in designing the counseling and training program. The items set forth therein are not to be considered mandatory.

APPENDIX I

CONTENT GUIDE FOR COUNSELING AND TRAINING PROGRAM

Inclusion of the following items in the Counseling and Training Program should be considered, keeping in mind that the extent to which they are covered will depend on specific needs of home buyers in the given development.

Preoccupancy phase

1. *Explanation of program.* Includes the background and a full description of the program with special emphasis on the financial and legal responsibilities of the home buyers, the HBA, and the LHA; and a review for home buyers of the computation of the monthly payment and of the accumulation and purpose of equity and reserves.

2. *Property care and maintenance.* Includes making home buyers generally familiar with the overall operation of the home, including fixtures, equipment, interior designing, and building and equipment warranties, and the appropriate procedures for obtaining services and repairs to which the home buyers may be entitled. (This aspect will probably have to be covered in more detail during the postoccupancy phase.)

3. *Money management.* Includes budgeting, consumer education, credit counseling, insurance, utility costs, etc.

4. *Developing community.* Includes a view of the surrounding community, and especially how the home buyer relates to it as an individual and as a member of the HBA.

5. *Referrals.* Includes information as to community resources and services where assistance can be obtained in relation to individual or family problems beyond the scope of the contract agency. This may include referrals to community services that can upgrade employment skills, provide legal services, offer educational opportunities, care for health and dental needs, care for children of working mothers, provide guidance in marital problems and general family matters, including drugs and alcohol.

Postoccupancy phase

1. *Home maintenance.* This should include builder responsibility, identification of minor and major repairs, instructions on do-it-yourself repairs and methods of having major repairs completed.

2. *Money management.* This should involve an in-depth study of the legal and financial aspects of consumer credit, savings and investments, and budget counseling.

3. *Developing community.* This will consist primarily of creating an awareness on the part of the home buyer of the nature and function of the HBA and the value of his participation in, and working through, the HBA as a responsible member of his community. By this means much will be learned about relationships with neighbors, community cooperation, and the ways in which individual and group problems are solved.

Other items

In addition to the above, there are other needs and concerns, especially those expressed by the home buyers, that may be dealt with in special classes or workshops. These may include such topics as child care, selection of furnishings, decorating and furnishing, refinishing of furniture, upholstery, sewing, food and nutrition, care of clothing, etc.

Subpart D—Home Buyers Association (HBA)

§ 1270.301 Purpose.

It is essential that the home buyers have an organized vehicle for pursuing their common interests, for effectively representing the needs of residents in dealing with the LHA, and for undertaking eventual management responsibility for the development. Although this organization, called the Home Buyers Association (HBA), shall be representative of the home buyers and independent of the LHA, it shall be the responsibility of the LHA and the training and counseling staff to assist the home buyers in their initial efforts at organization. Except as noted in § 1270.307, each homeownership project shall have an HBA.

§ 1270.302 Membership.

All families who have entered into home buyers ownership opportunity agreements shall be members of the HBA.

§ 1270.303 Organizing the HBA.

(a) The HBA should be organized and incorporated as early in the life of the project as is feasible, in order to allow selected home buyers an opportunity to meet each other and begin forging a sense of community, but in any case the HBA shall be organized and incorporated no later than the date on which 50 percent of the home buyers have been selected. However, officers and directors shall not be elected for full terms until 80 percent of the home buyers are in occupany.

(b) The LHA, in cooperation with the CPC, if any, shall be responsible for assuring that competent counseling and training assistance pursuant to Subpart C of this part will be provided in organizing the HBA. These services shall be continued until the HBA is fully operational.

(c) The provision of such services shall include at least the following functions:

(1) Assembling home buyers for initial orientation and planning;

(2) Explaining to home buyers the structure and functions of an HBA and the rights and responsibilities of the HBA and the LHA;

(3) Aiding in the preparation of charters, bylaws, contracts with the LHA, and other appropriate documents;

(4) Assisting in the formation of the organization, including such things as the initial election of HBA officers and directors, and the establishment of standing committees, if any.

(d) The LHA and the HBA shall execute an agreement recognizing the HBA as the official representative of the home buyers, and establishing the functions, rights, and responsibilities of both parties (see appendix II). This agreement shall

be executed as soon as possible after incorporation of the HBA.

§ 1270.304 Functions of the HBA.

(a) Subject to possible variations agreed to by the HBA and approved by HUD, the functions of the HBA shall include the following:

(1) Representing its members, individually and collectively, with respect to any deficiencies in the development or the homes therein and with respect to fulfillment of the construction contract and related warranties;

(2) Representing its members, individually and collectively, in their relationships with the LHA and others in regard to financial matters such as monthly payments, credits to and charges against reserves, settlement upon vacating the home, acquisition of ownership and to such other matters as pertain to project management;

(3) Recommending policies to the LHA for operation and management and, where appropriate, establishing HBA rules in that respect;

(4) Participating in the operation of official grievance mechanisms;

(5) Advising and assisting the members regarding procedures and practices relative to the earned home payments account and the acquisition of ownership;

(6) Participating with the LHA in periodic maintenance inspections of homes after occupancy, and assisting and making recommendations in case of disagreements arising out of such maintenance inspections;

(7) Participating with the LHA in the selection of subsequent home buyers;

(8) Coordinating, supervising, or managing the operation of credit union, child care, or other supportive services established for the development;

(9) Participating with the LHA in the establishment and implementation of policies related to collection of monthly payments, termination of occupancy, and resolution of hardship situations; and

(10) Performing management services as specified in § 1270.306 and participating in any other activities pursuant to agreement between the HBA and the LHA.

(b) In addition, the HBA may offer such special services as the following:

(1) The development of self-help such as consumer clubs, furniture and other co-ops, credit unions, transportation pools, and skill pools;

(2) Assisting home buyers in acquiring group insurance;

(3) Developing programs and contracting for services such as child care centers to be located in the community facility where one exists;

(4) Assisting home buyers in their employment, especially by participating in skill development and apprenticeship programs in cooperation with local educational organizations;

(5) Assisting home buyers in planning the management role of the HBA and in negotiating any contract for management services with the LHA.

§ 1270.305 Funding.

For general items of expense in the conduct of the business and activities of an HBA, in addition to noncash contributions such as space, office furniture, and duplicating services, the LHA shall provide for such expense in its budget and shall make cash contributions to cover HBA needs to the extent approved by HUD in the LHA budget. (After the $500 per unit maximum amount provided in § 1270.206 has been exhausted, the LHA's cash contribution shall be as provided in the LHA's annual operating budgets.) Such expenses of the HBA shall be subject to whatever restrictions are applied by HUD to the funding of tenant councils generally, except that the amounts shall be within the limitations stated in this section. Such contributions shall not exceed $3 per year per dwelling unit, except that as an incentive to the HBA to provide additional funds from other sources such as home buyers' dues, contributions, revenues from special projects or activities, etc., the LHA shall, to the extent approved by HUD in the LHA budget, match such additional funds beyond the $3 up to a maximum of $7.50, for a total LHA share of $7.50 where the total funding for the HBA is $12 or more. The HBA shall not be precluded from seeking to achieve total funding in excess of $12 per unit where this can be done with additional funds from sources other than the LHA. Furthermore, funding by the LHA for the normal expenses of the HBA is not to be confused with fees paid pursuant to management services contracts as described in § 1270.306.

§ 1270.306 Performing management services.

The LHA may also contract with the HBA to perform some or all of the functions of project management for which the HBA may be better suited or located than the LHA. Such functions may include security, maintenance of common property, or collection of monthly payments. For this purpose, the HBA may form a management corporation and the officers of the HBA shall be the directors of such corporation. This corporation and the LHA shall then negotiate a management-services contract. Such arrangements are consistent with the objective of providing for maximum participation by residents in the management of their development. As an alternative, the HBA and the LHA may elect to undertake any other arrangement approved by HUD.

§ 1270.307 Alternative to HBA.

Where the homes are on scattered sites (noncontiguous lots throughout a multiblock area, with no common property), or where the number of homes may be too few to support an HBA, and where an alternative method for home buyer representation and continuing counseling is provided, an HBA shall not be required. For such cases, a modified form of home buyers association may be called for or a less formal organization may be desirable. This decision shall be made jointly by the LHA and the home buyers, acting on the recommendation of HUD.

§ 1270.308 Relationship with Homeowners Association.

The HBA and the homeowners association are, in legal terms, separate and distinct organizations with different functions. The homeowners association may hold title to and be responsible for maintenance of common property (see §§ 1270.119 and 1270.120), while the HBA has more general service and representative functions. While all residents are members of the HBA, only those who have acquired title to their homes are members of the homeowners association.

§ 1270.309 Use of appendixes.

Use of the articles of incorporation (Part I of Appendix I) and the recognition agreement between the local housing authority and Home Buyers Association (Appendix II) is mandatory for projects developed under Subpart B of this part which have home buyers associations. No modification may be made in format, content or text of these appendixes except: (a) As required under State or local law as determined by HUD, or (b) with approval of HUD. The bylaws of the Home Buyers Association is provided as a guide for such projects and it may be used or modified to the extent required by the HBA and LHA respectively to meet local needs and desires.

APPENDIX I

ARTICLES OF INCORPORATION AND BYLAWS OF _____ HOME BUYERS ASSOCIATION

Part I—*Articles of Incorporation*

In compliance with the requirements of the undersigned, all of whom are natural

_____
(reference to statute under which incorporation is sought)

persons, residents of _____ of full age, have this day voluntarily associated themselves together for the purpose of forming a corporation, not-for-profit, and do hereby certify:

ARTICLE I—NAME

The name of the corporation is _____ Home Buyers Association (hereinafter referred to as the "Association").

ARTICLE II—OFFICE

The principal office of the Association is located at _____

ARTICLE III—AGENT

_____, whose address is _____, is hereby appointed the initial registered agent of the Association.

ARTICLE IV—DURATION

The period of duration of the Association is perpetual.

ARTICLE V—PURPOSES

The purpose for which this Association is formed shall not result in pecuniary gain or profit to the members thereof. These purposes are to provide organization and

V 37-214 NOV 4 72 XUM

representation for its members in their relationships with _____ (hereinafter referred to as the "Authority") in all matters regarding the homeownership opportunity program and, if appropriate, to perform management responsibilities for _____ (hereinafter referred to as the "Development") under contract with the Authority. In order to carry out these purposes, the Association shall perform the following functions:

1. Represent its members, individually and collectively, with respect to any deficiencies in the development or any individual unit (hereinafter referred to as the "Home") therein and with respect to fulfillment of the construction contract and related warranties;

2. Represent its members, individually and collectively, in their relationships with the authority and others in regard to financial matters such as monthly payments, credits to and charges against reserves, settlement upon vacating the home, and acquisition of ownership, and to such other matters as pertain to project management;

3. Recommend policies to the authority for operation and management and, where appropriate, establish association rules in that respect;

4. Participatae in the operation of official grievance mechanisms;

5. Advise and assits its members regarding procedures and practices relative to their earned home payments accounts and to their acquisition of homeownership;

6. Participate with the authority in periodic maintenance inspections of the homes after occupancy and assist and make recommendations in case of disagreement arising out of such maintenance inspections;

7. Participate with the authority in the selection of subsequent home buyers;

8. Coordinate, supervise, or manage the operation of credit union, child care, or other supportive services established for the development;

9. Participate with the authority in the establishment and implementation of policies related to collection of monthly payments, termination of occupancy, and resolution of hardship situations;

10. Perform management functions as specified under contract with the authority or with the Homeowners Association and participate in other activities pursuant to agreement with the authority or with the Homeowners Association.

ARTICLE VI—POWERS

This association shall have all the powers, privileges, rights and immunities which are necessary or convenient for carrying out its purposes and which are conferred by the provisions of all applicable laws of the State of _____ pertaining to nonprofit corporations.

ARTICLE VII—MEMBERS

Membership in the association shall be limited to families who have signed a homebuyers ownership opportunity agreement with the authority with respect to a home in the development. This membership shall automatically be in effect from the date of signing of the home-buyers ownership opportunity agreement until the date of termination of occupancy of the home. Families who have attained homeownership shall continue as members of the association.

ARTICLE VIII—VOTING

There shall be only one vote per home regardless of the number of persons in the family that occupies the home.

ARTICLE IX—BOARD OF DIRECTORS AND BYLAWS

The affairs of the association shall be managed by a board of directors, all of whom shall be members of the association. The number of directors shall be as provided in the bylaws of the association. The following persons shall serve as the first board of directors:

Name	*Address*
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

This board shall manage the affairs of the association until election of their successors by the membership.

Promptly after 80 percent of the homes are occupied, the board shall call the first annual meeting of the association at which the members shall adopt bylaws and elect one-third of the board for a term of 1 year, one-third for a term of 2 years, and one-third for a term of 3 years. At each annual meeting thereafter the members shall elect one-third of the board for a term of 3 years.

ARTICLE X—DISSOLUTION

After all members have acquired ownership of their homes, the association shall be dissolved with the assent given in writing and signed by not less than two-thirds of the members. The dissolution shall be effective when all of the assets of the association remaining after payment of its liabilities have been granted, conveyed and assigned in such manner as the association and authority may mutually agree.

ARTICLE XI—AMENDMENT

Amendment of these articles shall require the assent of 75 percent of the entire membership.

IN WITNESS WHEREOF, for the purposes of incorporating this association under laws of the State of _____, we, the undersigned constituting the incorporators of this association, have executed these articles of incorporation this _____ day of _____, 19_____.

_____
_____
_____
_____
_____
(Witness, notary or acknowledgment as required by State law)

(NOTE: The following is a suggested form of bylaws. Different format and content to meet local needs may be used. For example, it may be considered desirable to combine HBA offices, eliminate or change functions of various committees, provide for other committees, etc.)

Part II—Bylaws

The members of the _____ Home-buyers Association (hereinafter referred to as the "Association") do hereby adopt in accordance with Article IX of the Articles of Incorporation the following bylaws:

SECTION 1. ORGANIZATION

The affairs of the association shall be managed by a board of directors elected by and from the members of the association. The board shall elect officers of the association, including a president, vice president, secretary, and treasurer, who shall carry out such functions and duties as are prescribed by these bylaws and the board.

SECTION 2. ASSOCIATION MEETINGS

A. *Annual meetings.* The association shall have an annual meeting at _____ (time) on the _____ each year (day of week and month) for the purpose of transacting such business as may be necessary or appropriate. If the date of the annual meeting is a legal holiday, the meeting shall be held at the same hour on the first day following which is not a legal holiday.

B. *Quarterly and special meetings.* Between annual meetings, quarterly meetings shall be called by the president and be held for the purpose of advising the membership of activities of the board and enabling the members to bring up matters of common concern. Special meetings may be called at any time: (1) By the president with the written concurrence of at least two of the other officers, or (2) by a petition filed with the secretary stating the purpose of the meeting and signed by at least one-fifth of the total number of members in the association.

C. *Notice of meetings.* Written notice of each annual, quarterly, or special meeting of the members shall be given by, or at the direction of, the secretary by mailing a copy of such notice at least 15 days before an annual or quarterly meeting or at least 7 days before a special meeting, addressed to each member at the member's address shown on the records of the association. Such notice shall specify the place, date, and hour of the meeting and, in the case of a special meeting, the purpose of such meeting. No business shall be transacted at any special meeting other than that stated in the notice unless by consent of at least one-half of the total number of votes of the association.

D. *Quorum.* A quorum at any meeting shall consist of members entitled to cast votes which represent at least one-tenth of the votes of the association. If such a quorum is not present, those present shall have the power to reschedule the meeting from time to time without notice other than an announcement at the meeting until there is a quorum. At any rescheduled meeting at which a quorum is present, the only business which may be transacted is that which might have been transacted at the original meeting.

E. *Voting.* Each family shall designate in writing to the secretary the family member who is to cast the family vote. That designee may appoint as a proxy for a specific meeting any other member of the association. A proxy must be in writing and filed with the secretary not later than the time that meeting is called to order. Every proxy shall be revocable and shall be automatically revoked when the person who appointed the proxy attends the meeting or ceases to have voting privileges in the association. Votes represented by proxy shall be counted in determining the presence or absence of a quorum at any meeting.

F. *Agenda.* An agenda shall be prepared for every meeting.

SECTION 3. BOARD OF DIRECTORS

A. *Number of directors.* The affairs of the association shall be managed by a board of _____ directors, all of whom shall be members of the association. The number of directors may be changed by amendment of the bylaws of the association.

B. *Term of office.* The board of directors shall be elected at the annual meeting of

the association. At the first annual meeting, the members shall elect _____[1] directors for a term of 1 year, _____[1] directors for a term of 2 years, and _____[1] directors for a term of 3 years. At each annual meeting thereafter the members shall elect _____[1] directors for a term of 3 years.

C. *Removal and other vacancies of directors.* Any director may be removed from the board, for cause, by a majority of the votes of the association at any annual or quarterly meeting or any special meeting called for such purpose, provided that the director has been given an opportunity to be heard at such meeting. In the event of death, resignation or removal of a director, his successor shall be elected by the remaining members of the board and shall serve for the unexpired term of his predecessor.

D. *Chairman of the board.* At the first regular board meeting after each annual meeting, the board of directors shall elect a chairman from among their number.

E. *Compensation.* No compensation shall be paid to the board for its services. However, any Director may be reimbursed for his actual expense incurred in the performance of his duties, as long as such expense receives approval of the board and is within the approved association budget.

SECTION 4. NOMINATION AND ELECTION OF THE BOARD

A. *Nomination.* Nomination for election to the board of directors (other than for filling of vacancies under § 3C.) shall be made by the nominating committee; *Provided, however,* That nominations may also be made from the floor at the annual meeting by motion properly made and seconded, or by a petition which states the name of the person nominated, is signed by members representing at least 10 votes, and is filed with the secretary not later than the day prior to the annual meeting. Persons nominated must be members of the association.

B. *Election.* Election of the board of directors shall be in accordance with § 2E., and by secret written ballot. The ballots shall be prepared by the secretary. Cumulative voting is not permitted (that is, a voter who refrains from voting with respect to one or more vacancies may not on that account cast any extra vote or votes with respect to another vacancy). The persons receiving the largest number of votes shall be elected.

SECTION 5. MEETINGS OF DIRECTORS

A. *Regular meetings.* Regular meetings of the board of directors shall be held monthly at such time and hours as may be fixed from time to time by resolution of the board. Notice of time and place of the meetings shall be mailed to each director no later than 7 days before the meeting.

B. *Special meetings.* Special meetings of the board of directors shall be held when called by the president of the association, the chairman of the board or by any two directors, after not less than 3 days' notice to each director.

C. *Quorum.* A simple majority of the board shall constitute a quorum for the transaction of business. Every act or decision done or made by a majority of the Board present at a duly held meeting shall be regarded as an act of the board.

D. *Action taken without a meeting.* Any action which could be otherwise taken at a board meeting may be taken in the absence of a meeting, by obtaining the written approval of all directors. Any action so approved shall have the same effect as though taken at a meeting of the board.

SECTION 6. POWERS AND DUTIES OF THE BOARD OF DIRECTORS

A. *Powers and duties generally.* The board of directors shall have and exercise all the powers, duties, and authority necessary for the administration of the affairs and to carry out the purposes of the association, excepting only those acts and things as are required by law, by the articles of incorporation, or by these bylaws to be exercised and done by the members or their officers.

B. *Powers.* The board shall have the power to: (1) Adopt and publish such rules and regulations as are appropriate in the exercise of its powers and duties, including, but not limited to, rules and regulations governing the amount and payment of dues, use of common areas and facilities, and the conduct of the members and their guests thereon, and the establishment of penalties for violation of such rules and regulations; (2) appoint or designate officers, agents, and employees, and make such delegations of authority as in its judgment are in the best interests of the association; (3) declare the office of a member of the board of directors to be vacant in the event such member shall be absent from at least three consecutive regular meetings of the board of directors.

C. *Duties.* It shall be the duty of the board of directors to: (1) Cause to be kept a complete record of all its acts and association affairs, and to present a statement thereof to the members at the annual meeting, or at any special meeting when such statement is requested in writing by members representing at least one-fifth of the votes of the association; (2) cause to be prepared an annual audit of the association books to be made at the completion of each fiscal year; (3) cause to be supervised all officers, agents, and employees of the association, and see that their duties are properly performed; (4) procure and maintain adequate liability and hazard insurance on any property owned by the association; (5) cause such officers or employees having fiscal responsibilities to be bonded as the board may deem appropriate; (6) cause to be performed the functions listed in Article V of the articles of incorporation.

SECTION 7. ASSOCIATION OFFICERS AND THEIR DUTIES

A. *Election.* The board of directors shall elect the following officers of the association: A president, a vice president, a secretary, a treasurer, and such other special officers as, in the opinion of the board, the association may require. The president and vice president shall be elected from members of the board. The election of officers shall take place biennially at the first meeting of the board of directors following the annual meeting of the members.

B. *Term.* The officers shall hold office for 2 years unless they shall resign sooner, be removed, or otherwise be disqualified to serve; *Provided, however,* That special officers shall hold office for such period as the board may determine, but not to exceed 1 year.

C. *Removal and resignation.* Any officer may be removed from office, for cause, by the board. Any officer may resign at any time by giving written notice to the board, the president or the secretary. Such resignation shall take effect on the date of receipt of such notice or at any later time specified therein; and unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective.

D. *Vacancies.* A vacancy in any office may be filled by appointment by the board. The officer appointed to such vacancy shall serve for the remainder of the term of the officer he replaces.

E. *Multiple officers.* No person shall simultaneously hold more than one of the offices required by these bylaws.

F. *Duties.* The duties of the officers are as follows:

(1) *President.* The president shall preside at all association meetings; shall execute the orders and resolutions of the board; shall sign all leases, mortgages, deeds, and other written instruments; and shall cosign with the treasurer all checks and promissory notes.

(2) *Vice president.* The vice president shall act in place and stead of the president in the event of his absence or disability and shall exercise and discharge such other duties as may be required of him by the board.

(3) *Secretary.* The secretary shall record the votes and keep the minutes of all meetings and proceedings of the board and of the association; shall keep the corporate seal of the association and affix it on all papers requiring said seal; shall serve notice of the meetings of the board and of the association; shall keep appropriate current records showing the names and addresses of the members of the association; and shall perform such other duties as required by the board.

(4) *Treasurer.* The treasurer shall receive and deposit in appropriate bank accounts all funds of the association and shall disburse such funds as directed by resolution of the board of directors; shall cosign with the president all checks and promissory notes of the association; shall keep proper books of account; and shall prepare an annual budget and statement of income and expenditures which shall be approved by the board before presentation to the association at its regular annual meeting, and furnish a copy to each of the members.

(5) *Special officers.* Special officers shall have such authority and perform such duties as the board may determine.

(6) *Compensation.* Officers may not be compensated except as may be determined by the board, in accordance with the approved association budget.

SECTION 8. COMMITTEES

A. *Committees to be established.* The board of directors shall establish the following committees:

(1) *Representation Committee* which shall represent members, individually and collectively, with respect to: Any deficiencies in the development or the individual homes therein; fulfillment of the construction contract and related warranties; relationships with the authority and others in regard to financial matters such as monthly payments, credits to and charges against reserves, settlement upon vacating the home, and acquisition of ownership; matters pertaining to project management; and matters in the authority's official grievance mechanisms.

(2) *Rules Committee* which shall present to the board for recommendation to the authority policies for operation and management and, where appropriate, assist the board in establishing association rules in that respect.

(3) *Homeownership Committee* which shall advise and assist members in regard to maintenance and acquisition of ownership of their homes, financial matters, and other matters related to home ownership and home management.

(4) *Selection Committee* which shall recommend proposed home buyers from a list of eligible applicants.

(5) *Nominating Committee* which shall consist of a chairman, who shall be a member of the board of directors, and two

[1] Each group shall be one-third of the total number of directors.

V 37-214 NOV 4 72 XUM

or more members of the association, none of whom are directors. The Nominating Committee shall be appointed by the board of directors prior to each annual meeting, to serve from the close of such annual meeting until the close of the next annual meeting and such appointments shall be announced at each annual meeting. The Nominating Committee shall make as many nominations for election to the board of directors as it shall in its discretion determine, but not less than the number of vacancies to be filled.

B. *Other committees.* The board may establish other committees, permanent or temporary, which it deems necessary or desirable to carry out the purposes of the association.

C. *Committee chairmen and members.* The chairmen of all committees, except the Nominating Committee, shall be appointed by and serve at the pleasure of the president. Committee members shall be appointed by the chairman of the committee on which they are to serve and shall serve until a new chairman is appointed.

D. *Committee reports.* The chairman of each committee shall make a report to the president in writing of committee meetings and activities prior to each regular monthly meeting of the board of directors.

E. *Authority.* Unless specifically authorized in writing by the board of directors or the president, a committee chairman or a committee shall have no authority to legally obligate the association or incur any expenditure on behalf of the association.

SECTION 9. SUSPENSION OF RIGHTS

The board may suspend, by a majority vote of the board, the voting rights and right to use the recreational facilities, of a member, and his family and guests, during any period in which the member shall be in default in the payment of any dues or assessment imposed by the association. Such rights may also be suspended, after notice and hearing, for a period not to exceed 60 days, for violation of the association's rules and regulations.

SECTION 10. BOOKS AND RECORDS

The books, records and papers of the association shall at all times, during reasonable business hours, be subject to inspection by any member.

SECTION 11. AMENDMENTS

Amendments to these Bylaws may be introduced and discussed at any annual or special meeting of the association, provided that copies of any proposed amendment shall be mailed to all the members with the notice of the meeting at which such amendment will be introduced. A vote on adopting such amendment shall be taken at the first association meeting held at least 2 weeks subsequent to the meeting at which the amendment was introduced. Amendments shall be adopted by a vote of a majority of the members of the association.

SECTION 12. CORPORATE SEAL

The association shall have a seal which shall appear as follows:

[SEAL]

SECTION 13. FISCAL YEAR

The first fiscal year of the association shall begin on the date of incorporation and shall end on the last day of ----------
(month, year)

Each successive fiscal year shall begin on the first day of ---------- and end on the last day of ----------
(month) (month)

The foregoing Bylaws were adopted at the first annual meeting of the association held ---------- by the undersigned members of the association.

APPENDIX II

RECOGNITION AGREEMENT BETWEEN LOCAL HOUSING AUTHORITY AND HOME BUYERS ASSOCIATION

WHEREAS the ---------- (Authority), a public body corporate and politic, has developed or acquired with the aid of loans and annual contributions from the Department of Housing and Urban Development (HUD), a development (Development) of dwelling units (Homes) in ---------- (Location) which low-income families will occupy with lease-purchase rights leading to eventual homeownership; and

WHEREAS, an organization of residents (Home buyers) is an essential element in such development for purposes of effective participation of the home buyers in the management of the development, and representation of the home buyers in their relationships with the Authority, and for other purposes; and

WHEREAS, the ---------- Home Buyers Association (Association) fully represents the home buyers of the development. *Now, therefore,* This agreement is entered into by and between the Authority and the association, and they do hereby agree as follows:

1. The association, whose articles of incorporation are attached hereto and made a part hereof, is hereby recognized as the established representative of the home buyers of the development and is the sole group entitled to represent them as tenants or home buyers before the Authority;

2. For each fiscal year, the Authority shall make available funds to the association for its normal expenses, in such amounts as may be available to the Authority for such purposes and subject to whatever applicable HUD regulations;

3. The Association shall be entitled to the use of office space in ---------- at the development without charge by the Authority for such use;

4. The Authority and the officers of the association shall meet at a location convenient to both parties on the ------ (day) of each month to discuss matters of interest to either party;

5. In the event the parties later agree that the association should assume management responsibilities now held by the Authority, a contract for such purpose will be negotiated by the Authority and the association;

6. This agreement shall terminate upon dissolution of the association.

IN WITNESS WHEREOF, the parties have executed this Agreement on ----------, 19------.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 25]

[Docket No. 10769; Notice 71-2B]

COCKPIT VISION AND COCKPIT CONTROLS

Notice of Reopening of Comment Period

Notice 71-2 (36 F.R. 829), was published in the FEDERAL REGISTER on January 19, 1971, inviting public comment on proposed amendments to Part 25 of the Federal Aviation Regulations that would introduce comprehensive cockpit vision standards and that would change the range of pilot heights used for the location and arrangement of cockpit controls. Notice 71-2A (36 F.R. 7257), extending the comment period from April 16, 1971, to May 18, 1971, was published in the FEDERAL REGISTER on April 16, 1971. During the FAA's review of the proposal, in the light of comments received, it has come to the attention of the FAA that additional data has been gathered and analyzed by industry since the closing of the comment period and that there may have been further advances in the state-of-the-art which should be considered in this rule making action. The FAA understands that such data includes information not contained in the comments received in response to Notice 71-2 in the areas of rearward vision, optical distortion; protrusion of cockpit displays, and introduction of flexibility in the proposed visional dimensions. It is also recognized that further developments relating to the other proposals in Notice 71-2 may have taken place, and the FAA invites the submission of comments related to any proposal contained in the notice. It is therefore requested that interested persons review their previously submitted comments, if any, in the light of the foregoing, and submit any new and additional comments. Accordingly, the period for public comment on the proposals of Notice 71-2 is being reopened and, as a convenience to the public, Notice 71-2, revised only to reflect the new closing date for comments, February 1, 1973, is being republished by this notice, as follows.

The Federal Aviation Administration is considering amending Part 25 of the Federal Aviation Regulations to introduce comprehensive cockpit vision standards and to change the range of pilot heights used for the location and arrangement of cockpit controls.

Interested persons are invited to participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW., Washington, DC 20591. All communications received on or before February 1, 1973, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Part 25 of the Federal Aviation Regulations presently requires that pilot compartments of transport category airplanes provide a sufficiently extensive, clear, and undistorted view to enable the pilots to safely perform any maneuvers within the operating limitations of the airplane, including taxiing, takeoff, approach, and landing. The present regulations do not contain any standards concerning the size and arrangement of cockpit windows and other factors affecting pilot vision. In the past, Civil Aeronautics Manual (CAM) 4b.351-1 through 4b.351-3 set forth the FAA's policies applicable to pilot compartment vision. This CAM material contained detailed provisions regarding the placement of cockpit windows, the angles of pilot vision measured from a fixed "reference eye" position, and the position and maximum recommended width of obstructions to vision in the windshield and window areas, along with other related information. Although the policy material has been followed by many manufacturers of transport category airplanes, it was not mandatory and not all transport category airplanes have been certificated in accordance with that policy.

The FAA has recently made a study of cockpit vision with respect to transport category airplanes. This study included, a review of the midair collision accident reports, the FAA Near Midair Collision Report of 1968, the vision angles available in current transports, the Society of Automotive Engineers Aerospace Standards, the military specifications for transports, and of research on the forward-downward view needed during landing approaches under low visibility conditions. The FAA study confirmed the need for more definitive cockpit vision standards.

In view of the foregoing, and to assure the necessary level of cockpit vision for future transport category airplanes, the FAA proposes to amend Part 25 of the Federal Aviation Regulations to incorporate detailed standards for the cockpit vision of transport category airplanes. The proposed standards are based on CAM 4b.351-1 through 4b.351-3 with the following changes which are based on the recent FAA study of cockpit vision: The downward-vision angles would be increased and the upward-vision angles to the side of the airplane would be increased; the windshield posts would be prohibited in certain areas and limited in width where they are used; precise standard for ground view ahead in the approach configuration would be established; a provision would be added requiring that the instrument panel glare shield provide accurate horizontal reference; optical property standards for both nontinted and tinted windshields and windows would be added; and provisions specifying the portion of the windshield which must be kept clear during precipitation conditions would be established.

In addition to the above-proposed requirements, the FAA proposes to establish new pilot height parameters. In order to establish a "reference eye" position for the measurement of cockpit vision angles, it is necessary to establish a seat height range and this in turn requires that the range of seated heights of pilots be established. Section 25.777(c) of the FAR's presently incorporates a standard range of pilot heights of 5'2" to 6' for the location of the cockpit controls. However, a recent study by the National Aeronautics and Space Administration (NASA Report No. SP-3006) indicates that a more accurate average height range for pilots of air transport category airplanes at this time is 5'4" to 6'3". This height range has therefore been used as a basis for the cockpit dimensions and the "reference eye" position of Appendix G of this proposal. It is also proposed to amend § 25.777(c) to incorporate the new pilot height range of 5'4" to 6'3" for the purpose of locating pilot controls.

The FAA presently has under study Parts 23, 27, and 29 of the Federal Aviation Regulations with a view toward proposing appropriate standards for aircraft certificated under those parts consistent with the proposals contained in this notice.

In consideration of the foregoing, it is proposed to amend Part 25 of the Federal Aviation Regulations as follows:

1. By amending § 25.773 (a)(1) and (b)(1) to read as follows:

§ 25.773 Pilot compartment view.

(a) • • •

(1) The windows and windshields in each pilot compartment must meet the requirements of Appendix G of this part, and must be arranged so as to enable the pilots to safely perform any maneuvers within the operating limitations of the airplane, including taxiing, takeoff, approach, and landing.

• • • • •

(b) • • •

(1) The airplane must have a means to maintain a clear portion of the windshield sufficient for both pilots to have adequate vision along the flight path in normal flight attitudes of the airplane. In addition, the means must meet the requirements of Appendix G of this part. This means must be designed to function, without continuous attention on the part of the crew, in— • • •.

• • • • •

§ 25.777 [Amended]

2. By amending § 25.777(c) by striking out the words, "from 5'2" to 6' in height," and inserting the words, "from 5'4" to 6'3" in height," in place thereof.

3. By amending Part 25 by adding a new Appendix G to read as follows:

Appendix G

CRITERIA FOR DETERMINING COCKPIT VISION

I—*Reference eye position.* (a) A single point selected by the applicant, within the limitations of subparagraphs (1) through (4) of this paragraph, constitutes the reference eye position. The central axis is a vertical line located 3½" aft of the reference eye position (reference figure 1).

(1) The reference eye position must be located not less than five (5) inches aft of the rearmost extremity of the primary longitudinal control column when the control is in its most rearward position (i.e., against the up longitudinal control stops).

(2) The reference eye position must be located between two vertical longitudinal planes which are one (1) inch to either side of the seat centerline. If the seat has lateral adjustment, the two vertical longitudinal planes must be within one (1) inch of either side of the primary longitudinal control centerline.

(3) Any persons from 5'4" to 6'3" in height, sitting in the seat associated with the selected reference eye position, must be able to:

(i) Adjust the seat, with the seat back in its most upright position, to locate the midpoint of his eyes at the reference eye position; and

(ii) With the seat belt fastened and the seat adjusted in accordance with subdivision (i) of this subparagraph, utilize all the aircraft controls associated with this seating position in compliance with the requirements of § 25.777.

(4) All measurements must be with the airplane longitudinal axis in a level position except those specified in section II(b).

(b) With the seat located 31½ inches below the reference eye position there must be no less than three (3) inches of available seat adjustment in both the up and the down directions. The 31½ inches is measured to the top of the seat cushion as depressed by a subject weighing 170 to 220 pounds, with the airplane longitudinal axis in a level position (reference figure 1).

(c) Means must be provided at both the pilot and copilot stations to enable the person occupying the seat to locate the midpoint of his eyes at the reference eye position.

II—*Clear areas of vision.* (a) With the reference eye position located as indicated in paragraphs I (a), (b), and (c) and utilizing binocular vision and azimuthal movement of the head and eyes about a radius, the center of which is the central axis, the pilot must have clear areas of vision, measured from the appropriate eye position with the aircraft's longitudinal axis level, as specified in subparagraphs (1) through (6) of this paragraph. The areas defined are based on the cardinal points of reference indicated in figure 2. A dual lens camera as a photo recorder, or other methods including a goniometer producing equivalent areas to those obtained with the dual lens camera, must be used in measuring the angles specified in this paragraph. When not using a dual lens camera, compensation must be made for one-half the distance which exists between the eyes, i.e., 1¼ inches as indicated in figure 3.

(1) 20° forward and up from the horizon between 30° left and 10° right diminishing

V 37-214 NOV 4 72 XUM

linearly to 15° up to 30° right (this area unbroken);

(2) 17° forward and down from the horizon between 30° left and 10° right diminishing linearly to 10° down at 30° right (this area unbroken);

(3) Increasing linearly from 20° forward and up from the horizon at 30° left to 40° forward and up from the horizon at 70° left;

(4) Increasing linearly from 17° forward and down from the horizon at 30° left to 35° forward and down from the horizon at 70° left;

(5) 40° forward and up from the horizon between 70° left and 110° left diminishing linearly to 20° up at 135° left; and

(6) 35° forward and down from the horizon between 70° left and 110° left diminishing linearly to 15° down at 135° left.

(b) In addition to the clear areas of vision specified in paragraph (a) of this section, the view angle forward and down must be sufficient to allow the pilot to see a length of approach and/or touchdown zone lights which would be covered in 3 seconds at landing approach speed when the aircraft is—

(1) On a 2½° glide slope;

(2) At a decision height which places the lowest part of the aircraft at 100 feet above the touchdown zone extended horizontally (see figure 4);

(3) Yawing ±10°;

(4) Making an approach with 1,200 feet RVR; and

(5) Loaded to the most critical weight and center of gravity location.

(c) If in a symmetrical type pilot compartment there is an area about the center of the windshield where the requirements governing pilot and copilot vision areas do not overlap, the angles in this area above and below eye level may diminish due to the increased distance between the appropriate eye position and the windshield, but the windshield dimensions established at the 30° right position, above and below the horizontal plane of the pilot's eye, must be retained. This area must also be governed by the limitations of paragraph III of this appendix.

III—*Impairments to vision.* (a) There must be no horizontal obstructions to vision within the area described in section II(a).

(b) There must be no vertical obstructions to vision in the transparent area between 30° right and 30° left and between 85° left and 95° left.

(c) The area beyond 135° must be as large as practicable.

(d) Any windshield post must not exceed 2.5 inches total obstruction in projected width on the pilot's eye when measured with the head rotated so that the eyes are perpendicular to the vertical plane passing through the centerline of the projected width as indicated in figure 5.

(e) The location of the instruments, equipment, and structure must not impair any of the areas of vision established in this paragraph. In addition, cockpit equipment must not obstruct a line of vision from a point 2 inches above the reference eye position to any points along the upper limit of the forward windshield panels, and similarly, a line of vision from a point 2 inches below the reference eye position to the lower limit of the forward windshield panels.

(f) The glare shield structure within direct or peripheral vision of either pilot must be so designed as to offer an accurate determination of the horizontal plane without restricting vision through the windshield.

IV—*Optical properties of windshield.* Both clear and tinted windshields must exhibit equivalent optical properties to those covered in MIL-G-25871A dated July 30, 1958, for flat panels, and MIL-G-25667A dated July 30, 1958, for curved panels or any subsequent specification found acceptable by the Administrator (copies obtainable from Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia PA 19120). In addition, the optical properties of the windshield must not deteriorate under pressurization loads, icing protection system provisions, or in operation.

V—*Sunvisors.* Cockpit sunvisors must not interfere with the pilots' vision. Means must be provided to prevent the sunvisors from projecting into the clear areas of vision prescribed by section II when they are not in use.

VI—*Windshield clearing provisions.* A minimum view must be provided through that portion of windshield which is cleared of rain and mist to allow each pilot to see a minimum of from 15° left to 15° right of the reference eye position, upwards to the horizon during the steepest approach path expected in operation and downwards to the angles specified in section II(b) of this appendix. The cleared area enclosed by these requirements need not be rectangular.

Section II of this appendix specifies the minimum areas of vision from the left pilot seat for showing compliance with § 25.773. The minimum areas of vision from the right pilot seat must be the same as those specified for the left pilot seat except that the left and right angle designations are interchanged.

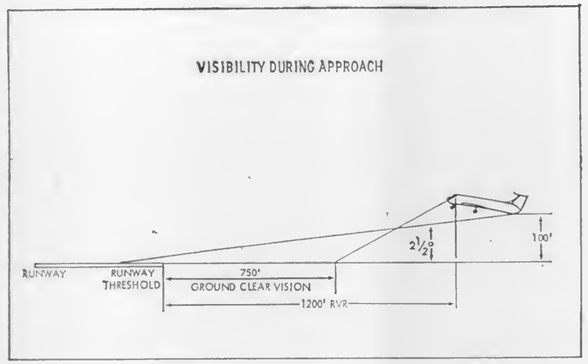

Figure 4.

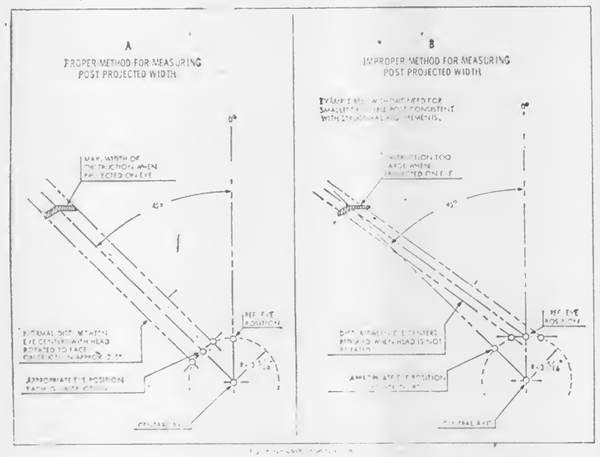

These amendments are proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on October 27, 1972.

C. R. MELUGIN, Jr.,
Acting Director,
Flight Standards Service.

[FR Doc.72-18795 Filed 11-3-72;8:45 am]

[14 CFR Part 39]

[Docket No. 11423]

NICKEL-CADMIUM BATTERIES

Proposed Airworthiness Directive; Extension of Comment Period

A proposed airworthiness directive was published in the FEDERAL REGISTER on September 13, 1972 (37 F.R. 18564; F.R. Doc. 72-15512) inviting comments on a proposed amendment to Part 39 of the Federal Aviation Regulations that would require modification, before July 1, 1973, of certain aircraft having nickel-cadmium batteries installed. The notice stated that consideration would be given to all communications received on or before October 30, 1972.

The National Business Aircraft Association has requested a 14-day extension of the time for submission of comments. The petitioner states that it has been an active participant in the nickel-cadmium battery program since its inception, working closely with the FAA in the development of related airworthiness directives. Further, the petitioner states that it has scheduled a meeting of engineering representatives of all domestic and foreign battery manufacturers whose products are approved for use in U.S. certificated aircraft, that this meeting can not be convened until October 30, 1972, and that some time thereafter will be required to compile the findings of the meeting for submittal to the docket.

In view of the foregoing, I find that the petitioner has shown a substantive interest in the proposed amendment, that good cause exists for an extension, and that an extension is consistent with the public interest.

However, since publication of this notice in the FEDERAL REGISTER cannot be accomplished prior to November 4, 1972, I find that it is appropriate, in order to provide interested persons that are not affiliated with the petitioner an equivalent extension period, to extend the closing date for comments until November 20, 1972.

Therefore, pursuant to the authority contained in sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)), the closing date for comments on the subject proposed airworthiness directive is extended to November 20, 1972.

Issued in Washington, D.C., on October 30, 1972.

C. R. MELUGIN, Jr.,
Acting Director,
Flight Standards Service.

[14 CFR Part 71]

[Airspace Docket No. 72-NW-11]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Pasco, Wash., Transition Area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Operations, Procedures and Airspace Branch, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Northwest Region, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108.

A VOR approach procedure has been proposed for the Richland Airport, Richland, Benton County, Wash., utilizing the 288° radial of the Pasco VOR. A review of the airspace requirements for this proposal revealed that additional 700-foot transition area airspace would be required to provide controlled airspace protection for aircraft executing the proposed procedure while operating below 1,500 feet above the surface.

In consideration of the foregoing the FAA proposes the following:

In § 71.181 (37 F.R. 2143) the description of the Pasco, Wash., transition area as amended (37 F.R. 7880) is further amended as follows: to the description add, "; within 3 miles north and 7.5 miles south of the Pasco VOR 288° radial extending from 8 miles west of the VOR to 18 miles west of the VOR."

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Seattle, Wash., on October 25, 1972.

C. B. WALK, Jr.,
Director, Northwest Region.

Federal Highway Administration

[49 CFR Part 393]

[Docket No. MC-43; Notice 72-19]

EXHAUST SYSTEMS OF BUSES

Location of Discharge Points

The Director of the Bureau of Motor Carrier Safety is considering amending § 393.83(b) of the motor carrier safety regulations, relating to the location of exhaust system discharge points on diesel-powered buses.

Under the existing rule, the exhaust system of a diesel-powered bus must discharge to the atmosphere at or within 15 inches forward of the rearmost part of the bus. General Motors Corp. has filed a petition for rulemaking, seeking an amendment to this rule. According to the petition, GM has developed an "Environmental Improvement Package" for buses, designed to reduce noxious exhaust emissions. One feature of the package is use of a vertical exhaust system which discharges to the atmosphere at the upper rear corner of the bus. Owing to the configuration of the rear end of a bus, the point of discharge is more than 15 inches forward of the rearmost point of the vehicle.

The objective of § 393.83(b) is to insure that exhaust gases do not seep into the passenger compartment of a bus. The proposal here announced appears calculated to achieve that objective while, at the same time, removing a design restriction that may inhibit development of exhaust systems that reduce noise and air pollution.

In consideration of the foregoing, the Director proposes to amend § 393.83(b) of Subchapter B in Chapter III of Title 49, CFR to read as follows:

§ 393.83 Exhaust system location.

• • • • • •

(b) The exhaust system of a bus equipped with a gasoline engine, shall discharge to the atmosphere at or within 6 inches forward of the rearmost part of the bus. The exhaust system of a bus powered by other than a gasoline engine shall—

(1) Be designed, constructed, installed, and maintained so that exhaust gases do not enter the passenger compartment of the bus; and

(2) Either—

(i) Discharge to the atmosphere at or within 15 inches forward of the rearmost part of the bus; or

(ii) Discharge to the atmosphere above and to the rear of any door or window designed to be opened for ventilation or passenger egress.

• • • • • •

Interested persons are invited to submit data, views, or arguments pertaining to the proposed amendment. All comments should refer to the docket number and notice number appearing at the top of this notice. Comments should be submitted in three copies to the Director, Bureau of Motor Carrier Safety, Washington, D.C. 20590. All comments received before the close of business on December 29, 1972, will be considered before further action is taken. Comments will be available for examination in the Docket Room of the Bureau of Motor Carrier Safety, Room 4136, 400 Seventh Street SW., Washington, DC both before and after the closing date for comments.

This notice of proposed rule making is issued under the authority of section 204 of the Interstate Commerce Act, as amended, 49 U.S.C. 304, section 6 of the Department of Transportation Act, 49 U.S.C. 1655, and the delegations of authority from the Secretary of Transportation and the Federal Highway Administrator at 49 CFR 1.48 and 389.4, respectively.

Issued on October 30, 1972.

ROBERT A. KAYE,
Director, Bureau of Motor Carrier Safety.

DEPARTMENT OF STATE

Agency for International Development

DIRECTOR, WEST AFRICA REGIONAL ECONOMIC DEVELOPMENT SERVICES OFFICE

Redelegation of Authority Regarding Contracting Functions

Pursuant to the authority delegated to me as Assistant Administrator for Program and Management Services under Delegation of Authority No. 17, as amended, from the Administrator of the Agency for International Development, I hereby redelegate to the Director, West Africa Regional Economic Development Services Office, and to the person in that Office who has been designated, with the concurrence of this Bureau, as contracting officer, the authority to sign or approve the following:

(1) Contracts and amendments to contracts financed in whole or in part by A.I.D., provided each individual contractual action does not exceed $200,000;

(2) Letters of commitment or notices of approval for financing of cooperating country contracts for contracts described in (1) above;

(3) Project implementation orders—technical services (PIO/T);

(4) Advance payments and the required determination and findings for such payments under A.I.D.-financed nonprofit contracts with nonprofit educational or research institutions.

The authority herein delegated to the Director, West Africa Regional Economic Development Services Office may be exercised by duly authorized persons who are performing the functions of the Director in an acting capacity. The authorities delegated herein are to be exercised in accordance with regulations, procedures, and policies now or hereafter established or modified and promulgated within the Agency for International Development.

I make this redelegation of contracting authority based on my finding that the overseas field procuring activity described above possesses the necessary skills to exercise properly the authority granted.

This redelegation of authority shall be effective immediately.

Dated: October 24, 1972.

WILLARD H. MEINECKE,
Deputy Assistant Administrator, Bureau for Program and Management Services.

NAVAL POSTGRADUATE SCHOOL; SUPERINTENDENT'S BOARD OF ADVISORS

Notice of Public Meeting

In accordance with the provisions of Executive Order No. 11671, dated June 5, 1972, announcement is made of a public meeting of the Superintendent's Board of Advisors for the Naval Postgraduate School to be held beginning at 8 a.m. on Thursday, November 9, 1972, and continuing through Friday, November 10, 1972. The Board will meet in the conference room of the Naval Postgraduate School, Monterey, Calif.

(1) *Purpose.* The Board was appointed to advise and assist the Superintendent concerning the Naval Postgraduate School Education Program.

(2) *Membership.* The Board is chaired by Dr. L. R. Hafstad and is composed of the following: Dr. Ralph D. Bennett, Rear Adm. William A. Brockett, USN (Ret.), Mr. Richard R. Hough, Dr. Niel H. Jacoby, Adm. Isaac C. Kidd, USN, Provost George J. Maslach, Dr. Dean E. McHenry, Dr. David S. Potter, Adm. James S. Russell, USN (Ret.), and Mr. Emmett C. Solomon.

(3) *Activities.* This will be the eighth meeting of the Board of Advisors and discussions on current developments of significance to the school will be held.

(4) *Agenda.* A short report by the Superintendent, presentations and discussions of current significant developments, introduction of a school study to examine long-range effects of education on a naval career, and other general discussions are scheduled.

Dated: October 31, 1972.

[SEAL] MERLIN H. STARING,
Rear Admiral, JAGC, U.S. Navy, Judge Advocate General of the Navy.

PEACH COUNTY, GA.

Certificate Regarding Appointment of Examiners

In accordance with section 6 of the Voting Rights Act of 1965, I hereby certify that in my judgment the appointment of examiners is necessary to enforce the guarantees of the 15th amendment to the Constitution of the United States in Peach County, Ga. This county is included within the scope of the determinations of the Attorney General and the Director of the Census made on August 6, 1965, under section 4(b) of the Voting Rights Act of 1965 (Public Law 89-110) and published in the FEDERAL REGISTER on August 7, 1965 (30 F.R. 9897).

RICHARD G. KLEINDIENST,
Attorney General of the United States.

NOVEMBER 4, 1972.

[FR Doc.72-19101 Filed 11-3-72;11:18 am]

Bureau of Narcotics and Dangerous Drugs

METHYLPHENIDATE

Aggregate Production Quota

On July 6, 1972, a notice of proposed aggregate production quotas was published in the FEDERAL REGISTER (37 F.R. 13279). The notice proposed that the aggregate production quota for 1972 for methylphenidate expressed in kilograms of the anhydrous alkaloid, be established at 1,427 kilograms. The notice invited all interested persons to submit their comments and objections in writing regarding this proposal. Hearings were requested by CIBA Pharmaceutical Co., a division of CIBA-GEIGY Corp., and the Narcotics Guidance Council of Huntington, Long Island, N.Y. Comments also were received from other sources with respect to the notice.

On October 7, 1972, the Director of the Bureau of Narcotics and Dangerous Drugs determined that CIBA had standing to request a hearing and ordered that a hearing be held on October 24, 1972, for the purpose of determining the quota. Following publication of the notice, the Bureau met with representatives of CIBA, the Huntington Council, and the Department of Health, Education, and Welfare. Consideration was given to sales and marketing information for the current and previous years provided by HEW, CIBA, and independent statistical services indicating legitimate medical need for methylphenidate.

After reviewing data not previously available, the Department of Health, Education, and Welfare, by letter dated October 30, 1972, has estimated that the legitimate medical needs for methylphenidate in the United States in 1972 could be met by a 20-percent reduction in production of methylphenidate from the 1971 level. This contrasted with an initial recommendation of a 50-percent reduction.

The quota which is determined herein is for the purpose of procuring methylphenidate for manufacturing into dosage form to supply wholesale and retail needs. The Bureau recognizes that this quota is less than the actual and projected 1972 sales of methylphenidate. In the Bureau's present opinion, however, this quota together with CIBA's existing inventory will be adequate to meet legitimate medical needs.

The Bureau will give consideration to appropriate supplemental applications to amend the 1972 quota for:

(i) Research projects;

(ii) Unusual inventory problems and potential disruptions to production;

(iii) A significant change in the amount required to fill the legitimate medical needs of the United States in 1972 as evidenced by an increased demand; and

(iv) Export requirements.

The Bureau intends to publish the proposed 1973 aggregate production quota in the near future and to consider relevant information relating to the legitimate medical use of methylphenidate in 1972 and in prior years (as evidenced by CIBA sales, by prescribing information, and by hospital and physician usage), changes in CIBA's inventory in 1972 and research projects, export requirements and potential disruptions in production.

CIBA, in light of the revised recommendation by the Department of Health, Education, and Welfare and the lateness in the year for which quotas can be set, agreed to withdraw its request for a hearing on the proposed quota.

The Narcotics Guidance Council of the town of Huntington, Long Island, N.Y., had also requested a hearing on the proposed aggregate production quota of methylphenidate. This group also agreed to withdraw its request for a hearing on the proposed aggregate production quota for the same reasons set forth above.

The Bureau has agreed with both parties who filed requests for a hearing on the proposed aggregate production quota that, if they wished to request a public hearing on the 1973 aggregate production quota for methylphenidate, when proposed, on the issue of the proper determination of legitimate medical need, the Bureau would hold such a public hearing.

Therefore, because all persons requesting a hearing on this matter have withdrawn their requests, the Director of the Bureau of Narcotics and Dangerous Drugs hereby orders that the public hearing previously ordered for October 24, 1972, for the purpose of determining the aggregate production quota for methylphenidate be canceled.

Other comments were received by the Bureau, only one of which asserted that the aggregate production quota was too high. The Honorable Claude S. Pepper, chairman of the Select Committee on Crime, U.S. House of Representatives, stated in his letter of August 17, 1972, that "the production quota * * * should be predicated solely upon the necessity to provide medication for those individuals who are actually suffering from narcolepsy and hyperkinesis." Various organizations representing parents of children with learning disabilities asserted that the proposed quota was too low. The Bureau has considered all such comments and has determined that the revised quota is appropriate in light of their comments.

Having considered the revised recommendation by the Department of Health, Education, and Welfare and the additional information presented, the Director of the Bureau of Narcotics and Dangerous Drugs, pursuant to the authority vested in the Attorney General by section 306 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 826) and redelegated to the Director, Bureau of Narcotics and Dangerous Drugs by § 00.100 of Title 28 of the Code of Federal Regulations, orders that the aggregate production quota for 1972 for methylphenidate, expressed in kilograms of the anhydrous alkaloid, be established as follows:

Basic class	Produced—1971	Requested—1972	Granted—1972
Methylphenidate	2,330	2,070	1,857

This order is effective upon the date of its publication in the FEDERAL REGISTER (11-4-72).

Dated: November 1, 1972.

JOHN E. INGERSOLL,
Director, Bureau of Narcotics and Dangerous Drugs.

CRESCENT LAKE NATIONAL WILDLIFE REFUGE

Notice of Public Hearing Regarding Wilderness Proposal

Notice is hereby given in accordance with provisions of the Wilderness Act of September 3, 1964 (Public Law 88-577; 78 Stat. 890-896; 16 U.S.C. 1131-1136), that a public hearing will be held beginning at 9 a.m. on December 14, 1972, at Garden County Courthouse in Oshkosh, Nebr., on a proposal leading to a recommendation to be made to the President of the United States by the Secretary of the Interior regarding the desirability of including the Crescent Lake proposal within the National Wilderness Preservation System. The wilderness proposal consists of approximately 24,502 acres within Crescent Lake National Wildlife Refuge, which is located in Garden County, State of Nebraska.

A study summary containing a map and information about the Crescent Lake Wilderness proposal may be obtained from the Refuge Manager, Crescent Lake National Wildlife Refuge, Star Route 30178, Ellsworth, Nebr. 69340, or the Regional Director, Bureau of Sport Fisheries and Wildlife, Twin Cities, Minn. 55111.

Individuals or organizations may express their oral or written views by appearing at this hearing, or they may submit written comments for inclusion in the official record of the hearing to the Regional Director at the above address by January 15, 1973.

E. V. SCHMIDT,
Acting Director, Bureau of Sport Fisheries and Wildlife.

PROPOSED JOHN DAY FOSSIL BEDS NATIONAL MONUMENT, OREG.

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act, the Department of the Interior has prepared a draft environmental statement for a legislative proposal for the establishment of John Day Fossil Beds National Monument in the State of Oregon, and invites written comment within forty-five (45) days of this notice.

The proposal recommends the authorization of a national monument of some 14,402 acres consisting of three separate but interrelated units located in Grant and Wheeler Counties, Oreg. The monument will preserve and make available to the public a great variety of Cenozoic plant and animal fossils in a compact setting where earth history can be presented plainly and clearly.

Copies are available from and for inspection at the following locations: Pacific Northwest Regional Office, National Park Service, 523 Fourth and Pike Building, Seattle, Wash. 98101; Klamath Falls Group Office, National Park Service, 1939 South Sixth Street, Klamath Falls, OR 97601; Portland, Oreg. 97232.

Dated: October 31, 1972.

W. W. LYONS,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

REPORTING EGG PRICES AND MARKET CONDITIONS TWICE WEEKLY

Modification of Market News Releases

On September 9, 1972, the U.S. Department of Agriculture asked for comments on recommendations for changes in the reporting of market prices of shell eggs whereby reports of egg prices and market conditions released at Newark, N.J., Chicago, Ill., Atlanta, Ga., and Jackson, Miss., would be mailed twice a week rather than daily. No changes were proposed for operations in other market news offices.

The Department's announcement stated that the factors relative to this proposal were: (1) An effort to reduce mail cost, (2) a recommendation from the National Egg Pricing System Study Committee for less-than-daily reports, and (3) to keep abreast with the trend in the industry away from daily price negotiations.

Ninety-one comments were received as a result of this notice. About 75 percent of those responding agreed that twice a week reporting would adequately serve their needs, but many suggested that the mailed report contain a summary of the daily trading that had occurred since the last report. Others suggested that the Department make such daily information available by phone or teletype for those persons who desire to call in or be on the teletype system.

In view of comments received, the following modifications will take place effective January 1, 1973:

1. Mailed reports from Newark, Chicago, Atlanta, and Jackson will be issued twice a week (Tuesday and Friday), except when a holiday may change mailing days.

2. Information on egg market conditions and trading will continue to be collected daily and will be available daily at these market news offices and by the teletype system. Telephone numbers are listed on the mailed report.

3. Mailed reports will contain a summary of the current information as well as information since the last mailed report.

The Department appreciates the responses and views received from all interested persons on this issue.

Done at Washington, D.C., this 31st day of October 1972.

E. L. PETERSON,
Administrator, Agricultural Marketing Service.

[Amdt. 4]

SALES OF CERTAIN COMMODITIES

Monthly Sales List; Amendments

The CCC Monthly Sales List for the fiscal year ending June 30, 1973, published in 37 F.R. 13352 is amended as follows:

1. The provisions of section 40 entitled "Nonfat Dry Milk—Unrestricted Use Sales" are deleted.

2. The provisions of section 41 entitled "Nonfat Dry Milk—Export Sales" are deleted.

Effective date: 12:35 p.m. (e.d.t.) October 20, 1972.

Signed at Washington, D.C., on October 30, 1972.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

[Report No. 119]

Maritime Administration

LIST OF FREE WORLD AND POLISH FLAG VESSELS ARRIVING IN CUBA SINCE JANUARY 1, 1963

SECTION 1. The Maritime Administration is making available to the appropriate Departments the following list of vessels which have arrived in Cuba since January 1, 1963, based on information received through May 24, 1972, exclusive of those vessels that called at Cuba on U.S. Government-approved noncommercial voyages and those listed in section 2. Pursuant to established U.S. Government policy, the listed vessels are ineligible to carry U.S. Government-financed cargoes from the United States.

SEC. 2. In accordance with approved procedures, the vessels listed below which called at Cuba after January 1, 1963, have reacquired eligibility to carry U.S. Government-financed cargoes from the United States by virtue of the persons who control the vessels having given satisfactory certification and assurance:

(a) That such vessels will not, thenceforth, be employed in the Cuban trade so long as it remains the policy of the U.S. Government to discourage such trade; and

(b) That no other vessels under their control will thenceforth be employed in the Cuban trade, except as provided in paragraph (c); and

(c) That vessels under their control which are covered by contractual obligations, including charters, entered into prior to December 16, 1963, requiring their employment in the Cuban trade shall be withdrawn from such trade at the earliest opportunity consistent with such contractual obligations.

**Ships appearing on the list which have made no trips to Cuba under their present registry.

Dated: August 11, 1972.

By order of the Acting Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, JR.,
Secretary,
Maritime Subsidy Board.

[FR Doc 72-13881 Filed 11-3-72;8:45 am]

[Docket No. S-298]

CHAS. KURZ & CO., INC.

Notice of Application

Notice is hereby given that application has been filed under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the U.S.S.R., to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). Inasmuch as the below-listed applicant, and/or related persons or firms, employ ships in the domestic, intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for such applicant if its application for operating-differential subsidy is granted.

The following applicant has requested permission involving the domestic, intercoastal or coastwise services described below:

Name of Applicant: Chas. Kurz & Co., Inc. (Kurz).

Description of domestic service and vessels: On January 6, 1972, a related company of Kurz, Margate Shipping Co. (Margate), was granted written permission for Margate's affiliates to own and operate a total of 31 U.S.-flag vessels to transport liquid bulk cargoes within or between the following coastal areas with free interchange of the vessels among these various domestic trades. The following list shows the maximum number of vessels to be employed in each domestic trade at any one time:

	Vessels
U.S. Gulf Atlantic, coastwise	17
U.S. Gulf Atlantic, Puerto Rico	2
U.S. Atlantic Gulf, intercoastal (including Alaska and Hawaii)	5
Pacific Coast—Alaska and Hawaii	10

The following U.S.-flag tankers are owned, managed, or operated by Margate's affiliates:

Chancellorville.	Catawba Ford.
Perryville.	Keytanker.
Shenandoah.	Keystoner.
Fort Fetterman.	Keytrader.
Julesburg.	Ticonderoga.
Naeco.	Valley Forge.
Bennington.	Golden Gate.
Cherry Valley.	Edgar M. Queeny.
Gaines Mill.	P. C. Spencer.
Mill Spring.	J. E. Dyer.
Northfield.	Sinclair Texas.
Tullahoma.	David E. Day.
Meadowbrook.	Mobile Gas.
Sandy Lake.	Mobile Power.
Monmouth.	Mobile Fuel.
Spirit of Liberty.	

Written permission is now required by the applicant (Kurz) notwithstanding the previous grant to a related company (Margate) or the fact that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage.

Interested parties may inspect this application in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, DC 20235.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in any application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on November 13, 1972, file same with the Maritime Subsidy Board/Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board/Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m., November 15, 1972, Room 4896, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

By order of the Maritime Subsidy Board/Maritime Administration.

Dated: November 2, 1972.

JAMES S. DAWSON, JR.,
Secretary.

[FR Doc.72-19032 Filed 11-3-72;8:53 am]

[Docket No. S-299]

CHAS. KURZ & CO., INC. ET AL.

Notice of Multiple Applications

Notice is hereby given that the following corporations have filed application for an operating-differential subsidy contract to carry bulk cargoes to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). The bulk cargo carrying vessels proposed to be subsidized and the trades in which each proposes to engage are presented also.

Operator's name and address	Type ship	Name of ship
Chas. Kurz & Co., Inc., 611 Wilmington Trust Building, 100 West 10th St., Wilmington, DE 19801.	Tanker	SS Mill Spring.
	do	SS Julesburg.
	do	SS Tullahoma.
	do	SS Sandy Lake.
	do	SS P.C. Spencer.
Transeastern Shipping Corp., 1 Chase Manhattan Plaza, New York, NY 10005.	do	SS Transeastern.
Manhattan Tankers Co., Inc., 1 Chase Manhattan Plaza, New York, NY 10005.	do	SS Manhattan.

The foregoing applications may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C., during regular working hours.

These vessels are to engage in the carriage of export bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the United States to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the FEDERAL REGISTER on October 21, 1972 (37 F.R. 22747).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis through June 30, 1973 (with extension to termination of approved subsidized voyages in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

Any person having an interest in the granting of one or any of such applications and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before November 13, 1972, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing. Further, each such statement shall identify the applicant or applicants against which the intervention is lodged.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to any application(s), the purpose of such hearing will be to receive evidence relevant to (1) whether the application(s) hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: November 2, 1972.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, JR.,
Secretary.

[Docket No. S-297]

KEYSTONE TANKSHIP CORP. ET AL.

Notice of Multiple Applications

Notice is hereby given that applications have been filed under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). Inasmuch as the below listed applicants, and/or related persons or firms, employ ships in the domestic, intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for each such applicant if its application for operating-differential subsidy is granted.

The following applicants have requested permission involving the domestic, intercoastal, or coastwise services described below:

Name of applicants: Keystone Tankship Corp. (Keystone Tank), Keystone Shipping Co. (Keystone Ship).

Description of domestic service and vessels: On January 6, 1972, a related company of Keystone Tank and Keystone Ship, Margate Shipping Co. (Margate),

V37-214 NOV 4 72 XUM

was granted written permission for Margate's affiliates to own and operate a total of 31 U.S.-flag vessels to transport liquid bulk cargoes within or between the following coastal areas with free interchange of the vessels among these various domestic trades. The following list shows the maximum number of vessels to be employed in each domestic trade at any one time:

	Vessels
U.S. Gulf Atlantic, coastwise	17
U.S. Gulf Atlantic, Puerto Rico	2
U.S. Atlantic/Gulf, intercoastal (including Alaska and Hawaii)	5
Pacific Coast—Alaska and Hawaii	10

The following U.S.-flag tankers are owned, managed, or operated by Margate's affiliates:

Chancellorville.	Catawba Ford.
Perryville.	Keytanker.
Shenandoah.	Keystoner.
Fort Fetterman.	Keytrader.
Julesburg.	Ticonderoga.
Neeco.	Valley Forge.
Bennington.	Golden Gate.
Cherry Valley.	Edgar M. Queeny.
Gaines Mill.	P. C. Spencer.
Mill Spring.	J. E. Dyer.
Northfield.	Sinclair Texas.
Tullahoma.	David E. Day.
Meadowbrook.	Mobile Gas.
Sandy Lake.	Mobile Power.
Monmouth.	Mobile Fuel.
Spirit of Liberty.	

Written permission is now required by the applicants (Keystone Tank and Keystone Ship) notwithstanding the previous grant to a related company (Margate) or the fact that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage. Keystone Tank and Keystone Ship are also related to another applicant, Chas. Kurz & Co., Inc., whose section 805(a) application has been separately noticed.

Name of applicants: Willamette Transport, Inc. (Willamette); Wabash Transport, Inc. (Wabash); Connecticut Transport, Inc. (Connecticut).

Description of domestic service and vessels: Willamette, Wabash, and Connecticut, all affiliates of one another and of the other owning companies listed hereafter, have each requested written permission to continue employment in the domestic intercoastal and/or coastwise service for the below listed vessels owned by each or their affiliates, provided, however, the vessel(s) are not then currently receiving operating differential subsidy.

Ship	*Owning Company*
SS Albany	Albany River Transport, Inc.
ST Connecticut	Connecticut Transport, Inc.
SS James	James River Transport, Inc.
SS Missouri	Meadowbrook Transport, Inc.
SS Mohawk	Mohawk Shipping, Inc.
ST Ogden Wabash	Wabash Transport, Inc.
ST Ogden Willamette	Willamette Transport, Inc.
ST Ogden Yukon	Ogden Sea Transport, Inc.
SS Yellowstone	Rio Grande Transport, Inc.

Written permission is now required by the applicants (Willamette, Wabash, and Connecticut) notwithstanding that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage.

Interested parties may inspect these applications in the Office of The Secretary, Maritime Subsidy Board, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in any application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on November 13, 1972, file same with the Maritime Subsidy Board/Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board/Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m., November 15, 1972, Room 4896, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

Dated: November 2, 1972.

By order of the Maritime Subsidy Board Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

National Oceanic and Atmospheric Administration

[Docket No. G-540]

WILLIAM K. DAHME

Notice of Loan Application

OCTOBER 31, 1972.

William K. Dahme has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a new fiber glass vessel, about 44-foot in length, to engage in the fishery for red snapper, groupers, sea trout, mackerel, kingfish, pompano, and spiny lobsters.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

ROBERT W. SCHONING,
Acting Director.

CENSUS ADVISORY COMMITTEE ON SMALL AREAS

Notice of Public Meeting

The Census Advisory Committee on Small Areas will convene on November 16, 1972 at 9:15 a.m. in Room 2113, Federal Building 3, at the Bureau of the Census in Suitland, Md.

The Census Advisory Committee on Small Areas was established in 1965 to advise the Bureau of the Census concerning development of statistical programs in metropolitan and other local communities regarding transportation, urban renewal, poverty, and other activities.

The agenda for the meeting is: (1) A review of the Census Bureau's Fiscal 1973 activities, the outlook for Fiscal 1974, and the status of the 1975 Sample Survey; (2) Survey of Census Users and Summary Tape Processing Centers and Proposed Seminars for Business Organizations; (3) Economic Census Summary Tape Program; (4) 1970 Public Use Samples of basic records; (5) Review of geographic planning for Small Areas; (6) The Revenue Sharing Program and its implications for Small Area Data; and (7) Program to study the uses of Census Statistics.

A limited number of seats—approximately 15—will be available to the public. A brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the Committee Guidance and Control Officer at least 3 days prior to the meeting.

Persons planning to attend and wishing additional information concerning this meeting should contact the Committee Guidance and Control Officer, Mr. Robert B. Voight, Chief, Data User Services Office, Bureau of the Census, Room 3555, Federal Building 3, Suitland, Md.

(Mail address: Washington, D.C. 20233). Telephone (301) 763-7720.

Dated: October 26, 1972.

HAROLD C. PASSER,
Assistant Secretary for Economic Affairs.

[FR Doc.72-18888 Filed 11-3-72;8:46 am]

SURVEY OF DISTRIBUTORS' STOCKS OF CANNED FOODS

Notice of Determination

In conformity with title 13, United States Code, sections 181, 224, and 225, and due notice of consideration having been published October 6, 1972 (37 F.R. 21195), I have determined that year-end data on stocks of 30 canned and bottled products, including vegetables, fruits, juices, and fish, are needed to aid the efficient performance of essential government functions, and have significant application to the needs of the public and industry and are not publicly available from nongovernmental or other governmental sources. This is a continuation of the survey conducted in previous years.

All respondents will be required to submit information covering their December 31, 1972, inventories of 30 canned and bottled vegetables, fruits, juices, and fish. Reports will not be required from all firms but will be limited to a scientifically selected sample of wholesalers and retail multiunit organizations handling canned foods, in order to provide year-end inventories of the specified canned food items with measurable reliability. These stocks will be measured in terms of actual cases with separate data requested for "all sizes smaller than No. 10" and for "sizes No. 10 or larger." (In addition, multiunit firms reporting separately by establishment will be requested to update the list of their establishments maintaining canned food stocks.)

Report forms will be furnished to firms covered by the survey. Additional copies of the forms are available on request to the Director, Bureau of the Census, Washington, D.C. 20233.

I have, therefore, directed that this annual survey be conducted for the purpose of collecting these data.

Dated: October 30, 1972.

HAROLD C. PASSER,
Administrator, Social and Economic Statistics Administration.

[FR Doc 72-18887 Filed 11-3-72;8:46 am]

SURVEY OF RETAIL SALES, PURCHASES, AND INVENTORIES

Notice of Consideration

Notice is hereby given that the Bureau of the Census is considering a proposal to repeat in 1973 the Annual Retail Trade Survey which has been conducted each year under title 13, United States Code, sections 181, 224, and 225 to collect data covering year-end inventories, purchases, and annual sales. This survey covering 1972 is the only continuing source available on a comparable classification and timely basis for use as the benchmark for developing monthly retail inventory estimates. It also assists in establishing a benchmark for the distribution of monthly sales by geographic area.

Information and recommendations received by the Bureau of the Census indicate that the data will have significant application to the needs of the public, the distribution trades, and governmental agencies, and are not publicly available from nongovernment or other governmental sources.

Such a survey, if conducted, shall begin not earlier than 30 days after the publication of this notice in the FEDERAL REGISTER.

Reports will be required only from a selected sample of retail establishments in the United States. The sample will provide, with measurable reliability, statistics on the subjects specified above. Reports will be requested from a sample of stores based on their sales size and location in Census sample areas. A group of the largest firms, in terms of number of retail stores, will be requested to report their sales and number of stores by county; but those firms which are participating monthly in the Bureau's geographic area survey will be asked to report at the national level only.

Copies of the proposed forms and a description of the collection methods are available upon request to the Director, Bureau of the Census, Washington, DC 20233.

Any suggestions or recommendations concerning the subject mater of the proposed survey, submitted in writing to the Director of the Bureau of the Census within 30 days after the date of this publication will receive consideration.

Dated: October 30, 1972.

HAROLD C. PASSER,
Administrator, Social and Economic Statistics Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-518; NADA 10-954V etc.]

FORT DODGE LABORATORIES ET AL.

Various NADA's; Notice of Opportunity for Hearing

Regulations published in the FEDERAL REGISTER of September 14, 1971 (36 F.R. 18375) (21 CFR 135.35), required that each applicant for whom a new animal drug application or supplement for a drug for use in animals became effective or was approved at any time prior to June 20, 1963, shall submit in duplicate certain specified information for each dosage form within 90 days from the effective date of said regulations (October 14, 1971). The referenced regulation § 135.35 stated that if reports show that a new animal drug was not marketed or has been discontinued a notice may be published in the FEDERAL REGISTER proposing to withdraw approval of such application, on any of the grounds specified in section 512 of the act (21 U.S.C. 360b). The below listed firms responded by advising the Commissioner of Food and Drugs that the named drugs are not marketed.

Schering Corp. is delinquent in submitting reports concerning experience with new animal drugs for NADA No. 13-727V, Azium Ophthalmic Solution, as required by § 135.14a. None of the other firms listed herein have responded to the notice regarding drug effectiveness which was published in the FEDERAL REGISTER of July 9, 1966 (31 F.R. 9426) for the other new animal drugs listed herein. Therefore, notice is hereby given to the firms listed below and to any interested persons who may be adversely affected that the Commissioner proposes to issue an order under section 512 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b) withdrawing approval of the listed new animal drug applications.

1. Fort Dodge Laboratories, Division of American Home Products Corp., Fort Dodge, Iowa 50501; NADA (new animal drug application) No. 10-954V, Meprobamate.

2. Jensen-Salsbery Laboratories, Division of Richardson-Merrell, Inc., 2000 South 11th Street, Kansas City, KS 66103; NADA No. 8-821V, C-B-G Solution Improved.

3. Hess & Clark, Division of Rhodia Inc., Ashland, Ohio 44805; NADA No. 2-513V, PTZ Capsules; NADA No. 3-510V, PTZ Drench; NADA 3-850V, PTZ Pellets; NADA No. 5-160V, Nicozine; NADA No. 5-219V, Coxitrol; NADA No. 6-562V, Vermi-Tabs; and NADA No. 8-241V, PTZ Drench with Lead Arsenate.

4. Merck Sharp & Dohme Research Laboratories, Division of Merck & Co., Inc., Rahway, N.J. 07065; NADA No. 11-433V, 0.5 percent Ophthalmic Solution Hydeltrone.

5. Ralston Purina Co., Checkerboard Square, St. Louis, Mo. 63188; NADA No. 13-214V, Purina Hygromix for Hogs.

6. Schering Corp., Galloping Hill Road, Kenilworth, N.J. 07033; NADA No. 13-727V, Azium Ophthalmic Solution.

7. E. R. Squibb & Sons, Inc., Georges Road, New Brunswick, N.J. 08903; NADA No. 9-910V, Chick'n Tee.

In accordance with the provisions of section 512 of the act (21 U.S.C. 360b), the Commissioner hereby gives the applicants, and any interested person who would be adversely affected by an order withdrawing such approval an opportunity for a hearing at which time such persons may produce evidence and arguments to show why approval of the above-named new animal drug applications should not be withdrawn.

Within 30 days after the date of publication hereof in the FEDERAL REGISTER, such persons are requested to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of

V37-214 NOV 4 72 XUM

the General Counsel, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing whether:

1. To avail themselves of the opportunity for a hearing; or

2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner, without further notice, will enter a final order withdrawing approval of the new animal drug applications.

Failure of such persons to file a written appearance of election within said 30 days will be construed as an election by said persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this order will be open to the public except that any portion of the hearing concerning a method or process which the Commissioner finds is entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why approval of the new animal drug application should not be withdrawn together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition to the grounds for this notice. A request for a hearing may not rest upon mere allegations or denials but must set forth the specific fact showing that there is a genuine and substantial issue of fact requiring a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that no genuine and substantial issue of fact precludes the withdrawal of approval of the applications, the Commissioner will enter an order stating his findings and conclusions on such data. If the hearing is requested and justified by the response to this notice, the issues will be defined, an administrative law judge will be named, and he shall issue a written notice of the time and place at which the hearing will commence.

Responses to this notice will be available for public inspection in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–51; 21 U.S.C. 360b) and under the authority delegated to the Commissioner (21 CFR 2.120).

Dated: October 30, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Office of Education

NATIONAL ADVISORY COUNCIL ON EDUCATION OF DISADVANTAGED CHILDREN

Notice of Public Meeting

Notice is hereby given, pursuant to Executive Order 11671, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held on November 15, 1972, at 2:30 p.m. to 6 p.m., and November 16, 1972, at 8 a.m. to 6 p.m., local time, in Room 152, 1717 H Street NW., Washington, DC 20006.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Education Act (20 U.S.C. 2411). The Council is established to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

The agenda of the meeting includes a discussion of legislative proposals and regulations from State Title I Coordinators to improve the delivery of title I, ESEA services.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located in Room 202, 1717 H Street NW., Washington, DC.

Signed at Washington, D.C., on October 25, 1972.

ROBERTA LOVENHEIM,
Executive Director.

ATOMIC ENERGY COMMISSION

[Docket No. 50–358]

CINCINNATI GAS & ELECTRIC CO. ET AL.

Notice of Issuance of Construction Permit

Notice is hereby given that, pursuant to the initial decision of the Atomic Safety and Licensing Board, dated October 19, 1972, the Deputy Director for reactor projects has issued Construction Permit No. CPPR–88 to the Cincinnati Gas & Electric Co., Columbus & Southern Ohio Electric Co., and the Dayton Power & Light Co. for construction of a boiling water nuclear reactor at the applicants' site on the east shore of the Ohio River, just one-half mile north of Moscow and about 24 miles southeast of Cincinnati, in Washington Township, Clermont County, Ohio. The proposed reactor, known as the Wm. H. Zimmer Nuclear Power Station, is designed for initial operation at approximately 2,436 megawatts thermal with a net electrical output of approximately 807 megawatts.

A copy of the initial decision and the construction permit are on file in the Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545, and at the Clermont County Library, Third and Broadway Streets, Batavia, Ohio 45103.

Dated at Bethesda, Md., this 27th day of October 1972.

[Docket No. 50–206]

SOUTHERN CALIFORNIA EDISON CO.

Notice of Availability of Applicant's Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a report entitled "Southern California Edison Co., San Diego Gas & Electric Co. (San Onofre Nuclear Generating Station, Unit 1)—Environmental Report, Operating License Stage," submitted by Southern California Edison Co. has been placed in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and at the local public document room at the San Clemente Public Library in San Clemente, Calif. The report is also being sent to the Office of the Lieutenant Governor, Office of Intergovernmental Management, State Capitol, Sacramento, Calif. 95814, and to the San Diego County Comprehensive Planning Organization, 207 County Administration Center, 1600 Pacific Highway, San Diego, CA 92101.

This report discusses environmental considerations related to the proposed issuance of a full-term operating license for the San Onofre Nuclear Generating Station Unit No. 1 located near Camp Pendleton, San Diego County, Calif.

After the report has been analyzed by the Commission's Director of Regulation or his designee, a draft detailed statement of environmental considerations related to the proposed action will be prepared. Upon preparation of the draft detailed statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft detailed statement. The summary notice will request comments from interested persons on the proposed action and on the draft detailed statement. The summary notice will also contain a statement to the effect that the comments of Federal agencies, State and local officials thereon will be available when received.

Dated at Bethesda, Md., this 27th day of October 1972.

For the Atomic Energy Commission.

[Docket No. 24488; Order 72–10–90]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Passenger Fares

OCTOBER 27, 1972.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of Traffic Conference 2 of the International Air Transport Association (IATA). The agreement, which has been assigned the above-designated CAB agreement number, was adopted for expedited effectiveness at the Worldwide Passenger Conference held in Torremolinos, Spain, September–October 1972, for a limited period through March 31, 1973.

V37-214 NOV 4 72 XUM

The agreement would increase normal first-class and economy fares between various specified points within Africa, as well as adding new points, and would establish a maximum discount of 40 percent to apply to student fares for travel wholly within Africa. Additionally, the agreement would eliminate provisions for ground transportation from the resolution governing group fares for seamen within the area comprised of Europe/Middle East/Africa. We are approving the agreement to the extent that it involves normal first-class and economy fares, which are combinable with fares to/from United States points and thus have indirect application in air transportation as defined by the Act. Student and seamen's fares, on the other hand, are not similarly combinable, and we are herein disclaiming jurisdiction with respect to that aspect of the agreement.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14:

1. It is not found that the following resolutions, which are incorporated in agreement CAB 23342 as indicated and which do not directly affect air transportation within the meaning of the Act, are adverse to the public interest or in violation of the Act:

Agreement CAB 23342	IATA No.	Title	Application
1: 1	062 I	TC2 First Class Fares (Amending) [1]	2: Africa.
1: 2	062 II	TC2 First Class Fares (Amending) [1]	Do.
1: 3	062 I	TC2 Economy Class Fares (Amending) [1]	Do.
1: 4	062 II	TC2 Economy Class Fares (Amending) [2]	Do.

2. It is not found that the following resolutions, which are incorporated in agreement CAB 23342 as indicated, affect air transportation within the meaning of the Act:

Agreement CAB 23342	IATA No.	Title	Application
1: 5	067a	TC2 Group Fares for Seamen (Amending) [1]	2.
1: 6	092	Student Fares (Amending) [2]	2: Africa.

[1] For intended Nov. 1, 1972, effectiveness.
[2] For intended Dec. 1, 1972, effectiveness.

Accordingly, it is ordered, That:

1. Agreement CAB 23342, R–1 through R–4, be and hereby is approved; and

2. Jurisdiction is disclaimed with respect to Agreement CAB 23342, R–5 and R–6.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within 10 days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

FEDERAL MARITIME COMMISSION

NORTH ATLANTIC WESTBOUND FREIGHT ASSOCIATION

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by

D J. K. Conway, Chairman, North Atlantic Westbound Freight Association, 74 St. James's Street, London SW1A 1PS, England.

Agreement No. 5850–19 modifies the organic agreement of the above named conference to provide for the selection of a conference chairman and the enumeration of his duties; to establish unauthorized disclosure of conference business as a breach of the agreement subject to self-policing sanctions; and to incorporate the self-policing provisions of the Associated North Atlantic Freight Conferences and to appoint its executive director as the conference's enforcement authority.

By order of the Federal Maritime Commission.

Dated: October 31, 1972.

FRANCIS C. HURNEY,
Secretary.

[Docket No. 72-48]

PACIFIC MARITIME ASSOCIATION

Rescheduling of Filing Dates

Pacific Maritime Association—cooperative working arrangements; possible violations of sections 15, 16, and 17, Shipping Act, 1916.

Upon request of various parties, and good cause appearing, the filing dates set forth in first supplemental order served October 19, 1972, are rescheduled as follows:

1. Requests for hearing shall be filed on or before December 15, 1972.

2. Simultaneous affidavits of fact and memoranda of law shall be filed on or before December 15, 1972.

3. Reply affidavits and memoranda shall be filed on or before January 12, 1973.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

[FR Doc.72-18974 Filed 11-3-72;8:50 am]

[Commission Order No. I (Revised)]

ORGANIZATION AND FUNCTIONS; DELEGATION OF AUTHORITY

Licensing Requirements

The Federal Maritime Commission published in the FEDERAL REGISTER on January 15, 1972, 37 F.R. 678, a rule making whereby "Requirements for Licensing" would be amended for purposes of assuring continuity of responsibility and experience of persons associated with an applicant for an independent ocean freight forwarder license under 46 CFR Part 510.

Notice is hereby given that the Managing Director, Federal Maritime Commission, has been delegated the authority by the Commission under § 7.04 of Commission Order I (Revised) to grant, upon the showing of good cause, an extension or extensions of time to independent ocean freight forwarder licensees in which to report the name of qualifying partners or officers of such licensees.

Section 7.04 of Commission Order I is revised accordingly by adding thereto a new subparagraph as follows:

(h) Approve extension or extensions of time to licensed freight forwarders, in which to furnish the Commission the name(s) and ocean freight forwarding experience of the managing partner(s) or officer(s) who will replace the qualified partner or officer upon whose qualifications the original licensing was approved.

Since this change is merely procedural, it shall become effective immediately.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. IT–5331]

ARIZONA PUBLIC SERVICE CO.

Notice of Application

OCTOBER 31, 1972.

Take notice that Arizona Public Service Co. (Applicant), incorporated under the laws of the State of Arizona with its principal place of business at Phoenix, Ariz., has filed an application in Docket No. IT–5331 for a supplemental order, pursuant to section 202(e) of the Federal Power Act, authorizing an increase in the amount and rate of transmission of electric energy which Applicant may transmit from the United States to Mexico.

By Commission order issued October 22, 1970, in Docket No. IT–5331 (44 FPC 1284), Applicant was authorized to transmit electric energy from the United States to Mexico in an amount not in excess of 14 million kw.-hr. per year at a transmission rate not to exceed 3,200 kw. for sale and delivery to Compania de Servicios Publicos de Agua Prieta, S.A. (Mexican company), incorporated under the laws of the Republic of Mexico, over certain 2.4 kv. facilities of Applicant located at the international border between the United States and Mexico in or near Douglas, Ariz. Applicant's facilities are covered by the Presidential Permit signed by the President of the United States on July 30, 1941, Docket No. IT–5331, and released to Arizona Edison Co., Inc., corporate predecessor of Applicant. The Presidential Permit was subsequently transferred to Applicant by the Amendatory Presidential Permit signed by the President on August 28, 1952, Docket No. IT–5331.

Applicant now requests that the authorization granted by the Commission's October 22, 1970 order, referred to above, be modified so as to authorize Applicant to export electric energy in an amount not in excess of 26 million kw.-hr. per year at a transmission rate not to exceed 5,000 kw. to Mexican Company over Applicant's above-mentioned facilities for the purpose of meeting the growth in the electric load served by Mexican Company in Agua Prieta, Sonora, Mexico, and vicinity. The additional amount of energy proposed to be exported will be sold and delivered by Applicant to Mexican Company in accordance with the terms and at the rates set forth in the contract dated March 21, 1972, between Applicant and Mexican Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 17, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73–239]

CHARLES A. BARTON, SR., ET AL.

Notice of Application; Correction

OCTOBER 20, 1972.

In the notice of application, issued October 12, 1972, and published in the FEDERAL REGISTER October 14, 1972, 37 F.R. 21871:

Paragraph 2: Delete last sentence and substitute "Applicants propose to sell approximately 2,000 Mcf of gas per day at 36 cents per Mcf at 15.025 p.s.i.a., including 1 cent per Mcf reimbursement for severance taxes."

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-18944 Filed 11-3-72;8:49 am]

[Docket No. E–7720]

DUKE POWER CO.

Order Accepting Immediate Appeal and Ordering Certification of Hearing Record

OCTOBER 30, 1972.

By motion dated October 3, 1972, staff sought to have this Commission overrule two rulings of the Presiding Administrative Law Judge in the above-styled proceeding.

The first ruling denied staff's motion to have evidence of discrimination, both introduced and sought to be introduced by Intervenors and Duke, stricken from the record.

Staff then sought to have the initial ruling appealed directly to the Commission pursuant to our rules of practice and procedure, § 1.28(a). When the Presiding Administrative Law Judge chose not to rule on this second motion, staff appealed directly to this Commission, alleging the Presiding Administrative Law Judge's inaction was a denial of the motion for an immediate appeal.

To support its motion for an immediate appeal, staff maintained that the introduction of evidence of discrimination was producing an excessively long and costly hearing which was not in the public interest. Staff also set forth reasons why the evidence should not be admitted. Intervenors responded by denying the hearing was excessively long and setting out reasons for the admission of the evidence.

While our ruling here is not a ruling on the substantive elements of staff's appeal, staff has noted that this same question of Duke's discrimination is currently before the Commission in another proceeding, Docket No. E–7557. This allegation is denied by the intervenors. Staff also asserts that the initial Commission order so limited the issue to be tried in this proceeding (i.e., fuel adjustment clause) as to exclude the issue of Duke's alleged discrimination.

While we do not now decide the substantive arguments, we think that their presence, and the public interest, merits an immediate appeal pursuant to § 1.28(a) of our rules, even though the hearing phase of this proceeding has been terminated.

The Commission finds:

(1) The inaction of the Presiding Administrative Law Judge on a motion for an immediate appeal pursuant to § 1.28 (a) of our rules of practice and procedure was a denial of that motion.

(2) It is necessary and proper and in the public interest that the record in this proceeding, Docket No. E–7720, be certified to the Commission.

The Commission orders:

(1) The Presiding Administrative Law Judge's denial of staff's motion for an immediate appeal is hereby overruled.

(2) The Presiding Administrative Law Judge shall forthwith certify the record in this proceeding, Docket No. E–7720, to the Commission.

By the Commission.

[Docket No. E-7768]

PUBLIC SERVICE ELECTRIC AND GAS CO.

Order Accepting for Filing and Suspending Proposed Changes in Rate Schedules, Permitting Intervention, and Directing Submission of Offers of Proof

OCTOBER 30, 1972.

On August 30, 1972, Public Service Electric and Gas Co. (PSE&G) tendered for filing proposed changes in its Electric Rate Schedules FPC Nos. 47 and 48 and 49[1] (High Tension Service), to become effective on October 31, 1972. The proposed rates would constitute a revenue increase of approximately $785,238 based on a 1971 test year. PSE&G avers that the increase is necessary to offset an increase in operating expenses, taxes, and fixed charges.

The notice of proposed increase, issued on September 12, 1972, provided that the closing dates for petitions to intervene, protests, and comment was September 29, 1972. On October 10, 1972, the Borough of Milltown (Milltown) filed a letter protesting the proposed rate increases and expressing a desire to intervene. As Milltown has alleged that the proposed increases may be unjust and unreasonable, and since Milltown, as a customer of PSE&G, will be affected by this proposed increase, we shall construe this letter as a petition to intervene.

On October 19, 1972, PSE&G filed an answer to the letter of the Borough of Milltown, disputing Milltown's intervention in this proceeding and alleging that the facts stated in the letter of Milltown were irrelevant and inaccurate. In view of the fact that we will require offers of proof in this proceeding, we will defer taking action on the substantive arguments raised in the letter and answer until the 30-day period allowed for offers of proof by intervenors and staff has expired.

PSE&G's rate filing indicates the proposed rate increases would yield a rate of return on jurisdictional service of approximately 4.8 percent, based on a 1971 test year.

In order to determine the necessity of an evidentiary hearing, the Commission requests that the intervenor, Borough of Milltown, and staff submit offers of proof within thirty (30) days from the issuance of this order to support their position as to the lawfulness of the proposed rates. Within 15 days from the service of such offers of proof, PSE&G may file its answer to such pleadings. Upon review of the pleadings, the Commission will determine if a full evidentiary hearing is justified and set such further procedural dates as may be necessary.

Pending the Commission's determination of whether an evidentiary hearing is necessary, it is appropriate that the proposed increased rates be suspended for a period of one (1) day.

The Commission finds:

(1) Consideration of the letter of the Borough of Milltown, filed October 10, 1972, as a petition to intervene may be in the public interest.

(2) Participation in this proceeding of the above-named petitioner to intervene may be in the public interest.

(3) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission request offers of proof from intervenor, Borough of Milltown and staff concerning the lawfulness of the rates and charges contained in PSE&G's Rate Schedule Nos. 47, 48, and 49 as proposed to be amended in this docket, and that the tendered rate schedule be suspended as hereinafter provided.

(4) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(5) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

The Commission orders:

(A) The aforementioned proposed rate schedules, filed on August 30, 1972, are accepted for filing subject to the terms and conditions of this order.

(B) The letter of the Borough of Milltown, filed October 10, 1972, constitutes a petition to intervene in this proceeding.

(C) The above-named petition to intervene is hereby granted subject to the Commission's rules of practice and procedure: *Provided, however,* The participation of such intervenor shall be limited to matters affecting asserted rights and interests specifically set forth in its petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that he might be aggrieved by any orders entered in this proceeding.

(D) Not more than thirty (30) days after the issuance of this order, the Commission Staff and the above-named intervenor shall submit offers of proof as to the lawfulness of the proposed rate increases from which the Commission can make a finding as to the necessity of an evidentiary hearing.

(E) Not more than fifteen (15) days after the service of such offers of proof, PSE&G may file its answer to such pleadings.

(F) Pending a final decision in this proceeding, PSE&G's proposed rate schedules tendered August 30, 1972, are suspended and the use thereof deferred until November 1, 1972, subject to refund as provided by section 205(e) of the Federal Power Act and the regulations thereunder.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.72-18930 Filed 11-3-72;8:48 am]

[Project 199]

SOUTH CAROLINA PUBLIC SERVICE AUTHORITY

Notice of Application for Approval of Nonproject Use of Project Lands and Waters

OCTOBER 30, 1972.

Public notice is hereby given that application for approval of nonproject use of project lands and waters has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by South Carolina Public Service Authority (correspondence to: Mr. J. B. Thomason, General Manager, South Carolina Public Service Authority, Santee-Cooper, Moncks Corner, S.C. 29461) in Project No. 199 located on the Santee River and the Cooper River.

Applicant has requested Commission approval of a raw water intake structure in Lake Moultrie of Project No. 199 by the South Carolina Wildlife Resources Department. The intake would furnish water for operation of the Bonneau Fish Hatchery. It is estimated that 0.61 acre-feet per day or about 200,000 gallons per day would be withdrawn from and not returned to the reservoir.

Applicant states that the hatchery would have rearing ponds to raise striped bass to fingerling size.

A permit to construct the subject intake was issued by the Corps of Engineers, Charleston, S.C. on April 21, 1972. The facility has also been approved by the U.S. Forest Service, the Fish and Wildlife Service of the U.S. Department of the Interior and appropriate State and local agencies.

Any person desiring to be heard or to make protest with reference to said application should on or before December 18, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-18928 Filed 11-3-72;8:48 am]

[Docket No. E-7618]

SOUTHERN CALIFORNIA EDISON CO.

Notice of Filing of Settlement Agreement

NOVEMBER 1, 1972.

Pursuant to § 1.36(a) of the Commission's rules of practice and procedure, notice is hereby given that on August 17, 1972, a settlement agreement made and entered into between Southern California Edison Co. (Edison) and the cities of Anaheim, Banning, and Riverside (Cities) was filed with the Commission in the above-entitled proceeding. The settlement agreement provides, inter alia, for:

(1) Network transmission service.
(2) Partial requirements service.
(3) Point-to-point transmission service.
(4) Participation on a mutually agreeable basis in new generating units.

(5) Combined dispatch of power resources, sharing of reserves, transmission service, purchase and sale of capacity or energy and other necessary supplemental services, as part of integrated operation and interconnection of city-owned resources with those of Edison.

(6) Withdrawal by cities of various claims involving the parties presently pending before regulatory commissions, before U.S. Court of Appeals for the District of Columbia, and for the Department of Justice.

(7) A payment by Edison in the sum of $3,125,000 to the Cities in consideration of various matters as set out in the settlement agreement.

The settlement agreement is on file with the Commission and is available for public inspection. Comments with respect to the settlement agreement may be filed with the Commission on or before December 4, 1972.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-18926 Filed 11-3-72;8:48 am]

[Docket No. CI73-307]

STERLING W. WOOLSEY

Notice of Application

NOVEMBER 1, 1972.

Take notice that on October 24, 1972, Sterling W. Woolsey filed in Docket No. CI73-307 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corp. from the East Bishop Field, Nueces County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that he proposes to commence the sale of natural gas within the contemplation of § 157.29 of the the regulations under the Natural Gas Act (18 CFR 157.29) and that he proposes to continue said sale for 1 year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 2,000 Mcf of gas per day at 35 cents per Mcf at 14.65 p.s.i.a.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before November 13, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-18927 Filed 11-3-72;8:48 am]

FEDERAL RESERVE SYSTEM

CAMBRIDGE AGENCY, INC.

Formation of Bank Holding Company and Proposed Acquisition of Insurance Agency

Cambridge Agency, Inc., Cambridge, Nebr., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares of The Cambridge State Bank, Cambridge, Nebr. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Cambridge Agency, Inc., has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Cambridge Insurance Agency, Inc., Cambridge, Nebr. Notice of the application was published on August 3, 1972, in the Cambridge Clarion, a newspaper circulated in Cambridge, Nebr. Applicant has also applied for permission to itself engage in the sale of credit life and accident and health insurance. Notice with respect thereto was published on October 5, 1972, in the Cambridge Clarion.

Applicant states that the proposed subsidiary would engage in the activities of a general insurance agency in a community of less than 5,000 people. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

[1] These schedules supersede FPC Nos. 39, 40, and 41, respectively.

V 37-214 NOV 4 72 XUM

Interested persons may express their views on the question whether consummation of the proposal under section 4(c)(8) can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than November 27, 1972.

Board of Governors of the Federal Reserve System, October 30, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

NORTH SHORE CAPITAL CORP.

Formation of Bank Holding Company

North Shore Capital Corp., Chicago, Ill., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 50 percent or more of the voting shares of The North Shore National Bank of Chicago, Chicago, Ill. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than November 27, 1972.

Board of Governors of the Federal Reserve System, October 31, 1972.

OFFICE OF EMERGENCY PREPAREDNESS

ARIZONA

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in me by the President under Executive Order 11575 of December 31, 1970; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92-209 (85 Stat. 742); notice is hereby given that on October 25, 1972, the President declared a major disaster as follows:

I have determined that the damages in certain areas of the State of Arizona from heavy rains and flooding, beginning about October 18, 1972, are of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of Arizona. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in me by the President under Executive Order 11575 to administer the Disaster Relief Act of 1970 (Public Law 91-606, as amended), I hereby appoint Mr. Robert C. Stevens, Regional Director, OEP Region 9, to act as the Federal Coordinating Officer to perform the duties specified by section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of Arizona to have been adversely affected by this declared major disaster:

THE COUNTIES OF

Graham. Greenlee.

Date: October 26, 1972.

G. A. LINCOLN,
Director,
Office of Emergency Preparedness.

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority 30, Rev. 14, Admt. 4]

REGIONAL DIRECTORS

Delegation of Authority To Conduct Program Activities in the Field Offices

Delegation of Authority No. 30 (Revision 14) (37 F.R. 12651), as amended (37 F.R. 14840, 37 F.R. 19405, and 37 F.R. 21466), is hereby further amended to include approval and certain other authority for strategic arms limitation economic injury loans. Parts I and II are revised to read as follows:

PART I—FINANCING PROGRAM

SECTION A. *Loan approval authority.*

* * * * *

3. *Displaced business and other economic injury loans.* To decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters in any amount and to approve such loans up to $1 million (SBA share).

* * * * *

SEC. B. *Other financing authority*—1. *Loan participation agreements.* To enter into business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, and strategic arms limitation economic injury loan participation agreements with banks.

* * * * *

3. *Cancel, reinstate, modify, and amend authorizations.* To cancel, reinstate, modify, and amend authorizations for all loans, i.e., business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, and strategic arms limitation economic injury loans.

* * * * *

PART II—DISASTER PROGRAM

SECTION A. *Disaster loan approval authority.* 1. To decline * * * (excluding displaced business loans, coal mine health and safety loans, occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) except to the extent of refinancing of a previous SBA disaster loan.

* * * * *

Effective date: September 28, 1972.

THOMAS S. KLEPPE,
Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice 109]

ASSIGNMENT OF HEARINGS

NOVEMBER 1, 1972.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No Amendments will be entertained after the date of this publication.

MC 107295 Sub 521, Pre Fab Transit Co., now assigned November 7, 1972, at Birmingham, Ala., hearing is canceled and application dismissed.

No. 35634, Lighterage at New York Harbor, Erie Lackwanna Ry., assigned November 29, 1972, MC 107515 Sub 764, Refrigerated Transport Co., Inc., assigned November 27, 1972, at New York, N.Y., will be held in Room E-2222, 26 Federal Plaza.

MC-119767 Sub 287, and MC-119767 Sub 292, Beaver Transport Co., now assigned November 6, 1972, at Chicago, Ill., is canceled and transferred to Modified Procedure.

I & S M-25977, Classification of Gelatin Capsules, now assigned November 9, 1972, at Washington, D.C., postponed to January 9, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 60196 Sub 7, Auto Express, hearing continued to December 4, 1972, Scranton, Pa., in a hearing room to be later designated.

MC 107743 Sub 17, System Transport, Inc., now being assigned hearing January 15, 1973 (3 days), at Chicago, Ill., in a hearing room to be later designated.

MC 4405 Sub 498, Dealer Transit, Inc., now being assigned hearing January 18, 1973 (1 day), at Chicago, Ill., in a hearing room to be later designated.

MC 107496 Sub 855, Ruan Transport Corp., now being assigned hearing January 19, 1973 (1 day), at Chicago, Ill., in a hearing room to be later designated.

AB-5 Sub 57, George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, Trustees of the Property of Penn Central Transportation Co., Debtor, Abandonment Between Columbus and Flat Rock, Bartholomew and Shelby Counties, Ind.; AB-5 Sub 58, George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, Trustees of the Property of Penn Central Transportation Co., Debtor, Abandonment Between Fenns and Shelbyville, Shelby County, Ind.; AB-5 Sub 59, George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, Trustees of the Property of Penn Central Transportation Co., Debtor, Abandonment Between Rays Crossing and Rushville, Shelby and Rush Counties, Ind., now being assigned hearing January 22, 1973 (1 week), at Rushville, Ind., in a hearing room to be later designated.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.72-18952 Filed 11-3-72;8:49 am]

FOURTH SECTION APPLICATIONS

NOVEMBER 1, 1972.

Protests to the granting of an application must be prepared in accordance with § 1100.40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 42557—*Joint Water-Rail Container Rates—Sea-Land Service, Inc.* Filed by Sea-Land Service, Inc., (No. 70), for itself and interested rail carriers. Rates on general commodities, between ports in Europe and the United Kingdom, on the one hand, and rail carriers terminals at Long Beach, Oakland and Richmond, Calif., via Houston, Tex., on the other.

Grounds for relief—Water competition.

Tariffs—Sea-Land Service, Inc., tariffs ICC Nos. 67, 68, and 69. Rates are published to become effective on November 29, 1972.

FSA No. 42558—*Iron or Steel, Angles and Bars to Points in Texas.* Filed by Southwestern Freight Bureau, agent, (No. B-361), for interested rail carriers. Rates on angles and bars, iron or steel, in carloads, as described in the application, from specified points in Alabama, Georgia, Illinois, Missouri, and Oklahoma, to specified points in Texas.

Grounds for relief—Barge-rail competition.

Tariff—Supplement 336 to Southwestern Freight Bureau, agent, tariff ICC 4753. Rates are published to become effective on November 29, 1972.

FSA No. 42560—*Returned Shipments of Newsprint Paper Winding Cores From and to Points in Illinois, Southern and Southwestern Territories.* Filed by Southwestern Freight Bureau, agent (No. B-363), for interested rail carriers. Rates on returned shipments of newsprint paper winding cores, in carloads, as described in the application, from points in Illinois, officials, southern and southwestern (including Missouri (Northern Region)) territories, on the one hand, to points in southwestern territory, on the other; also to points in the reverse direction.

Grounds for relief—Carrier competition.

Tariffs—Supplements 68, 41, and 53 to Southwestern Freight Bureau, agent, tariffs ICC 4781, 4965, and 4891, respectively. Rates are published to become effective on November 29, 1972.

FSA No. 42561—*Pulpboard or Fibreboard to Rock Island, Ill.* Filed by Southwestern Freight Bureau, agent (No. B-354), for interested rail carriers. Rates on pulpboard or fibreboard, in carloads, as described in the application, from Bastrop and West Monroe, La., also Camden, Ark., to Rock Island, Ill.

Grounds for relief—Carrier competition.

Tariff—Supplement 40 to Southwestern Freight Bureau, agent, tariff ICC 4965. Rates are published to become effective on December 7, 1972.

AGGREGATE-OF-INTERMEDIATES

FSA No. 42559—*Iron or steel, angles and bars to points in Texas.* Filed by Southwestern Freight Bureau, agent (No. B-362), for interested rail carriers. Rates on angles and bars, iron or steel, in carloads, as described in the application, from specified points in Alabama, Georgia, Illinois, Missouri, and Oklahoma, to specified points in Texas.

Grounds for relief—Maintenance of depressed rates published to meet barge-rail competition without use of such rates as factors in constructing combination rates.

Tariff—Supplement 336 to Southwestern Freight Bureau, agent, tariff ICC 4753. Rates are published to become effective on November 29, 1972.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 164]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73894. By order of October 24, 1972, the Motor Carrier Board approved the transfer to The Briggs Corp., Portland, Conn., of Permits Nos. MC-123695 issued February 8, 1962, and MC-123695 (Sub-No. 2), issued October 2, 1970, to Briggs Trans. Inc., Portland, Conn., authorizing the transportation of petroleum products and various other commodities from Portland, Conn., to specified points for the account of Cities Service Oil Company of New York, N.Y. John E. Fay, 342 North Main Street, West Hartford, CT 06117, attorney for applicants.

No. MC-FC-73930. By order of October 26, 1972, the Motor Carrier Board approved the transfer to Howe and Company, Inc., Framingham, Mass., of the certificate of registration in No. MC-98330 (Sub-No. 1), issued April 9, 1964,

V37-214 NOV 4 72 XUM

to City Transfer of Lowell, Inc., West Chelmsford, Mass., evidencing a right to engage in transportation in interstate or foreign commerce corresponding to the grant of authority in irregular route common carrier certificate No. 6076 dated March 19, 1952, issued by the Massachusetts Department of Public Utilities. Mary E. Kelley, 11 Riverside Avenue, Medford, MA 02155, attorney for applicants.

No. MC-FC-73986. By order of October 24, 1972, the Motor Carrier Board approved the transfer to Julsco, Inc., Chicago, Ill., of Certificate No. MC-16567 and subs thereunder issued to J. L. Scheffler Transport, Inc., Chicago, Ill., authorizing the transportation of: General commodities, usual exception, and other specified commodities, between specified points in Illinois, Indiana, and Wisconsin. Edward G. Bazeion, attorney, 39 South La Salle Street, Chicago, IL 60603.

[Notice 145]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 31, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 49304 TA, filed October 13, 1972. Applicant: BOWMAN TRUCKING COMPANY, INC., Post Office Box 6, Stephens City, VA 22655. Applicant's representative: James L. Bowman (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fly ash*, from Williamsport, Md., to points in Warren County, Va., for 180 days. Supporting shippers: Monongahela Power Co., 1310 Fairmont Avenue, Fairmont, WV 26554; Riverton Corp., Riverton, Va. 22651. Send protests to: Robert D. Caldwell, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 12th Street and Constitution Avenue NW., Washington, D.C. 20423.

No. MC 59640 TA, filed October 16, 1972. Applicant: PAULS TRUCKING CORPORATION, 3 Commerce Drive, Cranford, NJ. Applicant's representative: Charles J. Williams, 47 Lincoln Park, Newark, NJ 07102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business (except commodities in bulk), between the warehouse facilities of Supermarkets General Corp. at Mahwah, N.J., on the one hand, and, on the other, points in Hudson, Middlesex, Union, and Essex Counties, N.J., restricted to traffic which has a prior or subsequent movement by water or rail; New York, N.Y.; and points in Nassau, Westchester, Rockland and Suffolk Counties, N.Y.; Parkesburg and Philadelphia, Pa., and points in Bucks, Delaware, Berks, Dauphin, Montgomery, Cumberland, York, Lehigh, and Northampton Counties, Pa.; New Milford, Conn., and points in Fairfield, New Haven, Hartford, and Middlesex Counties, Del.; points in Wicomico County, Md. and the facilities of Supermarkets General Corp. at Baltimore, Md., and Hampden County, Mass. Restriction: The authority sought herein is limited to a transportation service to be performed under a continuing contract, or contract, with Supermarkets General Corp., for 180 days. NOTE: The authority sought herein is only to permit applicant to serve the new warehouse facilities of Supermarket General Corp. at Mahwah, N.J., in the area it is now authorized to serve. Supporting shipper: Supermarkets General Corp., 3 Commerce Drive, Cranford, NJ 07016. Send protests to: District Supervisor Robert E. Johnston, Interstate Commerce Commission, Bureau of Operations, 970 Broad St., Newark, NJ 07102.

No. MC 60186 TA, filed October 16, 1972. Applicant: NELSON FREIGHTWAYS, INC., Post Office Box 356, Rockville, CT 06066. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between points on Long Island on and east of New York Highway 112, on the one hand, and, on the other, points in Connecticut, for 180 days. NOTE: Applicant states that it does intend to tack with the authority in MC 60186 Subs 26 and 37. Supported by: There are approximately 15 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor David J. Kiernan, Bureau of Operations, Interstate Commerce Commission, 324 U.S. Post Office Building, 135 High Street, Hartford, CT 06101.

No. MC 61825 TA, filed October 13, 1972. Applicant: ROY STONE TRANSFER CORPORATION, Post Office Box 385, V.C. Drive, Collinsville, VA 24078. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, other than in bulk, from Rittman, Ohio to points in Amelia, Bedford, Blackstone, Brookneal, Catawba, Charlottesville, Chase City, Chesapeake, Christiansburg, Danville, Dillard, Eagle Rock, Emporia, Farmville, Galax, Hampton, Ivy, Kenbridge, Lynchburg, Luray, Martinsville, Mechanicsville, Norfolk, Petersburg, Portsmouth, Pulaski, Richmond, Roanoke, Salem, South Boston, Staunton, Suffolk, Virginia Beach, Waynesboro, West Point, Winchester and Wytheville, Va., for 180 days. Supporting shipper: Morton Salt Co., 939 North Delaware Avenue, Philadelphia, PA 19123. Send protests to: Clatin M. Harmon, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 215 Campbell Avenue SW., Roanoke, VA 24011.

No. MC 71164 (Sub-No. 5 TA), filed October 12, 1972. Applicant: LAND-SEA-AIR SERVICES, INC., 166 Northern Avenue, Boston, MA 02210. Applicant's representative: Frederick T. O'Sullivan, 622 Lowell Street, Peabody, MA 01960. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* requiring refrigeration (except commodities in bulk, in tank vehicles, in hopper-type vehicles) and *cured pickled meats:* (1) Between points in Massachusetts, on the one hand, and, on the other, points in Florida and (2) from points in Iowa to points in Massachusetts, for 180 days. Supporting shippers: Agar Supply Co., Inc., 6 Foodmart Road, Boston, MA; World Meat Exports Corp., Somerville, Mass., and Boston Sausage & Provision, Inc., Constitution Wharf, Boston, Mass. Send protests to: John B. Thomas, District Supervisor, Interstate Commerce Commission, Bureau of Operations, J. F. K. Federal Building, Room 2211B, Government Center, Boston, Mass. 02203.

No. MC 105159 TA, filed October 12, 1972. Applicant: KNUDSEN TRUCKING, INC., 1320 West Main Street, Red Wing, MN 55077. Applicant's representative: Robert D. Gisvold, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cheese and cheese products* (a) from

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

Bongard and Dalbo, Minn., and Alpha, Arpin, Cadott, Ellsworth, Grantsburg, Greenwood, Loomis, Marathon, Monroe, Marinette, Waukesha, Wisconsin Rapids, Knapp, Thorp, and Seneca, Wis., to the plantsite and warehouse facilities of M. Wildstein & Sons, Inc., located in Philadelphia, Pa., (b) from the plant and warehouse facilities of M. Wildstein & Sons, Inc., located in Philadelphia, Pa., to Richmond and Norfolk, Va., Charlotte and Greensboro, N.C., Baltimore, Md., and Buffalo and New York, N.Y., (2) *empty steel drum containers* used for transporting cheese and cheese products, from the plantsite and warehouse facilities of M. Wildstein & Sons, Inc., in Philadelphia, Pa., to the origin points listed in (1) above; and (3) *inedible cheese* and *inedible cheese products* from the plantsite and warehouse facilities of M. Wildstein & Sons, Inc., in Philadelphia, Pa., to Peoria, Ill. Restriction: The authority set forth in Part (1)(a) above is restricted to traffic originating at the named origin points for the account of M. Wildstein & Sons, Inc., of Philadelphia, Pa., for 180 days. Supporting shipper: M. Wildstein & Sons, Inc., Delaware Avenue and Vine Street, Philadelphia, PA 19106. Send protests to: A. N. Spath, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building, and U.S. Courthouse, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 107460 (Sub-No. 38 TA), filed October 11, 1972. Applicant: WILLIAM Z. GETZ, INC., 3055 Yellow Goose Road, Lancaster, PA 17601. Applicant's representative: Donald D. Shipley (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum doors and windows*, glazed and unglazed; aluminum extrusions, from the plantsite of Capitol Products Corp. at or near Kentland, Ind., to points in Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Nebraska, Ohio, Oklahoma, Tennessee, Texas, Utah, Wisconsin, and Wyoming, for 180 days. Supporting shipper: Capitol Products Corp., Kentland, Ind. 47951. Send protests to: Robert W. Ritenour, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 508 Federal Building, Post Office Box 869, Harrisburg, PA 17108.

No. MC 107496 (Sub-No. 863 TA), filed October 11, 1972. Applicant: RAUN TRANSPORT CORPORATION, Third and Keosauqua Way, Post Office Box 855, Des Moines, IA 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nitric acid*, in bulk, in tank vehicles, from Pine Bend, Minn., to Iron Mountain, Mich., for 150 days. Supporting shipper: St. Paul Ammonia Products, Inc., Post Office Box 418, South St. Paul, MN 55075. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 108449 TA, filed October 11, 1972. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, MN 55113. Applicant's representative: W. A. Myllenbeck (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned and preserved foodstuffs*, from Lomira, Wis., to points in Wisconsin on and north and west of a line beginning at the Wisconsin-Minnesota State line on Highway 16, thence along Highway 16 in a northeasterly direction to Sparta, Wis., thence along Highway 21 to the intersection of Highway 51, located at Coloma, Wis., thence north along Highway 51 to the Michigan-Wisconsin State line, for 180 days. Supporting shipper: California Canners & Growers, Plant 14, Fond du Lac, Wis. 54935. Send protests to: District Supervisor Raymond T. Jones, Interstate Commerce Commission, Bureau of Operations, 448 Federal Building, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 128527 (Sub-No. 30 TA), filed October 13, 1972. Applicant: MAY TRUCKING COMPANY, Post Office Box 398, Payette, ID 83661. Applicant's representative: Gatchel & Batt, Professional Building, Payette, Idaho. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Aluminum sheet in coils and/or plates, pipe, or tubing; aluminum siding, roofing, and accessories; rejected or damaged shipments of the same material; and scrap aluminum and pallets on a return movement.* Authority is also sought to provide mixed loads of the aforementioned commodities between the points set forth. Material will be supplied for mobile homes, modular and assembled buildings, recreational vehicles and campers. From plantsite of AMAZ Building Products, a division of AMAX Aluminum Mill Products, Inc. (Post Office Box 418, East Highway 30, Boise, ID 83701) to plantsites located in or near the cities of Calgary and Red Deer, in the Province of Alberta, Canada for 180 days. Applicant does not intend to tack authority or to interline with any other carrier. Supporting shipper: Amax Building Products, Post Office Box 418, East Highway 30, Boise, ID 83701. Send protests to: C. W. Campbell, Bureau of Operations, Interstate Commerce Commission, 550 West Fort, Box 07, Boise, ID 83702.

No. MC 134439 (Sub-No. 1 TA), filed October 13, 1972. Applicant: JAMES G. FERNEYHOUGH, doing business as J. G. F. TRUCKING COMPANY, Post Office Box 2173, Lynchburg, VA 24501. Applicant's representative: Calvin F. Major, 200 West Grace Street, Richmond, VA 23220. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Corrugated paper sheets, containers, and parts thereof*, from the plantsite and facilities of Weyerhaeuser Co. at Lynchburg, Va., to points in Maryland, Pennsylvania, Tennessee, and West Virginia; and (2) *returned or refused shipments of the above commodities and materials, equipment, and supplies* used in the manufacture and sale of same, from the above-described destinations to the plantsite and facilities of Weyerhaeuser Co. at Lynchburg, Va., for 150 days. Supporting shipper: Weyerhaeuser Co., Tacoma, Wash. 98401. Send protests to: Clatin M. Harmon, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 215 Campbell Avenue SW., Roanoke, VA 24011.

By the Commission.

V 37 - 214 NOV 4 72 XUM

Title 1—GENERAL PROVISIONS

Chapter I—Administrative Committee of the Federal Register

REVISION OF REGULATIONS

This document effects a complete revision of the regulations of the Administrative Committee of the Federal Register. The purpose of this revision is to make the FEDERAL REGISTER a more meaningful and more useful publication. With the enactment of the Administrative Procedure Act in 1946, Congress provided an opportunity for general participation in the administrative actions of the Federal Government. However, in order to participate effectively, citizens must be able to understand the actions, both proposed and final, as published in the FEDERAL REGISTER. Unfortunately, in many instances, documents are being written so that the criticisms by Rudolph Flesch in his 1946 book, "The Art of Plain Talk" are still valid. In a chapter entitled "How To Read the FEDERAL REGISTER," Mr. Flesch quotes several virtually unintelligible documents and reaches this conclusion:

> Slowly we begin to understand. The FEDERAL REGISTER is not supposed to be read at all. It simply prints things so that some day, somewhere, some government official can say: "Yes, but it says in the FEDERAL REGISTER * * *". All this government stuff, in other words, is not reading matter, but prefabricated parts of quarrels.

Today, interest in the FEDERAL REGISTER is at an all-time high. Consumer groups and other public-interest oriented organizations regularly examine its contents to keep up with the administrative rulings of the Federal Government. The Administrative Committee of the Federal Register feels that affirmative action is required to make the FEDERAL REGISTER more meaningful to readers and believes that the new requirements contained in this revision will further that purpose.

Following is a summary of the most significant changes in existing regulations effected by this revision:

1. Requirement for a preamble in each document that describes the contents of the document in a manner sufficient to apprise a reader who is not an expert in the subject area of the general subject matter of the document.

2. Requirement for setting forth specific effective dates and action dates.

3. Changes in publication dates of the daily FEDERAL REGISTER.

4. Staggered publication of the Code of Federal Regulations.

In general, the responses to the three proposals published by the Administrative Committee on which these amendments are based were almost completely favorable. Two of the proposals published on July 27, 1972, at 37 F.R. 15006, related to limited subject areas (effective dates and time periods and staggered publication of the Code of Federal Regulations) and because of overwhelmingly favorable comments received may be disposed of quickly.

Effective dates and time periods. There was no significant opposition to the Committee's proposal that to the extent practical each document submitted for publication in the FEDERAL REGISTER should set forth dates certain as opposed to dates based on publication which must be computed by each interested party. Nor was there any significant objection to the computation method proposed to be used by the staff of the FEDERAL REGISTER for inserting a date certain where a document does contain a time period based on the publication date.

In commenting on this proposal, a large number of commentors indicated that too often Federal agencies allow inadequate time periods for commenting on proposed regulations. Several commenters stated that for most proposals of any significance a 45-day comment period should be considered the minimal. While outside the scope of this proposal, the Administrative Committee calls these comments to the attention of regulatory agencies since it is apparent that many persons feel that in the past they have not had adequate time to analyze and comment on proposed Federal actions.

Staggered publication of the Code of Federal Regulations. The proposal to stagger the publication of the Code of Federal Regulations also received almost unanimous support. There was some concern that it would be more difficult to check on changes to a particular Code of Federal Regulations volume since the current finding aids (the General Index and List of Sections Affected) are based on the annual Code of Federal Regulations. The Office of the Federal Register will revise the coverage of these finding aids so that Code of Federal Regulations users will have no difficulty at any time determining the regulations currently in effect.

The proposed general revision of the Administrative Committee's Regulations. The remaining changes in the present regulations of the Administrative Committee of the Federal Register are based on the notice of proposed rule making published in the FEDERAL REGISTER on April 4, 1972 (37 F.R. 6805).

Adequate preambles. Not surprisingly, virtually all of the comments received from outside the Federal establishment enthusiastically supported the Committee's proposal that each rule making document contain adequate preamble statements that summarize the contents of the document and discuss such things as the substance of the proposed rules, major issues involved, and basis and purpose thereof, etc. The comments received from Federal rule making agencies generally supported the proposed requirement although several felt that the proposal went beyond the requirements of the Administrative Procedure Act (5 U.S.C. 551–555). Others questioned the authority for the Director of the Federal Register to return a document to a Federal agency when it is signed by a qualified official of the agency.

With respect to the first point, as was discussed in the preamble to the notice of proposed rule making and in the amendment adopting the "Highlights" requirement (36 F.R. 5203), the Administrative Committee believes that the proposed requirements are clearly within the spirit and intent of the Federal Register Act (44 U.S.C. 1501–1511) and the Administrative Procedure Act.

One Federal agency recommended that the required preamble statement should describe the contents of the document "in a manner sufficient to apprise a reader, who is not an expert, of the general subject matter of such rules." The Committee believes this language expresses its intent even better than the language proposed and has incorporated it in a revised § 18.12 so that it applies to both notices of proposed rule making and final rules. Also, as suggested by several comments, § 18.12, as adopted, requires that to the extent practicable each proposed rule making preamble should discuss the reasons for the proposed rule.

Where a final rule was preceded by a notice of proposed rule making, § 18.12, as adopted, also requires that the preamble "indicate in general terms the principal differences, if any, between the rules as proposed and the rules as adopted." This requirement (as commenters suggested) has been substituted for the proposed requirement that the preamble discuss "the disposition of the significant comments received."

The provision concerning the return of documents by the Director of the Federal Register to agencies has been transferred from section 18.12 to a more appropriate location, section 2.4, which relates to the general authority of the Director. It should be pointed out that throughout the years since the beginning of the FEDERAL REGISTER, the Director has exercised this authority many times. This does not mean that the Director is substituting his judgment for that of the issuing agency. In most cases, questions concerning the adequacy of documents are handled informally to the satisfaction of both the agency and the Office of the Federal Register. Only in an extreme case, when a document is patently inadequate, would the Director return the document.

Liaison officers. Several agencies questioned the proposed change concerning liaison officers to the extent that it appeared to inject the Director of the Federal Register into the internal affairs of an agency. This, of course, was not the intent of the proposal. As adopted, § 16.1(b) has been modified to simply recommend that each agency choose as its liaison officer a person who is directly involved in the agency's regulatory program. In this way the officer will be in the best position to serve both his agency and the Office of the Federal Register.

Publication dates. There were only two significant objections to the proposal that the FEDERAL REGISTER be published Monday through Friday rather than Tuesday through Saturday, as it has been for over 35 years. Several commenters were concerned that the former Saturday issue, which would now carry a Monday date, might not be put in the mails until Monday rather than early Saturday morning, as is presently the case. As the preamble to the notice of proposed rule making stated, adoption of the new publication schedule would not change existing work schedules. The FEDERAL REGISTER bearing the Monday dateline will be printed and deposited at the post office before 9 a.m. on Saturday.

The other objection concerned certain agricultural marketing documents that have for many years been published in the Saturday FEDERAL REGISTER in advance of the new crop-week which begins on Sunday. While the Committee recognizes that elimination of the Saturday FEDERAL REGISTER will require certain adjustments in this particular regulatory area, it believes that the overall benefits justify this one inconvenience. Furthermore, any person depending on the FEDERAL REGISTER for notice of a particular action would be hard pressed to obtain copies of a Saturday FEDERAL REGISTER before the beginning of a time period commencing on Sunday. Therefore, while the practice of publishing such documents on a Saturday may have provided pro forma compliance with some legal requirement, the Committee believes that publication of the same class of documents in the Friday FEDERAL REGISTER will better serve to provide actual notice to those persons affected.

Inclusion of dates in the Highlights listing. The response to the Committee's request for advice on the advisability of continuing to publish significant dates in the Highlights listing was mixed. After considering all the comments received, the Committee has decided to continue the use of important dates in the Highlights listing where practicable.

Except for a few minor reorganization and other nonsubstantive changes, 1 CFR Chapter I, set forth below, conforms to the notices of proposed rule making referred to above.

In consideration of the foregoing, 1 CFR Chapter I is amended to read as set forth below:

Effective date. Except for the provisions of § 8.3, which take effect immediately, this amendment is effective January 2, 1973.

ADMINISTRATIVE COMMITTEE OF THE FEDERAL REGISTER,

JAMES B. RHOADS,
Archivist of the United States, Chairman.

H. J. HUMPHREY,
Acting Public Printer, Member.

MARY O. EASTWOOD,
Representative of the Attorney General, Member.

Approved:

RICHARD G. KLEINDIENST,
Attorney General.

A. SAMPSON,
Acting Administrator of General Services.

SUBCHAPTER A—GENERAL

PART 1—DEFINITIONS

§ 1.1 Definitions.

As used in this chapter, unless the context requires otherwise—

"Administrative Committee" means the Administrative Committee of the Federal Register established under section 1506 of title 44, United States Code;

"Agency" means each authority, whether or not within or subject to review by another agency, of the United States, other than the Congress, the courts, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States;

"Document" includes any Presidential proclamation or Executive order, and any rule, regulation, order, certificate, code of fair competition, license, notice, or similar instrument issued, prescribed, or promulgated by an agency;

"Document having general applicability and legal effect" means any document issued under proper authority prescribing a penalty or course of conduct, conferring a right, privilege, authority, or immunity, or imposing an obligation, and relevant or applicable to the general public, members of a class, or persons in a locality, as distinguished from named individuals or organizations; and

"Regulation" and "rule" have the same meaning.

(44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189)

PART 2—GENERAL INFORMATION

Sec.
2.1 Scope and purpose.
2.2 Administrative Committee of the Federal Register.
2.3 Office of the Federal Register; location; office hours.
2.4 General authority of Director.
2.5 Publication of statutes, regulations, and related documents.
2.6 Unrestricted use.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 2.1 Scope and purpose.

(a) This chapter sets forth the policies, procedures, and delegations under which the Administrative Committee of the Federal Register carries out its general responsibilities under Chapter 15 of Title 44, United States Code.

(b) A primary purpose of this chapter is to inform the public of the nature and uses of FEDERAL REGISTER publications.

§ 2.2 Administrative Committee of the Federal Register.

(a) The Administrative Committee of the Federal Register is established by section 1506 of Title 44, United States Code.

(b) The Committee consists of—

(1) The Archivist, or Acting Archivist, of the United States, who is the Chairman;

(2) An officer of the Department of Justice designated by the Attorney General; and

(3) The Public Printer or Acting Public Printer.

(c) The Director of the Federal Register is the Secretary of the Committee.

(d) Any material required by law to be filed with the Committee, and any correspondence, inquiries, or other material intended for the Committee or which relate to Federal Register publications shall be sent to the Director of the Federal Register.

§ 2.3 Office of the Federal Register; location; office hours.

(a) The Office of the Federal Register is a component of the National Archives and Records Service of the General Services Administration.

(b) The Office is located at 633 Indiana Avenue NW., Washington, D.C.

(c) The mailing address is: Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

(d) Office hours are 8:45 a.m. to 5:15 p.m., Monday through Friday, except for official Federal holidays.

§ 2.4 General authority of Director.

(a) The Director of the Federal Register is delegated authority to administer generally this chapter, the related provisions of Chapter 15 of Title 44, United States Code, and the pertinent provisions of statutes and regulations contemplated by section 1505 of Title 44, United States Code.

(b) The Director may return to the issuing agency any document submitted for publication in the FEDERAL REGISTER or a special edition thereof, if in his judgment the document does not meet the minimum requirements of this chapter.

§ 2.5 Publication of statutes, regulations, and related documents.

(a) The Director of the Federal Register is responsible for the central filing of the original acts enacted by Congress and the original documents containing Executive orders and proclamations of the President, other Presidential documents, regulations, and notices of proposed rule making and other notices, submitted to the Director by officials of the executive branch of the Federal Government.

(b) Based on the acts and documents filed under paragraph (a) of this section, the Office of the Federal Register publishes the "slip laws," the "United States Statutes at Large," the daily FEDERAL REGISTER, and the "Code of Federal Regulations."

(c) Based on source materials that are officially related to the acts and documents filed under paragraph (a) of this section, the Office also publishes the "United States Government Organization Manual," the "Public Papers of the Presidents of the United States," and the "Weekly Compilation of Presidential Documents."

V 37-214 NOV 4 72 XUM

§ 2.6 Unrestricted use.

Any person may reproduce or republish, without restriction, any material appearing in any regular or special edition of the FEDERAL REGISTER.

PART 3—SERVICES TO THE PUBLIC

Sec.
3.1 Information services.
3.2 Public inspection of documents.
3.3 Reproductions and certified copies of acts and documents.
3.4 Availability of Federal Register publications.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 F.R. 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 3.1 Information services.

Except in cases where the time required would be excessive, information concerning the publications described in § 2.5 of this chapter and the original acts and documents filed with the Office of the Federal Register is provided by the staff of that Office. However, the staff may not summarize or interpret substantive text of any act or document.

§ 3.2 Public inspection of documents.

(a) Current documents filed with the Office of the Federal Register pursuant to law are available for public inspection in Room 405, 633 Indiana Avenue NW., Washington, D.C., during the Office of the Federal Register office hours. There are no formal inspection procedures or requirements.

(b) The Director of the Federal Register shall cause each document received by the office to be filed for public inspection not later than the working day preceding the publication day for that document.

(c) The Director shall cause to be placed on the original and certified copies of each document a notation of the day and hour when it was filed and made available for public inspection.

(d) Manual, typewritten, or other copies of documents or excerpts may be made at the inspection desk.

§ 3.3 Reproductions and certified copies of acts and documents.

The regulations for the public use of records in the National Archives (41 CFR Part 105–61) govern the furnishing of reproductions of acts and documents and certificates of authentication for them. Section 105–61.108 of those regulations provides for the advance payment of appropriate fees for reproduction services and for certifying reproductions.

§ 3.4 Availability of Federal Register publications.

(a) The publications described in § 2.5 of this chapter are published by the Government Printing Office and are sold by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. They are not available for free distribution to the public.

(b) Federal Register publications are available through subscription, as follows:

(1) *Slip laws.* In accordance with section 709 of title 44, United States Code, printed slip form copies of public and private laws are available from the Superintendent of Documents, individually or by subscription service on a yearly basis.

(2) *U.S. Statutes at Large.* In accordance with section 728 of title 44, United States Code, copies of the United States Statutes at Large are available from the Superintendent of Documents.

(3) *Federal Register.* Daily issues are furnished to subscribers on a monthly or yearly basis, at a price determined by the Administrative Committee and paid in advance to the Superintendent of Documents. Limited quantities of current or recent copies may be obtained from the Superintendent of Documents at a price determined by him.

(4) *Code of Federal Regulations.* Subscription services on a yearly basis to the volumes comprising the Code, and individual copies thereof, are sold by the Superintendent of Documents at prices determined by him, under the general direction of the Administrative Committee.

(5) *U.S. Government Organization Manual.* Placed on sale by the Superintendent of Documents at a price determined by him, under the general direction of the Administrative Committee.

(6) *Public Papers of the Presidents of the United States.* Annual volumes are placed on sale by the Superintendent of Documents at a price determined by him, under the general direction of the Administrative Committee.

(7) *Weekly Compilation of Presidential Documents.* Placed on sale by the Superintendent of Documents at a price determined by him, under the general direction of the Administrative Committee.

SUBCHAPTER B—THE FEDERAL REGISTER

PART 5—GENERAL

Sec.
5.1 Publication policy.
5.2 Documents required to be filed and published.
5.3 Publication of other documents.
5.4 Publication not authorized.
5.5 Supplement to the Code of Federal Regulations.
5.6 Daily publication.
5.7 Delivery and mailing.
5.8 Form of citation.
5.9 Categories of documents.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 5.1 Publication policy.

(a) Pursuant to Chapter 15 of Title 44, United States Code, and this chapter, the Director of the Federal Register shall publish a serial publication called the "FEDERAL REGISTER" to contain the following:

(1) Executive orders, proclamations, and other Presidential documents.

(2) Documents required to be published therein by law.

(3) Documents accepted for publication under § 5.3.

(b) Each document required or authorized to be filed for publication shall be published in the FEDERAL REGISTER as promptly as possible, within limitations imposed by considerations of accuracy, usability, and reasonable costs.

(c) In prescribing regulations governing headings, preambles, effective dates, authority citations, and similar matters of form, the Administrative Committee does not intend to affect the validity of any document that is filed and published under law.

§ 5.2 Documents required to be filed and published.

The following documents are required to be filed with the Office of the Federal Register and published in the FEDERAL REGISTER:

(a) Presidential proclamations and Executive orders in the numbered series, and each other document that the President submits for publication or orders to be published.

(b) Each document or class of documents required to be published by act of Congress.

(c) Each document having general applicability and legal effect.

§ 5.3 Publication of other documents.

Whenever the Director of the Federal Register considers that publication of a document not covered by § 5.2 would be in the public interest, he may allow that document to be filed with the Office of the Federal Register and published in the FEDERAL REGISTER.

§ 5.4 Publication not authorized.

(a) Chapter 15 of Title 44, United States Code, does not apply to treaties, conventions, protocols, or other international agreements, or proclamations thereof by the President.

(b) Chapter 15 of Title 44, United States Code, prohibits the publication in the FEDERAL REGISTER of comments or news items.

(c) The Director of the Federal Register may not accept any document for filing and publication unless it is the official action of the agency concerned. Chapter 15 of Title 44, United States Code, does not authorize or require the filing and publication of other papers from an agency.

§ 5.5 Supplement to the Code of Federal Regulations.

The FEDERAL REGISTER serves as a daily supplement to the Code of Federal Regulations. Each document that is subject to codification and published in a daily issue shall be keyed to the Code of Federal Regulations.

§ 5.6 Daily publication.

There shall be an edition of the FEDERAL REGISTER for each official Federal working day.

§ 5.7 Delivery and mailing.

The Government Printing Office shall distribute the FEDERAL REGISTER by delivery or by deposit at a post office at or before 9 a.m. on the publication day, except that each FEDERAL REGISTER dated for a Monday shall be deposited at a post office at or before 9 a.m. on the preceding Saturday.

§ 5.8 Form of citation.

Without prejudice to any other form of citation, FEDERAL REGISTER material may be cited by volume and page number, and the short form "FR" may be used for "FEDERAL REGISTER". For example, "37 FR 6803" refers to material beginning on page 6803 of volume 37 of the daily issues.

§ 5.9 Categories of documents.

Each document published in the FEDERAL REGISTER shall be placed under one of the following categories, as indicated:

(a) *The President.* Containing each Executive order or Presidential proclamation, and each other Presidential document that the President submits for publication or orders to be published.

(b) *Rules and regulations.* Containing each document subject to codification, except those covered by paragraph (a) of this section.

(c) *Proposed rule making.* Containing each notice of proposed rule making submitted pursuant to section 553 of Title 5, United States Code, or any other law, and each notice of a similar nature voluntarily submitted by an issuing agency.

(d) *Notices.* Containing miscellaneous documents not covered by paragraph (a), (b), or (c) of this section, such as notices of hearings that are not included under proposed rule making documents and documents accepted for publication on the basis of public interest.

PART 6—INDEXES AND ANCILLARIES

Sec.
6.1 Index to daily issues.
6.2 Analytical subject indexes.
6.3 Daily lists of parts affected.
6.4 Monthly list of sections affected.
6.5 Index-digests and guides.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958, Comp. p. 189.

§ 6.1 Index to daily issues.

Each daily issue of the FEDERAL REGISTER shall be appropriately indexed.

§ 6.2 Analytical subject indexes.

Analytical subject indexes covering the contents of the FEDERAL REGISTER shall be published as currently as practicable, and shall be cumulated and separately published at least once each calendar year.

§ 6.3 Daily lists of parts affected.

(a) Each daily issue of the FEDERAL REGISTER shall carry a numerical list of the parts of the Code of Federal Regulations specifically affected by documents published in that issue.

(b) Beginning with the second issue of each month, each daily issue shall also carry a cumulated list of the parts affected by documents published during that month.

§ 6.4 Monthly lists of sections affected.

A monthly list of sections of the Code of Federal Regulations affected shall be separately published on a cumulative basis during each calendar year. The list shall identify the sections of the Code specifically affected by documents published in the FEDERAL REGISTER during the period it covers.

§ 6.5 Index-digests and guides.

(a) The Director of the Federal Register may cause to be prepared and published, yearly or at other intervals as necessary to keep them current and useful, index-digests and similar guides, based on laws, Presidential documents, regulations, and notice materials published by the Office and which serve a need of users of the FEDERAL REGISTER.

(b) Each digest and guide is considered to be a special edition of the FEDERAL REGISTER whenever the public need requires special printing or special binding in substantial numbers.

PART 7—DISTRIBUTION WITHIN FEDERAL GOVERNMENT

Sec.
7.1 Members of Congress.
7.2 The Judiciary.
7.3 Executive agencies.
7.4 Requisitions for quantity overruns of specific issues.
7.5 Requisitions for quantity overruns of separate Part II issues.
7.6 Extra copies.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 7.1 Members of Congress.

Each Senator and each Member of the House of Representatives is entitled to not more than five copies of each daily issue of the FEDERAL REGISTER, without charge.

§ 7.2 The Judiciary.

(a) *The Supreme Court.* The Supreme Court is entitled to the number of copies of each daily issue of the FEDERAL REGISTER that it needs for official use, without charge.

(b) *Other courts.* Each other constitutional or legislative court of the United States is entitled to the number of copies of each daily issue of the FEDERAL REGISTER that it needs for official use, without charge, based on a written authorization submitted to the Director of the Federal Register by the Director of the Administrative Office of the U.S. Courts specifying the number needed.

§ 7.3 Executive agencies.

(a) Each Federal executive agency is entitled to the number of copies of each daily issue of the FEDERAL REGISTER that it needs for official use, without charge.

(b) The person in each agency concerned who is authorized under §§ 16.1 and 16.4 of this chapter to list the officers and employees of that agency who need the FEDERAL REGISTER for daily use shall send a written request to the Director of the Federal Register for placement of the names of those officers and employees on the mailing list.

§ 7.4 Requisitions for quantity overruns of specific issues.

(a) To meet its needs for special distribution of the FEDERAL REGISTER in substantial quantity, any agency may request an overrun of a specific issue.

(b) An advance printing and binding requisition on Standard Form 1 must be submitted by the agency directly to the Government Printing Office, to be received not later than 12 noon on the working day before publication.

§ 7.5 Requisitions for quantity overruns of separate Part issues.

(a) Whenever it is determined by the Director of the Federal Register to be in the public interest, one or more documents may be published as a separate Part (e.g., Part II, Part III) of the FEDERAL REGISTER.

(b) Advance arrangements for this service must be made with the Office of the Federal Register.

(c) Any agency may request an overrun of such a separate Part by submitting an advance printing and binding requisition on Standard Form 1 directly to the Government Printing Office, to be received not later than 12 noon on the working day before the publication date.

§ 7.6 Extra copies.

An agency may order limited quantities of extra copies of a specific issue of the FEDERAL REGISTER, for official use, from the Superintendent of Documents, to be paid for by that agency.

SUBCHAPTER C—SPECIAL EDITIONS OF THE FEDERAL REGISTER

PART 8—CODE OF FEDERAL REGULATIONS

Sec.
8.1 Policy.
8.2 Orderly development.
8.3 Periodic updating.
8.4 Indexes.
8.5 Ancillaries.
8.6 General format and binding.
8.7 Agency cooperation.
8.8 Official distribution.
8.9 Form of citation.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 8.1 Policy.

(a) Pursuant to Chapter 15 of Title 44, United States Code, the Director of the Federal Register shall publish periodically a special edition of the FEDERAL REGISTER to present a compact and practical code called the "Code of Federal Regulations", to contain each Federal regulation of general applicability and current or future effect.

(b) The Administrative Committee intends that every practical means be used to keep the Code as current and readily usable as possible, within limitations imposed by dependability and reasonable costs.

§ 8.2 Orderly development.

To assure orderly development of the Code of Federal Regulations along practical lines, the Director of the Federal Register may establish new titles in the Code and rearrange existing titles and subordinate assignments. However, before taking an action under this section, the Director shall consult with each agency directly affected by the proposed change.

V 37-214 NOV 4 72 XUM

§ 8.3 Periodic updating.

(a) *Criteria.* Each book of the Code shall be updated at least once each calendar year. If no change in its contents has occurred during the year, a simple notation to that effect may serve as the supplement for that year. More frequent updating of any unit of the Code may be made whenever the Director of the Federal Register determines that the content of the unit has been substantially superseded or otherwise determines that such action would be consistent with the intent and purpose of the Administrative Committee as stated in § 8.1.

(b) *Staggered publication.* The Code will be produced over a 12-month period under a staggered publication system to be determined by the Director of the Federal Register.

(c) *Cutoff dates.* Each updated Title of the Code will reflect each amendment to that Title published in the FEDERAL REGISTER on or before the "As of" date. Thus, each Title updated as of July 1 each year will reflect all amendatory documents appearing in the daily FEDERAL REGISTER on or before July 1.

§ 8.4 Indexes.

A subject index to the entire Code shall be annually revised and separately published. An agency-prepared index for any individual book may be published with the approval of the Director of the Federal Register.

§ 8.5 Ancillaries.

The Code shall provide, among others, the following-described finding aids:

(a) *Parallel tables of statutory authority and rules.* In Title 2 of the Code of Federal Regulations or at such other place as the Director of the Federal Register considers appropriate, numerical lists of all sections of the current edition of the United States Code (except section 301 of Title 5) which are cited by issuing agencies as rule making authority for currently effective regulations in the Code of Federal Regulations. The lists shall be arranged in the order of the titles and sections of the United States Code with parallel citations to the pertinent titles and sections of the Code of Federal Regulations.

(b) *Parallel tables of Presidential documents and agency rules.* In Title 3 of the Code of Federal Regulations, or at such other place as the Director of the Federal Register considers appropriate, tables of proclamations, Executive orders, and similar Presidential documents which are codified, cited as authority, quoted, cited in text, or included or referred to in currently effective regulations as published in the Code of Federal Regulations.

(c) *List of sections affected.* Following the text of each book or cumulative supplement, a numerical list of sections which are affected by documents published in the FEDERAL REGISTER. (A separate volume, "List of Sections Affected, 1949–1963" lists all sections of the Code which have been affected by documents published during the period January 1, 1949 to December 31, 1963.) Listings shall refer to FEDERAL REGISTER pages and shall be designed to enable the user of the Code to assure himself of the precise text that was in effect on a given date in the period covered.

§ 8.6 General format and binding.

The Director of the Federal Register shall provide for the binding of the Code into as many separate books as are indicated by the needs of users and compatible with the facilities of the Government Printing Office.

§ 8.7 Agency cooperation.

Each agency shall cooperate in keeping publication of the Code current by complying promptly with deadlines set by the Director of the Federal Register and the Public Printer.

§ 8.8 Official distribution.

(a) The Code shall be distributed to the following, without charge:

(1) *Congress.* To each committee of the Senate and House of Representatives in the quantity needed for official use, upon the written authorization of the committee chairman or his delegate, to the Director of the Federal Register.

(2) *Supreme Court.* To the Supreme Court in the quantity needed for official use.

(3) *Other courts.* To other constitutional and legislative courts of the United States, in the quantity needed for official use, upon the written authorization of the Director of the Administrative Office of the U.S. Courts to the Director of the Federal Register.

(4) *Executive agencies.* To officials, libraries, and major organizational units of the executive agencies in the quantity needed for official use, upon the written authorization of the authorizing officer or his alternate designated under § 16.1 of this chapter.

(b) Legislative, judicial, and executive agencies of the Federal Government may obtain selected units of the Code, as needed in substantial quantity for special distribution, by the timely submission of a printing and binding requisition to the Government Printing Office on Standard Form 1.

§ 8.9 Form of citation.

The Code of Federal Regulations may be cited by title and section, and the short form "CFR" may be used for "Code of Federal Regulations." For example, "1 CFR 10.2" refers to Title 1, Code of Federal Regulations, Part 10, section 2.

PART 9—U.S. GOVERNMENT ORGANIZATION MANUAL

Sec.
9.1 Publication required.
9.2 Scope.
9.3 Distribution to Government agencies.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 9.1 Publication required.

The Director of the Federal Register shall separately publish annually or at times designated by the Administrative Committee of the Federal Register a special edition of the FEDERAL REGISTER called the "United States Government Organization Manual" or any other title that the Administrative Committee of the Federal Register considers appropriate. The Director of the Federal Register may issue special supplements to the Manual when he considers such supplementation to be in the public interest.

§ 9.2 Scope.

(a) The Manual shall contain appropriate information about the Executive, Legislative, and Judicial branches of the Federal Government, which for the major Executive agencies shall include—

(1) Descriptions of the agency's public purposes, programs and functions;

(2) Established places and methods whereby the public may obtain information and make submittals or requests; and

(3) Lists of officials heading major operating units.

(b) Brief information about quasi-official agencies and supplemental information that in the opinion of the Director of the Federal Register is of enough public interest to warrant inclusion shall also be published in the Manual.

§ 9.3 Distribution to Government agencies.

(a) The Manual shall be distributed to the following, in the quantities indicated, without charge:

(1) *Members of Congress.* Each Senator and each Member of the House of Representatives shall be furnished two copies, and is entitled to not more than 10 additional copies upon his written authorization to the Director of the Federal Register.

(2) *Congressional committees.* Each committee is entitled to the quantity needed for official use, upon the written request of the chairman of the committee, or his delegate, to the Director, for placement on the mailing list.

(3) *Supreme Court.* The Supreme Court is entitled to 18 copies.

(4) *Other courts.* Each other constitutional or legislative court is entitled to one copy, upon the written authorization of the Director of the Administrative Office of the U.S. Courts to the Director of the Federal Register.

(5) *Executive agencies.* The head of each executive agency and each liaison officer designated under § 16.1 or § 20.1 of this chapter is entitled to one copy.

(b) Legislative, judicial, and executive agencies of the Federal Government may obtain additional copies of the Manual, at cost, for official use by submission, before the press run, of a printing and binding requisition to the Government Printing Office on Standard Form 1. After the press run, each request for extra copies of the Manual must be addressed to the Superintendent of Documents, to be paid for by the agency or official making the request.

PART 10—PRESIDENTIAL PAPERS

Subpart A—Annual Volumes

Sec.
10.1 Publication required.
10.2 Coverage of prior years.
10.3 Scope and sources.
10.4 Format, indexes, and ancillaries.
10.5 Distribution to Government agencies.
10.6 Extra copies.

Subpart B—Weekly Compilation

10.10 Publication required.
10.11 Format and indexes.
10.12 Distribution to Government agencies.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

Subpart A—Annual Volumes

§ 10.1 Publication required.

The Director of the Federal Register shall publish, at the end of each calendar year, a special edition of the FEDERAL REGISTER called the "Public Papers of the Presidents of the United States." Unless the amount of material requires otherwise, each volume shall cover one calendar year.

§ 10.2 Coverage of prior years.

After consulting with the National Historical Publications Commission on the need therefor, the Administrative Committee may authorize the publication of volumes of papers of the Presidents covering specified years before 1957.

§ 10.3 Scope and sources.

(a) The basic text of each volume shall consist of oral statements by the President or of writings subscribed by him, and selected from—

(1) Communications to the Congress;
(2) Public addresses;
(3) Transcripts of news conferences;
(4) Public letters;
(5) Messages to heads of State;
(6) Statements released on miscellaneous subjects; and
(7) Formal executive documents promulgated in accordance with law.

(b) In general, ancillary text, notes, and tables shall be derived from official sources.

§ 10.4 Format, indexes, and ancillaries.

(a) Each annual volume, divided into books whenever appropriate, shall be separately published in the binding and style that the Administrative Committee considers suitable to the dignity of the Office of the President of the United States.

(b) Each volume shall be appropriately indexed and contain appropriate ancillary information respecting significant Presidential documents not printed in full text.

§ 10.5 Distribution to Government agencies.

(a) The Public Papers of the Presidents of the United States shall be distributed to the following, in the quantities indicated, without charge:

(1) *Members of Congress.* Each Senator and each Member of the House of Representatives is entitled to one copy of each annual volume published during his term of office, upon his written request to the Director of the Federal Register.

(2) *Supreme Court.* The Supreme Court is entitled to 12 copies of each annual volume.

(3) *Executive agencies.* The head of each executive agency is entitled to one copy of each annual volume upon application to the Director.

(b) Legislative, judicial, and executive agencies of the Federal Government may obtain copies of the annual volumes, at cost, for official use, by the timely submission of a printing and binding requisition to the Government Printing Office on Standard Form 1.

§ 10.6 Extra copies.

Each request for extra copies of the annual volumes must be addressed to the Superintendent of Documents, to be paid for by the agency or official making the request.

Subpart B—Weekly Compilation

§ 10.10 Publication required.

The Director of the Federal Register shall publish a special edition of the FEDERAL REGISTER called the "Weekly Compilation of Presidential Documents."

§ 10.11 Format and indexes.

(a) The Weekly Compilation shall be published in the binding and style that the Administrative Committee considers suitable for public and official use.

(b) The Director of the Federal Register shall provide indexes and any other finding aids that he considers appropriate for effective use.

§ 10.12 Distribution to Government agencies.

(a) The Weekly Compilation shall be distributed regularly to Members of the Senate and House of Representatives and to officials of the legislative, judicial, and executive branches of the Federal Government in the quantities needed for official use.

(b) Requests for copies shall be made in writing by the authorizing officer to the Director of the Federal Register.

(c) Special needs for selected issues in substantial quantity shall be filled by the timely submission of a printing and binding requisition to the Government Printing Office on Standard Form 1.

SUBCHAPTER D—PREPARATION, TRANSMITTAL, AND PROCESSING OF DOCUMENTS

PART 15—SERVICES TO FEDERAL AGENCIES

Subpart A—General

Sec.
15.1 Cooperation.
15.2 Information services.
15.3 Staff assistance.
15.4 Reproduction of certified copies of acts and documents.
15.5 Official subscriptions and requisitions of Federal Register publications.

Subpart B—Special Assistance

15.10 Information on drafting and publication.

Subpart C—Supplemental Printing and Editorial Services

15.15 Purpose.
15.16 Use of Federal Register standing type.
15.17 Special editorial service.
15.18 Supplemental loose-leaf services.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

Subpart A—General

§ 15.1 Cooperation.

The Director of the Federal Register shall assist each agency in complying with the pertinent publication laws to assure efficient public service in promulgating administrative documents having the effect of legal notice or of law.

§ 15.2 Information services.

The Director of the Federal Register shall provide for the answering of each appropriate inquiry presented in person, by telephone, or in writing. Each written communication and each matter involving classified material or the Administrative Committee shall be sent to the Director, Office of the Federal Register, National Archives and Records Service, Washington, DC 20408.

§ 15.3 Staff assistance.

The staff of the Office of the Federal Register shall provide informal assistance and advice to officials of the various agencies with respect to general or specific programs of regulatory drafting, procedures, and promulgation practices.

§ 15.4 Reproduction of certified copies of acts and documents.

The Director of the Federal Register shall furnish to requesting agencies, without charge, reproductions or certified copies of original acts and documents filed with that Office that are needed for official use. However, in a case involving voluminous material or numerous copies, the requesting agency may be required to reimburse the cost of reproduction.

§ 15.5 Official subscriptions and requisitions of Federal Register publications.

The following governs the availability of Federal Register publications for official use.

(a) *Slip laws.* Single copies may be obtained from the House or Senate Document Room, U.S. Congress. Quantity overruns of any slip law may be obtained by the timely submission of a requisition to the Government Printing Office on Standard Form 1.

(b) *U.S. Statutes at Large.* Written requests should be directed to the Joint Committee on Printing, United States Capitol, Washington, D.C. 20510. General provisions relating to the distribution of the U.S. Statutes at Large are set forth in section 728 of Title 44, United States Code.

(c) *Federal Register.* See §§ 7.1 to 7.6 of this chapter.

(d) *Code of Federal Regulations.* See § 8.8 of this chapter.

(e) *U.S. Government Organization Manual.* See § 9.3 of this chapter.

V37-214 NOV 4 72 XUM

(f) *Public Papers of the Presidents of the United States.* See §§ 10.5 and 10.6 of this chapter.

(g) *Weekly Compilation of Presidential Documents.* See § 10.12 of this chapter.

Subpart B—Special Assistance

§ 15.10 Information on drafting and publication.

The Director of the Federal Register may prepare, and distribute to agencies, information and instructions designed to promote effective compliance with the purposes of Chapter 15 of Title 44, United States Code, sections 553–554 of Title 5, United States Code, related statutes, and this chapter. The Director may also develop and conduct programs of technical instruction.

Subpart C—Supplemental Printing and Editorial Services

§ 15.15 Purpose.

The Director of the Federal Register may provide special services to agencies to promote efficiency and economy through the use of printing and editorial facilities developed in editing and publishing Federal Register publications.

§ 15.16 Use of Federal Register standing type.

Type used in printing the FEDERAL REGISTER is available for reuse by agencies in making reprints, on their own requisition, by submitting a printing and binding requisition on Standard Form 1 to the Office of the Federal Register for forwarding to the Government Printing Office.

§ 15.17 Special editorial service.

Upon written request by an appropriate agency official, the staff of the Office of the Federal Register may compile and collate Code units, as of a given date, to assist an issuing agency to prepare a document for publication in the FEDERAL REGISTER.

§ 15.18 Supplemental loose-leaf services.

The Director of the Federal Register may cooperate with agencies in developing supplemental loose-leaf services for special items in which the need would justify the cost.

PART 16—AGENCY REPRESENTATIVES

Sec.
16.1 Designation.
16.2 Liaison duties.
16.3 Certifying duties.
16.4 Authorizing duties.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 16.1 Designation.

(a) Each agency shall designate, from its officers or employees, persons to serve in the following capacities with relation to the Office of the Federal Register:

(1) A liaison officer and an alternate.

(2) A certifying officer and an alternate.

(3) An authorizing officer and an alternate.

The same person may be designated to serve in one or more of these positions.

(b) In choosing its liaison officer, each agency should consider that this officer will be the main contact between that agency and the Office of the Federal Register and that the liaison officer will be charged with the duties set forth in § 16.2. Therefore, the agency should choose a person who is directly involved in the agency's regulatory program.

(c) Each agency shall notify the Director of the name, title, address, and telephone number of each person it designates under this section and shall promptly notify the Director of any changes.

§ 16.2 Liaison duties.

Each liaison officer shall—

(a) Represent his agency in all matters relating to the submission of documents to the Office of the Federal Register, and respecting general compliance with this chapter;

(b) Be responsible for the effective distribution and use within his agency of FEDERAL REGISTER information on document drafting and publication assistance authorized by § 15.10 of this chapter; and

(c) Promote his agency's participation in the technical instruction authorized by § 15.10 of this chapter.

§ 16.3 Certifying duties.

The certifying officer is responsible for attaching the required number of true copies of each original document submitted by his agency to the Office of the Federal Register and for making the certification required by §§ 18.5 and 18.6 of this chapter.

§ 16.4 Authorizing duties.

The authorizing officer is responsible for furnishing, to the Director of the Federal Register, a current mailing list of officers or employees of his agency who are authorized to receive the FEDERAL REGISTER, the Code of Federal Regulations, and the Weekly Compilation of Presidential Documents for official use.

PART 17—PUBLICATION SCHEDULES

Sec.
17.1 Receipt and processing.

REGULAR SCHEDULE

17.2 Procedure and timing for regular schedule.

EMERGENCY SCHEDULE

17.3 Criteria for emergency schedule.
17.4 Procedure and timing for emergency schedule.
17.5 Transmittal from distant points.

DEFERRED SCHEDULE

17.6 Criteria.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 17.1 Receipt and processing.

Unless special arrangements are made with the Director of the Federal Register, the Office of the Federal Register receives documents only during official working hours. Upon receipt, each document shall be held for confidential processing until it is filed for public inspection.

REGULAR SCHEDULE

§ 17.2 Procedure and timing for regular schedule.

(a) Each document received shall be assigned to the regular schedule unless the issuing agency makes special arrangements otherwise. Receipt of a document in the ordinary course of business is considered to be a request for publication on the regular schedule.

(b) The regular schedule for publication is as follows:

Received	Filed	Published
Monday	Wednesday	Thursday.
Tuesday	Thursday	Friday.
Wednesday	Friday	Monday.
Thursday	Monday	Tuesday.
Friday	Tuesday	Wednesday.

Where a legal Federal holiday intervenes, one additional work day is added.

EMERGENCY SCHEDULE

§ 17.3 Criteria for emergency schedule.

The emergency schedule is designed to provide the fastest possible publication of a document involving the prevention, alleviation, control, or relief of an emergency situation.

§ 17.4 Procedure and timing for emergency schedule.

(a) Each agency requesting publication on the emergency schedule shall briefly describe the emergency and the benefits to be attributed to immediate publication in the FEDERAL REGISTER. The request shall be made by letter if time permits.

(b) The Director of the Federal Register shall assign a document to the emergency schedule whenever he concurs with a request for that action and it is feasible. The Director shall confirm the assignment as soon as possible.

(c) Each document assigned to the emergency schedule shall be published as soon as possible.

§ 17.5 Transmittal from distant points.

The text of a document assigned to the emergency schedule may be transmitted from a distant field installation to the Washington Office of the agency concerned by telecommunication. A certified transcription of the text may be filed in advance of receipt of the original document. The agency must file the original document at the earliest possible time. In such a case, the publication date is based on receipt of the certified transcribed copies by the Office of the Federal Register.

§ 17.6 Criteria.

A document may be assigned to the deferred schedule under the following conditions:

(a) There are technical problems, unusual tabulations, or illustrations, or the document is of such size as to require extraordinary processing time.

(b) The agency concerned requests a deferred publication date.

PART 18—PREPARATION AND TRANSMITTAL OF DOCUMENTS GENERALLY

Sec.
18.1 Original and copies required.
18.2 Prohibition on combined documents.
18.3 Submission of documents and letters of transmittal.
18.4 Form of document.
18.5 Certified copies.
18.6 Form of certification.
18.7 Signature.
18.8 Seal.
18.9 Style.
18.10 Illustrations and tabular material.
18.11 Forms.
18.12 Preamble requirements.
18.13 Withdrawal of filed documents.
18.14 Correction of errors in documents.
18.15 Correction of errors in printing.
18.16 Highlights.
18.17 Effective dates and time periods.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 18.1 Original and copies required.

(a) Except as provided in § 19.2 of this subchapter for Executive orders and proclamations, each agency submitting a document to be filed and published in the FEDERAL REGISTER shall send an original and two duplicate originals or certified copies. However, if the document is printed or processed on both sides, the agency shall send, in addition to the original, three duplicate originals or certified copies.

(b) In the case of a document issued outside of the District of Columbia, an agency may submit certified text in place of the original. However, it must replace the certified text with the original document as soon as practicable for filing as required by Chapter 15 of Title 44, United States Code.

§ 18.2 Prohibition on combined documents.

(a) The Director of the Federal Register may not accept a document for filing and publication if it combines material that must appear under more than one category in the FEDERAL REGISTER. For example, a document may not contain both rule making and notice of proposed rule making material.

(b) Where two related documents are to be published in the same FEDERAL REGISTER issue, the agency may arrange with the Office of the Federal Register for the insertion of cross-references in each document.

§ 18.3 Submission of documents and letters of transmittal.

(a) Each document authorized or required by law to be filed with the Office of the Federal Register, published in the FEDERAL REGISTER, or filed with the Administrative Committee shall be sent to the Director of the Federal Register.

(b) Except for cases involving special handling or treatment, there is no need for a letter of transmittal for a document submitted for filing and FEDERAL REGISTER publication.

§ 18.4 Form of document.

(a) Except as provided in paragraph (b) of this section, to be eligible for filing and publication in the FEDERAL REGISTER, a document must be typewritten on white bond paper approximately 8 by 10½ inches in size, double spaced, with a left-hand margin of approximately 1½ inches and a right-hand margin of approximately 1 inch.

(b) A printed or processed document may be accepted for filing and publication if it is suitable as an archival original. However, a photostatic copy may not be accepted as an original document.

(c) A document in the form of a letter may not be accepted for filing or publication in the rules and regulations, proposed rule making, or notices categories of the FEDERAL REGISTER.

§ 18.5 Certified copies.

(a) The certified copies or duplicate originals of each document must be attached to the original. Each copy or duplicate must be entirely clear and legible.

(b) Copies of a typewritten original may be the first two carbon copies of the ribbon original, positive photostats on paper with a matte surface, or electrostatic copies.

(c) Publication dates are determined at the time when clear and legible copies are received.

§ 18.6 Form of certification.

Each copy of each document submitted for filing and publication, except a Presidential document or a duplicate original, must be certified substantially as follows:

(Certified to be a true copy of the original)

signed by a certifying officer designated under § 16.1 of this chapter.

§ 18.7 Signature.

The original and each duplicate original document must be signed in ink, with the name and title of the official signing the document typed or stamped beneath his signature. Initialed or impressed signatures may not be accepted.

§ 18.8 Seal.

Use of a seal on an original document or certified copy is optional with the issuing agency.

§ 18.9 Style.

Each agency submitting a document for filing and publication shall prepare it in accordance with the following:

(a) Punctuation, capitalization, spelling, and other matters of style must conform, in general, to the current edition of the U.S. Government Printing Office Style Manual.

(b) The spelling of geographic names must conform to the decisions of the Board on Geographic Names, established by section 2 of the act of July 25, 1947, 61 Stat. 456 (43 U.S.C. 364a).

(c) Descriptions of land must conform, so far as practicable, to the current edition of the "Specifications for Descriptions of Tracts of Land for Use in Executive Orders and Proclamations" prepared by the Bureau of Land Management, Department of the Interior.

§ 18.10 Illustrations and tabular material.

(a) An original drawing, or a clear reproduction, of each map, chart, graph, or other illustration that is found to be a necessary part of a document to be filed and published may be accepted only after submission to the Director of the Federal Register at least 6 working days before the date on which publication is desired.

(b) A clear and legible reproduction of the original illustration, approximately 8 by 10½ inches, shall be included in the original document and each certified copy.

(c) Tabular material consisting of more than two typewritten pages that is to be a part of a document to be filed and published shall be submitted to the Director at least 6 working days before the date on which publication is desired.

§ 18.11 Forms.

Except when considered necessary by the Director of the Federal Register, tabulated blank forms for applications, registrations, reports, contracts, and similar items, and the instructions for preparing the forms, may not be published in full. In place thereof, the agency concerned shall submit for publication a simple statement describing the purpose and use of each form and stating the places at which copies may be obtained.

§ 18.12 Preamble requirements.

Each notice of proposed rule making and final rule making document shall conform to the following:

(a) There must be a clear preamble statement that describes the contents of the document in a manner sufficient to apprise a reader, who is not an expert in the subject area, of the general subject matter of the rule making document.

(b) To the extent practicable, the preamble statement for a proposed rule making document should also discuss the major issues involved in, and the reasons for, the proposed rules.

(c) To the extent practicable, the preamble statement for a rule or regulation that was preceded by a notice of proposed rule making, should also indicate in general terms the principal differences, if any, between the rules as proposed and the rules as adopted.

§ 18.13 Withdrawal of filed documents.

A document that has been filed with the Office of the Federal Register and placed on public inspection as required by this chapter, may be withdrawn from publication by the submitting agency only by a timely written instrument revoking that document, signed by a duly authorized representative of the agency. Both the original and the revoking document shall remain on file.

V 37 - 214 NOV 4 72 XUM

§ 18.14 Correction of errors in documents.

After a document has been filed for public inspection and publication, a substantive error in the text may be corrected only by the filing of another document effecting the correction.

§ 18.15 Correction of errors in printing.

Typographical or clerical errors made in the printing of the FEDERAL REGISTER shall be corrected by insertion of an appropriate notation or a reprinting in the FEDERAL REGISTER published without further agency documentation, if the Director of the Federal Register determines that—

(a) The error would tend to confuse or mislead the reader; or

(b) The error would affect text subject to codification.

§ 18.16 Highlights.

(a) Except as provided in paragraph (b) of this section, each agency which submits a document for publication in the FEDERAL REGISTER shall furnish with the document two copies of a descriptive catchword or phrase and a brief statement that:

(1) Names the agency issuing the document;

(2) Identifies the principal subject of the document; and

(3) States any important dates, such as closing date for comments, hearing date, or effective date.

The language of the statement submitted under this section and the headings required by Parts 17 and 22 of this chapter may be the same whenever appropriate. The following are examples of the kinds of statements intended by this requirement:

DETERGENTS—Proposed FTC labeling and advertising requirements for synthetic detergents—comment period ends 4–19–72; public hearing 4–26–72.

COAL MINE SAFETY—Interior Department procedures to assess civil penalties for violations—effective 1–16–73.

(b) A statement need not be submitted with a document that is making nonsubstantive changes that are corrective or editorial in nature. The Director of the Federal Register may grant additional exceptions to the requirements of this section. The Director shall publish once each month in the FEDERAL REGISTER a list of the classes of documents exempted under this section during the preceding month, stating the agency involved and the document or class of documents.

(c) Selected statements submitted under this section shall be included in a highlights listing which will be printed in a prominent place in the daily FEDERAL REGISTER. The Director shall exercise final editorial control over the wording of each statement and make the final determination as to its inclusion in the highlights listing.

(d) Neither failure to submit a statement under this section, nor failure to print such a statement in the highlights listing in the FEDERAL REGISTER affects the legal status of a document printed in the FEDERAL REGISTER. Highlights listings printed in the FEDERAL REGISTER are intended solely to serve as an aid to readers and the wording of a listed item is not intended to interpret the language of the document. FEDERAL REGISTER readers should continue to use the Table of Contents to identify the documents published in each issue and the text of a document to determine its legal effect.

§ 18.17 Effective dates and time periods.

(a) Whenever practicable, each document submitted for publication in the FEDERAL REGISTER should set forth dates certain. Thus, a document should state "all comments received before July 3, 1972, will be considered" or "this amendment takes effect July 3, 1972," rather than stating a time period measured by a certain number of days after publication in the FEDERAL REGISTER. Where a document does contain a time period rather than a date certain, the FEDERAL REGISTER staff will insert a date certain to be computed as set forth in paragraph (b) of this section.

(b) Dates certain will be computed by counting the day after the publication day as one, and by counting each succeeding day, including Saturdays, Sundays, and holidays. However, where the final count would fall on a Saturday, Sunday, or holiday, the date certain will be the next succeeding Federal business day.

PART 19—EXECUTIVE ORDERS AND PRESIDENTIAL PROCLAMATIONS

Sec.
19.1 Form.
19.2 Routing and approval of drafts.
19.3 Routing and certification of originals and copies.
19.4 Proclamations calling for the observance of special days or events.
19.5 Proclamations of treaties excluded.
19.6 Definition.

NOTE: The provisions of this Part 19 derived from sections 1 to 6 of Executive Order 11030, 27 FR 5847, 3 CFR 1959–1963 Comp., p. 610, and E.O. 11354, 32 FR 7895, 1966–1970 Comp., p. 652.

§ 19.1 Form.

Proposed Executive orders and proclamations shall be prepared in accordance with the following requirements:

(a) The order or proclamation shall be given a suitable title.

(b) The order or proclamation shall contain a citation of the authority under which it is issued.

(c) Punctuation, capitalization, spelling, and other matters of style shall, in general, conform to the most recent edition of the U.S. Government Printing Office Style Manual.

(d) The spelling of geographic names shall conform to the decisions of the Board on Geographic Names, established by section 2 of the act of July 25, 1947, 61 Stat. 456 (43 U.S.C. 364a).

(e) Descriptions of tracts of land shall conform, so far as practicable, to the most recent edition of the "Specifications for Descriptions of Tracts of Land for Use in Executive Orders and Proclamations," prepared by the Bureau of Land Management, Department of the Interior.

(f) Proposed Executive orders and proclamations shall be typewritten on paper approximately 8 x 13 inches, shall have a left-hand margin of approximately 1½ inches and a right-hand margin of approximately 1 inch, and shall be double-spaced except that quotations, tabulations, and descriptions of land may be single-spaced.

(g) Proclamations issued by the President shall conclude with the following-described recitation:

IN WITNESS WHEREOF, I have hereunto set my hand this ____ day of _____, in the year of our Lord _____, and of the Independence of the United States of America the _____.

§ 19.2 Routing and approval of drafts.

(a) A proposed Executive order or proclamation shall first be submitted, with seven copies thereof, to the Director of the Office of Management and Budget, together with a letter, signed by the head or other properly authorized officer of the originating Federal agency, explaining the nature, purpose, background, and effect of the proposed Executive order or proclamation and its relationship, if any, to pertinent laws and other Executive orders or proclamations.

(b) If the Director of the Office of Management and Budget approves the proposed Executive order or proclamation, he shall transmit it to the Attorney General for his consideration as to both form and legality.

(c) If the Attorney General approves the proposed Executive order or proclamation, he shall transmit it to the Director of the Office of the Federal Register, National Archives and Records Service, General Services Administration: *Provided*, That in cases involving sufficient urgency the Attorney General may transmit it directly to the President: *And provided further*, That the authority vested in the Attorney General by this section may be delegated by him, in whole or in part, to the Deputy Attorney General, Solicitor General, or to such Assistant Attorney General as he may designate.

(d) After determining that the proposed Executive order or proclamation conforms to the requirements of § 19.1 and is free from typographical or clerical error, the Director of the Office of the Federal Register shall transmit it and three copies thereof to the President.

(e) If the proposed Executive order or proclamation is disapproved by the Director of the Office of Management and Budget or by the Attorney General, it shall not thereafter be presented to the President unless it is accompanied by a statement of the reasons for such disapproval.

§ 19.3 Routing and certification of originals and copies.

(a) If the order or proclamation is signed by the President, the original and two copies shall be forwarded to the Director of the Federal Register for publication in the FEDERAL REGISTER.

(b) The Office of the Federal Register shall cause to be placed upon the copies of all Executive orders and proclamations forwarded as provided in paragraph (a) of this section the following notation, to be signed by the Director or by some person authorized by him to sign such notation: "Certified to be a true copy of the original."

§ 19.4 Proclamations calling for the observance of special days or events.

Except as may be otherwise provided by law, responsibility for the preparation and presentation of proposed proclamations calling for the observance of special days, or other periods of time, or events, shall be assigned by the Director of the Office of Management and Budget to such agencies as he may consider appropriate. Such proposed proclamations shall be submitted to the Director at least 60 days before the date of the specified observance.

§ 19.5 Proclamations of treaties excluded.

Consonant with the provisions of Chapter 15 of Title 5 of the United States Code (44 U.S.C. 1511), nothing in these regulations shall be construed to apply to treaties, conventions, protocols, or other international agreements, or proclamations thereof by the President.

§ 19.6 Definition.

The term "Presidential proclamations and Executive orders," as used in Chapter 15 of Title 5 of the United States Code (44 U.S.C. 1505(a)), shall, except as the President or his representative may hereafter otherwise direct, be deemed to include such attachments thereto as are referred to in the respective proclamations or orders.

PART 20—HANDLING OF UNITED STATES GOVERNMENT ORGANIZATION MANUAL STATEMENTS

Sec.
20.1 Liaison officers.
20.2 Preparation of agency statements.
20.3 Organization.
20.4 Description of program activities.
20.5 Sources of information.
20.6 Form, style, arrangement, and apportionment of space.
20.7 Deadline dates.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

§ 20.1 Liaison officers.

Each of the following shall appoint an officer to maintain liaison with the Office on matters relating to the United States Government Organization Manual:

(a) Agencies of the legislative and judicial branches.

(b) Executive agencies that do not have a liaison officer designated under § 16.1 of this chapter or who wish to appoint a liaison officer for Manual matters other than the one designated under such § 16.1.

(c) Quasi-official agencies represented in the Manual.

(d) Any other agency that the Director believes should be included in the Manual.

Each liaison officer will insure his agency's compliance with Part 9 of this chapter and this Part 20.

§ 20.2 Preparation of agency statements.

In accordance with schedules established under § 20.7 each agency shall submit for publication in the Manual an official draft of the information required by § 9.2 of this chapter and this Part 20.

§ 20.3 Organization.

(a) Information about lines of authority and organization may be reflected in a chart if the chart clearly delineates the agency's organizational structure. Charts must be submitted in duplicate in the form of clear prints suitable for photographing. Charts should be prepared so as to be perfectly legible when reduced to the size of a Manual page. Charts that do not meet this requirement will not be included in the Manual.

(b) Listings of heads of operating units should be arranged wherever possible to reflect relationships between units.

(c) Verbal descriptions of organization that duplicate information conveyed by charts or by lists of officials will not be published in the Manual.

§ 20.4 Description of program activities.

Descriptions should state clearly the public purposes that the agency serves, and the programs that carry out those purposes. Detailed descriptions of the responsibilities of individuals will not be accepted for publication in the Manual.

§ 20.5 Sources of information.

Pertinent sources of information useful to the public, in areas of public interest such as employment, consumer activities, contracts, services to small business, and other topics of public interest should be provided with each agency statement. These sources of information shall plainly identify the places at which the public may obtain information or make submittals or requests.

§ 20.6 Form, style, arrangement and apportionment of space.

The form, style, and arrangement of agency statements and other material included in the Manual and the apportionment of space therein shall be determined by the Director of the Federal Register. The U.S. Government Printing Office Style Manual is the applicable reference work in determining style.

§ 20.7 Deadline dates.

The Manual is published on a schedule designed to provide the public with information about their Government on a timely basis. Therefore, agencies must comply with the deadline dates established by the Director of the Federal Register for transmittal of statements and charts and for the verification of proofs. Failure to do so may result in publication of an outdated statement or the omission of important material, thus depriving members of the public of information they have a right to expect in a particular edition of the Manual.

Subpart A—General

§ 21.1 Drafting.

(a) Each agency that prepares a document that is subject to codification shall draft it as an amendment to the

V 37 - 214 NOV 4 72 XUM

Code of Federal Regulations, in accordance with this subchapter, before submitting it to the Office of the Federal Register.

(b) The agency shall place a promulgation statement in the document precisely describing the relationship of the new provisions to the Code.

§§ 21.2, 21.3 [Reserved]

§ 21.4 Descriptions of organization.

The Director of the Federal Register may designate documents submitted under section 552(a)(1)(A) of Title 5, United States Code, as "documents subject to codification" under special agreement with the issuing agency. The agreement must be in writing, signed by the head of the agency, or his designee, and stating that—

(a) Publication in the Code is necessary or desirable for the effective discharge of the agency's functions or activities; and

(b) Publication in the Code may be discontinued by the Administrative Committee for failure of the agency to keep publication current.

§ 21.5 Separate documents for each title and chapter amended.

Whenever an agency is taking an action that will amend more than one title, or more than one chapter, of the Code of Federal Regulations, it shall prepare a separate document for each title and each chapter that is to be amended.

§ 21.6 Notice of expiration of codified material.

(a) Whenever a document subject to codification expires after a specified period by its own terms or by law, the issuing agency shall submit a notification by document for puolication in the FEDERAL REGISTER.

(b) If the preparation of the document is not practicable, the agency shall send a timely notice, in writing, to the Director of the Federal Register, stating that the document is no longer in effect, citing the pertinent terms.

CODE STRUCTURE

§ 21.7 Titles and subtitles.

(a) The major divisions of the Code are titles, each of which brings together broadly related Government functions.

(b) Subtitles may be used to distinguish between materials emanating from an overall agency and the material issued by its various components. Subtitles may also be used to group chapters within a title.

§ 21.8 Chapters and subchapters.

(a) The normal divisions of a title are chapters, assigned to the various agencies within a title descriptive of the subject matter covered by the agencies' regulations.

(b) Subchapters may be used to group related parts within a chapter.

§ 21.9 Parts, subparts, and undesignated center heads.

(a) The normal divisions of a chapter are parts, consisting of a unified body of regulations applying to a specific function of an issuing agency or devoted to specific subject matter under the control of that agency.

(b) Subparts or undesignated center heads may be used to group related sections within a part. Undesignated center heads may also be used to group sections within a subpart.

§ 21.10 Sections.

(a) The normal divisions of a part are sections. Sections are the basic units of the Code.

(b) When internal division is necessary, a section may be divided into paragraphs, and paragraphs may be further subdivided using the lettering indicated in § 21.11.

NUMBERING

§ 21.11 Divisions of the Code of Federal Regulations.

(a) Titles are numbered consecutively in Arabic throughout the Code.

(b) Subtitles are lettered consecutively in capitals throughout the title.

(c) Chapters are numbered consecutively in Roman capitals throughout each title.

(d) Subchapters are lettered consecutively in capitals throughout the chapter.

(e) Parts are numbered in Arabic throughout each title.

(f) Subparts may be lettered in capitals or be undesignated.

(g) Sections are numbered in Arabic throughout each part. A section number includes the number of the part followed by a decimal point and the number of the section. For example, the section number for section 15 of Part 21 is "§ 21.15".

(h) The lettering for divisions of a section is as follows:

Division	*Illustrative lettering*
Paragraph	(a), (b), etc.
Further subdivision of a paragraph.	(1), (2), etc. (i), (ii), etc. (A), (B), etc. (*i*), (*2*), etc. (*i*), (*ii*), etc.

§ 21.12 Reservation of numbers.

In a case where related parts or related sections are grouped under a heading, numbers shall be reserved at the end of each group to allow for expansion.

§ 21.13 Addition of new units between existing units.

(a) Whenever it is necessary to introduce a new part or section between existing consecutive parts or sections, the new part or section shall be designated by the addition of a lower case letter to the number of the preceding part or section. For example, a part inserted between Parts 31 and 32 is numbered "31a", and a section inserted between § 31.1 and § 31.2 is numbered "§ 31.1a".

(b) Whenever it is necessary to insert a paragraph between existing consecutive paragraphs, and revision of the entire paragraph is not desired, the new paragraph shall be designated by the addition of a hyphen and an Arabic number to the letter designating the preceding paragraph. For example, a paragraph inserted between paragraph (a) and (b) is designated "(a–1)".

§ 21.14 Keying to agency numbering systems.

The Director of the Federal Register may allow the keying of section numbers to correspond to a particular numbering system used by an agency only when, in his opinion, the keying will benefit both that agency and the public.

§ 21.15 Statements of policy and interpretations.

(a) Whenever a statement of general policy or an interpretation, submitted pursuant to section 552(a)(1)(D) of Title 5, United States Code, applies to an entire part, it shall be included in or appended to that part.

(b) Whenever a statement of general policy or an interpretation applies to a specific section it shall be appended to that section.

(c) Statements of policy and interpretations that are broader in scope than those covered by paragraphs (a) and (b) of this section shall be assigned to a part or group of parts within the chapter affected.

HEADINGS

§ 21.16 Required Code headings.

(a) The title, chapter, and part headings, in that order, shall be set forth in full on separate lines at the beginning of each document. Subtitle, subchapter, and subpart headings shall, if applicable, also be set forth.

(b) Each section shall have a brief descriptive heading, preceding the text, on a separate line.

§ 21.17 Additional captions.

(a) For the purpose of publication in the FEDERAL REGISTER, a brief caption more specifically describing the scope of a document constituting a partial amendment of the material in a part shall be provided immediately below the part heading.

(b) An agency that uses regulation numbers or other identifying symbols shall place them in brackets centered immediately above the part heading.

§ 21.18 Tables of contents.

A table of contents shall be used at the beginning of the part whenever a new part is introduced, an existing part is completely revised, or a group of sections is revised or added and set forth as a subpart or otherwise separately grouped under a center head. The table shall follow the part heading and precede the text of the regulations in that part. It shall also list the headings for the subparts, undesignated center headings, and sections in the part.

§ 21.19 Composition of part headings.

Each part heading shall indicate briefly the general subject matter of the part. Phrases such as "Regulations under the Act of July 28, 1955" or other expressions that are not descriptive of the subject matter may not be used. Introductory expressions such as "Regulations governing" and "Rules applicable to" may not be used.

AMENDMENTS

§ 21.20 General requirements.

(a) Each amendatory document shall identify in specific terms the unit amended, and the extent of the changes made.

(b) The number and heading of each section amended shall be set forth in full on a separate line.

REFERENCES

§ 21.21 General requirements.

(a) Each reference to the Code of Federal Regulations shall be in terms of the specific titles, chapters, parts, sections, and paragraphs involved. Ambiguous references such as "herein", "above", "below", and similar expressions may not be used.

(b) Each document that contains a reference to material published in the Code shall include the Code citation as a part of the reference.

§ 21.22 References between or within titles.

Unless the meaning is otherwise precisely expressed and an undue or awkward repetition would result, the following references shall be used:

(a) *Between titles.* When reference is made to material codified in a title other than that in which the reference occurs, the short form of citation shall be used. For example, a reference within Title 41 to § 2.4 of Title 1 is "1 CFR 2.4".

(b) *Within titles.* When reference is made to material codified in the same title, the following forms shall be used, as appropriate:

Chapter ------ of this title.
Part ------ of this title.
§ ------ of this title.

(c) *Within chapters.* When reference is made to material codified in the same chapter, the following forms shall be used, as appropriate:

Part ------ of this chapter.
§ ------ of this chapter.

(d) *Within sections.* When reference is made to material codified in the same section, the following forms shall be used, as appropriate:

Paragraph (------) of this section.

§ 21.23 Parallel citations of Code and Federal Register.

For parallel reference, the Code of Federal Regulations and the FEDERAL REGISTER may be cited in the following forms, as appropriate:

------ CFR ------ (------ FR ------).
§ ------ of this chapter (------ FR ------).

§ 21.24 References to 1938 edition of Code.

When reference is made to material codified in the 1938 edition of the Code of Federal Regulations, or a supplement thereto, the following forms may be used, as appropriate:

------ CFR, 1938 Ed., ------.
------ CFR, 1943, Cum. Supp., ------.
------ CFR, 1946 Supp., ------.

EFFECTIVE DATE STATEMENT

§ 21.30 General.

Each document subject to codification shall include a clear statement as to the date or dates upon which its contents become effective.

Subpart B—Citations of Authority

§ 21.40 General requirements.

(a) Each section in a document subject to codification shall include, or be covered by, a complete citation of the authority under which the section is issued, including—

(1) General or specific authority delegated by statute; and

(2) Executive delegations, if any, necessary to link the statutory authority to the issuing agency.

§ 21.41 Agency responsibility.

(a) Each issuing agency is responsible for the accuracy and integrity of the citations of authority in the documents it issues.

(b) Each issuing agency shall formally amend the citations of authority in its codified material to reflect any changes therein.

§ 21.42 Exceptions.

The Director of the Federal Register may make exceptions to the requirements of this subpart relating to placement and form of citations of authority whenever he determines that strict application would impair the practical use of the citations.

PLACEMENT

§ 21.43 Coverage.

(a) *Single section.* Authority covering a single section shall be cited in parentheses on a separate line immediately following the text of the section. For example:

(Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654))

(b) *Blanket coverage.* Authority covering two or more consecutive sections shall be cited following the word "AUTHORITY" and placed as a text note immediately preceding the first section of the group. For example:

AUTHORITY: Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654).

(c) *Combined blanket and separate coverage.* Whenever individual sections within a group covered by a blanket citation reflect additional authority, a combined form shall be used. For example:

AUTHORITY: Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654), unless otherwise noted.

(d) *Combined blanket coverage.* Whenever a group of two or more consecutive sections within a broader group covered by a blanket citation reflects the same additional authority, a combined blanket citation shall be used. For example:

AUTHORITY: Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654). §§ 7.1 to 7.11 also issued under sec. 313, Pub. L. 85–726, 72 Stat. 752 (49 U.S.C. 1354).

§ 21.44 Documents involving various amendments.

(a) Whenever a document prescribes several amendments issued under common authority, the citation to that authority shall be placed in parentheses on a separate line after the last amendment.

(b) Whenever a document prescribes several amendments issued under varying authorities, each amendment shall be followed by the appropriate citation in parentheses on a separate line.

§ 21.45 Nonstatutory authority.

Citation to a document as authority shall be placed after the statutory citations. For example:

AUTHORITY: Sec. 9, Pub. L. 89–670, 80 Stat. 944 (49 U.S.C. 1657). E.O. 11222, 30 FR 6469, 3 CFR 1965 Comp.

FORM

§ 21.51 General.

(a) Formal citations of authority shall be in the shortest form compatible with positive identification and ready reference.

(b) The Office of the Federal Register shall assist agencies in developing model citations.

§ 21.52 Statutory materials.

(a) *Public laws.* Citations to current public laws shall include reference to the volume and page of the U.S. Statutes at Large to which they have been assigned. For example:

Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654)

(b) *U.S. Statutes at Large.* Citations to the U.S. Statutes at Large shall refer to section, page, and volume. The page number should refer to the page on which the section cited begins. If the cited material is contained in a title of the United States Code that has not been positively enacted, the parallel United States Code citation shall also be given. For example:

Sec. 5, Pub. L. 89–670, 80 Stat. 935 (49 U.S.C. 1654); sec. 313, Pub. L. 85–726, 72 Stat. 752 (49 U.S.C. 1354)

(c) *Positive law titles of the United States Code.* Citations to titles of the United States Code that have been enacted into positive law (such as 1, 5, 10, etc.) shall be cited as follows, without public law or U.S. Statutes at Large citation:

10 U.S.C. 501.

§ 21.53 Nonstatutory materials.

Nonstatutory documents shall be cited by document designation and by FEDERAL REGISTER volume and page, followed, if possible, by the parallel citation to the Code of Federal Regulations. For example:

Special Civil Air Reg. SR–422A, 28 FR 6703, 14 CFR Part 4b. E.O. 11130, 28 FR 12789; 3 CFR 1959–1963 Comp.

V 37-214 NOV 4 72 XUM

PART 22—PREPARATION OF NOTICES AND RULE MAKING PROPOSALS

NOTICES IN GENERAL

Sec.
22.1 Name of issuing agency and subdivision.
22.2 Authority citation.

NOTICES OF PROPOSED RULE MAKING

22.5 General requirements.
22.6 Code designation.
22.7 Codification.

AUTHORITY: 44 U.S.C. 1506; sec. 6, E.O. 10530, 19 FR 2709; 3 CFR 1954–1958 Comp. p. 189.

NOTICES IN GENERAL

§ 22.1 Name of issuing agency and subdivision.

(a) The name of the agency issuing a notice shall be placed at the beginning of the document.

(b) Whenever a specific bureau, service, or similar unit within an agency issues a notice, the name of that bureau, service, or unit shall be placed on a separate line below the name of the agency.

(c) An agency that uses file numbers, docket numbers, or similar identifying symbols shall place them in brackets immediately below the other headings required by this section.

(d) A suitable short title identifying the subject shall be provided beginning on a separate line immediately after the other required caption or captions. Whenever appropriate, an additional brief caption indicating the nature of the document shall be used.

§ 22.2 Authority citation.

The authority under which an agency issues a notice shall be cited in narrative form within text or in parentheses on a separate line following text.

NOTICES OF PROPOSED RULE MAKING

§ 22.5 General requirements.

Each notice of proposed rule making required by section 553 of title 5, United States Code, or any other statute, and any similar notice voluntarily issued by an agency shall include a statement of—

(a) The time, place, and nature of public rule making proceedings; and

(b) Reference to the authority under which the regulatory action is proposed.

§ 22.6 Code designation.

The area of the Code of Federal Regulations directly affected by a proposed regulatory action shall be identified by placing the appropriate CFR citation in brackets immediately below the name of the issuing agency. For example:

[1 CFR Part 22]

§ 22.7 Codification.

Any part of a notice of proposed rule making document that contains the full text of a proposed regulation shall also conform to the pertinent provisions of Part 21 of this chapter.

[FR Doc.72-18989 Filed 11-3-72;8:51 am]

Chapter II—Office of the Federal Register

PART 51—INCORPORATION BY REFERENCE

The purpose of this amendment is to adopt a revised regulation governing the incorporation by reference of material outside the Code of Federal Regulations in Federal Register documents. This amendment is based on a notice of proposed rule making published in the FEDERAL REGISTER on April 4, 1972 (37 F.R. 6805).

Several of the commenters expressed general opposition to the use of "incorporation by reference" in Federal Register documents and recommended against adoption of proposed Part 51. With respect to these comments, it should be pointed out that specific congressional authority for the use of incorporation by reference has existed since 1967 (5 U.S.C. 552(a)) and that proposed Part 51 is for the most part a revision of 1 CFR Part 20, which was originally adopted the same year. Thus, adoption of Part 51 is not an invitation to increased usage of incorporation by reference. Actually, as was discussed in the notice of proposed rule making, in several respects revised Part 51 imposes more restrictions and places more control in the Director of the Federal Register than did the previous regulations.

One commenter suggested that the proposed regulations appear to apply to notice of proposed rule making documents although 5 U.S.C. 552(a) applies only to final rule making documents. To clarify this, a new paragraph (e) has been added to § 51.1. This new provision also encourages agencies to consult with the office of the Federal Register with respect to the requirements of Part 51 before submission of proposed rule making documents. In this way agencies can avoid problems that might surface after a document has gone through notice and public comment.

Another commenter pointed out that the use of incorporation by reference in a proposed rule making document can affect the reasonableness of the time period for public comment. This commenter made the valid point that sometimes it takes weeks to obtain a technical document proposed to be incorporated by reference and that little time may be left for review and submission of comments. While this comment is outside the scope of the proposed regulation, agencies are urged to consider this factor in establishing the comment period.

One commenter pointed out that, as proposed, § 51.10(c) would require the republication of a document or a portion thereof, whenever a document containing an incorporation by reference is published in the FEDERAL REGISTER without the Director's advance approval. The commenter suggested that a more flexible approach might be warranted since the incorporation by reference might well be one that the Director would be willing to approve after publication and that in such a case republication would serve no useful purpose. Section 51.10(c) has been rewritten to make it clear that the mere publication in the FEDERAL REGISTER of a document containing an incorporation by reference is not of itself approval by the Director of that incorporation. In such a situation, the Director will review the document after publication and the proper corrective action can be worked out between the agency and the Director.

In consideration of the foregoing, and after considering all relevant comments received, Part 51 is adopted as proposed with the following changes:

1. A new paragraph (e) is added to § 51.1.
2. A new paragraph (c) is added to § 51.10.
3. Section 51.12 is revised.

Effective date. This amendment is effective January 2, 1973.

FRED J. EMERY,
Director of the Federal Register.

AUTHORITY: The provisions of this Part 51 issued under 5 U.S.C. 552(a).

GENERAL

§ 51.1 Policy.

(a) Section 552(a) of Title 5, United States Code, provides, in part, that "matter reasonably available to the class of persons affected thereby is deemed published in the FEDERAL REGISTER when incorporated by reference therein with the approval of the Director of the Federal Register."

(b) The Director will strictly interpret the language quoted in paragraph (a) of this section to provide fairness and uniformity in administrative proceedings involving publication in the FEDERAL REGISTER.

(c) The Director will interpret and apply the language quoted in paragraph (a) of this section with full regard to the significance of related instruments governing publication in the FEDERAL REGISTER and the Code of Federal Regulations. Related instruments include—

(1) Subchapter II of Chapter 5 of Title 5, United States Code;

(2) Chapter 15 of Title 44, United States Code;

(3) Chapter I of this title; and

(4) Special statutory provisions listed in appendix B to Chapter I of this title, that require publication in the FEDERAL REGISTER.

(d) The Director will assume that the language quoted in paragraph (a) of this section is—

(1) Designed to cover the limited purposes of section 552(a) of title 5, United States Code;

(2) Intended to benefit both the Federal Government and the members of the classes affected by reducing the volume of matter printed in the FEDERAL REGISTER; and

(3) Not intended to detract from the legal or practical attributes of the system established under the basic instruments listed in paragraph (c) of this section.

(e) While the requirements of 5 U.S.C. 552(a) and of this part apply to a final rule making document, issuing agencies are encouraged to consult the Office of the Federal Register with respect to the requirements of this part before submitting for publication a notice of proposed rule making document that contains an incorporation by reference.

§ 51.2 Matter eligible.

To be eligible for incorporation by reference, under section 552(a) of Title 5, United States Code, in a document to be published in the FEDERAL REGISTER, material must conform to the policy stated in § 51.1 and be in the nature of published data, criteria, standards, specifications, techniques, illustrations, or other published information reasonably available to the members of the class that would be affected by the publication.

§ 51.3 Distinctions.

(a) *Ordinary references.* For the purposes of this part, informational references and cross references that do not purport to incorporate outside matter within a FEDERAL REGISTER document are not considered to be legal incorporations by reference under section 552(a) of Title 5, United States Code.

(b) *Regulations governing availability of agency issuances.* Regulations governing the availability of agency issuances are not considered to be legal incorporation by reference under section 552(a) of Title 5, United States Code.

§ 51.4 Elements on which approval may be based.

The Director of the Federal Register will approve an incorporation by reference only when the following considerations are favorable and reasonably stable:

(a) The matter is eligible.

(b) Incorporation will substantially reduce the volume of material published in the FEDERAL REGISTER.

(c) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(d) The incorporating document is drafted and submitted for publication in accordance with this part.

§ 51.5 Filing.

Copies of material approved for incorporation by reference including copies of all amendments or revisions to that material, shall be filed with the Office of the Federal Register.

DRAFTING STANDARDS

§ 51.6 Language of incorporation.

(a) The language incorporating material by reference shall be as precise and complete as possible.

(b) The words expressing the incorporation shall make it clear that the incorporation by reference is intended and completed by the document in which it appears.

§ 51.7 Identification and description.

(a) Each incorporation by reference shall include an identification and subject description of the matter incorporated, in terms as precise and useful as practicable within the limits of reasonable brevity.

(b) Titles, dates, editions, numbers, authors, and publishers shall be stated whenever they would contribute to clear identification.

(c) A brief subject description shall be included to inform the user of his potential need to obtain the matter incorporated.

§ 51.8 Statement of availability.

(a) *Information.* Each incorporation by reference shall include a statement covering the availability of the material incorporated, including current information as to where and how copies of it may be examined and be readily obtained with maximum convenience to the user.

(b) *Official showing.* Inclusion of the statement required by paragraph (a) of this section constitutes an official showing by the issuing agency that the material incorporated is, in fact, reasonably available to the class of persons affected.

(c) *Future amendments or revisions.* In any case in which incorporated material will be subject to change, the statement required by paragraph (a) of this section shall set forth that information. However, the incorporation of material in a FEDERAL REGISTER document by reference is limited to the material as it exists on the effective date of the document. Future amendments or revisions of material incorporated by reference are not included. They may be added as they become available, or at any later time, by the issuance of an amendatory document. Separate approval of the Director of the incorporation of each amendment whose original incorporation was approved need not be obtained if all other requirements of this part are met.

PUBLICATION PROCEDURES

§ 51.10 Advance consultation.

(a) To avoid delay, each issuing agency shall consult in advance with the Director of the Federal Register regarding the approval of any specific incorporation by reference. The consultation should take place at least 10 working days before the proposed date of submission of the document.

(b) After completion of the consultation, the Director will notify the agency of his decision, at least 5 working days before the proposed date of submission of the document.

(c) Publication in the FEDERAL REGISTER of a document containing an incorporation by reference does not, of itself, constitute approval by the Director of the incorporation by reference.

§ 51.11 Letter transmitting final document.

Each agency submitting a document under this part shall send with it a letter of transmittal covering the matter of incorporation by reference and referring specifically to the advance consultation.

§ 51.12 Stamp of approval.

(a) Whenever the Director of the Federal Register accepts a document under this part a statement will be printed in the FEDERAL REGISTER as part of the document substantially as follows:

Incorporation by reference provisions approved by the Director of the Federal Register ----------

CODE OF FEDERAL REGULATIONS

(Revised as of October 1, 1972)

Title 6—Economic Stabilization $3.00

[A Cumulative checklist of CFR issuances for 1972 appears in the first issue of the Federal Register each month under Title 1]

Order from Superintendent of Documents,
United States Government Printing Office,
Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

COAL MINER HEALTH—
Interior Dept. proposes frequent dust samplings and improved asbestos standards; comments within 45 days 23645
Interior Dept. empowers its engineers to survey dust conditions in working areas 23654

PART 213—EXCEPTED SERVICE

Executive Office of the President

Section 213.3303 is amended to show that one additional position of confidential secretary to the Director, Special Action Office for Drug Abuse Prevention, is excepted under Schedule C.

Effective on publication in the FEDERAL REGISTER (11–7–72), subparagraph (1) of paragraph (j) of § 213.3303 is amended as set out below.

§ 213.3303 Executive Office of the President.

• • • • • •

(j) *Special Action Office for Drug Abuse Prevention.* (1) Three confidential secretaries to the Director.

• • • • • •

(5 U.S.C. 3301, 3302, E.O. 10577; 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.72–19045 Filed 11–6–72;8:51 am]

PART 213—EXCEPTED SERVICE

Department of Health, Education, and Welfare

Section 213.3316 is amended to show that one position of assistant to the Secretary is no longer excepted under Schedule C.

Effective on publication in the FEDERAL REGISTER (11–7–72), § 213.3316(a)(13) is amended as set out below.

§ 213.3316 Department of Health, Education, and Welfare.

(a) *Office of the Secretary.* • • •

(13) Seven assistants to the Secretary.

• • • • • •

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954–58 Comp. p. 218)

Chapter III—Animal and Plant Health Inspection Service; Department of Agriculture

PART 319—FOREIGN QUARANTINE NOTICES

Subpart—Citrus Fruit

DELETION OF MARKING REQUIREMENT

On October 11, 1972, there was published in the FEDERAL REGISTER (37 F.R. 21444) under the administrative procedure provisions of 5 U.S.C. 553, a notice of proposed rule making, concerning an amendment to Notice of Quarantine No. 28 relating to the importation of citrus fruit (Unshu oranges) by deleting a marking requirement on the individual fruit. Interested persons were given until October 25, 1972, to submit written data, views, or arguments with respect to the proposal. Only one comment was received and it objected to the possible loss of identification of individual fruits by deleting the marking requirement.

This marking requirement was one of several safeguards included in the quarantine when it was amended in 1967 and 1972 to permit Unshu oranges into specified areas of the United States (32 F.R. 7958; 37 F.R. 7481). Such requirement has proven a considerable hardship to the importer. Because of the odd shape of the fruit, such marking must be done by hand rather than machine. It has been determined that such marking on the fruit is not necessary because the remaining safeguards contained in the quarantine are adequate to insure the identity of the individual fruits. Accordingly, it has been determined that the deletion of the individual fruit marking requirement will not affect the degree of pest risk of introducing citrus canker into the United States nor prevent the effective enforcement of the restrictions on interstate distribution of the fruit within the United States.

Therefore, pursuant to section 9 of the Plant Quarantine Act of 1912 (7 U.S.C. 151 et seq.), paragraph (b)(4)(i) of Quarantine 28 (7 CFR 319.28) is amended by deleting the first sentence thereof.

(Sec. 9, 37 Stat. 318; 7 U.S.C. 162; 29 F.R. 16210, as amended, 36 F.R. 20707, 21529, 21530, 37 F.R. 6327, 6505)

Effective date. This amendment shall become effective upon issuance.

Done at Washington, D.C., this 2d day of November 1972.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

Requirements and Quotas for 1973

Basis and purpose and bases and considerations. This regulation is issued pursuant to the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, as amended; 7 U.S.C. 1101), hereinafter referred to as the "Act". The purpose of Sugar Regulation 811 is to determine pursuant to section 201 of the Act the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1973, and to establish sugar quotas for the supplying areas in terms of short tons of sugar, raw value, equal to the amount determined to be needed in 1973. Furthermore, this regulation determines and prorates and allocates deficits in quotas, establishes quantities of certain quotas that may be filled by direct-consumption sugar and establishes a liquid sugar quota.

In accordance with the rule-making requirements in 5 U.S.C. 553 there was published in the FEDERAL REGISTER (37 F.R. 21333) a notice of proposed rule making for the issuance of a regulation determining sugar requirements for the continental United States and establishing quotas for the calendar year 1973. Written data, views, or arguments for consideration in connection with the proposed regulation were to be submitted by interested persons prior to October 19, 1972. Thorough consideration has been given to all data, views, and comments received relative to the proposed regulation and are briefly summarized at the end of this statement of bases and considerations.

Subsection 201(a) of the Act requires a determination for each calendar year of the amount of sugar needed to meet the requirements of consumers in the continental United States and a revision of such determination during the calendar year whenever necessary to attain the price objective set forth in subsection 201(b) of the Act.

The price objective is a price for raw sugar which will maintain the same ratio between such price and the average of the parity index (1967=100) and the wholesale price index (1957=100) as the ratio that existed between (1) the simple average of the monthly price objective calculated for the period September 1, 1970, through August 31, 1971, under this section as in effect immediately prior to the date of enactment of the Sugar Act Amendments of 1971 (8.55 cents per pound), and (2) the simple average of such two indexes for the same period (115.4). Adjustments shall be made in the determination of requirements during the period November through February whenever the simple average price for raw sugar over 7 consecutive market days is 3 percent or more above or below the average price objective for the previous 2 calendar months. The percentage is increased to 4 percent for the March through October period.

During the first 9 months of 1972, the domestic price of raw sugar fluctuated from a low 8.76 cents per pound as an average for May to a high of 9.39 cents per pound as an average for September. The average for the 9-month period was 9.07 cents per pound or 100.4 percent of the average monthly price objective for the same period. The price on October 26 was 9.20 cents per pound, or 100.4 percent of the current price objective referred to in section 201 of the Act. In developing this determination, consideration has been given to maintaining prices in 1973 that will carry out the price objective set forth in section 201(b) of the Act.

In the proposal of October 3, the Secretary announced that consideration was being given to a requirement level of 11.8 million short tons, raw value. It now appears that cane sugar refiners' deliveries during 1972 will be somewhat less than estimated at that time and consequently, yearend stocks of quota sugar held by refiners will be greater.

In consideration of these matters, it is determined that 11.7 million short tons, raw value, is the quantity of sugar needed to meet the requirements of consumers in the continental United States and to attain the price objective of the Act.

A quota of 20,000 short tons, raw value, is established for the Texas Cane Area on the basis of estimated production from 1973 crop sugar available for marketing in 1973.

A quota of 1,110,000 short tons, raw value, is established herein for Hawaii pursuant to section 202(a)(3) of the Act. Such quota is subject to adjustment pending final data on the production and marketing of sugar by Hawaii in 1972.

The quota for Southern Rhodesia has been withheld pursuant to Executive Order 11322 issued on January 5, 1967, and is prorated herein to Western Hemisphere countries pursuant to section 202(d)(1)(B) of the Act.

On the basis of information currently available to the Department, it is herein determined, pursuant to section 202(d)(3) of the Act, that total quotas be withheld and not established for the Bahamas and Uganda for calendar year 1973. The total quantity of quotas withheld from the Bahamas and Uganda are prorated herein to other foreign countries in the same manner as deficits under section 204 of the Act.

It is also determined on the basis of information currently available to the Department that no reduction is required at this time, pursuant to section 202(d)(3) and (4) of the Act, in the quotas established herein for other foreign countries. This action is based on the tentative assumption that each such country will fill its 1972 quota within a reasonable tolerance and that facts will be submitted which will support a finding that any deficit and/or shortfall in a country's 1972 quota was due to force majeure.

Production of sugar in Puerto Rico is not expected to exceed 335,000 short tons, raw value, while requirements for consumption in Puerto Rico are expected to be of the order of 130,000 tons. It appears that the quantity of sugar from Puerto Rico available for shipment to the continental United States would not be more than 205,000 tons. It is now estimated that the Domestic Beet Sugar Area may have a slightly lower effective inventory of sugar as of January 1, 1973, than at the beginning of 1972. The size of the effective inventory limits marketings of domestic beet sugar until new crop becomes available. Therefore, it appears that the Domestic Beet Sugar Area will be unable to market sugar in excess of 3,500,000 short tons, raw value. Accordingly, deficits are herein determined in the quotas for Puerto Rico and the Domestic Beet Sugar Area of 650,000 and 144,333 short tons, raw value, respectively, and such total quantity of 794,333 short tons, raw value, is herein allocated, pursuant to section 204 of the Act, to the Republic of the Philippines and Western Hemisphere countries with 1973 quotas in effect.

This determination differs from the proposal of October 3 in the following respects: (1) Sugar requirements and quotas have been reduced by 100,000 tons; (2) a quota of 20,000 tons has been established for the new Texas Cane Area; (3) the proposed quota for Hawaii has been reduced by 65,000 tons on the basis of recent estimates of 1972 crop sugar production in Hawaii; and (4) the quota established for the Bahamas has been withheld and a quota has been established for Bolivia.

The following views were received from interested persons regarding the proposed requirements level announced on October 3, 1972:

The American Sugar Cane League, of the U.S.A., Inc., the Florida Sugar Cane League, Inc., the Hawaiian Sugar Planters' Association, the National Sugarbeet Growers Federation and the growers of the Farmers and Manufacturers Beet Sugar Association recommended that 1973 requirements be established at 11,500,000 short tons, raw value. The California Beet Growers Association, Ltd., recommended a 1973 requirement level of 11,550,000 tons. A brief submitted on behalf of all of the sugar beet processors, except Spreckels Sugar Co., recommended a 1973 requirement level of 11,400,000 tons. In individual briefs by sugar beet processors, Michigan Sugar Co. also recommended requirements be establisesd at 11,400,000 tons while the Amalgamated Sugar Co. recommended that requirements be established significantly less than the 11,800,000 ton level proposed by the Department. The principal reason given for recommending a lower requirement level was the fear of lower sugar prices, especially during the next few months since quarterly import limitations cannot be imposed. Several stated that the Department's projection of domestic beet area deficits may be too high, others that the population or per capita consumption estimates used by the Department in making projections of U.S. requirements were too high. Some said that a high beginning requirement level takes the flexibility out of maintaining prices in line with the price objective. Several stated that the Department's own bases would support a requirement level of only 11,650,000 tons. None of the briefs received from processor or grower representatives mentioned that the then current raw sugar price exceeded the price objective in excess of 2 percent nor did they make reference to the short world sugar supply.

The U.S. Cane Sugar Refiners' Association supported the Department's proposed requirement level of 11,800,000 short tons, raw value. They also stated that they believed it imperative that foreign sugar quota holders receive notice immediately of the quantity of sugar they must commit to the U.S. market in 1973, so consumers are assured of adequate supplies at reasonable prices.

The Sugar Users Group, representing 12 food processing associations, recommended that 1973 sugar requirements be established at 12 million short tons, raw value. They pointed out that world sugar consumption continues to outpace world sugar production and that resulting higher prices could cause a delay in foreign sugar reaching the United States at various times during the year. For this reason the group stated that a larger quota is needed to insure adequate supplies at all times for the U.S. market. The group also projected that domestic consumption would increase due to more emphasis on the food stamp program, the special food services program, and the school lunch program. They also pointed out that the average raw price is currently higher than the price objective, that the average raw price for 1972 has exceeded the average guide price by one-half of 1 percent and that the 11,800,000-ton requirement level proposed by the Department may not result in actual shortages but it could well continue the trend of having an average spot price which is higher than the guide price set out in the Sugar Act.

Sec.
811.20 Sugar requirements 1973.
811.21 Quotas for domestic areas.
811.22 Proration and allocation of deficits in quotas.
811.23 Quotas for foreign countries.
811.24 Applicability of quotas.
811.25 Restrictions on importations and marketings within quotas.

AUTHORITY: §§ 811.20 to 811.25 issued under Sec. 403, 61 Stat. 932, 7 U.S.C. 1153; Secs. 201, 202, 204, 207, 208, 209, 210; 61 Stat. 923, as amended, 924, as amended, 925, as amended, 927, as amended, and 928, as amended; 7 U.S.C. 1111, 1112, 1114, 1117, 1118, 1119, 1120 and Public Law 92-138 approved October 14, 1971.

§ 811.20 Sugar requirements 1973.

The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1973 is hereby determined to be 11,700,000 short tons, raw value.

§ 811.21 Quotas for domestic areas.

(a)(1) For the calendar year 1973, domestic area quotas limiting the quantities of sugar which may be brought into or marketed for consumption in the continental United States are established, pursuant to section 202(a) of the Act in column (1), and the amounts of such quotas for offshore areas that may be filled by direct-consumption sugar are established, pursuant to section 207 of the Act in column (2), as follows:

Area	Quotas	Direct-consumption limits
	(Short tons, raw value)	
	(1)	(2)
Domestic beet sugar	3,644,333	No limit
Mainland cane sugar	1,625,667	No limit
Texas cane area	20,000	No limit
Hawaii	1,110,000	40,356
Puerto Rico	855,000	169,000

(2) It is hereby determined pursuant to section 204(a) of the Act that for the calendar year 1973 Puerto Rico and the Domestic Beet Area will be unable by 650,000 and 144,333 short tons, raw value, respectively, to fill their quotas established in subparagraph (1) of this paragraph. Pursuant to section 204(b) of the Act the determination of such deficits shall not affect the quotas established in subparagraph (1) of this paragraph.

(b) Of the quantity established in paragraph (a) of this section for Puerto Rico which may be filled by direct-consumption sugar, 126,033 short tons, raw value, may be filled only by sugar principally of crystalline structure.

§ 811.22 Proration and allocation of deficits in quotas.

(a) The deficit in the Puerto Rican and the Domestic Beet Area quotas determined in paragraph (a)(2) of § 811.21 of 794,333 short tons, raw value, is hereby prorated and allocated pursuant to section 204(a) of the Act, by allocating 30.08 percent or 238,935 short tons, raw value, to the Republic of the Philippines and by prorating the remaining 555,398 short tons, raw value, to Western Hemisphere countries on the basis of quotas determined herein pursuant to section 202.

(b) In establishing deficit prorations herein for Western Hemisphere countries consideration has been given to the purchase of U.S. agricultural commodities by such countries, by determining that the value of U.S. agricultural exports to each such country exceeded the total net receipts f.a.s. port of shipment derived from the sale of sug[illegible] it prorations imported from eac[illegible] country during the most recent 12-month period for which data are available. Each

foreign country which is unable to fill

(b) The quantitative limitations es-

ing agreement and order, and upon other

capacity of 18 pounds of fruit shall be of

the lower financial returns to producers

XUM
V37-215 NOV 7 72
XUM

foreign country which is unable to fill its quota including its deficit proration has the responsibility to notify the Secretary the extent of and reasons for such shortfall.

§ 811.23 Quotas for foreign countries.

(a) The quotas or prorations for foreign countries limiting the quantities of sugar which may be imported into the continental United States during the calendar year 1973 for consumption therein and the amounts of such quotas and prorations that may be filled by direct-consumption sugar are hereby established as set forth in the following paragraphs (b), (c), (d), (e), and (f) of this section.

(b) For the calendar year 1973, the quota for the Republic of the Philippines is 1,376,758 short tons, raw value, representing 1,126,020 short tons, established pursuant to section 202(b) of the Act, 238,935 short tons established pursuant to section 204 of the Act and 11,803 short tons established pursuant to section 202(d) of the Act. Of the quantity of 1,126,020 short tons established pursuant to section 202 of the Act, only 59,920 short tons, raw value, may be filled by direct-consumption sugar pursuant to section 207(d) of the Act.

(c) For the calendar year 1973, the prorations to individual foreign countries other than the Republic of the Philippines pursuant to section 202 of the Act are shown in columns (1) and (2) of the following table. In column (3) a portion of the deficit proration in the quotas of Puerto Rico and the Domestic Beet Area amounting to 555,398 short tons, raw value, is herein prorated to Western Hemisphere countries listed in section 202(c)(3)(A) of the Act, on the basis of quotas determined herein pursuant to section 202. Total quotas and prorations are shown in column (4).

Production area	Basic quotas	Temporary quotas and prorations pursuant to Sec. 202(d)[1]	Deficits and deficits prorations	Total quotas and prorations
	(Short tons, raw value)

[1] Proration of the quota withheld from Cuba, Southern Rhodesia, Bahamas, and Uganda.

(d) The importation of raw sugar within the annual quotas from foreign countries will be authorized on the basis of applications on Form SU-3 in accordance with the provisions of Part 817 of this chapter. Applications to import raw sugar from the Republic of the Philippines, before final approval, must be supplemented by certification from the Sugar Quota Administrator for the Government of the Philippines granting the applicant the permission to export sugar to the U.S. market.

(e) For the calendar year 1973, the quantity of each proration established in paragraph (c) of this section that may be filled by direct-consumption sugar pursuant to section 207(e) of the Act is as follows:

Country:	Short tons, raw value
Ireland	5,351
Panama	3,817

(f) For the calendar year 1973, the quota for liquid sugar for foreign countries as a group is 2 million gallons of sirup of cane juice of the type of Barbados molasses, limited to liquid sugar containing soluble nonsugar solids (excluding any foreign substances that may have been added or developed in the product) of more than 5 percent of the total soluble solids, which is not to be used as a component of any direct-consumption sugar but is to be used as molasses without substantial modification of its characteristics after importation.

§ 811.24 Applicability of quotas.

(a) All sugar and liquid sugar marketed or imported into the continental United States is subject to the provisions of Part 816 or Part 817 of this chapter which prescribe the time, manner, and conditions under which quotas and prorations are filled by the marketing and importation of sugar or liquid sugar.

(b) The quantitative limitations established by §§ 811.21 to 811.23, inclusive, do not apply to sugar or liquid sugar marketed or imported pursuant to sections 211 and 212 of the Act in accordance with the provisions of Part 816 or Part 817 of this chapter.

§ 811.25 Restrictions on importation and marketings within quotas.

Subject to the provisions of Parts 816 and 817 of this chapter all persons are prohibited from bringing or importing into or marketing in the continental United States, (a) any sugar or liquid sugar from any country for which no quota is established or in excess of or after the applicable quota or quantity set forth in §§ 811.21 to 811.23 inclusive has been filled, or (b) any sugar or liquid sugar as direct-consumption sugar from any country for which no direct-consumption sugar limitation is established or after the direct-consumption portion of the applicable quota has been filled.

Effective date. The Act provides for the determination of sugar requirements and the establishment of sugar quotas for the continental United States for the calendar year 1973 during October of 1972. This regulation applies to the submission and approval of applications to import sugar prior to January 1, 1973, for the importation of sugar subsequent to that date. Accordingly, it is hereby found to be impracticable and not in the public interest to comply with the 30-day effective date requirements in 5 U.S.C. 533. The aspects of § 811.23 relating to the submission and approval of applications shall be effective when filed with the Office of the Federal Register and all other provisions of this regulation shall become effective January 1, 1973.

Signed at Washington, D.C. on November 1, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Amdt. 13]

PART 906—ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

Container, Pack, and Container Marking Regulations

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Texas Valley Citrus Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation on the handling of Texas oranges and grapefruit, as hereinafter set forth, is in accordance with the provisions of said marketing agreement and order, and will tend to effectuate the declared policy of the act.

(2) This action reflects the Department's appraisal of the need for restricting the use of containers and pack sizes to those most suitable for the packing and handling of fruit to promote orderly marketing, so as to provide consumers with good quality fruit and improve returns to producers pursuant to the declared policy of the act. The amendment suspends for the period November 6, 1972, through July 31, 1973, the requirement that bags having a capacity of 18 pounds of fruit be mesh or woven. The current requirement that bags having a capacity of 18 pounds of fruit be mesh or woven has been in effect since January 1, 1971, under § 906.340 (7 CFR 906.340; 37 F.R. 2765; 4707; 21800). The committee has asked for the temporary suspension of the "mesh or woven" requirement for this container; so that it will have a period of time to evaluate 18-pound bags of other types for shipping Texas oranges and grapefruit.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (i) the handling of fruit is now in progress and to be of maximum benefit the provisions of this amendment should be effective upon the date hereinafter specified, (ii) the effective date hereof will not require of handlers any preparation that cannot be completed prior thereto, (iii) this amendment was recommended by members of the Texas Valley Citrus Committee in an open meeting at which all interested persons were afforded opportunity to submit their views, (iv) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and (v) this amendment relieves restrictions on the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas.

Order. It is therefore ordered that the provisions of § 906.340 (7 CFR 906.340; 37 F.R. 2765; 4707; 21800) are amended as follows:

Paragraph (a)(1)(iv) is amended to read:

§ 906.340 Container, pack, and container marking regulations.

(a) • • •

(1) • • •

(iv) Bags having a capacity of 5, 8, or 18 pounds of fruit: *Provided*, That on and after August 1, 1973, bags having a capacity of 18 pounds of fruit shall be of the mesh or woven type.

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, November 2, 1972, to become effective November 6, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

List of Countries for Export Sales of Reserve Raisins

Notice was published in the October 12, 1972, issue of the FEDERAL REGISTER (37 F.R. 21538), regarding a proposal to change the list of countries to which sale in export of reserve tonnage natural Thompson Seedless raisins may be made by handlers by the deletion of Mexico from such list. This action is pursuant to the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989; 37 F.R. 19621, 20022), hereinafter referred to collectively as the "order," regulating the handling of raisins produced from grapes grown in California. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the "act."

The notice afforded interested persons an opportunity to submit written data, views, or arguments on the proposal. None were received within the prescribed time.

The list of countries to which handlers may make sales of reserve tonnage natural Thompson Seedless raisins was established pursuant to § 989.67(c) of the order and is contained in § 989.221 (7 CFR 989.221; 36 F.R. 20742) of the Subpart—Supplementary Orders Regulating Handling. The Committee has reviewed the list as required by § 989.67(c), and has recommended that it be changed by deleting Mexico from such list. After such deletion, sales to Mexico by handlers could be made solely from free tonnage raisins of such varietal type.

Mexico was added to the aforesaid list in November of 1968. After a review of handler shipments of raisins to Mexico and market conditions and prices of natural Thompson Seedless raisins in Mexico over the past 4 years, the Committee concluded that such shipments do not justify continued inclusion of Mexico on the list. The price to handlers for reserve tonnage NTS raisins shipped to Mexico has been less than the price for free tonnage NTS raisins during the 4 years in which sales to Mexico were made from reserve tonnage raisins. Shipments during this period did increase slightly over the shipments made during a comparable period preceding 1968. However, the Committee concluded that such increase was not sufficient to offset the lower financial returns to producers received for reserve tonnage.

After consideration of all relevant matter presented, including that in the notice, the information and recommendation of the Committee, and other available information, changing the list of countries to which sale of reserve tonnage natural Thompson Seedless raisins may be made by handlers by deleting Mexico from such list is hereby approved.

Therefore, § 989.221 is amended to read as follows:

§ 989.221 Countries to which sale in export of reserve tonnage natural Thompson Seedless raisins may be made by handlers.

The countries to which sale in export of reserve tonnage natural Thompson Seedless raisins may be made by handlers shall be all of those countries, other than Australia, outside of the Western Hemisphere. For purposes of this section, "Western Hemisphere" means the area east of the international dateline and west of 30° W. longitude but excluding all of Greenland. All of the countries covered by this section to which sale in export of such reserve tonnage may be made shall be deemed listed in this section for the purposes of § 989.67(c).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 2, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1464—TOBACCO

Subpart A—Tobacco Loan Program

1972 CROP—BURLEY TOBACCO TYPE 31, ADVANCE SCHEDULE

On September 28, 1972, there was published in the FEDERAL REGISTER (37 F.R. 20256) a notice of proposed rule making setting forth the proposed price support advance rates for 1972 crop burley tobacco, type 31. Interested parties were given the opportunity to submit within 30 days data, views, and recommendations regarding the proposed advance rates.

No unfavorable comments have been received and proposed advance rates are hereby adopted without change and are set forth below. The material previously appearing under § 1464.21 remains applicable to the crop to which it refers.

Effective date: Date of filing with the Office of the Federal Register.

Signed at Washington, D.C., on October 31, 1972.

SUBCHAPTER E—ACCOUNT SERVICING

[FHA Instruction 456.1]

PART 1864—DEBT SETTLEMENT

Cancellation of Debt Discharged in Bankruptcy

Section 1864.5(c) is revised to provide for the attachment of a copy of the referee in bankruptcy's order of discharge to Form FHA 456–1, "Application for Settlement of Indebtedness," when a debt has been discharged in bankruptcy. The Office of the General Counsel does not have to be consulted unless the county office files contain evidence of a false loan application or a willful and malicious conversion of security property.

As amended, § 1864.5(c) of Part 1864, Title 7, Code of Federal Regulations (36 F.R. 17836) will read as follows:

§ 1864.5 Cancellation of nonjudgment debts, regardless of the amount of deceased, disappeared, and bankrupt debtors without applications.

* * * * *

(c) *Cancellation of debts that have been discharged in bankruptcy.* Debts discharged in bankruptcy may be canceled by the use of Form FHA 456–2. A copy of the referee in bankruptcy's order of discharge must be attached to Form FHA 456–1. The advice of OGC should not be requested unless the county office files contain evidence of a false loan application or a willful and malicious conversion of security property.

[FHA Instruction 452.1]

PART 1867—RENEWING OPERATING LOANS

Return of Promissory Note

Section 1867.9 is amended to provide for the return of the original renewed promissory note to the borrower, except in Louisiana.

Section 1867.9, Part 1867, Title 7, Code of Federal Regulations (36 F.R. 17843), as amended will read as follows:

§ 1867.9 Disposition of renewed promissory notes.

Promissory notes which have been renewed will be stamped "RENEWED, NOT PAID." The original note will be forwarded by the Finance Office to the county office. The county office will return the note to the borrower. The county office copy will be marked "Renewed, Not Paid" and retained in the county office case file. In Louisiana, the original note will not be returned to the borrower, but will be retained in the county office case file. When the renewed loan has been paid in full or otherwise satisfied, the renewal note will be handled as provided in § 1861.8 or in § 1864.17 of this chapter.

(Sec. 339, 75 Stat. 318, 7 U.S.C. 1989; order of Acting Secretary of Agriculture, 36 F.R. 21529; order of Secretary of Agriculture, 37 F.R. 14245; order of Assistant Secretary of Agriculture for Rural Development and Conservation, 36 F.R. 21529)

Dated: October 20, 1972.

SUBCHAPTER F—SECURITY SERVICING AND LIQUIDATIONS

[FHA Instruction 471.1]

PART 1873—TRANSFER OF INSURED ASSOCIATION, SOIL AND WATER INDIVIDUAL, FARM OWNERSHIP, AND HOUSING NOTES

Part 1873, Title 7, Code of Federal Regulations (31 F.R. 14237) currently in effect under §§ 1873.1 to 1873.8 has been revised for clarification.

This Part 1873 delegates authority and prescribes policy and procedure for the sale, assignment, or transfer of the ownership of notes or bonds.

The revised Part 1873 reads as follows:

Sec.
1873.1 Scope.
1873.2 Definitions.
1873.3 Delegations of authority.
1873.4 General policies.
1873.5 Procedure for sale of insured notes by private holders to private buyers.
1873.6 Procedure for assignment of insured notes to FHA.
1873.7 Assignment of notes by FHA from the insurance fund.
1873.8 Assignment of insured notes by FHA as trustee.
1873.9 Procedure to be followed upon the death of a holder of an insured note.

AUTHORITY: The provisions of this Part 1873 issued under section 339, 75 Stat. 318, 7 U.S.C. 1989; section 510, 63 Stat. 437, 42 U.S.C. 1480; section 4, 64 Stat. 100, 40 U.S.C. 442; order of Acting Secretary of Agriculture, 36 F.R. 21529; order of Secretary of Agriculture, 37 F.R. 14245; order of Assistant Secretary of Agriculture for Rural Development and Conservation, 36 F.R. 21529.

§ 1873.1 Scope.

This part delegates authority and prescribes policy and procedure for the sale, assignment, or other transfer of the ownership of notes or bonds which evidence any of the following types of insured loans: association, soil and water (SW) individual, or farm ownership (FO) loans in cases in which the United States is the mortgagee; or domestic farm labor housing (LH), rural rental housing (RRH), or section 502 rural housing (RH) loans.

§ 1873.2 Definitions.

As used in this part:

(a) "FHA" is the United States acting through the Farmers Home Administration. "FHA" does not include "FHA as Trustee."

(b) "FHA as Trustee" is the United States acting through the Farmers Home Administration as trustee for a State Rural Rehabilitation Corporation (SRRC) under a section 2(f) agreement.

(c) "Insurance fund" is the Agricultural Credit Insurance Fund authorized by section 309 of the Consolidated Farmers Home Administration Act of 1961, if the loan is insured in accordance with that section, or the Rural Housing Insurance Fund authorized by section 517 of the Housing Act of 1949, if the loan is insured in accordance with that section.

(d) "Insured note" is any promissory note or bond evidencing an insured loan of a type specified in § 1873.1, regardless of whether it is held by FHA in the insurance fund, by a private holder, or by FHA as Trustee.

(e) "Insurance agreement" is the entire contract evidencing and setting forth the terms and conditions of FHA's insurance of payment of an insured note. The insurance agreement with respect to any particular loan may be evidenced by Form FHA 440–5, "Insurance Endorsement (Insured Loan)," Form FHA 440–30, "Insurance Endorsement (Insured Loans)," Form FHA 471–6, "Reinsurance and Repurchase Agreement (Automatic Renewal)," or any other form or forms prescribed by the national office and executed by an authorized official of FHA. It may include such provisions as, for example, an agreement of FHA to purchase or repurchase the loan, or to make supplementary payments from the insurance fund.

(f) "Insured holder" is the current owner of an insured note other than FHA, according to the records of FHA as insurer of the note.

(g) "Private holder" is an insured holder other than FHA as Trustee.

(h) "Sale," "seller," and "buyer" are, respectively, the transfer of ownership (including possession or the right of possession), the transferor, and the transferee.

(i) "Repurchase agreement" is a provision in the insurance agreement obligating FHA to buy the insured note at the option of the holders.

(j) "Option period" is any period during which the insured holder has the optional right to require the FHA to purchase the insured note, as specified in the insurance agreement.

(k) "Fixed period" is any time interval (preceding an option period) during which the insured holder is not entitled to require FHA to purchase the insured note, as specified in the insurance agreement.

(l) "Par value" is the total amount to which the insured holder is entitled under the terms of the insurance agreement.

(m) "Director, Finance Office" is the Director or the Insured Loan Officer of the Finance Office of FHA.

(n) "State Director" is the State Director of FHA for the State in which is located the real estate improved, purchased, or refinanced with the loan evidenced by the insured note.

(o) "National Office" is the Administrator or other authorized officer of the FHA in Washington, D.C.

(p) "Private buyer" is a buyer of an insured note other than FHA, or FHA as Trustee.

§ 1873.3 Delegations of authority.

Subject to the provisions of this part:

(a) The Director, Finance Office, is authorized in connection with the sale of any insured note to execute required documents on behalf of FHA and to take other appropriate action, including but not limited to:

(1) Endorsing any insured note to the order of a private buyer and executing the applicable insurance agreement.

(2) Acknowledging notice of sale of an insured note.

(3) Requiring an insured holder to sell an insured note to FHA, when requested by the State director, or by the county supervisor with the approval of the State director.

(4) Accepting sale to FHA of an insured note.

(5) Authorizing disbursements from the insurance fund to pay for insured notes being sold to FHA.

(b) The Director, Finance Office, or the State Director is authorized on behalf of FHA as trustee, to sell an insured SW or FO note held by FHA as trustee.

(c) The State Director, or County Supervisor with the approval of the State Director, is authorized to request the Director, Finance Office, to require an insured holder to sell an insured note to FHA in connection with any voluntary conveyance of foreclosure, or transfer related to liquidation of the borrower's account or any other servicing action so related.

(1) Upon recommendation by the State Director that purchase of an insured note is necessary for any servicing action not related to liquidation of the borrower's account, authorization may be given by the national office.

§ 1873.4 General policies.

(a) *Effective date of assignment.* When an insured note is sold by a private holder to a private buyer, notice of such sale executed by the seller must be given to and acknowledged by FHA in order for the sale to be binding upon FHA; and, as to FHA, the effective date of the sale will be the acknowledgment date specified in the acknowledgment of notice executed by FHA.

(b) *Assignment to FHA at request of FHA.* At any time FHA deems it necessary for proper servicing of the loan, FHA may in writing require a private holder to sell an insured note to FHA.

(c) *Assignment to FHA at option of holder.* A private holder at any time during the option period may in writing require FHA to purchase an insured note, if the insurance agreement so provides.

(d) *Price.* Where FHA is buyer of an insured note, the price will be the par value as of the effective date of the sale. In other cases, the price will be determined by agreement between the parties.

§ 1873.5 Procedure for sale of insured notes by private holders to private buyers.

(a) Upon receipt of notice from a private holder of intention to assign an insured note, the Director, Finance Office, will send the holder Form FHA 471–7, "Notice and Acknowledgment of Sale of Insured Loan," a statement of the unpaid principal, and appropriate information on how to complete the assignment. If requested, the Director, Finance Office, will furnish a statement of account instead of or in addition to a statement of the unpaid principal.

(b) If the Director, Finance Office, is informed that an insured note has been assigned and FHA is requested to recognize the assignment, the Director, Finance Office, will send the assignor Form FHA 471–7 with directions for its execution.

(c) Upon receipt of Form FHA 471–7 properly executed by the assignor, the Director, Finance Office, will complete and execute the acknowledgment section of the form. The Director, Finance Office, will retain the original of the form, have three facsimile copies made, and send one to the assignee, and one to the County Supervisor. For any correction or other change to be made in the record of the name or address of a private holder, or of a designated agent of a private holder, a request will be made to FHA in writing.

(d) As of the date of the acknowledgment executed by the Director, Finance Office, on Form FHA 471–7, the Director, Finance Office, will transfer the insured note from the assignor to the assignee as the insured holder on the records of FHA. The name and address of the assignee will be recorded by FHA exactly as they appear on Form FHA 471–7.

(e) Payments transmitted by FHA on or after the acknowledgment date shown on Form FHA 471–7 will be transmitted to the assignee. The Director, Finance Office, will give notice to the assignor and the assignee of any payments transmitted by FHA to the assignor before the acknowledgment date and after either the date of sale, or the date of the statement of account, whichever is earlier. However, FHA will not be liable for any failure to give such notice.

(f) The Federal National Mortgage Association has statutory authority to purchase, in its secondary market operations, loans insured under title V of the Housing Act of 1949. In case of an assignment of an insured LH, RRH, or RH note by a private holder to the Federal National Mortgage Association:

(1) The Director, Finance Office, will verify that the insured note covered by the notice and acknowledgment evidences an LH, RRH, or RH loan when he executes the acknowledgments and will have the following statement stamped or typed on Form FHA 471–7:

The payment of the note or bond covered by this notice and acknowledgment is insured pursuant to title V of the Housing Act of 1949.

(2) A statement of account as of the acknowledgment date will accompany the copies of Form FHA 471–7 sent to the assignor and assignee respectively.

§ 1873.6 Procedure for assignment of insured notes to FHA.

(a) *Assignment at the request of the holder.* For assignment of an insured

note to FHA during the option period at

(2) Execute for each note an insurance

note to FHA during the option period at the request of the holder, the following procedure will apply:

(1) The holder will endorse the insured note as follows: "Pay to the order of the United States of America. Without recourse." The holder will then deliver the endorsed note, together with the insurance agreement, to the Director, Finance Office.

(2) Upon receipt of the endorsed note with the accompanying insurance agreement, the Director, Finance Office will:

(i) Acknowledge receipt of the note; and

(ii) Process payment to the assignor of the par value of the note as of the date of the Treasury check.

(b) *Assignment at the request of FHA.* The procedure for assigning an insured note at the request of FHA will be the same as that prescribed in paragraph (a) of this section, except that the Director, Finance Office, will send a written request to the holder that the insured note be assigned to FHA and delivered to the Director, Finance Office, with the accompanying insurance agreement. The Director, Finance Office, will explain that the assignment is necessary to enable FHA to service the account properly and will give the holder all necessary information as to the manner of making the assignment and the amount to be paid by FHA.

§ 1873.7 Assignment of notes by FHA from the insurance fund.

(a) Upon completion of negotiations for the sale of notes by FHA from the insurance fund to a private buyer, the Director, Finance Office, will ascertain:

(1) The precise name and correct mailing address of the buyer (and the precise name and correct mailing address of the buyer's collection agent, if any).

(2) The manner and time of delivery of the notes.

(3) The agreed arrangements for making payment for the notes.

(4) The agreed or proposed effective date of sale.

(5) The rate of any annual charge or additional payments, and the length of any fixed period, to be stipulated in the insurance agreement.

(6) Any other pertinent information.

(b) The Director, Finance Office, will send the buyer a list of the notes showing each borrower's name and case number and the selling price of each note as of the agreed or proposed effective date of sale.

(c) If payment is to be made in advance of delivery of the notes, the Director, Finance Office, will request the buyer to forward a check or draft before the effective date of sale, drawn to the order of the FHA, in the amount of the aggregate selling price. If the buyer is a reputable institution, its check or draft, or a certified check or cashier's check may be accepted. In all other cases, payment by certified check or cashier's check will be required. Upon receipt of payment, the Director, Finance Office, will:

(1) Endorse each note to the order of the buyer.

(2) Execute for each note an insurance agreement on Form FHA 440-5, Form FHA 440-30, Form FHA 471-6, or other form prescribed or approved by the National Office, whichever is applicable. When a repurchase agreement is not to be included in the insurance agreement, the paragraph providing for a repurchase agreement will be deleted, and the deletion initialed by the Director, Finance Office.

(3) Send the notes, with the executed insurance agreements to the buyer by certified mail, return receipt requested, except that:

(i) If a sight draft is received in payment, the Director, Finance Office, will attach it to the endorsed notes and executed insurance agreements and send them by certified mail, return receipt requested, to the bank designatd by the buyer. The buyer will pay the bank's charges for handling the transaction. The bank's remittance in payments of the draft must be made on or before the agreed effective date of the sale of the notes.

(4) Inform the County Supervisor of the assignment by providing him with a copy of Form FHA 451-12, "Statement of Account," stamped to show the new fund code and the name and address of the buyer.

(d) If the agreed terms and conditions of sale provide for delivery and payment by other means that those described in paragraph (c) of this section, the Director, Finance Office, will make the necessary arrangements.

§ 1873.8 Assignment of insured notes by FHA as trustee.

(a) *Assignment to a private buyer.* (1) Upon completion of negotiations for sale to a private buyer of insured notes held by FHA as Trustee, the State Director will send the notes to the Director, Finance Office, by certified mail, return receipt requested.

(2) Payment for the notes will be drawn to the order of "Farmers Home Administration, Trustee of the (insert name of the SRRC)."

(3) In all other respects, § 1873.7 will apply.

(b) *Assignment to FHA for account of the insurance fund.* When it becomes necessary to assign to FHA for account of the insurance fund an insured note held by FHA as Trustee, the State Director will:

(1) Send the note to the Director, Finance Office.

(2) Request the Director, Finance Office, to take the necessary steps immediately to assign the loan to FHA for account of the insurance fund and make payment therefor.

§ 1873.9 Procedure to be followed upon the death of a holder of an insured note.

The Director, Finance Office, should be notified of the death of a holder of an insured note. The following documents should be forwarded with the notice if available:

(a) A certified copy of the death certificate.

(b) A certified copy of the court order appointing the Administrator or Executor (includes the mailing address of the Administrator or Executor). The Director, Finance Office, will notify the attorney, trust officer, Administrator, or Executor of the estate if any other records or documents are needed, and will provide any additional instructions that are needed. Legal opinions and advice will be obtained by the Finance Office as needed from the Regional Attorney.

Dated: October 20, 1972.

ARTHUR C. HARMAN, Jr.,
Acting Administrator,
Farmers Home Administration.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 11377; Amdt. 39-1555]

PART 39—AIRWORTHINESS DIRECTIVES

Hawker Siddeley de Havilland Model DH-104 "Dove" Airplanes

Amendment 39-1457 (37 F.R. 11155), AD 72-12-3, as amended by Amendment 39-1542 (37 F.R. 21528), requires the replacement of the two main air reservoir assemblies with new assemblies, which contain new air bottles, on Hawker Siddeley de Havilland Model DH-104 "Dove" airplanes. After issuing Amendment 39-1542, the FAA determined that a critical shortage of replacement parts still existed. Therefore, the AD is being further amended to extend the compliance date to February 1, 1973.

Since this amendment relieves a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1457 (37 F.R. 11155), AD 72-12-3, as amended by Amendment 39-1542 (37 F.R. 21528), is further amended by amending the compliance statement to read as follows:

Compliance is required on or before February 1, 1973.

This amendment becomes effective November 13, 1972.

(Secs. 313(a), 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on October 31, 1972.

C. R. MELUGIN, Jr.,
Acting Director,
Flight Standards Service.

[FR Doc.72-18979 Filed 11-6-72;8:49 am]

[Airspace Docket No. 72-WE-33]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of VOR Federal Airway Segment

On September 9, 1972, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (37 F.R. 18396) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would revoke the south alternate to VOR Federal airway No. 16 between Toltec, Ariz., Intersection and Tucson, Ariz.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., January 4, 1973, as hereinafter set forth.

In § 71.123 (37 F.R. 2009) V-16 is amended as follows:

Delete "Tucson, Ariz.; including a south alternate from INT Phoenix 161° and Casa Grande 105° radials, to Tucson via INT Phoenix 161° and Tucson 298° radials; Cochise, Ariz.," and substitute "Tucson, Ariz.; Cochise, Ariz.," therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on October 31, 1972.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 72-SO-109]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Miami, Fla. (Opa Locka Airport), control zone.

The Miami (Opa Locka Airport) control zone is described in § 71.171 (37 F.R. 2056): In the description, an extension is predicated on Miami VORTAC 108° radial. The final approach radial for the VOR Runway 9L Instrument Approach Procedure has been refined to the Miami VORTAC 110° radial. It is necessary to alter the description to reflect this change. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.171 (37 F.R. 2056), the Miami, Fla. (Opa Locka Airport), control zone is amended as follows: "• • • 108° • • •" is deleted and "• • • 110° • • •" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on October 26, 1972.

PHILLIP M. SWATEK,
Director, Southern Region.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release Nos. 33-5316, 34-9804, 35-17717, IC-7405]

REGISTRATION OF CERTAIN TRANSACTIONS INVOLVING MERGERS, CONSOLIDATIONS AND ACQUISITIONS OF ASSETS

The Securities and Exchange Commission today announced the adoption of Rule 145 (17 CFR 230.145) under the Securities Act of 1933 (Act) and several related proposals and the prospective rescission of Rule 133 (17 CFR 230.133) under that Act. The effect of this action will be to subject transactions involving business combinations of types described in the new rule to the registration requirements of the Act. Rule 145 is designed to implement the purpose and policies underlying the Act and is based on the Commission's experience in administering Rule 133, the interpretations of and problems under that rule, the recommendations of the Disclosure Policy Study's 1969 report, and comments received on previously proposed revisions of the rule and related proposals as published on October 9, 1969, in Securities Act Release No. 5012 (34 F.R. 17180) and on May 2, 1972, in Securities Act Release No. 5246 (37 F.R. 10585).

This notice contains a general discussion of the background, purpose, and general effect of the proposals to assist in a better understanding of them. However, attention is directed to the full text of the proposals included as a part of this release for a more complete understanding of their provisions. Further, the rescission of the Rule 133 and the adoption of Rule 145 should be considered in the context of and in conjunction with several other proposals which the Commission is herewith adopting or has previously adopted, including:

1. Adoption of Rule 153A (17 CFR 230.153a) under the Act;
2. Revision of Form S-14 (17 CFR 239.23) under the Act;
3. Amendment of Rule 14a-2 (17 CFR 240.14a-2) under the Securities Exchange Act of 1934 (Exchange Act);
4. Amendment of Rule 14a-6 (17 CFR 240.14a-6) under the Exchange Act;
5. Amendment of Rule 14c-5 (17 CFR 240.14c-5) under the Exchange Act; and
6. Rule 144 (17 CFR 230.144) under the Act (Release 33-5223) (37 F.R. 599, 4329).

BACKGROUND AND PURPOSE

Congress, in enacting the Federal securities statutes, created a continuous disclosure system designed to protect investors and to assure the maintenance of fair and honest securities markets. The Commission in administering and implementing the objectives of these statutes has sought to coordinate and integrate this disclosure system, and the rescission of Rule 133 and adoption of Rule 145 and related matters are further steps in this direction.

The rescission of Rule 133 and adoption of Rule 145 are designed to implement the fundamental purposes of the Act as expressed in its preamble:

To provide full and fair disclosure of the character of the securities sold in interstate commerce and through the mails, and to prevent fraud in the sale thereof • • •.

Rule 145 is also intended to inhibit the creation of public markets in securities of issuers about which adequate current information is not available to the public. This approach is consistent with the philosophy underlying the Act, that a disclosure law provides the best protection for investors. If a security holder who is offered a new security in a Rule 145 business combination transaction has available to him the material facts about the transaction, he will be in a position to make an informed investment judgment. In order to provide such informa-

tion in connection with public offerings on which the "no-sale" theory is predicated, namely, that the exchange or al-

tion in connection with public offerings of these securities, Rule 145 will require the filing of a registration statement with the Commission and the delivery to security holders of a prospectus containing accurate and current information concerning the proposed business combination transaction.

EXPLANATION AND ANALYSIS

I. RESCISSION OF RULE 133. DEFINITION FOR PURPOSES OF SECTION 5 OF "SALE," "OFFER TO SELL," AND "OFFER FOR SALE"

Rule 133 provides that for purposes only of section 5 of the Act, the submission to a vote of stockholders of a corporation of a proposal for certain mergers, consolidations, reclassifications of securities or transfers of assets is not deemed to involve a "sale," "offer," "offer to sell," or "offer for sale" of the securities of the new or surviving corporation to the security holders of the disappearing corporation. That rule further provides that persons who are affiliates of the constituent corporation are deemed to be underwriters within the meaning of the section 2(11) of the Act, and except for certain limited amounts cannot sell their securities in the surviving corporation without registration.

The "no-sale" theory embodied in Rule 133 is based on the rationale that the types of transactions specified in the rule are essentially corporate acts, and the volitional act on the part of the individual stockholder required for a "sale" was absent. The basis of this theory was that the exchange or alteration of the stockholder's security occurred not because he consented thereto, but because the corporate action, authorized by a specified majority of the interests affected, converted his security into a different security.

Based on the Commission's experience in administering the provisions of the Act and Rule 133 thereunder, and having given consideration to the Disclosure Policy Study Report, to the comments received on the Commission's published proposed revision of Rule 133 (Release 33-5012) and to the comments received on the proposed adoption of Rule 145 (Release 33-5246), the Commission is of the view that the "no-sale" approach embodied in Rule 133 overlooks the substance of the transactions specified therein and ignores the fundamental nature of the relationship between the stockholders and the corporation. The fact that such relationships are in part controlled by statutory provisions of the state of incorporation does not preclude, as a matter of law, the application of the broad concepts of "sale," "offer," "offer to sell," and "offer for sale" in section 2(3) of the Act which are broader than the commercial or common law meanings of such terms.

Transactions of the type described in Rule 133 do not, in the Commission's opinion, occur solely by operation of law without the element of individual stockholder volition. A stockholder faced with a Rule 133 proposal must decide on his own volition whether or not the proposal is one in his own best interest. The basis on which the "no-sale" theory is predicated, namely, that the exchange or alteration of the stockholder's security occurs not because he consents thereto but because the corporation by authorized corporate action converts his securities, in the Commission's opinion, is at best only correct in a formalistic sense and overlooks the reality of the transaction. The corporate action, on which such great emphasis is placed, is derived from the individual consent given by each stockholder in voting on a proposal to merge or consolidate a business or reclassify a security. In voting, each consenting stockholder is expressing his voluntary and individual acceptance of the new security, and generally the disapproving stockholder is deferring his decision as to whether to accept the new security or, if he exercises his dissenter's rights, a cash payment. The corporate action in these circumstances, therefore, is not some type of independent fiat, but is only the aggregate effect of the voluntary decisions made by the individual stockholders to accept or reject the exchange. Formalism should no longer deprive investors of the disclosure to which they are entitled.

The Commission also is aware that Rule 133 has caused anomolous applications of the provisions of the securities laws. For example, transactions which are deemed not to involve "sales" for purposes of section 5 of the Act, nevertheless are deemed to be "purchases" for purposes of section 16 of the Exchange Act. Moreover, transactions which are not deemed to be "sales" for purposes of section 5 of the Act, nevertheless are deemed to be "sales" for purposes of the antifraud provisions of the Act and Exchange Act and "sales" for purposes of the Public Utility Holding Company Act of 1935, the Trust Indenture Act of 1939, and the Investment Company Act of 1940.

In addition, the Commission has difficulty in reconciling Rule 133 with certain exemptive provisions of the Act. For example, section 3(a)(9) of the Act exempts from the registration provisions of the Act the issuance of securities in a reclassification only where no commission or other remuneration is paid or given directly or indirectly for solicitation. Notwithstanding, Rule 133 in effect provides an exemption from registration for the issuance of securities in a reclassification even though a commission or other remuneration is paid for solicitation. Further, section 3(a)(10) exempts from the registration provisions of the Act securities issued only in court or administratively supervised reorganizations. Yet Rule 133 in effect provides that securities issued in reorganizations of the type described therein are not subject to the registration provisions of the Act even though there is not judicial or administrative supervision.[1]

Furthermore, the Commission is aware of situations in which companies have utilized the rule to avoid or evade the registration provisions of the Act. This has resulted in large quantities of unregistered securities being distributed to the public and has not been in the public interest or for the protection of investors.

The Commission recognizes that the "no-sale" concept has been in existence in one form or another for a long period of time. Certain persons who commented on the October 9, 1969, and May 2, 1972, proposals have cited this as a reason for retaining the present Rule 133 and others have asserted that the Commission lacks the power to revise the rule. The Commission does not agree with these comments. Administrative agencies as well as courts from time to time change their interpretation of statutory provisions in the light of reexamination, new considerations, or changing conditions which indicate that earlier interpretations are no longer in keeping with the statutory objectives. The Commission believes, after a thorough reexamination of the studies and proposals cited above, that the interpretation embodied in Rule 133 is no longer consistent with the statutory objectives of the Act. The Commission's judgment is based upon a number of factors, including the observation that Rule 133 has enabled large amounts of securities to be distributed to the public without the protections afforded by the Act's registration provisions.

In view of the above, the Commission is of the opinion that transactions covered by Rule 133 involve a "sale," "offer," "offer to sell," or "offer for sale" as those terms are defined in section 2(3) of the Act. The Commission no longer sees any persuasive reason why, as a matter of statutory construction or policy, in light of the broad remedial purposes of the Act and of public policy which strongly supports registration, this should not be the interpretative meaning.

II. ADOPTION OF RULE 145. RECLASSIFICATIONS OF SECURITIES, MERGERS, CONSOLIDATIONS AND ACQUISITIONS OF ASSETS

A. *Preliminary note.* A preliminary note has been added to the rule in order to provide a convenient reference to assist in understanding and interpreting its provisions.

B. Rule 145(a)—*Transactions within the rule.* Paragraph (a) of Rule 145 provides that the submission to a vote of security holders of a proposal for certain reclassifications of securities, mergers, consolidations, or transfers of assets, is deemed to involve an "offer," "offer to sell," "offer for sale," or "sale" of the securities to be issued in the transaction. The effect of the rule is to require registration of the securities to be issued in connection with such transactions, unless an exemption from registration is available. In this regard, the purpose

[1] The legislative history of the Act contains the following statement with respect to this matter:

"Reorganizations carried out without such judicial supervision possess all the dangers implicit in the issuance of new securities and are, therefore, not exempt from the Act. For the same reason the provision (section 3(a)(10)) is not broad enough to include mergers or consolidations of corporations entered into without judicial supervision." H.R. Rep. No. 85, 73d Cong., 1st sess. (May 4, 1933) at p. 16.

and effect of the rule is the same set forth in the releases of October 9, 1969, and May 2, 1972, to rescind Rule 133 and promulgate a rule requiring registration under the Act of the securities to be offered.

In response to comments received from the public, several textual changes have been made in Rule 145(a) as proposed. As noticed for comment, the rule by its literal language only applied to business combinations involving "corporations." Rule 133 was intended to apply to business combinations involving corporations as well as other entities, such as partnerships and real estate investment trusts. Accordingly, the rule has been revised to read "corporation or other person" in order to make clear that it applies to all issuers, without distinction as to the form of business organization. Also, the phrase "certificate of incorporation" has been revised to read "certificate of incorporation or similar controlling instruments."

A number of comments focused upon the question of whether foreign issuers should be included within the scope of Rule 145. The Commission notes that certain provisions under the Exchange Act, and the rules promulgated thereunder, provide exemptions for foreign issuers from certain provisions of the Exchange Act (see Rules 12g3-2 and 3a12-3) (17 CFR 240.12g3-2 and 17 CFR 240.3a12-3). Similar exemptions for foreign issuers, however, do not appear in the Securities Act, and, in the Commission's opinion, there is no statutory basis for affording such exemptions by rule. The U.S. securities statutes were intended to protect U.S. investors who buy securities of foreign issuers, and the need for the protection afforded by registration is not diminished because the issuer has a foreign domicile.[2] Accordingly, Rule 145 will apply to foreign issuers making offers or sales of securities to U.S. investors, unless an exemption is available under the Securities Act. While it is noted that difficulties in meeting required accounting standards may arise for foreign issuers, the Commission has authority under Regulation S-X (17 CFR 210.01 et seq.) to waive or modify accounting requirements, and, to the extent applicable, Item 15(c) (17 CFR 240.14a-101 Item 15(c)) under the proxy rules allows the Commission to authorize the omission or substitution of financial statements. Various other forms contain similar provisions. The staff of the Commission will be available for consultation on such matters. To clarify the applicability of Rule 145 to foreign issuers, the phrase "state of incorporation" has been changed to read "jurisdiction".

Also in response to public comments, Rule 145 has been revised to make clear that it covers transactions involving action taken upon security holder approval. The words "or consent" have been added to the word "vote" wherever it appears.

[2] Foreign issuers frequently register rights offerings under the Securities Act when they have security holders who are residents of the United States.

1. *Rule 145(a)(1). Reclassifications.* Rule 145(a), as proposed, covered any reclassification "other than a stock split or reverse stock split which involves the substitution of a security for another security." The rule has been revised to also exclude any reclassification which involves only a change in par value.

2. *Rule 145(a)(2). Mergers or consolidations.* Rule 145(a)(2) has been revised in three respects. The first revision adds the phrase "or similar plan of acquisition" after the words "merger or consolidation" because a number of similar transactions do not fit precisely within the terms "merger or consolidation". The second revision adds the phrase "held by such security holders" to describe those securities which will become or be exchanged for other securities. This revision is designed to clarify that in a transaction of the character described in Rule 145(a), an offer occurs under the rule only as to security holders who are entitled to vote or consent to the matter, and who hold securities which become or will be exchanged for new securities. The third revision adds an exception to indicate that registration is not required where a merger or consolidation is effected solely to change an issuer's domicile.

Several commentators suggested that the applicability of Rule 145 to short form mergers should be clarified. In certain instances, State law allows a merger of a parent and its 85 to 90 percent owned subsidiary to be consummated without shareholder approval. Because Rule 145(a) is couched in terms of offers arising in connection with a submission for the vote or consent of security holders, short form mergers not requiring such vote or consent are not within the scope of the rule. However, if a security is to be issued in such short form mergers, the Commission is of the opinion that the transaction involves an "offer," "offer to sell," "offer for sale," or "sale," within the meaning of section 2(3) of the Act, and accordingly such transactions are subject to the registration provisions of the Act unless an exemption is available.

3. *Rule 145(a)(3). Transfers of assets.* Rule 145(a)(3) has been revised to clarify those conditions under which Rule 145 is applicable to a stock for assets transaction. As revised, the rule applies only if: (1) The matter voted upon provides for dissolution of the corporation receiving the securities; (2) the matter voted upon provides for a pro rata distribution by the corporation receiving the securities; (3) the directors of the corporation receiving the securities adopt resolutions relative to (1) to (2) within 1 year after the vote; or (4) a subsequent dissolution or distribution is part of a preexisting plan for distribution. However, if the securities acquired in the transaction are distributed after 1 year, notwithstanding the absence of a plan, such securities must be registered unless a statutory exemption from registration is then available.

With regard to the third condition above, if the vote of the stockholders of the selling corporation is taken to authorize the sale, and the selling corporation thereafter decides to dissolve or distribute the securities within 1 year after the transaction, the sale of assets and the dissolution or distribution by the selling corporation are deemed to be portions of the same transaction and to involve a sale for value of the purchasing corporation's stock to the shareholders of the selling corporation. Accordingly, the transaction should be registered on Form S-14[2] at the time the plan or agreement for the sale of assets is submitted to shareholders for their vote or consent if it is contemplated that the corporation receiving the securities will adopt resolutions within 1 year for dissolution or distribution of the securities received. If the transaction is not registered at the time of submission of the plan or agreement for the vote or consent of security holders, but a resolution for dissolution or distribution of the securities received is adopted within 1 year, the issuer should file a registration statement covering the dissolution or distribution of securities on the appropriate form other than Form S-14, unless an exemption is available.

C. Rule 145(b). Communications not deemed to be a "Prospectus" or "Offer to Sell." Notice of a proposed action or of a meeting of security holders for voting on transactions of the character specified in Rule 145 is generally sent or furnished to security holders. Because the rule will make the registration provisions of the Act applicable to these transactions, questions have been raised as to whether such notices will constitute statutory prospectuses or involve an offer for sale of a security. Paragraph (b) of Rule 145 is designed to resolve these questions by providing that any written communication which contains no more than the information specified in paragraph (b) of the rule shall not be deemed a prospectus for purposes of section 2(10) of the Act and shall not be deemed an "offer for sale" of the security involved for the purposes of section 5 of the Act.

Rule 145(b) has been revised to expand the permissible information that may be included in the announcement. The revised rule permits the identification of all parties to the transaction; a brief description of their business; a description of the basis upon which the transaction will be made; and any legend or similar statement required by Federal law or State or administrative authority Also, paragraph (b) of the rule has been revised to indicate that the notice may take the form of a written communication "or other published statement."

D. *Rule 145(c). Persons and parties deemed to be underwriters.* Rule 145(c), as proposed, contained specific criteria designed to clarify the underwriter status of persons who acquire substantial amounts of securities in a business combination registered on Form S-14, and who desire to resell such securities. The public comments on the proposal noted legal and policy arguments against any

V37-215 NOV 7 72 XUM

interpretation that imposes statutory underwriter status on persons solely by virtue of their receiving more than a certain amount of securities in a business combination. In addition, technical problems were cited in the application of the percentage tests in proposed Rule 145(c), and it was suggested that underwriter's liability should not be imposed on persons who may not be in a position to perform any necessary due diligence investigation. Others described the practical and regulatory problems that would arise if banks, investment companies, arbitrageurs and others enter into a Rule 145 transaction with marketable securities, but receive securities subject to trading restrictions. Because the question of the underwriter status of persons taking substantial portions of registered offerings arises in connection with all registered offerings, the Commission believes that the matter should be dealt with in a more comprehensive manner after further study, and not just in the limited context of business combinations.

Accordingly, Rule 145(c) has been revised by deleting the quantitative standards contained in the proposal and in lieu thereof criteria patterned after those now contained in Rule 133 have been substituted. Revised paragraph (c) of the rule provides that any party to any transaction specified in Rule 145(a), other than the issuer, or any person who is an affiliate of such party at the time any such transaction is submitted for vote or consent, who offers or sells securities acquired in such transaction, shall be deemed to be engaged in a distribution and therefore an underwriter, except with respect to the limited resales permitted pursuant to paragraph (d) of Rule 145. Moreover, from a practical standpoint, because such persons usually are in a position to verify the accuracy of information set forth in the registration statement, and usually are in a position to influence the transaction, the Commission believes that this provision is not unreasonably burdensome.

Rule 145(c) includes a definition of the term "party" with respect to the phrase "any party to any transaction specified in paragraph (a) * * *" The term is defined to mean the corporations, business entities, or other persons, other than the issuer, whose assets or capital structure are affected by the transaction specified in paragraph (a).

The securities received in a Rule 145 transaction by persons who are neither affiliates of the acquired company nor of the acquiring company are registered securities without restriction on resale.

E. *Rule 145(d).* Resale provisions for persons and parties deemed underwriters. Rule 145(d) provides that a person or party specified in paragraph (c) shall not be deemed to be engaged in a distribution if he sells in accordance with certain provisions of Rule 144: Paragraph (c) (current public information); (e) (limitation on amount of securities sold); (f) (manner of sale); and (g) (brokers' transactions). This provision is designed to permit public sale by such persons or parties in ordinary trading transactions of limited quantities of securities. Such resales are permissible within successive 6-month periods, but no accumulation is permitted, i.e., the person cannot skip 6 months and then sell an accumulated amount in the following 6 months.

The volume limitations of Rule 144(e) for resales of securities listed on a national securities exchange may be determined by reference to the average weekly trading volume for the 4 weeks preceding receipt of the order by the broker to execute the transaction. It should be noted that the holding period requirement of Rule 144(d), and the requirement to file a Form 144 (17 CFR 239.144) pursuant to Rule 144(h) are not applicable. In addition to resales permitted by Rule 145(d), the amended Form S–14 may be used for the registration under the Act of distributions by persons or parties who are deemed underwriters.

F. *Rule 145(e). Definition of "Person."* Paragraph (e) of Rule 145 provides that the term "person" in paragraphs (c) and (d) of the rule when used with reference to a person for whose account securities are to be sold, shall have the same meaning as the definition of that term in paragraph (a)(2) of Rule 144 under the Act.

III. 153A. DEFINITION OF "PRECEDED BY A PROSPECTUS" AS USED IN SECTION 5(B)(2) OF THE ACT, IN RELATION TO CERTAIN TRANSACTIONS REQUIRING APPROVAL OF SECURITY HOLDERS

Rule 153A defines the phrase "preceded by a prospectus" in connection with transactions of the type subject to Rule 145. The rule has been revised in two respects. First, the word "delivery" has been substituted for the word "sending" to conform the rule to the general instructions in Form S–14. Second, the rule has been revised to apply the delivery requirement when action is taken by consent.

The persons entitled to vote on or consent to a Rule 145 transaction will usually be determined either: (1) By the fixing of a record date for shareholders so entitled or, (2) by the closing of the stock transfer records of the acquired company. The group of persons thus determined may, because of interim transfers, vary somewhat from the group of persons ultimately entitled to receive the securities issued in the transaction. Thus, Rule 153A provides that the delivery of the final prospectus to security holders entitled to vote on or consent to the transaction shall be deemed to satisfy the prospectus delivery requirements of section 5(b)(2) of the Act.

IV. AMENDMENTS TO RULES 14a–2(d), 14a–6 AND 14C–5 UNDER THE EXCHANGE ACT.

A. *Rule 14a–2. Solicitations to which rules apply.* Rule 14a–2(d) under the Exchange Act provides that the proxy rules do not apply to any solicitation involved in the offer or sale of securities registered under the Securities Act. This provision has been amended to provide that the exemption from the proxy rules does not apply to solicitations involved in the offer or sale of registered securities to be issued in a transaction of the character specified in new Rule 145(a) under the Securities Act.

B. *Rule 14a–6. Material required to be filed.* Rule 14a–6 under the Exchange Act has been amended to provide that material required to be filed under that rule shall be deemed to be so filed when it is filed on a Form S–14 under the Securities Act. Thus, material filed with the registration statement will be deemed to have been filed under the proxy rules also, without the necessity of filing copies under those rules or payment of a proxy filing fee.

C. *Rule 14c–5. Filing of information statement.* To provide similar treatment for proxy material and information statements, an amendment to Rule 14c–5 under the Exchange, analogous to that to Rule 14a–6, has been adopted. That amendment provides that material filed in a Form S–14 registration statement under the Securities Act shall be deemed to satisfy the filing requirements of Regulation 14C (17 CFR 240.14c–1 et seq.) under the Exchange Act. In such instances, there will be no information statement filing fee required.

The amendment to Rule 14c–5 is a technical change which removes restrictions and reduces the filing burdens on registrants without sacrificing protection to investors. The Commission finds that the amendment is minor and not of material substance and, therefore, need not be published for comment pursuant to the Administrative Procedure Act.

V. AMENDMENTS TO FORM S–14

The Commission believes that registration of securities issued in transactions of the character specified in Rule 145 is practical and not unduly burdensome. However, the Commission is aware that registration of such securities imposes some additional burdens on issuers, and, in order to minimize these burdens to the extent feasible, particularly for small businesses, Form S–14 provides that the prospectus to be used shall consist of a proxy or information statement that meets the requirements of the Commission's proxy or information rules under section 14 of the Exchange Act. In the case of companies subject to those rules, the filing of the registration statement on Form S–14 satisfies the requirement for filing a proxy statement and form of proxy or information statement pursuant to those rules. Thus, registration will involve little additional work on the part of the companies subject to those rules who are required to solicit votes from their security holders, because the informational requirements will be the same for both. Where a company is not subject to the proxy rules, or is subject thereto but is not required to solicit votes from its security holders, the prospectus would contain the same information that would be required by the proxy rules. In this regard, the information requirements under section 14 of the Exchange Act are not as burdensome to small companies as are those under the Securities

Act. (See the discussion of financial statements below.)

A. *Instructions to Form S–14.* The proposed amendment to Form S–14 provided that the form would be available, generally, if the prospectus were delivered 20 days prior to the meeting date, unless such period were "in conflict" with State law. That amendment has been revised to provide that, if applicable law of the jurisdiction permits the furnishing of a notice of the meeting or other action within less than the 20-day period, then compliance with such law shall be deemed to satisfy the requirement.

General Instruction A to Form S–14 has been revised to make clear that the form may be utilized for reoffers of securities issued in Rule 145(a) type transactions to persons who may be deemed underwriters and who want to distribute such securities.

General Instruction D(a) to Form S–14 has been revised to make that if one party to a Rule 145 transaction is subject to Regulation 14A (17 CFR 240.14a–1 et seq.) or 14C as to a particular submission, and the other party is not, then the latter will not, by filing the Form S–14, be deemed to have filed materials subject to such regulations.

B. *Financial statements required in Form S–14.* Regulation 14A and 14C (Item 15–(b) of Schedule 14A), and thus Form S–14, require financial statements for each specified party to the transaction "such as would currently be required in an original registration statement for registration of securities of such persons pursuant to section 12 of the (Exchange) Act." Form 10, a form for a registration under the Exchange Act, requires a certified balance sheet as of the close of the registrant's last fiscal year and certified profit and loss and source and applications of funds statements for each of the 3 fiscal years preceding the date of the balance sheet. Item 15(c) of Schedule 14A to the proxy rules, which also applies to information statements and to Form S–14, provides that the Commission may permit the omission or substitution of certain financial statements

The financial statements of an acquired company not subject to the reporting provisions of the Exchange Act required to be furnished in Form S–14 will be the financial statements specified in Form 10 (17 CFR 249.210), certified to the extent practicable. In this regard, the standard of practicability is provided by Item 15(b) of Schedule 14A to the proxy rules. If such company cannot comply with the requirements of Form 10 on an uncertified basis, then the Commission, generally, for the purposes of the requirements of Form S–14, will require the financial statements specified in Item 11, Schedule I, Form I–A (17 CFR 239.90) under Regulation A of the Securities Act. (17 CFR 230.251 to 230.263.)

C. *Items 2 and 6; use of Form S–14 by persons and parties deemed underwriters.* A question has been raised as to whether securities to be offered for resale may initially be registered on Form S–14 when the consummation of the transaction described in Rule 145(a) has not yet occurred. Such registration will be permitted if the reoffering is made upon the consummation of the transaction. An instruction has been added in view of the language of section 6(a) of the Act that "(a) registration statement shall be deemed effective only as to the securities specified therein as proposed to be offered."

Item 6(a) of Form S–14 has been revised to make clear that a post-effective amendment need not be filed in connection with a reoffering, if all requisite information is already included therein. Item 6(a) has been further revised to make clear that the undertaking relates only to reofferings to be made through the use of Form S–14.

D. *Exhibits required in Form S–14.* In addition to exhibits relating to the Rule 145 transaction, all exhibits of Form 10 under the Exchange Act must be filed in a registration statement on Form S–14. However, in lieu of the Form 10 exhibits, an issuer may file certain exhibits required by Form S–7 (17 CFR 239.26) under the Securities Act, if the issuer otherwise meets the requirements for use of Form S–7.

OPERATION OF THE RULES

I. PROSPECTIVE RESCISSION OF RULE 133

Rule 133 is rescinded prospectively on and after January 1, 1973, with the following exceptions. First, the rule will continue to be available for completion or consummation of any transaction submitted before that date for vote or consent of security holders. Second, the rule will continue to be available for completion and consummation of any transaction which, before January 1, 1973, has been formally submitted for approval to any governmental regulatory agency, if such approval is required by law. Finally, Rule 133 will continue to be available for resales of securities received by persons in any transaction for which the rule is available.

II. RELATIONSHIP BETWEEN RULES 133 AND 144

Rule 144 is not available for resale of securities received in a Rule 133 transaction except for securities received by persons who are or become affiliates of the issuer. Such affiliates may also resell such securities in a registered offering, a private placement, or pursuant to some other statutory exemption.

III. RELATIONSHIP BETWEEN RULE 144 AND SECTION 4(2) BUSINESS COMBINATIONS

When the private placement exemption from registration is available under section 4(2) of the Act for a business combination, Rule 144 may be available for securities received in such transaction. However, with respect to the holding period for such securities, the present provisions of Rule 144(d) do not allow tacking of holding periods in business combination transactions. The Commission is reconsidering this matter and may take further action in this regard by rule amendment or interpretative release in the near future.

IV. ADOPTION OF RULE 145

Rule 145 is adopted effective on and after January 1, 1973. The rule applies to any transaction of the type described therein submitted for security holder vote or consent on or after that date, except that it shall not apply to any such transaction which has been formally submitted before such date to any governmental regulatory agency for approval, if such approval is required by law.

V. REGISTRATION FOR TRANSACTIONS OF THE TYPE SPECIFIED IN RULE 145

Form S–14 is not the exclusive form available for the registration under the Act of securities to be issued in a transaction of the type specified in Rule 145. Form S–1 (17 CFR 239.11) is available for registration of such transactions, but Forms S–7 and S–16 (17 CFR 239.27) are not available at this time. If Form S–1 is used, the information set forth therein should generally follow the format utilized for exchange offers, including a complete description of the parties, together with pro forma information on the resulting business entity.

When a registration statement is filed on Form S–14, the staff will accord it an appropriate type of review, as described in Securities Act Release No. 5231 (February 3, 1972) (37 F.R. 4327), and will attempt to review it with the same expediency afforded merger proxy materials.

Commission action. Pursuant to authority in sections 2(3), 2(10), 2(11), 4(1), 4(3), 4(4), 5, and 19(a) of the Securities Act of 1933, as amended, in sections 14(a), 14(c), and 23(a) of the Securities Exchange Act of 1934, as amended, in sections 12(e), and 20(a) of the Public Utility Holding Company Act of 1935, and in sections 20(a) and 38(a) of the Investment Company Act of 1940, the Securities and Exchange Commission hereby amends Parts 230, 239, and 240 of Chapter II of Title 17 of the Code of Federal Regulations by: (1) Adding a note at the end of § 230.133 to indicate that it is rescinded prospectively effective on and after January 1, 1973, except that it shall remain in effect under certain circumstances as indicated; (2) by adding new §§ 230.145 and 230.153a, effective on and after January 1, 1973, except that § 230.145 shall not apply to transactions submitted before that date for vote or consent of security holders, nor to transactions formally submitted for approval before that date to any governmental regulatory agency if such approval is required by law; (3) amending § 239.23 effective on and after January 1, 1973; and (4) amending §§ 240.14a–2, 240.14a–6, and 240.14c–5, effective on and after January 1, 1973; all as set forth below:

PART 230—GENERAL RULES AND

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

§ 230.133 Definition for purposes of section 5 of the act, of "sale," "offer," "offer to sell," and "offer for sale".

* * * * *

NOTE: This section is rescinded effective on and after January 1, 1973, except that it shall remain in effect: (1) For transactions submitted before that date for vote or consent of security holders; (2) for transactions formally submitted before such date for approval to any governmental regulatory agency; if such approval is required by law; and (3) for resales of securities received by persons in such transactions.

§ 230.145 Reclassification of securities, mergers, consolidations and acquisitions of assets.

PRELIMINARY NOTE

Section 230.145 is designed to make available the protection provided by registration under the Securities Act of 1933, as amended (Act), to persons who are offered securities in a business combination of the type described in paragraphs (a) (1), (2), and (3) of the rule. The thrust of the rule is that an "offer," "offer to sell," "offer for sale," or "sale" occurs when there is submitted to security holders a plan or agreement pursuant to which such holders are required to elect, on the basis of what is in substance a new investment decision, whether to accept a new or different security in exchange for their existing security. Rule 145 embodies the Commission's determination that such transactions are subject to the registration requirements of the Act, and that the previously existing "no-sale" theory of Rule 133 is no longer consistent with the statutory purposes of the Act. Rule 145 is effective for matters formally submitted for security holder vote or consent on or after January 1, 1973, except for those matters formally presented prior to that date to a governmental agency for approval, where such approval is required by law.

While Rule 133 (§ 230.133) is rescinded effective January 1, 1973, it will remain available for any transaction which, before that date, had been submitted to security holders for vote or consent, or which had been submitted formally to a governmental agency for approval where such approval was required by law. Rule 133 shall also remain available for resales of securities received by persons in any transaction for which Rule 133 was available.

In order to minimize the burdens of registration to the extent feasible, particularly for small businesses, the Commission has amended Form S–14 so that registration under the Securities Act may be effectuated through the use of the informational requirements under Regulation 14A or 14C of the Exchange Act, which are generally less burdensome than those of the Securities Act.

Transactions for which statutory exemptions under the Act, including those contained in sections 3(a) (9), (10), (11), and 4(2), are otherwise available are not affected by Rule 145.

NOTE 1: Reference is made to § 230.153a describing the prospectus delivery required in a transaction of the type referred to in § 230.145.

NOTE 2: A reclassification of securities covered by § 230.145 would be exempt from registration pursuant to section 3(a) (9) or (11) of the Act if the conditions of either of these sections are satisfied.

(a) *Transactions within this section.* An "offer," "offer to sell," "offer for sale," or "sale" shall be deemed to be involved, within the meaning of section 2(3) of the Act, so far as the security holders of a corporation or other person are concerned where, pursuant to statutory provisions of the jurisdiction under which such corporation or other person is organized, or pursuant to provisions contained in its certificate of incorporation or similar controlling instruments, or otherwise, there is submitted for the vote or consent of such security holders a plan or agreement for—

(1) *Reclassifications.* A reclassification of securities of such corporation or other person, other than a stock split, reverse stock split, or change in par value, which involves the substitution of a security for another security;

(2) *Mergers or consolidations.* A statutory merger or consolidation or similar plan or acquisition in which securities of such corporation or other person held by such security holders will become or be exchanged for securities of any other person, except where the sole purpose of the transaction is to change an issuer's domicile; or

(3) *Transfers of assets.* A transfer of assets of such corporation or other person, to another person in consideration of the issuance of securities of such other person or any of its affiliates, if:

(i) Such plan or agreement provides for dissolution of the corporation or other person whose security holders are voting or consenting; or

(ii) Such plan or agreement provides for a pro rata or similar distribution of such securities to the security holders voting or consenting; or

(iii) The board of directors or similar representatives of such corporation or other person, adopts resolutions relative to subdivision (i) or (ii) of this subparagraph within 1 year after the taking of such vote or consent; or

(iv) The transfer of assets is a part of a preexisting plan for distribution of such securities, notwithstanding subdivision (i), (ii), or (iii) of this subparagraph.

(b) *Communications not deemed to be a "Prospectus" or "Offer to Sell".* For the purpose of this section, the term "prospectus" as defined in section 2(10) of the Act and the term "offer to sell" in section 5 of the Act shall not be deemed to include the following:

(1) Any written communication or other published statement which contains no more than the following information: The name of the issuer of the securities to be offered, or the person whose assets are to be sold in exchange for the securities to be offered, and the names of other parties to any transaction specified in paragraph (a) of this section; a brief description of the business of parties to such transaction; the date, time, and place of the meeting of security holders to vote on or consent to any such transaction specified in paragraph (a) of this section; a brief description of the transaction to be acted upon and the basis upon which such transaction will be made; and any legend or similar statement required by State or Federal law or administrative authority.

(2) Any written communication subject to and meeting the requirements of paragraph (a) of § 240.14a–12 of this chapter and filed in accordance with paragraph (b) of that section.

(c) *Persons and parties deemed to be underwriters.* For purposes of this section, any party to any transaction specified in paragraph (a) of this section, other than the issuer, or any person who is an affiliate of such party at the time any such transaction is submitted for vote or consent, who publicly offers or sells securities of the issuer acquired in connection with any such transaction, shall be deemed to be engaged in a distribution and therefore to be an underwriter thereof within the meaning of section 2(11) of the Act. The term "party" as used in this paragraph (c) shall mean the corporations, business entities, or other persons, other than the issuer, whose assets or capital structure are affected by the transactions specified in paragraph (a) of this section.

(d) *Resale provisions for persons and parties deemed underwriters.* Notwithstanding the provisions of paragraph (c) of this section, a person or party specified therein shall not be deemed to be engaged in a distribution and therefore not to be an underwriter of registered securities acquired in a transaction specified in paragraph (a) of this section if such securities are sold by such person or party in accordance with the provisions of paragraphs (c), (e), (f), and (g) of § 230.144.

(e) *Definition of "person."* The term "person" as used in paragraphs (c) and (d) of this section, when used with reference to a person for whose account securities are to be sold, shall have the same meaning as the definition of that term in paragraph (a) (2) of § 230.144.

§ 230.153a Definition of "preceded by a prospectus" as used in section 5(b) (2) of the Act, in relation to certain transactions requiring approval of security holders.

The term "preceded by a prospectus," as used in section 5(b) (2) of the Act with respect to any requirement for the delivery of a prospectus to security holders of a corporation or other person, in connection with transactions of the character specified in paragraph (a) of § 230.145, shall mean the delivery of a prospectus:

(a) Prior to the vote of security holders on such transactions; or,

(b) With respect to actions taken by consent, prior to the earliest date on which the corporate action may be taken;

to all security holders of record of such corporation or other person, entitled to vote on or consent to the proposed transaction, at their address of record on the transfer records of the corporation or other person:

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

§ 239.23 Form S–14, for simplified registration procedure for securities in certain transactions under Rules 133 and 145 (17 CFR 230.133, 230.145).

This form and Form S–1 (17 CFR 239.11) may be used for registration under the Securities Act of 1933 of securities to be issued in a transaction specified in paragraph (a) of § 230.145: *Provided, however,* That Form S–14 shall not be so used unless the prospectus is delivered to security holders whose vote or consent is solicited at least 20 days prior to the date on which the meeting of such security holders is held: *Provided further,* That if applicable law of the jurisdiction permits the furnishing of a notice of the meeting or other actions within less than the 20-day period specified herein, then compliance with such provisions of such law shall be deemed to satisfy this requirement. Form S–14 may also be used by persons and parties who may be deemed underwriters, for the registration of a public reoffering of securities issued in a transaction specified in paragraph (a) of § 230.145 of this chapter or in a transaction specified in paragraph (a) of § 230.133 of this chapter exempted by the latter section prior to its rescission effective on and after January 1, 1973.

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

§ 240.14a–2 Solicitations to which §§ 240.14a–1 to 240.14a–11 apply.

Sections 240.14a–1 to 240.14a–11 apply to every solicitation of a proxy with respect to securities registered pursuant to section 12 of the Act, whether or not trading in such securities has been suspended, except the following:

* * * * *

(d) Any solicitation involved in the offer and sale of securities registered under the Securities Act of 1933: *Provided,* That this paragraph shall not apply to securities to be issued in any transaction of the character specified in paragraph (a) of § 230.145 of this chapter.

* * * * *

§ 240.14a–6 Material required to be filed.

* * * * *

(j) Notwithstanding the foregoing provisions of this section, any proxy statement, form of proxy or other soliciting material included in a registration statement filed under the Securities Act of 1933 on Form S–14 (§ 239.23 of this chapter) shall be deemed filed both for the purposes of that Act and for the purposes of this section, but separate copies of such material need not be furnished pursuant to this section nor shall any fee be required under paragraph (i) of this section. However, any additional soliciting material used after the effective date of the registration statement on Form S–14 shall be filed in accordance with this section but separate copies of such material need not be filed as an amendment of such registration statement.

§ 240.14c–5 Filing of information statement.

* * * * *

(e) Notwithstanding the foregoing provisions of this section, any information statement or other material included in a registration statement, filed under the Securities Act of 1933 on Form S–14 (§ 239.23 of this chapter) shall be deemed filed both for the purposes of that Act and for the purposes of this section, but separate copies of such material need not be furnished pursuant to this section nor shall any fee be required under paragraph (a) of this section. However, any additional material used after the effective date of the registration statement on Form S–14 shall be filed in accordance with this section but separate copies of such material need not be filed as an amendment of such registration statement.

(Secs. 2(3), 2(10), 2(11), 4(1), 4(3), 4(4), 5, 19(a), 48 Stat. 74, 77, 85, secs. 201, 203, 204, 209, 48 Stat. 905, 906, 908, secs. 1–4, 6, 7, 68 Stat. 683, 684, sec. 12, 78 Stat. 580, 15 U.S.C. 77b(3), 77(b)(10), 77(b)(11), 77d(1), 77d(3), 77d(4), 77e, 77s(a); secs. 14(a), 14(c), 23(a), 48 Stat. 895, 901, sec. 5, 78 Stat. 569, 570, secs. 203(a), 8, 49 Stat. 704, 1379, 15 U.S.C. 781m(a), 78m(c), 78w(a); secs. 12(e), 29(a), 49 Stat. 823, 833, 15 U.S.C. 79l(e), 79t(a); secs. 20(a), 38(a), 54 Stat. 822, 841, 15 U.S.C. 80a–20(a), 80a–37(a))

The Commission finds that the amendment to Rule 14c–5 under the Securities Exchange Act of 1934 is technical and removes restrictions and reduces filing burdens on registrants and accordingly further notice and other rule making procedures pursuant to the Administrative Procedure Act are not necessary.

Copies of amended Form S–14 have been filed with the Office of the Federal Register, and additional copies are available on request from the Securities and Exchange Commission, Washington, D.C. 20549.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

Title 29—LABOR

Chapter II—Office of the Assistant Secretary for Labor-Management Relations, Department of Labor

LABOR RELATIONS IN FEDERAL SERVICE

Miscellaneous Amendments

Notice is hereby given that F.R. Doc. 72–15390, published as a notice in Part II of the issue dated Friday, September 15, 1972, 37 F.R. 18780, is a final document of rules and regulations.

Further, F.R. Doc. 72–15390 which is a revision of Chapter II of Title 29, including Parts 201, 202, 203, 204, 205, and 206 is corrected and changed as follows:

1. At page 18787, § 203.6(b)(8): Insert the word "as" in between "be" and "provided"; change § 204.14 to § 203.14.

2. At page 18788, § 203.15(g): In the sixth line delete "Regional" following the word "designated."

3. At page 18795, § 204.70: In the first sentence of the text, delete the comma after the word "admission."

4. The titles of chief hearing examiner and hearing examiner as defined in Part 201, Subpart B, and as used in Parts 202–206, are hereby changed to Chief Administrative Law Judge and Administrative Law Judge, respectively.

Effective on publication in the FEDERAL REGISTER (11–7–72).

Signed at Washington, D.C., this 1st day of November 1972.

W. J. USERY, JR.,
Assistant Secretary of Labor for Labor-Management Relations.

Chapter V—Wage and Hour Division, Department of Labor

SUBCHAPTER B—STATEMENTS OF GENERAL POLICY OR INTERPRETATION NOT DIRECTLY RELATED TO REGULATIONS

PART 782—EXEMPTION FROM MAXIMUM HOURS PROVISIONS FOR CERTAIN EMPLOYEES OF MOTOR CARRIERS

Change of Position Regarding Employees Engaged in Transportation of Mail Under Contract With U.S. Postal Service

Section 13(b)(1) of the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 213(b)(1)), provides that section 7 of the Act relating to premium compensation for overtime work shall not apply with respect to any employee as to whom the Secretary of Transportation (prior to October 15, 1966, the Interstate Commerce Commission) has power to establish qualifications and maximum hours of service pursuant to the provisions of section 204 of the Motor Carrier Act, 1935, 49 Stat. 546, 49 U.S.C. 304, being Part II of the Interstate Commerce Act, added in 1935.

The Interstate Commerce Commission disclaimed jurisdiction under the Motor Carrier Act of employees engaged in the transportation of mail under contract with the Postal Service in vehicles used exclusively for that purpose (see 3 M.C.C. 694, 697); accordingly, the Department of Labor took the position that such employees of mail contractors were not within the overtime exemption provided by section 13(b)(1) of the Fair Labor Standards Act.

On June 14, 1972, the Department of Transportation published a notice in the FEDERAL REGISTER (37 F.R. 11781) asserting its power to establish qualifications and maximum hours of service of employees of contract mail haulers, thereby reversing the longstanding position of the Interstate Commerce Commission.

In deference to the foregoing assertion of jurisdiction by the Department of

Transportation, paragraph (b) of § 782.8

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 F.R. 17804,

XUM
V37-215 NOV 7 72 V
XUM

Transportation, paragraph (b) of § 782.8 of Regulations Part 782, Exemption from Maximum Hours Provisions for Certain Employees of Motor Carriers, is hereby revised. Pending authoritative decisions by the courts that the Secretary of Transportation does not have power to establish qualifications and maximum hours of service of employees of contract mail haulers, the Department of Labor will no longer assert that such employees are not within the overtime exemption provided by section 13(b)(1) of the Fair Labor Standards Act for overtime work performed after June 14, 1972.

This position is adopted without prejudice to the rights of individual employees under section 16(b) of the Fair Labor Standards Act.

This amendment is the legal consequence of the action of the Secretary of Transportation in assuming jurisdiction of these employees pursuant to section 204 of the Motor Carrier Act of 1935, and is procedural in nature. Accordingly, under the administrative procedures of 5 U.S.C. 553, it is found upon good cause that notice and other public procedures with respect to the amendment are impractical, unnecessary, and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Effective date. This amendment shall be effective upon publication in the FEDERAL REGISTER (11-7-72). As revised, § 782.8(b) reads as follows:

§ 782.8 Special classes of carriers.

* * * * *

(b) Prior to June 14, 1972, when the Department of Transportation published a notice in the FEDERAL REGISTER (37 F.R. 11781) asserting its power to establish qualifications and maximum hours of service of employees of contract mail haulers, thereby reversing the long-standing position of the Interstate Commerce Commission, the Administrator of the Wage and Hour Division had taken the position that employees engaged in the transportation of mail under contract with the Postal Service were not within the exemption provided by section 13(b)(1) of the Fair Labor Standards Act. As the result of the notice of June 14, 1972, the Administrator will no longer assert that employees of contract mail carriers are not within the 13(b)(1) exemption for overtime work performed after June 14, 1972, pending authoritative court decisions to the contrary. This position is adopted without prejudice to the rights of individual employees under section 16(b) of the Fair Labor Standards Act.

* * * * *

(52 Stat. 1060 as amended; 29 U.S.C. 201 et seq.)

Signed at Washington, D.C., this 2d day of November 1972.

HORACE E. MENASCO,
Administrator, Wage and Hour Division, U.S. Department of Labor.

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter X—Federal Insurance Administration, Department of Housing and Urban Development

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

Title 42—PUBLIC HEALTH

Chapter I—Public Health Service, Department of Health, Education, and Welfare

SUBCHAPTER G—OCCUPATIONAL SAFETY AND HEALTH RESEARCH AND RELATED ACTIVITIES

PART 85—REQUESTS FOR HEALTH HAZARD EVALUATIONS

On March 17, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 5634) which prescribed the conditions and procedures for conducting health hazard evaluations pursuant to section 20(a)(6) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669(a)(6)). That section directs the Secretary of Health, Education, and Welfare to determine, following a written request by any employer or authorized representative of employees, whether any substance normally found in a place of employment has potentially toxic effects in such concentrations as used or found and further provides that such determinations shall be submitted to the appropriate employer and affected employees.

Interested persons were invited to submit, within 30 days, written comments, suggestions, or objections regarding the proposed regulations.

In addition, on June 20, 1972, the proposed regulations and the issues raised by the public comments concerning them were discussed with the National Advisory Committee on Occupational Safety and Health established by section 7 of the Occupational Safety and Health Act. All public comments, as well as the views expressed by the members of the Committee, have been taken into consideration with the result that a number

of changes, as discussed below, have been

revealed that failure to give advance

during the initial physical inspection of

to preclude the use of other channels of

stance or in which such substance is

599-2 entitled "Identification Record")

XUM
V37-215 NOV 7 72
XUM

of changes, as discussed below, have been made in the regulations which were proposed. All comments in response to the rules as proposed and the transcript of the Committee proceedings on June 20 are available for public inspection at the National Institute for Occupational Safety and Health, Room 10–05, 5600 Fishers Lane, Rockville, MD.

1. *Applicability.* A statement has been added to the applicability section to indicate that Part 85 is not intended to preclude the use of other channels of communication with the National Institute for Occupational Safety and Health (NIOSH) to obtain information and assistance concerning toxic substances.

2. *Definitions.* Definitions of the terms "investigation" and "health hazard evaluation" have been added and these terms have been used throughout Part 85 in an effort to distinguish the physical inspection of a place of employment by NIOSH in conducting a health hazard evaluation, from the compliance inspection conducted by the Department of Labor. The definition of "toxic effects" has been revised to exclude those which produce acute discomfort.

3. *Procedures for requesting evaluations.* The main thrust of the comments on the procedures for requesting evaluations went to the question of who should be considered an "authorized representative of employees". The comments ranged from a suggestion that any individual employee should be allowed to make the request, to the contention that the authorized representatives should be limited to those who represent the employees for purposes of collective bargaining. The final regulations provide that an authorized representative may be either: (1) A representative for purposes of collective bargaining; (2) an employee of the employer who has written authorization from two or more employees employed in the work place where the substance is normally found, to represent them for purposes of the Act; or (3) where three or less employees are employed in the work place where the substance is normally found, any one of such employees. Objections to the Institute's withholding the identity of requesters have been considered and rejected. Such protection is, in our judgment, necessary to assure utilization of this procedure by employees. The option to withhold the requester's identity has been extended to those who have authorized the requester to represent them. Copies of these written authorizations must accompany the request.

4. *Authority for investigation.* The section has been amended to make clear that the duty to conduct a health hazard evaluation and the authority to investigate and inspect for purposes of conducting that evaluation extend only to the place of employment with respect to which the request has been made, which under the definition of "place of employment" can be the entire factory or a single work place.

5. *Advance notice of visits.* NIOSH experience over the last several months has revealed that failure to give advance notice can interfere with a thorough and effective plant visit and thus impede the health hazard evaluation. The very process to which the request is directed may not be in operation on the day of the visit and the problem becomes even more serious when the place of employment is not readily accessible. Furthermore, the employer and, in the case of employee requests, the employees may wish to have a particular representative accompany the NIOSH officer. The surprise visit would conflict with this desire. The Institute, after considering all comments on this matter, has concluded that the evil which this surprise visit is intended to avoid—the misrepresentation of actual production conditions—can be avoided by exercise of the authority under section 8 to conduct private interviews with appropriate employees. Thus, the Institute's decision to give employers advance notice must be read in the light of the authority of NIOSH to question employees privately.

Accordingly, the section on advance notice (§ 85.6) has been completely revised to provide that advance notices of visits to the place of employment may be given to expedite a thorough and effective investigation. Advance notice will not be given when, in the judgment of the NIOSH officer, giving such notice would adversely affect the validity and effectiveness of an investigation. In the case of employee requests, advance notice will be given by the Institute to the requester, the representative of the employees for purposes of collective bargaining if such representative is other than the requester, and to the employer. Where the request is from the employer, advance notice will be given to such employer and, upon the request of the employer, to an authorized representative of employees.

6. *Conduct of investigations.* The major change in section 85.7 concerns trade secret information. This provision has been expanded to set forth the procedure where the Institute questions the designation by an employer of certain information as trade secret information. Where the Institute questions the identification, the employer will be given written notice of the Institute's intention to remove the trade secret designation from such information. The employer may within that period request reconsideration and provide additional information in support of the trade secret designation. If, after reconsideration, the decision of NIOSH is to remove the designation, the employer shall then be notified. Since the decision does not become effective until 15 days after the date of the written notice, the employer has the opportunity to take appropriate steps to retain the trade secret designation.

7. *Representatives of employers and employees; employee requests.* This section of the regulations has been revised to provide that in the case of employee requests, a representative authorized by the employees shall be given an opportunity to accompany the NIOSH officer during the initial physical inspection of the workplace. Since NIOSH experience in the conduct of this program indicates that visits subsequent to the initial inspection are principally for the purpose of environmental sampling and medical examinations, the presence of the representative of employees will not be routinely requested during these aspects of the investigation.

8. *Imminent dangers.* In response to a number of comments, the term "serious hazard" has been deleted and the statutory phrase "imminent danger" has been substituted therefor.

9. *Notification of determination to employers, affected employees and Department of Labor.* The method of notifying affected employees of the determination was the subject of a substantial number of comments. Section 85.11 requires that the employer post a copy of the determination at or near the work places of the affected employees. However, no posting is required if the employer requests NIOSH to mail copies to the affected employees and furnishes the Institute with a list of the names and mailing addresses of the employees determined by NIOSH to be exposed to the substance which is the subject of the health hazard evaluation.

Effective date. These regulations shall be effective 30 days after their publication in the FEDERAL REGISTER.

Dated: October 16, 1972.

VERNON E. WILSON,
Administrator, Health Services and Mental Health Administration.

Approved: October 30, 1972.

ELLIOT L. RICHARDSON,
Secretary.

Sec.
85.1 Applicability.
85.2 Definitions.
85.3 Procedures for requesting health hazard evaluations.
85.4 Acting on requests.
85.5 Authority for investigations.
85.6 Advance notice of visits.
85.7 Conduct of investigations.
85.8 Provision of suitable space for employee interviews and examinations; identification of employees.
85.9 Representatives of employers and employees; employee requests.
85.10 Imminent dangers.
85.11 Notification of determination to employers, affected employees, and Department of Labor.
85.12 Subsequent requests for health hazard evaluations.

AUTHORITY: The provisions of this Part 85 issued under the authority of section 8(g), 84 Stat. 1600; 29 U.S.C. 657(g).

§ 85.1 Applicability.

The provisions of this Part 85 are applicable to requests submitted by any employer or authorized representative of employees pursuant to section 20(a)(6) of the Occupational Safety and Health Act of 1970 for a determination of potentially toxic effects of any substance normally used or found in any place of employment to which the Act is applicable. This Part 85 is not intended

to preclude the use of other channels of communication with the National Institute for Occupational Safety and Health to obtain information and technical assistance related to toxic substances.

§ 85.2 Definitions.

Any term defined in the Occupational Safety and Health Act of 1970 and not defined below shall have the meaning given it in the Act. As used in this part:

(a) "Act" means the Occupational Safety and Health Act of 1970 (29 U.S.C. 651, et seq.).

(b) "Authorized representative of employees" means any person or organization meeting the conditions specified in § 85.3(b)(4) (i), (ii), or (iii).

(c) "Investigation" includes a physical inspection of the place of employment pursuant to section 8 of the Act and means such inspection, sampling, observations, and other measurements reasonably necessary to determine whether any substance found in the place of employment for which the request is made has potentially toxic effects in such concentrations as used or found.

(d) "Health hazard evaluation" means the investigation and the determination of potentially toxic effects of any substance normally used or found in any place of employment to which the Act is applicable.

(e) "Place of employment" means any factory, plant, establishment, construction site, or other area, workplace, or environment where work is performed by any employee of an employer.

(f) "NIOSH" means the National Institute for Occupational Safety and Health.

(g) "NIOSH officer" means a person authorized by NIOSH to conduct investigations.

(h) "Substance means any chemical or biological agent which has the potential to produce toxic effects.

(i) "Toxic effects" are those which result in short- or long-term disease, bodily injury, affect health adversely, or endanger the life of man.

§ 85.3 Procedures for requesting health hazard evaluations.

(a) A request for a health hazard evaluation should be addressed to the National Institute for Occupational Safety and Health, Hazard Evaluation Services Branch, U.S. Department of Health, Education, and Welfare, Cincinnati, Ohio 45202.

(b) A request for such an evaluation shall:

(1) Be in writing and signed by (i) the employer in whose place of employment the substance is normally found, or (ii) by an authorized representative of employees who are employed by such employer;

(2) State the requester's name, address, and telephone number, if any; the address of the place of employment where the substance is normally found; the specific workplace or workplaces involved, and the specific process or type of work which is the source of the substance or in which such substance is used;

(3) Specify with reasonable particularity the nature of the conditions, circumstances, or other grounds on which the request is made;

(4) State, where the requester is other than the employer:

(i) That he is an authorized representative, or an officer, of the organization representing the employees for purposes of collective bargaining; or

(ii) That he is an employee of the employer and is authorized by two or more employees employed in the workplace where the substance is normally found to represent them for purposes of the Act. Each such authorization shall be in writing and included in the request; or

(iii) That he is one of three or less employees employed in the workplace where the substance is normally found.

(5) Indicate whether the requester or those persons who have authorized the requester to represent them desire that NIOSH not reveal their names to the employer.

(c) The request shall, if the information is known to the requester:

(1) Identify the potentially toxic substance or substances involved;

(2) State the trade name, chemical name, and the manufacturer of each such substance;

(3) State whether the substance or the container of such substance has a warning label; and

(4) Specify the physical form of the substance, number of people exposed, length of exposure (hours/day), and occupations of exposed employees.

NOTE: The National Institute for Occupational Safety and Health has developed a form, entitled "Request for Health Hazard Evaluation," to assist persons in requesting evaluations under this part. Forms are available upon request from NIOSH, Hazard Evaluation Services Branch, Cincinnati, Ohio 45202, or from the NIOSH representative in any Regional Office of the Department of Health, Education, and Welfare.

§ 85.4 Acting on requests.

(a) When a request meeting the requirements of this part has been submitted in accordance therewith and designated employees of NIOSH have concluded that there is reasonable cause to believe that an investigation is warranted, a NIOSH officer will inspect the place of employment, collect samples where appropriate and perform such tests as necessary, including medical examinations of employees, to the conduct of a health hazard evaluation.

(b) If there is no reasonable cause to conclude that an investigation is warranted, the requester shall be notified in writing of such decision.

(c) Investigations shall be conducted in accordance with the requirements of this part.

§ 85.5 Authority for investigations.

(a) Employees of the National Institute for Occupational Safety and Health who have been issued the NIOSH official credentials (consisting of HSM Form 599–2 entitled "Identification Record") are authorized by the Director, NIOSH, for the purposes of section 20(a)(6) of the Act and pursuant to section 8, to enter without delay and at reasonable times any place of employment for which a request has been submitted, to inspect and investigate during regular working hours and at other reasonable times, and within reasonable limits and in a reasonable manner, any such place of employment, and all pertinent conditions, structures, machines, apparatus, devices, equipment, and materials therein as may be directly related to the determination whether any substance normally found in the place of employment for which a request has been submitted has potentially toxic effects in such concentrations as used or found. In connection with any such investigation, such NIOSH employees may question privately any employer, owner, operator, agent, or employee and review records required by the Act and regulations, and other related records.

(b) Areas containing information which is classified by any agency of the U.S. Government in the interest of national security will be inspected only by NIOSH employees who have obtained the appropriate security clearance.

§ 85.6 Advance notice of visits.

(a) Advance notice of visits to the place of employment may be given to expedite a thorough and effective investigation. Advance notice will not be given when, in the judgment of the NIOSH officer, giving such notice would adversely affect the validity and effectiveness of the investigation.

(b) Where a request in accordance with this part has been made by an authorized representative of employees, advance notice in accordance with paragraph (a) of this section will be given by NIOSH to the requester, the representative of the employees for purposes of collective bargaining if such representative is other than the requester, and to the employer.

(c) Where a request in accordance with this part has been made by any employer, advance notice will be given by NIOSH to the employer. Upon the request of the employer, NIOSH will inform the authorized representative of employees of the visit: *Provided*, The employer furnishes NIOSH in writing with the identity of such representative and with such information as is necessary to enable NIOSH promptly to inform such representative of the visit.

§ 85.7 Conduct of investigations.

(a) Prior to beginning an investigation, NIOSH officers shall present their credentials to the owner, operator, or agent in charge at the place of employment, explain the nature, purpose, and scope of the investigation and the records specified in § 85.5 which they wish to review. Where the investigation is the result of a request submitted by an authorized representative of employees, a copy of the request shall be provided to the employer, except where the requester or any person authorizing the requester pursuant to § 85.3(b)(4)(ii) has indicated

to NIOSH not reveal his name to the a health hazard evaluation has been danger of such allegation and will inform

Big Pine Flat Station Administrative Site der No. 10355 of May 26, 1952 (17 F.R.

XUM
V37-215 NOV 7 72 V
XUM

that NIOSH not reveal his name to the employer, in which case, a summary of the basis for the request shall be provided to the employer.

(b) At the commencement of an investigation, the employer should precisely identify information which can be obtained in the workplace or workplaces to be inspected as trade secrets. If the NIOSH officer has no clear reason to question such identification, such information shall not be disclosed except in accordance with the provisions of section 20(a)(6) and section 15 of the Act. However, if NIOSH at any time questions such identification by an employer, not less than 15 days' notice to an employer shall be given of the intention to remove the trade secret designation from such information. The employer may within that period submit a request to the Director, NIOSH, to reconsider this intention and may provide additional information in support of the trade secret designation. The Director, NIOSH, shall notify the employer in writing of the decision which will become effective no sooner than 15 days after the date of such notice.

(c) NIOSH officers are authorized to collect environmental samples and samples of substances, to take or obtain photographs related to the purpose of the investigation, employ other reasonable investigative techniques, including medical examinations of employees with the consent of such employees, and to question privately any employer, owner, operator, agent, or employee. The employer shall have the opportunity to review photographs taken or obtained for the purpose of identifying those which contain or might reveal a trade secret.

(d) NIOSH officers shall comply with all safety and health rules and practices at the place of employment being investigated, and they shall provide and use appropriate protective clothing and equipment. In situations requiring specialized or unique types of protective equipment, such equipment shall be furnished by the employer.

(e) The conduct of investigations shall be such as to preclude unreasonable disruption of the operations of the employer's establishment.

§ 85.8 Provision of suitable space for employee interviews and examinations; identification of employees.

An employer shall, on request of the NIOSH officer, provide suitable space, if such space is reasonably available, to NIOSH to conduct private interviews with, and examinations of, employees. NIOSH officers shall consult with the employer as to the time and place of the medical examination and shall schedule such examinations so as to avoid undue disruption of the operations of the employer's establishment. NIOSH shall conduct, and assume the medical costs of, examinations conducted under this part.

§ 85.9 Representatives of employers and employees; employee requests.

(a) NIOSH officers shall be in charge of investigations. Where the request for a health hazard evaluation has been made by an authorized representative of employees, a representative of the employer and a representative authorized by his employees who is an employee of the employer shall be given an opportunity to accompany the NIOSH officer during the initial physical inspection of any workplace for the purpose of aiding the investigation by identifying the suspected hazard. The NIOSH officer may permit additional employer representatives and such additional representatives authorized by employees to accompany him where he determines that such additional representatives will further aid the investigation. However, if in the judgment of the NIOSH officer, good cause has been shown why accompaniment by a third party who is not an employee of the employer is reasonably necessary to the conduct of an effective and thorough investigation of the workplace, such third party may accompany the NIOSH officer during the inspection: *Provided, however,* That access by such persons to areas described in paragraph (d) of this section shall be in accordance with the requirements of such provision, and access to areas described in paragraph (e) of this section shall be with the consent of the employer. A different employer and employee representative may accompany the officer during each different phase of an inspection if this will not interfere with the conduct of the investigation.

(b) NIOSH officers are authorized to resolve all disputes as to who is the representative authorized by the employer and employees for the purpose of this section. If there is no authorized representative of employees, or if the NIOSH officer is unable to determine with reasonable certainty who is such representative, he shall consult with a reasonable number of employees concerning matters directly related to the health hazard evaluation.

(c) NIOSH officers are authorized to deny the right of accompaniment under this section to any person whose conduct interferes with a fair and orderly physical inspection.

(d) With regard to information classified by an agency of the U.S. Government in the interest of national security, only persons authorized to have access to such information may accompany an officer in areas containing such information.

(e) Upon request of an employer, any representative authorized under this § 85.9 by employees in any area containing trade secrets shall be an employee in that area or an employee authorized by the employer to enter that area.

§ 85.10 Imminent dangers.

Whenever, during the course of, or as a result of, an investigation under this part, the NIOSH officer believes that there is a reasonable basis for an allegation of an imminent danger, NIOSH will immediately advise the employer and those employees who appear to be in immediate danger of such allegation and will inform appropriate representatives of the Department of Labor or the State agency designated under section 18(b) of the Act.

§ 85.11 Notification of determination to employers, affected employees and Department of Labor.

(a) A determination made pursuant to section 20(a)(6) of the Act will, as a minimum: (1) Identify and set forth, where appropriate, the concentrations of the substance(s) found in the place of employment and the conditions of use, and (2) state whether such substance(s) has potentially toxic effects in such concentrations, as well as the basis for such judgments.

(b) Copies of the determination will be mailed to the employer and to the authorized representatives of employees.

(c) Except as hereinafter provided, the employer shall post a copy of the determination for a period of 30 calendar days at or near the workplace(s) of affected employees. The employer shall take steps to insure that the posted determinations are not altered, defaced, or covered by other material during such period. The employer will not be required to post the determination if the employer requests that copies of the determination be mailed to affected employees and furnishes NIOSH with a list of the names and mailing addresses of the employees employed in the workplace(s) designated by the NIOSH Officer. In the latter event, NIOSH will mail such copies to affected employees at the mailing addresses provided by the employer.

(d) For purposes of this section, the term "affected employees" means those employees determined by NIOSH to be exposed to the substance(s) which is the subject of the health hazard evaluation.

(e) Copies of all determinations will be forwarded to the Department of Labor and the appropriate State agency designated under section 18(b) of the Act. If the Secretary of Health, Education, and Welfare determines that any substance is potentially toxic at the concentrations in which it is used or found in a place of employment, and such substance is not covered by an occupational safety or health standard promulgated under section 6 of the Act, the Secretary of Health, Education, and Welfare will immediately submit such determination to the Secretary of Labor together with all pertinent criteria.

§ 85.12 Subsequent requests for health hazard evaluations.

Where a request is received for a health hazard evaluation in a place of employment in which an evaluation under this part previously has been made, the Secretary may make a subsequent investigation if, as a result of the passage of time or additional information, he deems such a subsequent investigation consistent with the purpose of the Act.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5295]

[Riverside 07376]

CALIFORNIA

Withdrawal for National Forest Administrative Sites and Recreation Areas

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C., Ch. 2, but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

SAN BERNARDINO NATIONAL FOREST

SAN BERNARDINO MERIDIAN

Big Bear Ranger Station Administrative Site

T. 2 N., R. 1 E.,
Sec. 6, E½ of lot 13 and lot 14.

Pine Knot Public Campground

T. 2 N., R. 1 E.,
Sec. 28, W½NE¼NE¼, NW¼NE¼, and NE¼NW¼.

Onyx Summit Station Administrative Site and Onyx Peak Fire Lookout

T. 1 N., R. 2 E.,
Sec. 12, NE¼NE¼.

T. 1 N., R. 3 E.,
Sec. 6, E½SW¼ of lot 14 and SE¼ of lot 14.

Greenspot Picnic Ground

T. 2 N., R. 2 E.,
Sec. 30, SW¼NE¼SE¼ and SE¼NW¼SE¼.

Pipes Canyon Public Campground

T. 1 N., R. 3 E.,
Sec. 10, N½N½SE¼SW¼.

Round Valley Public Campground

T. 2 N., R. 3 E.,
Sec. 19, W½SW¼SW¼SE¼ and E½SE¼SE¼SW¼.

Hannah Flat Public Campground

T. 2 N., R. 1 W.,
Sec. 3, SW¼NW¼, SW¼SE¼NW¼, N½NE¼SW¼, and NE¼NW¼SW¼.

Coldbrook Public Campground and Cozy Dell Picnic Area

T. 2 N., R. 1 W.,
Sec. 25, NE¼NE¼ and E½NW¼NE¼.

Siberia Creek Public Campground

T. 2 N., R. 1 W.,
Sec. 32, SW¼NE¼SW¼SW¼, SE¼NW¼SW¼SW¼, NE¼SW¼SW¼SW¼, and NW¼SE¼SW¼SW¼.

Worlds Champion Lodgepole Pine

T. 2 N., R. 1 W.,
Sec. 34, S½NE¼NW¼ and N½SE¼NW¼.

Big Pine Flat Station Administrative Site and Public Campground

T. 3 N., R. 1 W.,
Sec. 29, SW¼NW¼;
Sec. 30, E½E½NE¼ and E½W½E½NE¼.

Horse Springs Public Campground

T. 3 N., R. 2 W.,
Sec. 15, NE¼NE¼NE¼.

Warm Springs Public Campground

T. 3 N., R. 3 W.,
Sec. 14, NE¼SW¼SW¼.

The areas described aggregate 563.25 acres, more or less, in San Bernardino County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

HARRISON LOESCH,
Assistant Secretary of the Interior.

NOVEMBER 1, 1972.

[FR Doc.72-18992 Filed 11-6-72;8:47 am]

[Public Land Order 5296]

[Riverside 05191]

CALIFORNIA

Partial Revocation of Reclamation Withdrawal

By virtue of the authority contained in section 3 of the Act of June 17, 1902, as amended and supplemented, 43 U.S.C. section 416 (1970), it is ordered as follows:

1. The departmental order of October 16, 1931, withdrawing lands for the Colorado River storage project, is hereby revoked so far as it affects the following described lands:

SAN BERNARDINO MERIDIAN

T. 9 N., R. 23 E.,
Sec. 30, SW¼SE¼SE¼SW¼, SE¼SW¼SE¼SW¼;
Sec. 31, NW¼NE¼NE¼NW¼, NE¼NW¼NE¼NW¼.

The areas described aggregate 10 acres in San Bernardino County.

2. The land has been determined to be "property" within the meaning of the Federal Property and Administrative Services Act of 1949, as amended, 40 U.S.C. section 471 (1970), and it has been disposed of under the provisions of said Act.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Partial Revocation of Public Land Order No. 1161

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Public Land Order No. 1161 of June 6, 1955, withdrawing national forest lands for administrative sites, recreation areas, and for other public purposes, is hereby revoked so far as it affects the following described lands:

GILA AND SALT RIVER MERIDIAN

TONTO NATIONAL FOREST

Upper Camp Creek Recreation Area

T. 7 N., R. 5 E., unsurveyed.
Sec. 26, E½NE¼SW¼, NW¼NE¼SW¼, N½SW¼NE¼SW¼, W½SW¼SW¼, E½SE¼SW¼.

The areas described aggregate approximately 75 acres in Maricopa County.

2. At 10 a.m., on December 7, 1972, the lands shall be open to such forms of disposal as may by law be made of national forest lands.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Withdrawal for Protection and Expansion of Primitive Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws, for the expansion and protection of the Aravaipa Canyon Primitive Area:

GILA AND SALT RIVER MERIDIAN

T. 6 S., R. 18 E.,
Sec. 15, S½S½;
Sec. 24, S½SE¼;
Sec. 25, W½E½, W½.
T. 6 S., R. 19 E.,
Sec. 19, lot 4;
Sec. 30, lots 2 to 6, inclusive, SW¼NE¼, W½SE¼.

The areas described aggregate 1,062.70 acres in Pinal and Graham Counties.

2. The Bureau of Land Management will administer the use of these lands in such a manner as will complement and supplement administration of the adjacent Aravaipa Canyon Primitive Area designated by the order of the Secretary of the Interior of January 10, 1969.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Bureau of Mines

[30 CFR Part 71]

COAL MINE HEALTH AND SAFETY

Notice of Proposed Rule Making

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior under section 101(e) of the Federal Coal Mine Health and Safety Act of 1969, as amended (83 Stat. 745; 30 U.S.C. 811(e)) to propose mandatory health standards which have been developed by the Secretary of Health, Education, and Welfare and transmitted to the Secretary of the Interior in accordance with the procedures provided in section 101(d) of the Act (83 Stat. 745; 30 U.S.C. 811(d)), it is proposed that Subparts B, C, and D of Part 71, Subchapter O of Chapter I, Title 30, Code of Federal Regulations be amended as set forth below.

The dust standards (Subpart B) would be amended to require frequent dust sampling of the working environments of miners who show evidence of the development of pneumoconiosis and who have exercised their options to transfer to jobs in less dusty areas which are located on the surface. The standards for airborne contaminants (Subpart C) would be amended to reflect the latest findings of the American Conference of Governmental Industrial Hygienists. In addition, a new standard would be prescribed for asbestos to conform to the recommendations developed recently by the National Institute for Occupational Safety and Health. Amendments to the noise standard (Subpart D) are intended to clarify the reporting requirements and the action required of the operator in case the standard is violated.

Interested persons may submit written comments, suggestions, or objections to the Director, Bureau of Mines, Washington, D.C. 20240, no later than 45 days following publication of this notice in the FEDERAL REGISTER.

HOLLIS M. DOLE,
Assistant Secretary of the Interior.

NOVEMBER 2, 1972.

Part 71 would be amended as set forth below:

1. The following new section would be inserted in Subpart B:

§ 71.110-1 Periodic sampling; transferred miners.

At least once every 90 days, one sample of respirable dust shall be taken from the atmosphere to which each miner who has exercised his option to transfer under section 203(b) of the Act is exposed.

2. In Subpart C, § 71.200(a) would be amended and a new § 71.202 would be inserted as set forth below:

§ 71.200 Inhalation hazards; threshold limit values for gases, dust, fumes, mists, and vapors.

(a) No operator of an underground coal mine and no operator of a surface coal mine may permit any person working at a surface installation or surface worksite to be exposed to airborne contaminants (other than respirable coal mine dust, respirable dust containing quartz, and asbestos dust) in excess of, on the basis of a time-weighted average, the threshold limit values adopted by the American Conference of Governmental Industrial Hygienists in "Threshold Limit Values of Airborne Contaminants" (1972) which is hereby incorporated by reference and made a part hereof. Excursions above the listed threshold limit values shall not be of greater magnitude than is characterized as permissible by the conference. This paragraph does not apply to airborne contaminants given a "C" designation by the conference in the document. This document is available for examination at the Bureau of Mines, 18th and C Streets NW., Washington, D.C.; at every Coal Mine Health and Safety District and Subdistrict Office; at the National Institute for Occupational Safety and Health, 5600 Fishers Lane, Rockville, MD; and at the Public Health Service Information Centers listed in 45 CFR 5.31. Copies of the document may be purchased from the Secretary-Treasurer, American Conference of Governmental Industrial Hygienists, Post Office Box 1937, Cincinnati, OH 45202.

* * * * *

§ 71.202 Asbestos dust standard; measurement.

(a) The 8-hour average airborne concentration of asbestos dust to which miners are exposed shall not exceed two fibers per cubic centimeter of air. Exposure to a concentration greater than two fibers per cubic centimeter of air, but not to exceed 10 fibers per cubic centimeter of air, may be permitted for a total of 1 hour each 8-hour day.

(b) The determination of fiber concentration shall be made by counting all fibers longer than 5 micrometers in length and with a length-to-width ratio of at least 3 to 1 in at least 20 randomly selected fields using phase contrast microscopy at 400-450 magnification.

3. Subpart D would be amended by inserting the following new sections:

§ 71.302 Initial noise level survey.

On or before December 31, 1972, each operator shall:

(a) Conduct, in accordance with this subpart, a survey of the noise levels to which each miner in each surface installation and at each surface worksite is exposed during his normal work shift; and,

(b) Report and certify to the Bureau of Mines and the Department of Health, Education, and Welfare, the results of such survey using the Coal Mine Noise Data Report. (See Figure 1, Part 70 of this subchapter.) Reports shall be sent to:

Division of Automatic Data Processing, Post Office Box 25407, Building 41, Denver Federal Center, Denver, CO 80225.

§ 71.303 Periodic noise level survey.

(a) At intervals of at least every 6 months after December 31, 1972, but in no case shall the interval be less than 3 months, each operator shall conduct periodic surveys of the noise levels to which each miner in each surface installation and at each surface worksite is exposed and shall report and certify the results of such surveys to the Bureau of Mines, and the Department of Health, Education, and Welfare, using the Coal Mine Noise Data Report Form. Reports shall be sent to:

Division of Automatic Data Processing, Post Office Box 25407, Building 41, Denver Federal Center, Denver, CO 80225.

(b) Where no A-scale reading recorded for any miner during an initial or periodic noise level survey exceeds 90 dBa, the operator shall not be required to survey such miner during any subsequent periodic noise level survey required by this section: *Provided, however*, That the name and job position of each such miner shall be reported in every periodic survey and the operator shall certify that such miner's job duties and noise exposure levels have not changed substantially during the proceding 6-month period.

§ 71.304 Supplemental noise level survey; reports and certification.

(a) Where the certified results of an initial noise level survey conducted in accordance with § 71.302 or a periodic noise level survey conducted in accordance with § 71.303 show that any miner is exposed to a noise level in excess of the permissible noise level, the operator shall conduct a supplemental noise level survey with respect to each miner whose noise exposure exceeds this standard. This survey shall be conducted within 15 days following notification to the operator by the Bureau of Mines to conduct such survey.

(b) Supplemental noise level surveys shall be conducted by taking noise level measurements in accordance with § 70.506 of this Subchapter O; however, noise level measurements shall be taken during the entire period of each individual operation to which the miner under consideration is actually exposed during his normal work shift.

(c) Each operator shall report and cer-

proposed to amend 29 CFR 1910.103, 104,

tively, and provided titles, to establish

leaks and other malfunctions and prompt repair made of deficiencies. No empty

Schedule shall be considered as having

(c) Before employees commence equipment repair or transfer of fuel or

V37-215 NOV 7 72 XUM V

(c) Each operator shall report and certify the results of each supplemental noise level survey conducted in accordance with this section to the Bureau of Mines and the Department of Health, Education, and Welfare using the Coal Mine Noise Data Report Form to record noise level readings taken with respect to all operations during which such measurements were taken.

(d) Supplemental noise level surveys shall, upon completion, be mailed to:

Division of Automatic Data Processing, Post Office Box 25407, Building 41, Denver Federal Center, Denver, CO 80225.

§ 71.305 Violation of noise standard: notice of violation; action required by operator.

(a) Where the results of a supplemental noise level survey conducted in accordance with § 71.304 show that any miner is exposed to noise levels which exceed the permissible noise levels, the Secretary shall issue a notice to the operator that he is in violation of this subpart.

(b) Upon receipt of a notice of violation issued pursuant to paragraph (a) of this section, the operator shall:

(1) Institute, promptly, administrative and/or engineering controls necessary to assure compliance with the standard. Such controls may include protective devices other than those devices or systems which the Secretary or his authorized representative finds to be hazardous in such mine.

(2) Within 60 days following the issuance of any notice of violation of this subpart, submit for approval to a joint Bureau of Mines/Health, Education, and Welfare committee, a plan for the administration of a continuing, effective hearing conservation program to assure compliance with this subpart, including provision for:

(i) Reducing environmental noise levels;

(ii) Personal ear protective devices to be made available to the miners;

(iii) Preemployment and periodic audiograms.

(3) Plans required under subparagraph (2) of this paragraph shall be submitted to:

Division of Automatic Data Processing, Post Office Box 25407, Building 41, Denver Federal Center, Denver, CO 80225.

[FR Doc.72-19020 Filed 11-6-72;8:46 am]

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

SAFETY AND HEALTH STANDARDS Hazardous Materials

Pursuant to section 6(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593; 29 U.S.C. 655), Secretary of Labor's Order No. 12-71 (36 F.R. 8754), and 29 CFR Part 1911 (36 F.R. 17506), it is hereby proposed to amend 29 CFR 1910.103, 104, 106, 107, and 110 as set forth below.

The changes proposed herein are summarized as follows:

1. *Unattended service stations.* Since the promulgation of Part 1910—Occupational Safety and Health Standards—in May 1972, a number of inquiries have been made as to the application of § 1910.106(g)(3)(vii), to unattended service stations, where a customer inserts coins or bills into an automatic dispenser and fills the tank of his vehicle himself. While such stations are not regularly attended, it is nonetheless necessary for some person, often an employee, to enter the station to collect the money, refill the storage tanks, and service the equipment. Accordingly, a proposal is made herein to establish requirements tailored to the protection of employees required to enter a generally unattended service station, which may be exposed to careless action of customers or vandalism either of which could create potentially hazardous conditions for employees.

2. *Inspections.* Hydrogen and oxygen systems, supplied by gas or liquid brought to the user's site by carriers, have generally been inspected and maintained by the same entity supplying the hydrogen and oxygen as many users may not have the technical skills within their own organizations to perform necessary inspections or maintenance. This general arrangement is embodied in the requirements of § 1910.103 (b)(5)(i) and (c)(5)(i), and § 1910.104(b)(10)(i), which were developed by The National Fire Protection Association recognizing both the potential hazards and the industry practices developed to deal with them. This is on its face too restrictive. Some users do possess the necessary skills. It is not necessary that such employers contract for service they can perform themselves. Consequently, the requirement for supplier or contract inspection and maintenance is proposed to be deleted. It is also proposed that such inspection be performed at least monthly, with maintenance at such times as disclosed to be necessary by the inspection.

3. *Protection by public fire department.* Protection for exposure, which is now defined in § 1910.106(a)(27) to include fire protection "acceptable to the authority having jurisdiction" would be made more specific by stating that such protection would mean that the establishment is "located within the jurisdiction of a public fire department having a Class 5 or better rating by application of the American Insurance Association Grading Schedule."

4. *Miscellaneous changes.* In § 1910.106(c)(2)(i) and (ii), "malleable iron" would be recognized as being an acceptable material along with steel and nodular iron. This recognizes a long history of satisfactory use in many industries.

In § 1910.106(d)(7)(i)(b)(1), the reference to the word "approved" would be changed to apply the requirements of § 1910.159. In addition (1), (2), and (3) appearing under (b) would be correctly renumbered (ii), (iii), and (iv) respectively, and provided titles, to establish them at the same organization level as the same provisions in NFPA 30–1969, the source standard.

In § 1910.106(g)(1)(i), (d) would be revoked since this material actually describes a variance properly handled in accordance with 29 CFR Part 1905.

In § 1910.106(g)(1)(i)(e), (3) would be revoked since safety of employees does not depend on the ownership of vehicles being serviced.

In § 1910.106(g)(3)(iv)(b), a new requirement would be established requiring evidence of listing on fuel dispensing nozzles to be affixed so as to show whether such nozzles had been dismantled, and to prohibit the use of nozzles which do not have intact evidence.

In § 1910.107(b)(1), the specification of 18 gage steel would be deleted, since the performance requirement is adequate to insure safety without reference to a specific gage of steel.

In § 1910.107(d)(2), the words "or property" would be deleted, since the Act is not addressed to property protection.

In § 1910.110(f)(5)(iii), the words "single strength glass or other similar" would be deleted. The deletion does not prohibit the use of such glass, but removes any implication that it is the only recommended or best method of explosion-relieving construction.

Written data, views, and arguments concerning the proposals may be mailed to the Office of Standards, Room 500, 400 First Street NW., Washington, DC 20210, within 30 days after the publication of this notice in the FEDERAL REGISTER. The data, views, and arguments will be available for public inspection and copying at the Office of Standards located at the above address. Pursuant to 29 CFR 1911.11 (b) and (c), interested persons may, in addition to filing written matter as provided above, file objections to the proposal requesting an informal hearing with respect thereto in accordance with the following conditions:

(1) The objections must include the name and address of the objector;

(2) The objections must be postmarked on or before the 30th day after the date of publication of this notice of proposed rule making;

(3) The objections must specify with particularity the provision of the proposed rule to which objection is taken, and must state the grounds therefor;

(4) Each objection must be separately stated and numbered; and

(5) The objections must be accompanied by a summary of the evidence proposed to be adduced at the requested hearing.

1. As amended 29 CFR 1910.103 (b)(5)(i) and (c)(5)(i) would read as follows:

§ 1910.103 Hydrogen.

* * * * * *

(b) *Gaseous hydrogen systems.* * * *

(5) *Maintenance*—(i) *Inspection.* The equipment and functioning of each charged gaseous hydrogen system shall be inspected not less than monthly for

leaks and other malfunctions and prompt repair made of deficiencies. No empty system shall be charged until a complete inspection of all equipment and functions is completed, and such inspection assures that the equipment and functions are safe. A written record of each inspection, including the items inspected, type of inspection, and results, shall be made, and shall be maintained at the establishment for a period of not less than 3 years.

* * * * * *

(c) *Liquefied hydrogen systems.* * * *

(5) *Maintenance*—(i) *Inspection.* The equipment and functioning of each charged liquefied hydrogen system shall be inspected not less than monthly for leaks and other malfunctions, and prompt repair made of deficiencies. No empty system shall be charged until a complete inspection of all equipment and functions is completed, and such inspection assures that the equipment and functions are safe. A written report of each inspection, including the items inspected, type of inspection, and results, shall be made, and shall be maintained at the establishment for a period of not less than 3 years.

* * * * * *

2. As amended 29 CFR 1910.104(b)(10)(i) would read as follows:

§ 1910.104 Oxygen.

(b) *Bulk oxygen systems.* * * *

(10) *Maintenance* — (i) *Inspection.* The equipment and functioning of each charged bulk oxygen system shall be inspected not less than monthly for leaks and other malfunctions, and prompt repair made of deficiencies. No empty system shall be charged until a complete inspection of all equipment and functions is completed, and such inspection assures that the equipment and functions are safe. A written record of each inspection, including the items inspected, type of inspection, and results, shall be made, and shall be maintained at the establishment for a period of not less than 3 years.

* * * * * *

3. As amended, 29 CFR 1910.106 (a)(27), (c)(2)(i), (c)(2)(ii), (d)(7)(ii) (now incorrectly numbered (d)(7)(i)(b)(1)), (d)(7)(iii) (now incorrectly numbered (d)(7)(i)(b)(2)), (d)(7)(iv) (now incorrectly numbered (d)(7)(i)(b)(3)), (g)(1)(i)(d), (g)(1)(i)(e)(3), (g)(3)(iv)(b), and (g)(3)(vii) would read as follows:

§ 1910.106 Flammable and combustible liquids.

(a) *Definitions.* * * *

(27) Protection for exposure shall mean fire protection for structures on property adjacent to tanks. Such structures located within the jurisdiction of a public fire department having a Class 5 or better rating by application of the American Insurance Association Grading Schedule shall be considered as having such protection.

* * * * * *

(c) *Piping, valves, and fittings.* * * *

(2) *Materials for piping, valves, and fittings*—(i) *Required materials.* Materials for piping, valves, or fittings shall be steel, nodular iron, or malleable iron except as provided in subdivisions (ii), (iii), and (iv) of this subparagraph.

(ii) *Exceptions.* Materials other than steel, nodular iron, or malleable iron may be used underground or if required by the properties of the flammable or combustible liquid handled. Materials other than steel, nodular iron, or malleable iron shall be designed to specifications embodying principles recognized as good engineering practices for the material used.

* * * * * *

(d) *Container and portable tank storage.* * * *

(7) *Fire control.* * * *

(ii) *Sprinklers.* When sprinklers are provided, they shall be installed in accordance with § 1910.159.

(iii) *Open flames and smoking.* Open flames and smoking shall not be permitted in flammable or combustible liquids storage areas.

(iv) *Water reactive materials.* Materials which will react with water shall not be stored in the same room with flammable or combustible liquids.

* * * * * *

(g) *Service stations*—(1) *Storage and handling*—(i) *General provisions.* * * *

(d) [Revoked.]

(e) * * *

(3) [Revoked.]

* * * * * *

(3) *Dispensing systems.* * * *

(iv) *Dispensing units.* * * *

(b) Dispensing devices for Class I liquids shall be listed. All nozzles installed on or after January 1, 1973, shall have evidence of listing affixed in such manner that any attempt at dismantling the nozzle will destroy such evidence. After January 1, 1977, all nozzles shall have evidence of listing so affixed. No nozzle produced with such evidence shall be used if the evidence is broken or missing.

* * * * * *

(vii) *Unattended public dispensing stations.* (a) As used in this subdivision an unattended public dispensing station shall mean any installation open to the public where flammable or combustible liquids are dispensed without the presence of a trained and designated attendant whose primary duties include controlling the dispensing of liquids.

(b) An unattended public dispensing station shall have a listed master electrical disconnect at least 50 feet, but not more than 100 feet, from the pump installation. Such disconnect shall be located so that an employee does not have to approach within 50 feet to the pump installation to reach it. Operation of the disconnect shall interrupt all powerlines in the station, including the neutral.

(c) Before employees commence equipment repair or transfer of fuel or similar work at the station:

(1) Power shall be removed from the pumps and other equipment at the pump installation, except that lights may be left on;

(2) The station shall be barricaded and posted to prevent entry of unauthorized vehicles and persons during the period of work; and

(3) The station shall be freed of spilled fuel and other hazards presenting serious injury potential.

(d) Electrical power may be restored during repair and maintenance operations for test purposes, with appropriate safeguards to ignition sources.

* * * * * *

4. As amended § 1910.107 (b)(1) and (d)(2) would read as follows:

§ 1910.107 Spray finishing using flammable and combustible materials.

* * * * * *

(b) *Spray booths*—(1) *Construction.* Spray booths shall be substantially constructed of steel, securely and rigidly supported, or of concrete or masonry, except that aluminum or other substantial noncombustible materials may be used for intermittent or low volume spraying. Spray booths shall be designed to sweep air currents toward the exhaust outlet.

* * * * * *

(d) *Ventilation.* * * *

(2) *General.* All spraying areas shall be provided with mechanical ventilation adequate to remove flammable vapors, mists, or powders to a safe location and to confine and control combustible residues so that life is not endangered. Mechanical ventilation shall be kept in operation at all times while spraying operations are being conducted and for a sufficient time thereafter to allow vapors from drying coated articles and drying finishing material residue to be exhausted.

* * * * * *

5. As amended § 1910.110(f)(5)(iii) would read as follows:

§ 1910.110 Storage and handling of liquefied petroleum gases.

* * * * * *

(f) *Storage of containers awaiting use.* * * *

(5) *Storage within special buildings or rooms.* * * *

(iii) A portion of the exterior walls or roof having an area not less than 10 percent of that of the combined area of the enclosing walls shall be of explosion relieving material.

* * * * * *

(Sec. 6, 84 Stat. 1593; 29 U.S.C. 655)

Signed at Washington, D.C., this 1st day of November 1972.

G. C. GUENTHER,
Assistant Secretary of Labor.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 71-SO-166]

ADDITIONAL CONTROL AREAS

Proposed Designation

The Federal Aviation Administration (FAA) is considering amendments to Part 71 of the Federal Aviation Regulations that would designate additional control areas along the east coast of the United States.

Consistent with this proposal, nonrule making action will be required to alter Warning Areas W-132, W-157, W-158A, and W-160 as described herein. Procedures for joint use of these areas by the using agency and the FAA must also be established.

The proposed designation of controlled airspace will permit vectoring of traffic from overland routes or Control 1150 through the above mentioned warning areas when said areas are not being used by the using agency.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 20636, Atlanta, GA 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO international standards and recommended practices.

Applicability of international standards and recommended practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The international standards and recommended practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, where air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the international standards and recommended practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its standards and recommended practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since these actions involve, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The airspace actions proposed in this docket would designate additional control areas as follows:

1. That airspace extending upward from 2,000 feet MSL bounded on the north by Control 1152; on the east by Control 1150; on the south by Control 1153, and on the west by a line 3 nautical miles from and parallel to the shoreline.

2. That airspace extending upward from 2,000 feet MSL bounded on the north by Control 1153; on the east by Control 1150; on the south by a line extending from Lat. 29°21'30" N., Long. 79°08'05" W. westerly to Lat. 28°49'00" N., Long. 80°41'00" W.; and on the west by a line 3 nautical miles from and parallel to the shoreline.

The nonrule making action associated with the proposed amendments would alter certain warning areas.

1. W-132 would be redefined as follows:

Boundaries: Beginning at Lat. 32°33'00"N., Long. 79°22'00" W.; to Lat. 32°15'00" N., Long. 78°32'00" W.; to Lat. 32°00'00" N., Long. 78°36'00" W.; to Lat. 32°00'00" N., Long. 79°22'00" W.; to point of beginning.

Altitude: Surface to and including FL-800.

Time of use: Daily, 0700 to 2300 local time.

Using agency: Commander, Naval Base, Charleston, S.C.

Controlling agency: Federal Aviation Administration, ARTC Center, Jacksonville, Fla.

2. W-133 would be established as a new area as follows:

Boundaries: Beginning at Lat. 32°42'10" N., Long. 79°45'30" W.; to Lat. 32°33'00" N., Long. 79°22'00" W.; to Lat. 32°00'00" N., Long. 80°29'00" W.; to Lat. 32°29'30" N., Long. 80°10'55" W.; thence along a line 3 nautical miles from and parallel to the shoreline to point of beginning.

Altitude: Surface to and including 4,500 feet MSL.

Time of use: Daily, 0700 to 2300 local time.

Using agency: Commander, Naval Base, Charleston, S.C.

Controlling agency: Federal Aviation Administration, ARTC Center, Jacksonville, Fla.

3. W-134 would be established as a new area as follows:

Boundaries: Beginning at Lat. 32°42'10" N., Long. 79°45'30" W.; to Lat. 32°33'00" N., Long. 79°22'00" W.; to Lat. 32°00'00" N., Long. 79°22'00" W.; to Lat. 32°00'00" N., Long. 80°29'00" W.; to Lat. 32°29'30" N., Long. 80°10'55" W.; thence along a line 3 nautical miles from and parallel to the shoreline to point of beginning.

Altitude: From 4,500 feet MSL to and including FL-800.

Time of use: Daily, 0700 to 2300 local time.

Using agency: Commanding Officer, Marine Corps Air Station, Beaufort, S.C.

Controlling agency: Federal Aviation Administration ARTC Center, Jacksonville, Fla.

4. W-157 would be modified as follows:

a. Change the time of use from "Continuous" to "0600 to 0300 local time the following day (21 hours), 7 days per week."

b. Add "Controlling Agency: Federal Aviation Administration, ARTC Center, Jacksonville, Fla."

5. W-158A would be modified as follows:

a. Change the time of use from "Continuous" to "0600 to 0300 local time the following day (21 hours), 7 days per week."

b. Add "Controlling Agency: Federal Aviation Administration, ARTC Center, Jacksonville, Fla."

6. W-160 would be modified as follows:

a. Change the altitude from "Surface to Unlimited" to "Surface to FL-550."

b. Change the time of use from "Sunrise to Sunset" to "0600 to 0300 local time the following day (21 hours), 7 days per week."

c. Add "Controlling Agency: Federal Aviation Administration, ARTC Center, Jacksonville, Fla."

These amendments are proposed under the authority of section 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 F.R. 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on October 31, 1972.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[14 CFR Part 71]

[Airspace Docket No. 72-WA-11]

MIAMI, FLA.

Proposed Terminal Control Area

The Federal Aviation Administration (FAA) is considering the adoption of a Group I terminal control area for Miami, Fla. Rules for the control and segregation of all aircraft operated within terminal control areas are contained in Part 91, § 91.70 and 91.90 of the Federal Aviation Regulations. Further information concerning flight within TCAs is contained in FAA Advisory Circular AC No. 91-30 dated 6/11/70, subject: Terminal Control Areas (TCA).

Interested persons may participate in the propdsed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 20636, Atlanta, GA 30320. All communications received within 60 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO international standards and recommended practices.

Applicability of international standards and recommended practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The international standards and recommended practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the international standards and recommended practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its standards and recommended practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft. Also, the proposed rule places no requirements on foreign aircraft operating in international airspace.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

On January 21, 1970, the Federal Aviation Administration held a public hearing in Miami to discuss the original TCA concept designed for the Miami terminal area. On May 19, 1970, a meeting was held with the users and user representatives in the local Miami area to consider the problems associated with the TCA airspace configuration. Although many persons objected to the proposed TCA, most opposition was directed to the concept rather than specific aspects of the Miami proposal.

Further action on the Miami TCA was suspended until early in 1972, when the airspace requirements were reviewed in light of operational knowledge derived from currently established TCA's and a revised plan was presented at user meetings on April 6 and June 7, 1972. Again, there were many objections and again most opposition was directed to the TCA concept rather than specific aspects of the Miami proposal. The proposal presented at the June 7, 1972, meeting contained a north/south VFR corridor over the Miami Airport as suggested by some of the users at the April 6, 1972, meeting. However, in response to numerous objections to the corridor, it has been deleted from this notice. In further response to user comments stating operational requirements for seaplane operations along Biscayne Bay, that airspace below 1,000 feet m.s.l. over Biscayne Bay has been excluded from the proposed TCA.

In consideration of the foregoing, it is proposed to amend Part 71 of the Federal Aviation Regulations by adding the following to § 71.401(a) Group I terminal control areas.

MIAMI, FLA., TERMINAL CONTROL AREA

PRIMARY AIRPORT

Miami International Airport (lat. 25°47'-34" N., long. 80°17'10" W.).

Boundaries

Area "A"

The airspace extending upward from the surface to 7,000 feet m.s.l. within an 8-mile radius of Miami International Airport (lat. 25°47'34" N., long. 80°17'10" W.) extending clockwise from the 000° bearing to the 180° bearing from the Miami International Airport; and within a 9-mile radius of the Miami International Airport extending clockwise from the 180° bearing to the 360° bearing from the Miami International Airport; excluding that airspace within and underlying Areas B, C, and E.

Area "B"

The airspace over Biscayne Bay extending upward from 1,000 feet m.s.l. to 7,000 feet m.s.l. bounded on the east by the arc of an 8-mile circle centered on the Miami International Airport, on the south by the Biscayne VORTAC 269° radial, and on the west by the west shoreline of Biscayne Bay.

Area "C"

The airspace north of Miami extending upward from 5,000 to 7,000 feet m.s.l., beginning at the intersection of the arc of a 15-mile radius circle centered on Miami International Airport and Miami VOR 089° radial, thence west along this radial, to and southwest along the 038° bearing from the center of Miami International Airport, to and west along lat. 25°52'34" N., to and northwest along Miami VOR 130° radial, to Miami VOR, thence west along Miami VOR 269° radial, to and clockwise along the arc of a 15-mile radius circle centered on Miami International Airport, to point of beginning.

Area "D"

The airspace east of Miami extending upward from 2,000 to 7,000 feet m.s.l., bounded on the north by Miami VOR 089° radial, on the east by the arc of a 20-mile radius circle centered on Miami International Airport, on the south by Biscayne VOR 089° and 269° radials, on the west by the arc of an 8-mile radius circle centered on the Miami International Airport and on the northwest by the 038° bearing from the center of Miami International Airport.

Area "E"

The airspace south of Miami extending upward from 5,000 to 7,000 feet m.s.l., bounded on the north by Biscayne VOR 089° and 269° radials, and on the southeast, south, and southwest by the arc of a 15-mile radius circle centered on Miami International Airport.

Area "F"

The airspace west of Miami extending upward from 2,000 to 7,000 feet m.s.l. bounded on the north by Miami VOR 269° radial, on the northeast by Miami VOR 130° radial, on the east by Area "A," on the south by Biscayne VOR 269° radial, and on the west by the arc of a 20-mile radius circle centered on Miami International Airport.

This amendment is proposed under the authority of sections 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510) Executive Order 10854 (24 F.R. 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on October 31, 1972.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

National Highway Traffic Safety Administration

[49 CFR Part 573]

[Docket No. 69-31; Notice 4]

DEFECT INFORMATION REPORT

Submission of Vehicle Identification Numbers

This notice proposes an amendment to the Defect Reports regulation that would require manufacturers of motor vehicles to include in defect information reports the vehicle identification numbers (VIN's) of all vehicles possibly involved in the notification campaign. The Defect Reports regulation was published February 17, 1971 (36 F.R. 3064), and August 11, 1971 (36 F.R. 14742).

The regulation presently requires defect information reports (§ 573.4), in describing the vehicles which are sub-

ject to the campaign which the report

Interested persons are invited to sub-

ant to the marketing agreement and order

handlers, and distributors of cream substitutes

1. The center heading "Equine Infectious Anemia (Swamp Fever)" would be

tificate meet the requirements of § 75.5(c)

XUM
V37-215 NOV 7 72 V
XUM

ject to the campaign which the report concerns, to contain, "identifying classifications of the vehicles potentially affected by the defect, including make, model, model year if appropriate, any other data necessary to describe the affected vehicles, and the inclusive dates (month and year) of manufacture." Manufacturers are not required to include vehicle identification numbers as part of this information, although they are free to do so.

The NHTSA has become aware that the notification of owners and the repair of defective vehicles might be improved by requiring manufacturers to make available as a matter of course the vehicle identification numbers of vehicles involved in notification campaigns. The State Farm Insurance Co., for example, has indicated in correspondence with the Administration that if supplied with VIN's of defective vehicles, it could through its data facilities notify the present owner of any involved vehicle that it insures. This notification would reach many owners of older vehicles, who may be second or third owners whose names and addresses are not available to manufacturers.

The Center for Auto Safety has petitioned directly that VIN's be provided in defect information reports. Their petition maintains that the availability of VIN's would facilitate the ability of consumers to determine whether their vehicles have been the subject of a campaign. They further argue that VIN's could also be used by State inspection facilities in determining whether vehicles subject to recall campaigns have been repaired.

The NHTSA believes these arguments to be of substantial merit, and accordingly proposes by this notice to require manufacturers to include vehicle identification numbers in defect information reports. These reports are presently made available to the public as a matter of course, and vehicle identification numbers would be similarly available.

The proposal also would substitute "line" for "model" in the list of required information regarding affected vehicles. It appears that "model" can refer to a number of different descriptive categories and is consequently ambiguous. "Line," which is based on SAE Recommended Practice J-218, "Passenger Car Identification Terminology," is specific, denoting a family of vehicles within a make.

In light of the above, it is proposed that § 573.4(c)(2) of 49 CFR Part 573, "Defects Reports," be amended to read as follows:

§ 573.4 Defect information report.

* * * * *

(c) * * *

(2) Identifying classifications of the vehicles potentially affected by the defect, including make, line, vehicle identification number, model year if appropriate, any other data necessary to describe the affected vehicles, and the inclusive dates (month and year) of manufacture.

* * * * *

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on February 2, 1973, will be considered, and will be available for examination in the docket at the above address both before and after the closing date. To the extent possible, comments filed after the above date will also be considered by the Administration. However, the rule making action may proceed at any time after that date, and comments received after the closing date and, too late for consideration in regard to the action will be treated as suggestions for future rule making. The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Proposed effective date: July 1, 1973.

This notice is issued pursuant to sections 103, 112, 113, and 119 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1392, 1401, 1402, 1407) and the delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on October 31, 1972.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

Agricultural Marketing Service

[7 CFR Part 911]

[Docket No. AO-267-A7]

LIMES GROWN IN FLORIDA

Withdrawal of Hearing Notice and Termination of Proceeding with Respect to Proposed Further Amendment of the Marketing Agreement and Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR Part 900), a notice setting forth a proposal, a location, date, and time for a public hearing was published in the FEDERAL REGISTER (37 F.R. 20951), with respect to proposed amendment of the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 37 F.R. 10497), regulating the handling of limes grown in Florida. This proposal was submitted by the Florida Lime Administrative Committee, the administrative agency established pursuant to the marketing agreement and order.

On August 9, 1972, when the committee at its regular monthly meeting, with all members or alternates present, unanimously recommended to the Secretary that a hearing be held to consider its proposal for further amendment of the marketing agreement and order, there was no industry opposition to the proposed amendment.

Since the time the committee submitted its proposal, several large volume handlers of Florida limes withdrew their support of the proposed amendment, and at its meeting on October 31, 1972, a majority of grower and handler members and alternates serving on the committee recommended withdrawal of the proposed amendment, that the hearing not be held on November 9, 1972, as stated in said notice of hearing and that the hearing be postponed indefinitely.

In view of the changed situation with respect to grower and handler support since the proposal was submitted, it is concluded that no useful purpose would be served by indefinite postponement of the hearing. Therefore, the notice of hearing (37 F.R. 20951) is hereby withdrawn and the proceeding terminated.

Dated: November 3, 1972.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

[7 CFR Part 1099]

MILK IN THE PADUCAH, KY., MARKETING AREA

Termination of Proceeding To Suspend a Certain Provision of the Order

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), notice of proposed rulemaking was issued by the Deputy Administrator, Regulatory Programs, on October 3, 1972, with respect to a proposed suspension of a certain provision of the order regulating the handling of milk in the Paducah, Ky., marketing area. Interested persons were invited to submit views, data, or arguments to the Hearing Clerk not later than October 17, 1972, in connection with the proposed suspension.

The provision in § 1099.15 proposed to be suspended reads, "cream, sweet and sour;". Suspension of this language from the order would result in fluid cream being classified and priced as a Class II product rather than as a Class I product. The proposed suspension was requested by Dairymen, Inc., a cooperative association representing a substantial majority of the producers on the market, and by Ryan Milk Co., Inc., a fully regulated handler under the order. Proponents contend that the proposed suspension would enable Ryan Milk Co. to better compete with handlers regulated under other Federal milk orders, unregulated

handlers, and distributors of cream substitutes.

Several handlers and another cooperative association submitted written views opposing the proposed suspension. All such handlers compete with proponent Paducah handler in one or more Federal order markets in which the latter distributes cream. The cooperative association, which processes cream and cream products, also represents producers supplying milk to a number of these same markets.

Most of the parties opposed to the proposed suspension objected to the reclassification of any milk product, including cream, on an order by order basis. Opponents argued, in general, that the granting of this suspension in the Paducah order would create inequities in other marketing areas where the Paducah regulated handler competes for sales of fluid cream.

While the proposed suspension would reduce the cost of milk for cream use to the Ryan Milk Co., it would not do so for regulated handlers with whom it competes for cream sales. Ryan Milk Co. competes for cream sales with handlers regulated under 17 different Federal milk orders. Sixteen of these orders continue to classify fluid cream as a Class I product. Although the matter of reclassifying cream for all such markets (and others) is under consideration in another proceeding, it would not be appropriate, particularly in view of vigorous objection, to provide a time advantage for a single market through suspension procedure.

On the basis of available information, it is concluded that the aforesaid provision should not be suspended.

It is hereby found and determined that the proposed suspension should not be effectuated and that the proceeding begun in this matter on October 3, 1972, should be and is hereby terminated.

Signed at Washington, D.C., on November 2, 1972.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

Animal and Plant Health Inspection Service

[9 CFR Part 75]

EQUINE INFECTIOUS ANEMIA (SWAMP FEVER)

Interstate Movement of Certain Animals

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that pursuant to the provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, and the Act of March 3, 1905, as amended (21 U.S.C. 111-113, 115, 117, 120, 121, 123-126), the Department is considering amending Part 75, Title 9, Code of Federal Regulations, in the following respects:

1. The center heading "Equine Infectious Anemia (Swamp Fever)" would be inserted just after § 75.4.

2. The following section would be added to Part 75:

§ 75.5 Notice relating to existence of equine infectious anemia (swamp fever), and conditions of interstate movement of certain animals.

(a) Notice is hereby given that equine infectious anemia (swamp fever), a communicable disase of horses, asses, mules, ponies, and zebras exists in all States.

(b) *Definitions.* For the purposes of this section, the following terms shall have the meanings set forth in this paragraph. See also definitions in § 71.1 of this chapter.

(1) *Official test.* The Agar gel immuno/diffusion test for equine infectious anemia conducted in a laboratory approved by the Secretary for the purpose of conducting this test. Laboratories will be approved by the Secretary following the determination by him that the laboratory: (i) Has adequately trained technical personnel assigned to conduct the test, (ii) uses USDA licensed antigen, (iii) follows standard test protocol, (iv) meets check test proficiency requirements, and (v) reports all test results to State and Federal animal health officials.[1]

(2) *Reactor.* Any horse, ass, mule, pony, or zebra which discloses a positive reaction to the official test.

(3) *Officially identified.* The permanent identification by a Veterinary Services inspector, State inspector, or an accredited veterinarian of a reactor, using a hot iron brand, freezemarking, or a chemical brand, to apply the letter "A" and the National Uniform Tag code number assigned by the Department to the State in which the reactor was tested. Such markings shall not be less than 3 inches high on the left thigh of such reactor.[2]

(4) *Certificate.* An official document issued by a State or Federal inspector or by an accredited veterinarian at the point of origin of the shipment on which are listed: (i) The description, age, breed, color, sex, distinctive markings when present (such as brands, tattoos, scars, or blemishes) on each reactor to be moved; (ii) the number of animals covered by the document; (iii) the purpose for which the animals are to be moved; (iv) the points of origin and destination; (v) the consignor; and (vi) the consignee; and which states that the animal or animals identified on the certificate meet the requirements of § 75.5(c).

(5) *Veterinary services inspector.* A veterinarian or livestock inspector employed by Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, in animal health activities, who is authorized to perform the function involved.

(6) *State inspector.* A veterinarian or livestock inspector regularly employed in animal health activities by a State or a political subdivision thereof, authorized by such State or political subdivision to perform the function involved under a cooperative agreement with the U.S. Department of Agriculture.

(7) *Accredited veterinarian.* An accredited veterinarian as defined in Part 160 of this chapter.

(c) Any reactor to an official test shall be classified as affected with equine infectious anemia, and no reactor shall be moved interstate unless:

(1) It is officially identified, and accompanied by a certificate as defined in § 75.5(b)(4); and

(2) It is moved interstate to a federally inspected slaughtering establishment operated under the provisions of the Federal Meat Inspection Act (21 U.S.C. 601 et seq.) or to a State-inspected slaughtering establishment which has inspection by a State inspector at the time of slaughter, for immediate slaughter; or to a diagnostic or research facility designated by the Deputy Administrator, as provided in § 71.3(e),[3] or

(3) The reactor is disclosed on an official test conducted in a State other than the State where the home farm of the reactor is located, such reactor is moved interstate to its home farm under a certificate issued by a Veterinary Services inspector upon his determination, after consultation with the State officials concerned, that the reactor so moved will be maintained segregated from other equidae and quarantined under State authority on the premises of its home farm until natural death, slaughter, or disposition by euthanasia.

The purposes of the foregoing proposed amendments would be to provide for an official test for equine infectious anemia and to more efficiently prevent the interstate spread of the disease by requiring reactors to an official test for equine infectious anemia to be permanently identified and to meet other specified conditions as a prerequisite for movement interstate.

Any person who wishes to submit written data, views, or arguments concerning this proposal may do so by filing them with the Deputy Administrator,

[1] Information as to the names of laboratories approved by the Secretary for running the official test and criteria for approval of such laboratories can be obtained from the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Federal Center Building, Hyattsville, Md. 20782.

[2] Information as to the National Uniform Tag code number system can be obtained from the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Services, U.S. Department of Agriculture, Federal Center Building, Hyattsville, Md. 20782.

[3] Research facilities will be designated by the Deputy Administrator upon request and after a determination by the Deputy Administrator that the facility is secure and will prevent exposure to other equidae. Information as to the names and locations of designated research facilities can be obtained from the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Federal Center Building Hyattsville, Md. 20782.

[9 CFR Part 327]

IMPORTATION OF MEAT AND MEAT PRODUCTS

Proposed Addition of British Honduras to List of Countries

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that, pursuant to the authority contained in the Federal Meat Inspection Act (34 Stat. 2160, as amended, 21 U.S.C. 601 et seq.), the Animal and Plant Health Inspection Service is considering amending § 327.2(b) of the Federal meat inspection regulations (9 CFR 327.2(b)) by adding British Honduras to the list of countries specified therein.

Statement of considerations. The Federal Meat Inspection Act prohibits the importation into the United States of carcasses, parts thereof, meat and meat food products of cattle, sheep, swine, goats, or equines, capable of use as human food, unless they comply with all the provisions of the Act and regulations issued thereunder applicable to such articles in commerce within the United States. Such articles from approved plants in the countries listed in § 327.2(b) are eligible for importation into the United States as provided in the regulations. The laws and regulations of British Honduras concerning these matters have been reviewed and appear to be acceptable. Furthermore, onsite reviews of the export meat inspection program of British Houduras indicate that it is equal to our program in the United States. Certificates issued by British Honduras officials for export of carcasses, parts thereof, meat and meat food products to the United States are reliable.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendment may do so by filing them in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, within 30 days after the date of publication of this notice in the FEDERAL REGISTER.

Persons desiring opportunity for oral presentation of views should address such requests to the Director, Field Operations, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for presentation of such views within the 30-day period. A transcript will be made of all views orally presented.

All written submissions and transcripts of oral views made pursuant to this notice will be made available for public inspection unless the person making the submission requests that it be held confidential and a determination is made that a proper showing in support of the request has been made on the grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such a request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on November 2, 1972.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

Commodity Credit Corporation

[7 CFR Part 1438]

CRUDE PINE GUM

1973 Gum Naval Stores Support Program

Notice is hereby given that the Secretary of Agriculture, under the authority of sections 301 and 401 of the Agricultural Act of 1949, as amended (63 Stat. 1051, as amended; 7 U.S.C. 1447 and 1421), hereinafter called "the Act," and sections 4 and 5 of the Commodity Credit Corporation Charter Act, as amended (62 Stat. 1070, as amended; 15 U.S.C. 714b and 714c), is considering undertaking, through Commodity Credit Corporation, a support program for crude pine gum produced in the United States during the calendar year 1973. Such consideration includes determinations to be made regarding such matters as (a) the level of support for the crude pine gum; and (b) the manner of making such support available to producers.

In making the determinations specified above, the following factors are relevant:

(a) *The level of support for crude pine gum.* The Act authorizes the Secretary to make support available to producers of crude pine gum at a level not to exceed 90 percent of the crude pine gum parity price. The Act requires that, in determining the level of such support, consideration to be given to the supply of the commodity in relation to the demand therefor, the levels at which other commodities are being supported, the availability of funds, the perishability of the commodity, the importance of the commodity to agriculture and the national economy, the ability to dispose of stocks acquired through such an operation, the need for offsetting temporary losses of export markets, and the ability and willingness of producers to keep supplies in line with demand.

(b) *The manner of making support available to producers.* The Act authorizes the Secretary to make support available to producers through loans, purchases or other operations. Gum naval stores are marketed primarily in the form of gum rosin and gum turpentine. Gum rosin is the more storable of the two commodities and currently accounts for about 85 percent of the value of crude pine gum. Therefore, consideration is being given to continuing the practice of supporting crude pine gum through loans on gum rosin. The rosin loan rates would be derived from the level of support for crude pine gum. An allowance would be made for the prospective market value of the turpentine content of crude pine gum during the 1973 calendar year.

Before making any of the foregoing determinations, consideration will be given to any data, views, and recommendations which are submitted in writing to the Director, Oilseeds and Special Crops Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington, D.C. 20250. In order to be sure of consideration, all submissions must be received by the Director not later than 30 days after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Director during regular business hours (8:15 a.m. to 4:45 p.m.) (7 CFR 1.27(b)).

Signed at Washington, D.C., on October 31, 1972.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

FEDERAL RESERVE SYSTEM

[12 CFR Parts 207, 220, 221]

[Regs. G, T, and U]

CREDIT TO PROVIDE CAPITAL TO BROKERS AND DEALERS

Withdrawal of Proposed Rules, and Proposed Termination of Related Provision

On April 16, 1971, the Board of Governors of the Federal Reserve System issued, and on July 9, 1971, it revised, proposed amendments to its Regulation G, "Securities Credit by Persons Other Than Banks, Brokers, or Dealers"; T, "Credit by Brokers and Dealers"; and U, "Credit by Banks for the Purpose of Purchasing or Carrying Margin Stocks" setting forth conditions under which credit may be obtained without regard to initial margin requirements for the purpose of providing capital to broker/dealer firms. The initial proposals were published in the FEDERAL REGISTER on April 24, 1971 (36 F.R. 7754) and the revised proposals were published in the FEDERAL REGISTER on July 16, 1971 (36 F.R. 13218–13221). The original and revised proposals were intended to replace a conditional interim provision regarding such credit which was added to Regulation U, on April 16, 1971, when the proposals were initially put forth for comment.

The revised proposals were to become effective October 1, 1971, but the Board has since postponed the effective date to December 1, 1972.

After consideration of the comments and suggestions received, and in view of subsequent changes in the capital rules prescribed by the self-regulatory bodies and the Securities and Exchange Commission, the Board (1) has decided to withdraw its proposals to amend § 207.1 (f) of Regulation G, § 220.4(f)(2) of Regulation T, §221.2(m) and §221.3 (b) (4) and (q) of Regulation U, and (2) proposes to amend Regulation U by terminating the related provision in paragraph (m) of § 221.2 which was adopted as an interim measure.

The effect of the Board's actions in withdrawing the above-cited rules and terminating § 221.2(m) would be to restore the rules on this subject to those which prevailed before April 16, 1971.

Most importantly, credit extended by banks, after the effective date of the proposed termination, for the purpose of providing capital to broker/dealer firms would be subject to margin requirements if secured directly or indirectly by any stock. This would be the case regardless of whether the credit was extended directly to the firm or to a third party to enable them to contribute capital to the firm. If not so secured, such credit would not be subject to Regulation U.

Credit extended or maintained by banks pursuant to the provision in § 221.2 (m) of Regulation U, prior to the effective date of its amendment including renewals or extensions of such credit after that date, would not become subject to the margin requirements of Regulation U, so long as it continued to meet the conditions specified therein.

Bank credit would continue to be available to contribute capital to broker/dealer firms under paragraph (1) of § 221.2 without regard to margin requirements in individual situations where the Board has determined, upon certification by the Securities Investor Protection Corporation, that such action is appropriate under the circumstances.

Section 221.2(m) would be amended to read as follows:

§ 221.2 Exceptions to general rule.

* * * * * *

(m) Any credit extended to a customer, prior to the effective date of the proposed termination, and maintained continuously thereafter, for the purpose of making a loan or contribution of capital to a broker or dealer subject to Part 220 of this chapter (Regulation T), or to purchase stock in such a broker which is a corporation: *Provided*, That

(1) Such loan or contribution is in conformity with the requirements regarding satisfactory subordination agreements or equities in the accounts of partners of a rule of the Securities and Exchange Commission (Rule 15c3-1 (c) (2) (A), (c) (4), and (c) (7) (17 CFR 240.15c3-1 (c) (2) (A), (c) (4), and (c) (7)) or the capital rules of an exchange of which the broker or dealer is a member if the members thereof are exempt therefrom by Rule 15c3-1(b)(2) of the Commission (17 CFR 240.15c3-1(b)(2)) or such stock is purchased directly from the issuer and not as part of a public distribution, and

(2) All of the proceeds of such extension of credit are so loaned or contributed to the capital of such broker or dealer, or used to purchase such stock, and

(3) All of the net proceeds of any withdrawal of such loan or contribution of capital from such broker or dealer or redemption of such stock shall be paid to the bank and used to reduce or retire such extension of credit.

The Board is affording interested persons an opportunity to submit relevant data, views, or arguments concerning the proposed amendment. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than November 20, 1972. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules regarding availability of information.

This notice is published pursuant to section 553(b) of Title 5, United States Code, and § 262.2(a) of the rules of procedure of the Board of Governors of the Federal Reserve System (12 CFR 262.2(a)).

By order of the Board of Governors, November 2, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary.

Bureau of the Public Debt

COMMISSIONER OF THE PUBLIC DEBT

Order of Succession

Order of succession of officials to act as Commissioner of the Public Debt, and provisions for the continuous performance of functions of the Bureau of the Public Debt in the event of an enemy attack on the continental United States.

1. It is hereby ordered that the following officers of the Bureau of the Public Debt, in order of succession enumerated, shall act as Commissioner in the event of the absence or disability of the Commissioner or a vacancy in the office:
   1. Deputy Commissioner.
   2. Assistant Commissioner.
   3. Assistant Deputy Commissioner.
   4. Technical Assistant to the Commissioner.
   5. Chief Counsel.
   6. Director, Chicago Office.
   7. Director, Parkersburg Office.
   8. Director, Division of Securities Operations.
   9. Director, Division of Public Debt Accounts.
   10. Deputy Director, Division of Securities Operations.
   11. Deputy Director, Division of Public Debt Accounts.

2. In the event of an enemy attack on the continental United States and without regard to the matter of succession, the Assistant Commissioner, the Assistant Deputy Commissioner, and the Directors of the Chicago and Parkersburg offices are hereby authorized to perform any function of the Secretary of the Treasury or Commissioner of the Public Debt (whether or not otherwise delegated), (a) if it is essential to the carrying out of responsibilities otherwise assigned to them, and (b) if, and so long as, they are unable to ascertain (in a manner consistent with the efficient performance of such responsibilities) whether the Commissioner or any official acting in his stead is available to discharge the Commissioner's duties with respect to the performance of those functions.

3. The foregoing order of succession and provisions for the continuous performance of functions are made under the authority of The Department of the Treasury Order No. 129, Revision No. 2, dated April 22, 1955. This order of succession supersedes the order of this Bureau dated August 4, 1972.

[SEAL] H. J. HINTGEN,
Commissioner of the Public Debt.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[A 6949]

ARIZONA

Order Providing for Opening of Lands

Pursuant to the vacating order of the Federal Power Commission (37 F.R. 9586, May 12, 1972) and in accordance with Bureau of Land Management Order 701 dated July 23, 1964 (29 F.R. 10526), as amended, it is ordered as follows:

1. The following described lands, so far as they are withdrawn and reserved for power purposes, are hereby restored to disposition under applicable public land law, as provided herein, from the withdrawals for Federal Power Projects No. 1201 dated March 21, 1932, and No. 1444 dated October 26, 1937, as interpreted July 11, 1941, subject to valid existing rights and the provisions of existing withdrawals:

GILA AND SALT RIVER MERIDIAN, ARIZ.

POWER PROJECT NO. 1201

All portions of the following tracts lying within 25 feet of the centerline of the transmission line location shown on a map designated "Exhibit K" and entitled "Showing Right of Way of the Arizona Power Co. Clear Creek Transmission Line through Prescott and Coconino National Forests and Private Lands, Prescott, Yavapai County, Ariz.," and filed in the office of the Federal Power Commission on March 11, 1932:

T. 13 N., R. 5 E.,
Sec. 7, lots 8, 9, and 10;
Sec. 11, lots 2 and 5 (inside former Camp Verde Garden Reservation);
Sec. 11, lot 2 (outside former Camp Verde Reservation);
Sec. 12, lots 11 and 12;
Sec. 13, SE¼NE¼ and NE¼SE¼;
Sec. 14, lot 1 (inside former Camp Verde Reservation);
Sec. 15, lot 2 (inside former Camp Verde Reservation);
Sec. 15, lot 2 (outside former Camp Verde Reservation).

POWER PROJECT NO. 1444

All portions of the following tracts lying within 25 feet of the centerline of the transmission line as shown on a map designated "Exhibit K" and entitled "Showing Right-of-Way, the Arizona Power Corp., for the Beaver Creek Transmission Line Thru Private, State, and Coconino National Forest Lands," and filed in the office of the Federal Power Commission on May 19, 1937:

T. 14 N., R. 5 E.,
Sec. 4, SW¼NE¼ and SE¼NW¼;
Sec. 5, lots 9, 14, and 15;
Sec. 8, lot 1, W½NE¼, SE¼NW¼, W½SW¼, and N½NE¼SW¼;
Sec. 17, lots 2, 3, and 4;
Sec. 18, lots 5, 6, and 9, and SE¼SE¼;
Sec. 19, E½NE¼ and NE¼SE¼.
T. 15 N., R. 6 E.,
Sec. 31, lot 2 and SE¼NW¼;
Sec. 32, S½N½;
Sec. 33, SW¼NE¼, S½NW¼, and N½NE¼NW¼SE¼.

The areas described, including both public and nonpublic lands, aggregate approximately 51 acres in Yavapai County.

The public lands are withdrawn as parts of the Prescott and Coconino National Forests, and are under the jurisdiction of the Department of Agriculture. In addition to the withdrawals for national forest purposes, some of the lands are withdrawn for administrative site, national monument, or other Federal power purposes, and some are patented. The status of any tract may be ascertained by inquiry of the agencies hereinafter named.

2. Upon publication of this notice in the FEDERAL REGISTER, those lands subject to application shall be open to operation of the act of March 20, 1922 (42 Stat. 465; 16 U.S.C. 485), subject to valid existing rights. They have been open to applications and offers under the mineral leasing laws, and to location under the U.S. mining laws subject to the provisions of the act of August 11, 1955 (69 Stat. 682; 30 U.S.C. 621).

Inquiries concerning the lands should be addressed to the Chief, Division of Technical Services, Arizona State Office, Bureau of Land Management, 3022 Federal Building, Phoenix, AZ 85025, or the Regional Forester, Forest Service, U.S. Department of Agriculture, 517 Gold Avenue SW, Albuquerque, NM 87101.

Dated: October 30, 1972.

JOE T. FALLINI,
State Director.

Bureau of Mines

RESPIRABLE COAL MINE DUST

Certification of Engineers To Conduct Dust Surveys of Working Places in Underground Coal Mines

In the FEDERAL REGISTER for July 20, 1972 (37 F.R. 14526), the interim compliance panel, established by section 5 of the Federal Coal Mine Health and Safety Act of 1969, as amended (30 USC 804; 83 Stat. 744) promulgated Part 502 of Subchapter A, Chapter V, Title 30, Code of Federal Regulations entitled "Permits for Noncompliance with 2.0 mg./m.³ Respirable Dust Standard."

Section 502.5 of Part 502 provides:

A certified engineer shall conduct a survey of the respirable dust conditions of each working place of the mine with respect to which an application (for a permit for noncompliance) is filed. The application (for a permit for noncompliance) shall contain a report of the results of such survey * * *.

Section 502.2(k) of Part 502 provides:

"Certified engineer" means a person certified or registered by the United States (Bureau of Mines) for the purpose of conducting a survey of the respirable dust conditions of a mine.

Notice is hereby given that engineers who are presently certified by the Bureau of Mines as capable of taking accurate samples of the amount of respirable dust in the atmosphere of a coal mine in accordance with the methods, and at the locations and intervals prescribed by the Secretary of the Interior and the Secretary of Health, Education, and Welfare in Part 70, Title 30, Code of Federal Regulations, "Mandatory Health Standards—Underground Coal Mines," will also be considered to be certified for purposes of conducting a survey of respirable dust conditions, as required by 30 CFR 502.5.

Those engineers who are presently qualified (but not certified) by the Bureau as capable of taking accurate samples of the amount of respirable dust in the atmosphere of a coal mine, as described above, may apply for certification as a person meeting the requirements of 30 CFR 502.5 by submitting an application to:

Office of Certification and Qualification, Division of Education and Training, Bureau of Mines, Department of the Interior, Washington, D.C. 20240.

Such application shall include the following information:

(a) The name and address of the applicant;

(b) Information showing the applicant has satisfactorily completed a respirable coal mine dust sampling and evaluation training program conducted or approved by the Bureau of Mines.

(c) Information showing that the applicant is an engineer who has practical experience in an underground coal mine, and a working knowledge of underground coal mining equipment, ventilation systems, and the operation and maintenance of approved coal mine dust personal sampler units.

The Bureau of Mines will continue to conduct its respirable coal mine dust sampling and evaluation training program on a demand basis in each Coal Mine Health and Safety District.

HOLLIS M. DOLE,
Assistant Secretary of the Interior.

National Park Service

CARL SANDBURG HOME NATIONAL HISTORIC SITE, N.C.

Establishment

The Act of October 17, 1968 (82 Stat. 1154) authorized the Secretary of the Interior to acquire all or any part of the property and improvements at Flat Rock, N.C., where Carl Sandburg lived and worked during the last 20 years of his life, comprising approximately 242 acres and about 6 acres of adjacent or related property, as the Secretary might deem necessary for establishment of the Carl Sandburg Home National Historic Site.

Notice is given that the Carl Sandburg Home property has been acquired, as has approximately 6 acres of adjacent property. Accordingly, since the property deemed necessary for purposes of the aforesaid act is now in Federal ownership, establishment of the Carl Sandburg Home National Historic Site is hereby declared.

Dated: October 27, 1972.

GEORGE B. HARTZOG, JR.,
Director,
National Park Service.

NATIONAL REGISTER OF HISTORIC PLACES

Additions, Deletions, or Corrections

By notice in the FEDERAL REGISTER of March 15, 1972, Part II, there was published a list of the properties included in the National Register of Historic Places. This list has been amended by a notice in the FEDERAL REGISTER of March 7 (pp. 4923–24), April 4 (pp. 6770–72), May 2 (pp. 8890–95), June 6 (pp. 11274–76), July 4 (pp. 13193–96), August 1 (pp. 15390–91), September 6 (pp. 18043–44), and October 3 (pp. 20732–34). Further notice is hereby given that certain amendments or revisions in the nature of additions, deletions, or corrections to the previously published list are adopted as set out below.

It is the responsibility of all Federal agencies to take cognizance of the properties included in the National Register as herein amended and revised in accordance with section 106 of the National Historic Preservation Act of 1966, 80 Stat. 915, 16 U.S.C. 470.

The following are corrections for properties already listed in the National Register:

CONNECTICUT

Middlesex County

East Haddam, *Day, Amasa, House*, Plains Road (October 3, 1972 FEDERAL REGISTER).

FLORIDA

Polk County

Lake Wales vicinity, *Bok Mountain Lake Sanctuary and Singing Tower*, 2 miles north of Lake Wales (September 6, 1972 FEDERAL REGISTER).

GEORGIA

Richmond County

Augusta, *The Augusta Canal*, beginning at the Augusta City Lock and Dam and flowing southeasterly parallel to the Savannah River; continuing through downtown Augusta to a point just east of the intersection of Walton Way and 13th Street; thence flowing north to a point south of Telfair and 12th Streets; then turning northwest to the point where the canal rejoins the Savannah River at Hawk's Gully (March 15, 1972 FEDERAL REGISTER).

The following properties have been demolished and have been removed from the National Register:

IDAHO

Ada County

Boise, *Moore-De Lamar House*, 807 Grove Street.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Marketing Agreement 146]

PEANUTS

1972 Crop; Outgoing Quality Regulation and Indemnification

Pursuant to the provisions of sections 32, 34, and 36 of the marketing agreement regulating the quality of domestically produced peanuts heretofore entered into between the Secretary of Agriculture and various handlers of peanuts (30 F.R. 9402) and upon recommendation of the Peanut Administrative Committee established pursuant to such agreement and other information, it is hereby found that the amendments hereinafter set forth to the Outgoing Quality Regulation and Terms and Conditions of Indemnification Applicable to 1972 Crop Peanuts (37 F.R. 11493) will tend to effectuate the objectives of the Agricultural Marketing Agreement Act of 1937, as amended, and of such agreement.

Amendment of paragraph (c) of the Outgoing Quality Regulation is necessary to bring the requirements for pretesting samples of shelled peanuts into conformity with determinations of the committee that the samples would be required to be sent to an AMS laboratory, a designated laboratory, or a laboratory listed on the most recent committee list of approved laboratories that can provide analysis results on such samples in 36 hours. Likewise, amendment of paragraphs 4, 7, and 10 of the Terms and Conditions of Indemnification is necessary to bring the provisions for paying indemnification transportation expenses into conformity with determinations of the committee that transportation expenses be included in the indemnification payment on a lot of rejected peanuts only if such lot is found to be unwholesome as to aflatoxin after the lot had been certified negative as to aflatoxin prior to being shipped or otherwise disposed of for human consumption by the handler pursuant to the Outgoing Quality Regulations.

Therefore, the seventh sentence of paragraph (g) of the Outgoing Quality Regulation (37 F.R. 11493) is deleted and replaced by the following:

The subsamples designated "1–A" and "1–B" shall be sent as requested by the handler or buyer, for aflatoxin assay to an AMS laboratory, a designated laboratory, or a laboratory listed on the most recent committee list of approved laboratories that can provide analyses results on such samples in 36 hours.

In the fourth paragraph of the Terms and Conditions of Indemnification (37 F.R. 11493), the second sentence is deleted and replaced by the following:

The indemnification payment for peanuts in such a lot shall be the indemnification value of the peanuts, as hereinafter provided, plus actual costs of any necessary storage. Transportation expenses (excluding demurrage) from the handler's plant or storage to the point within the continental United States where the rejection occurred and from such point to a delivery point specified by the committee shall be included in the indemnification payment if the lot is found by the committee to be unwholesome as to aflatoxin after such lot had been certified negative as to aflatoxin prior to being shipped or otherwise disposed of for human consumption by the handler pursuant to requirements of the "Outgoing Quality Regulation—1972 Crop Peanuts".

Likewise, in the seventh paragraph, the first and second sentences are deleted and replaced by the following:

The indemnification payment on peanuts declared for remilling, and which contain not more than 1 percent damaged kernels other than minor defects, shall be the indemnification value referable to the weights of peanuts lost in the remilling process and not cleared for human consumption, plus temporary storage, except as hereinafter restricted, plus an allowance for remilling of 1 cent per pound on the original weight, less 1½ percent of the foregoing contract or market prices multiplied by the original weight. However, the 1½ percent deduction shall not apply to peanuts whose appropriate samples for pretesting, drawn, and assayed in accordance with paragraph (c) of the "Outgoing Quality Regulation—1972 Crop Peanuts," were determined to be not indemnifiable as to aflatoxin. Transportation expenses (excluding demurrage) from the handler's plant or storage to the point within the continental United States where the rejection occurred and from such point to a delivery point specified by the committee shall be included in the indemnification payment if the lot is found by the committee to be unwholesome as to aflatoxin after such lot had been certified negative as to aflatoxin prior to being shipped or otherwise disposed of for human consumption by the handler pursuant to requirement of the "Outgoing Quality Regulation—1972 Crop Peanuts".

In the 10th paragraph of the same Terms and Conditions of Indemnification, the third sentence is deleted.

The Peanut Administrative Committee has recommended that these amendments be issued as soon as possible so as to implement and effectuate the provisions of the marketing agreement dealing with the Outgoing Quality Regulation and Terms and Conditions of Indemnification. Marketing of the 1972 peanut crop is underway and such regulations and terms and conditions for actual operations under the agreement should therefore be modified and made effective as soon as possible, i.e., on the effective date specified herein. Handlers of pea-

nuts who will be affected by such amend-

nuts who will be affected by such amendments have signed the marketing agreements authorizing the issuance of such regulations and terms and conditions, they are represented on the committee which recommended such amendments and time does not permit prior notice of the proposed amendments to such handler.

The foregoing amendments of the Outgoing Quality Regulation and the Terms and Conditions of Indemnification are hereby approved.

Dated: November 1, 1972; to become effective November 7, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Docket No. SH-311]

SUGARCANE PRICES IN PUERTO RICO

Notice of Hearing and Designation of Presiding Officers

Pursuant to the authority contained in section 301(c)(2) of the Sugar Act of 1948, as amended (61 Stat. 929; 7 U.S.C. 1131), and in accordance with the rules of practice and procedure applicable to price proceedings (7 CFR 802.1 et seq.), notice is hereby given that a public hearing will be held in Santurce, P.R., in the Conference Room, Seventh Floor, Segarra Building, Stop 20, on November 16, 1972, beginning at 10 a.m.

The purpose of this hearing is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining, pursuant to the provisions of section 301(c)(2) of the act, fair and reasonable prices to be paid for the 1972-73 crop of Puerto Rican sugarcane by producers who process sugarcane grown by other producers and who apply for payment under the act on their own sugarcane production.

In the interest of obtaining the best possible information, all interested persons are requested to appear at the hearing to express their views and to present appropriate data with respect to the subject matter involved.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

The hearing, after being called to order at the time and place mentioned herein, may be continued from day to day within the discretion of the presiding officers, and may be adjourned to a later day or to a different place without notice other than the announcement thereof at the hearing by the presiding officers.

Leo L. Sommerville, Robert R. Stansberry, Jr., James E. Agnew, Jr., and Carlos Troche are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearing.

Signed at Washington, D.C., on November 3, 1972.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

Office of the Secretary

IOWA

Designation of Areas for Emergency and Rural Housing Disaster Loans

It has been determined that property loss or damage or injury in certain counties in Iowa has resulted from natural disasters caused by heavy rains and flooding during August and September 1972, and hailstorms, windstorms, and tornadoes during the period of August through September 1972. The following counties of Iowa are affected by such natural disasters:

Chickasaw.	Hamilton.
Delaware.	Jones.
Dubuque.	Linn.
Fayette.	Wayne.
Floyd.	Wright.

It has further been determined that in the above counties of Iowa a general need for credit exists. Therefore, these counties are declared eligible for low interest rate disaster loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, the Disaster Relief Act of 1970, title V of the Housing Act of 1949, and Public Law 92-385. Applications for such loans must be received by this Department prior to July 1, 1973, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans.

The urgency of the need for loans in the designated areas make it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 2d day of November, 1972.

J. PHIL CAMPBELL,
Acting Secretary.

Office of the Secretary

SECRETARY'S ADVISORY COMMITTEE ON AUTOMATED PERSONAL DATA SYSTEMS

Notice of Meeting

A public meeting of the Secretary's Advisory Committee on Automated Personal Data Systems will be held from 9 a.m. to 5:30 p.m. on Thursday, November 9, in Room 5051, HEW North Building, 330 Independence Avenue SW.,

V 37 ■ 215 NOV 7 72 XUM

Washington, DC. The Committee will also meet in executive session, closed to the public, on November 10 and 11.

(1) *Purposes.* The Committee was appointed to advise and assist the Department of Health, Education, and Welfare in the preparation of analyses and recommendations which the Secretary determines will help the Department to take initiative in seeking to assure that the use of automated personal data systems will be managed to maximize their benefits and minimize their potential for harmful consequences.

(2) *Membership.* The Committee is chaired by Frances Grommers, M.D., and is composed of the following other members: Layman Allen, Juan Anglero, Stanley Aronoff, William Bagley, Philip Burgess, Gertrude Cox, Patricia Cross, Gerald Davey, Taylor DeWeese, Guy Dobbs, Robert Gallati, Florence Gaynor, John Gentile, Jane Hardaway, James Impara, Patricia Lanphere, Arthur Miller, Don Muchmore, Jane Noreen, Roy Siemiller, Ruth Silver, Sheila Smythe, Willis Ware, and Joseph Weizenbaum.

(3) *Activities.* This will be the seventh meeting of the Committee. At these meetings, presentations are made to the Committee of information on various aspects of specific data systems and discussions of issues relating to the use of such systems and their impact on privacy, confidentiality, and due process.

(4) *Agenda.* The November 9 meeting will include presentations by individuals who are the subjects of records stored in automated personal data systems and by representatives of such individuals. Among those who will appear are the eastern and western regional representatives of the National Welfare Rights Organization, representatives of the American Civil Liberties Union, representatives of veterans' organizations and Federal employees.

The November 10 and 11 executive sessions of the Committee's meeting will be devoted to the purpose of considering and formulating advice to be included in the Committee's report to the Secretary.

It is suggested that those desiring more specific information on the meeting call the Office of the Executive Director at 963-3003.

DAVID B. H. MARTIN,
Executive Director.

OCTOBER 30, 1972.

AMERICAN REVOLUTION BICENTENNIAL COMMISSION

ADVISORY COMMITTEES AND PANELS

Notice of Meetings

Notice is hereby given, pursuant to Executive Order 11671, that the following American Revolution Bicentennial Commission Advisory Committee and panel meetings will be held the month of November 1972:

CREATIVE AND VISUAL ARTS ADVISORY PANEL

The Creative and Visual Arts Advisory Panel will hold an open meeting (with the exception of the agenda item asterisked below) from 1 p.m., November 20, 1972, to 4 p.m., November 21, 1972. The meeting will be held at the ARBC Conference Room, 736 Jackson Place NW., Washington, DC. The panel is composed of private citizens well known in the fields of art, environmental quality, museum management, drama, sculpture, film making, writing, teaching, architecture, journalism, and American crafts.

The agenda will include:

Review and development of program guidelines and policy.
Identification of programs.
Consideration of project proposals.*

INVITATION TO THE WORLD ADVISORY PANEL

The Invitation to the World Advisory Panel will hold an open meeting (with the exception of the agenda item asterisked below) from 1 p.m., November 20, 1972 to 4 p.m., November 21, 1972. The meeting will be held at the ARBC Conference Room, 736 Jackson Place NW., Washington, DC. The panel membership consists of representatives from the travel industry, COSERV, hotel management, international visitors' programs, camping associations, DATO, etc. The agenda for the meeting will include discussion of:

Hotel/motel rates.
Home hospitality and information.
Low cost accommodations.
Services to visitors.
Student needs.
Camping facilities.
Common carrier rates.
Consideration of project proposals.*

PERFORMING ARTS ADVISORY PANEL

The Performing Arts Advisory Panel will hold an open meeting (with the exception of the agenda item asterisked below) from 1 p.m., November 20, 1972, to 4 p.m., November 21, 1972. The meeting will be held at the ARBC Conference Room, 736 Jackson Place NW., Washington, D.C. The panel membership consists of leaders in the fields of journalism, choreography, drama, modern dance, art, ballet, music, opera, and labor. The agenda items to be discussed are:

Review and development of program guidelines and policy.
Identification of programs.
Consideration of project proposals.*

HISTORIC CONSERVATION PANEL

The Historic Conservation Panel will be meeting on Wednesday, November 29, 1972, at 10 a.m., in the Board Room of the National Trust for Historic Preservation, 748 Jackson Place NW., Washington, D.C. The morning session is open to the public. The afternoon is an executive session. The panel is composed of leaders in the fields of museum history, architecture, interior design, landscape architecture, civil engineering, archaeology, and history. The panel will be meeting to review programs and projects, specifically: Additional information provided by the State Bicentennial Commissions on the Heritage 1976 Meeting House Proposal, and the "Above Ground Archaeology Proposal."

COMMEMORATION AND CONVOCATIONS PANEL

The Commemoration and Convocations Panel will be meeting on Wednesday, November 29, 1972, at 10 a.m. in the Board Room of the National Trust for Historic Preservation, 748 Jackson Place NW., Washington, DC. The morning session is open to the public. The panel will be meeting in executive session in the afternoon. Membership on the panel is represented by persons from:

American Academy of Arts and Sciences.
American Antiquarian Society.
American Association for State and Local History.
American Historical Association.
American Philosophical Society.
American Political Science Association.
Daughters of the American Revolution.
Phi Beta Kappa.
Sons of the American Revolution.
U.S. Capitol Historical Society.

The agenda will include discussion of a proposal submitted by the Metropolitan Museum of Art and the review of and policy guidelines for the Heritage 1976 Program Committee in the area of commemorations.

PUBLICATIONS AND RESEARCH PANEL

The Publications and Research Panel will be meeting on Wednesday, November 29, 1972, at 10 a.m., in the Board Room of the National Trust for Historic Preservation, 748 Jackson Place NW., Washington, DC. The morning session is open to the public. The afternoon is an executive session. Membership on the panel is represented by persons from:

American Association for State and Local History.
American Historical Association.
American Political Science Association.
Association for the Study of Negro Life and History.
Institute of Early American History and Culture.
National Historical Publications Commission.
Organization of American Historians.
Society of American Archivists.
American Council of Learned Societies.
The Association of American University Presses, Inc.
American Library Association.

The panel will be meeting to discuss a microfilm project suggested by Dr. Herbert Johnson, and to review material provided by State Bicentennial Commissions on Historic Bibliographies.

Dated: November 1, 1972.

HUGH A. HALL,
Acting Director, American Revolution, Bicentennial Commission.

[FR Doc.72-19022 Filed 11-6-72;8:45 am]

ATOMIC ENERGY COMMISSION

[Docket No. 50-298]

NEBRASKA PUBLIC POWER DISTRICT

Notice of Availability of Applicant's Environmental Report, Supplemental Environmental Report, and AEC Draft Environmental Statement for Cooper Nuclear Station

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations set forth in Appendix D to 10 CFR Part 50, notice is hereby given that documents entitled "Applicant's Environmental Report and Supplement No. 1 through Supplement No. 5 to Environmental Report" (collectively known as the "reports"), submitted by the Nebraska Public Power District have been placed in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and in Auburn Public Library, 1118 15th Street, Auburn, NE 68305. The reports are also available at the State Office of Planning and Programing, State Capitol, Post Office Box 94601, Lincoln, NE 68509, and the Southeastern Nebraska Joint Planning Commission, Humboldt, Nebr. 68376.

Notice of availability of the applicant's environmental report was published in the FEDERAL REGISTER on December 7, 1971 (36 F.R. 23264).

The reports have been analyzed by the Commission's Directorate of Licensing, and a draft environmental statement, dated November 1972, related to the proposed continuation of Construction Permit No. 42 and the proposed issuance of operating licensing for the Copper Nuclear Station located near the village of Brownsville, Nemaha County, Nebr., has been prepared and has been made available for public inspection at the locations designated above. Copies of the Commission's draft environmental statement may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Pursuant to Appendix D to CFR Part 50, interested persons may, within forty-five (45) days from the date of publication of this notice in the FEDERAL REGISTER, submit comments for the Commission's consideration on the report and supplements, on the draft environmental statement, and on the proposed action. Federal and State agencies are being provided with copies of the draft environmental statement (local agencies may obtain this document on request), and when comments thereon of the Federal, State, and local officials are received, they will be made available for public inspection at the above designated locations. Comments on the draft environmental statement from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Md., this 2d day of November 1972.

For the Atomic Energy Commission.

DANIEL R. MULLER,
Assistant Director, for Environmental Projects, Directorate of Licensing.

[FR Doc.72-19041 Filed 11-6-72;8:51 am]

CIVIL AERONAUTICS BOARD

[Docket Nos. 23664 etc.; Order 72-10-94]

PURDUE AIRLINES, INC., ET AL.

Order of Investigation and Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 30th day of October 1972.

Purdue Airlines, Inc., certificates of public convenience and necessity for supplemental air transportation; petition of Modern Air Transport, Inc., for revocation of certificates of Purdue Airlines, Inc., Docket 23664; application of Prairie Avenue Gospel Center doing business as Fiesta Air, Carl Pike, Stephens, Inc., and Purdue Airlines, Inc., for approval under sections 401, 408, and 409 of the Federal Aviation Act of 1958, as amended, Docket 24715.

Purdue Airlines, Inc. (Purdue), holds certificates of public convenience and necessity for supplemental air transportation.[1] Section 401(n) of the Federal Aviation Act of 1958, as amended, invests the Board with the power to modify, suspend or revoke the certificates of a supplemental air carrier for failure to comply with certain requirements contained therein. Section 401(n)(3) of the Act provides that the Board may, after notice and hearing, direct that the certificate of public convenience and necessity of any supplemental air carrier shall cease to be effective if any such carrier fails to perform service authorized by its certificate to the minimum extent prescribed by the Board. Section 208.25 of the Board's economic regulations requires each supplemental air carrier to perform services authorized by its certificate for at least 500 hours of revenue flight in any two consecutive calendar quarters. Failure to perform such minimum service is deemed to constitute a prima facie cause for suspension of the carrier's operating authority. Section 401(n)(4) of the Act imposes on each supplemental air carrier a continuing requirement that it be fit, willing, and able to properly perform the transportation authorized by, and furnished pursuant to, its certificate of public convenience and necessity, and to conform to the provisions of the Act and the rules and regulations thereunder. This same section also authorizes the Board to modify, suspend, or revoke the certificate of any supplemental air carrier which fails to comply with these continuing requirements.[2] Additionally, section 401(n)(5) gives the Board power to immediately suspend a carrier's certificate in any case in which the Board determines that the failure of the carrier to comply with the requirements of section 401(n) (3) or (4) results in a situation in which a suspension is required in the interest of the rights, welfare, or safety of the public, and to immediately enter upon a hearing to determine whether the certificate should be modified, suspended, or revoked.

According to reports filed with the Board, Purdue has operated the following number of hours of revenue flight during the last four quarters:

Quarter ending	Number of revenue hours
June 30, 1971	301
September 30, 1971	81
December 31, 1971	51
March 31, 1972	70
June 30, 1972	52

Purdue's present state of operation raises substantial questions with regard to its performance of supplemental air transportation under the statutory provisions governing supplemental air carriers. Based upon its reports, it appears that Purdue has failed to meet the minimum service requirements set forth in § 208.25. In addition, its failure to perform service under its certificates raises a substantial question as to whether it continues to be fit, willing and able to perform its certificated service.

In view of Purdue's present situation and the statutory requirements discussed above, the Board has decided to institute an investigation pursuant to section 401 (n) (3) and (4) of the Act to determine if Purdue has failed to comply with the continuing requirements imposed by these provisions, and whether the carrier's certificates should be modified, suspended, revoked, or whether these certificates should cease to be effective. We note that there is pending an application to acquire the stock of Purdue and that many of the issues presented therein are related to the matters in the instant investigation. We will, therefore, consolidate the investigation instituted herein with the application in Docket 24715 of Prairie Avenue Gospel Center doing business as Fiesta Air to acquire and control the stock of Purdue.

In view of Purdue's current circumstances, the Board tentatively finds and concludes that Purdue's certificates should be suspended during the pendency of the consolidated hearing. Interested persons will be given twenty (20) days following the date of service of this order to show cause why the tentative findings and conclusions should not be made final.

While the Board might consider entry of an order under section 401(n)(5) immediately suspending Purdue's certificates, a show cause order will afford the carrier, as well as any other interested person, with an opportunity to demonstrate why Purdue's certificates should not be suspended without the necessity of using the Board's emergency powers under section 401(n)(5) of the Act. Prompt resolution of this question will make it possible to proceed expeditiously with the consolidated hearing established herein.[3]

Accordingly, it is ordered:

1. That an investigation is instituted to determine (1) whether Purdue Airlines, Inc., has failed to meet the minimum service requirement set forth in section 401(n)(3) of the Act and in sec-

[1] Purdue holds certificates authorizing it to engage in supplemental air transportation between points within the United States and between points in the United States and points in Canada.

[2] On July 27, 1971, Modern Air Transport, Inc., filed a petition in Docket 23664 requesting that the Board revoke Purdue's certificate for failure to comply with the continuing requirements of section 401(n). In view of our action herein, Modern's petition is rendered moot and we will dismiss it.

[3] Similarly, prompt resolution should make a section 401(n)(5) proceeding unnecessary, and should therefore avoid delays to the consolidated hearing which might result from the institution of such proceeding.

Draft, October 27

at its entrance. Marine life will be ad-

23.8 acres of marine and waterfront

tion 208 of the Board's economic regulations; (2) whether Purdue continues to be fit, willing, and able to perform supplemental air transportation in accordance with its certificates; and (3) whether Purdue's certificates should be modified, suspended, revoked, or otherwise declared to be ineffective pursuant to section 401(n) of the Act;

2. That the application of Prairie Avenue Gospel Center doing business as Fiesta Air, et al., in Docket 24715 be consolidated into the investigation instituted herein;

3. That all interested persons are directed to show cause why the Board should not with such approval of the President as may be necessary, issue an order making final the tentative findings and conclusions stated herein, suspending the certificates of public convenience and necessity for supplemental air transportation held by Purdue Airlines, Inc., pending final action by the board in the consolidated proceeding instituted herein;

4. That any interested person having objection to the issuance of an order making final the proposed certificate suspensions set forth herein shall, within 20 days after service of this order, file with the Board and serve upon all persons listed in paragraph 7 infra, a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections;

5. That if timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before action is taken by the Board;

6. That in the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with its tentative findings and conclusions set forth herein;

7. That a copy of this order shall be served upon Purdue Airlines, Inc., which is hereby made a party to this proceeding, Prairie Avenue Gospel Center, doing business as Fiesta Air, Carl Pike, Capitol International Airways, Inc., Interstate Airmotive, Inc., Johnson Flying Service, Inc., McCulloch International Airlines, Inc., Modern Air Transport, Inc., Overseas National Airways, Inc., Standard Airways, Inc., Trans International, Inc., Universal Airlines, Inc., and World Airways, Inc.; and

8. That the petition of Modern Air Transport, Inc., in Docket 23664 be and it hereby is dismissed.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.72-19058 Filed 11-6-72;8:50 am]

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Availability

Environmental impact statements received by the Council from October 24 through October 27, 1972.

NOTE: At the head of the listing of statements received from each agency is the name of an individual who can answer questions regarding those statements.

DEPARTMENT OF AGRICULTURE

Contact: Dr. T. C. Byerly, Office of the Secretary, Washington, D.C. 20250, 202—388-7803.

FOREST SERVICE

Draft, October 10
Gila National Forest, N. Mex., Counties: Catron and Grant. The statement refers to the proposed designation of 514,678 acres of the national forest as wilderness within the National Wilderness Preservation System. Impacts of the action which are discussed in the statement include ecological, social, and economic considerations. (23 pages) (ELR Order No. 05432) (NTIS Order No. EIS 72-5432-D)

Draft, October 24
Radiobiology of Northern Forests, Wisconsin, County: Oneida. The statement refers to a research project which is being conducted in a 1,440 acre forest, a 6.5 acre gamma radiation field, and in the laboratory of the institute of Forest Genetics, near Rhinelander, Wis. The purpose of the research is to study the effects of gamma radiation (including that resulting from nuclear disasters), upon individual species and the forest community. Direct effects of radiation will be significant on approximately 10 of the 1,440 acres. (41 pages) (ELR Order No. 05525) (NTIS Order No. EIS 72-5525-D)

SOIL CONSERVATION SERVICE

Final, October 24
Taliulah Creek Watershed, N.C., County: Graham. The statement refers to the proposed construction of one multipurpose structure (for flood prevention and water supply), and the use of land treatment measures. Approximately 36 acres of agricultural and forest land will be removed from production and upland game habitat; 4,000 feet of trout stream will be inundated. (42 pages) Comments made by: COE, EPA, HEW, TVA, ARC, and State agencies. (ELR Order No. 05512) (NTIS Order No. EIS 72 5512-F)

ATOMIC ENERGY COMMISSION

Contact: For Non-Regulatory Matters: Mr. Robert J. Catlin, Director, Division of Environmental Affairs, Washington, D.C. 20545, 202—973-5391.

For Regulatory Matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, Washington, D.C. 20545, 202—973-7373.

Draft, October 27
Arkansas Nuclear One, Unit 1, Ark., County: Pope. The statement refers to the issuance of an operating license to the Arkansas Power Light Co. for Unit 1, which will employ a 2568 MWt pressurized water reactor to produce 850 MWe. The statement considers the effects both of Unit 1, and of Units 1 and (under construction) 2 operating simultaneously. Cooling water for Unit 1 will be drawn from Lake Dardanelle for a once-through system and discharged to an embayment of the lake at 15° F. above ambient. Aquatic organisms may be adversely affected by impingement upon intake screens, entrapment in the cooling system, or temperature variations. (310 pages) (ELR Order No. 05530) (NTIS Order No. EIS 72 5530-D)

Draft, October 24
Rancho Seco Nuclear Station, Calif., County: Sacramento. The statement refers to the proposed continuation of a construction permit and the issuance of an operating license to the Sacramento Municipal Utility District for the start-up and operation of Unit 1. The unit will employ a pressurized water reactor to produce 2788 MWt and 901 MWe (net); cooling water will be drawn from the Folsom South Canal, and circulated through two natural draft towers. Total body-dose to the population within a 50-mile radius will be 3 man-rem/year. (134 pages) (ELR Order No. 05520) (NTIS Order No. EIS 72 5520-D)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attention: DALN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, DC 20314. 202—693-7168.

Draft, October 19
Jacksonville Port Authority, County: Duval. The statement refers to the proposed granting of a dredge and fill permit, pursuant to section 10 of the River and Harbor Act of 1899, to the Jacksonville Port Authority. The project contemplated under authority of the permit involves the construction of a bulkhead in the Back River at Blount Island, behind which dredged spoil from both the Back and St. John's River would be deposited in the construction of an Offshore Power Systems (OPS) facility for the production of Floating Nuclear Plants (FNP). Approximately 240 acres of the Back River, along with the river's present and future biological contribution to the St. John's ecosystem, will be committed to the project. (Approximately 210 pages) (ELR Order No. 05494) (NTIS Order No. EIS 72 5494-D)

San Francisco Bay Drift Removal, California. The statement refers to the removal of navigational hazards (debris) from the bay, and its use in land fill at Fort Barry. Some adverse effects will result to wildlife habitat. (20 pages) (ELR Order No. 05496) (NTIS Order No. EIS 72 5496-D)

Humboldt Harbor and Bay, Calif., County: Humboldt. The statement refers to a project which involves the maintenance dredging of navigation channels in the bay and the rehabilitation of jetties

at its entrance. Marine life will be adversely affected by dredging operations. (20 pages) (ELR Order No. 05497) (NTIS Order No. EIS 72 5497-D)

Redwood City Harbor, Calif., County: San Mateo. The statement refers to the proposed maintenance dredging of the harbor. Dredging activities will adversely affect marine biota. (28 pages) ELR Order No. 05498) (NTIS Order No. EIS 72 5498-D)

Draft, October 20
Perry Creek, Iowa, Counties: Plymouth and Woodbury. The statement refers to a proposed project which would provide flood protection for the western portion of the Sioux City metropolition area. Physical features of the project would be four dams and lakes and 6 miles of channel works. Approximately 5,980 acres (1,140 of which would be inundated), of agricultural land would be required for the project; 30 families would be displaced. (89 pages) (ELR Order No. 05503) (NTIS Order No. EIS 72 5503-D)

Draft, October 18
Gavins Point Dam, Nebraska and South Dakota. The statement refers to the operation and maintenance of the dam and Lewis and Clark Lake, which are on the Missouri River. The project is operated for the purposes of irrigation, recreation, flood control, navigation, and power generation. (38 pages) (ELR Order No. 05483) (NTIS Order No. EIS 72 5483-D)

Bay Ridge and Red Hook Channels, N.Y. The proposed project is the maintenance dredging of the existing navigation channel, with spoil being dumped in the New York Bight. Temporary turbidity will adversely affect marine life. (9 pages) (ELR Order No. 05487) (NTIS Order No. EIS 72 5487-D)

Draft, October 24
Bowline Point Generating Station, N.Y. The statement refers to the proposed granting of a discharge permit, pursuant to section 13 of the River and Harbor Act of 1899, to Orange and Rockland Utilities, Inc., for construction of the station. The project will include two 600 mw. (fuel oil) electric generating units, a marine fuel oil receiving terminal (which will extend 500 feet into the Hudson River), the dredging of an inlet channel, and the construction of recreation facilities. Ten acres of wetlands have been committed to the project; there is potential for damage to marine life and increases in air pollution. (106 pages) (ELR Order No. 05522) (NTIS Order No. EIS 72 5522-D)

Draft, October 18
Lower Monumental Lake, Wash., County: Columbia. The proposed action is the sale of 89 acres of waterfront land (on Lower Monumental Lake of the Snake River) to the Port of Columbia County, for the development of industrial and port facilities. The change of ownership itself would create no impact; the subsequent development however could. (Resultant impact may occur to wildlife resources, and air and water quality). (35 pages) (ELR Order No. 05488) (NTIS Order No. EIS 72 5488-D)

Final, October 24
King Cove, Alaska. The statement refers to the proposed construction of a 1,250-foot-long earthfill dike and a 210-foot rock groin, and the dredging of a 400-foot-long channel and an 11-acre anchorage basin. The project would provide protected mooring for resident and transient fishing vessels. Approximately 23.8 acres of marine and waterfowl habitat would be committed to the project (80 pages) Comme ts made by: USDA, DOI, DOT, DOC, EPA, and State agencies and concerned citizens. (ELR Order No. 05513) (NTIS Order No. EIS 72 5513-F)

Copan Lake, Okla., County: Washington. The statement refers to the proposed construction of a multiourpose (flood control, water supply, water quality control, recreation, and fish and wildlife) dam and reservoir on the Little Caney River. The reservoir will permanently inundate 4,850 acres of land, with an additional 8,530 acres being contained in the flood pool, which is expected to fill once every 16 years. Approximately 77 families will be displaced; 2 railroads, highways, and other facilities will be relocated; wildlife habitat will be lost. (Approximately 135 pages) Comments made by: EPA, HEW, DOI, and State agencies of Kansas, Arkansas, and Oklahoma, and concerned citizens. (ELR Order No. 05514) (NTIS Order No. EIS 72 5514-F)

Walker Dam Impoundment, Virginia, County: New Kent. The action is the treatment of the waters of the impoundment with a 50–50 mixture of diquat dibromide and potassium endothall. The purpose of the action is the control of the Brazilian waterweed (Egeria densa). Adverse effects will include minor fish kills; a reduction in the oxygen content of the water; the rendering of reservoir water not potable for a period of 2 weeks; and potential damage to an adjacent farm. (38 pages) Comments made by: USDA, DOC, EPA, DOI, and State agencies and concerned citizens. (ELR Order No. 05511) (NTIS Order No. EIS 72 5511-F)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, DC 20240, 202—343-3891

BUREAU OF OUTDOOR RECREATION

Draft, October 24
Cuyahoga Valley, Ohio, Counties: Cuyahoga and Summit. The statement refers to the proposed acquisition by the Ohio Department of Natural Resources, of 14,500 acres of land. This would be maintained as open space and will provide public outdoor recreation opportunities. Adverse effects of the action will be the loss of tax base, the relocation of 29 residences, the restriction of land uses, and an expected influx of visitors. (33 pages) (ELR Order No. 05516) (NTIS Order No. EIS 72 5516-D)

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Draft, October 24
Columbian White-Tailed Deer Refuge, Oreg. and Wash. The statement refers to the proposed acquisition of 5,230 acres of land in Clatsop County, Oreg., and Wahkiakum County, Wash., for designation as a Columbian White-Tailed Deer National Wildlife Refuge. Other wildlife which are common to the area include whistling swans and Canada geese, mink and beaver, bald eagles, and red-tailed hawks. (36 pages) (ELR Order No. 05517) (NTIS Order No. EIS 72 5517-D)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 Seventh Street SW., Washington, DC 20590, 202—426-4355.

FEDERAL AVIATION AGENCY

Final, October 12
Fosston Municipal Airport, Minnesota, County, Polk. The statement refers to the proposed acquisition of 325.1 acres of land for the construction of a new asphalt N/S runway (3,500' x 75'), connecting taxiway (840' x 40'), parking ramp (300' x 150'), runway edge lights and beacon installations. The airport will be capable of accommodating all propeller aircraft under 12,500 pounds and some small corporate jets. The noise level near the airport will increase. (41 pages) Comments made by: State and local agencies. (ELR Order No. 05459) (NTIS Order No. EIS 72 5459-F)

FEDERAL HIGHWAY ADMINISTRATION

Draft, October 20
Tutuila Island, American Samoa, County, Lealataua. The statement refers to the proposed construction of a two-lane road from the village of Pagmalo to Aoloaufou; no road presently exists. The road will introduce vehicular traffic where it does not presently exist; the tranquility of villages will be altered. Some local customs will be affected (such as that of stopping all traffic during Sunday services, the statement contends that as a public road the new facility must be open to traffic at all times). An unspecified amount of agricultural land will be taken as right-of-way; economic development will be affected. (32 pages) (ELR Order No. 05505) (NTIS Order No. EIS 72 5505-D)

Tutuila Island, American Samoa, County, Lealatava. The statement refers to the proposed construction of a two-lane road from the village of Poloa to Fagamalo; no road presently exists. The road will introduce vehicular traffic to Fagamalo and Fagalli; the tranquility of the villages will be altered. Some local customs will be affected (such as that of stopping all traffic during Sunday church services; the statement contends that as a public road the new facility must be open to traffic as all times). An unspecified amount of agricultural land will be taken as right-of-way; economic development will be affected. (31 pages) (ELR Order No. 05506) (NTIS Order No. EIS 72 5506-D)

Tutuila Island, American Samoa, County, Vaifanua. The statement refers to the proposed construction of a two-lane road from the village of Onenoa to Tula; no road presently exists. The road will introduce vehicular traffic to Onenoa; the tranquility of the village will be altered. Some local customs will be affected (such as that of stopping all traffic during Sunday church services; the statement contends that as a public road the new facility must be open to traffic at all times). One or two fales (dwelling units) will be displaced; an unspecified amount of agricultural land will be taken as right-of-way; economic development will be affected. (34 pages) (ELR Order No. 05507) (NTIS Order No. EIS 72 5507-D)

Tutuila Island, American Samoa, County, Vaifanua. The statement refers to the proposed construction of a 2-lane road from the village of Aoa to Onenoa; no road presently exists. The road will introduce vehicular traffic to Onenoa; the tranquility of the village will be altered. Some local customs will be affected (such as that of stopping all traffic during Sunday church services; the statement contends that as a public road the new facility must be open to traffic at all times).

Docket No.	Date filed	Name of applicant

V37-215 NOV 7 72 XUM

Several fales (dwelling units), will be displaced; an unspecified amount of agricultural land will be taken as right-of-way; economic development will be affected. (31 pages) (ELR Order No. 05508) (NTIS Order No. EIS 72 5508–D)

Draft, October 24

Kentucky–18, Kentucky, County, Boone. The proposed project is the widening of existing KY–18 from a two-lane to a four-lane road. Project length is 1.35 miles. Displacements will include 29 families and four businesses. (17 pages) (ELR Order No. 05526) (NTIS Order No. EIS 72 5526–D)

King Street-St. Phillip Street Connector, South Carolina. The proposed project is the construction of a two-lane, one-way facility in Charleston. Project length is 760 feet. Sixty people would be displaced. (13 pages) (ELR Order No. 05502) (NTIS Order No. EIS 72 5502–D)

Final, October 24

U.S. 78, Alabama, County, Walker. The proposed project is the widening of a segment of U.S. 78. Project length is 7.7 miles. Seventy-seven acres of land will be acquired; 53 families, 18 businesses and one church will be displaced. A 4(f) statement has been filed to acquire land from Lynn's Park on Mulberry Fork of the Warrior River. There will be an increase of water pollution. (67 pages) Comments made by: USDA, COE, AEC, DOC, DOI, DOT, EPA (ELR Order No. 05515) (NTIS Order No. EIS 72 5513–F)

Interstate 435, Kansas, Counties, Johnson, Wyandotte, and Leavenworth. The proposed project is the addition of 20.5 miles to Interstate 435. The amount of land acquisition and the number of displacements are unknown; one church will be displaced. Adverse effects will include erosion and siltation, loss of water bodies and aquatic habitat, loss of agricultural and wooded area causing loss of wildlife habitat and increases of air, water, and noise pollution within the corridor area. (130 pages) Comments made by: USDA, COE, EPA, OEO, DOI and State and local agencies (ELR Order No. 05509) (NTIS Order No. EIS 72 5509–F)

Kansas–7, Kansas, County, Johnson. The proposed project is the relocation and widening of K–7 to a four-lane highway. Project length is 7.5 miles. The amount of land acquisition, and number of family and business displacements will depend upon the route chosen. Any route chosen will traverse streams and other water bodies causing increases in water pollution, and the loss of aquatic habitat. (121 pages) Comments made by: USDA, COE, EPA, DOI, and State and local agencies and concerned citizens. (ELR Order No. 05519) (NTIS Order No. EIS 72 5519–F)

Interstate 88, New York, County, Otsego and Schonarie. The proposed project is the relocation and widening of a section of I–88. Project length is 45 miles. The relocation of 71 dwellings, 48 businesses, and 47 farm units would be necessary. Increases in noise and air pollution will occur. A 4(f) statement has been filed for land from the Richmondville Recreational agencies. (ELR Order No. 05510) by: COE, DOI, DOT, local, State and regional agencies. (ELR Order No. 05510) (NTIS Order No. EIS 72 5510–F)

Final, October 17

Friendly Road (SR 2147), North Carolina, County, Guilford. The proposed action is the widening of State Route 2147 to five lanes with curb and gutter. The project will require additional right-of-way through urban and suburban land, including the Guilford College Campus; a section 4(f) consideration will be prepared. The displacement of approximately 24 business tenants will result. (80 pages) Comments made by: USDA, COE, DOC, GSA, HEW, HUD, DOI, OEO, STAT, State and local agencies. (ELR Order No. 05472) (NTIS Order No. EIS 72 5472–F)

Final, October 24

South Dakota 34, South Dakota, County, Lake. The proposed project is the relocation and widening of South Dakota 34 from a two-lane to a four-lane road. Project length is 7.5 miles. The acquisition of land (including wetlands) is necessary for right-of-way; there will be resulting impact upon local wildlife populations. (28 pages) Comments made by: USDA, COE, DOC, DOI, EPA, HEW, HUD, State and regional agencies (ELR Order No. 05521) (NTIS Order No. EIS 72 5521–F)

FEDERAL POWER COMMISSION

NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON CONSERVATION OF ENERGY

Order Designating Additional Member

NOVEMBER 1, 1972.

The Federal Power Commission, by order issued September 28, 1972, established the National Power Survey Technical Advisory Committee on Conservation of Energy.

2. *Membership.* An additional member of the Technical Advisory Committee on Conservation of Energy, as selected by the Chairman of the Commission, with the approval of the Commission, is as follows:

Howard P. Allen, Member, Senior Vice President, Southern California Edison Co.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc. 72–19006 Filed 11–6–72;8:49 am]

[Docket No. CI73–289]

APACHE EXPLORATION CORP. ET AL.

Notice of Application

NOVEMBER 2, 1972.

Take notice that on October 24, 1972, Apache Exploration Corp. (Operator), et al. (Applicant), Post Office Box 2299, Tulsa, OK 74101 filed Docket No. CI73–289 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corp. (Transco) from acreage in the Cameron Field, Cameron Parish, La., all as more fully set forth in the application which is on the file with the Commission and open to public inspection.

Applicant proposes to sell Transco approximately 420,000 Mcf of natural gas per month at 45 cents per Mcf at 15.025 p.s.i.a. for 1 year within contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to deliver such gas to Transco at the tailgate of Mobil Oil Corp.'s Cameron plant. Applicant states that it is required to build approximately 3.51 miles of line to a central delivery point on Mobil's gathering system to facilitate delivery in connection with this proposed sale.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before November 13, 1972, file with the Federal Power Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–7793]

COMMONWEALTH EDISON CO. AND CENTRAL ILLINOIS PUBLIC SERVICE CO.

Notice of Application

OCTOBER 30, 1972.

Take notice that on October 10, 1972, Commonwealth Edison Co. (Edison) of Chicago, Ill. and Central Illinois Public Service Co. (CIPSCO) of Springfield, Ill., filed a joint application seeking an order disclaiming jurisdiction under the Federal Power Act over the sale by Edison and the purchase by CIPSCO of Edison's electric facilities in Albion, Ill., for

$1,700,000 plus the amount of capital additions made to the properties from June 30, 1971, to the closing date less depreciation accrued on such additions, all in accordance with a purchase and sale agreement dated as of March 20, 1972, which is attached to the application, or, in the alternative, an order pursuant to section 203 authorizing the sale by Edison and purchase by CIPSCO.

Edison and Central Illinois Light Co. (CILCO) filed a joint application with this Commission under section 203 on November 18, 1971, Docket No. E–7681, seeking approval of the sale by Edison and purchase by CILCO of the electric properties in Lincoln, Homer, Bement, and Albion, Ill., pursuant to a purchase and sale agreement dated October 20, 1971. Subsequently, Edison and CILCO agreed to amend the purchase and sale agreement dated October 20, 1971, by removing from it the sale of the Albion Electric properties and by reducing the total purchase price.

Edison filed an amended final report in Docket No. E–7225 dated June 9, 1972, stating that it had entered into a purchase and sale agreement to sell the Albion electric properties to CIPSCO. On June 19, 1972, notification to this Commission of that amendment was also filed as well as amended pages and exhibits in Docket No. E–7681. The disposition by Edison of the Albion electric properties is in accordance with the order in Docket No. E–7275 issued on December 2, 1966, 36 FPC 927 directing that Edison shall show why it should continue to own and operate the Albion electric properties.

Any person desiring to be heard or to make any protest with reference to such application should on or before November 14, 1972, file with the Commission, Washington, DC 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to proceeding or to participate as a party in any hearing herein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CS73–237, etc.]

CUTTYCHAMP OIL AND GAS CORP. ET AL.

Notice of Applications for "Small Producer" Certificates [1]

NOVEMBER 2, 1972.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before November 20, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

EL PASO NATURAL GAS CO.

Notice of Further Extension of Time

NOVEMBER 1, 1972.

On October 30, 1972, El Paso Natural Gas Co. filed a motion for further extension of time of the procedural dates established by the notice issued September 12, 1972. The motion states that no party to these proceedings nor any person filing a notice of intervention or a petition to intervene objects to the motion.

Upon consideration, notice is hereby given that the procedural dates are further extended as follows:

El Paso and staff to serve testimony and exhibits.	Dec. 20, 1972.
Interveners to serve testimony and exhibits.	Jan. 8, 1973.
El Paso to serve rebuttal evidence.	Jan. 22, 1973.
Hearing for cross-examination.	Jan. 30, 1973, 10 a.m. e.s.t

[Docket No. CP72–175]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Petition To Amend

OCTOBER 31, 1972.

Take notice that on October 13, 1972, Michigan Wisconsin Pipe Line Co. (Petitioner), 1 Woodward Avenue, Detroit, MI 48226, filed in Docket No. CP72–175 a petition to amend the order of the Commission issuing a certificate in said docket on July 20, 1972 (48 FPC ____) by authorizing the construction and operation of a 12,000 horsepower compressor unit at its Bridgman Compressor Station in lieu of the 4,500 horsepower unit authorized, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that when it solicited competitive bids for the installation of

Commencement of cross examination of all evidence.	May 8, 1973, 10 a.m. (e.d.t.)	

become a party must file a petition to intervene. Copies of the application are

herein, if the Commission on its own re-

Any person desiring to be heard or to make any protest with reference to said

Number, date, and subject

V37-215 NOV 7 72 XUM

Petitioner states that when it solicited competitive bids for the installation of the authorized 4,500 h.p. compressor unit at its Bridgman Compressor Station, one engine manufacturer submitted a proposal for the installation of a 12,000 h.p. unit at an estimated cost of $3,241,636 with a deferred payment provision, which provides for the payment of $2,365,046 in 1972, $100,000 in 1973, $361,146 in 1974, and $415,444 in 1976. Petitioner indicates that the first year's expenditure for the 12,000 horsepower unit will be substantially less than the cost associated with the acceptance of any other bid. Petitioner further states that the installation of a 12,000 rather than a 4,500 horsepower unit at the Bridgman Compressor Station, which is utilized to compress gas for delivery both to storage during the storage injection cycle and to market during the storage withdrawal cycle, will provide greater assurance of continuity of service until the full capacity of the larger unit is required.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before November 20, 1972, file with the Federal Power Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7734]

MID-CONTINENT AREA POWER POOL AGREEMENT

Notice of Extension of Time

OCTOBER 31, 1972.

On October 19, 1972, counsel for the Alexandria Board of Public Works, Minnesota, et al. filed a motion for change of the procedural dates as set forth in the Commission order issued September 26, 1972. The motion states that staff counsel, counsel for applicants, and the city of St. Paul, Minn., have no objection to the change in dates.

Upon consideration, notice is given that the procedural dates are modified as follows:

Prepared testimony and exhibits of intervenors.	Jan. 30, 1973.
Prepared testimony and exhibits by applicants.	Mar. 1, 1973.
Testimony by staff	Mar. 22, 1973.
Service of rebuttal evidence	Apr. 16, 1973.
Prehearing conference	May 1, 1973, 10 a.m. (e.d.t.)
Commencement of cross examination of all evidence.	May 8, 1973, 10 a.m. (e.d.t.)

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7690]

NEPOOL POWER POOL AGREEMENT

Notice of Extension of Time

OCTOBER 27, 1972.

On October 13, 1972, Northeast Public Power Association filed a motion for extension of time for filing testimony as required by the Commission's order issued on September 21, 1972. The motion states that the Commission staff has no objection and the Rhode Island Consumers Council and HG&E concur. The applicants accede to the request, provided that they are granted an equal extension to file their testimony.

Upon consideration, notice is hereby given that the procedural dates are modified as follows:

Prepared testimony and exhibits by intervenors.	Dec. 29, 1972
Prepared testimony and exhibits by applicants.	Jan. 30, 1973
Testimony by staff	Feb. 20, 1973
Rebuttal testimony	Mar. 15, 1973
Prehearing conference	Mar. 29, 1973, 10 a.m., e.s.t.

[Docket No. E-7758]

NORTHERN INDIANA PUBLIC SERVICE CO.

Notice of Completed Filing of Proposed Settlement Agreement

NOVEMBER 2, 1972.

Take notice that on October 6, 1972, Northern Indiana Public Service Co. (NIPSCO) filed supplemental cost-of-service data to its offer of settlement filed August 18, 1972, in this proceeding. The proposed settlement agreement would increase NIPSCO's revenues from jurisdictional sales and service by $1,109,418 based on the test year ended December 31, 1971, with an overall rate of return of 7.12 percent, to become effective upon issuance of a Commission order approving the proposed settlement.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 13, 1972. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the application are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-107]

NORTHERN NATURAL GAS CO.

Notice of Application

NOVEMBER 1, 1972.

Take notice that on October 19, 1972, Northern Natural Gas Co. (Applicant), 2223 Dodge Street, Omaha, NE 68102, filed in Docket No. CP73-107 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for Diamond Shamrock Corp. (Diamond Shamrock) in Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes pursuant to a gas transportation agreement dated July 25, 1972, to transport up to a maximum of 7,500 Mcf per day of Diamond Shamrock's portion of raw gas produced from the Wright "A" No. 1 well in Hemphill County, Tex., to treat such gas, and to redeliver it to Diamond Shamrock at Applicant's Hemphill County No. 1 gathering compressor station by reducing its takes from Diamond Shamrock by an amount equal to the volume of residue gas attributable to the raw gas volumes delivered to Applicant at the wellhead. Said agreement provides for the payment of 5 cents per Mcf to Applicant for the transportation and treating service. Applicant states that this service will avoid the need for duplicate facilities in the Mathers Ranch Field.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 27, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required

herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-108]

TRANSWESTERN PIPELINE CO.

Notice of Application

NOVEMBER 1, 1972.

Take notice that on October 20, 1972, Transwestern Pipeline Co. (Applicant), Post Office Box 2521, Houston, TX 77001, filed in Docket No. CP73-108 a budget-type application pursuant to section 7(c) of the Natural Gas Act as implemented by § 157.7(b) of the Commission's regulations thereunder, for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1973, and operation of certain natural gas purchase facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas in various producing areas generally coextensive with said system.

The total cost of the facilities proposed herein is not to exceed $7 million with no single project in excess of $1 million.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 24, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

ADVISORY PANELS

Notice of Meetings

Pursuant to Executive Order 11671, notice is hereby given of meetings of the following committees, including the individuals to contact for further information respecting each committee. The purpose of each of these advisory bodies is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

ADVISORY PANEL FOR SOCIAL PSYCHOLOGY

Date and time of meeting: 9 a.m. on November 9 and 10, 1972.

Location of meeting: Room 517; 1800 G Street NW.; Washington, DC 20550.

Agenda: The agenda will be devoted to the review and evaluation of research proposals.

For further committee information, contact: Dr. Roland Radloff, Program Director, Social Psychology Program; Room 205; 1800 G Street NW.; Washington, DC 20550.

ADVISORY PANEL FOR POLITICAL SCIENCE

Date and time of meeting: 9 a.m. on November 15, 1972.

Location of meeting: Room 203; 1800 G Street NW.; Washington, DC 20550.

Agenda: The agenda will be devoted to the review and evaluation of research proposals.

For further committee information, contact: Mrs. Bertha Rubenstein, Assistant Program Director, Political Science Program; Room 203; 1800 G Street NW.; Washington, DC 20550.

ADVISORY PANEL FOR ECONOMICS

Date and time of meeting: 9 a.m. on November 16 and 17, 1972.

Location of meeting: Room 621; 1800 G Street NW., Washington, DC 20550.

Agenda: The agenda will be devoted to the review and evaluation of research proposals.

For further committee information, contact: Dr. James H. Blackman, Program Director, Economics Program; Room 205; 1800 G Street NW., Washington, DC 20550.

ADVISORY PANEL FOR HISTORY AND PHILOSOPHY OF SCIENCE

Date and time of meeting: 9 a.m. on November 18, 1972.

Location of meeting: Room 338; 1800 G Street NW., Washington, DC 20550.

Agenda: The agenda will be devoted to the review and evaluation of research proposals.

For further committee information, contact: Dr. Vivian Shelanski, Assistant Program Director, History and Philosophy of Science Program; Room 205; 1800 G Street NW., Washington, DC 20550.

These meetings will not be open to the public in accordance with the determi-

in an industrial directory, and statistical audit programs. The meeting will be open

OFFICE OF MANAGEMENT AND BUDGET

AMERICAN STATISTICAL ASSOCIATION ADVISORY COMMITTEE ON STATISTICAL POLICY

Notice of Public Meeting

Pursuant to section 13(a)(2) of Executive Order No. 11671 of June 5, 1972, notice is hereby given of a meeting of the American Statistical Association Advisory Committee on Statistical Policy to be held in Room 10104, New Executive Office Building, 276 Jackson Place (entrance on 17th Street between Pennsylvania Avenue and H Street NW.), Washington, DC on Thursday, November 9, 1972, at 9:30 a.m.

The American Statistical Association Advisory Committee on Statistical Policy assists the Statistical Policy Division of the Office of Management and Budget in formulating policies, standards, and procedures for the development and improvement of the Federal statistical services.

The names and affiliations of members of the Committee are as follows:

Leonall C. Andersen, Federal Reserve Bank of St. Louis.
T. A. Bancroft, Iowa State University.
Daniel H. Brill, Commercial Credit Co.
Ewan Clague, Leo Kramer, Inc.
Walter E. Duffett, retired, formerly with Statistics Canada.
A. Ross Eckler, retired, formerly Director of Bureau of the Census.
Douglas Greenwald, McGraw-Hill, Inc.
Morris H. Hansen, Westat Research, Inc.
Philip M. Hauser, University of Chicago.
Forrest E. Linder, University of North Carolina.
Isador Lubin, Twentieth Century Fund.
Richard Ruggles, Yale University.
Eleanor Sheldon, Russel Sage Foundation.
Willard Thorp, retired, formerly with Amherst College.
Ralph J. Watkins, Surveys & Research Corp.

The purpose of the meeting is to hear remarks from the Chief of the Statistical Policy Division of the Office of Management and Budget on recent developments in the Federal statistical system; to hear a report on the new Federal Advisory Committee Act; and to discuss alternatives to the middecade census, confidentiality and privacy in collecting agency agreements, in establishment surveys and in an industrial directory, and statistical audit programs. The meeting will be open to public observation and participation.

HARRY H. FLICKINGER,
Acting Assistant to the Director for Administration.

SECURITIES AND EXCHANGE COMMISSION

[812-3275]

CHEMICAL FUND, INC. AND THE EBERSTADT FUND, INC.

Notice of Filing of Application

OCTOBER 30, 1972.

Notice is hereby given that Chemical Fund, Inc. (Chemical) and The Eberstadt Fund, Inc. (Eberstadt) (hereinafter also referred to as "Applicants"), 61 Broadway, New York, NY 10006, both diversified, open-end management investment companies registered under the Investment Company Act of 1940 (Act), have filed an application for an order of the Commission pursuant to section 6(c) of the Act declaring that Dr. Roger F. Murray shall not be deemed to be an interested person of Applicants as that term is defined under section 2(a)(19) of the Act solely by reason of his status as a director of Lincoln National Life Insurance Co of New York (Lincoln New York), and American Union Insurance Co. of New York (American Union). All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

Dr. Roger F. Murray has been a nonaffiliated member of the Board of Directors of Chemical since March 3, 1959, and of Eberstadt since June 28, 1966. Dr. Murray is also a director of Lincoln New York, which is a wholly-owned subsidiary of Lincoln National Life Insurance Co. of Fort Wayne, Ind. (Lincoln Indiana), and a director of American Union, which is a wholly-owned subsidiary of American States Insurance Co., Indianapolis, Ind. (American States). Lincoln Indiana is a wholly-owned subsidiary of Lincoln National Corp., and American States is 99.9 percent owned by Lincoln National Corp., of which LNC Equity Sales Corp. (Sales Corp.) is also a wholly-owned subsidiary. Sales Corp. is registered as a broker-dealer under the Securities Exchange Act of 1934.

Sales Corp. is in the business of selling mutual funds, and independent insurance agents of Lincoln Indiana are registered representatives of Sales Corp. in connection with its business of selling mutual funds. Registered representatives of Sales Corp. offer for sale, in addition to approximately four different mutual funds, combined programs for the acquisition of mutual fund shares and life insurance issued by Lincoln Indiana through equity funding programs. Sales Corp. is not a member of any securities exchange, does not make markets in securities, and does not execute or clear securities transactions, except transactions in mutual funds which it sells. Sales Corp. is not otherwise engaged in the securities business, and it does not have a

dealer sales agreement with, nor does it sell shares of, either of the Applicants. Since the activities of Sales Corp. are limited as described above, it is not in a position to, nor would it have reason to, in any way, act for or with, or to the detriment of, Applicants in connection with any securities transactions.

Section 2(a)(19) of the Act, as here pertinent, defines an interested person of an investment company as any broker or dealer registered under the Securities Exchange Act of 1934 or any affiliated person of such a broker or dealer.

Section 2(a)(3) of the Act includes in the definition of an "affiliated person" of another person, any director of such other person.

Section 6(c) of the Act provides that the Commission may, upon application, conditionally or unconditionally exempt any person from any provisions of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Applicants assert that Dr. Roger F. Murray should not be deemed an "interested person" of Applicants because his affiliation with Lincoln New York and American Union does not and will not impair his independence in acting on behalf of Applicants and its shareholders, and that the requested exemption is therefore consistent with the provisions of section 6(c) of the Act.

Notice is further given that any interested person may, not later than November 24, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

CRYSTALOGRAPHY CORP.

Order Suspending Trading

OCTOBER 30, 1972.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, $0.01 par value, and all other securities of Crystalography Corp., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from October 31, 1972, through November 9, 1972.

By the Commission.

DEPARTMENT OF LABOR

Office of Federal Contract Compliance

ADVISORY COMMITTEE ON TESTING AND SELECTION

Notice of Public Meetings

Notice is hereby given that the Department of Labor Advisory Committee on Testing and Selection will conduct 2 days of meetings on November 27 and 28, 1972, to discuss Department of Labor policy regarding the application of its Order for Employee Testing and Other Selection Procedures (41 CFR Part 60-3, 36 F.R. 19307, October 2, 1971) to various employment situations subject to the equal employment opportunity requirements of Executive Order 11246, as amended. The November 27 meeting will commence at 9 a.m. in Rooms 107 A, B, and C, Main Labor Department Building, 14th Street and Constitution Avenue NW., Washington, D.C. The November 28 meeting will commence at 9 a.m. in Room 3428, Main Labor Department Building, 14th Street and Constitution Avenue NW., Washington, D.C.

These meetings will be open to the public. In order to insure that problem areas of significant public concern will receive appropriate consideration by the Advisory Committee, interested persons are encouraged to submit written comments, views, or suggestions regarding test validation and related matters to Mr. Philip J. Davis, Acting Director, Office of Federal Contract Compliance, U.S. Department of Labor, Washington, D.C. 20210, by November 20, 1972.

Signed at Washington, D.C., this 31st day of October 1972.

PHILIP J. DAVIS,
Acting Director, Office of Federal Contract Compliance.

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF FULL-TIME STUDENTS WORKING OUTSIDE OF SCHOOL HOURS AT SPECIAL MINIMUM WAGES IN RETAIL OR SERVICE ESTABLISHMENTS OR IN AGRICULTURE

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulation on employment of full-time students (29 CFR Part 519), and Administrative Order No. 621 (36 F.R. 12819), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly rates lower than the minimum wage rates otherwise applicable under section 6 of the act. While effective and expiration dates are shown for those certificates issued for less than a year, only the expiration dates are shown for certificates issued for a year. The minimum certificate rates are not less than 85 percent of the applicable statutory minimum.

The following certificates provide for an allowance not to exceed the proportion of the total hours worked by full-time students at rates below $1 an hour to the total number of hours worked by all employees in the establishment during the base period in occupations of the same general classes in which the establishment employed full-time students at

wages below $1 an hour in the base year; or provide the same standards authorized

The following certificates issued to establishments permitted to rely on the base-year employment experience of others were either the first full-time student certificates issued to the establishment, or provide standards different from those previously authorized. The certificates permit the employment of full-time students at rates of not less than 85 percent of the applicable statutory minimum in the classes of occupations listed, and provide for the indicated monthly limitations on the percentage of full-time student hours of employment at rates below the applicable statutory minimum to total hours of employment of all employees.

C. Clement Supermarket, foodstore; Laplace, La.; bagger, packer, stock clerk; 40 percent; 9–14–73.

Consumers Super Market, Inc., foodstore; 537 Arapahoe, Thermopolis, WY; carryout; 9 to 39 percent; 9–14–73.

Gee Bee Food Market, foodstore; Walnut Street, Johnstown, Pa.; salesclerk, stock clerk, cashier, wrapper; 0.2 to 3 percent; 9–14–73.

McCrory-McLellan-Green Stores, variety-department stores, for the occupations of salesclerk, stock clerk, office clerk, 7 to 21 percent, 9–14–73, except as otherwise indicated: No. 62, Bremen, Ga. (10 to 31 percent); No. 117, Frederick, Md. (salesclerk, stock clerk, 5 to 18 percent); No. 64, Joplin, Mo.; No. 101, Richmond, Va. (salesclerk, stock clerk).

Ossie's, Inc., restaurant; 5506 Old Shell Road, Mobile, AL.; general restaurant worker; 9 to 21 percent; 9–14–73.

Red Rooster Southern Fried Chicken, Inc., restaurant; 2110 Winthrop Road, Lincoln, NE; general restaurant worker; 9 to 50 percent; 9–14–73.

Sandy's Drive-In, Inc., restaurant; 2209 South Sixth Avenue, Tucson, AZ; general restaurant worker; 35 to 63 percent; 9–14–73.

T. G. & Y. Stores Co., variety-department store; No. 2201, North Gulfport, Miss.; salesclerk, stock clerk, office clerk; 13 to 30 percent; 9–14–73.

Winegar's Wholesale Grocery, foodstore; 3371 South Orchard Drive, Bountiful, UT; bagger, salesclerk; 47 to 49 percent; 9–14–73.

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate. The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 30 days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 519.9.

Signed at Washington, D.C., this 30th day of October 1972.

ROBERT G. GRONEWALD,
Authorized Representative of the Administrator.

[Notice 155]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by Division 3 of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's general rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 30 days from the date of service of the order. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–73617. By order of October 27, 1972, Division 3, acting as an Appellate Division, approved the transfer to Southern Ohio Truck Lines, Inc., Hamilton, Ohio, of a portion of Certificate No. MC–123429 issued February 10, 1971, to McDowell Truck Line, Inc., Chicago, Ill., authorizing the transportation of papermill products and materials and supplies used therein, between Hamilton, Ohio, and Jeffersonville, Ind., over specified regular routes, serving all intermediate points, subject to certain restrictions. Earl N. Merwin, 85 East Gay Street, Columbus, OH 43215, attorney for applicant.

[Notice 145]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

NOVEMBER 1, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 30887 (Sub-No. 182 TA), filed October 11, 1972. Applicant: SHIPLEY TRANSFER, INC., 49 Main Street, Box 55, Reisterstown, MD 21136. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Natural latex*, in bulk, in tank vehicles, from Baltimore, Md., to Fulton, Ky., for 180 days. Supporting shipper: Reginald Slavin, Stein, Hall & Co., Inc., 605 Third Avenue, New York, NY 10016. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 814–B Federal Building, Baltimore, Md. 21201.

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 107882 (Sub-No. 27 TA), filed October 16, 1972. Applicant: ARMORED MOTOR SERVICE CORPORATION, 160 Ewingville Road, Trenton, NJ 08638. Applicant's representative: Herbert Alan Dubin, 1819 H Street NW., Washington, DC 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Food coupons*, from New York, N.Y., to Washington, D.C., for 180 days. Supporting shipper: Office of Motor Equipment, Transportation and Public Utilities, General Services Administration, Washington, D.C. 20406. Send protests to: Richard M. Regan, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 428 East State Street, Room 204, Trenton, NJ 08608.

No. MC 113908 (Sub-No. 240 TA), filed October 10, 1972. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, Post Office Box 3180 Glenstone Station, Springfield, MO 65804. Applicant's representative: B. B. Whitehead (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid soap, cleaning commodities, and ingredients*, in bulk, in tank- and hopper-type vehicles, from Denver, Colo., to points in Louisiana and Texas (except liquid soap from Denver, Colo., to Metairie-New Orleans, La.), and from points in Louisiana and Texas to Denver, Colo., for 180 days. Supporting shipper: Foresight, Inc., 1645 Court Place, Denver, CO 80202. Send protests to: John V. Barry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1100 Federal Building, 911 Walnut Street, Kansas City, MO.

No. MC 110420 (Sub-No. 665 TA), filed October 11, 1972. Applicant: QUALITY CARRIERS, INC., Post Office Box 186, Pleasant Prairie, WI. Off: I–94, County Highway C, Bristol, Kenosha County, Wis. 53104. Applicant's representative: Fred H. Figge (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acid, spent, liquid, in bulk, in tank vehicles*, from Burns Harbor, Ind., to Grafton, Wis., for 180 days. Supporting shipper: The C. Reiss Coal Co., Sheboygan, Wis. 53081 (R. H. Viever, Assistant to the Vice President—Operations and Development). Send protests to: District Supervisor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 110563 (Sub-No. 90 TA), filed October 11, 1972. Applicant: COLDWAY FOOD EXPRESS, INC., 113 North Ohio Avenue, Post Office Box 747, Ohio Building, Sidney, OH 45365. Applicant's representative: John L. Maurer (same address as above). Supporting shipper: Western Nebraska Packing Co., Inc., Post Office Box 314, Hastings, NE 68901. Send protests to: Keith D. Warner, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 534 Federal Office Building, 234 Summit Street, Toledo, OH 43604.

No. MC 115669 (Sub-No. 133 TA), filed October 17, 1972. Applicant: HOWARD N. DAHLSTEN, doing business as, DAHLSTEN TRUCK LINE, Post Office Box 95, Clay Center, NE 68933. Applicant's representative: Howard N. Dahlsten (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bentonite clay and foundry moulding sand treating compounds*, in bulk, from the plantsite of American Colloid Co. at or near Belle Fourche, S. Dak., to Waterloo, Iowa, and Omaha, Nebr., for 180 days. Supporting shipper: Robert N. Garrity-ATM American Colloid Co., 5100 Suffield Court, Skokie, IL 60076. Send protests to: Max H. Johnston, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 320 Federal Building, and Court House, Lincoln, Nebr. 68508.

No. MC 126159 (Sub-No. 5 TA), filed October 12, 1972. Applicant: ROC-SALT TRANSPORT, INC., 1151 South Carferry Drive, Milwaukee, WI 53207. Applicant's representative: Robert K. O'Connell (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, from La Salle, Peru, and Chicago, Ill., to points in Wisconsin, for 180 days. Supporting shipper: Domtar Chemicals, Inc., Sifto Salt Division, 9950 West Lawrence Avenue, Schiller Park, IL 60176 (A. McDougall, operations manager). Send protests to: District Supervisor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 135903 (Sub-No. 4 TA), filed October 18, 1972. Applicant: MID NEBRASKA TRUCKING, INC., Cornlea, Nebr. 68630. Applicant's representative: Patrick E. Quinn, 605 South 24th Street, Lincoln, NE 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Ear corn cribs* from Columbus, Nebr., to points in Iowa, Illinois, Minnesota, Indiana, Michigan, Wisconsin, and Ohio and (2) *Iron and steel*, from Chicago, Ill., commercial zone and Kokomo, Ind., to plantsite and storage facilities of Irregation Pump Co., at Columbus, Nebr., on return, for 180 days. Supporting shipper: Don Sokol, President, Irregation Pump Co., Post Office Box 666, Columbus, NE 68601. Send protests to: Max H. Johnston, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 320 Federal Building, and Court House, Lincoln, NE 68503.

No. MC 136423 (Sub-No. 1 TA), filed October 18, 1972. Applicant: EMPIRE DIRECT SHIPPERS, INC., 400 Sip Street, Jersey City, NJ. Applicant's representative: Kenneth R. Davis, 999 Union Street, Taylor, PA 18517. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Ribbons, bows and rosettes*, from Carlstadt, N.J., to Columbus, Ohio, Dallas, Tex., Fort Smith, Ark., and Houston, Tex., for 150 days. Supporting shipper: Artistic Manufacturing Co., 631 Central Avenue, Carlstadt, NJ 07072. Send protests to: District Supervisor Robert E. Johnston, Bureau of Operations, Interstate Commerce Commission, 970 Broad Street, Newark, NJ 07102.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Corrected Exemption 11, Amdt. 1; Ex Parte No. 241]

EXEMPTION UNDER PROVISION OF MANDATORY CAR SERVICE RULES

Upon further consideration of Corrected Exemption No. 11 issued July 25, 1972.

It is ordered, That, under authority vested in me by Car Service Rule 19, Corrected Exemption No. 11 to the mandatory car service rules ordered in Ex Parte No. 241, be, and it is hereby, amended to expire November 30, 1972.

This amendment shall become effective October 31, 1972.

Issued at Washington, D.C., October 25, 1972.

INTERSTATE COMMERCE COMMISSION,
[SEAL] LEWIS R. TEEPLE, *Agent.*

[FR Doc.72–19053 Filed 11–6–72;8:50 am]

[Ex Parte No. MC–19 (Sub-No. 19)]

PRACTICES OF MOTOR COMMON CARRIERS OF HOUSEHOLD GOODS

Consumer Protection

Upon consideration of the record in the above-entitled proceeding, and of the motions of Grace Polk Stern filed October 18, 1972, for: (1) Waiver of (a) Rule 15 of the Commission's rules of practice (49 CFR 1100.15) in its entirety as to individual members of the public for purposes of this proceeding, and (b) Rule 16 of the said rules of practice (49 CFR 1100.16) for purposes of this proceeding

V37-215 NOV 7 72 XUM

to the extent that individual members of the public may satisfy the procedural requirements of that rule by filing only the original of their representations, pleadings, or other submissions with the Commission (instead of the usual requirement of an original plus 15 copies to the Commission and copies to the original petitioner's representatives); and (2) expedited handling of the waiver requests in (1) above, and good cause appearing therefor.

It is ordered, That the motion in (1) above be, and it is hereby, overruled, for the reasons: (1) That there has been no persuasive showing at this time that movant or any other potential party to this proceeding is unwilling or unable adequately to represent the public interest in the manner which was contemplated and fully published in the notice of proposed rule making and order (37 F.R. 15466); (2) That this Commission's extremely limited staff and budgetary resources may not be sufficient to meet the additional burdens that would be placed upon them by a contrary determination as to this issue; and (3) That the Commission's rules of practice, as liberally construed pursuant to Rule 2 thereof to secure the just, speedy, and inexpensive determination of the issues presented (49 CFR 1100.2), should be complied with to the fullest extent practicable, and that individual requests for waivers of any of the requirements of Rules 15 and 16 will be considered when the document to which the request pertains is submitted with the request. This determination renders formal action on movant's request for expedited handling unnecessary.

Dated at Washington, D.C., this 31st day of October 1972.

By the Commission, Commissioner Murphy.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.72-19054 Filed 11-6-72;8:50 am]

[No. MC-12653 (Sub-No. 23)]

TURNER EXPEDITING SERVICE

Extension of Chicago Commercial Zone

Order. At a session of the Interstate Commerce Commission, Division 1, Acting as an Appellate Division, held at its office in Washington, D.C., on the 27th day of October 1972.

Kent I. Turner, Kenneth E. Turner, and Ervin L. Turner, a partnership doing business as Turner Expediting Service, extention—Chicago commercial zone (Louisville, Ky.).

Upon consideration of the record in the above-entitled proceeding, and of:

(1) Joint petition of All-American Transport, Inc., C. W. Transport, Inc., Courier-Newsom Express, Inc., and Dohrn Transfer Co., protestants, filed May 22, 1972, for reconsideration or, alternatively, oral hearing or receipt of additional evidence;

(2) Petition of Clairmont Transfer Co., protestant, filed May 25, 1972, for reconsideration or, alternatively, reopening for oral hearing or to receive additional evidence;

(3) Joint petition of McLean Trucking Co. and Smith's Transfer Corp., protestants, filed May 26, 1972, for reconsideration or, alternatively, rehearing;

(4) Reply by applicant, filed June 14, 1972; and

It further appearing, that by recommended order served February 24, 1972, the examiner recommended that applicant be granted authority to transport general commodities (with exception) between O'Hare Field, Chicago, Ill., on the one hand, and, on the other, points in the Chicago, Ill., commercial zone, restricted to the handling of traffic originating at or destined to the plantsite of American Greetings Corp., near Danville, Ky.;

It further appearing, that by stay decision and order, entered March 14, 1972, the Commission, Review Board Number 2, modified the examiner's findings by deleting the above-mentioned restriction, finding it to be difficult of enforcement and administratively undesirable, citing "Fox-Smythe Transp. Co. Ext.—Oklahoma," 106 M.C.C. 1, 56;

It further appearing, that the evidence of record, when considered in light of the pleadings, discloses that the grant made by the review board herein would authorize the institution of a new competitive service to an extent not warranted by the record; that the service description should be altered as indicated below to conform to the evidence of record; and that the findings of the board should be modified accordingly; and good cause appearing therefor:

It is ordered, That said stay decision and order of March 14, 1972, be, and it is hereby, modified, in the section entitled "Service Authorized" of the appendix thereto, by substituting for the phrase, "O'Hare Field, Chicago, Ill., on the one hand, and on the other, points in the Chicago, Ill., commercial zone," the phrase "the plantsite of American Greeting Corp. near Danville, Ky., on the one hand, and, on the other, Chicago, Ill., restricted to the transportation of traffic originating at or destined to the said plantsite."

It is further ordered, That, unless compliance is made by applicant with the requirements of sections 215, 217, and 221(c) of the Interstate Commerce Act, within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission, the grant of authority in the decision and order of March 14, 1972, as modified herein, shall be considered as null and void, and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

It is further ordered, That notice of the grant of authority made herein be published in the FEDERAL REGISTER.

By the Commission, Division 1, acting as an Appellate Division.

NOTE: This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

[SEAL] ROBERT L. OSWALD, *Secretary.*

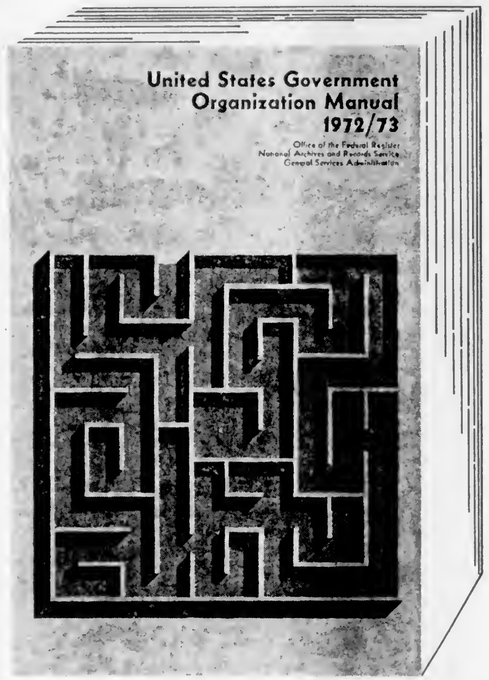
An Invaluable Reference Tool



1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

$3.00 per copy.

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 7—AGRICULTURE

Chapter X—Agricultural Marketing Service (Marketing Agreements and Orders; Milk), Department of Agriculture

[Milk Orders 71, 73, 97, 102, 104, 106, 108, 120, 126, 127, 128, 129, 130, 132, and 138; Docket No. AO-231-A39, etc.]

MILK IN NORTH TEXAS AND CERTAIN OTHER MARKETING AREAS

Order Amending Orders

Findings and determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

The following findings are hereby made with respect to each of the aforesaid orders:

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the respective marketing areas.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within each of the respective marketing areas, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending each of the specified orders, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the respective orders as hereby amended;

(3) The issuance of the order amending each of Orders 1071, 1073, 1106, 1108, 1120, 1127, 1128, 1132, and 1138 is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area;

(4) The issuance of the order amending each of Orders 1104, 1126, and 1130 is approved or favored by at least two-thirds of the producers who voted in a producer referendum and who were engaged in the production of milk for sale in the marketing area during the determined representative period; and

(5) The issuance of the order amending each of Orders 1097, 1102, and 1129 is favored by at least three-fourths of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the respective marketing areas shall be in conformity to and in compliance with the terms and conditions of each of the aforesaid orders, as amended, and as hereby further amended, as follows:

PART 1071—MILK IN THE NEOSHO VALLEY MARKETING AREA

1. Section 1071.60 is revised as follows:

§ 1071.60 Producer-handlers.

Sections 1071.40 through 1071.46, 1071.50 through 1071.52, 1071.70, 1071.71, 1071.90 through 1071.97, and 1071.110 through 1071.122 shall not apply to a producer-handler.

2. In § 1071.62, paragraph (b)(5) is revised as follows:

§ 1071.62 Obligation of handler operating a partially regulated distributing plant.

* * * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location plus 5 cents (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

3. In § 1071.71, add a new paragraph (c-1) as follows:

§ 1071.71 Computation of uniform price.

* * * * * *

(c-1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

* * * * * *

4. In § 1071.93, paragraph (b)(2) is revised as follows:

§ 1071.93 Payments to the producer-settlement fund.

* * * * * *

(b) * * *

(2) The value at the uniform price applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1071.70(d).

5. Immediately following § 1071.97, a new centerhead and new §§ 1071.110 through 1071.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1071.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1071.121 (b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

XUM
V37-216 NOV 8 72 V
XUM

XUM

§ 1071.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1071.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1071.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1071.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1071.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1071.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1071.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1071.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1071.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1071.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1071.110 and 1071.117.

§ 1071.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1071.110 and 1071.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1071.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1071.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1071.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1071.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1071.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1071.121 Duties of the market administrator.

Except as specified in § 1071.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1071.113(c).

(b) Set aside the amounts subtracted under § 1071.71(c–1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1071.71(c–1).

(3) After the end of each calendar quarter make a refund to each producer who has made application for such refund pursuant to § 1071.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1071.71(c–1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1071.110 through 1071.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1071.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1071.92.

PART 1073—MILK IN THE WICHITA MARKETING AREA

1. Section 1073.60 is revised as follows:

§ 1073.60 Producer-handler.

Sections 1073.40 through 1073.46, 1073.50 through 1073.54, 1073.61, 1073.62, 1073.70 through 1073.72, 1073.80 through 1073.88, and 1073.110 through 1073.122 shall not apply to a producer-handler.

2. In § 1073.62, paragraph (b)(5) is revised as follows:

§ 1073.62 Obligation of handler operating a partially regulated distributing plant.

* * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the uniform price applicable at such location plus 5 cents (not to be less than the Class III price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class III price.

3. In § 1073.71, a new paragraph (c–1) is added as follows:

§ 1073.71 Computation of uniform prices.

* * * * *

(c–1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

* * * * *

4. In § 1073.84, paragraph (b)(2) is revised as follows:

§ 1073.84 Payments to the producer-settlement fund.

* * * * *

(b) * * *

(2) The value at the "weighted average" price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class III price) with respect to other source milk for which a value is computed pursuant to § 1073.70(g).

5. Immediately following § 1073.88, a new centerhead and new §§ 1073.110 through 1073.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1073.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1073.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1073.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1073.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1073.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1073.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to

V 37 • 216 • NOV 8 72 N
XUM

constitute a majority of the agency representatives.

§ 1073.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1073.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1073.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1073.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1073.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1073.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1073.110 and 1073.117.

§ 1073.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following.

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1073.110 and 1073.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1073.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1073.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1073.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1073.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1073.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A diary farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1073.121 Duties of the market administrator.

Except as specified in § 1073.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1073.113(c).

(b) Set aside the amounts subtracted under § 1073.71(c-1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1073.71(c-1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1073.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1073.71(c-1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1073.110 through 1073.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1073.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1073.83.

PART 1097—MILK IN THE MEMPHIS, TENN. MARKETING AREA

1. Section 1097.60 is revised as follows:

§ 1097.60 Producer-handler.

Sections 1097.40 through 1097.46, 1097.50 through 1097.53, 1097.70 through 1097.72, 1097.80 through 1097.83, 1097.90 through 1097.97, and 1097.110 through 1097.122 shall not apply to a producer-handler.

2. In § 1097.71, a new paragraph (d-1) is added as follows:

§ 1097.71 Computation of uniform prices for handlers.

* * * * * *

(d-1) Subtract an amount computed by multiplying the total hundredweight of producer milk in each class by 5 cents; and

* * * * * *

3. In § 1097.72, paragraphs (a) and (b) are revised as follows:

§ 1097.72 Computation of the uniform prices for base and excess milk for handlers.

* * * * * *

(a) Following the computations and adjustments provided for in § 1097.71 (a), (b), (c), (d), and (d-1);

(b) Compute the value of excess milk received by such handler as producer milk and bulk milk from a cooperative association in its capacity as a handler pursuant to § 1097.10(c), by multiplying the quantity of such milk not in excess of the total quantity of Class II milk for such handler pursuant to § 1097.70(a) by the Class II price less 5 cents; multiply the remaining excess milk by the Class I price less 5 cents, and add together the resulting amounts;

* * * * * *

4. Immediately following § 1097.97, a new centerhead and new §§ 1097.110 through 1097.122 are added as follows:

AVERTISING AND PROMOTION PROGRAM

§ 1097.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1097.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1097.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1097.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1097.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1097.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1097.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1097.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1097.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

XUM V 37 ■ 216 NOV 8 72 XUM V

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1097.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1097.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1097.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1097.110 and 1097.117.

§ 1097.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1097.110 and 1097.117;

(c) Keep minutes, books and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1097.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1097.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1097.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1097.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commision or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1097.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1097.121 Duties of the market administrator.

Except as specified in § 1097.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1097.113(c).

(b) Set aside the amounts substracted under § 1097.71(d–1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1097.71(d–1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1097.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1097.71(d–1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter

with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1097.110 through 1097.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1097.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall be distributed in an equitable manner to producers by the market administrator.

PART 1102—MILK IN THE FORT SMITH, ARK., MARKETING AREA

1. Section 1102.60 is revised as follows:

§ 1102.60 Producer-handler.

Sections 1102.40 through 1102.46, 1102.50 through 1102.54, 1102.70 through 1102.72, 1102.80 through 1102.86, 1102.90, through 1102.93, and 1102.110 through 1102.122 shall not apply to a producer-handler.

2. In § 1102.71, at the end of paragraph (c) the word "and" is deleted, and a new paragraph (c–1) is added as follows:

§ 1102.71 Computation of uniform prices for handlers.

* * * * *

(c–1) Subtract an amount computed by multiplying the total hundredweight of producer milk in each class by 5 cents; and

3. In § 1102.72, paragraphs (a) and (b) are revised as follows:

§ 1102.72 Computation of the uniform prices for base and excess milk for each handler.

* * * * *

(a) Following the computations and adjustments provided for in § 1102.71 (a), (b), (c), and (c–1);

(b) Compute the value of excess milk received by such handler from producers, by multiplying the quantity of such milk not in excess of the total Class II milk included in this computation by the Class II price less 5 cents; multiply the remaining excess milk by the Class I price less 5 cents and add together the resulting amounts;

* * * * *

4. Add a new § 1102.87 as follows:

§ 1102.87 Payment of advertising and promotion funds.

On or before the 15th day after the end of each month during which producer milk was received, each handler shall turn over to the market administrator the advertising and promotion funds deducted pursuant to § 1102.71(c–1).

5. Immediately following § 1102.93, a new centerhead and new §§ 1102.110 through 1102.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1102.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1102.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1102.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1102.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1102.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1102.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1102.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1102.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1102.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1102.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1102.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1102.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1102.110 and 1102.117.

XUM V37-216 NOV 8 72 XUM V

§ 1102.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1102.110 and 1102.117;

(c) Keep minutes, books, and records, and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1102.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1102.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1102.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1102.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1102.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1102.121 Duties of the market administrator.

Except as specified in § 1102.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1102.113(c).

(b) Set aside the amounts subtracted under § 1102.71(c–1) and received pursuant to § 1102.87 into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1102.71(c–1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1102.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1102.71(c–1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1102.110 through 1102.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1102.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall be distributed in an equitable manner to producers by the market administrator.

PART 1104—MILK IN THE RED RIVER VALLEY MARKETING AREA

1. Section 1104.60 is revised as follows:

§ 1104.60 Producer-handler.

Sections 1104.40 through 1104.46, 1104.50 through 1104.54, 1104.70 through 1104.74, 1104.80 through 1104.86, and 1104.110 through 1104.122 shall not apply to a producer-handler.

2. In § 1104.62, paragraph (b)(5) is revised as follows:

§ 1104.62 Obligation of handler operating a partially regulated distributing plant.

• • • • • •

(b) • • •

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location plus 5 cents (not to be less than the Class II price applicable to milk used in the manufacture of American cheese, butter, and nonfat dry milk) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at such Class II price.

3. In § 1104.71, a new paragraph (c–1) is added as follows:

§ 1104.71 Computation of uniform prices.

(c–1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

• • • • • •

4. In § 1104.82, paragraph (b)(2) is revised as follows:

§ 1104.82 Payments to the producer-settlement fund.

• • • • • •

(b) • • •

(2) The value at the weighted average price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price applicable to milk used in the manufacture of butter, American cheese and nonfat dry milk) with respect to other source milk for which a value is computed pursuant to § 1104.70(e).

5. Immediately following § 1104.86, a new centerhead and new §§ 1104.110 through 1104.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1104.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1104.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1104.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under §1104.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1104.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1104.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1104.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1104.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1104.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1104.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1104.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1104.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1104.110 and 1104.117.

§ 1104.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1104.110 and 1104.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

XUM
V 37 • 216 • NOV 8 72 XUM

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1104.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1104.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1104.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1104.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1104.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1104.121 Duties of the market administrator.

Except as specified in § 1104.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1104.113(c).

(b) Set aside the amounts subtracted under § 1104.71(c–1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1104.71(c–1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1104.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1104.71(c–1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1104.110 through 1104.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1104.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1104.81.

PART 1106—MILK IN THE OKLAHOMA METROPOLITAN MARKETING AREA

1. Section 1106.60 is revised as follows:

§ 1106.60 Producer-handler.

Sections 1106.40 through 1106.46, 1106.50 through 1106.53, 1106.70 through 1106.72, 1106.80 through 1106.88, and 1106.110 through 1106.122 shall not apply to a producer-handler.

2. In § 1106.62, paragraph (b)(5) is revised as follows:

§ 1106.62 Obligation of handler operating a partially regulated distributing plant.

* * * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant subtract its value at the weighted average price applicable at such location plus 5 cents (not to be less than the Class II price applicable to milk used in the manufacture of American cheese, butter, and nonfat dry milk), and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at such Class II price.

3. In § 1106.71, a new paragraph (e) is added as follows:

§ 1106.71 Computation of aggregate value used to determine price(s).

* * * * * *

(e) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents.

4. In § 1106.84, paragraph (b)(2) is revised as follows:

§ 1106.84 Payments to the producer-settlement fund.

* * * * * *

(b) * * *

(2) The value at the uniform price applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price applicable to milk used in the manufacture of American cheese, butter and nonfat dry milk) with respect to other source milk for which a value is computed pursuant to § 1106.70(e).

5. Immediately following § 1106.88, a new centerhead and new §§ 1106.110 through 1106.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1106.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1106.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1106.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1106.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1106.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1106.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1106.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1106.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1106.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1106.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1106.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1106.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1106.110 and 1106.117.

§ 1106.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1106.110 and 1106.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1106.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1106.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1106.121(b)(1) shall be utilized for administrative expense of the Agency.

XUM V37-216-NOV 8 72 XUM V

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1106.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1106.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1106.121 Duties of the market administrator.

Except as specified in § 1106.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1106.113(c).

(b) Set aside the amounts subtracted under § 1106.71(e) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1106.71(e).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1106.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1106.71(e) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1106.110 through 1106.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1106.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1106.83.

PART 1108—MILK IN THE CENTRAL ARKANSAS MARKETING AREA

1. Section 1108.60 is revised as follows:

§ 1108.60 Producer-handler.

Sections 1108.40 through 1108.46, 1108.50 through 1108.53, 1108.61, 1108.62, 1108.70 through 1108.75, 1108.80 through 1108.86, 1108.90 through 1108.93, and 1108.110 through 1108.122 shall not apply to a producer-handler.

2. In § 1108.62, paragraph (b)(5) is revised as follows:

§ 1108.62 Obligation of handler operating a partially regulated distributing plant.

* * * * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the weighted average price applicable at such location plus 5 cents (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

3. In § 1108.71, a new paragraph (c–1) is added as follows:

§ 1108.71 Computation of the uniform price.

* * * * * * *

(c–1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

* * * * * * *

4. In § 1108.72, paragraphs (b) (1) and (2) are revised as follows:

* * * * * * *

(b) * * *

(1) Multiply the hundredweight of such milk not in excess of the total quantity of producer milk assigned to Class II milk of handlers included in these computations by the Class II price less 5 cents;

(2) Multiply any additional hundredweight of such milk by the Class I price less 5 cents; and

* * * * * * *

5. In § 1108.82, paragraph (b)(2) is revised as follows:

§ 1108.82 Payments to the producer-settlement fund.

* * * * * * *

(b) * * *

(2) The value at the weighted average price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1108.70(e).

6. Immediately following § 1108.93, a new centerhead and new §§ 1108.110 through 1108.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1108.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1108.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1108.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1108.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1108.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1108.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1108.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1108.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1108.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1108.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1108.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1108.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1108.110 and 1108.117.

§ 1108.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1108.110 and 1108.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1108.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1108.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1108.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1108.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except

V 37 • 216 NOV 8 72 XUM

for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1108.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refunds shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1108.121 Duties of the market administrator.

Except as specified in § 1108.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1108.113(c).

(b) Set aside the amounts subtracted under § 1108.71(c–1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1108.71(c–1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1108.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1108.71(c–1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1108.110 through 1108.122).

(d) Make the necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1108.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1108.81.

PART 1120—MILK IN THE LUBBOCK-PLAINVIEW MARKETING AREA

1. Section 1120.60 is revised as follows:

§ 1120.60 Producer-handler.

Sections 1120.40 through 1120.46, 1120.50 through 1120.53, 1120.70 through 1120.75, 1120.80 through 1120.87, and 1120.110 through 1120.122 shall not apply to a producer-handler.

2. In § 1120.62, paragraph (b)(5) is revised as follows:

§ 1120.62 Obligation of handler operating a partially regulated distributing plant.

* * * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price), subtract its value at the uniform price applicable at such location plus 5 cents (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price) less the value of such skim milk at the Class II price.

3. In § 1120.71, the word "and" at the end of paragraph (c) is deleted, the period at the end of paragraph (d) is deleted and a semicolon followed by the word "and" is added thereat, and a new paragraph (e) is added as follows:

§ 1120.71 Computation of aggregate value used to determine uniform price.

* * * * * *

(e) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents.

4. In § 1120.82, paragraph (b)(2) is revised as follows:

§ 1120.82 Payments to the producer-settlement fund.

* * * * * *

(b) * * *

(2) The value at the weighted average price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1120.70(e).

5. Immediately following § 1120.87, a new centerhead and new §§ 1120.110 through 1120.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1120.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1120.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1120.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1120.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1120.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1120.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1120.112 Term of office.

The term of office or each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1120.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative, who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1120.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1120.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1120.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1120.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1120.110 and 1120.117.

§ 1120.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1120.110 and 1120.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1120.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1120.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1120.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1120.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1120.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only by the producer. Only that information through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application

XUM
V37-216 NOV 8 72 XUM

filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1120.121 Duties of the market administrator.

Except as specified in § 1120.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1120.113(c).

(b) Set aside the amounts subtracted under § 1120.71(e) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1120.71(e).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1120.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1120.71(e) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1120.110 through 1120.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1120.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1120.81.

PART 1126—MILK IN THE NORTH TEXAS MARKETING AREA

1. Section 1126.60 is revised as follows:

§ 1126.60 Producer-handler.

Sections 1126.40 through 1126.46, 1126.50 through 1126.53, 1126.70 through 1126.72, 1126.90 through 1126.97, and 1126.110 through 1126.122 shall not apply to a producer-handler.

2. In § 1126.62, paragraph (b)(5) is revised as follows:

§ 1126.62 Obligation of handler operating a partially regulated distributing plant.

* * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price), subtract its value at the uniform price applicable at such location plus 5 cents (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price) less the value of such skim milk at the Class II price.

3. In § 1126.71, the word "and" at the end of paragraph (c) is deleted, the period at the end of paragraph (d) is deleted and a semicolon followed by the word "and" is added thereat, and a new paragraph (e) is added as follows:

§ 1126.71 Computation of aggregate value used to determine uniform price.

* * * * *

(e) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents.

4. In § 1126.93, paragraph (b)(2) is revised as follows:

§ 1126.93 Payments to the producer-settlement fund.

* * * * *

(b) * * *

(2) The value at the uniform price applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1126.70(e).

5. Immediately following § 1126.97, a new centerhead and new §§ 1126.110 through 1126.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1126.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1126.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1126.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1126.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1126.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1126.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1126.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1126.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships

and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1126.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1126.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1126.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1126.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1126.110 and 1126.117.

§ 1126.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1126.110 and 1126.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1120.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1126.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1126.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1126.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1126.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of his section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1126.121 Duties of the market administrator.

Except as specified in § 1126.116, the market administrator in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1126.113(c).

(b) Set aside the amounts subtracted under § 1126.71(e) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

XUM
V37-216-NOV 8 72
XUM

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1126.71(e).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1126.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1126.71(e) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1126.110 through 1126.122)

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1126.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1126.92.

PART 1127—MILK IN THE SAN ANTONIO MARKETING AREA

1. In § 1127.61, paragraph (b)(5) is revised as follows:

§ 1127.61 Obligation of handler operating a partially regulated distributing plant.

* * * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price), subtract its value at the uniform price applicable at such location plus 5 cents (not to be less than the Class II price) less the value of such skim milk at the Class II price.

2. In § 1127.71, a new paragraph (c–1) is added as follows:

§ 1127.71 Computation of uniform price.

* * * * * *

(c–1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

* * * * * *

3. In § 1127.84, paragraph (b)(2) is revised as follows:

§ 1127.84 Payments to the producer-settlement fund.

* * * * * *

(b) * * *

(2) The value at the uniform price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1127.70(d).

4. Immediately following § 1127.88, a new centerhead and new §§ 1127.110 through 1127.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1127.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1127.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1127.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1127.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1127.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1127.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1127.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1127.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1127.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1127.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1127.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1127.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with

persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1127.110 and 1127.117.

§ 1127.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1127.110 and 1127.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1127.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1127.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1127.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1127.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1127.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) though (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1127.121 Duties of the market administrator.

Except as specified in § 1127.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1127.113(c).

(b) Set aside the amounts subtracted under § 1127.71(c–1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1127.71(c–1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1127.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1127.71(c–1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1127.110 through 1127.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1127.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1127.83.

PART 1128—MILK IN THE CENTRAL WEST TEXAS MARKETING AREA

1. Section 1128.60 is revised as follows:

§ 1128.60 Producer-handler.

Sections 1128.40 through 1128.46, 1128.50 through 1128.53, 1128.70 through 1128.75, 1128.80, 1128.81, 1128.90 through 1128.98, and 1128.110 through 1128.122 shall not apply to a producer-handler.

2. In § 1128.62, paragraph (b)(5) is revised as follows:

§ 1128.62 Obligation of handler operating a partially regulated distributing plant.

* * * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price), subtract its value at the uniform price applicable at

XUM V37-216 NOV 8 72 XUM V

such location plus 5 cents (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price) less the value of such skim milk at the Class II price.

3. In § 1128.71, the word "and" at the end of paragraph (c) is deleted, the period at the end of paragraph (d) is deleted and a semicolon followed by the word "and" is added thereat, and a new paragraph (e) is added as follows:

§ 1128.71 Computation of aggregate value used to determine uniform price.

* * * * *

(e) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents.

4. In § 1128.94, paragraph (b)(2) is revised as follows:

§ 1128.94 Payments to the producer-settlement fund.

* * * * *

(b) * * *

(2) The value at the uniform price applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1128.70(e).

5. Immediately following § 1128.98, a new centerhead and new §§ 1128.110 through 1128.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1128.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1128.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1128.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1128.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1128.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1128.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1128.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1128.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1128.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1128.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1128.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1128.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1128.110 and 1128.117.

§ 1128.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1128.110 and 1128.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1128.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1128.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1128.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1128.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1128.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1128.121 Duties of the market administrator.

Except as specified in § 1128.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1128.113(c).

(b) Set aside the amounts subtracted under § 1128.71(e) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1128.71(e).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1128.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1128.71(e) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1128.110 through 1128.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1128.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1128.93.

PART 1129—MILK IN THE AUSTIN-WACO MARKETING AREA

1. Section 1129.60 is revised as follows:

§ 1129.60 Producer-handler.

Sections 1129.40 through 1129.46, 1129.50 through 1129.54, 1129.70 through 1129.72, 1129.90 through 1129.95, and 1129.110 through 1129.122 shall not apply to a producer-handler.

2. In § 1129.71, the word "and" at the end of paragraph (b) is deleted, the period at the end of paragraph (c) is deleted and a semicolon followed by the word "and" is added thereat, and a new paragraph (d) is added as follows:

§ 1129.71 Computation of aggregate value used to determine uniform price.

* * * * *

(d) Subtract an amount computed by multiplying the total hundredweight of producer milk in each class by 5 cents;

3. Add a new § 1129.96 as follows:

§ 1129.96 Payment of advertising and promotion funds.

On or before the 15th day after the end of each month during which producer milk was received, each handler shall turn over to the market administrator the advertising and promotion funds deducted pursuant to § 1129.71(d).

4. Immediately following § 1129.96, a new centerhead and new §§ 1129.110 through 1129.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1129.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1129.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1129.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1129.113(b), is authorized one agency

V 37-216 NOV 8 72 XUM

representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1129.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1129.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1129.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1129.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative, who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1129.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1129.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1129.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1129.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1129.110 and 1129.117.

§ 1129.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business.

(b) Develop programs and projects pursuant to §§ 1129.110 and 1129.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1129.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1129.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1129.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1129.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1129.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1129.121 Duties of the market administrator.

Except as specified in § 1129.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1129.113(c).

(b) Set aside the amounts subtracted under § 1129.71(d) and received pursuant to § 1129.96 into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1129.71(d).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1129.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1129.71(d) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1129.110 through 1129.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1129.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall be distributed in an equitable manner to producers by the market administrator.

PART 1130—MILK IN THE CORPUS CHRISTI, TEXAS, MARKETING AREA

1. Section 1130.62 is revised as follows:

§ 1130.62 Producer-handler.

Sections 1130.40 through 1130.46, 1130.51 through 1130.54, 1130.70 through 1130.72, 1130.80 through 1130.88, and 1130.110 through 1130.122 shall not apply to a producer-handler.

2. In § 1130.61, paragraph (b)(5) is revised as follows:

§ 1130.61 Obligation of handler operating a partially regulated distributing plant.

* * * * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant (not to be less than the Class III price), subtract its value at the uniform price applicable at such location plus 5 cents (not to be less than the Class III price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant (not to be less than the Class III price) less the value of such skim milk at the Class III price.

3. In § 1130.71, the word "and" at the end of paragraph (c) is deleted, the period at the end of paragraph (d) is deleted and a semicolon followed by the word "and" is added thereat, and a new paragraph (e) is added as follows:

§ 1130.71 Computation of aggregate value used to determine uniform price.

* * * * * * *

(e) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents.

4. In § 1130.84, paragraph (b)(2) is revised as follows:

§ 1130.84 Payments to the producer-settlement fund.

* * * * * * *

(b) * * *

(2) The value at the uniform price applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class III price) with respect to other source milk for which a value is computed pursuant to § 1130.70(e).

5. Immediately following § 1130.88, a new centerhead and new §§ 1130.110 through 1130.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1130.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1130.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1130.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1130.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1130.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1130.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1130.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1130.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a),

V 37-216 NOV 8 72 XUM

(b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1130.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1130.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1130.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1130.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1130.110 and 1130.117.

§ 1130.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1130.110 and 1130.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1130.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval of all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1130.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1130.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1130.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1130.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1130.121 Duties of the market administrator.

Except as specified in § 1130.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1130.113(c).

(b) Set aside the amounts subtracted under § 1130.71(e) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1130.71(e).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1130.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1130.71(e) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1130.110 through 1130.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1130.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1130.83.

PART 1132—MILK IN THE TEXAS PANHANDLE MARKETING AREA

1. Section 1132.60 is revised as follows:

§ 1132.60 Producer-handler.

Sections 1132.40 through 1132.46, 1132.50 through 1132.53, 1132.70 through 1132.72, 1132.80 through 1132.89, and 1132.110 through 1132.122 shall not apply to a producer-handler.

2. In § 1132.62, paragraph (b)(5) is revised as follows:

§ 1132.62 Obligation of handler operating a partially regulated distributing plant.

* * * * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant subtract its value at the weighted average price applicable at such location plus 5 cents (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant less the value of such skim milk at the Class II price.

3. In § 1132.71, the word "and" at the end of paragraph (c) is deleted, the period at the end of paragraph (d) is deleted and a semicolon followed by the word "and" is added thereat, and a new paragraph (e) is added as follows:

§ 1132.71 Computation of aggregate value used to determine uniform price.

* * * * * * *

(e) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents.

4. In § 1132.84, paragraph (b)(2) is revised as follows:

§ 1132.84 Payments to the producer-settlement fund.

* * * * * * *

(b) * * *

(2) The value at the weighted average price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1132.70(e).

5. Immediately following § 1132.89, a new centerhead and new §§ 1132.110 through 1132.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1132.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1132.121 (b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1132.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1132.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1132.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall, nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1132.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1132.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1132.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative, who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1132.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall

V 37-216 NOV 8 72 XUM

conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1132.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1132.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1132.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1132.110 and 1132.117.

§ 1132.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1132.110 and 1132.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1132.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1132.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1132.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1132.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1132.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1132.121 Duties of the market administrator.

Except as specified in § 1132.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1132.113(c).

(b) Set aside the amounts subtracted under § 1132.71(e) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1132.71(e).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1132.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1132.71(e) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1132.110 through 1132.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1132.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1132.83.

PART 1138—MILK IN THE RIO GRANDE VALLEY MARKETING AREA

1. Section 1138.60 is revised as follows:

§ 1138.60 Producer-handler.

Section 1138.40 through 1138.46, 1138.50 through 1138.54, 1138.70 through 1138.72, 1138.80 through 1138.88, and 1138.110 through 1138.122 shall not apply to a producer-handler.

2. In § 1138.62, paragraph (b)(5) is revised as follows:

§ 1138.62 Obligation of handler operating a partially regulated distributing plant.

* * * * * * *

(b) * * *

(5) From the value of such milk at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price), subtract its value at the uniform price applicable at such location plus 5 cents (not to be less than the Class II price) and add for the quantity of reconstituted skim milk specified in subparagraph (3) of this paragraph its value computed at the Class I price applicable at the location of the nonpool plant (not to be less than the Class II price) less the value of such skim milk at the Class II price.

3. In § 1138.71, a new paragraph (c–1) is added as follows:

§ 1138.71 Computation of the uniform price.

* * * * * * *

(c–1) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a) of this section by 5 cents;

* * * * * * *

4. In § 1138.84, paragraph (b)(2) is revised as follows:

§ 1138.84 Payments to the producer-settlement fund.

* * * * * * *

(b) * * *

(2) The value at the uniform price(s) applicable at the location of the plant(s) from which received plus 5 cents (not to be less than the value at the Class II price) with respect to other source milk for which a value is computed pursuant to § 1138.70(e).

5. Immediately following § 1138.88, a new centerhead and new §§ 1138.110 through 1138.122 are added as follows:

ADVERTISING AND PROMOTION PROGRAM

§ 1138.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1138.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1138.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1138.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers which have elected not to combine pursuant to § 1138.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group, in total, one agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1138.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives.

§ 1138.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1138.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1138.111 and paragraph (a) of this section.

(c) Selection of agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required five (5) percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for agency membership and shall conduct a referendum among the individual producers eligible to vote. The election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1138.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum and any action of the Agency shall require a majority of concurring votes of those present and voting.

§ 1138.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions within the scope of Agency authority pursuant to § 1138.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91–670;

(c) Recommend amendments to the Secretary; and

(d) With approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1138.110 and 1138.117.

§ 1138.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public

V 37-216 NOV 8 72 XUM

such rules as may be necessary for the conduct of its business:

(b) Develop programs and projects pursuant to §§ 1138.110 and 1138.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1138.117 Advertising, Research, Education, and Promotion Program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1138.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1138.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1138.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1138.120 Procedure for requesting refunds.

Any producer may apply for refund under the procedure set forth under paragraphs (a) through (c) of this section.

(a) Refund shall be accomplished only through application filed with the market administrator in the form prescribed by the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the start of the next refund notification period as specified in paragraph (b) of this section, may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such period and including the remainder of the calendar quarter involved. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

§ 1138.121 Duties of the market administrator.

Except as specified in § 1138.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1138.113(c).

(b) Set aside the amounts subtracted under § 1138.71(c–1) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to subparagraphs (2) and (3) of this paragraph, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1138.71(c–1).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1138.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1138.71(c–1) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to subparagraph (2) of this paragraph.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§ § 1138.110 through 1138.122).

(d) Make necessary audits to establish that all Agency funds are used only for authorized purposes.

§ 1138.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1138.83.

Effective date: Upon publication (11–8–72) with respect to marketings on and after January 1, 1973.

Signed at Washington, D.C., on November 3, 1972.

RICHARD E. LYNG,
Assistant Secretary.

[FR Doc.72–19103 Filed 11–7–72;8:48 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

SUBCHAPTER C—AIRCRAFT

[Docket No. 10421, Admt. 39–1558]

PART 39—AIRWORTHINESS DIRECTIVES

Handley Page HP–137 Mark I Airplanes

Amendment 39–1031 (35 F.R. 11384), AD 70–15–4, as amended by Amendment 39–1317 (36 F.R. 19359), provides, in part, only for the installation of first stage turbine discs, P/N 0.261.25.013.0 which

are new on engines that incorporate Turbomeca Models TU–123, TU–124, and TU–126 on Handley Page HP–137 Mark I airplanes. After issuing Amendment 39–1317, the FAA determined that first stage turbine discs, P/N 0.261.25.013.0 which had accumulated less than 100 hours' time in service could also be safely installed on engines that incorporate Turbomeca Models TU–123, TU–124, and TU–126. Therefore, the AD is being further amended to provide that first stage turbine discs, P/N 0.261.25.013.0, with less than 100 hours' time in service since new, may be installed on engines that incorporate Turbomeca Models TU–123, TU–124, and TU–126. The existing requirements are continued with regard to all other first stage turbine discs.

Since this amendment relieves a restriction, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation regulations, Amendment 39–1031 (35 F.R. 11384), AD 70–15–4, as amended by Amendment 39–1317 (36 F.R. 19359), is further amended as follows:

By amending paragraph (c) to read as follows:

(c) For first stage turbine discs, P/N 0.261.25.013.0 installed with less than 100 hours' time in service since new on engines that incorporate Turbomeca Models TU–123, TU–124, and TU–126, installed in accordance with Turbomeca Service Instructions No. 0123, dated August 27, 1970, No. 0124, dated September 16, 1970, and No. 0127, dated September 16, 1970, respectively, or FAA-approved equivalents, before the accumulation of 750 hours total disc time in service or 2,000 cycles, whichever occurs sooner, remove the first stage turbine disc from service and replace it with a disc of the same part number, which has less than 100 hours' time in service since new.

This amendment becomes effective November 13, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on October 31, 1972.

C. R. MELUGIN, Jr.,
Acting Director,
Flight Standards Service.

[Docket No. 72–NE–10, Amdt. 39–1552]

PART 39—AIRWORTHINESS DIRECTIVES

Sikorsky Model S–58 Helicopters

Amendment 191 (25 F.R. 8026), AD 60–17–3, as amended, requires inspection of specified main rotor blade assemblies on Sikorsky S–58 helicopters for cracks and internal flaws with replacement as necessary and mandatory replacement of these blades after 2,650 hours total time in service. Due to service experience, the agency has determined that an increase in the service life of these Sikorsky S–58 main rotor blades is justified. Therefore, the AD is being further amended to increase the service life limit from the present 2,650 hours to 3,200 hours.

Since this amendment relieves a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13397), § 39.13 of Part 39 of the Federal Aviation regulations, Amendment 191 (25 F.R. 8026), AD 60–17–3, is amended as follows:

1. By deleting the words "2,650 hours" in paragraph (e) and inserting the words "3,200 hours" in lieu thereof.

2. By deleting the words "Sikorsky Service Bulletin No. 58B15–4C dated January 19, 1966" from paragraph (e) and inserting the words "Sikorsky Service Bulletin No. 58B15–4G dated September 12, 1972" in lieu thereof.

This amendment becomes effective November 15, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Burlington, Mass., on October 31, 1972.

FERRIS J. HOWLAND,
Director,
New England Region.

Chapter II—Civil Aeronautics Board

SUBCHAPTER D—SPECIAL REGULATIONS

[Reg. SPR–65, Amdt. 1]

PART 372a—TRAVEL GROUP CHARTERS

Modification of Surety Bond Requirements

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 1st day of November 1972.

When the Board enacted the travel group charter rule (SPR–61, adopted and effective September 27, 1972), it referred to the fact that it was not making final certain provisions relating to security arrangements for customers' deposits which had been included in the proposed rule (notice of proposed rule making EDR–218/SPDR–22A, dated December 30, 1971, hereafter referred to as EDR–218). At the time the proposed rule in EDR–218 was issued there was then pending before the Board a proposal (SPDR–26, dated October 26, 1971, 36 F.R. 20895) to generally amend certain of the security provisions in Parts 373,[1] 378[2] and 378a[3] of the Board's special regulations, as well as other amendments relating thereto. All of the proposed amendments to the general bond provisions set forth in SPDR–26 were accordingly incorporated as proposals in EDR–218, in anticipation that the former proceeding might be concluded before the latter. The reason for such action was the desirability of having the particular security provisions with regard to travel group charters consistent with the counterpart provisions applying generally throughout the Board's regulations. Accordingly, since SPR–61 was adopted before the amendments to the general provision had become final, the Board withdrew the affected proposals on security provisions in travel group charters and deferred this question to the general rule making proceeding in SPDR–26. In doing so, the Board indicated that such amendments as the Board might ultimately adopt in the general rule making proceeding (SPDR–26) would be adopted, by parallel amendment, for Part 372a, so as to maintain as much consistency as possible among the technical security provisions in all charter rules.

The surety bond provisions as proposed in SPDR–26 have now been made final, with modifications (SPR–62, adopted October 10, 1972). Thus, we are now incorporating these provisions, insofar as applicable, in the travel group charter rule (Part 372a).

Since this amendment is in the nature of a technical change and serves to conform the surety bond provisions of this charter rule to the counterpart provisions in the Board's other charter rules, which were adopted following public rule making procedures, and since it is in the public interest to have these new surety bond provisions used in connection with the travel group charters now being organized, the Board finds that notice and that the rule should be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board amends Part 372a of its special regulations (14 CFR Part 372a), effective November 1, 1972, as follows:

1. Amend § 372a.25 by modifying subparagraph (1) of paragraph (b), and paragraphs (c) and (d). As modified, § 372a.25 will read, in part, as follows:

§ 372a.25 Surety bond and depository agreement.

* * * * * *

(b) * * *

(1) A surety bond in the following minimum amounts: (i) If the charter is for air transportation only, a bond in the amount of $5,000 per round-trip charter flight, up to a maximum of $50,000 for a series of 10 or more round-trip flights; or (ii) if the charter involves land accommodations in addition to air transportation, a bond in the amount of $10,000 per round-trip flight, up to a maximum amount of $100,000 for a series of 10 or more round-trip flights: *Provided, however,* That the liability of the surety to any charter participant shall not exceed the amounts

[1] Study group charters.
[2] Inclusive tour charters.
[3] Contract bulk inclusive tours.

V37-216-NOV 8 72 XUM

paid by such charter participant to the charter organizer with respect to the charter; and

* * * * *

(c) The bond required under paragraphs (a) and (b) of this section shall insure the financial responsibility of the charter organizer and the supplying of the transportation and all other accommodations, services, and facilities in accordance with the contract between the charter organizer and the charter participants, and shall be in the form set forth as Appendix B.[1] Such bond shall be issued by a bonding or surety company (1) whose surety bonds are accepted by the Interstate Commerce Commission under 49 CFR 1084.6; or (2) which is listed in Best's Insurance Reports (Fire and Casualty) with a general policyholders' rating of "A" or better. The bonding or surety company shall be one legally authorized to issue bonds of that type in the State in which the charter originates. For purposes of this section, the term "State" includes any territory or possession of the United States, or the District of Columbia. The bond shall be specifically identified by the issuing surety with a company bond numbering system so that the Board may identify the bond with the specific charter or charters to which it relates: *Provided, however,* That these data may be set forth in an addendum attached to the bond which addendum must be signed by the charter organizer and the surety company. It shall be effective on or before the date the surety bond is filed with the Board. If the bond does not comply with the requirements of this section, or for any reason fails to provide satisfactory or adequate protection for the public, the Board will notify the direct air carrier(s) and the charter organizer by registered or certified mail, stating the deficiencies of the bond. Unless such deficiencies are corrected within the time set forth in such notification, the subject charter or charters shall be canceled.

(d) The bond required by this section shall provide that unless the charter participant files a claim with the charter organizer, or, if he is unavailable, with the surety, within sixty (60) days after termination of the charter, the surety shall be released from all liability under the bond to such participant. The contract between the charter organizer and the charter participant shall contain notice of this provision.

2. Amend § 372a.29 by amending paragraph (j). As amended, § 372a.29 will read in part as follows:

§ 372a.29 Contract between charter organizer and charter participants.

* * * * *

(j) The name and address of the surety and a statement that unless the charter participant files a claim with the charter organizer, or, if he is unavailable, with the surety, within sixty (60) days after termination of the charter, the surety shall be released from all liability under the bond to such charter participant (see § 372a.25(d));

3. Amend Appendix B to Part 372a as follows:

APPENDIX B

TRAVEL GROUP CHARTER ORGANIZER'S SURETY BOND UNDER PART 372a OF THE SPECIAL REGULATIONS OF THE CIVIL AERONAUTICS BOARD (14 CFR PART 372a)

* * * * *

The liability of the Surety shall not be discharged * * *

The bond shall cover the following charters: [2]

Surety company's bond No.	Date of flight departure	Place of flight departure

This bond is effective the ------ day of ----------, 19--, 12:01 a.m., standard time at the address of the principal as stated herein and shall continue in force until terminated as hereinafter provided. The principal or the surety may at any time terminate this bond by written notice to the Civil Aeronautics Board at its office in Washington, D.C., such termination to become effective thirty (30) days after actual receipt of said notice by the Board. The surety shall not be liable hereunder for the payment of any of the damages hereinbefore described which arise as the result of any contracts, agreements, undertakings, or arrangements for the supplying of transportation and other services made by the principal after the termination of this bond as herein provided, but such termination shall not affect the liability of the surety hereunder for the payment of any such damages arising as the result of contracts, agreements, or arrangements for the supplying of transportation and other services made by the principal prior to the date such termination becomes effective. Liability of the surety under this bond shall in all events be limited only to a charter participant or charter participants who shall within sixty (60) days after the termination of the particular travel group charter described herein give written notice of claim to the charter organizer or, if he is unavailable, to the surety, and all liability on this bond shall automatically terminate sixty (60) days after the termination date of the particular travel group charter covered by this bond except for claims filed within the time provided herein.

* * * * *

(Secs. 101(3), 204(a), 401, 402, 407, 416(a) and 1001 of the Federal Aviation Act of 1958, as amended, 72 Stat. 737 (as amended), 743, 754 (as amended), 757, 766, 771, and 788; 49 U.S.C. 1301, 1324, 1371, 1372, 1377, 1386, and 1481).

By the Civil Aeronautics Board.

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 310]

PART 22—DRAWBACK

Proof of Export

On April 23, 1970, a notice of proposed rule making relating to proof of export for drawback purposes was published in the FEDERAL REGISTER (35 F.R. 6505). It was proposed to eliminate usage of the notice of exportation and the shipper's export declaration for drawback purposes and to provide two alternative procedures by which the drawback claimant could establish export of the goods upon which drawback would be claimed. Interested persons were given 60 days from the date of publication of the notice to submit relevant written data, views, or arguments regarding the proposed amendments to the regulations.

Because of the response to the notice of April 23, 1970, a supplemental notice was published on March 3, 1971 (36 F.R. 4046), which titled the two alternative procedures suggested in the prior notice: (1) Carrier document, and (2) export examination, and made some minor revisions on these procedures. Furthermore, a third procedure entitled exporter's summary was proposed. As in the previous notice, the public was given 60 days to respond.

From the response to both notices, it has been found that the present procedure of filing notices of exportation, with an alternative to the certification requirement will best satisfy the needs of the drawback claimants. The proposed carrier document and export examination procedures, on the other hand, were strongly objected to as being too time consuming. Therefore, the proposed carrier document, and the export examination procedures are withdrawn. The present notice of exportation procedure is retained. Furthermore, the drawback claimant will be given an option of either submitting the notice of exportation to the district director of Customs at the port of exportation for certification and return or, in lieu of obtaining such certification, of furnishing the uncertified notice of exportation with the drawback entry supported by documentary evidence of exportation such as the bill of lading, air waybill, or cargo manifest, or certified copies thereof.

The exporter's summary procedure is implemented in the manner proposed in the notice of March 3, 1971, but with the addition of a new suggested format for setting forth the chronological summary of exports under that procedure.

Drawback claims which are pending on the effective date of the amendments of the Customs regulations may be processed under the regulations in their present form, or under the regulations as amended, at the option of the claimant.

The most significant changes from the notice of proposed rule making of March 3, 1971, are as follows:

1. The proposed changes in §§ 22.6(f)(19), 22.10, 22.18(b), 22.20, 22.37(a), and 22.45 of the Customs regulations are withdrawn, and the text of those sections as they appear in the present regulations is retained.

2. Section 22.7(a) is amended by listing the three optional procedures as: (1) Certified notice of exportation, (2) uncertified notice of exportation, and (3) exporter's summary. The certified notice of exportation procedure is the same procedure followed in the present regulations, whereas the uncertified notice of exportation procedure is a liberalized version of the present procedure which permits the filing of an uncertified notice if evidence of exportation is presented.

3. Section 22.7(b) is withdrawn as proposed and in its place appear provisions that set forth the current procedure for the certified notice of exportation. Subparagraphs (1) to (5) of § 22.7(b), except for a few minor editorial changes, are identical to paragraphs (a) to (e) of § 22.7 of the current regulations. However, subparagraph (6) of § 22.7(b) serves as a cross-reference to § 22.8 which covers drawback procedures on mail shipments, and is entirely new.

4. Section 22.7(c) is revised to set forth a liberalized procedure which permits filing an uncertified notice of exportation. In lieu of obtaining certification of the notice of exportation, the drawback claimant may furnish an uncertified notice of exportation supported by evidence of exportation such as the bill of lading, air waybill, freight waybill, Canadian Customs manifest, cargo manifest, or certified copies thereof.

5. Section 22.7(d) adopts the Exporter's Summary procedure. However, this section is amended by adding to it a suggested format for setting forth the chronological summary of exports.

6. In §§ 22.8, 22.9, and 22.11, the term "notice of exportation" is substituted for the terms "Certificate of Registration" or "Certificate of Registration, Customs Form 4455", wherever either of those terms appear. In § 22.20(d), the term "notice of exporation" is retained.

7. Section 22.11 is changed by deleting the first sentence and by substituting "regional commissioner" for "district director" in the section as amended. The section is further changed by providing for the amendment of any certified or uncertified notice of exportation as well as the amendment of an exporter's summary.

8. Section 22.13(a) is changed to provide for the documentation required to show proof of exportation when the certified and uncertified notices of exportation and the exporter's summary are used. Minor editorial changes have been made because of the changes in procedures prescribed by § 22.7.

9. Section 22.17(a) is changed by adding to the first sentence the clause "or the regional commissioner for the region where the drawback claim is liquidated" as an additional person who may require a landing certificate. Also, in the last sentence of this section the term "Customs officers" is substituted for "the district director of Customs".

10. In §§ 22.17 and 22.21, the word "master" is deleted from the phrase "master air waybill" where this phrase appears.

11. In § 22.21(a), the person who is held to be the exporter and entitled to claim drawback is changed to the person named exporter in (1) the district director's certificate on the notice of exportation, or in (2) the bill of lading, air waybill, freight waybill, Canadian Customs manifest, cargo manifest, or certified copies thereof, when other than the certified notice of exportation is used.

12. Section 22.26(a) is changed by deleting the phrase "and clearance of the exporting conveyance has been established by the records in the case of direct exportation or by a certificate when the merchandise was exported at another port".

Accordingly, §§ 22.6(g-1)(10), 22.7, 22.8, 22.9, 22.11, 22.13(a), 22.17(a), 22.21(a), and 22.26(a) are hereby adopted as set forth below.

Effective date. This amendment shall become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] LEONARD LEHMAN, *Acting Commissioner of Customs.*

Approved: October 31, 1972.

EUGENE T. ROSSIDES, *Assistant Secretary of the Treasury.*

Section 22.6(g-1)(10) is amended to read:

§ 22.6 General drawback rates in effect; approval of drawback statements by the Bureau and by regional commissioners.

* * * * *

(g-1) *Crude petroleum and petroleum derivatives; substitution.* * * *

(10) The refiner shall file a combination drawback entry and certificate of manufacture showing the products exported in the quantities established by the notices of lading and other evidence of exportation. Inasmuch as exported products, as described on the notices of lading and other evidence of exportation may include quantities of nonpetroleum additives, a recapitulation shall be made showing quantities exported and the quantity of each product (less additives) in terms of the abstract.

* * * * *

Section 22.7 is amended to read:

§ 22.7 Evidence of exportation.

(a) *Optional procedures.* Exportation of articles covered by a drawback claim shall be established by compliance with the provisions of one of the following procedures:

(1) Certified Notice of Exportation described in paragraph (b) of this section;

(2) Uncertified Notice of Exportation described in paragraph (c) of this section;

(3) Exporter's Summary described in paragraph (d) of this section.

(b) *Certified Notice of Exportation procedure.* (1) A notice of exportation, in triplicate, on Customs Form 7511 for each shipment of merchandise on which drawback is to be claimed under this procedure shall be filed by the exporter or his agent with the district director of Customs at the port at which the shipment is to be exported from the United States. Such notice shall show the name of the exporting vessel or other carrier, the number and kind of packages and their marks and numbers, the description of the merchandise and its weight (gross and net), gage, measure, or number, the name of the exporter, and the name of the port where the drawback entry is to be filed. If the merchandise is to be exported in railroad cars, a notice of exportation shall be filed for each car.

(2) Except as provided for in §§ 22.8 and 22.9, the notice of exportation shall be filed with the shipper's export declaration, or, if filed subsequently, it shall be filed within 3 years after exportation and shall state the number, if any, and date of the shipper's export declaration. One shipper's export declaration may cover several notices of exportation. A notice of exportation not filed in the time and manner herein specified shall not be accepted unless its acceptance is specifically authorized by the Bureau.

(3) Upon receipt of the notice of exportation, the district director shall assign a number thereto which shall be stamped or endorsed on the original and each copy of the notice. If a number has been assigned to the corresponding shipper's export declaration, the same number shall be assigned to the notice of exportation. If a shipper's export declaration covers more than one notice of exportation, each of the notices shall be assigned the same number as that assigned to the shipper's export declaration, but each notice shall be further identified by the addition of an alphabetic designation beginning with the letter "A." However, if no number has been assigned to the shipper's export declaration, each notice of exportation shall be separatelv numbered. On one of the copies of the notice, the district director shall certify (i) as to the exportation of the merchandise as shown by the records of his office, and (ii) as to the name of the exporter as shown by the shipper's export declaration covering the merchandise. The district director shall return such copy and one uncertified copy to the person designated by the exporter, for subsequent filing with the drawback entry. Whenever the district director is unable to certify to the exportation of the merchandise covered by the notice of exportation, he shall return two copies of the notice to the exporter or to the person designated by the exporter, with a statement of the facts in the case.

XUM
V 37-216 NOV 8 72 V
XUM

(4) When drawback is to be claimed under section 313 (a), (b), or (g), Tariff Act of 1930, with the use of this procedure, on an aircraft departing under its own power from the United States, or on merchandise exported by aircraft, the notice of exportation shall be filed in the manner prescribed herein at the port where the shipper's export declaration is filed.

(5) When merchandise is laden on a vessel for transshipment at a domestic port outside the continental United States, the notice of exportation shall be filed with the district director of Customs at the port where the merchandise was last transshipped for its foreign destination (the place where the shipper's export declaration is filed).

(6) Drawback claims on articles exported by mail must be supported by certified notices of exportation. See § 22.8 herein.

(c) *Uncertified notice of exportation procedure.* (1) The claimant may support the drawback entry with an uncertified notice of exportation on Customs Form 7511 for each shipment of merchandise covered by the claim. The notice of exportation shall show the name of the exporting vessel or other carrier, the number and kind of packages and their marks and numbers, the description of the merchandise and its weight (gross and net), gage, measure, or number, and the name of the exporter. An uncertified notice of exportation shall be supported by documentary evidence of exportation, such as the bill of lading, air waybill, freight waybill, Canadian Customs manifest, cargo manifest, or certified copies thereof, issued by the exporting carrier, and any additional evidence required by Customs officers to fully establish the time and fact of exportation.

(2) Prior to filing an uncertified notice of exportation with the drawback entry, the claimant shall assign a number thereto which shall be stamped or endorsed on the original and each copy of the notice. The number assigned shall correspond to that of the supporting document, such as the bill of lading, air waybill, or cargo manifest which is filed with the notice of exportation. If the supporting document covers more than one notice of exportation, each of the notices shall be assigned the same number, but each notice shall be further identified by the addition of an alphabetic designation beginning with the letter "A." However, if no number has been assigned to the supporting document, each notice of exportation shall be separately numbered.

(d) *Exporter's summary procedure.* (1) A procedure consolidating claims for drawback on a periodic basis shall be available when such procedure will substantially reduce the paperwork involved. Under this procedure the drawback entry shall be supported by a chronological summary of the exports and any additional evidence required by Customs officers to fully establish the fact of exportation and shall be permitted only when complete and accurate information is available from the records of the exporter-claimant.

(2) Application to use this procedure shall be made to the regional commissioner of Customs with whom drawback claims will be filed. Permission to use the procedure may be granted if, in the regional commissioner's discretion, he shall conclude that the circumstances so warrant and provided that the following conditions are met:

(i) Prior to filing the drawback claim the claimant's export volume is found sufficient to justify the proposed usage of the exporter's summary procedure by the regional commissioner of Customs in whose region the claims are to be filed;

(ii) A bond is furnished by the exporter-claimant in an amount determined by the district director of Customs, subject to approval of the regional commissioner, to protect the revenue against erroneous payment of drawback due to the incorrect description of (*a*) the exported articles, (*b*) the party entitled to drawback, or (*c*) the facts of exportation;

(iii) For a period of 3 years from the date of payment of the drawback, evidence of exportation that must include the identity and location of the ultimate consignee of the exported goods, shall be retained by the exporter-claimant for examination by authorized Government officials.

(3) The chronological summary of the exports shall be in a format acceptable to the regional commissioner of Customs with whom drawback claims are filed and shall contain substantially the data provided for in the sample format which follows:

CHRONOLOGICAL SUMMARY OF EXPORTS

Drawback Entry No. .....

Exporter/Claimant .....

Period from ..... to .....

Date of export	Exporting carrier	Freight or air waybill, bill of lading, manifest No., etc.[1]	Marks and numbers	Description	Net quantity	Schedule "B" number
(1)	(2)	(3)	(4)	(5)	(6)	(7)

[1] This number is to be used to associate the claim with exportation evidence retained by claimant.

Section 22.8 is amended to read:

§ 22.8 Notice of exportation; mail shipments.

(a) *Procedure.* If the merchandise on which drawback is to be claimed is to be exported by mail or parcel post, the notice of exportation shall be filed in triplicate with the postmaster at the place of mailing and the merchandise shall be delivered to the postmaster at the same time and mailed under his supervision. Such notices shall be numbered by the exporter in accordance with § 22.10.

(b) *Waiver of withdrawal.* Each package to be exported shall have stamped or written thereon a waiver of the right to withdraw the package from the mails, signed by the exporter.

(c) *Certification.* After the packages have been mailed, the postmaster will execute his certificate on one of the copies of the notice of exportation and return such copy and one uncertified copy to the exporter, or to the person designated by the exporter, for subsequent filing with the drawback entry. One copy will be retained by the postmaster as his record of the transaction.

Section 22.9 is amended to read:

§ 22.9 Evidence of exportation; Government shipments.

(a) *Procedure.* In the case of a shipment by a department, branch, or agency of the U.S. Government, the exportation may be established as provided by any one of the procedures set forth under § 22.7 when the drawback is to be claimed by such department, branch, or agency. The supplier of the merchandise may establish exportation under § 22.7 (b) or (c) only. No bond shall be required when the U.S. Government claims drawback under the provisions of § 22.7(d).

(b) *Certification.* When the certified notice of exportation procedure (§ 22.7 (b)) is to be used:

(1) Three copies of the notice of exportation shall be filed by the exporter or his agent with the Government officer in charge of transportation at the port of exportation. Such notice of exportation shall be numbered by the exporter in accordance with § 22.10.

(2) The notice of exportation shall bear an endorsement in the following form, to be placed thereon by the exporter, for execution by the Government transportation officer at the port of exportation:

CERTIFICATION OF EXPORTATION

This is to certify that the merchandise described herein was laden at the port of ----------, for ----------;
(foreign destination—actual or code)

that the exporting conveyance departed from the above-named port on ----------;
(date)

and that ---------- was the
(name)

actual shipper of the merchandise.

(name)

(date)

(rank, organization, title)

(3) The Government transportation officer at the port of exportation will certify exportation on the notice of exportation, mark "Copy" on the copies and return the original and one copy to the person who presented the notice. One copy of the notice of exportation will be retained by the Government transportation officer as his record of the transaction.

Section 22.11 is amended to read:

§ 22.11 Amendment of notices of exportation.

At any time within the 3-year period prescribed for the completion of the drawback claim, any certified or uncertified notice of exportation or exporter's summary may be amended if the regional commissioner is satisfied as to the correctness of the amendment. Every application for amendment and its supporting evidence shall be in writing and submitted to the regional commissioner of Customs for the region supervising the port where the drawback entry is filed.

Section 22.13(a) is amended to read:

§ 22.13 Completion of drawback claims.

(a) A drawback entry and certificate of manufacture shall be filed within 3 years after the date the articles are exported. Such entry and certificate shall be filed on Customs Form 7575 except in cases covered by paragraph (c) or (e) of this section. If any entry and certificate is filed on Customs Form 7575, such form shall be filed in duplicate; and, if the entry is filed on Customs Form 7573, only one copy (the original) need be filed, provided that an additional copy of either form may be required by the district director of Customs if he deems such additional copy necessary for administrative use in his office. When the entry covers exports under § 22.7(b), the copy of the notice of exportation certified by the district director of Customs shall be filed with the entry. When the entry covers exports under § 22.7(c), one copy of the uncertified notice of exportation, together with the original or a certified copy of the supporting document shall be filed. The certified or uncertified notice of exportation shall show that the merchandise was shipped by the person making the drawback entry, or shall bear an endorsement of the person in whose name the merchandise was shipped, showing that the person making entry is authorized to make it and to receive the drawback. One entry may cover several shipments. With respect to exportations under the provisions of § 22.7(d), one copy of the chronological summary of exports, shall be filed with the entry. All documents necessary to the liquidation of the entry, including those issued by one Customs officer to another, shall be filed or applied for, as the case may require within the 3-year period prescribed above, except that any required landing certificate shall be filed within the time presribed in § 22.17(c). Claims not completed within the 3-year prescribed above be treated as abandoned and no extension will be granted, unless it is established that failure to complete the claim within 3 years was occasioned by the action of a responsible Customs officer.

* * * * *

Section 22.17(a) is amended to read:

§ 22.17 Landing certificates.

(a) A landing certificate shall be required (1) whenever the district director of Customs at the port of exportation or at the port where the drawback entry is filed or the regional commissioner for the region where the drawback claim is liquidated shall have reason to believe that the shipment is not a bona fide exportation, (2) when the Bureau specifically directs that a landing certificate shall be produced, (3) when a landing certificate is otherwise required by law or regulation, and (4) for every aircraft which departs from the United States under its own power if drawback is claimed on the aircraft or any part thereof. Landing certificates for aircraft shall show the exact time of landing of the aircraft in the foreign country and describe the aircraft or parts thereof, on which drawback is claimed in sufficient detail to enable Customs officers to identify them with the bill of lading, air waybill, cargo manifest, or notice of exportation.

* * * * *

Section 22.21(a) is amended to read:

§ 22.21 To whom payable.

(a) The person named as exporter in (1) the district director's certificate on the notice of exportation, or in (2) the bill of lading, air waybill, freight waybill, Canadian Customs manifest, cargo manifest, or certified copies thereof, when other than the Certified Notice of Exportation procedure is used, shall be held to be the exporter and entitled to the drawback, unless the manufacturer or producer, on the sale or consignment of such articles, shall have reserved to himself the right to claim the drawback, in which case such manufacturer or producer may make entry for such drawback and it shall be paid to him upon the production of satisfactory evidence that such reservation was made with the knowledge and consent of the exporter.

* * * * *

Section 22.26(a) is amended to read:

§ 22.26 Statement of drawback due.

(a) When the drawback claim has been completed by the filing of the entry and other documents, as required by the regulations in this part and any required landing certificate has been produced, the regional commissioner of Customs shall proceed to ascertain the amount of drawback due by reference to the certificate of manufacture and the drawback rate under which the drawback claimed is allowable.

PART 153—ANTIDUMPING

Drycleaning Machinery From West Germany

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determination of sales at less than fair value. Pursuant to this authority the Secretary of the Treasury has determined that drycleaning machinery from West Germany is being, or is likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). (Published in the FEDERAL REGISTER of June 30, 1972 (37 F.R. 12978, F.R. Doc. 72-10129).)

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the U.S. Tariff Commission responsibility for determination of injury or likelihood of injury. The U.S. Tariff Commission has determined, and on September 29, 1972, it notified the Secretary of the Treasury that an industry in the United States is being injured by reason of the importation of drycleaning machinery from West Germany that is being, or is likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. (Published in the FEDERAL REGISTER of October 4, 1972 (37 F.R. 20898, F.R. Doc. 72-16951).)

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to drycleaning machinery from West Germany.

Section 153.43 of the Customs regulations is amended by adding the following to the list of findings of dumping currently in effect:

Merchandise	Country	T.D.
Drycleaning machinery....	West Germany	72-311

(Secs. 201, 407, 42 Stat. 11, as amended, 18; 19 U.S.C. 160, 173)

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

[FR Doc.72-19114 Filed 11-7-72;8:48 am]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

Use of Lithographed Soft Drink Bottles Bearing Label Declaration for Cyclamates

In the FEDERAL REGISTER of July 11, 1972 (37 F.R. 13556), the Commissioner

V37-216 NOV 8 72 XUM

of Food and Drugs proposed to allow continued use of certain mislabeled lithographed returnable soft drink bottles after October 1, 1972.

Thirty-six comments were received in response. The principal points raised and the Commissioner's conclusions are as follows:

Seventeen consumers (including two diabetics), two soft drink bottlers and one ecology interest group support the proposal because it would prevent the insult to the environment that would result from discarding such a large number of glass bottles over a short period of time. On the other hand, one consumer suggested that the bottles could be recycled and would not harm the environment. In addition to the short term disposal problem that would result from adhering to the October 1, 1972, cut-off date, the Commissioner recognized that there would also result a long-term environmental impact because bottlers have indicated that most of these returnable bottles would likely be replaced by one-way bottles. Notwithstanding this order ruling on the proposal; the Commissioner believes that the bottlers should pursue every means possible to phase out the bottles at the earliest possible date, weighing economic losses and environmental gains under the knowledge that a mislabeling is perpetuated by this order. Recycling the lithographed bottles is a possibility that should be given consideration as one means worthy of pursuit.

There were no objections raised against the proposal that had not been previously evaluated. One soft drink bottler objected to the proposal without suggestions for modifying its provisions. A county consumer agency stated that the proposed corrective labeling does not prevent confusion. Six consumers (including two diabetics) and one State agency objected to the proposal because of possible harm to diabetics and others who might be misled by conflicting labeling. The possibilities of such confusion and harm to diabetics were considered by the Comissioner prior to publishing the proposal. The cautionary labeling specified, i.e., prominent labeling on the bottle caps, cartons, and vending machines showing that the product contains sugar or carbohydrates and specifying the caloric and carbohydrate content per fluid ounce, was deemed sufficient to minimize confusion and properly inform diabetics that these beverages were not for their use without the advice of a physician.

Three consumer interest groups recommended that the cyclamate labeled bottles not be used after October 1, 1972, and one such group recommended a 5-year time limit. Adhering to the October 1, 1972, deadline would create too severe an environmental impact when the bottles were discarded. A specified time limit after the October 1, 1972, date was considered prior to publishing the proposal and rejected on the basis that use of the bottles have already been allowed for 3 years during which time it was originally anticipated that they would be phased out by attrition. At this time it is not possible to predict whether the bottles will be phased out by attrition in 5 years. Bottlers are, however, encouraged to hasten this phasing out by every possible means.

Two consumer interest groups and a county health department recommended use of the mislabeled bottles only if correct labeling is added directly to the bottles. A bottler's study of various relabeling possibilities indicates that existing equipment in bottling establishments cannot add labeling to the bottles, and the costs, both in money and in time, to equip the plants for relabeling would be prohibitive.

Accordingly, having considered the comments received and other relevant material, the Commissioner concludes that the proposal should be adopted as set forth in the FEDERAL REGISTER of July 11, 1972 (37 F.R. 13556).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 403, 409(d), 701(a), 52 Stat. 1047–1048 as amended, 1055, 72 Stat. 1787; 21 U.S.C. 343, 348(d), 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), paragraph (e) of § 3.72 is revised as follows:

§ 3.72 **Combinations of nutritive and nonnutritive sweeteners in "diet beverages."**

. . . . . .

(e) Bottlers of diet drinks have on hand large stocks of returnable lithographed bottles bearing statements indicating that the beverages contain cyclamates and/or declarations such as "sugar free," less than 1 calorie per bottle," or "less than 2 calories per bottle" which bottles were formerly used for artificially sweetened beverages containing cyclamates. The Food and Drug Administration will not object to continued use of these bottles under the following conditions:

(1) The bottles when filled with beverages made with combinations of nutritive and nonnutritive sweeteners may be marketed only:

(i) In multiunit cartons labeled prominently on each principal display panel with the information set forth in paragraphs (c) and (d) of this section and with a prominent, forthright notice that any information on bottles which is contrary to that on the cartons should be disregarded because it is incorrect. To assure adequate prominence and conspicuousness, the following statements should stand out in marked contrast with other labeling: The statement of caloric content, and carbohydrate content per fluid ounce, the statement required by paragraph (d) (3) or (4) of this section as applicable, and the notice to disregard any information on bottles which is contrary to that on the cartons. These statements may be made to stand out by means such as setting them forth in boxes, printing in bold capitals on lines separated from other printed labeling, using colors that contrast with those used for other label statements, or other similar means.

(ii) In vending machines bearing durable labeling which includes all of the information required to appear on cartons set forth with the same degree of prominence.

(2) In addition, the bottles must bear caps labeled prominently with the words "Contains Sugar" or "Contains Carbohydrates," and accurate statements of the caloric content and carbohydrate content per fluid ounce.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER (11–8–72).

(Secs. 403, 409(d), 701(a), 52 Stat. 1047–1048 as amended, 1055, 72 Stat. 1787; 21 U.S.C. 343, 348(d), 371(a))

Dated: November 1, 1972.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

SUBCHAPTER C—DRUGS

PART 141—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Doxycycline Hyclate

Correction

In F.R. Doc. 72-17212 appearing at page 21302 of the issue for Saturday, October 7, 1972, in the tabulated material under § 141.7(c) the heading "Route of administration as described in paragraph (C) of this section" and the material thereunder should be deleted.

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter V—Office of Assistant Secretary for Community Development, Department of Housing and Urban Development

[Docket No. R-72-141]

PART 540—OPEN SPACE LAND

The Department of Housing and Urban Development is amending its regulations concerning eligibility and assistance requirements for the Open Space Land Program. The basic regulations were issued at 36 F.R. 17496, September 1, 1971, to become effective immediately in order that title IV of the Housing and Urban Development Act of 1970 could be implemented. At that time, the Department invited public comments with a view towards early amendment of these regulations.

Several comments were received, all of which were basically favorable to these regulations. Several of the comments addressed issues which are now covered by the Project Selection System for the Open Space Land Program which was published at 37 F.R. 7388, April 14, 1972. One of the comments addressed the question of letters to proceed prior to project approval, the use of which has been discontinued in most instances. These commitments, which were never binding upon the Department, had become cumbersome in regard to coordination of program requirements with the requirements of other Federal agencies.

The Department now wishes to amend these regulations and set forth revised guidelines for the program in the interest of eliminating unnecessary constraints and clarifying eligibility requirements. The amended regulations, in addition, set forth the rules to be employed involving donations of land and material for incorporation in projects and revise the limitations on development-type projects.

Several organizational changes are made in Chapter V as a result of this amendment. Subpart A of Subchapter B, Part 540 (§§ 540.100–540.114) is deleted since it has been superseded by Subtitle A, Parts 41 and 42 of Title 24.

Because the changes reflected in this amendment relax certain of the present requirements of Part 540 or are clarifying in nature, comment and public procedure are unnecessary and good cause exists for making this amendment effective upon publication. Consistent with this, former Subpart B now comprises the whole of Part 540—Open Space Land and the sections thereto have been retitled and renumbered as follows:

1. Section 540.1 replaces §§ 540.201, and 540.202.

2. Section 540.2 is a new section which provides definitions of terms used in the regulations.

3. Section 540.3 is a new section which discusses the amount of Federal assistance which may be provided, and also includes information formerly covered by § 540.207 concerning eligible applicants.

4. Section 540.4 covers material formerly contained in §§ 540.212, 540.225, 540.226, 540.229, 540.235, 540.239, and 540.245.

5. Section 540.5 covers information formerly covered by §§ 540.209, 540.210, 540.238, 540.241, and 540.248.

6. Section 540.6, is intended to clarify information formerly contained in § 540.232.

7. Section 540.7, covers and simplifies information formerly contained in § 540.232.

8. Section 540.8 is a new section which recognizes donation of materials as an eligible part of the local share of project costs.

9. Section 540.9 reiterates and updates § 540.217.

10. Section 540.10 concerns Subchapter B, Part 541, Project Selection System (37 F.R. 7388).

11. Section 540.11 replaces in part § 540.231, the balance of which has been deleted as being unduly prescriptive.

12. Section 540.12 replaces in part § 540.240, the balance of which has been deleted as being unduly prescriptive.

13. Section 540.13 modifies and condenses material formerly covered in § 540.250.

14. Section 540.14 modifies material formerly covered in § 540.247 for purposes of clarification.

15. Section 540.15 is the same as previous § 540.251.

16. Former §§ 540.203, 540.204, 540.205, 540.208, 540.211, 540.213, 540.215, 540.216, 540.220, 540.224, 540.230, and 540.246, are covered by Part 541, Project Selection System (37 F.R. 7388).

17. Former §§ 540.218, 540.219, 540.222, 540.227, 540.228, and 540.249 have been deleted because they cover contractual obligations, the subject of which is not appropriate to these regulations.

18. Former §§ 540.221, 540.223, 540.233, 540.234, 540.236, 540.242, 540.243, and 540.244 represent local determinations which should not be subject to Federal regulation insofar as they are controlled by State and local conditions or statute.

Since this amendment relaxes existing requirements and in large measure is intended to clarify and simplify the existing regulations, comment and public procedure are unnecessary and the amended Part 540 is made effective upon publication.

Accordingly, Part 540, Open Space Land, of Subchapter B, Chapter V, is amended as follows:

Subpart A [Deleted]

1. Subpart A—Relocation Payments is deleted.

Subpart B [Renumbered]

2. Former Subpart B—The Legacy of Parks Program is renumbered, retitled as Part 540—Open Space Land, revised to read as follows:

Sec.
540.1 Purposes.
540.2 Definitions.
540.3 Grants for open space land and historic preservation.
540.4 Eligible projects.
540.5 Requirements and conditions for assistance.
540.6 Acquisition of lesser interest.
540.7 Valuation of donated land.
540.8 Valuation of donated material.
540.9 Labor standards.
540.10 Project selection.
540.11 Establishment of acquisition date.
540.12 Establishment of development date.
540.13 Changes in uses and conversions.
540.14 Information, application forms, and applications.
540.15 Waivers.

AUTHORITY: The provisions of this Part 540 issued under section 7(d) of the Housing and Urban Development Act, 42 U.S.C. 3535(d).

§ 540.1 Purpose.

The purpose of these regulations is to implement title IV of the Housing and Urban Development Act of 1970, Public Law 91–609, 84 Stat. 1770, 1781. The objectives of the program as set forth in the law include: To help curb urban sprawl and prevent the spread of urban blight and deterioration, to encourage more economic and desirable urban development, to assist in preserving areas and properties of historic or architectural value, and to help provide necessary recreational, conservation, and scenic areas by assisting State and local public bodies in taking prompt action to: (a) Provide, preserve, and develop open space land in a manner consistent with the planned long-range development of the Nation's urban areas, (b) acquire, improve, and restore areas, sites, and structures of historic or architectural value, and (c) develop and improve open space and other public urban land in accordance with programs to encourage and coordinate local public and private efforts toward this end.

§ 540.2 Definitions.

(a) "Changes in uses" means utilizing the open space land for purposes not contemplated in the application for a Grant Assistance Contract.

(b) "Conversions" means changes in land use from open space uses to non-open space uses.

(c) "Donation" means cash, land, material, or services provided to, or by, an applicant for incorporation in the project at no cost to the applicant.

(d) "Local public body" means any public body (including a political subdivision) created by or under the laws of a State or two or more States, or a combination of such bodies, and includes Indian tribes, bands, groups, and nations (including Alaska Indians, Aleuts, and Eskimos) of the United States.

(e) "Open Space Land" means any land located in an urban area which has value for: (1) Park and recreational purposes, (2) conservation of land and other natural resources, or (3) historic, architectural, or scenic purposes.

(f) "Open space uses" means any use of open space land for: (1) Park and recreational purposes, (2) conservation of land and other natural resources, or (3) historic, architectural, or scenic purposes.

(g) "Secretary" means the Secretary of Housing and Urban Development or an officer authorized to perform the functions of the Secretary.

(h) "State" means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the territories and possessions of the United States.

(i) "Urban area" means any area which is urban in character, including those surrounding areas which, in the judgment of the Secretary, form an economic and socially related region, taking into consideration such factors as present and future population trends and patterns of urban growth, location of transportation facilities and systems, and distribution of industrial, commercial, residential, governmental, institutional, and other activities.

§ 540.3 Grants for open space land and historic preservation.

(a) Grants of not more than 50 percent of the acquisition and/or development cost of open space land and/or historic preservation activities may be made to States and local public bodies.

(b) Grants of not more than 75 percent of the acquisition cost of undeveloped or predominantly undeveloped land

V 37 216 NOV 8 72 XUM

which has special significance in helping to shape economic and desirable patterns of urban growth if it is withheld from commercial, industrial, and residential development, may be made to States and local public bodies. Subsequent disposal of interest(s) acquired under this section are subject to approval by the Secretary on such terms and conditions as he determines equitable and appropriate, with respect to the control of future use and the sharing or application of the proceeds or value realized.

§ 540.4 Eligible projects.

(a) Grant assistance is available to:

(1) Acquire title to or other interest in open space land in urban areas;

(2) Develop open space or other land in urban areas for open space uses;

(3) Assist in the acquisition and/or preservation of structures of historic or architectural significance.

(b) Grant assistance will not be provided to:

(1) Defray ordinary State or local government expenses;

(2) Finance the acquisition by a public body of land outside the urban area for which it exercises (or participates in the exercise of) responsibilities consistent with the purpose of the Act;

(3) Acquire and clear developed land in built-up urban areas unless adequate open space land cannot be effectively provided through the use of existing undeveloped land;

(4) Provide assistance for historic and architectural preservation purposes except for districts, sites, buildings, structures, and objects which the Secretary of the Interior determines meet the criteria used in establishing the National Register of Historic Places.

§ 540.5 Requirements and conditions for assistance.

(a) An eligible project must be needed for carrying out a unified or officially coordinated program, meeting criteria established by the Secretary, for the provision and development of open space land which is a part, or is consistent with, the comprehensively planned development of the urban area except for historic preservation projects, and

(b) Not more than 50 percent of the non-Federal share of such eligible project cost may be made up by donations of land or materials.

(c) When fee title to land is acquired with assistance under section 702 of the Act, the land must remain under public control (except for changes in use and conversions which are permitted under conditions specified in § 540.13), and

(d) When fee title is not acquired there must be a reasonable relationship between the nature and term of the interest acquired and the nature and/or useful life of the development or facility.

(e) All facilities developed with assistance under section 702 of the Act must remain under public control for the useful life of the facility so developed.

(f) No grant assistance is available for major construction, such as outdoor amphitheaters, dock facilities, golf courses, or major buildings. The grant amount for other type development costs may not exceed $250,000 or such other limitations as the Secretary may impose from time to time. In any event, only the cost of otherwise eligible development which commences after HUD approval of a project application will be an eligible project cost. The foregoing limitations do not apply to development projects involving historic preservation activities or swimming pools.

(g) The Secretary is authorized to collect a fixed fee to defray the Government's expense in administering the program. Such fees will be charged grant recipients except for projects involving total costs of $25,000 or less, for which no fee shall be charged.

§ 540.6 Acquisition of lesser interest.

Notwithstanding § 540.5 (c) and (e), less than full title acquisition is permitted for land acquired under the program. Such lesser interests include, but are not limited to, easements, rights-of-way, and leaseholds. The interest so acquired must assure public control of the land for a period of time appropriate to the particular open space use.

§ 540.7 Valuation of donated land.

The fair market value of donated land must be established by two independent appraisals as of the date of dedication.

§ 540.8 Valuation of donated materials.

The value of donated materials shall be their wholesale market price at the time that they are incorporated into the project.

§ 540.9 Labor standards.

All laborers and mechanics employed by contractors or subcontractors on projects assisted by a grant made pursuant to section 702 of the Act shall be paid wages at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Davis-Bacon Act, as amended (40 U.S.C. 276a—276a-5), and shall receive overtime compensation in accordance with and subject to the provisions of the Contract Work Hours Standards Act (40 U.S.C. 327-332), and the contractors and subcontractors shall comply with all regulations issued pursuant to these Acts. The Secretary of Labor has, with respect to the labor standards specified in this section, the authority and functions set forth in Reorganization Plan No. 14 of 1950 (15 F.R. 3176, 5 U.S.C. 133z-15) and section 2 of the Act of June 13, 1934, as amended (40 U.S.C. 276c). No such project shall be approved without first obtaining adequate assurance that these labor standards will be maintained upon the construction work.

§ 540.10 Project selection.

Applications will be evaluated in accordance with the criteria and procedures set forth in Part 541—Open Space Land Program Project Selection System of this chapter (37 F.R. 7388).

§ 540.11 Establishment of acquisition date.

Property will be considered acquired as of the date a binding purchase agreement is executed, title is transferred, or a condemnation proceeding is initiated which cannot be discontinued without incurring substantial liability or penalty, whichever is earlier.

§ 540.12 Establishment of development date.

Development will be considered commenced as of the date the applicant becomes unconditionally bound by a contract or issues a work order covering the activities, or actually begins the activities, whichever is earlier.

§ 540.13 Changes in uses and conversions.

Projects receiving assistance are to be utilized as specified in the application and HUD grant contract. Under some conditions, the intended use may be altered if the change is in the interest of the applicant and the Federal Government. Any change in use of or conversion to other uses, and the disposition of any proceeds resulting therefrom, however, must have prior approval of HUD, and be in accord with the HUD grant contract.

§ 540.14 Information, application forms, and applications.

Information and application forms may be obtained from, and applications submitted to, the Regional or Area Office of the Department of Housing and Urban Development which serves the area in which the applicant is located.

§ 540.15 Waivers.

Any requirement of this subpart may be waived by the Secretary of Housing and Urban Development or his delegate so long as such waiver would not violate any requirement of Federal law.

These amendments are effective upon publication in the FEDERAL REGISTER (11-8-72).

FLOYD H. HYDE,
Assistant Secretary for Community Development.

[FR Doc.72-19113 Filed 11-7-72;8:48 am]

Title 29—LABOR

Chapter XVII—Occupational Safety and Health Administration, Department of Labor

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Machine Guarding; Employment of Minors

Pursuant to authority in sections 6 (b) and 8(g) of the Williams-Steiger Occupational Safety and Health Act of 1970 (OSHA) (29 U.S.C. 655, 657), Secretary of Labor's Order No. 12-71 (36 F.R. 8754), and the regulations in 29 CFR 1911.5 (37 F.R. 8664), 29 CFR 1910.217(f) is hereby amended as set forth below, in order to clarify an apparent inconsistency between the OSHA rule as contained in 29 CFR 1910.217(f) and Hazardous Occupations Order No. 8 (29 CFR 570.59) published under section 3 of the Fair Labor Standards Act (29 U.S.C. § 203).

Section 1910.217(f) of Title 29, Code of Federal Regulations, prohibits anyone under 18 years of age from operating or assisting in the operation of certain types of powered mechanical presses. Hazardous Occupations Order No. 8 also prohibits employment of persons between 16 and 18 years of age on similar equipment; however, the order exempts persons employed in apprenticeship programs as specified in 29 CFR 570.50 (b) and (c).

This amendment is intended to make it clear that where the employment of minors on power presses would otherwise be authorized under the provisions of Hazardous Occupations Order No. 8 such employment is permissible under the OSHA regulations in 29 CFR 1910.217 (f).

The amendment is appropriate and largely interpretative in that it accommodates one statutory scheme with that of another, while at the same time effectuating the purposes of both the Williams-Steiger Act and the Fair Labor Standards Act. Cf. "Southern S.S. Co. v. NLRB," 316 U.S. 31, 47 (1942).

The provisions of 5 U.S.C. 553 concerning notice of proposed rule making, public participation therein, and delay in effective date are inapplicable by reason of the exception to the rule making provisions of the Administrative Procedure Act (5 U.S.C. 553), which permits the making of minor rules or amendments where there is good cause for not providing notice and an opportunity for public participation.

Having determined that the safety and health protections afforded minors employed on power presses covered by the provisions of 29 CFR 1910.217(f) will not be diminished by allowing such minors to participate in apprenticeship training programs authorized by Hazardous Occupations Order No. 8, and having determined that the inconsistency between the OSHA prohibition and the Hazardous Occupations Order No. 8 must be resolved, § 1910.217 is amended by revising paragraph (f) to read as follows:

§ 1910.217 Mechanical power presses.

* * * * *

(f) *Operation of power presses*—(1) *Employment of minors.* The employer shall permit no one under 18 years of age to operate or assist in the operation of machinery covered in this section, except that this paragraph shall not be deemed to prohibit the employment of persons who are 16 or 17 years of age in an apprenticeship training program which meets the requirements contained in §§ 570.59 and 570.50 (b) and (c) of this title.

* * * * *

(Secs. 6(a), 8(g), 84 Stat. 1593, 1598; 29 U.S.C. 655, 657; Secretary of Labor's Order 12-71, 36 F.R. 8754)

Effective date. This amendment shall become effective immediately upon publication in the FEDERAL REGISTER (11-8-72).

Signed at Washington, D.C., this 3d day of November 1972.

G. C. GUENTHER,
Assistant Secretary of Labor.

[FR Doc.72-19182 Filed 11-7-72;8:54 am]

Title 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

SUBCHAPTER P—RECORDS

PART 288—USER CHARGES

Schedule of Fees and Rates

The following miscellaneous amendments to Part 288 have been authorized:

Section 288.10 has been amended to read as follows:

§ 288.10 Schedule of fees and rates.

(a) This schedule applies to authorized services related to copying, certifying, and searching records rendered to the public by components of the Department of Defense, except when those services are excluded or excepted from charges under § 288.3(d) of or § 288.9 to this instruction. Except as provided in special cases prescribed below, a minimum fee of $2 will be levied for processing any chargeable case. Normally only one (1) copy of any record or document will be provided.

(b) Requests involving:

(1) Training and education.

(i) Transcripts:

	Fee
Original copy	$2.00
Each additional copy	.25

(Includes requests for transcripts of graduation from military academies and schools.)

(ii) Certificates:

	Fee
Original copy	2.00
Each additional copy	.25

(Includes all requests for certificates, verification of attendance, and course completion from service schools and other facilities.)

(2) Medical and dental records of patients and former patients when requested for purposes other than further treatment. Covers request for information from or copies of medical records, including clinical records (inpatient records of military and nonmilitary patients), health records (military outpatient records), outpatient records (nonmilitary outpatient records), dental records and loan of X-rays.

	Fee
Searching and processing (per hour)	$5.00
Minimum charge	3.00
Each typewritten page	1.75
Office copy reproductions (per image)	.05
Loan of each X-ray	1.50

(3) Military membership and record (excluding medical and dental records).

	Fee
Address of record, each	$2.00
Copies of releasable military personnel records, such as effectiveness reports for officers and enlisted men, reproduced for the personal use of active men, retired and former members or next of kin of missing in action or deceased member of the Armed Forces. Minimum charge (up to six reproduced images)	2.00
Each additional image	.05
Statement of verification of service of report of separation, for individuals with other than honorable discharges	3.00

(4) Photography:

(i) Still pictorial or documentary photographic prints, and not more than three prints may be sold from any individual negative on each order. Unlisted standard sizes of prints may be furnished, if available at proportionate rates:

	Fee
8 by 10 single weight glossy finish, 1st print	$1.25
2d and 3d prints, each	1.00
8 by 10 double weight matte finish, 1st print	1.75
2d and 3d prints, each	1.50
11 by 14 double weight matte finish, each	3.50
16 by 20 double weight matte finish, each	4.75
20 by 24 double weight matte finish, each	6.50
35mm color transparencies (cardboard mount), each	3.50
4 by 5 color transparencies or color negative, each	6.75
8 by 10 color transparencies or color negative, each	14.00

In quantities not to exceed three copies of any one view.

8 by 10 color type "C" print, 1st print	4.50
2d and 3d prints, each	2.00
11 by 14 color type "C" print, 1st print	8.00
2d and 3d prints, each	5.00
16 by 20 color type "C" print, each	17.50
16 by 20 color type "C" print, mounted on 20 by 24 cardboard, each	19.25

(ii) Aerial photographic prints, contact prints, or exact negative sizes, single weight glossy or double weight semi-matte:

	Fee
Up to 9 by 9 inch negative format in quantities:	
1-25, for each print	$1.75
Over 25	43.75
(Plus $1.25 for each print over 25.)	
9 by 18 inch negative format in quantities:	
1-25, for each print	3.00
Over 25	75.00
(Plus $2.30 for each print over 25.)	

FEDERAL REGISTER, VOL. 37, NO. 216—WEDNESDAY, NOVEMBER 8, 1972

V37-216 NOV 8 72 XUM

	Fee
Print enlargements:	
14 by 14 inch format, each	3.00
18 by 18 inch format, each	3.50
20 by 20 inch format, each	4.00
Duplicative positives, each	3.00
Duplicative negatives:	
Up to 9 by 9 inch format, each	6.00
9 by 18 inch format, each	10.00

(iii) Aerial photograhic indexes and mosaic copies:

Size 20 by 24 inches, each	3.00

(iv) Reproduction of cover overlays:

Transparent foil film overlays, each	2.00
Transparent paper overlays, each	1.00

(v) Motion picture:

16 mm. or 35 mm. black and white unedited footage without optical sound track per foot	.07
With optical sound track, per foot	.10
Color unedited footage:	
16 mm., per foot	.20
16 mm., internegative	.25
35 mm., per foot:	
Answer print, each	.45
Viewing or release print, each	.15
Separation master positive (3 required)	.85
Color, interpositive, each	.55
Color, internegative, each	.55
Magnetic tape (per foot):	
16 mm. (direct dubb), each	.05
35 mm. (direct dubb), each	.05
Searching (including overhead) each hour or fraction thereof (per hour)	10.00

All film used in duplication to furnish a requested end product shall be charged for on a per foot basis.

Minimum charge (including stock search) per order	20.00

(5) Construction and engineering information. Copies of aerial photographic maps, specifications, permits, charts, blueprints, and other technical engineering documents.

	Fee
Searching, per hour or fraction thereof (including overhead costs)	$5.00
First print	1.00
Each additional print of same document	.50

(6) Copies of medical articles and illustrations. Standards contained in reference (a) of the basic instruction will be utilized in computing costs.

(7) Claims, litigation. (Includes court-martial records, furnishing information from Investigative Reports, e.g., automobile collision investigations, safety reports, etc.) Requests pertaining to private litigation and to cases in which the United States is a party and where court rules provide for reproduction of records without cost to the Government (if not covered in 2. or 3. above).

	Fee
Searching and processing (per hour)	$5.00
Minimum charge	3.00

NOTE: Charges for professional search or research will be made in accordance with paragraph 10.b., below.

Office copy reproductions (minimum up to six (6) reproduced images)	2.00
Each additional image	$0.05
Certification and validation with seal, each	3.00

(8) Publications and Forms. A search and/or processing fee as prescribed in 10.a., below, will be made for requests requiring extensive time (one hour or more):

(i) Shelf Stock: (Requestors may be furnished more than one copy of a publication or form if it does not deplete stock levels below projected planned usage.):

	Fee
Minimum fee per request (up to 6 repro pages)	$2.00
Plus:	
Forms, per copy	.05
Publications, per printed page	.01

(Examples: Cost of 20 forms, $3.00; cost of a publication with 100 pages, $3.00.)

(ii) Office copy reproduction (when shelf stock is not available):

	Fee
Minimum chage (up to six reproduced pages)	$2.00
Each additional image	.05

(9) Engineering data (microfilm).

	Fee
Aperture cards:	
Silver duplicate negative, per card	$0.40
When key punched and verified, per card	.50
Diazo duplicate negative, per card	.35
When key punched and verified, per card	.40
35 mm. roll film, per frame	.30
16 mm. roll film, per frame	.25
Paper prints (engineering drawings), each	.50
Paper reprints of microfilm indices, each	.05

(10) General. Charges for any additional services not specifically provided above and consistent with the provisions of the basic instruction will be made by the respective DOD Components at the following rates.

	Fee
Clerical search and processing per hour	$5.00
Minimum charge	3.00
Professional searching or researching	-----
(To be established at actual hourly rate prior to search. A minimum charge will be established at ½ hourly rate.)	
Minimum charge for office copy reproduction (minimum up to six images)	2.00
Each additional image	.05
Each typewritten page	1.75
Certification and validation with seal, each	3.00
Review of application for authorization to solicit members of the military services for the purchase of life insurance on U.S. military installations in foreign areas	175.00
Hand drawn plots and sketches, each hour or fraction thereof	6.00

MAURICE W. ROCHE,

Chapter V—Department of the Army

SUBCHAPTER A—AID OF CIVIL AUTHORITIES AND PUBLIC RELATIONS

PART 516—LITIGATION

Legal Proceedings

Sections 516.1 and 516.2 are revised as indicated below. These revisions are necessary due to changes in policy approaches and procedures which render present material contained in §§ 516.1 and 516.2 as obsolete.

§ 516.1 **General.**

(a) *Scope.* The regulations of this part set forth basic policies and procedures applicable to legal proceedings in domestic and foreign civil courts or administrative tribunals of interest to the Army.

(b) *Litigation responsibility of The Judge Advocate General.* Subject to the control of litigation vested in the Attorney General and the Department of Justice, The Judge Advocate General:

(1) Is responsible for the initiation, administration, supervision, and coordination of measures for the protection of the Government in litigation and other legal proceedings which arise out of the operations of the Department of the Army or which otherwise involve its interests.

(2) Acts for the Secretary of the Army on matters connected with litigation and legal proceedings.

(3) Or his designee, certifies the payment of compromise settlements in accordance with applicable law.

(c) *Representation of the Department of the Army.* (1) The Judge Advocate General is responsible for all liaison between the Department of the Army and the Department of Justice. Within the Department of the Army, only The Judge Advocate General, and those military and civilian personnel who are designated by him are authorized to represent the Department of the Army and its instrumentalities before Federal, State, and foreign courts, administrative tribunals and regulatory bodies, and to maintain liaison with the Department of Justice and other governmental departments and agencies regarding litigation and legal proceedings.

(2) The Chief, Litigation Division, Office of The Judge Advocate General, and the attorneys assigned to that division or designated by the Chief, Litigation Division, are authorized to represent the Department of the Army in all civil litigation, except as otherwise specifically designated.

(3) The Chief, Regulatory Law Division, Office of The Judge Advocate General, the attorneys assigned to that division, and other military and civilian attorneys designated from time to time on a case-by-case basis by the Chief, Regulatory Law Division, are solely designated to represent the Department of the Army in all regulatory matters before the courts, administrative agencies and regulatory bodies, including, but not limited to, communications, transportation and other utility services.

(4) The Chief, U.S. Army Claims Service, and the attorneys assigned thereto are authorized, subject to the provisions of Chapter 4, AR 27–20, to maintain direct liaison with the Department of Justice in regard to the preliminary aspects of administrative settlement of claims in excess of $25,000 under the Federal Tort Claims Act.

(5) The Chief, Patents Division, Office of The Judge Advocate General, and the attorneys assigned to that division, are designated to represent the Department of the Army in matters pertaining to patents, copyrights, or trademarks.

(6) The Chief, Civilian Personnel Law Office of The Judge Advocate General, and the attorneys assigned to that office are designated to represent the Department of the Army before the administrative authority having jurisdiction relative to personnel action effected against civilian employees of the Army pursuant to statute, Department of the Army regulations, and Civil Service Commission regulations, excepting, however, personnel actions against nonappropriated fund employees of the Army and Air Force Exchange Service and Motion Picture Service. They are also designated to represent the Department of the Army before administrative bodies in matters pertaining to labor relations arising under Executive Order 11491, dated October 29, 1969 (34 F.R. 17605; 3 CFR 1966–70 Comp., p. 861), as amended by Executive Order 11616, dated August 26, 1971 (36 F.R. 17319; 3 CFR 1971 Comp., p. 202), excepting, however, cases involving employees of the Army and Air Force Exchange Service and Motion Picture Service. Upon the request of such services or of other military agencies, the Chief, Civilian Personnel Law Office of The Judge Advocate General, and the attorneys assigned to that office are authorized to coordinate with such services and other military agencies in such labor relations matters, including participation in any administrative proceedings arising under such executive orders.

(7) The duly designated legal representatives of the Chief of Engineers are designated to maintain direct liaison with the Department of Justice in litigation matters arising from the civil functions of the Corps of Engineers and in connection with condemnation proceedings instituted for the acquisition of real property and interests therein as provided for in §§ 552.30–552.39 of this chapter.

(8) The Army Chief Trial Attorney and the attorneys assigned to the Contract Appeals Division, Office of The Judge Advocate General, are responsible for protecting the interests of the Government before the Armed Services Board of Contract Appeals (ASBCA). The Chief Trial Attorney shall present to the ASBCA all Department of the Army cases, except that Corps of Engineers attorneys shall act as trial attorneys in connection with Corps of Engineers contract cases. When it is determined by the Commanding General, U.S. Army Materiel Command, that an appeal before the ASBCA has particular significance to his procuring activity and that it involves difficult operational and technical facts, he may, on the filing of the contracting officer's comprehensive report and after consultation with The Judge Advocate General, Department of the Army, detail to the Chief Trial Attorney an attorney from his procuring activity who shall be an attorney of record.

(9) Except in the exercise of the authority provided in this section, neither military nor civilian personnel of the Army will confer or correspond with any representative of the Department of Justice concerning legal proceedings within the purview of this part without the prior approval of The Judge Advocate General. This paragraph, however, in no way affects the requirement for judge advocates and legal advisers to maintain liaison with the U.S. Attorneys. Neither does this paragraph affect the requirement that certain offenses be reported to the Federal Bureau of Investigation, nor the requirement for cooperation with that agency during the course of its investigation.

(d) *Appearance as counsel.* (1) Except as authorized in paragraph (c) of this section, military personnel on active duty and civilian personnel of the Department of the Army are prohibited from appearing as counsel before any civil court, administrative tribunal, regulatory body, or governmental agency unless:

(i) The appearance is specifically authorized by The Judge Advocate General subsequent to the individual's request; or

(ii) The individual is a party to the action or proceeding; or

(iii) The officer concerned is designated to conduct the prosecution of offenders under the provisions of AR 27–44.

(2) Requests by military or civilian personnel to appear as counsel will be delivered to the Staff Judge Advocate or Legal Adviser. The Staff Judge Advocate or Legal Adviser will forward this request to The Judge Advocate General, Attention: Chief, Litigation Division (HQDA (DAJA–LT)) Wash., D.C. 20310, together with his recommendation and evaluation of the case, including but not limited to: nature and current status of court-martial proceedings, listing of all counsel participating in the defense, nature and status of any previous civil court actions in this or related cases. At the same time that he delivers a request of this nature to the Staff Judge Advocate concerned, if the requested appearance is upon the behalf of a military accused, the individual attorney may forward directly to Chief, Defense Appellate Division (HQDA (JAAJ–DD)), Nassif Building, Falls Church, Va. 22041, a full analysis of the case including venue, nature of relief to be requested, facts and legal authorities relied upon, and his reasons for requesting authority to appear in civil courts. The detailed contents of this communication with the Chief, Defense Appellate Division, will be considered privileged. Staff Judge Advocates will neither request nor require disclosure of its contents. Chief, Defense Appellate Division, after consideration of information received will furnish TJAG with evaluation of the request from the viewpoint of senior defense counsel.

(e) *Service of process.*—(1) *Criminal process.* (i) The delivery of persons charged with criminal offenses, at the request of or pursuant to process issued by the civil authorities, will be accomplished within the United States in accordance with § 503.2 of this chapter, and in foreign countries in accordance with paragraph 4, AR 600–40.

(ii) Commanders and other Army officials will be governed by the policies set forth in subparagraph (2) of this paragraph, in the treatment of process issued for the attendance of witnesses or the production of evidence in criminal cases. See also § 516.4.

(2) *Civil process.* (i) The service of process is not a function of the Department of the Army or of its military personnel or civilian employees in their official capacity, except when required by treaty or international agreement. It is the policy of the Department of the Army, however, to assist civil officials in the service of process as provided in subdivisions (iii) and (iv) of this subparagraph.

(ii) Commanders and other Army officials will not prevent or evade the service of process in legal actions brought against the United States or themselves concerning their official duties. If acceptance of service of process would interfere with the performance of his military duties, a commander or other official may designate a representative to accept service in his stead.

(iii) Service of civil process within the United States, its territories and possessions is as follows:

(*a*) *Process of Federal courts.* Service of process is accomplished in accordance with the rules of the Federal court concerned (38 U.S.C. appendix). Installation commanders may impose reasonable restrictions upon persons who enter their installations to serve the process.

(*b*) *Process of State courts in areas of exclusive Federal jurisdiction not subject to the right to serve process.* Commanders or other Army officials in charge will bring the matter to the attention of the individual requested to be served and will determine whether he wishes to accept service voluntarily in accordance with the laws of the State issuing the process. Judge advocates or other competent officials will inform the individual of the legal effect of voluntary acceptance of service. If the individual does not desire to accept service, the party requesting such service will be notified and will be informed that the nature of the jurisdiction precludes service by State authorities on the military installation.

XUM
V37-216 NOV 8 72
XUM

(c) *Process of State courts in areas of exclusive Federal jurisdiction in which the right to service process is reserved by, or granted to, the State or States, in areas of concurrent jurisdiction, and in areas in which the United States has only a proprietorial interest.* If Army officials are asked to serve process, they may proceed as in (*b*) of this subdivision. If the individual declines to accept service, the requesting party will be so notified and will be informed that he may proceed through authorities authorized to serve process by the applicable State law. Civil officials authorized by applicable State law will be permitted, upon proper application, to enter areas subject to the right to serve process for the purpose of making service. Commanders or other Army officials in charge will assist the civil officials by making military personnel or civilian employees available for service of process, subject to reasonable limitations. In addition, civil officials may enter areas subject to the right to serve process for the purpose of levy on and the subsequent sale of personal property of personnel residing thereon, subject to reasonable limitations. This authority does not extend, however, to the levy on or the sale of personal property essential to or proper for the use of military personnel or civilian employees in the performance of their official duties.

(*d*) *Process of foreign courts.* In the absence of treaty or agreements to the contrary, individuals or agencies requesting the assistance of military authorities in serving process of foreign courts will be advised to proceed as prescribed in section 1696 of title 28, United States Code.

(iv) Service of civil process outside the United States, its territories and possessions is as follows:

(*a*) *Process of foreign courts.* In foreign countries the service of process issued by foreign courts, including subpenas duce tecum, will be made in accordance with the law of the place of service except as otherwise provided by applicable treaties or agreements between the host country and the United States. In foreign areas under exclusive U.S. jurisdiction, service of process issued by foreign courts will be made in accordance with the law specified by appropriate U.S. authority in such areas (e.g., organic acts, territorial codes, or executive orders).

(*b*) *Process of Federal courts.* Service of process is accomplished in accordance with sections 1781 and 1783, title 28, United States Code, and with the rules of the Federal court concerned. See especially rules 4, 5, and 45, Federal Rules of Civil Procedure, 28 U.S.C. appendix. Installation commanders may impose reasonable restrictions upon persons who enter their installation to serve process.

(c) *Process of State courts.* Army personnel requested to serve process will follow the procedures prescribed in subdivision (iii) (*b*) of this subparagraph. If the individual will not accept service voluntarily, the party requesting service will be so notified and advised that he should follow the procedures prescribed or recognized by the law of the foreign country concerned for obtaining service of process within its territory.

(*d*) *Suits against agencies or instrumentalities of the United States.* Any writ, summons, notice of legal proceedings or other foreign civil process served upon or otherwise delivered to an Army officer, employee, or activity will be referred immediately upon receipt to the appropriate judge advocate or legal adviser, who will return the document to the issuing authority with a suitable statement explaining the lack of authority of the person or activity to accept service on behalf of the United States, and suggesting that service or delivery be made upon the United States through established diplomatic channels.

§ 516.2 Defense of legal proceedings.

(a) *Defense by the Department of Justice and U.S. Attorneys.*—(1) *Responsibilities.* The Department of Justice is responsible for the defense of suits brought against the United States, its agencies and instrumentalities, and officials and employees whose official conduct is involved, in all courts within the torneys will defend civil actions or pro- Under the direction of the Attorney General, U.S. Attorneys normally afford counsel and representation of the defendants in such suits. In addition, U.S. Attorneys will defend civic actions or proceedings brought against military personnel or civilian employees arising from their operation of motor vehicles in the scope of office or employment (28 CFR Part 15).

(2) *Policies.* It is the policy of the Department of Justice to afford counsel and representation to military personnel and civilian employees of the Department of the Army and its agencies and instrumentalities who are sued civilly or charged with violation of local or State criminal laws as a result of the performance of their official duties. This policy applies wherever property damage, personal injury or death has resulted or where a substantial Federal interest is involved. In addition, representation may be furnished private interests in suits in which the Government ultimately may be required to make reimbursement. Otherwise, except where unusual circumstances exist, representation will be declined. Representation may also be declined where the military personnel or civilian employee is adequately protected by his own liability insurance and potential liability of the United States appears not to be involved.

(b) *Procedures for obtaining representation.*—(1) *Department of Justice and U.S. Attorneys.* As to any action or proceeding in which Government representation may be afforded under the circumstances specified in paragraph (a) of this section, the judge advocate or a legal adviser will:

(i) If the action or proceeding is a civil suit brought against a military person or a civilian employee on account of his operation of a motor vehicle in the scope of his office or employment, obtain representation by taking the actions specified in paragraph 2–3e(2), AR 27–40.

(ii) In other cases, where time for response is limited, request the appropriate U.S. Attorney to afford temporary counsel and representation. The Judge Advocate General will be promptly advised of the request for representation and of the action being taken thereon for any confirmatory action necessary.

(iii) Otherwise, promptly refer the matter to The Judge Advocate General with the necessary justification.

(2) *Private counsel at Government expense.* (i) Except as provided in subdivision (iii) of this subparagraph, requests for the employment of private counsel at Government expense will be referred through channels to The Judge Advocate General. Every such request will be accompanied by a statement of facts justifying the request and the recommendations of commanders or supervisors concerned. Persons who employ private counsel in such cases should be advised that they may be individually responsible for any expenses thus incurred, if they do so without notice from The Judge Advocate General that specific authorization has been obtained.

(ii) In actions or proceedings brought in foreign countries, if immediate court representation is required beyond feasible handling by the judge advocate concerned and the local court or agency has denied a request for a stay or continuance to permit action on a formal request for the hiring of a local attorney, local counsel may be retained, preferably selected from a listing of qualified and suitable foreign counsel maintained at the United States Embassy or Consulate in the country or city in which the action or proceeding has been initiated. The retention of such counsel will specifically be made contingent on confirmation by the Department of Justice. If the case falls within its responsibility, the Department of Justice will employ the attorney thus selected or pay him for the services performed in the event he is not retained generally. The local attorney retained under this emergency authorization should avoid any steps which could be construed as a waiver of sovereign immunity of the United States, its agencies and instrumentalities, and officials or employees whose official conduct is involved, from suit in a foreign court. Any appearance by such counsel, prior to receipt of instructions from the Department of Justice, should be limited to the local equivalent of a special appearance on the jurisdictional point or the procuring of a stay of the proceedings, provided such actions would not constitute a general appearance.

(iii) Counsel may be hired to represent persons subject to the Uniform Code of Military Justice before foreign courts and administrative agencies (10 U.S.C. 1037). Requests for such counsel will be processed under AR 27–50.

(3) *Government contractors.* (i) Upon request from the Army, the Department of Justice normally will defend suits against contractors whose contracts with the United States provide for reimbursement to the contractor for recoveries against them arising out of any suits in connection with the performance of the contract, or for the reimbursement of the fees paid private counsel and the costs of such litigation.

(ii) Litigation Division, Office of The Judge Advocate General, will decide which cases referred to it will be referred to the Department of Justice with a request that the contractor be represented by a U.S. Attorney. Such representation will not be requested in cases where no investigative report or pleadings are required to be furnished to The Judge Advocate General. Upon notice of the commencement of any suit against a contractor which requires the submission of an investigative report to The Judge Advocate General, the contracting agency will ascertain whether the contractor desires government representation. If such representation is desired, the contracting agency will obtain from the contractor an executed agreement for representation and forward it with the investigative report.

(iii) Upon receipt of advice that the U.S. Attorney will act on behalf of the contractor, or that his services are not available, the contracting officer or purchasing office will so inform the contractor.

(iv) The following relationships and responsibilities in the conduct of any ensuing litigation are furnished for guidance:

(*a*) Unless the contractor requests and is authorized representation by a U.S. Attorney, it is presumed that the contractor will obtain such services of private counsel as are reasonably necessary to defend the appropriate contractor interests.

(*b*) Where the contractor is represented by a U.S. Attorney, there is no objection to the participation of private counsel employed by the contractor, provided it is understood the U.S. Attorney has complete control of the litigation. Fees for the services of private counsel in such cases will not be reimbursable except under unusual circumstances and then only if approved by The Judge Advocate General.

(*c*) The Department of Justice does not charge the contractor or the Department of the Army for any expenses incident to services performed by a U.S. Attorney.

(*d*) The compromise of a suit is primarily for determination by the contractor. Aspects of reimbursement under the contract are primarily for determination by the contracting officer. If the approval of a compromise by higher authority is desired, the contracting officer may forward the compromise proposal with his views and those of the U.S. Attorney, if one is participating in the case, through procurement channels.

(e) Private counsel representing the contractor may seek advice from the Army with respect to appealing an adverse judgment. In such case the matter may be referred through procurement channels to The Judge Advocate General.

(*f*) The reimbursability and reasonableness of the fees of private counsel are primarily for determination by the contracting officer.

Effective date. This revision shall become effective on the date of its publication in the FEDERAL REGISTER (11–8–72).

[AR 27–40, April 4, 1972] (Sec. 3012, 70A Stat. 157; 10 U.S.C. 3012)

For the Adjutant General.

E. W. GANNON,
Lieutenant Colonel, U.S. Army,
Chief, Plans Office, TAGO.

Correction

In F.R. Doc. 72–17965 appearing at page 22613 of the issue for Friday, October 20, 1972, at the top of the first column on page 22614, the line "(2) A debriefing is intended to:" should be inserted immediately before subdivision (i).

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 72–967]

PART 1—PRACTICE AND PROCEDURE

PART 73—RADIO BROADCAST SERVICES

Reregulation of Radio and Television Broadcasting

Order. In the matter of reregulation of radio and television broadcasting.

1. In a public notice dated April 6, 1972, the Commission announced that it was undertaking a comprehensive study looking toward reregulation of radio and television broadcasting.

2. Each provision of the existing broadcast rules and regulations is being analyzed as to its current validity, particularly as to radio. The provision may be continued, modified, or deleted. New provisions and new regulatory concepts may be promulgated to reflect more accurately the present state of broadcast technology and operation. The resulting set of rules will be written and organized in a concise and readily understandable manner. The Commission's primary concern is that its regulatory authority over the dynamic field of broadcasting is exercised in a timely and meaningful manner consistent with the public interest.

3. The public notice invited comments and suggestions. Over 400 replies have been received to date. Most are from licensees in small radio markets. Heading their list of concerns are renewals, meter readings every 30 minutes, political spending rules, fairness doctrine, counter advertising proposals, FCC paperwork requirements and 5-day-a-week inspections of the transmitting system, in that order.

4. The Commission's task force for this study, under the supervision of Commissioner Richard E. Wiley, has made an initial review of the replies and of the existing broadcast rules. Many of the rules are a carryover from the early days of radio and television. Technological advancements have produced more sophisticated and reliable equipment. Programing and management experience has led to increased maturity in operation. Thus, the Commission has determined that certain rules are no longer required in their present form and should be relaxed or deleted without further delay.

5. The following changes will be made:

(a) Thirty-minute meter readings now required to be entered in the operating log are to be made at the beginning of operation in each mode and at intervals not exceeding 3 hours. (§§ 73.113(a)(3) AM; 73.283(a)(3) FM; 73.583(a)(3) Ed. FM; 73.671(a)(3) TV; and, remote control §§ 73.67(a)(5) AM; 73.676(f)(3) TV.)

(1) The requirement to observe certain operating parameters of transmitting systems at 30-minute intervals is a reflection of the performance of early radio station equipment. With the performance and reliability of equipment in general use today, we find no need for such frequent observation of these parameters. Accordingly, we are relaxing the existing requirement, but deem it necessary to do so cautiously at this time. (See paragraph 6 below.) Therefore, we are specifying that such observations be made at intervals of no greater than three hours.

(b) The required inspection of transmitting equipment is to be made at least once a week, with an interval of not less than 5 days between the required inspections; instead of once a day, 5 days a week, at intervals of not less than 12 hours between inspections. (§§ 73.93(j) AM; 73.265(h) FM; 73.565(h) Ed. FM.)

(1) When the Commission adopted its present five-day-per-week inspection and related logging requirement in Docket 14661 (1963), it stated: "• • • we • • • intend • • • simply to insist that more time and attention to be paid to the technical details of station operation. As a first step in this direction, we will require a radiotelephone first-class operator, in effect, to certify that the

V37-216 NOV 8 72 XUM

operation is in accordance with the Commission's rules and the station authorizations or the extent to which compliance is not attained."

The important consideration is that stations must operate in conformance with the Commission's rules and the station authorizations. The action we are taking herein in no way relieves the licensee of this responsibility.

Recognizing this, and also recognizing that the present requirement imposes considerable hardship on a large number of stations with little commensurate improvement in radio service, we find that formal certification of conformance on a weekly basis is adequate.

(c) A new provision is made that the operating log and the maintenance log may be kept individually, on the same sheet in one common log, at the option of the licensee (§§ 73.111 AM; 73.281 FM; 73.581 Ed. FM; 73.669 TV).

(1) A number of licensees have urged that we permit them to combine the operating log and maintenance log in one technical log. Since station operation is not affected by such action, we will permit use of a common log, with certain conditions.

(d) Station identification of broadcast stations is to be made at the beginning and ending of operation and, hourly, as close to the hour as feasible, at a natural break in program offerings; instead of within 2 minutes of the hour for TV and within 2 minutes of the hour and half hour for AM and FM stations (§ 73.1201(a)).

This relaxation obviates the need for paragraphs (d), (e), and (f) on "Program interruption," "Deferred station identification," and "Equipment performance measurements," concerning identifications outside the 2-minute provision. The paragraphs are deleted.

(1) Requirement for more frequent identification of AM's and FM's is unnecessary. Identification at a natural break in programing is a simplification and restatement of the present 2-minute provision and its allowable variations.

(e) Rebroadcasting the program of another broadcast station will only require consent of the originating station, not authority of the Commission as now provided in certain situations (e.g., TV rebroadcasts of FM) or notification of consent to the Commission as now provided in all situations (except emergency broadcast system operations). Copies of the written consent are to be kept at the rebroadcasting station and made available to the Commission upon request. Provisions on rebroadcast of signals from nonbroadcast stations (e.g. Naval Observatory time) are codified from FCC public notices and clarified. The separate rules on rebroadcast for AM, FM, Ed. FM and TV are deleted. One new rule, 73.1207, is added to Subpart H, "Rules Applicable in Common to Broadcast Stations." (§§ 73.121 (b), (b), (c), (d), AM; 73.291 (a), (b), (c), (d), FM; 73.591 (a), (b), (c), Fd FM; 73.655 (a), (b), (c), TV.) (§ 73.1207.)

(1) Our administrative experience is that notifications of consent and applications for rebroadcast authority serve no useful purpose. Consent of the originating station is crucial, and, once obtained, the rebroadcasting station has met the statutory requirement (sec. 315 of the Communications Act). Authority of the Commission is still required for rebroadcast of point-to-point messages of government and privately owned nonbroadcast stations.

(f) The "Mechanical Reproduction" rule is retitled "Broadcast of Taped Filmed or Recorded Material." The rule is simplified to provide merely against misleading the public. Taped, filmed, or recorded material (a) in which time is of special significance, or (b) by which an affirmative attempt is made to create the impression that it is occurring simultaneously with the broadcast, shall be identified at the beginning as taped, filmed, or recorded. The rule does not apply to taped, filmed, or recorded announcements which are of a commercial, promotional, or public service nature. The daily announcement by a station that some of its network programs were taped for later broadcast is no longer required. The Separate rules for AM, FM, Ed. FM and TV are deleted. One rule, 73.1208, is added to Subpart H, "Rules Applicable in Common to Broadcast Stations." (§§ 73.118 (a), (b), (c) AM; 73.288 (a), (b), (c) FM; 73.588 (a), (b), (c) Ed. FM; 73.635 (a), (b), (c) TV.) (§ 73.1208.)

(1) The state of the art of "recording" in broadcasting-telecasting is highly advanced technically in audio taping, video taping, filming, and recordings of vocal-instrumental material. Virtually all TV today, with the exception of newscasts, and on-the-spot coverage of special events (like conventions) and sports is "recorded." Recording is the vital base in the program fare of radio. This rule is rewritten to recognize these modern uses, but with the intent to protect the viewer/listener from being misled by any deliberate misuse of recordings, taping, or filming.

(g) Copies of contracts specified in § 1.613 as to time brokers, subsidiary communications authorization operations, and time sales over 4 hours daily to same sponsor, are to be kept at the station instead of being filed with the Commission. They shall be made available for inspection upon request. (§ 1.613 (a), (b), (c), (d), (e), (f); SCA § 73.295.)

(1) To reduce the administrative detail of the Commission, and at the same time relieve the licensee of unnecessary filing burdens, this rule is rewritten to exclude from filing requirements certain contracts which offer no real support in carrying out the operational duties of any divisions of the Commission. They are part of the FCC public files, but requests to review them by outside parties have been virtually nil. The need to have them in the FCC files seems nonexistent.

6. We believe that these changes will provide substantial relief from unnecessary operating burdens on both the Commission and the licensee. The relief should result in a better serving of the public interest. The changes are a beginning. It is possible that some can be relaxed further. Meter readings are an example. Pointing to proven reliability of present-day equipment, many licensees contend that two or three times a day are adequate. Further consideration will be given to this in our examination of basic engineering matters. We specified three hours as the most we believe necessary and a safe basis upon which to give immediate relief.

7. This order is but an initial action in our overall proceeding. As our reregulation study continues, we anticipate additional orders for relaxations and deletions. We expect to issue shortly notices of inquiry and notices of proposed rule making looking into the fundamental aspects of broadcasting and our regulation of broadcasting.

8. Amendments hereby adopted are editorial revisions, and deletions and relaxations of existing rule provisions which we consider no longer necessary. We believe that they will inure to the benefit of many and to the detriment of none; and that they will better serve the public interest. Therefore, prior notice of rule making and public procedure thereon are unnecessary, pursuant to the Administrative Procedure and Judicial Review provisions of 5 U.S.C. 553(b)(3)(B).

9. *Therefore, it is ordered*. That, pursuant to sections 4(i) and 303 (j), and (r) of the Communications Act of 1934, as amended, Parts 1 and 73 of the Commission's rules and regulations are amended as set forth below, effective December 15, 1972.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: November 1, 1972.

Released: November 2, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

1. Section 1.613 is amended by revising paragraph (d), placing paragraphs (c), (d) as revised, and (e) in a new paragraph (d), and redesignating paragraph (f) (1), (2) as (c) (1), (2).

Section 1.613 (c) and (d) are amended to read as follows:

§ 1.613 Filing of contracts.

• • • • • •

(c) Contracts relating to personnel. (1) The following contracts, agreements, or understandings shall be filed: Management consultant agreements with independent contractors; contracts relating to the utilization in a management capacity of any person other than an officer, director, or regular employee of the licensee or permittee station, management contracts with any persons, whether or not officers, directors, or regular employees, which provide for

[1] Commissioners H. Rex Lee and Hooks absent.

both a percentage of profits and a sharing in losses; or any similar agreements.

(2) The following contracts, agreements, or understandings need not be filed: agreements with persons regularly employed as general or station managers or salesmen; contracts with program managers or program personnel; contracts with chief engineers or other engineering personnel except those contracts required to be filed under the provisions of §§ 73.93(c), 73.265(c), and 73.565(c) of this chapter; contracts with attorneys, accountants, or consulting radio engineers; contracts with performers; contracts with station representatives; contracts with labor unions; or any similar agreements.

(d) The following contracts, agreements, or understandings need not be filed, but shall be kept at the station and made available for inspection upon request: Contracts relating to the sale of broadcast time to "time brokers" for resale; Subchannel leasing agreements for Subsidiary Communications Authorization operation; time sales contracts with the same sponsor for more than 4 or more hours per day, except where the length of the events (such as athletic contests, musical programs, and special events) broadcast pursuant to the contract is not under control of the station.

2. Section 73.67(a)(5) is amended to read as follows:

§ 73.67 Remote control operation.

(a) • • •

(5) The indications at the remote control point of the antenna current meter, or, for directional antennas, the common point current meter and remote base current meters, shall be read and entered in the operating log every 3 hours.

• • • • • •

3. Section 73.93(j) is amended to read as follows:

§ 73.93 Operator requirements.

• • • • • •

(j) At all standard broadcast stations, a complete inspection of the transmitting system and required monitoring equipment in use, shall be made by an operator holding a first class radiotelephone license at least once each calendar week. The interval between successive required inspections shall not be less than 5 days. This inspection shall include such tests, adjustments, and repairs as may be necessary to insure operation in conformance with the provisions of this subpart and the current station authorization.

• • • • • •

4. Section 73.111 is amended by adding new paragraph (e), to read as follows:

§ 73.111 General requirements relating to logs.

• • • • • •

(e) The operating log and the maintenance log may be kept individually on the same sheet in one common log, at the option of the permittee or licensee.

5. Section 73.113(a)(3) is amended to read as follows:

§ 73.113 Operating log.

(a) • • •

(3) An entry at the beginning of operation in each mode and at intervals not exceeding 3 hours, of the following (actual ratings observed prior to making any adjustments to the equipment and, when appropriate, an indication of corrections to restore parameters to normal operating values):

• • • • • •

§ 73.118 [Deleted]

6. Section 73.118 is deleted.

§ 73.121 [Deleted]

7. Section 73.121 is deleted.

8. Section 73.265(h) is amended to read as follows:

§ 73.265 Operator requirements.

• • • • • •

(h) At all FM broadcast stations, a complete inspection of the transmitting system and required monitoring equipment in use shall be made by an operator holding a first class radiotelephone license at least once each calendar week. The interval between successive required inspections shall not be less than 5 days. This inspection shall include such tests, adjustments, and repairs as may be necessary to insure operation in conformance with the provisions of this subpart and the current station authorization.

9. Section 73.281 is amended by adding new paragraph (e), to read as follows:

§ 73.281 General requirements relating to logs.

• • • • • •

(e) The operating log and the maintenance log may be kept individually on the same sheet in one common log, at the option of the permittee or licensee.

10. Section 73.283(a)(3) is amended to read as follows:

§ 73.283 Operating log.

(a) • • •

(3) An entry at the beginning of operation and at intervals not exceeding 3 hours, of the following (actual readings observed prior to making any adjustments to the equipment and, when appropriate, an indication of corrections to restore parameters to normal operating values):

• • • • • •

§ 73.288 [Deleted]

11. Section 73.288 is deleted.

§ 73.291 [Deleted]

12. Section 73.291 is deleted.

13. Section 73.295(c) is amended to read as follows:

§ 73.295 Operation under Subsidiary Communications Authorizations.

• • • • • •

(c) In all arrangements entered into with outside parties affecting SCA operation, the licensee or permittee must retain control over all material transmitted over the station's facilities, with the right to reject any material which it deems inappropriate or undesirable. Subchannel leasing agreements shall be reduced to writing, kept at the station, and made available for inspection upon request.

• • • • • •

14. Section 73.565(h) is amended to read as follows:

§ 73.565 Operator requirements.

• • • • • •

(h) At all noncommercial educational FM broadcast stations, a complete inspection of the transmitting system and required monitoring equipment in use shall be made by an operator holding a first class radiotelephone license at least once each calendar week. The interval between successive required inspections shall not be less than 5 days. This inspection shall include such tests, adjustments, and repairs as may be necessary to insure operation in conformance with the provisions of this subpart and the current station authorization: *Provided*, That if the transmitter power output is in excess of 10 watts, but not greater than 1 kilowatt, an operator holding a second class radiotelephone license may perform the required inspection: *Provided, further*, That if the transmitter power output is 10 watts or less, no such weekly inspection need be made, although this shall in no way relieve such stations from the duty to operate in conformance with the provisions of this subpart and the current station authorization.

15. Section 73.581 is amended by adding new paragraph (e), to read as follows:

§ 73.581 General requirements relating to logs.

• • • • • •

(e) The operating log and the maintenance log may be kept individually on the same sheet in one common log, at the option of the permittee or licensee.

16. Section 73.583(a)(3) is amended to read as follows:

§ 73.583 Operating log.

(a) • • •

(3) For each station licensed for transmitter output above 10 watts, an entry, at the beginning of operation and at intervals not exceeding 3 hours, of the following (actual readings observed prior to making any adjustments to the equipment, and when appropriate, an indication of corrections made to restore parameters to normal operating values):

• • • • • •

§ 73.588 [Deleted]

17. Section 73.588 is deleted.

§ 73.591 [Deleted]

18. Section 73.591 is deleted.

§ 73.653 [Deleted]

19. Section 73.653 is deleted.

§ 73.655 [Deleted]

20. Section 73.655 is deleted.

21. Section 73.669 is amended by adding new paragraph (e), as follows:

XUM
V37-216 NOV 8 72 V
XUM

§ 73.669 General requirements relating to logs.

. . . . . .

(e) The operating log and the maintenance log may be kept individually on the same sheet in one common log, at the option of the permittee or licensee.

22. Section 73.671(a)(3) is amended to read as follows:

§ 73.671 Operating log.

(a) * * *

(3) An entry at the beginning of operation and at intervals not exceeding 3 hours, of the following (actual readings observed prior to making any adjustments to the equipment, and, when appropriate, an indication of corrections to restore parameters to normal operating values):

. . . . . .

23. Section 73.676(f)(3) is amended to read as follows:

§ 73.676 Remote control operation.

(f) * * *

(3) The required test signals shall be observed immediately after commencement of operation, and thereafter at intervals not exceeding 3 hours. More frequent observations shall be made as necessary to insure proper performance of the transmitter and associated equipment.

24. Section 73.1201(a) is amended and paragraphs (d), (e), and (f) are deleted, to read as follows:

§ 73.1201 Station identification.

(a) *When regularly required.* Broadcast station identification announcements shall be made: (1) At the beginning and ending of each time of operation, and (2) hourly, as close to the hour as feasible, at a natural break in program offerings. Television broadcast stations may make these announcements visually or aurally.

. . . . . .

25. New § 73.1207 is added, to read as follows:

§ 73.1207 Rebroadcast.

(a) The term "rebroadcast" means reception by radio of the programs of a radio station, and the simultaneous or subsequent retransmission of such programs by a broadcast station.

NOTE 1: As used in § 73.1207 "program" includes any complete program or part thereof.

NOTE 2: The transmission of a program from its point of origin to a broadcast station entirely by common carrier facilities, whether by wire line or radio, is not considered a rebroadcast.

(b) No broadcasting station shall rebroadcast the program, or any part thereof, of another broadcasting station without the express authority of the originating station. A copy of the written consent, of the licensee originating the program shall be kept by the licensee of the station rebroadcasting such program and shall be made available to the Commission upon request. Stations originating emergency communications under § 73.971(b), which provides unrestricted AM/FM/TV rebroadcast privileges for stations utilizing the facilities, systems, and procedures of a Detailed State EBS Operational Plan, shall be deemed to have conferred rebroadcast authority on other participating stations. The broadcasting of a program relayed by a remote pickup broadcast station (§ 74.401 of this chapter) is not considered a rebroadcast.

(c) The rebroadcast of time signals originated by the Naval Observatory and the National Bureau of Standards is permitted without further Commission authorization under the conditions set forth in Note 1 to this paragraph. The rebroadcast of National Weather Service (NWS) transmissions is permitted without further Commission authorization under the conditions set forth in Note 2 to this paragraph. Programs originated by the Voice of America (VOA) and the American Forces Radio and Television Service (AFRTS) cannot, in general, be cleared for domestic rebroadcast, and may therefore be rebroadcast only by special arrangement among the parties concerned. Except as otherwise provided by international agreement, programs originated by foreign stations may be rebroadcast without the consent of the originating station. In the case of retransmissions of subcarrier background music and other FM multiplex subscription services, permission must first be obtained from the originating station. The retransmission of point-to-point messages originated by government and privately owned nonbroadcast stations must be authorized by the Commission prior to retransmission; requests for such authority may be submitted informally (by letter), accompanied by the written consent of the originating station.

NOTE 1: (a) *Naval Observatory Time Signals.* (1) The time signal rebroadcast must be obtained by direct radio reception from a naval radio station.

(2) Announcement of the time signal must be made without reference to any commercial activity.

(3) Identification of the Naval Observatory as the source of the time signal must be made by an announcement, substantially as follows: "With the signal, the time will be ---------- courtesy of the U.S. Naval Observatory."

Schedules of time signal broadcasts may be obtained upon request from the Superintendent, U.S. Naval Observatory, Washington, D.C. 20390.

(b) *National Bureau of Standards Time Signals.* (1) Time signals for rebroadcast must be obtained by direct radio reception from an NBS station.

(2) Use of receiving and rebroadcasting equipment must not delay the signals by more than 0.05 seconds.

(3) Signals must be rebroadcast live, not from tape or other recording.

(4) Voice or code announcements of the call letters of NBS stations are not to be rebroadcast.

(5) Identification of the origin of the service and the source of the signals must be made by an announcement substantially as follows: "At the tone, 11 hours 25 minutes Greenwich mean time. This is a rebroadcast of a continuous service furnished by the National Bureau of Standards, Time and Frequency Division, Boulder, Colo." No commercial sponsorship of this announcement is permitted and none may be implied.

(6) Notice of use of NBS time signals for rebroadcast should be forwarded semiannually to Frequency-Time Broadcast Services, Time and Frequency Division, National Bureau of Standards, Boulder, Colo. 80302.

(7) In the rebroadcasting of NBS time signals, announcements will not state that they are standard frequency transmissions. Voice announcements of G.m.t. are given in voice every minute. Each minute, except the first of the hour, begins with a 0.8-second long tone of 1000 Hz at WWV and 1200 Hz tone at WWVH. The first minute of every hour begins with an 0.8-seccond long tone of 1500 Hz at both stations. This tone is followed by a 3-second pause, then the announcement, "National Bureau of Standards Time." This is followed by another 3-second pause before station identification. This arrangement allows broadcast stations sufficient time to retransmit the hour time tone and the words "National Bureau of Standards Time" either by manual or automatic switching.

(8) Time signals or scales made up from integration of standard frequency signals broadcast from NBS stations may not be designated as national standard scales of time or attributed to the NBS as originator. For example, if a broadcasting station transmits time signals obtained from a studio clock which periodically calibrated against the NBS time signals from WWV or WWVH, such signals may not be announced as NBS standard time or as having been originated by the NBS.

Schedules of time signal broadcasts may be obtained upon request from Frequency-Time Broadcast Services Section, Time and Frequency Division, National Bureau of Standards, Boulder, Colo. 80302.

NOTE 2: (a) Message must be rebroadcast within 1 hour of receipt from the National Weather Service (Weather Bureau).

(b) If advertisements are given in connection with a weather rebroadcast, these advertisements shall not directly or indirectly convey an endorsement by the Government of the products or services so advertised.

(c) Credit must be given to indicate that the rebroadcast messages originate with the National Weather Service (Weather Bureau).

26. New § 73.1208 is added, to read as follows:

§ 73.1208 Broadcast of taped, filmed, or recorded material.

(a) Any taped, filmed or recorded program material in which time is of special significance, or by which an affirmative attempt is made to create the impression that it is occurring simultaneously with the broadcast, shall be announced at the beginning as taped, filmed or recorded. The language of the announcement shall be clear and in terms commonly understood by the public. For television stations, the announcement may be made visually or aurally.

(b) Taped, filmed, or recorded announcements which are of a commercial, promotional or public service nature need not be identified as taped, filmed or recorded.

Title 49—TRANSPORTATION

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

[Docket No. 72-25, Notice 1]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires, Tire Selection, and Rims for Passenger Cars

Correction

In F.R. Doc. 72-17870 appearing at page 22620 of the issue for Friday, October 20, 1972, in Table I-N, the entry under "Tire size[1] designation" reading "65/70R10" should read "165/70R10".

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Recodification; Correction

In the recodification and republication of the Federal Motor Vehicle Safety Standards, appearing at page 22902 of the FEDERAL REGISTER of December 2, 1971, three lines of the definition for "vehicle normal load on the tire," appearing in § 571.110 (Motor Vehicle Safety Standard No. 110; 36 F.R. 22924) were omitted. The correct definition reads as follows:

§ 571.110 Standard No. 110; tire selection and rims.

. . . . . .

"Vehicle normal load on the tire" means that load on an individual tire that is determined by distributing to each axle its share of the curb weight, accessory weight, and normal occupant weight (distributed in accordance with Table I) and dividing by 2.

. . . . . .

Issued on November 3, 1972.

CHARLES H. HARTMAN,
Acting Administrator.

[FR Doc.72-19283 Filed 11-7-72;8:51 am]

[Docket No. 70-12; Notice 15]

PART 574—TIRE IDENTIFICATION AND RECORD KEEPING

Tire Size Codes

The purpose of this amendment to Part 574 of Title 49, Code of Federal Regulations, is to provide that the second group of symbols within the tire identification number shall, in the case of new tires, be assigned at the option of the manufacturer rather than conforming to the tire size code presently found in Table I of the regulation.

Under the present system, even if the presently unassigned symbols "O" and "R" are used, a maximum of 900 tire size codes can be assigned. Due to the many new tire sizes being introduced, it is necessary to change the system to allow more flexibility. Therefore, Table I is herewith deleted, new tire manufacturers are allowed to assign their own two-digit code for the tire size, and retreaders are allowed to use either a self-assigned matrix code or a self-assigned tire size code. Each new tire manufacturer will still be required to use a two-symbol size code and to maintain a record of the coding system used, which shall be provided to the National Highway Traffic Safety Administration upon written request. It is recommended but not required that manufacturers use the code sizes previously assigned by this agency for active sizes, and reuse the codes for obsolete sizes when additional size codes are needed.

A notice of proposed rule making on this subject was published on June 16, 1972 (37 F.R. 11979). The comments received in response to the notice have been considered in the issuance of this final rule. The rule is issued as it appeared in the proposal including the letter "T" inadvertently omitted from the proposal.

Three of the tire manufacturers who commented favored the proposed change, and the National Tire Dealers and Retreaders Association, the Japan Automobile Manufacturers Association and the European Tyre and Rim Technical Organisation commented without objection to the proposed change.

Bandag, Inc., a retreader of tires, objected to the proposed change on the grounds that allowing tire manufacturers to assign their own tire size code would remove one of the methods a retreader has to determine the tire size of a casing to be retreaded.

Mercedes-Benz of North America and Volkswagen of America did not favor the change because of the possibility of confusion for the vehicle manufacturer that equips its vehicle with several manufacturers' tires.

The principal objection raised by Bandag should be considerably alleviated by an amendment to Standard No. 109 (36 F.R. 24824) under consideration, which would require tire manufacturers to place the actual tire size, as well as other pertinent information, between the section width and the bead of the tire so that the information will be less susceptible to obliteration during use or removal during the retreading process.

With respect to the comment by Mercedes-Benz of North America and Volkswagen of America, it was concluded that because the existing system does not provide enough symbols to meet the anticipated introduction of new tire sizes, the proposed change is necessary. Mercedes' recommendation that "G", "Q", "S", and "Z" be added or that a three-digit size code be used was rejected, because the additional symbols suggested are difficult to apply to the tire, and the addition of a third symbol would, according to the tire manufacturers, be impractical and inefficient.

A list of the tire size codes assigned up to this time is published in the general notice section of this issue of the FEDERAL REGISTER (37 F.R. 23742). The NHTSA urges tire manufacturers to use these existing codes for time sizes presently being produced and to work within their tire and rim associations to make code assignments for new tire sizes on an industry-wide basis and reuse obsolete size codes wherever possible. In this way the usefulness of the tire size code to the vehicle manufacturer will be maintained.

In consideration of the foregoing, in Part 574 of Title 49, Code of Federal Regulations, Table I is deleted and § 574.5 is amended to read as set forth below.

§ 574.5 Tire identification requirements.

Each tire manufacturer shall conspicuously label on one sidewall of each tire he manufactures, except tires manufactured exclusively for mileage-contract purchasers, by permanently molding into or onto the sidewall, in the manner and location specified in Figure 1, a tire identification number containing the information set forth in paragraphs (a) through (d) of this section. Each tire retreader, except tire retreaders who retread tires for their own use, shall conspicuously label one sidewall of each tire he retreads by permanently molding or branding into or onto the sidewall, in the manner and location specified in Figure 2, a tire identification number containing the information set forth in paragraphs (a) through (d) of this section. In addition, the DOT symbol required by Federal Motor Vehicle Safety Standards shall be located as shown in Figures 1 and 2. The DOT symbol shall not appear on tires to which no Federal Motor Vehicle Safety Standard is applicable. The symbols to be used in the tire identification number for tire manufacturers and retreaders are "A, B, C, D, E, F, H, J, K, L, M, N, P, R, T, U, V, W, X, Y, 1, 2, 3, 4, 5, 6, 7, 8, 9, 0." Tires manufactured or retreaded exclusively for mileage-contract purchasers are not required to contain the tire identification number if the tire contains the phrase "for mileage contract use only" permanently molded into or onto the tire sidewall in lettering at least one-quarter inch high.

(a) *Second grouping.* For new tires, the second group, of no more than two symbols, shall be used to identify the tire size. For retreaded tires, the second group, of no more than two symbols, shall identify the retread matrix in which the tire was processed or a tire size code if a matrix was not used to process the retreaded tire. Each new-tire manufacturer and retreader shall maintain a record of each symbol used, with the corresponding matrix or tire size and shall provide such record to the NHTSA upon written request.

. . . . . .

Effective date: November 8, 1972.

Because this amendment relieves a restriction, and because of the immediate need for the introduction of new-tire size codes, it is found for good cause shown that an effective date less than 30 days from the date of issuance is in the public interest.

Chapter X—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

PART 1033—CAR SERVICE

[S.O. 1112, Amdt. 1]

Railroad Operating Regulations for Freight Car Movement

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 2d day of November 1972.

Upon further consideration of Service Order No. 1112 (37 F.R. 21153), and good cause appearing therefor:

It is ordered, That: Service Order No. 1112 be, and it is hereby, amended by adding the following subdivision (xiv) to paragraph (a), subparagraph (1):

§ 1033.1112 Service Order No. 1112.

(a) *Railroad operating regulations for freight car movement*—(1) *Application.* • • •

(xiv) *Exception.* To alleviate hardships or inequities, exceptions to this order may be authorized to the carrier by the Railroad Service Board, Interstate Commerce Commission, Washington, D.C. Requests for such exceptions may be made only by carriers and shall be sent to W. H. Van Slyke, Chairman, Car Service Division, Association of American Railroads, Washington, D.C., for recording and submission to the Railroad Service Board, Interstate Commerce Commission, for consideration.

Effective date. This amendment shall become effective at 11:59 p.m., November 6, 1972.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2))

It is further ordered, That copies of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[7 CFR Part 752]

[Amdt. 1]

WATER BANK PROGRAM

Notice of Proposed Rule Making

Notice is hereby given of a proposal to amend the regulations governing the Water Bank Program as authorized by the Water Bank Act, 84 Stat. 1468, 16 U.S.C. 1301.

The proposed amendment includes the following:

(a) Revision of § 752.4 to provide that the program will be applicable in the States and counties designated by the Deputy Administrator.

(b) Revision of § 752.5 to provide that a farm to be eligible for participation in the program must not currently have a Water Bank Program agreement.

(c) Revision of § 752.6 to add a paragraph (c)(5) which provides that type 3, 4, or 5 wetlands that are common to more than one farm are ineligible to be placed under agreement unless that portion of a wetland area common to more than one farm which is located on the farm which controls the potential outlet for drainage is placed under agreement. After an agreement has been approved for the farm controlling the outlet for drainage, an agreement may be entered into with any other farm for other portions of the common wetland area provided all agreements have the same beginning date as the farm controlling the outlet for drainage.

(d) Revision of § 752.7(e) to authorize limited grazing of the designated acreage if such a management practice is called for in the conservation plan.

(e) Revision of § 752.9 to provide that the beginning date of all agreements shall be January 1 of the year in which the agreement is approved except that agreements approved in 1972 may have a beginning date of January 1, 1973, if the county committee determines that the agreement signers will be unable to comply with the provisions of § 752.7 relating to the use of the designated acreage during the year 1972.

Interested persons are invited to submit written data, views, or arguments regarding the proposed changes to the Director, Conservation and Land Use Programs Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Room 3096, South, Washington, D.C. 20250. In order to be sure of consideration, all submissions must be received by the Director not later than 30 days after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director during regular business hours (8:15 a.m. to 4:45 p.m.).

The proposed amendment is as follows:

1. Section 752.4 is amended to read as follows:

§ 752.4 Geographical applicability.

The program will be applicable in States and counties designated by the Deputy Administrator.

2. Section 752.5 is amended to read as follows:

§ 752.5 Eligible farm.

A farm is eligible for participation in the program if (a) at the time the request for an agreement is filed, land on the farm is not covered by a Water Bank Program agreement, (b) the farm contains type 3, 4, or 5 wetlands which are identified in a conservation plan developed in cooperation with the Soil and Water Conservation District in which the farm is located, and (c) the farm meets the other requirements specified in this part.

3. Section 752.6(c) is amended by adding a new subparagraph (5) to read as follows:

§ 752.6 Land eligible for designation.

• • • • • •

(c) • • •

(5) Type 3, 4, or 5 wetlands which are common to more than one farm unless the portion of a wetland area common to more than one farm which is located on the farm which controls the potential outlet for drainage is placed under agreement. After an agreement has been approved for the farm controlling the outlet for drainage, an agreement may be entered into with any or all other farms for other portions of the common wetland area if all agreements have the same beginning date as the farm controlling the outlet for drainage.

4. Section 752.7(e) is amended to read as follows:

§ 752.7 Use of designated acreage.

• • • • •

(e) No crop shall be harvested from the designated acreage and such acreage shall not be grazed except as may be called for in the conservation plan as provided in paragraph (b) of this section: *Provided,* That the designated acreage may be grazed in the first year of the agreement period prior to the date the agreement is approved.

5. Section 752.9(a) is amended to read as follows:

§ 752.9 Agreement period.

(a) The agreement period shall be 10 years. The agreement shall become effective on January 1 of the year in which the agreement is approved: *Provided,* That an agreement approved in 1972 shall become effective on January 1, 1973, in cases where, at the time the agreement is approved, the county committee determines that the agreement signers will be unable to comply with the provisions in § 752.7 relating to the use of the designated acreage during the year 1972.

• • • • •

(Sec. 12, 84 Stat. 1471, 16 U.S.C. 1311)

Signed at Washington, D.C., on November 1, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

Packers and Stockyards Administration

[9 CFR Part 201]

PACKERS AND LIVE POULTRY DEALERS AND HANDLERS

Time of Payment for Live Poultry Purchases

Notice is hereby given, in accordance with the Administrative Procedure Provisions of 5 U.S.C., section 553, that pursuant to the authority conferred by section 407(a) of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 228(a)), the Administrator of the Packers and Stockyards Administration is considering the amendment of the regulations under the Act (9 CFR Part 201) by adding a new § 201.111 pertaining to packers, live poultry dealers and handlers regarding the time of payment for live poultry purchases.

It has come to the attention of the Department that persons engaged in the business of purchasing poultry frequently withhold payment due the sellers of poultry for undue and unreasonable period of time. A large percentage of old hens (spent fowl) and to a lesser degree other poultry are sold outright to dealers and processors for purposes of slaughter. These sales frequently involve large amounts. A recent representative study of payment practices for live poultry discloses that in some instances payment is not made for periods exceeding 30 days after slaughter. The normal accepted practice is to pay within 5 business days after slaughter.

The purpose of the proposed regulation is to establish a uniform rule regarding payment for live poultry purchased by packers, live poultry dealers

XUM V37-216 NOV 8 72 XUM

and handlers consistent with the established custom for payment of live poultry within 5 business days after slaughter. The proposed regulation requires that if the parties to a live poultry sales transaction enter into an agreement extending payment beyond 5 business days after slaughter, the substance of such agreement must be disclosed by the packer, live poultry dealer or handler in his records and on the accountings or other documents issued by him relating to such transaction.

The proposed § 201.111 would read as follows:

§ 201.111 Purchasers to pay promptly for live poultry purchases.

Whenever a packer or live poultry dealer or handler purchases live poultry, such purchaser shall, before the close of 5 business days following slaughter of such poultry, transmit or deliver to the seller of such poultry or his duly authorized agent the full amount of the purchase price thereof, unless otherwise expressly agreed between the parties before the purchase of the poultry. Any such agreement shall be disclosed in such purchaser's records and on all accountings or other documents issued by such purchaser relating to the transaction.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendment may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, within 60 days from the publication of this notice in the FEDERAL REGISTER.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 3d day of November 1972.

MARVIN L. MCLAIN,
Administrator, Packers and Stockyards Administration.

[21 CFR Part 27]

CANNED APRICOTS, PRUNES, SEEDLESS GRAPES, CHERRIES, BERRIES, PLUMS, AND FIGS

Proposal To Amend Standards of Identity Regarding Optional Packing Media

Notice is given that the National Canners Association, 1133 20th Street, NW., Washington, DC 20038, has filed a petition proposing:

1. That the standards of identity for canned apricots, canned prunes, canned cherries, canned berries, canned plums, and canned figs (21 CFR 27.10, 27.15, 27.30, 27.35, 27.45, and 27.70) be amended to provide for the use of "fruit juice(s)," "slightly sweetened fruit juice(s)," "light fruit juice(s) sirup," "heavy fruit juice(s) sirup," and "extra heavy fruit juice(s) sirup" as optional packing media;

2. That the standard of identity for canned seedless grapes (21 CFR 27.25) be amended to provide for the use of "fruit juice(s)" is an optional packing medium.

3. That the standard of identity for canned prunes (21 CFR 27.15) in addition to the aforementioned packing media in (1) above, be amended to provide for the use of "slightly sweetened water" as an optional packing medium.

4. That the fruit juice(s) packing media may be prepared from any single fruit juice or a blend of two or more fruit juices one of which may be that of the fruit packed or all of which may be from different fruits.

5. That the fruit juice(s) may be fresh, canned, frozen, or made from concentrate(s), but if made from concentrate(s) the juice(s) shall be reconstituted with water to the soluble fruit solids that each fruit juice had before concentration.

6. That whenever nutritive sweeteners are used in preparing optional packing media, they shall be added in the same proportions as are presently required by the subject standards.

7. That if a packing medium is prepared with concentrated fruit juice(s) and is reconstituted with water or with water and invert sugar sirup, corn sirup, or glucose sirup (in the same proportions presently provided by the affected standards) to the soluble fruit solids that each fruit juice had before concentration, the packing medium is to be considered as being prepared with fruit juice as the liquid ingredient.

8. That the Brix measurements for the proposed optional packing media slightly sweetened fruit juice(s), light fruit juice(s) sirup, heavy fruit juice(s) sirup, and extra heavy fruit juice(s) sirup be the same as those presently designated for slightly sweetened water, light sirup, heavy sirup, and extra heavy sirup, respectively, in the said standards, except that in § 27.10 a Brix measurement of 10° or more but less than 16° is proposed for slightly sweetened fruit juice(s) and in § 27.15 a Brix measurment of less than 20° is proposed for slightly sweetened water and slightly sweetened fruit juice(s); and

9. By providing that the name of the optional packing media shall appear on the principal display panel preceded by "in" or "packed in" and if it is prepared with:

a. A single fruit juice, the name of the fruit juice shall be used in lieu of the word "fruit" in the name of the optional packing medium.

b. A combination of two or more fruit juices, the names of the fruit juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium or appear together in an ingredient statement on the principal display panel or any appropriate information panel or panels of the label in conspicuous and easily legible letters of boldface print or type the size of which shall be not less than one-half of that required by Part 1 of this chapter for the statement of net quantity of content appearing on the label, but in no case less than one-sixteenth inch in height.

c. A single juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium or in the name(s) of the juice(s) if declared in the ingredient statement.

Grounds given in support of the petition are that the proposed amendments will provide the consumer with products that are wholesome, nondeleterious, and more natural in fresh fruit flavor and taste.

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055–1056 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), interested persons are invited to submit their views in writing (preferably in quintuplicate) regarding this proposal within 60 days after its date of publication in the FEDERAL REGISTER. Such views and comments should be addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, and may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during business hours, Monday through Friday.

Dated: October 19, 1972.

VIRGIL O. WODICKA,
Director, Bureau of Foods.

ROLITETRACYCLINE MONOGRAPHS

Recodification and Technical Revisions

Correction

In F.R. Doc. 72-17211 appearing at page 21344 of the issue for Saturday, October 7, 1972, in the 11th line of § 150d.12(b)(1) the word "preparation" should be followed by a comma instead of a semicolon, and the phrase "an accurately measured representative" should be added immediately following that line.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 72-218 P]

NORTH FORK, MOKELUMNE RIVER, CALIF.

Proposed Drawbridge Operation Regulations

The Coast Guard is considering amending the regulations for the Millers Ferry Bridge across the North Fork of the Mokelumne River, mile 12.1 to require that the draw open on signal from May 15 through September 15 from 9 a.m. to 5 p.m., and that, at all other times, the draw open on signal if at least 12 hours notice is given. The draw is presently required to open on signal at all times if at least 12 hours notice is given. This amendment is being considered because of an increase in the number of vessel passages through the draw of this bridge.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), 12th Coast Guard District, 630 Sansome Street, San Francisco, CA 94126. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, 12th Coast Guard District.

The Commander, 12th Coast Guard District, will forward any comments received before December 12, 1972, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising subparagraph (2) of paragraph (h) of § 117.714 to read as follows:

§ 117.714 San Joaquin River and its tributaries, Calif.

* * * * * *

(h) * * *

(2) *North Fork; Sacramento and San Joaquin Counties highway bridge (Millers Ferry Bridge).* From May 15 through September 15, from 9 a.m. to 5 p.m., the draw shall open on signal. At all other times the draw shall open on signal if at least 12 hours notice is given.

* * * * * *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Dated: November 1, 1972.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-SW-72]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Stephenville, Tex.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the following transition area is added:

STEPHENVILLE, TEX.

That airspace extending upward from 700 feet AGL within a 5-mile radius of Clark Field, Tex. (latitude 32°13'00" N., longitude 98°10'42" W.), and within 3 miles each side of the Acton, Tex., VORTAC 244° radial extending from the 5-mile radius area to 27 miles from the VORTAC.

The proposed transition area will provide controlled airspace for aircraft executing approach/departure procedures proposed at the Clark Field Airport, Stephenville, Tex.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on October 27, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 72-18; Notice 4]

FEDERAL MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires for Passenger Cars

This notice proposes an amendment to Appendix A of Motor Vehicle Safety Standard No. 109, New Pneumatic Tires, 49 CFR 571.109.

An amendment to Appendix A of Standard No. 109 and Appendix A of Standard No. 110 (§ 571.110) was published August 2, 1972 (37 F.R. 15430), pursuant to guidelines established October 5, 1968 (33 F.R. 14964). Under the guidelines, additions to the tables of the appendixes become effective 30 days from publication if no objections to them are received. When objections are received, rule making pursuant to NHTSA procedural regulations 49 CFR Part 553, is initiated.

Objections to two of the amendments made by the August 2 notice were received, and in accordance with the guidelines those amendments were revoked by notice of September 1, 1972 (37 F.R. 17837), and September 19, 1972 (37 F.R. 19138). One of those amendments, consisting of changes in the load values of Table I–H of Standard No. 109, requested by the Rubber Manufacturers Association (RMA) and objected to the European Tyre and Rim Technical Organisation (ETRTO), will not be reproposed at this time, since the request has been withdrawn by RMA.

ETRTO in a request of December 23, 1971, asked that footnote 1 of Table I–R be revised to read as follows:

The letters "HR", "SR", or "VR" may be included in any specified tire size designation adjacent to or in place of the dash.

This footnote would be the same as the one already shown in Table I–G for "70-Series" radial ply tires. The Rubber Manufacturers Association and the B.F. Goodrich Tire Co. objected to this amendment on the basis that the inclusion of the letter "R", which is used to indicate radial construction and which already appears once in the tire size designation, is redundant and therefore confusing. In order to provide opportunity for public comment on the request,

V 37-216 NOV 8 72 XUM

it is hereby proposed that the amendment to Table I–R be made as requested by ETRTO.

Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on December 20, 1972, will be considered, and will be available for examination in the docket at the above address both before and after the closing date. To the extent possible, comments filed after the above date will also be considered by the Administration. However, the rule making action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rule making. The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Proposed effective date: August 1, 1973.

This notice is issued pursuant to the authority of sections 103, 119, 201, and 202 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1392, 1407, 1421, 1422) and the delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on November 1, 1972.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

[49 CFR Part 575]

[Docket 72-24; Notice 1]

CONSUMER INFORMATION REGULATION

Special Vehicles

This notice proposes to amend Part 575, Consumer Information, to require manufacturers to identify any vehicles, such as police cars and other configurations offered only for fleet sale, that have a configuration not available for purchase by the general public. The amendment is proposed as a result of a tentative agency determination that inclusion of these vehicles in compilations or rankings published by this agency as consumer information serves no beneficial purpose, and could confuse the consumer. Although it is not a rule making matter, the NHTSA invites comment from interested persons on the omission of this information from future compilations.

Accordingly, it is proposed that Part 575 of Chapter V of Title 49, Code of Federal Regulations, be amended by adding a new § 575.7 to read as follows:

§ 575.7 Special vehicles.

A manufacturer who produces vehicles having a configuration not available for purchase by the general public shall identify those vehicles when furnishing the information required in Subpart B of this part.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on December 7, 1972, will be considered, and will be available for examination in the docket at the above address both before and after the closing date. To the extent possible, comments filed after the above date will also be considered by the Administration. However, the rule making action may proceed at any time after the date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rule making. The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

(Secs. 103, 112, 119, 203, National Traffic and Motor Vehicle Safety Act, 15 U.S.C. 1392, 1401, 1407, 1423; delegations of authority at 49 CFR 1.51, 49 CFR 501.8)

Issued on November 1, 1972.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

CIVIL AERONAUTICS BOARD

[14 CFR Part 242]

[Docket No. 24890; EDR-236]

SCHEDULED ALL-CARGO SERVICES

Proposed Reporting Results; Extension of Part

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment to Part 242 of the Economic Regulations (14 CFR Part 242) to extend the part indefinitely.

The principal features of the proposed amendment are described in the explanatory statement and the proposed amendment is set forth in the proposed rule. The amendment is proposed under the authority of sections 204(a) and 407 of the Federal Aviation Act of 1958, as amended (72 Stat. 743, 766; 49 USC 1324, 1377).

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before December 11, 1972, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 712, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, upon receipt thereof.

By the Civil Aeronautics Board.

Dated: November 3, 1972.

[SEAL] HARRY J. ZINK,
Secretary.

EXPLANATORY STATEMENT

Part 242[1] established separate reporting requirements for the scheduled all-cargo services of certain certificated air carriers. The part by its terms is due to expire December 31, 1972.[2] The reports required thereunder have been kept separate from the basic Form 41 reports because of the fear that the integrity of the latter reports would be impaired by the introduction of experimental and controversial allocation techniques which would, of necessity, have to be employed in segregating the costs of scheduled all-cargo results. This is particularly so because the cost allocation techniques vary markedly from carrier to carrier.

The Board has regarded Part 242 as a temporary expedient[3] pending the development of reliable techniques employing automatic data processing (ADP) which would permit incorporation of definitive costing rules in the Part 241 regulations, governing Form 41 reports. By contrast, Part 242 leaves allocation techniques largely to the discretion of the carriers.

Part 241 has not yet been refined, so that the Form 41 reports cannot now reflect the necessary data on all-cargo scheduled services. Although an amendment to Part 241[4] modernized and mechanized the Form 41 statistics by providing detailed traffic and capacity data needed to refine procedures for allocating costs between passenger and cargo services, further improvements must be made in the reporting of financial data. Until these improvements are effected, the Form 242 all-cargo reports will need to be continued.

Moreover, the Board is currently engaged in a comprehensive investigation entitled "Domestic Air Freight Rate Investigation," Doc. 22859. An evidentiary hearing is required, but has not yet taken place. That investigation may indicate the need for, and nature of, further refinements in reporting procedures and methods of allocation of cost between passenger and all-cargo services. In view

[1] ER-430, adopted Mar. 2, 1965.
[2] ER-655, adopted Nov. 20, 1970.
[3] Part 242 was originally scheduled to expire on July 1, 1968; since then it has been extended twice.
[4] ER-586 and ER-597, effective July 1, 1970.

of the pending investigation, it would seem advisable to postpone any major revision in the reporting of scheduled all-cargo services until the completion of that case. In the interim a substantial amount of information concerning the costing of all-cargo services should be collected in that investigation. But for the present the Board's needs for reporting scheduled all-cargo services can best be satisfied by a continuation of the Part 242 reports.

For the above reasons, the Board tentatively concludes that the term of the part should be extended for an indefinite period. At the conclusion of the "Domestic Air Freight Rate Investigation," we expect to review the Part 242 requirements to determine whether to propose revisions in the reporting requirements based upon the standards, criteria and other needs developed in that proceeding.

It is proposed to amend Part 242 (14 CFR Part 242) of the economic regulations as follows:

1. Amend § 242.1 by deleting and reserving paragraph (b) as follows:

§ 242.1 Applicability.

SMALL BUSINESS ADMINISTRATION

[13 CFR Parts 120, 122, 123]

SMALL BUSINESS CONCERNS

Qualifications of "Financial Institutions" as Eligible Loan Participants

Notice is hereby given that pursuant to authority contained in section 5 of the Small Business Act, Public Law 85–536, 72 Stat. 384, 385, as amended, it is proposed to amend, as set forth below, Parts 120, 122 and 123, by amending §§ 120.1 (c), 122.2(f)(2), and 123.1(d)(2), and by adding a new paragraph (c) to § 120.3. Prior to adoption of such amendments, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in triplicate, to the Associate Administrator for Financial Assistance, Small Business Administration, 1441 L Street NW., Washington, DC 20416, within a period of twenty (20) days of the date of publication of this notice in the FEDERAL REGISTER.

Information. SBA is authorized by statute to make participation loans to small business concerns in cooperation with banks and other lending institutions through agreements to participate on an immediate or deferred basis. The purpose of the instant proposal is to set forth the qualifications that must be met for "financial institutions" to be recognized as an eligible SBA loan participant. Proposed new § 120.3(c), Eligible loan participants, deals with such eligibility factors as capacity to service loans, adequate capital structure and financial standing, qualified management, amenability to examining authority and reporting requirements, and absence of any self-dealing interests by participant and its associates in the borrower small business concern. As stated in § 120.3(c)(6), small business investment companies licensed by SBA are (as a matter of law) ineligible to serve as SBA loan participants.

The standards set forth in proposed new § 120.3(c) will govern the eligibility of loan participants in the fallowing SBA financial assistance programs: (1) Business loans as well as (2) disaster and related loans made pursuant to sections 7(a) and 7(b), respectively, of the Small Business Act; (3) loans to local development companies pursuant to section 502 of the Small Business Investment Act and implementing Regulation 108.502–1(g); and (4) E.O. loans and guarantees pursuant to section 402(a) of the Economic Opportunity Act, as amended, and implementing Regulation 119.41.

It is proposed to amend Part 120 as follows:

1. By amending the reference to "financial institution" appearing in § 120.1 (c) so that it would read as follows:

§ 120.1 Introduction.

* * * * *

(c) "Financial institution" as used in this part shall include, but not be limited to, banks and other lending institutions whose regular course of business entails, the making of commercial, industrial and/or other loans of the type authorized to be made by SBA to eligible small business concerns and who otherwise meet the criteria specified in § 120.3(c).

2. By adding a new paragraph (c) to § 120.3 that would read as follows:

§ 120.3 Terms and conditions of business loans and guarantees.

* * * * *

(c) *Eligible loan participant.* SBA is authorized by appropriate enabling legislation to make participation loans to small concerns in cooperation with banks or other lending institutions through agreements to participate on an immediate or deferred basis. In order to serve as an eligible loan participant in a particular loan transaction with SBA, the financial institution must—

(1) *Capacity to service loan.* Have the continuing capacities for processing, evaluating, disbursing, and servicing commercial term, and other loans authorized to be made by SBA to small concerns.

(2) *Capital structure and financial standing.* Have an adequate capital structure aggregating not less than $200,000 (except that the $200,000 minimum shall not apply to institutions which are subject to supervisory and examining control of State or Federal chartering, licensing or similar regulatory authority, and, together with its existing or proposed directors, officers, other employees, and other persons connected with its organization and operations, possess good character as well as general standing and reputation in the community based on their lending and other established financial ability and experience.

(3) *Qualified management.* Have and maintain in charge of operations qualified management which shall be available to the public during regular business hours, and hold itself out to the public as engaged in the making of commercial, industrial, and other loans of the type authorized to be made by SBA to eligible small concerns.

(4) *Supervisory and examining authority.* Be operating subject to applicable supervisory and examining control of State or Federal chartering, licensing, or similar regulatory authority, or, in the absence of such control, be authorized to and shall enter into a written agreement with SBA to submit appropriate financial reports to SBA or to make available for SBA examination its books, records, accounts and affairs deemed necessary and appropriate by SBA to the protection of its interest in the transaction.

XUM
V37-216 NOV 8 72 V
XUM

(5) *Absence of other financial or self-dealing interest in borrower concern.* Not possess, nor may any of its officers, directors, stockholders owning ten (10) or more percent of any class of shares, investment advisers, or other associates or affiliates, possess any interest, directly or indirectly, in the borrower small concern by reason of an equity position, or as a result of financing its own sales or business operations (except that any such interest in the borrower by a small business investment company, duly licensed by SBA, associated or affiliated with a loan participant shall not disqualify such otherwise eligible loan participant). Concerns operating as a subsidiary or affiliate engaged primarily in lending for the purpose of financing the sale of products or services or other business operations of an affiliate or parent concern are not considered eligible.

(6) *Ineligibility of SBIC's.* Not operate as a small business investment company duly licensed by SBA.

§§ 122.2 and 123.1 [Amended]

3. By adding a new sentence at the end of § 122.2(f)(2) and § 123.1(d)(2) as follows: "The eligibility qualifications for financial institutions set forth in Part 120, § 120.3(c) are incorporated herein."

Dated: October 31, 1972.

THOMAS S. KLEPPE,
Administrator.

DEPARTMENT OF THE TREASURY

Fiscal Service

[Dept. Circ. 570, 1972 Rev., Supp. 7]

MGIC INDEMNITY CORPORATION

Surety Companies Acceptable on Federal Bonds; Change of Name

New York Guaranty Corporation of New York, N.Y., a New York corporation, has formally changed its name to MGIC Indemnity Corporation. Documents evidencing the change of name are on file in the Treasury.

A new Certificate of Authority as an acceptable surety on Federal bonds, dated October 3, 1972, has been issued by the Secretary of the Treasury to MGIC Indemnity Corporation, New York, New York, under Sections 6 to 13 of Title 6 of the United States Code, to replace the Certificate issued October 3, 1972 (37 F.R. 21359, October 7, 1972) to the Company under its former name, New York Guaranty Corporation. The underwriting limitation of $1,117,000 previously established for the Company remains unchanged.

The change in name of New York Guaranty Corporation does not affect its status or liability with respect to any obligation in favor of the United States or in which the United States has an interest, which it may have undertaken pursuant to the Certificate of Authority issued by the Secretary of the Treasury.

Certificates of Authority expire on June 30 each year, unless sooner revoked and new Certificates are issued on July 1, so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1, in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information. Copies of the Circular, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Audit Staff, Washington, D.C. 20226.

Dated: November 2, 1972.

DEFLECTION YOKES FROM JAPAN

Notice of Discontinuance of Antidumping Investigation

NOVEMBER 2, 1972.

On June 30, 1972, there was published in the FEDERAL REGISTER a "Notice of Intent to Discontinue Antidumping Investigation" of deflection yokes (of the type used in color television receivers) from Japan.

The statement of reasons for intending to discontinue the investigation was published in the above-mentioned notice, and interested parties were afforded an opportunity to make written submissions and to present oral views in connection with the intended action.

After consideration of all written and oral arguments presented and for the reasons stated in the "Notice of Intent to Discontinue Antidumping Investigation," I hereby discontinue the antidumping investigation of deflection yokes (of the type used in color television receivers) from Japan.

This "Notice of Discontinuance of Antidumping Investigation" is published pursuant to § 153.15(b) of the Customs regulations (19 CFR 153.15(b)).

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

MONTANA

Notice of Filing of Plat of Survey and Order Providing for Opening of Public Lands

OCTOBER 31, 1972.

1. Plat of survey of the lands described below, accepted September 29, 1972, will be officially filed of record in the Montana State Office, Bureau of Land Management, 316 North 26th Street, Billings, MT 59101, at 10 a.m., December 8, 1972.

PRINCIPAL MERIDIAN, MONTANA

T. 6 N., R. 16 W.,
Sec. 25, lots 1, 2, 3, 4, W½E½, W½;
Sec. 36, lots 1, 2, 3, 4, W½E½, W½.

The area described contains 1,275.16 acres.

2. Except for and subject to valid existing rights, title to the lands in section 36 passed to the State of Montana upon acceptance of the plat of survey.

3. The public lands in section 25 are opened to the operations of the public land laws, subject to any valid existing rights, and the requirements of applicable law, rules, and regulations. These lands have been classified for multiple use management and are segregated from appropriation only under the agricultural land laws (43 U.S.C. Parts 7 and 9; 25 U.S.C. Sec. 334) and from sales under section 2455 of the Revised Statutes (43 U.S.C. 1171).

4. Inquiries concerning these lands shall be addressed to Chief, Division of Management Services, Bureau of Land Management, Billings, Mont. 59101.

ALAN B. CARLSON,
Chief,
Division of Management Services.

[Docket No. M 73-7]

KINGS STATION COAL CORP.

Notice Regarding Modification of Mandatory Safety Standard

In regard petition of Kings Station Coal Corp., for modification of a mandatory safety standard (30 CFR 75.802), Docket No. M 73-7, Kings Mine.

Take notice that Kings Station Coal Corp., 1725 Midland Building, Cleveland, Ohio 44115, has filed a petition to modify 30 CFR 75.802. The regulation in question, which contains the requirements of 308(b) of the Act, provides as follows:

Section 75.802 *Protection of high-voltage circuits extending underground.* High-voltage circuits extending underground and supplying portable, mobile, or stationary high-voltage equipment shall contain either a direct or derived neutral which shall be grounded through a suitable resistor at the source transformers, and a grounding circuit, originating at the grounded side of the grounding resistor, shall extend along with the power conductors and serve as a grounding conductor for the frames of all high-voltage equipment supplied power from that circuit, except that the Secretary or his authorized representative may permit ungrounded high-voltage circuits to be extended underground to feed stationary electrical equipment if such circuits are either steel armored or installed in grounded, rigid steel conduit throughout their entire length, and upon his finding that such exception does not pose a hazard to the miners. Within 100 feet of the point on the surface where high-voltage circuits enter the underground portion of the mine, disconnecting devices shall be installed and so equipped or designed in such a manner that it can be determined by visual observation that the power is disconnected, except that the Secretary or his authorized representative may permit such devices to be installed at a greater distance from such area of the mine if he determines, based on existing physical conditions, that such installation will be more accessible at a greater distance and will not pose any hazard to the miners.

Kings Station supports its petition with the following argument:

30 CFR 75.802 provides that high-voltage circuits extending underground be grounded through a suitable resistor at the source transformers. At present, petitioner's power arrangement is such that it receives power at a transformer bank which steps down electricity from 43,000 to 2,300 volts. This

V 37-216 NOV 8 72 XUM

transformer bank is located approximately 200 feet from petitioner's powerhouse containing switching gear for distribution of power to various circuits above and below ground. This powerhouse is approximately 100 feet from the point at which the cable supplying power to the rectifier station underground leaves the surface and goes underground. This underground circuit is grounded by a resistor located in the powerhouse, rather than at the source transformers.

Petitioner's present arrangement is due to the desirability of continuing to use the switch gear in the powerhouse which formerly generated power for the mine and other use in the area. When the use of mine-generated power was discontinued and power was purchased from outside sources, it was most feasible to continue to use the switch gear contained in the powerhouse. This resulted in the grounding of many circuits at the powerhouse rather than at the source transformers.

Petitioner avers that the grounding of high-voltage circuits extending underground at a point in petitioner's powerhouse, rather than at the source transformers, provides no less than the same measure of protection afforded to the miners by the provisions of 30 CFR 75.802.

Parties interested in this petition shall file their answer or comments and their request for a hearing, if they wish one, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, VA 22203. Copies of the petition are available for inspection at that address.

[SEAL] JAMES DAY,
Director,
Office of Hearings and Appeals.

OCTOBER 30, 1972.

[FR Doc.72-19075 Filed 11-7-72;8:50 am]

[Docket No. M 73-8]

OAK LEAF COAL COMPANY, INC.

Notice Regarding Modification of Mandatory Safety Standard

In regard petition of Oak Leaf Coal Company, Inc., for modification of a mandatory safety standard (30 CFR 75.313), Docket No. M 73-8, No. 4 Mine.

Notice is hereby given that Oak Leaf Coal Company, Inc., Box 10, Wharncliffe, WV 25651, has filed a petition to modify 30 CFR 75.313. The regulation in question provides:

Section 75.313 *Methane monitor.* The Secretary or his authorized representative shall require, as an additional device for detecting concentrations of methane, that a methane monitor, approved as reliable by the Secretary after March 30, 1970, be installed, when available, on any electric face cutting equipment, continuous miner, longwall face equipment, and loading machine, except that no monitor shall be required to be installed on any such equipment prior to the date on which such equipment is required to be permissible under §§ 75.500, 75.501, and 75.504. When installed on any such equipment, such monitor shall be kept operative and properly maintained and frequently tested as prescribed by the Secretary. The sensing device of such monitor shall be installed as close to the working face as practicable. Such monitor shall be set to deenergize automatically such equipment when such monitor is not operating properly and to give a warning automatically when the concentration of methane reaches a maximum percentage determined by an authorized representative of the Secretary which shall not be more than 1.0 volume percent of methane. An authorized representative of the Secretary shall require such monitor to deenergize automatically equipment on which it is installed when the concentration of methane reaches a maximum percentage determined by such representative which shall not be more than 2.0 volume percent of methane.

Oak Leaf Coal Company, Inc., makes the following statement in support of its petition:

• • • This mine is located above the water table, in a small remaining block of coal left as uneconomical to mine by previous mine-owners, and is in an area that contains multiple seams that has been mined since 1899. All the mines that have operated since that time have been considered nongaseous. From all information available, there has never been any methane found in any of these mines, nor have there been any mine fires or explosions. Oak Leaf Mine No. 4 mine has operated since December 2, 1971, and previous to that as the Lower Cedar Grove Coal Co. and also have never detected any concentrations of methane.

Parties interested in this petition shall file their answer or comments and their request for a hearing, if they wish one, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, VA 22203. Copies of the petition are available for inspection at that address.

JAMES DAY,
Director,
Office of Hearings and Appeals.

OCTOBER 30, 1972.

National Park Service

BLUE RIDGE PARKWAY

Notice of Intention To Issue a Concession Permit

Pursuant to the provisions of section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that thirty (30) days after the date of publication of this notice, the Department of the Interior, through the Superintendent, Blue Ridge Parkway, proposes to issue a concession permit to Miss Grace Laffoon, the present concessioner who now manages the Brinegar Cabin, authorizing her to provide concession facilities and services for the public at Blue Ridge Parkway for a period of five (5) years from January 1, 1973, through December 31, 1977.

The foregoing concessioner has performed her obligations under a prior permit to the satisfaction of the National Park Service and, therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new permit. However, under the Act cited above, the National Park Service is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted within thirty (30) days after the publication date of this notice.

Interested parties should contact the Superintendent, Blue Ridge Parkway, Post Office Box 7606, Asheville, NC 28807, for information as to the requirements of the proposed permit.

Dated: August 17, 1972.

GRANVILLE B. LILES,
Superintendent, Blue Ridge Parkway.

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service

[NTIS Order No. EIS 72 5289 F]

WHEAT, FEED GRAIN, AND COTTON SET-ASIDE PROGRAMS

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the U.S. Department of Agriculture, Agricultural Stabilization and Conservation Service has prepared a final environmental statement for the Wheat, Feed Grain, and Cotton Set-Aside Programs, USDA-ASCS-ES-(ADM) 72-3.

The environmental statement discusses the Wheat, Feed Grain, and Cotton Set-Aside Programs which were established under the Agricultural Act of 1970. The Act instructs the Secretary of Agriculture to provide for a set-aside of cropland if he determines that the supply of wheat, feed grain, or cotton will likely be excessive. About 60 million acres have been set aside in 1972 and devoted to conserving uses approved for the program. The Act further authorized additional payments to participants who agree to permit public access for hunting, fishing, trapping, and hiking. A pilot public access program is being conducted in five counties in each of 10 designated States in 1972. Producers are to take measures determined appropriate to protect the set-aside acreage from erosion, insects, weeds, and rodents.

The final environmental statement was transmitted to CEQ on September 18, 1972.

Copies are also available from the Na during regular working hours at the following location:

USDA, Agricultural Stabilization and Conservation Service, South Agriculture Building, Room 3615, 12th Street and Independence Avenue SW., Washington, DC 20250.

Copies are also available from the National Technical Information Service,

U.S. Department of Commerce, Springfield, Va. 22151. Please refer to the name and number of statement above when ordering. Copies of the final statement have been sent to all agencies, organizations, and individuals who commented on the draft statement.

Signed at Washington, D.C., on November 1, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-300]

GLOBE SEAWAYS, INC.

Notice of Multiple Applications

Notice is hereby given that applications have been filed under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). Inasmuch as the below listed applicants, and/or related persons or firms, employ ships in the domestic, intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for each such Applicant if its application for operating-differential subsidy is granted.

The following Applicants have requested permission involving the domestic, intercoastal or coastwise services described below:

Name of applicants:

Globe Seaways, Inc. (Globe).
Ocean Transportation Co., Inc. (Ocean).
Overseas Oil Carriers, Inc. (Overseas).

Description of domestic service and vessels: The applicants, Globe, Ocean, and Overseas, are subsidiaries of Overseas Shipholding Group, Inc. (Shipholding), whose subsidiaries have engaged in domestic coastwise, intercoastal and non-contiguous petroleum trades with tanker vessels, and each applicant has requested written permission to continue such operations. The following tanker vessels are owned by the applicants and other subsidiaries of Shipholding:

Ship	*Owner*
OVERSEAS ALASKA	Intercontinental Bulktank Corporation
OVERSEAS ALICE	Intercontinental Bulktank Corporation
OVERSEAS ALEUTIAN	Ocean
OVERSEAS ULLA	Ocean
OVERSEAS ARCTIC	Overseas Bulktank Corporation
OVERSEAS VALDEZ	Overseas Bulktank Corporation
OVERSEAS JOYCE	Overseas
OVERSEAS REBECCA	Globe
OVERSEAS VIVIAN	Ocean Tankships Corporation
ALPHA RESERVE	Sea Tankers, Inc.
BETA RESERVE	Sea Tankers, Inc.
GAMMA RESERVE	Sea Tankers, Inc.

Written permission is now required by the applicants (Globe, Ocean, and Overseas) notwithstanding that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage.

Interested parties may inspect these applications in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, DC 20235.

Any person, firm or corporation having any interest (within the meaning of section 805(a)) in any application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on November 15, 1972, file same with the Maritime Subsidy Board/Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board/Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m., November 17, 1972, in Room 4896, Department of Commerce Building, 14th and E Streets NW., Washington, DC 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

Dated: November 3, 1972.

By order of the Maritime Subsidy Board/Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.72-19162 Filed 11-7-72;8:51 am]

[Docket No. S-302]

HUDSON WATERWAYS CORP., ET AL.

Notice of Multiple Applications

Notice is hereby given that the following corporations have filed application for an operating-differential subsidy contract to carry bulk cargoes to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). The bulk cargo carrying vessels proposed to be subsidized and the trades in which each proposes to engage are presented also.

Operator's name and address	Type of ship	Name of ship
Hudson Waterways Corp., 1 Chase Manhattan Plaza, New York, NY 10005.	Tanker	SS Transerie.
	do	SS Transpanama.
	do	SS Transuperior.
Overseas Oil Carriers, Inc., 511 Fifth Ave., New York, NY 10017.	do	ST Overseas Joyce.
	Bulk carrier.	SS Overseas Progress.
Globe Seaways, Inc., 511 Fifth Ave., New York, NY 10017.	Tanker	ST Overseas Rebecca.
Ocean Transportation Co., Inc., 511 Fifth Ave., New York, NY 10017.	do	ST Overseas Aleutian.
	do	ST Overseas Ulla.

The foregoing applications may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, DC, during regular working hours.

These vessels are to engage in the carriage of export bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the U.S. to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the FEDERAL REGISTER on October 21, 1972 (37 F.R. 22747).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis through June 30, 1973 (with extension to termination of approved subsidized voyages in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

Any person having an interest in the granting of one or any of such applications and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before November 15, 1972, notify the Board's secretary, in writing, of his interest and of

XUM
V37-216 NOV 8 72
XUM

his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing. Further, each such statement shall identify the applicant or applicants against which the intervention is lodged.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to any application(s), the purpose of such hearing will be to receive evidence relevant to (1) whether the application(s) hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the United States which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: November 3, 1972.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

[Docket No. S-303]

MANHATTAN TANKERS CO., INC.

Notice of Multiple Applications

Notice is hereby given that applications have been filed under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). Inasmuch as the below listed applicants, and/or related persons or firms, employ ships in the domestic, intercoastal, or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for each such applicant if its application for operating-differential subsidy is granted.

The following applicants have requested permission involving the domestic, intercoastal, or coastwise services described below:

Name of applicants:

Manhattan Tankers Co., Inc. (Manhattan).
Transeastern Shipping Corp. (Transeastern).
Hudson Waterways Corp. (Hudson).

Description of domestic service and vessels: The applicants, Manhattan, Transeastern, and Hudson, are all affiliated with each other and with Seatrain Lines, Inc. (Seatrain), and Seatrain and its affiliates have engaged in the domestic trades shown below, and each applicant has requested written permission for the continuance, by Seatrain and other affiliated companies, of those services, as well as the right to move any vessel listed below from one domestic trade to another, and/or from a foreign trade(s) to a domestic trade(s) within the fiscal year period of the proposed operating-differential subsidy agreement. All of the vessels listed have coastwise privileges. The following are the vessels by type and an indication of those currently in the domestic trades:

Ship	Type	Current service
Seatrain Puerto Rico	Dry cargo (Military)	MSC.[1]
Seatrain Carolina	do	MSC.
Seatrain Florida	do	MSC.
Seatrain Maryland	do	MSC.
Seatrain Maine	do	MSC.
Seatrain Washington	do	MSC.
Seatrain Ohio	do	MSC.
Transcolorado	Dry cargo (heavy type)	MSC.
Transcolumbia	do	MSC.
Transpacific	C4 Conventional	MSC.
Transeastern	Tanker	
Erna Elizabeth	do	Time Charter (MSC).[1]
Transhuron	do	Time Charter (MSC).
Transidaho	Container C4	U.S. E.C./Puerto Rico.
Transoregon	do	Do.
Transhawaii	do	Do.
Seatrain San Juan	Container T2	Do.
Seatrain Delaware	do	Do.
Transindiana	do	U.S. Pacific Coast/Hawaii.
Transchamplain	Container mission tanker	Do.
Transonelda	Container T2	
Transontario	do	
Seatrain Georgia	do	
Seatrain Louisiana	do	
Manhattan	Tanker	
Transglobe	Ro/Ro	
Transerie	Tanker	
Transpanama	do	
Transsuperior	do	

[1] The vessels chartered to MSC are presently under contract to MSC for periods of up to 5 years and their operations are consequently not under the control of their owners.

Written permission is now required by the applicants (Manhattan, Transeastern, and Hudson) notwithstanding that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage.

Interested parties may inspect these applications in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in any application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on November 15, 1972, file same with the Maritime Subsidy Board/Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Subsidy Board/Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m., November 17, 1972, in Room 4896, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

By order of the Maritime Subsidy Board/Maritime Administration.

Dated: November 3, 1972.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.72-19165 Filed 11-7-72;8:51 am]

[Docket No. S-301]

WABASH TRANSPORT, INC., ET AL.

Notice of Multiple Applications

Notice is hereby given that the following corporations have filed application for an operating-differential subsidy contract to carry bulk cargoes to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). The bulk cargo carrying vessels proposed to be subsidized and the trades in which each proposes to engage are presented also.

Operator's name and address	Type of ship	Name of ship
Wabash Transport, Inc., c/o Ogden Marine, Inc., 2 Pennsylvania Plaza, New York, NY 10001.	Tanker	ST Ogden Wabash.
Willamette Transport, Inc., c/o Ogden Marine, Inc., 2 Pennsylvania Plaza, New York, NY 10001.	do	ST Ogden Willamette.
Connecticut Transport, Inc., c/o Ogden Marine, Inc., 2 Pennsylvania Plaza, New York, NY 10001.	do	ST Connecticut.
Keystone Shipping Co., 1 Chestnut St., Philadelphia, PA 19106.	do	SS Perryville.
Keystone Tankship Corp., c/o Keystone Shipping Co., Agent, 1 Chestnut St., Philadelphia, PA 19106.	do	SS Keytanker.
	do	Do.
	do	SS Ticonderoga.
Plaza Shipping, Inc., Suite 900, 1414 Avenue of the Americas, New York, N Y 10019.	do	ST Julie.

The foregoing applications may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C., during regular working hours.

These vessels are to engage in the carriage of export bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the U.S. to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.–U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions, and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the FEDERAL REGISTER on October 21, 1972 (37 F.R. 22747).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that each vessel named will engage in the trades described on a full-time basis through June 30, 1973 (with extension to termination of approved subsidized voyages in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the individual operating-differential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

Any person having an interest in the granting of one or any of such applications and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before November 15, 1972, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing. Further, each such statement shall identify the applicant or applicants against which the intervention is lodged.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to any application(s), the purpose of such hearing will be to receive evidence relevant to: (1) Whether the application(s) hereinabove described is one with respect to vessels to be operated in an essential service, served by citizens of the U.S. which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act additional vessels should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: November 3, 1972.

By order of the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.72-19163 Filed 11-7-72;8:51 am]

Office of Import Programs

HARVARD MEDICAL SCHOOL

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00421-33-46040. Applicant: Harvard Medical School, 25 Shattuck Street, Boston, MA 02115. Article: Electron Microscope, Model JEM-100B. Manufacturer: JEOL, Ltd., Japan. Intended use of article: The article is intended to be used as the primary instrument for various studies by the Department of Anatomy. The materials to be examined will be biological specimens, ranging from micro-organisms to man. Some of the studies to be undertaken are:

a. Fine structure of the parietal cell correlated with its secretory activity,

b. Study of gastric muscous biosynthesis and its role in the stomach,

c. Study of gastric mucosal architecture by freeze etch techniques, and

d. Comparative study of gastric mucosal fine structure of various mammalian and other vertebrate species.

Other studies in which the article will be used include:

1. Ultrastructural study of the testis,

2. Ultrastructural characterization of Rickettsia prowazeki in the intestinal epithelium of the body louse,

3. Studies on cell to cell associations and cell surfaces by electron microscopy after treatment with digestive enzymes,

4. Electron microscopy of sea urchin egg fertilization and early cleavage stages, and

5. Morphological aspects of fat and ferritin absorption in the intestinal epithelium of fish and some mammals.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article has a specified resolving capability of 3.0 Angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corp. The Model EMU-4C has a specified resolving capability of 5 Angstroms. (The lower the numerical rating in terms of Angstrom units, the better the resolving capability.)

We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated October 6, 1972, that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU-4C is not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

JOHNS HOPKINS UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural

V 37-216 NOV 8 72 XUM

Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00094-56-17500. Applicant: The Johns Hopkins University, Purchasing Department, Charles and 34th Streets, Baltimore, Md. 21218. Article: Recording Current Meter Model No. 4. Manufacturer: Ivar Aanderaa, Norway. Intended use of article: The article is intended to be used to determine the dominate physical processes controlling the circulation in the Chesapeake Bay region by measurement of the water temperature and salinity at various levels above some arbitrary datum plane.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: This application is a resubmission of Docket No. 72-00472-81-17500 which was denial without prejudice to resubmission for informational deficiencies. The foreign article is a self-contained instrument providing the capabilities for measuring water current speed, water current direction, water temperature, water conductivity (salinity), and unattended operation for periods up to 6 months. We are advised by the National Bureau of Standards (NBS) in its memorandum dated October 18, 1972, that the requirement for a self-contained instrument capable of measuring the various parameters described above and unattended operation for periods up to 6 months is pertinent to the purposes for which the article is intended to be used. NBS also advises that it knows of no domestically manufactured instrument which is scientifically equivalent to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

NORTH CAROLINA DEPARTMENT OF MENTAL HEALTH ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6 (c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulation issued under cited Act, as published in the February 24, 1972, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 73-00183-33-46500. Applicant: North Carolina Department of Mental Health, Research Division, Embryology Laboratory, Station B, Box 7532, Raleigh, NC 27611. Article: Ultramicrotome, Model "OmU2". Manufacturer: C. Reichert Optische Werke AG, Austria. Intended use of article: The article is intended to be used for thin-sectioning and ultrathin-sectioning of embryonal brain and srinal cord of chickens for electron microscopy in order to study fine structural changes due to the experimental manipulations. Application received by Commissioner of Customs: October 11, 1972.

Docket No. 73-00184-33-03400. Applicant: The University of Tennessee, Department of Audiology and Speech Pathology, South Stadium Hall, Knoxville, Tenn. 37916. Article: Mini-suvag hearing aid. Manufacturer: Service European De Diffusion Des Inventories, S.A., France. Intended use of article: The article is intended to be used to examine the effect of utilizing this low-frequency hearing aid with preschool deaf children. In addition, the article will be used in courses in diagnostics and aural rehabilitation of the deaf. Application received by Commissioner of Customs: October 5, 1972.

Docket No. 73-00186-33-46040. Applicant: University of Wisconsin-Stevens Point, Department of Biology, Stevens Point, Wis. 54481. Article: Electron microscope, Model HS-8. Manufacturer: Hitachi Perkin-Elmer, Japan. Intended use of article. The article is intended to be used to examine embryonic hearts of chicks and rats at appropriate stages of development to determine the mechanism of formation of the interventricular septum and the atrioventricular valves. In addition, studies of structural features of plant cells and tissues which characterize organisms with long life spans, and effects of conditions such as hormones and environment on reversal of the aging process will be carried out. The article is also intended to be used in teaching undergraduates (juniors and seniors) electron microscopic techniques and the interpretation of fine structure. Application received by Commissioner of Customs: October 5, 1972.

Docket No. 73-00187-33-46040. Applicant: Washington University (Ophthalmology Department), 660 South Euclid Avenue, St. Louis, MO 63110. Article: Electron microscope, Model JEM-100B and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for research on the visual system directed at elucidation of the processes involved in photoreception which requires the study of microscopic sections of the rods and cones of the retina at high resolution following exposure to light or darkness or to various chemical or physical agents. The article will also be used to train investigators in visual research. Application received by Commissioner of Customs: October 11, 1972.

Docket No. 73-00188-33-46040. Applicant: New York University School of Medicine, Department of Cell Biology, 550 First Avenue, New York, NY 10016. Article: Electron microscope, Model JEM 100B and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used in high resolution cytochemical studies which include the following:

(1) The study of ribosomes and microsomes from human fibroblasts (WI-38 cells) and rat hepatocytes.

(2) The structural organization of the secretory apparatus of the liver, adrenal glands, and exocrine glands.

(3) Localization of 3B-hydroxysteroid dehydrogenase bycovtochemistry at the electron microscope level. Application received by Commissioner of Customs: October 6, 1972.

Docket No. 73-00190-33-46040. Applicant: Harvard School of Dental Medicine, Department of Oral Medicine and Oral Pathology, 188 Longwood Avenue, Boston, MA 02115. Article: Electron microscope, Model Corinth 295. Manufacturer: AEI Scientific Industries, United Kingdom. Intended use of article: The article is intended to be used for the fine structural study of a variety of experimental models of human oral carcinoma to learn more about the cause and control and to study basic mechanisms in the following existing four-model systems in hamster oral mucosa currently being used in the laboratory:

(a) Well-differentiated epidermoid carcinoma of hamster buccal pouch induced by painting with DMBA;

(b) Anaplastic epidermoid carcinoma of hamster buccal pouch induced by painting with DMBA and simultaneous systemic administration of methotrexate of fluorouracil;

(c) Regression of anaplastic epidermoid carcinoma of hamster buccal pouch induced by azathioprine;

(d) Epidermoid carcinoma of hamster gingiva induced by painting with DMBA and adhesion to mucosa with cyanoacrylate.

The article will also be used in the training of graduate students and postdoctoral fellows in the department. The courses utilizing the article will be "graduate oral pathology" and "experimental oral pathology" dealing with the structure and ultrastructure of oral disease in human beings and the structure and ultrastructure of experimental oral disease patterns in animals.

BUREAU OF EDUCATION FOR THE HANDICAPPED

Notice of Closing Date for Receipt of Applications

Pursuant to the authority contained in sections 631 and 634 of the Education of the Handicapped Act (84 Stat. 175, 184, 185, 20 U.S.C. 1431, 1434), notice is hereby given that the U.S. Commissioner of Education has established a final closing date for receipt of applications for training grants (except special projects) under Part D of the Act by institutions of higher education. Such applications must be postmarked on or before the 30th day following the publication of this notice in the FEDERAL REGISTER.

Regulations governing such grants and other programs and projects authorized under Part D of the Act are being developed, and will be published in the FEDERAL REGISTER as notice of proposed rule making, subject to public comment, as soon as they have been completed.

Dated: November 1, 1972.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 72-219PH]

PROPOSED FIXED BRIDGE ACROSS RARITAN RIVER, CITY OF NEW BRUNSWICK AND PISCATAWAY TOWNSHIP, MIDDLESEX COUNTY, N.J.

Notice of Public Hearing

Notice is hereby given that the Commandant has authorized a public hearing to be held by Commander, Third Coast Guard District, at 7:30 p.m. on December 14, 1972 in the auditorium of the New Brunswick High School, Livingston Avenue, between Ninth and 12th Street, New Brunswick, N.J.

The purpose of the public hearing is to consider the application from the New Jersey Department of Transportation for approval of location and plans for construction of a fixed highway bridge across the Raritan River, approximately 14.2 miles above its mouth. The State of New Jersey proposes to extend existing Route 18 from a point commencing about 250 feet north of New Street, New Brunswick, to River Road in Piscataway Township, Middlesex County, N.J. The proposed right-of-way in New Brunswick generally parallels the Raritan River to a point adjacent to the junction of College Avenue and George Street. At this point the highway curves and crosses the Raritan River on a bridge which will provide navigational clearances of 27.25 feet vertically when measured from mean high water to the underside of the low girders in the southerly river span, and 177 feet horizontally when measured normal to the river flow between faces of the pier shafts. The proposed extension then continues through a section of Johnson Park and connection with the existing River Road through a cloverleaf interchange in Piscataway Township.

Interested parties were given an opportunity to submit written comments on the application to the Commander, Third Coast Guard District, by Public Notice No. 3-150 dated August 31, 1972, and to the applicant's environmental analysis and report of the proposed project.

Responses to the notice and to the applicant's environmental analysis and report indicated that this proposed project is controversial and many interested persons requested a public hearing in order to more fully present their views.

This hearing is being held to hear views and gather any additional data and information that may be available from the general public, not already submitted, concerning the impact of the proposed bridge project on navigation and the quality of the human environment. Accordingly interested persons may present data, views, and comments, oral or in writing, at the public hearing. This hearing will concern navigation, public recreation areas, wildlife and waterfowl refuges, public parks and historical sites which are of national, State, or local significance and any other factors which may affect the quality of the human environment.

In preparing comments interested parties may desire to review and comment on the applicant's environmental analysis and report. Copies are available and may be viewed at the following location from 9:30 a.m. to 4:30 p.m., Monday through Friday until December 14, 1972.

Mr. William J. Cahill, Clerk, City of New Brunswick, 78 Bayard Street, New Brunswick, NJ 08903.

Mrs. Ann Nolan, Clerk, Piscataway Township, 455 Hoes Lane, Piscataway, NJ 08854.

Mr. William F. Ducca, Clerk, Highland Park Borough, 21 South Fourth Avenue, Highland Park, NJ 08904.

V 37-216 NOV 8 72 V XUM

Mr. Douglas S. Powell, Director, Middlesex County Planning Board, County Administration Building, J. F. Kennedy Square, New Brunswick, N.J. 08903.
Head Librarian, Rutgers University Library, New Brunswick, N.J. 08901.
Head Librarian, New Brunswick Public Library, 60 Livingston Avenue, New Brunswick, NJ 08901.
Editor, New Brunswick Home News, 123 How Lane, New Brunswick, NJ 08903.
Commander (oan), Third Coast Guard District, Building 135A, Governors Island, New York, N.Y. 10004.

Information received at the public hearing will be carefully evaluated. This information may be used in the preparation of a draft environmental impact statement of the project which will be prepared by the Coast Guard and circulated for comment in accordance with the provisions of section 102(2)(C) of the National Environmental Policy Act of 1969 (83 Stat. 853).

The hearing will be informal and will be conducted by a representative of the Commander, Third Coast Guard District. He will make an opening statement presenting a brief summary of the proposed bridge project and will outline the procedures for the conduct of the hearing. A transcript will be made of the hearing and may be purchased by the public.

Interested persons who are unable to attend the hearing may also participate in this procedure by submitting written comments, data, views, or arguments as they may desire on or before December 29, 1972. All submissions should be directed to the Commander, Third Coast Guard District (oan), Governors Island, New York, N.Y. 10004. Each communication received within the time specified will be fully considered and evaluated before final action is taken.

After the time established for submission of comments by all interested parties, the Commander, Third Coast Guard District will forward the record, including all written submissions, and his recommendations with respect to the proposed bridge project to the Commandant, U.S. Coast Guard, Washington, D.C. 20590. The Commandant will make the final determination on the bridge permit.

Dated: November 2, 1972.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.72-19124 Filed 11-7-72;8:45 am]

[CGD 72-220N]

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Termination of Approval Notice

1. Certain laws and regulations (46 CFR Ch. I) require that various items of lifesaving, firefighting, and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the Outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been terminated as herein described during the period from December 22, 1971, to September 11, 1972 (List No. 29-72). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of title 46, United States Code, section 1333 of title 43, United States Code, and section 198 of title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (46 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. Notwithstanding the termination of approval listed in this document, the equipment affected may be used as long as it remains in good and serviceable condition.

LIFEBOATS

The Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, Approval Nos. 160.035/208/5 and 160.035/285/2 expired and were terminated effective August 10, 1972.

The Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, Approval Nos. 160.035/216/4 and 160.035/270/3 expired and were terminated effective June 15, 1972.

The Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, Approval Nos. 160.035/246/3 and 160.035/284/3 expired and were terminated effective April 10, 1972.

The Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, Approval Nos. 160.035/271/2, 160.035/274/3, and 160.035/350/2 expired and were terminated effective August 14, 1972.

The Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, Approval No. 160.035/358/1 expired and was terminated effective January 13, 1972.

The Marine Safety Equipment Corp., Foot of Wycoff Road, Farmingdale, N.J. 07727, Approval No. 160.035/360/1 expired and was terminated effective June 16, 1972.

The Lane Lifeboat and Davit Corp., 150 Sullivan Street, Brooklyn, NY 11231, Approval No. 160.035/388/1 expired and was terminated effective December 22, 1971.

The Lane Lifeboat and Davit Corp., 150 Sullivan Street, Brooklyn, NY 11231, Approval No. 160.035/451/0 expired and was terminated effective January 10, 1972.

BUOYANT VESTS, UNICELLULAR PLASTIC FOAM

NOTE: For motorboats of Classes A, 1, or 2 not carrying passengers for hire.

The Billy Boy Products, Inc., Quincy, Mich. 49082, no longer manufactures certain unicellular plastic foam buoyant vests for the Bulldog Marine Products, Inc., 5825 South Western Avenue, Chicago, IL 60636, and Approval Nos. 160.052/280/0, 160.052/281/0, and 160.052/282/0 were therefore terminated effective September 11, 1972.

Dated: November 1, 1972.

G. H. READ,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

National Highway Traffic Safety Administration

[Docket No. 70-12; Notice 16]

TIRE SIZE CODES

The purpose of this notice is to publish an updated list of tire size codes assigned by the National Highway Traffic Safety Administration in accordance with the Tire Identification and Record Keeping regulation, 49 CFR Part 574 (36 F.R. 1196).

The Tire Identification and Record Keeping regulation requires that a tire identification number be placed on new and retreaded tires, and that the second grouping of the number be a code that identifies the tire size or, in the case of a retreaded tire, the tire matrix. New tire manufacturers have up to now been required to use a specific tire size code assigned to the tire size by the NHTSA. Because of the number of new tire sizes being introduced into the market, the possible combinations of letters and numbers have been virtually exhausted.

In order to accommodate new tire sizes, the regulation is being amended by notice published elsewhere in this issue (37 F.R. 23727), to allow each tire manufacturer to assign a two-symbol size code of his own choice, rather than having the number assigned by the agency. However, it is urged that manufacturers maintain the assigned tire size code for existing tire sizes, and that they reuse obsolete tire size codes for new sizes wherever possible.

For convenience of reference, an updated list of the tire size codes assigned by the NHTSA is published below for the information and guidance of tire manufacturers.

This notice is issued under the authority of sections 103, 113, 119, 201, and 1402, 1407, 1421, and 1426; and the delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on October 26, 1972.

ROBERT L. CARTER,
Associate Administrator, Motor Vehicle Programs.

ATOMIC ENERGY COMMISSION

[Dockets Nos. 50-269A, 50-270A, 50-287A, 50-369A, 50-370A]

DUKE POWER CO.

Notice and Order for Prehearing Conference

In the matter of Duke Power Co. (Oconee Units 1, 2, and 3; McGuire Units 1 and 2).

Take notice, that pursuant to the Commission's notice of antitrust hearing in this proceeding and in accordance with the Commission's rules of practice, a prehearing conference will be held on November 17, 1972, at 10 a.m., local time, Court of Customs and Patent Appeals, Fourth Floor Lobby, 717 Madison Place, NW., Washington, DC 20006.

At this prehearing conference, the Board will hear argument on the motions now pending in this proceeding and will consider such other matters as may aid in the disposition of the proceeding.

It is so ordered.

Issued at Washington, DC., this 3d day of November 1972.

ATOMIC SAFETY AND LICENSING BOARD,
JOHN B. FARMAKIDES,
Member.
JOSEPH F. TUBRIDY,
Member.
WALTER W. K. BENNETT,
Chairman.

CIVIL AERONAUTICS BOARD

[Docket No. 24736; Order 72-11-2]

DALLAS/FORT WORTH-GRAND JUNCTION

Order Providing for Further Proceedings in Accordance With Subpart M Expedited Procedures

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 1st day of November 1972.

On September 7, 1972, Frontier Airlines, Inc. filed an application pursuant to Subpart M of Part 302 of the Board's Procedural Regulations, for amendment of its certificate of public convenience and necessity for route 73 so as to permit, without subsidy eligibility, nonstop operations between Dallas/Forth Worth and Grand Junction.[1]

No statements requesting dismissal have been filed. A letter in support of Frontier's application has been received from the Grand Junction Chamber of Commerce.

Upon consideration of the foregoing, we find that Frontier's application is in compliance with, and is appropriate for processing under, the provisions of Subpart M. Accordingly, we order further proceedings pursuant to the provisions of Subpart M, § 302.1306–1310 of the Board's rules of practice, with respect to the above application.

Since there has been no indication of opposition to Frontier's application, we will require answers to be filed within 7 days of the date of this order. Our decision to advance the procedural dates does

[1] Frontier proposes to operate one nonstop round trip with B–737 aircraft on Saturdays only between Dec. 16, 1972, and April 21, 1973, Dallas-Grand Junction-Salt Lake City, and return. Dallas/Fort Worth is a terminal point on segment 21 of route 73 and Grand Junction is a terminal point on segment 3. Frontier proposes to overfly the segment junction point Denver, Colo., on its one flight per week.

not, in any way, alter our ability to take whatever procedural action may be necessary to insure that the interests of all affected parties are fully considered. If no answers requesting a hearing are filed the Board may, pursuant to Rule 1306(b), issue a final order without further procedures.

Accordingly, it is ordered, That:

1. The application of Frontier Airlines, Inc. be and it hereby is set for further proceeding pursuant to Rules 1306–1310 of the Board's rules of practice;

2. Any interested person may, within 7 days of the date of this order, file with the Board an answer to said application, such answers to comply with rules 1306 and 1307(a) of the Board's rules of practice;

3. In the event no such answers are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter a final order; and

4. A copy of this order shall be served upon all the persons served by Frontier in its application.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

EXPANDED APPLICATION OF CATEGORY Z FARES

Notice of Prehearing Conference

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on November 22, 1972, at 10 a.m. (local time), in Room 911, Universal Building, 1825 Connecticut Avenue, NW., Washington, DC, before Administrative Law Judge E. Robert Seaver.

In order to facilitate the conduct of the conference, parties are instructed to submit to the Administrative Law Judge and other parties on or before November 15, 1972, (1) proposed statements of issues; (2) proposed stipulations; (3) requests for information; (4) statement of positions of parties; and (5) proposed procedural dates.

Dated at Washington, D.C., November 2, 1972.

[SEAL] RALPH L. WISER,
Chief Administrative Law Judge.

[FR Doc.72-19159 Filed 11-7-72;8:53 am]

[Docket No. 24888; Order 72-11-10]

MURRAY AIR FREIGHT, INC.

Order of Suspension and Investigation Regarding Nonacceptance of Watches

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3d day of November 1972.

By tariff revision bearing the issue date of October 6 and marked to become effective November 5, 1972, Murray Air Freight, Inc. (Murray), an air freight forwarder, proposes to modify its tariff to include watches under shipments not acceptable for carriage.

The forwarder has offered no justification in support of its filing.

Upon consideration of all relevant factors, the Board finds that the proposed rule may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposal should be suspended pending investigation.

The Board had previously suspended proposals canceling pick-up and delivery service in connection with shipments of watches (Order 71–7–116) and furs (Order 70–3–160) by certain direct air carriers on the ground that the abrupt cancellation of the service would have an adverse impact upon shippers or consignees, or would be unreasonable. We further believe that Murray's proposal is analogous to a provision proposing the non-acceptance of watches, etc., when the declared value exceeds 50 cents per pound proposed by CF Air Freight, Inc. (CF), another air freight forwarder. In suspending this proposal, Order 72–8–55, August 11, 1972, the Board stated, inter alia, that CF's proposal would have eliminated specific services which the shipper had come to expect and rely upon.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. An investigation is instituted to determine whether the provisions in Rule No. 20(J) on 3d Revised Page 4 of Murray Air Freight Inc.'s CAB No. 4, and rules, regulations, or practices affecting such provisions are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions and rules, regulations, and practices affecting such provisions;

2. Pending hearing and decision by the Board, Rule No. 20(J) on 3d Revised Page 4 of Murray Air Freight Inc.'s CAB No. 4 is suspended and its use deferred to and including February 2, 1973, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein designated Docket 24888 be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated; and

4. Copies of this order shall be filed with the tariff and served upon Murray Air Freight, Inc., which is hereby made party to Docket 24888.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[Docket No. 24573]

WARDAIR CANADA, LTD.

Notice of Postponement of Hearing

The applicant, Wardair Canada, Ltd., by letter dated November 2, 1972, has requested a postponement in the hearing upon its application for renewal and expansion of its foreign air carrier permit until such time as the Canadian Air Transport Commission has determined whether it will approve the proposed acquisition by Air Canada, Ltd., of a one-third interest in the applicant.

The applicant reports that it has given actual notice by telephone to all parties of its request and of the indication of the undersigned that the request would be granted.

Notice is hereby given that the hearing in the above-entitled proceeding set for November 6, 1972, has been postponed indefinitely.

Dated at Washington, D.C., November 3, 1972.

[FR Doc.72-19139 Filed 11-7-72;8:47 am]

[Docket No. E-7766]

BONNEVILLE POWER ADMINISTRATION

Notice of Request for Approval of Rate Schedule

NOVEMBER 2, 1972.

Notice is hereby given that the Secretary of the Interior (Secretary), acting on behalf of Bonneville Power Administration (BPA) and pursuant to the provisions of the Bonneville Act, as amended, and the Flood Control Act of 1944, has filed with the Federal Power Commission a request in Docket No. E-7766 for confirmation and approval of a proposed rate schedule for furnishing forced-outage reserve capacity to the Bureau of Reclamation (Bureau). Approval of the proposed rate schedule is requested for the period ending December 31, 1981.

The proposed rate schedule is included in the memorandum of understanding dated March 13, 1972 (Contract) between BPA and the Bureau, which is designated as BPA Contract No. 14-03-19292 and B/R Contract No. 14-06-200-5715A. The Contract, a copy of which was submitted with the Secretary's request, relates to the sale, exchange, and delivery of electric generating capacity and energy made available to the Bureau's Central Valley Project, which is located in California, from the Bureau's share of the output of the Centralia Project, a steam-electric generating plant owned jointly by investor-owned electric utilities and public bodies and located in the southwestern part of the State of Washington. The Bureau's share of that output is included as a firm resource of the U.S. Government through BPA for which BPA is obligated to provide forced-outage reserves as a party to the Pacific Northwest Coordination Agreement.

Under the proposed rate schedule, BPA will furnish the Bureau over a 10-year period which began January 1, 1972, a levelized capacity of 98 megawatts of forced-outage reserves for the Bureau's share of the Centralia Project output at the rate of $7.50 per kilowatt per year ($61,250 per month). The Contract provides that such rate may be increased or decreased by BPA upon 3 months' prior written notice and not more frequently than once in 3 years, subject, however, to the approval of this Commission. In accordance with the Pacific Northwest Coordination Agreement, referred to above, BPA must provide such forced-outage reserves to the Bureau when requested to do so. The Contract states, however, that the reserves "may be withdrawn upon 5 years' written notice by the Administrator [of BPA] if in his judgment such forced-outage reserves are needed to meet the requirements of entities in the Pacific Northwest."

The proposed rate schedule is on file with the Commission and available for public inspection. Any person desiring to make comments or suggestions for the Commission's consideration with respect to said rate schedule should submit the same in writing on or before November 24, 1972, to the Federal Power Commission, Washington, D.C. 20426.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.72-19138 Filed 11-7-72;8:47 am]

[Dockets Nos. CP70-21, etc.]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Petition to Amend

NOVEMBER 1, 1972.

Take notice that on October 16, 1972, Michigan Wisconsin Pipe Line Co. (Petitioner), 1 Woodward Avenue, Detroit, MI 48226, filed in Dockets Nos. CP70-21, CP72-147, CP72-175, and CP72-185, a petition to amend the orders of the Commission issuing certificates of public convenience and necessity in said dockets pursuant to section 7(c) of the Natural Gas Act by authorizing the construction and operation of certain compression equipment different from that originally authorized, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner was authorized, inter alia, to install additional compression aggregating 12,000 horsepower at its St. John Compressor Station in the following dockets and manner:

Docket No.	Date of certificate	Horsepower authorization
CP72-147...	June 9, 1972 (47 FPC.....).	1 3,000 h.p. Unit.
CP72-175...	July 20, 1972 (48 FPC.....).	1-5,000 h.p. Unit.
CP72-185.....	do.....	1-4,000 h.p. Unit.

Petitioner requests authorization to install one 12,000 horsepower unit at its St. John Station in lieu of the three separate units. Petitioner states that the estimated cost of the one single unit is $3,073,967 in contrast to the estimated aggregate cost of $4,269,110 for the three units.

By Commission order in Docket No. CP70-21 on January 6, 1970 (43 FPC 11) Petitioner was authorized, inter alia, to develop its Croton Storage Field and in that connection install one 1,250 horsepower reciprocating compressor unit and one 2,500 horsepower reciprocating compressor unit in the further development of the Winfield Storage Field. Petitioner requests authorization to install two 1,250 horsepower units at its Winfield-Croton Compressor Station in lieu of the 1,250 horsepower unit authorized for the Croton Storage Field and one 2,500 horsepower unit authorized for the Winfield Storage Field. Petitioner states that the estimated cost of the two 1,500 horsepower units is $927,180, in contrast to the estimated aggregate cost of $2,516,240 of the two authorized units. Petitioner further states that as a result of engineering studies, it has determined that by installing compressor units for these two storage fields so that they can be used to service both fields, greater efficiency and flexibility can be achieved and the total horsepower required will be less.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before November 24, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB, *Secretary.*

[Project 619]

PACIFIC GAS AND ELECTRIC CO.

Notice of Application for Change in Land Rights

NOVEMBER 1, 1972.

Public notice is hereby given that application was filed on September 5, 1972, under the Federal Power Act (16 U.S.C. 791a–825r) by the Pacific Gas and Electric Co. (correspondence to: Mr. J. F. Roberts, Jr., Vice President—Rates and Valuation, Pacific Gas and Electric Co., 77 Beale Street, San Francisco, CA 94106) for a change in land rights for constructed Project No. 619, known as Bucks Creek project, located on Bucks, Grizzly, and Milk Ranch Creeks and their tributaries, all tributaries of the North Fork Feather River in Plumas County and Plumas National Forest, Calif.

The application seeks Commission approval to renew its leases with 71 lessees of existing recreation homesites at Bucks Lake within the Bucks Creek project. The present leases, some of which have been in effect since 1940, all terminate on December 31, 1972. Applicant states that no additional lands either inside or outside the project will be affected by the lease renewals.

Any person desiring to be heard or to make protest with reference to said application should on or before December 11, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Project 2310]

PACIFIC GAS AND ELECTRIC CO.

Notice of Application for Change in Land Rights

NOVEMBER 1, 1972.

Public notice is hereby given that application for approval of a change in land rights has been filed under the Federal Power Act (16 U.S.C. 791a–825r) by Pacific Gas and Electric Co. (Correspondence to: Mr. J. F. Roberts, Jr., Vice President,

V 37 N 216 NOV 8 1972 XUM

Rates and Valuation, Pacific Gas and Electric Co. 77 Beale Street, San Francisco, CA 94106), for the Drum Spaulding Project No. 2310, affecting land located in Placer County, Calif.

Applicant seeks Commission authorization to grant Mr. and Mrs. William J. Crabtree permission to link three access roads to the Drum Powerhouse road as it passes through their lots, Nos. 8, 15, and 16, located in Section 26, T. 16 N., R. 10 E., M.D.B. & M. In addition applicant seeks authorization to grant them a right-of-way over the same road where it lies on land owned in fee by applicant, located in N½SE¼ and SW¼SE¼ of Section 26, T. 16 N., R. 10 E., M.D.B. & M.

Applicant filed with the application a copy of the proposed agreement which provides that the Crabtree's use shall not endanger health, create a nuisance or otherwise be incompatible with overall project recreational use, in accordance with paragraph (C) of Commission Order No. 313 and that the rights granted shall be in effect only so long as Pacific Gas and Electric Co. is licensee for Project No. 2310. The proposed agreement also requires the Crabtrees to acknowledge the right of the licensee to use the Drum Spaulding road for project purposes.

Any person desiring to be heard or to make protest with reference to said application should on or before December 4, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7795]

PHILADELPHIA ELECTRIC CO.

Notice of Filing of Rate Schedule

NOVEMBER 2, 1972.

Take notice that on October 24, 1972, Philadelphia Electric Co. (Philadelphia), tendered for filing a rate schedule entitled "Wholesale Municipal Service to the Borough of Lansdale." The company states that Philadelphia is currently rendering electric wholesale service to the Borough of Lansdale (Lansdale) under a contract dated March 20, 1964, (FPC Rate Schedule No. 24) and that such contract provides for service up to a demand of 8,000 kw. The newly filed rate schedule is not contractual in form and is proposed to cover service in excess of 8,000 kw. demand.

The company recites that Philadelphia and Lansdale entered into a contractual agreement dated November 12, 1971, which provided for full service to Lansdale up to 29,000 kw. and that such contract was filed with the Commission as a change in rate and said filing was rejected by Commission order issued August 31, 1972. The company's instant filing is denominated a new-rate schedule and is tendered under sections 35.1 and 35.12 of the Commission's regulations under the Federal Power Act. The company further states that facilities for the enlarged service to Lansdale were completed by the company and energized on July 26, 1972, and requests that the proposed rate schedule be permitted to become effective upon less than 30 days notice for service rendered on and after September 1, 1972.

Any person desiring to be heard or to make any protest with reference to said application should, on or before, November 10, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

[Project No. 1894]

SOUTH CAROLINA ELECTRIC AND GAS CO.

Notice of Application for New License for Constructed Project

NOVEMBER 1, 1972.

Public notice is hereby given that application for new license has been filed July 26, 1972 under section 15 of the Federal Power Act (16 U.S.C. 791a–825r) by South Carolina Electric and Gas Co. (Correspondence to: Mr. George H. Fischer, Esq., Vice President and General Counsel, South Carolina Electric and Gas Co., Post Office Box 764, Columbia, SC 29202) for its constructed Project No. 1894, comprising the Parr Hydroelectric project, located on the Broad River in Newberry and Fairfield Counties, SC, affecting lands of the United States within the Sumter National Forest. In addition to an application for a new license, applicant is seeking (1) authorization to construct and include within the new license a pumped-storage project utilizing the existing Parr Reservoir enlarge to serve as the lower pool, and (2) authorization to use the upper reservoir of the pumped storage project as a cooling impoundment for a proposed nuclear electric power plant.

The Parr Hydroelectric project, the current annual license for which will expire on June 30, 1973, consists of (1) a 2,715-foot-long dam having a 35-foot-high 2,000-foot-long, concrete overflow section with a crest elevation of 257 feet, USC & GS, joined on the westerly end by an earth dike about 300 feet long and on the easterly end by a 300-foot-long integral powerhouse section, a 90-foot-long concrete non-overflow section, and a 25-foot earth-fill section; (2) a 1,850-acre reservoir having a controlled surface elevation of 257 feet, USC & GS, extending about 8½ miles upstream; (3) a steel-frame brick powerhouse containing six generators rated at 2,480 kw. each, and provisions for two additional units; and (4) all other facilities and interests in land appurtenant to operation of the project.

Applicant states that the existing Parr powerhouse structure and generating equipment will be retained, unaltered, as a part of the project. The existing Parr Dam will be raised in elevation approximately 9 feet. The enlarged reservoir will extend upstream for 13 miles, will have a usable storage volume of 29,000 acre-feet in a drawdown of 10 feet, and will provide capacity for 8 hours of continuous pumped-storage generation at 480 MW. The reservoir will continue to provide water power for operation of the existing Parr project and will serve as the lower pool of a proposed pumped-storage addition to the project (Fairfield pumped-storage facility).

The pumped-storage project will consist of the following works: (1) The enlarged Parr Reservoir; (2) a 6,800-acre upper pool (Monticello Reservoir) having a total capacity of 400,000 acre-feet at the 425-foot maximum pool elevation; (3) four random fill dams with a 434-foot crest elevation impounding Monticello Reservoir; (4) an intake channel, a gated intake structure, and four 26-foot diameter surface penstocks; (5) a semi-outdoor type generating station (Fairfield Powerhouse) housing eight generating units rated at 64,800 kilowatts, each (518,400 kilowatts, total); and (6) a switchyard, associated transmission lines, and all other facilities appurtenant to operation of the project.

The third part of this application is a request for authorization to use the upper reservoir of the pumped-storage project as cooling impoundment for a proposed nuclear electric power plant (AEC Docket No. 50-395). The Virgil C. Summer Nuclear Station to be located on the south shore of Monticello Reservoir will contain a single nuclear reactor and a single 900,000-kilowatt generator. Application for a license for this facility is pending before the Atomic Energy Commission in AEC Docket No. 50-395.

Applicant states that the capacity and electric energy developed by the Parr hydroelectric plant and the Fairfield pumped-storage facility will be fully utilized. The Parr hydroelectric plant

will continue to be operated as it has been since it was constructed in 1914.

The recreational use of Parr Reservoir at present consists of fishing and water fowl hunting. After proposed redevelopment, the enlarged 4,400-acre reservoir will have a daily fluctuation of 10 feet due to pumped-storage operation. The total presently contemplated recreational development of Parr Reservoir consists of a boat launching area adjacent to the crossing of Heller's Creek by County Road 28. Two parcels of land on the western shore totaling 188.5 acres and a 387-acre parcel between its eastern shore and Monticello Reservoir will be purchased for future recreational use.

Monticello Reservoir will fluctuate a maximum of 4.5 feet daily. Applicant plans to construct within the northernmost portion of Monticello Reservoir a separate 300-acre impoundment containing a public boat launching area with parking and sanitary facilities on land purchased for recreational purposes. A scenic overlook with an observation platform will be located on the eastern shore of Monticello Reservoir and will also contain parking, sanitary and picnic facilites. Altogether, 1082.5 acres of land will be purchased for future recreational use.

Any person desiring to be heard or to make protest with reference to said application should on or before January 8, 1973, file with the Federal Power Commission, Washington, DC 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-98]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Prehearing Conference and Postponement of Procedural Dates

NOVEMBER 1, 1972.

On October 31, 1972, Texas Eastern Transmission Corp. (Texas Eastern) filed a motion requesting that a prehearing conference be convened on November 10, 1972, to take action with respect to a Stipulation and Agreement, and that the submission of further evidence be postponed pending Commission action on the Stipulation and Agreement. The motion states that as a result of settlement conferences, Texas Eastern and substantially all of its customers have reached a Stipulation and Agreement in settlement of the issues in the captioned proceeding. A copy of the Stipulation and Agreement is to be mailed no later than November 1, 1972, to all of Texas Eastern's customers, interested State commissions and all parties of record.

Upon consideration, notice is hereby given that a prehearing conference will convene at 10 a.m., e.s.t., on Friday, November 10, 1972, in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, to take appropriate action with respect to the Stipulation and Agreement.

All procedural dates fixed by the order issued by the Chief Administrative Law Judge on October 3, 1972, are postponed pending further order.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-19144 Filed 11-7-72;8:47 am]

[Docket No. CP73-109]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Application

NOVEMBER 2, 1972.

Take notice that on October 20, 1972, Texas Eastern Transmission Corp. (Applicant), Post Office Box 2521, Houston, TX 77001, filed in Docket No. CP73-109 a budget-type application pursuant to section 7(c) of the Natural Gas Act and § 157.7(b) of the Commission's regulations thereunder for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1973, and operation of certain natural gas purchase facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas which will be purchased from producers in the general area of its existing system.

The total cost of the proposed facilities herein is not to exceed $7 million with no single onshore project exceeding $1 million. Applicant requests a waiver of § 157.7(b)(1)(ii) of the Commission's regulations to allow no single offshore project to exceed $2,500,000. Applicant states that this waiver is justified because a majority of the offshore facilities to be constructed under this requested authorization will be in deep water, where weather conditions severely limit the time periods during which construction can be safely undertaken.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 27, 1972, file with the Federal Power Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-59]

UNITED NATURAL GAS CO.

Notice of Proposed Change in Rates and Charges

NOVEMBER 2, 1972.

Take notice that on October 26, 1972, United Natural Gas Co. (United Natural) tendered for filing certain tariff sheets to be effective on December 1, 1972, and which are stated to contain a purchased gas adjustment clause (PGA) that is in conformity with Commission's Orders Nos. 452 and 452-A issued in Docket No. 406. United Natural requests waiver of the requirements of § 154.63 of the Commission's regulations under the Natural Gas Act as such relate to Statements O and P.

The company states that although the PGA provides for a 45-day notice period it may be necessary to ask for a shorter period since United Natural is a second and third tier pipeline.

Copies of the filing have been served upon the company's jurisdictional customers and interested State commissions.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 17, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the

XUM
V37-216-NOV 8 72 XUM

Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CS73-297, etc.]

CHARLES B. WILSON, JR., LTD. ET AL.

Notice of Applications for "Small Producer" Certificates [1]

NOVEMBER 1, 1972.

Take notice that each of the applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before November 27, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

ALLIED BANCSHARES, INC.

Order Approving Formation of Bank Holding Company

Allied Bancshares, Inc., Houston, Tex., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successors to the assets and liabilities of Conroe Bank, Conroe, Tex.; of Continental Bank, Houston, Tex.; and of Merchants Bank, Port Arthur, Tex. (hereinafter collectively referred to as "Banks"). The banks which will succeed to the assets and liabilities of Banks have no significance other than as a means to facilitate the acquisition of the assets and the assumption of liabilities of Banks. Accordingly, the proposed acquisition of shares of the successor organizations is treated herein as a proposed acquisition of the assets and assumption of liabilities of Banks.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none have been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant was recently formed for the purpose of acquiring Banks. Upon acquisition of Conroe Bank (deposits of $26 million), Continental Bank (deposits of $126 million), and Merchants Bank (deposits of $63 million), applicant would become the eighth largest multibank holding company in the State, controlling 0.7 percent of commercial bank deposits in the State. (Banking data are as of December 31, 1971, unless otherwise noted, and reflect holding company formations and acquisitions approved through August 21, 1972.)

Conroe Bank and Continental Bank are the 48th and ninth largest, respectively, of the 149 commercial banks operating in the Houston banking market, approximated by the five-county area constituting the Houston Standard Metropolitan Statistical Area (SMSA), and hold 0.4 and 1.79 percent, respectively, of deposits in commercial banks in that market. Merchants Bank is the fourth largest of 20 banks in the adjacent Beaumont-Port Arthur-Orange banking market, approximated by the Beaumont-Port Arthur-Orange SMSA, and holds 10 percent of deposits in commercial banks in this area.

Although Conroe Bank and Continental Bank operate in the same market, consummation of the proposed transactions would not appear to have a significant adverse effect upon existing competition between the two banks. A distance of approximately 40 miles separates the two banks and there are approximately eight banks located in the intervening area. Furthermore, there appears to exist a degree of affiliation between Conroe Bank and Continental Bank. Directors and officers of Applicant own approximately 25 percent of the shares of the former and 37 percent of the shares of the latter. The two chief officers of Continental Bank are both former directors of Conroe Bank and are consulted on items of major importance to Conroe Bank. Merchants Bank, located 90 miles east of Houston, does not appear to compete significantly with either Conroe Bank or Continental Bank. The Board concludes that consummation of the proposed transaction will not have a significantly adverse effect upon existing competition in either the Houston or Beaumont-Port Arthur-Orange banking markets.

Nor does it appear that consummation of the proposed transaction would foreclose the development of competition among Banks. Texas law effectively prohibits each of the three banks from establishing branch offices in the vicinity of the other two, and there appears to be little prospect for disaffiliation among Banks. In any case, neither Conroe Bank, nor Merchants Bank is of sufficient size to form its own independent bank holding company. Applicant's acquisition of Conroe Bank may be viewed as a "foothold" entry into the northern periphery of the Houston market. Although applicant's acquisition of Merchants Bank, in effect, represents entry by the ninth largest bank in the Houston market into an adjacent market, the acquisition should not have a significant adverse effect on

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

potential competition in the Beaumont-Port Arthur-Orange banking market. That market is not particularly attractive for entry as evidenced by only a slight gain in population over the past decade, consistently high rates of unemployment, and a population-per-banking-office ratio approximating the average ratio for all Texas SMSA's. Consummation of the proposal is expected to have a beneficial effect upon the development of competition in both the Houston and Beaumont-Port Arthur-Orange banking markets in that it would enhance the ability of Banks, none of which are dominant in their respective markets, to compete with major banks in those markets which are, or have proposed to become, subsidiaries of the three largest multibank holding companies in the State.

Applicant's financial condition, managerial resources, and future prospects are dependent upon those of its proposed subsidiary banks. The financial and managerial resources and future prospects of Banks are presently consistent with approval. Applicant will increase the capital levels of Conroe Bank and Continental Bank by purchasing subordinated debentures to be issued by those Banks. This infusion of debt capital lends slight weight toward approval, as does the benefit to the convenience and needs of the communities to be served that will derive from the increased flexibility inherent in a holding company structure. It is the Board's judgment that the proposed transaction is in the public interest and should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[1] effective October 31, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-19118 Filed 11-7-72;8:45 am]

CHASE MANHATTAN CORP.

Order Approving Acquisition of Bank

The Chase Manhattan Corp., New York, N.Y., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of Chase Manhattan Bank of Greater Rochester (National Association), Caledonia, N.Y.,[2] the successor by merger to Bank of Caledonia, Caledonia, N.Y. (Bank). Chase Manhattan Bank of Greater Rochester (National Association), Caledonia, N.Y., has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the second largest banking organization in New York in terms of domestic deposits, controls two subsidiary banks[3] with aggregate deposits of approximately $13.6 billion, representing 14.1 percent of the total deposits in commercial banks in the State. (Unless otherwise noted, deposit data are as of December 31, 1971, and market data are as of June 30, 1970, adjusted to reflect bank holding company formations and acquisitions approved by the Board through September 30, 1972.) Consummation of the proposal would not significantly increase applicant's share of deposits in the State.

Bank ($8.8 million in deposits) is the 10th largest of 16 banks in the Rochester banking market, controlling 0.5 percent of the deposits in that market. The nearest office of one of applicant's operating banking subsidiaries is approximately 320 miles southeast of Caledonia and there is no significant existing competition between this or any other of applicant's subsidiaries. Applicant's acquisition of Bank would have a procompetitive effect since Bank, with applicant's support, should compete more aggressively with the four largest banks in the market, all of which are affiliated with bank holding companies and control in the aggregate nearly 92 percent of area deposits. Consummation of the proposal would have no adverse effects on existing or potential competition nor would it have any adverse effect on any competing bank.

The financial and managerial resources and future prospects of applicant, its subsidiary banks and Bank are satisfactory and consistent with approval. The banking needs of the communities involved are being adequately met at present. However, applicant proposes to provide, through Bank, an alternative source of specialized banking needs. Therefore, considerations relating to convenience and needs lend some weight toward approval. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

Applicant owns two nonbanking subsidaries, Berkeley Service Corp., Boston, Mass., and Dovenmuehle, Inc., Chicago, Ill., which were acquired on June 4, 1969, and December 19, 1969, respectively. Berkeley Service Corp. is a service agency for the Shapiro Factors Division of The Chase Manhattan Bank, and Dovenmuehle, Inc., is a mortgage servicing company.

In making its determination herein, the Board has relied upon a finding that the combination of an additional subsidiary bank with applicant's existing nonbanking subsidiaries is unlikely to have an adverse effect upon the public interest at the present time. However, applicant's banking and nonbanking activities remain subject to Board review and the Board retains the authority to require applicant to modify or terminate its nonbanking activities or holdings if the Board at any time determines that the combination of applicant's banking and nonbanking activities is likely to have adverse effects on the public interest.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,[4] effective October 31, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

FIRST EMPIRE STATE CORP.

Order Approving Acquisition of Bank

First Empire State Corporation, Buffalo, N.Y., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to ac-

[1] Voting for this action: Chairman Burns and Governors Roberston, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

[2] Subsequent to publication of notice, applicant changed the name of the surviving bank from Chase Manhattan Bank of the Genesee Valley (National Association) to Chase Manhattan Bank of Greater Rochester (National Association).

[3] On August 10, 1972, the Board of Governors announced its approval of applicant's plan to acquire a third bank, Chase Manhattan Bank of Central New York (National Association), Syracuse, N.Y., a proposed new bank.

[4] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

V 37 • 216 NOV 8 72 XUM

quire all of the voting shares (less directors' qualifying shares) of the successor by merger to the First National Bank of Highland, Highland, N.Y. (Bank). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the 16th largest banking organization in New York, has two subsidiary banks with aggregate deposits of approximately $1.1 billion, representing 1.1 percent of the total deposits in commercial banks in the State.[1] Acquisition of Bank by applicant would increase its statewide share of deposits by only .1 percentage points and applicant would remain the 16th largest banking organization in New York. Bank is the fifth largest of 29 banks in the mid-Hudson banking market, which is approximated by Dutchess, Putnam, and Ulster Counties and the Newburgh area of Orange County. It has deposits of $63 million and controls approximately 6.6 percent of commercial deposits in that market.

The nearest subsidiary banking office of applicant to Bank is Empire-New York, New York City (Empire Bank), located approximately 60 miles away from Bank. Applicant's lead bank, Manufacturers and Traders Trust Company, Buffalo, N.Y. (M&T Bank), is located about 285 miles from Bank. Bank derives less than .1 percent of its loans and deposits from M&T Bank's and Empire Bank's services areas; and M&T Bank and Empire Bank derive no deposits and virtually no loans from Bank's service area. Accordingly, consummation of the proposed acquisition would not eliminate any significant existing competition.

Bank is located in the Third Banking District. Applicant's existing subsidiary banks are prohibited by State law, until 1976, from branching into that District. It does not appear likely that applicant would choose to enter Bank's market de novo because of the distance separating Bank from applicant's banks and the intense competition in Bank's market. Furthermore, Applicant's acquisition of Bank would have the precompetitive effect of removing home office protection from Highland, N.Y. Accordingly, no significant potential competition would be foreclosed upon consummation of this proposal. The financial and managerial resources and future prospects of applicant, its existing subsidiaries and Bank are generally satisfactory and consistent with approval.

Applicant proposes to offer new and improved services at Bank if this application is approved. Applicant would add increased capacity to service large corporate customers, expanded services to local governmental units, the development of international banking services, and the development of automated services, to the services Bank presently offers. Although there is no evidence that the banking needs of the communities to be served are not being adequately met at present, Bank would become an alternative competitive source for specialized banking services. Accordingly, considerations relating to the convenience and needs of the communities to be served are consistent with approval. It is the board's judgment that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (B) later than 3 months after the effective date of this order, unless such period is extended for good cause by the board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,[2] effective October 31, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[1] Deposit data are as of December 31, 1971. Market rank and share are as of June 30, 1970.

FIRST PENNSYLVANIA CORP.

Order Approving Acquisition of American Loan and Finance Company

First Pennsylvania Corp., Philadelphia, Pennsylvania, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the act and § 225.4(b)(2) of the Board's Regulation Y, to acquire the assets of American Loan and Finance Co. (Company), Hamilton, Ohio.

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 F.R. 22118). The time for filing comments and views has expired, and none has been timely received.

Applicant's banking subsidiary, First Pennsylvania Banking and Trust Co. (Bank), is the second largest bank in the State of Pennsylvania and the largest in the Philadelphia market area, with total deposits of $2.6 billion.[1] Applicant also has nonbanking subsidiaries engaged principally in mortgage banking, data processing, equipment leasing, investment advisory services, and consumer financing.

Company is engaged in the consumer finance business from 11 offices located in Ohio, two in Indiana and one in Virginia. Company has experienced a decline in its receivables outstanding and, as a result of a suit brought by the Securities and Exchange Commission, was placed in receivership in June 1970. From that date until August 1972, Company has been operated by a court-appointed Receiver. Proceedings have now been commenced under Chapter X of the Bankruptcy Act, and Company's Trustee, with the guidance of the U.S. District Court for the Eastern District of Virginia, has concluded that continued operation of Company is not in the best interests of its creditors. Company's activities are consistent with the kinds of activities determined by the Board to be closely related to banking (12 CFR 225.4(a)(1)).

Although both Applicant and Company are engaged in the consumer finance business, consummation of the proposed acquisition would not have any significant adverse effect on existing competition. Elimination of Company as an alternative source of personal loans would have but minimal competitive effect due to the number of finance companies and banks presently competing for such loans in the respective markets. Nor does it appear that consummation of the proposed acquisition would have any adverse effect on potential competition or on credit availability to independent finance companies in any relevant area.

There is no evidence in the record indicating that consummation of the proposed transaction would result in any undue concentration of resources, unfair competition, unsound banking practices, or other adverse effects on the public interest. It is anticipated that Company's affiliation with Applicant will provide the capital and management strength to restore the 14 offices of Company to a viable competitive position. The resulting increased competition and gains in efficiency will add materially to the convenience and needs of the public.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

[2] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

[1] Banking data as of June 30, 1972.

By order of the Board of Governors,[3] effective October 31, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-19121 Filed 11-7-72;8:45 am]

NORTHERN VIRGINIA BANKSHARES INC.

Proposed Acquisition of Falls Church Mortgage Corporation

Northern Virginia Bankshares Inc., Arlington, Va., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Falls Church Mortgage Corporation, Falls Church, Va. Notice of the application was published on October 23, 1972, in The Evening Star and Daily News, a newspaper circulated in Washington, D.C.

Applicant states that the proposed subsidiary would engage in the activities of a mortgage company by: (1) Originating and servicing loans as principal; (2) originating loans as principal for sale to investors and servicing of such loans after such sale; (3) servicing loans not originated as principal for nonaffiliated individuals, partnerships and corporations; and (4) incidental activities related to the mortgage business. In addition, Falls Church Mortgage Corporation would engage de novo in: (1) Originating loans as agent; (2) servicing loans for subsidiaries of Northern Virginia Bankshares Inc.; and (3) the sale, as agent, of credit life, credit disability, mortgage redemption, and mortgage cancellation insurance in connection with credit transactions. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

In addition, the application indicates that Falls Church Mortgage Corporation owns real property located at 701 West Broad Street, Falls Church, VA., which Northern Virginia Bankshares Inc. states it plans to use for its operations at such times as present leases of the property permit. Substantially all of the property is expected to be occupied by applicant to commence within 5 years. Falls Church Mortgage Corporation also owns real property located at 107 and 111 South Lee Street, Falls Church, VA.

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than November 27, 1972.

Board of Governors of the Federal Reserve System, October 31, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

AMERICAN FLETCHER CORP.

Proposed Acquisition of Credit Card Operations of Economy Finance Corp., Known as Shoppers Charge Service and Custom Services

American Fletcher Corp., Indianapolis, Ind., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire assets of Shoppers Charge Service, Inc. (Cincinnati), of Shoppers Charge Service, Inc. (St. Louis), of Shoppers Charge Service, Inc. (Minnesota), of Houston Shoppers Charge Service, of Shoppers Charge division of Indianapolis Morris Plan Corp., and of Custom Services division of Shoppers Charge division of Indianapolis Morris Plan Corp., each of which is presently a subsidiary of Economy Finance Corp., Indianapolis, Ind. Notice of the application was published on September 15, 1972, in the Houston Post, a newspaper circulated in Houston, Tex.; on September 13, 1972, in the Indianapolis Star, a newspaper circulated in Indianapolis, Ind.; on September 13, 1972, in the Minneapolis Star and Minneapolis Tribune, newspapers circulated in Minneapolis, Minn.; on September 14, 1972, in the Cincinnati Enquirer, a newspaper circulated in Cincinnati, Ohio; and on September 12, 1972, in the St. Louis Globe-Democrat, a newspaper circulated in St. Louis, Mo.

Applicant states that the proposed subsidiary would engage in the activities of issuing mercantile credit cards to individuals and purchasing from merchants, and servicing, the accounts receivable, arising out of credit sales of merchandise to persons who use the credit cards in making purchases. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

INTERNATIONAL JOINT COMMISSION—UNITED STATES AND CANADA

POLLUTION OF LAKE SUPERIOR AND POLLUTION OF THE GREAT LAKES SYSTEM FROM LAND USE ACTIVITIES

Notice of Public Hearings

The International Joint Commission has been requested by the Governments of Canada and the United States to conduct a study of water quality in Lake Huron and Lake Superior in light of the provisions of the 1909 Boundary Waters Treaty which provides that boundary waters shall not be polluted on either side to the injury of health or property on the other and in light also of the Canada-United States Water Quality Agreement of April 15, 1972. The Commission has also been requested to conduct a study of pollution of the boundary waters of the Great Lakes System from agricultural, forestry, and other land use activities. The complete text of these two references to the Commission may be obtained from the Secretaries of the Commission at the addresses shown hereunder.

The Commission, in accord with its rules of procedure, will hold the first two of a series of preliminary public hearings at the times and places noted below for the purpose of receiving information relevant to the subject matter of the studies. At the hearing opportunity will be given to anyone either on their own behalf or in a representative capacity to offer pertinent information and views on the above subjects which may assist the Commission or its technical advisers. Statements may be made orally or in writing. If written statements are submitted, it is requested that, if possible, 30 copies be provided for Commission use. Additional copies may be deposited with the Secretaries at the hearing for the news media and others present.

Tuesday, December 5, 1972, 9:30 a.m., local time, auditorium, Mary J. L. Black Library, 1571 Brock Street W., Thunder Bay, ON.

Thursday, December 7, 1972, 9:30 a.m., local time, the Great Hall, Radisson Duluth Hotel, 505 West Superior Street, Duluth, MN.

OFFICE OF EMERGENCY PREPAREDNESS

ALFRED A. HAHN

Notice of Appointment as Federal Coordinating Officer

Notice is hereby given that pursuant to the authority vested in me by the President under Executive Order 11575, December 31, 1970 (36 F.R. 37, January 5, 1971), to administer the Disaster Relief Act of 1970 (Public Law 91-606, 84 Stat. 1744), I hereby appoint Alfred A. Hahn as Federal Coordinating Officer to perform the duties specified by section 201 of that Act for Virginia disaster No. 358 with date of declaration, October 7, 1972, effective November 3, 1972.

This notice changes my designation of October 7, 1972 (37 F.R. 21668, October 13, 1972), with respect to the same disaster listed, naming Francis X. Carney as Federal Coordinating Officer.

Dated: November 3, 1972.

G. A. LINCOLN,
Director,
Office of Emergency Preparedness.

SECURITIES AND EXCHANGE COMMISSION

[812-3300]

BACHE & CO. INC.

Notice of Filing of Application for an Order of Exemption

OCTOBER 31, 1972.

Notice is hereby given that Bache & Co. Inc., a registered broker-dealer corporation with its principal office at 100 Gold Street, New York, NY 10038 (Applicant), in connection with a proposed public offering of shares of Common Stock of Vestaur Securities, Inc. (Company), a diversified, closed-end management investment company registered under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 6(c) of the Act for an order of the Commission exempting Applicant and its co-underwriters from section 30(f) of the Act to the extent that such Section adopts section 16(b) of the Securities Exchange Act of 1934 (the Exchange Act) with respect to their transactions incidental to the distribution of Company shares. All interested persons are referred to the Application on file with the Commission for a statement of the representations therein, which are summarized below.

Applicant and Harris, Upham & Co. Inc., 120 Broadway, New York, NY 10005, are the prospective representatives (the Representatives) of a group of underwriters (the Underwriters) being formed in connection with the above public offering.

Shares of the Company are to be purchased by the Underwriters pursuant to an Underwriting Agreement (the Underwriting Agreement) to be entered into between the Underwriters, represented by the Representatives, and the Company. It is also contemplated that one or more dealers will offer and sell certain of the shares. It is intended that the several Underwriters will make a public offering of all the Company shares which such Underwriters are to purchase under the Underwriting Agreement at the price therein specified, as soon on or after the effective date of the Company's Registration Statement on Form S-4 (the Registration Statement) as the Representatives deem advisable, and such shares are initially to be offered to the public at a per share public offering price and subject to underwriting commissions to be specified in the prospectus (the Prospectus) at the time the Registration Statement becomes effective under the Securities Act of 1933, as amended. Although 5,500,000 shares have been included for registration in the Registration Statement, the actual number of shares which may be the subject of the proposed public offering may be decreased by the Representatives and the Company shortly before the effective date of the Registration Statement and the proposed public offering, depending upon market conditions and the exercise of an overallotment election granted to the Underwriters.

Applicant states that it is possible that the underwriting commitment of any one or more of the Underwriters, including each of the Representatives, will exceed 10 percent of the aggregate number of shares of the Company's common stock to be outstanding after the purchase by the several Underwriters pursuant to the Underwriting Agreement or upon the completion of the initial public offering or at some interim time. Since section 30(f) of the Act subjects every person who is directly or indirectly the beneficial owner of more than 10 percent of any class of outstanding securities of the Company to the same duties and liabilities as those imposed by section 16 of the Exchange Act with respect to the transactions in the securities of the Company, such Underwriter or Underwriters would become subject to the filing requirements of section 16(a) of the Exchange Act and, upon resale of the shares purchased by them to their customers, subject to the obligations imposed by section 16(b) of the Exchange Act.

Rule 16b-2 under the Exchange Act exempts certain transactions in connection with a distribution of securities from the operation of section 16(b) thereof. Applicant states that the purpose of the purchase of the shares by the Underwriters will be for resale in connection with the initial distribution of the shares. Applicant also states that such purchases and sales, therefore, will be transactions effected in connection with a distribution of a substantial block of securities within the purpose and spirit of Rule 16b-2.

Applicant further states that it is possible that one or more of the Underwriters, through their participation in the distribution of the Company's shares, may not be exempted from section 16(b) of the Exchange Act by the operation of Rule 16b-2; they may fail to meet the requirement stated in Rule 16b-2(a)(3) that the aggregate participation of persons not within the purview of section 16(b) of the Exchange Act be at least equal to the participation of persons receiving the exemption under Rule 16b-2 since it is possible that one or more of the Underwriters who, pursuant to the Underwriting Agreement, will purchase more than 10 percent of the shares of the Company may be obligated to purchase more than 50 percent of the shares of the Company being offered.

In addition to purchases of shares from the Company and sales of shares to customers, there may be the usual transactions of purchase or sale incident to a distribution such as stabilizing purchases, purchases to cover overallotments or other short positions created in connection with such distribution, and sales of shares purchased in stabilization.

Applicant states that there is no inside information in existence since the Company, prior to the initial distribution of the shares, will have no assets, other than cash, or business of any sort, and all material facts with respect to the Company will be set forth in the Prospectus pursuant to which the shares will be offered and sold. Except for John C. Jansing, who is a senior vice president and director of the Applicant and a director of the Company, no director or officer of the Applicant or Harris, Upham & Co. Inc., is a director or officer of either the Company or Vestaur Corp., the Company's investment adviser (the Adviser), and Applicant states that it does not anticipate that any partner, director or officer of any other underwriter or selected dealer, except for Paul B. Fay, Jr., who is a director of the Company and a vice president of William Hutchinson & Company, which may be an underwriter, will be a director or officer of the Company or the Adviser.

Applicant submits that the requested exemption from the provisions of section 30(f) of the Act is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicant further contends that the transactions sought to be exempted cannot lend themselves to the practices section 16(b) of the Exchange Act and section 30(f) of the Act were enacted to prevent.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any person, security or transaction, or any class or classes of persons, securities, or transactions from any provision of the Act and Rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than November 20, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the Application herein may be issued by the Commission upon the basis of the information stated in said Application, unless an order for hearing upon said Application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

BOSTON PERSONAL PROPERTY TRUST

Notice of Filing of Application for Order of Act Declaring Company Has Ceased To Be an Investment Company

OCTOBER 31, 1972.

Notice is hereby given that Boston Personal Property Trust (Applicant) c/o State Street Bank and Trust Co., Post Office Box 351, Boston, MA 02101, a Massachusetts business trust registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant states that on September 29, 1972, it transferred all of its assets, consisting of portfolio securities and cash, except for a cash reserve of $1,000, to Consolidated Investment Trust (Consolidated), also an investment company registered under the Act, in exchange for 1,518,338 shares of Consolidated, pursuant to an agreement and plan of reorganization dated May 16, 1972, between the Applicant and Consolidated. Applicant also states that on September 29, 1972, it delivered said 1,518,338 shares of Consolidated to its custodian bank, State Street Bank and Trust Co. (the Bank), as liquidating agent and depositary pursuant to a liquidation agreement dated September 29, 1972, between the Applicant and the Bank, with instructions to distribute said shares of Consolidated to the Applicant's shareholders pro rata, and the Applicant also delivered said $1,000 to the Bank as such liquidating agent and depositary.

Applicant further states that its trustees have voted that the Applicant be

XUM
V 37 ▪ 216 NOV 8 72 V
XUM

dissolved and terminated, and said transfer of assets and dissolution and termination have been authorized by the written consent of more than three-fourths in interest of the shareholders of the Applicant as required by the declaration of trust under which the Applicant is organized.

Applicant represents that it has paid or made provision for the payment of all its liabilities, including unclaimed dividends and other distributions, and by delivery of the Consolidated shares and cash to the Bank on September 29, 1972, the Applicant has divested itself of all of its remaining assets, and since that date has held no assets and has conducted no business. Accordingly, the Applicant asserts that it has ceased to be an investment company within the meaning of the Act.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than November 24, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing thereon shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

BROWN FUND OF HAWAII, LTD. AND BROWN GROWTH-INCOME FUND, INC.

Notice of Filing of Application for Order Exempting Proposed Transaction

OCTOBER 31, 1972.

Notice is hereby given that the Brown Fund of Hawaii, Ltd. (Brown Fund) and the Brown Growth-Income Fund, Ltd. (BGIF) (hereinafter collectively called Applicants), 915 Fort Street, Suite 1100, Honolulu, HI 96813, have filed an application pursuant to section 17(b) of the Investment Company Act of 1940 (Act) for an order exempting from the provisions of section 17(a) of the Act a proposed sale of assets by BGIF to the Brown Fund in exchange for shares of common stock of the Brown Fund. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicants are each Hawaiian corporations registered as diversified open-end management investment companies under the Act. They have substantially similar investment objectives and directors and share the same officers and investment adviser.

Applicants have entered into an Agreement and Plan of Reorganization (Agreement) which provides for the sale of the assets of BGIF to Brown Fund pursuant to the laws of Hawaii in exchange for shares of the common stock of Brown Fund and for the subsequent distribution of Brown Fund common shares to BGIF's shareholders upon the liquidation of BGIF, Brown Fund will assume none of the liabilities of BGIF. The proposed sale of assets will constitute a tax-free reorganization and no gain or loss will be recognized by Applicants as a result of the merger.

Approval of the sale of assets and liquidation by BGIF requires the affirmative vote of the holders of three-quarters of the outstanding shares of BGIF. If the transaction is approved, it is anticipated that the transaction will be completed by December 31, 1972, and as soon after the date of the shareholders' meeting as practicable.

The number of shares of Brown Fund to be issued to BGIF will be determined on the basis of relative net asset values per share on the day prior to the sale of assets. For this purpose the net asset value of each Applicant's common stock will be adjusted by deducting an amount equal to 10 percent of the net realized capital gains (or adding an amount equal to 10 percent of any net realized capital loss) on investments and 6½ percent of the net unrealized appreciation (or adding an amount equal to 6½ percent of any net unrealized depreciation) on investments.

If the valuation under the Agreement had taken place on September 29, 1972, the adjustment to BGIF's and the Brown Fund's net assets respectively would have been an addition of $1,335 and a deduction of $30,375, so that the net asset values of BGIF and Brown Fund as adjusted would have been respectively $186,791 and $6,673,801.

Applicants state that since the board of directors of Applicants are identical, Applicants might be deemed to be under "common control" and each of the Applicants might be deemed an "affiliated person" of the other under the definition of "affiliated person" set forth in section 2(a)(3) of the Act.

Section 17(a) of the Act, as here pertinent, provides that it is unlawful for any affiliated person of a registered investment company knowingly to sell to or purchase from such registered investment company any security or other property except securities of which the investment company is the issuer, unless the Commission upon application grants an exemption from such prohibitions pursuant to section 17(b) of the Act after finding that the terms of the proposed transaction are fair and reasonable and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

Applicants represent that the terms of the proposed transaction have been considered by the Board of Directors of each Applicant and that each Board has determined that such terms are fair and reasonable and do not involve overreaching with respect to any party and that the proposed transaction is consistent with the policy of each Applicant and with the general purposes of the Act.

Notice is further given that any interested person may, not later than November 21, 1972 at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reasons for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued upon the basis of the information stated in said application, unless an order for hearing upon

said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulations, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

DART INDUSTRIES INC.

Notice of Application and Opportunity for Hearing

NOVEMBER 1, 1972.

Notice is hereby given that Dart Industries Inc. (Dart) has filed an application under clause (ii) of section 310(b)(1) of the Trust Indenture Act of 1939 (the Act) for a finding by the Securities and Exchange Commission (Commission) that the trusteeship of Morgan Guaranty Trust Co. of New York (Morgan Guaranty) under an indenture dated as of July 15, 1972 (the Domestic Indenture), which was qualified under the Act, and the trusteeship of Morgan Guaranty under an indenture dated as of August 16, 1972 (the Eurodollar Indenture), which has not been qualified under the Act, is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify Morgan Guaranty from acting as Trustee under the Domestic Indenture.

Section 310(b) of the Act provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest (as defined in such section), it shall within 90 days after ascertaining that it has such conflicting interest either eliminate such conflicting interest or resign. Subsection (1) of such section provides that with certain exceptions a trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture under which any other securities of the same issuer are outstanding. However, under clause (ii) of subsection (1), there may be excluded from the operation of this provision another indenture under which other securities of the issuer are outstanding, if the issuer shall have sustained the burden of proving, on application to the Commission and after opportunity for hearing thereon, that trusteeship under such qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as trustee under both indentures.

Dart alleges that:

(1) As of August 17, 1972, it had outstanding $60 million principal amount of its 4¼ percent Subordinated Debentures due July 15, 1997 (the Domestic Debentures), under the Domestic Indenture.

(2) On August 17, 1972, it issued under the Eurodollar Indenture and sold $20 million principal amount of its 4¾ percent Subordinated Debentures due August 15, 1987 (the Eurodollar Debentures), to underwriters who agreed that: (i) Except for sales to underwriters and securities dealers who purchased for distribution in conformity with the agreement, they would not directly or indirectly offer or sell any Eurodollar Debentures in the United States (including its territories, possessions and all areas subject to its jurisdiction) or to United States or Canadian persons including corporations organized under the laws of the United States or Canada or any political subdivision of either and (ii) each purchaser of Eurodollar Debentures from the underwriters who is not a retail purchaser would agree that it is purchasing such debentures as principal and not for reoffering in the United States, or to United States or Canadian persons. The Eurodollar Debentures were not registered under the Securities Act of 1933, as amended (the 1933 Act), nor was the Eurodollar Indenture qualified under the Trust Indenture Act of 1939, as amended (the Act).

(3) The Domestic Indenture and the Eurodollar Indenture are wholly unsecured. All debentures issued under the Domestic Indenture rank equally with the Eurodollar Debentures. Except for variations as to amounts and interest rates, maturity dates, places, and dates of payment of principal and interest, redemption procedures, redemption dates, redemption prices, and exchange rates, there are no material variations between the Indentures except that

(a) Additional interest will be paid in respect of the Eurodollar Debentures, under certain circumstances, in the event of withholding for or on account of U.S. income taxes.

(b) Certain provisions required by the Act are not contained in the Eurodollar Indenture.

(4) Such differences as exist between the Domestic Indenture and the Eurodollar Indenture are not so likely to involve a material conflict of interest as to make it necessary in the public interest

V 37 • 216 NOV 8 72 XUM

or for the protection of investors to disqualify Morgan Guaranty from acting as trustee under both indentures.

Dart has waived notice of hearing, hearing and any and all rights to specify procedures under the rules of practice of the Securities and Exchange Commission.

For a more detailed account of the matters of fact and law asserted, all persons are referred to said application, which is a public document on file in the offices of the Commission at 500 North Capitol Street NW., Washington, DC 20549.

Notice is further given that any interested person may, not later than November 23, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of law or fact raised by such application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and the interest of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

MIDDLE SOUTH UTILITIES, INC., AND ARKANSAS POWER & LIGHT CO.

Notice of Proposed Issue and Sale of First Mortgage Bonds and Preferred Stock at Competitive Bidding and of Common Stock to a Holding Company

OCTOBER 31, 1972.

Notice is hereby given that Middle South Utilities, Inc. (Middle South), 280 Park Avenue, New York, New York 10017, a registered holding company, and its electric utility subsidiary company, Arkansas Power & Light Co. (Arkansas), Ninth and Louisiana Streets, Little Rock, Ark. 72203, have filed an application-declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a), 6(b), 9(a), 10, and 12(f) of the Act and Rules 23, 24, 43, and 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Arkansas proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 promulgated under the Act, $15 million principal amount of its first mortgage bonds, ____ percent series due December 1, 2002 (Bonds). The interest rate on the Bonds (which will be a multiple of one-eighth of 1 percent and the price, exclusive of accrued interest, to be paid to Arkansas (which will be not less than 100 percent nor more than 102¾ percent of the principal amount thereof) will be determined by the competitive bidding. The Bonds will be issued under Arkansas' mortgage and deed of trust dated as of October 1, 1944, to Morgan Guaranty Trust of New York and John W. Flaherty, as successor trustees, as heretofore supplemented and as to be further supplemented by a 23d supplemental indenture to be dated as of December 1, 1972, which includes a prohibition until December 1, 1977, against refunding the Bonds, directly or indirectly, with the proceeds of funds borrowed at a lower effective interest cost.

Arkansas also proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 promulgated under the Act, 200,000 shares of a new series of its cumulative Preferred Stock, $100 par value (Preferred Stock). The Preferred Stock is to be created by appropriate corporate action and, except as to designation, dividend rate, the date from which dividends commence to accumulate, redemption premiums and the terms and conditions of redemption, is to have the same characteristics as, and rank pari passu with, the presently outstanding preferred stock of Arkansas. The dividend rate of the Preferred Stock (which will be a multiple of 1/25th of 1 percent) and the price (which shall be not less than $100 nor more than $102.75 per share) will be determined by the competitive bidding. The terms of the Preferred Stock will include a prohibition until April 1, 1977, against refunding the Preferred Stock, directly or indirectly, with funds obtained from the issuance of debt securities at a lower effective interest cost or from the issuance of other stock which ranks prior to or on a parity with the Preferred Stock as to dividends or assets, at a lower effective dividend cost.

Arkansas proposes to use the net proceeds from the sale of the Bonds and Preferred Stock for the payment of bank loans and commercial paper indebtedness approximating $35 million incurred or estimated to be incurred prior to the completion of the proposed financing to finance its construction program.

Arkansas further proposes to issue and sell, and Middle South proposed to purchase, 800,000 shares of Arkansas' presently authorized and unissued Common Stock (Additional Common Stock) at a price of $12.50 per share, or $10 million in aggregate. Concurrently with the issuance and sale of the Additional Common Stock, Arkansas proposes to declare a cash dividend of $10 million on the outstanding shares of its common stock, all of which is presently owned by Middle South. Taken together, the purchase of Additional Common Stock and the declaration of a cash dividend will have the effect of converting $10 million of Arkansas' earned surplus into capital, and increasing Middle South's investment in Arkansas by a like amount.

Fees and expenses incident to the proposed transactions are estimated at $68,000 for the Bonds (including auditors' fees of $4,500, and counsel fees of $19,000); and $59,000 for the Preferred Stock (including legal fees of $19,000 and auditors' fees of $3,000). The fees of counsel for the successful bidders are estimated at $7,000 in respect of the Bonds and $7,000 in respect of the Preferred Stock; these fees, together with counsel's out-of-pocket expenses, will be paid by such bidders.

The filing states that the Arkansas Public Service Commission and the Tennessee Public Service Commission have authorized the issuance and sale of the Bonds, Preferred Stock, and Additional Common Stock; and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than November 22, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permited to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.72-19081 Filed 11-7-72;8:50 am]

[812-3246]

NARRAGANSETT CAPITAL CORP.

Notice of Filing of Application for Order Exempting Transactions From Provisions and Permitting Transactions

NOVEMBER 1, 1972.

Notice is hereby given that Narragansett Capital Corp. (Narragansett), 40 Westminister Street, Providence, RI 02903, a Rhode Island corporation registered as a closed-end, nondiversified, management investment company under the Investment Company Act of 1940 (Act) and licensed as a small business investment company under the Small Business Investment Act of 1958, has filed an application pursuant to section 17(b) of the Act and Rule 17d–1 thereunder for an order exempting from the provisions of section 17(a) and permitting under Rule 17d–1, the sale by Bevis Industries, Inc. (Bevis) of (i) the assets, subject to certain of the liabilities of its subsidiary, Newman-Crosby Steel Co. (Old NC), to Newman-Crosby, Inc. (New NC) and (ii) an adjoining parcel of approximately 8 acres of land in Pawtucket, Rhode Island, to Business Development Company of Rhode Island (BDC) which will lease said 8-acre parcel to New NC. All interested persons are referred to the application on file with the Commission for a statement of Applicant's representations which are summarized below.

BACKGROUND

In March, 1972, Bevis, a company controlled by Narragansett, transferred the assets of its Newman-Crosby Steel Co. division (the Newman-Crosby business), except for approximately 8 acres of land in Pawtucket, Rhode Island, adjacent to Newman-Crosby's plant (the Pawtucket Land), to a newly formed subsidiary of Bevis (i.e., Old NC). In June, 1972, a new corporation i.e., New NC was formed by certain management personnel (the Management Group), which owns 50 percent of the equity of New NC, purchased at $150,000.

BDC is a State development corporation specially chartered by the legislature of Rhode Island to enhance existing business or attract business to the State of Rhode Island.

Pursuant to a purchase and sale agreement entered into on June 30, 1972 (the Agfeement) New NC will purchase all of the tangible assets, property and business of Old NC of every kind and description wherever located, as of the closing date, with such changes as shall have occurred in the ordinary course of Old NC's business between May 31, 1972, and the closing date. On the closing date Bevis agrees to sell and deliver to BDC a deed for the Pawtucket Land.

The purchase price will be paid in cash and is the net worth of Old NC as of May 31, 1972, less $900,000 plus an amount computed on such price at an annual rate of 6 percent for the period June 19, 1972 through the closing date. The net worth of Old NC on May 31, 1972, was $2,474,757. The purchase price for the Pawtucket Land sold to BDC by Bevis is to be $200,000. BDC will lease the land to New NC at an annual rental of $20,000.

Industrial National Bank of Rhode Island (Bank) has agreed to lend New NC $1 million on a first mortgage loan basis for a 5-year term, subject to execution of a loan agreement. The loan is repayable at a rate of not less than $100,000 a year during the term. The Bank will also extend a $200,000 line of credit for working capital purposes to the new corporation.

Applicants allege that during the course of negotiations with a nonaffiliated potential purchaser, it was determined by the parties, including the Bank and BDC, that the value of the assets of Old NC, not including the Pawtucket Land, for the purpose of a possible sale, was $900,000 less than the net book value and such amount, as noted above, has been deducted to arrive at the sale price.

BDC is also purchasing for $150,000 one-half of the equity of New NC. This purchase will entitle BDC to equal representation on New NC's Board of Directors. New NC will have the right to repurchase BDC's shares before BDC can sell them to an outsider and may also purchase the shares after 5 years but prior to 10 years from the closing of the Agreement at a price of $300,000 or their audited book value, whichever is higher, provided all of New NC's debt to BDC has been paid in full. BDC has also agreed to lend New NC $600,000 in exchange for a 10-year note subordinated only to the bank loan described above and secured by a second lien on New NC's assets. The loan will bear interest at the rate of 4 percent over the prime rate but not less than 10 percent nor more than 12 percent per annum, payable monthly.

The obligations of BDC were contingent upon the execution of the Agreement, and are contingent upon the commitment by the Bank of the first mortgage loan described above and the successful negotiation of an agreement with the United Steel Workers Union satisfactory to BDC.

The business of Bevis consists primarily of selling a variety of articles through direct mail selling, principally through catalogs prepared by Bevis. Beginning with the sale of its Masslite Division (a manufacturer of building materials) on March 25, 1971, Bevis has sought to concentrate its efforts in the field of merchandising consumer items. On August 17, 1971, Bevis sold its Marshall & Williams Division, a manufacturer of textile and thermoplastic tentering equipment and related machinery. The application alleges that the transactions described herein represent the last step divesting Bevis of its businesses unrelated to consumer oriented operations.

Narragansett now holds directly 836,952 shares, or approximately 46.3 percent of the outstanding shares of common stock of Bevis. This amount does not include 356,246 shares of Bevis stock (including 161,227 shares in escrow) which may be payable to Narragansett in 1973 contingent upon future earnings of the Casper Division of Bevis. Narragansett's aggregate investment at March 31, 1972, in Bevis was $1,260,016. The value of this investment on that date as determined by the board of directors of Narragansett was $1,260,016. Following the consummation of the transactions described herein, neither Narragansett nor any of its affiliates will have any interest in New NC.

Affiliates of Narragansett, specifically some of its officers and directors, hold shares of Bevis common stock. Some of the directors of Bevis who approved the transaction with New NC and BDC, are also officers and directors of Narragansett, and hold shares of Narragansett common stock. None of the persons own or will own any of the equity of New NC.

The members of the Management Group, who will own 50 percent of the equity of New NC are affiliates of an affiliate of Narragansett by virtue of being employees of Bevis. Certain of these management personnel hold shares of stock of Bevis and Narragansett as set forth in the application. Following the consummation of the transactions described herein none of the Management Group will have any affiliation with either Bevis or Narragansett, other than the shareholdings indicated.

Royal Little is chairman of the executive committee and a director of Narragansett and chairman of the board and a director of Bevis. Harvey J. Sarles is president and a director of Narragansett and vice-chairman and a director of Bevis. Robert S. Davis is the secretary of both Narragansett and Bevis.

Messrs. Little and Sarles are members of the board of directors and the executive committee of BDC, and Mr. Sarles is chairman of the board (but not the chief executive officer) of BDC. BDC is controlled by its members, who elect 11 of the 21 members of the board of directors and four of the seven members of the executive committee. The members are all financial institutions which, the application alleges, are independent of control or influence by Narragansett. The chairman of the executive committee, which makes investment decisions for BDC, is John J. Cummings, Jr., president of the Bank, which is a member of BDC. The stockholders of BDC elect the balance of the board and executive committee. Messrs. Little and Sarles represent stockholders on these bodies. The stockholders are businesses, charitable institutions and private investors, all of whom are independent of Narragansett. Messrs. Little and Sarles did not participate in the voting on the approval of the transactions described herein by the Board of Directors of either Bevis or BDC. Mr. John J. Cummings, Jr., also

XUM
V 37 N 216 NOV 8 72
XUM

did not vote on the approval of the proposal when it was considered by the executive committee of BDC.

COMMISSION JURISDICTION

Narragansett is a registered investment company, Bevis, a controlled portfolio company, is an affiliated person of Narragansett. Old NC, a subsidiary of Bevis, is its affiliate, and the Management Group within 6 months prior to the closing will have been affiliates of Old NC, and will be affiliates of New NC at the closing. Thus, New NC is indirectly affiliated with Narragansett. As Bevis and Old NC may also be deemed to be controlled by Narragansett, section 17(a) may be deemed to prohibit the purchase by New NC of the assets of Old NC and the Pawtucket Land. As here pertinent, section 17(a) provides that it shall be unlawful for any affiliated person of a registered investment company, or any affiliated person of such a person, knowingly to purchase from any company controlled by such registered company, any security or other property (except securities of which the seller is the issuer).

Section 17(b) of the Act permits a registered investment company to file an application with the Commission for an order exempting a transaction from the provisions of section 17(a). Pursuant to section 17(b), the Commission shall grant an exemption if the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned; the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the Act; and the proposed transaction is consistent with the general purposes of the Act.

As Bevis and Old NC are companies controlled by Narragansett, and New NC, an indirect affiliate of Narragansett are participating in the same transaction, the proposed transaction may be deemed to be prohibited by section 17(d) of the Act and Rule 17d–1 thereunder.

Taken together the section and rule provide, as here pertinent, that it shall be unlawful for an affiliated person of a registered investment company or any affiliated person of such person, acting as principal, to participate in, or to effect any transaction in connection with any joint enterprise or other joint arrangement in which such registered company, or a company controlled by such registered company, is a participant unless an application regarding such arrangement has been granted by the Commission. In passing upon an application, the Commission must consider whether the participation of such registered company or controlled company in such arrangement is consistent with the provisions, policies and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

Narragansett seeks an exemption from section 17(a) and an order under section 17(b) and Rule 17d–1 under the Act to the extent they may be applicable to the proposed sale of the assets of Old NC and the Pawtucket Land to New NC.

SUPPORTING STATEMENTS

Narragansett contends that the proposed transactions, including the consideration to be paid or received, (i) are reasonable and fair and do not involve overreaching on the part of any person concerned as the terms are more favorable and at a higher purchase price than the terms that Bevis was able to obtain from unaffiliated persons and as Little and Sarles took no part in the determination by the board of BDC to enter into the financing; (ii) are consistent with the policy of Narragansett as recited in its registration statement and reports filed under the Act as it believes the sale of the assets of Old NC and the concentration of Bevis in consumer-oriented fields would result in greater profitability for Bevis and thus in the appreciation of Narragansett's investment in it; (iii) are consistent with the general purposes of the Act and no insiders or special classes of security holders of Bevis, Old NC, or Narragansett are being given preferential treatment by virtue of the proposed transactions or will benefit from the operation of an independently owned and operated New NC; and (iv) the participation of Narragansett and its affiliates is consistent with the provisions, policies and purposes of the Act and is not on a basis different from or less advantageous than that of any other participant.

Notice is further given, that any interested person may, no later than November 22, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Narragansett at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, and order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[File No. 500–1]

NORTH AMERICAN PLANNING CORP.

Order Suspending Trading

OCTOBER 31, 1972.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the Class B nonvoting common stock, $0.01 par value and all other securities of North American Planning Corp., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors.

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from November 1, 1972, through November 10, 1972.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

TARIFF COMMISSION

[TEA–I–26]

MEN'S TIE FOUNDATION, INC.

Men's and Boys' Neckties; Notice of Investigation and Hearing

Investigation instituted. Following receipt of a petition filed by the Men's Tie Foundation, Inc., on behalf of its member companies, the U.S. Tariff Commission, on November 3, 1972, instituted an investigation under section 301(b)(1) of the Trade Expansion Act of 1962 to determine whether—

Men's and boys' neckties, of textile materials, provided for in items 373.05 to 373.30, inclusive, of the Tariff Schedules of the United States,

are, as a result in major part of concessions granted thereon under trade agreements, being imported into the United States in such increased quantities as to cause, or threaten to cause, serious injury to the domestic industry or industries producing like or directly competitive products.

Public hearing ordered. A public hearing in connection with this investigation will be held beginning at 10 a.m., e.s.t., January 23, 1973, in the Hearing Room, Tariff Commission Building, Eighth and

E Streets NW., Washington, D.C. Appearances at the hearing should be entered in accordance with § 201.13 of the Tariff Commission's rules of practice and procedure.

Inspection of petition. The petition filed in this case is available for inspection by persons concerned at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, D.C., and at the New York office of the Tariff Commission located in Room 437 of the Customhouse.

By order of the Commission.

Issued: November 3, 1972.

[SEAL] KENNETH R. MASON, *Secretary.*

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–73853. By order of October 27, 1972, the Motor Carrier Board approved the transfer to C & J Co., Inc., Dalton, Ga., of the operating rights in No. MC–124251 and subnumbers thereunder issued to Jack Jordan, Inc., Dalton, Ga., authorizing the transportation of synthetic latex, in bulk, in tank vehicles, liquid latex compounds, feldspathic sand, feldspar, dry ground limestone, clay, and clay slurry, and other specified commodities, from and to points as specified in Georgia, Alabama, Arkansas, Florida, Louisiana, Mississippi, North Carolina, Oklahoma, Ohio, South Carolina, Kentucky, Tennessee, and Virginia. Ariel V. Conlin, 53 Sixth Street NE., Atlanta, GA 30308, attorney for applicants.

No. MC–FC–73938. By order of October 27, 1972, the Motor Carrier Board approved the transfer to Howard William Bowen, Berlin, Md., of Certificate No. MC–100555 issued February 11, 1958, to Harold Francis Chapman, Snow Hill, Md., authorizing the transportation of passengers and their baggage, restricted to traffic originating at the points indicated, in charter operations, from Horntown, Va., and points within 2 miles of Horntown, to specified points in Maryland, Pennsylvania, and points in Delaware, and return; and from Stockton, Md., and points within 2 miles of Stockton, to specified points in Pennsylvania, Virginia, and points in Delaware, and return. Harold Francis Chapman, 105 South Ross Street, Snow Hill, MD 21863, representative for applicants.

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

[Notice No. 90]

NOVEMBER 3, 1972.

The following publications are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant,[1] and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable to the Commission.

[1] Except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MOTOR CARRIERS OF PROPERTY

No. MC 113267 (Sub-No. 277) (Republication), filed February 28, 1972, published in the FEDERAL REGISTER issues of March 30, 1972, and October 26, 1972, and republished this issue. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 312 West Morris Street, Caseyville, IL 62232. Applicant's representative: Lawrence A. Fischer (same address as above). NOTE: The purpose of this republication is to show the correct docket number assigned thereto in lieu of No. MC 13267 Sub 277, which was published in error.

No. MC 136185 (Republication), filed November 15, 1971, published in the FEDERAL REGISTER issue of January 6, 1972, and republished this issue. Applicant: FLEETWOOD HOMES OF TEXAS, INC., 2901 Industrial Road, Waco, TX 70703. Applicant's representative: Coke Mills, Jr., 604 First National Building, Waco, TX 76701. An order of the Commission, Review Board Number 1, dated October 18, 1972, and served October 27, 1972, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, of *extruded polyethylene bags, liners, and wrapping material,* from Waco, Tex., to Chicago, Ill., Atlanta, Ga., St. Louis, Mo., Phoenix, Ariz. Albuquerque, N. Mex., and points in Los Angeles, Orange, Riverside, and San Bernardino Counties, Calif., under a continuing contract or contracts with Pakrite Plastic Corp. of Waco, Tex., subject to the conditions: (1) That applicant shall maintain separate accounts and records for its for-hire operations as distinct from its other business activities, and (2) that applicant shall not at the same time and in the same vehicle transport property both as a private carrier and as a for-hire carrier, will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder, and that an appropriate permit should be issued. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 136273 (Republication), filed December 9, 1972, published in the FEDERAL REGISTER issue of January 20, 1972,

and republished this issue. Applicant: KENNETH G. MAY and ORVILLE L. HOWARD, a partnership, doing business as CORONADO TRUCKING CO., 1315 Santiago Avenue, Santa Ana, CA 92701. Applicant's representative: Ernest D. Salm, 3846 Evans Street, Los Angeles, CA 90027. A report of the Commission, Review Board Number 3, decided October 2, 1972, and served October 27, 1972, finds that operation by applicants, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, (1) of paint, and paint materials, in containers, from Edgewater, Fla., to points in Alabama, Arizona, California, Colorado, Florida, Georgia, Illinois, Kentucky, Louisiana, Massachusetts, Missouri, New Jersey, North Carolina, North Dakota, Ohio, South Carolina, Texas, Virginia, and Washington, and (2) of materials and supplies used in the manufacture, production, and distribution of the commodities described in (1) above (except in bulk), from points in California, Florida, Georgia, Illinois, Kentucky, Louisiana, Maryland, Mississippi, Missouri, New Jersey, Texas, and West Virginia, to Edgewater, Fla., under a continuing contract or contracts with Coronado Paint Co., of Edgewater, Fla., will be consistent with the public interest and the national transportation policy; that applicants are fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings below, a notice of the authority actually granted will be published in the FEDERAL REGISTER and grant of a permit in this proceeding will be withheld for 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

NOTICE FOR FILING OF PETITIONS

No. MC 118758 (Sub-No. 1) (notice of filing of petition for modification of certificate), filed October 2, 1972. Petitioner: TOTEM TOTERS, INC., 140 Eagel Street, Anchorage, AK 99501. Petitioner's representative: David J. Pree, 101 Christensen Drive, Anchorage, AK 99501. Petitioner presently holds a certificate in No. MC 118758 (Sub-No. 1), issued September 5, 1972, authorizing operation as a common carrier, by motor vehicle, over irregular routes, transporting: *Mobile homes,* between points in Alaska (except that area southeast of Yakutat Bay), on the one hand, and, on the other, points in California, Oregon, Washington, Wisconsin, Michigan, Indiana, Kentucky, and Tennessee; and between points in Alaska (except points in that area southeast of Yakutat Bay). By the instant petition, petitioner seeks modification of its certificate to include the transportation of: *Prefabricated houses or buildings,* set up or in set up sections moving on wheeled undercarriages equipped with ball-hitch, pintle-hitch, or drop pin connectors, between those points listed above. NOTE: Applicant presently holds the requested modification in Alaska in permit No. 107 (Amended) issued May 31, 1972 by order of the Alaska Transportation Commission in Docket 71–447–MF/A. Any interested person desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 119440 (Notice of filing of petition to change restriction), filed October 12, 1972. Petitioner: ALBERT J. DE VRIES, 105 North 16th Street, Paterson, NJ 07524. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Petitioner presently holds a certificate in No. MC 119440 issued May 23, 1972, authorizing operation as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods (uncrated) as defined by the Commission, commodities in bulk, commodities requiring special equipment, commodities injurious or contaminating to other lading, and radioactive material class D poison), from the sites of break bulk stations of Springmeier Shipping Co., Inc., in the New York, N.Y. commercial zone, as defined by the Commission, to points in Nassau County, N.Y.; and *returned shipments* of the above-specified commodities. Restriction: The authority grant herein is restricted to shipments having an immediately prior or an immediately subsequent movement on freight forwarder bills of lading. By the instant petition, petitioner seeks to transport the above-specified commodities, from the sites of common carriers in the New York, N.Y., commercial zone, as defined by the Commission, to points in Nassau County, N.Y.; and *returned shipments* of the above-specified commodities. Restriction: Restricted to shipments having an immediately prior or an immediately subsequent movement by common carrier. Any interested person desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 124211 (Sub-No. 109) (Notice of filing of petition for removal of restriction), filed October 16, 1972. Petitioner: HILT TRUCK LINE, INC., Post Office Box 988 Downtown Station, Omaha, NE 68101. Petitioner's representative: Thomas L. Hilt (same address as above). Petitioner presently holds a certificate in No. MC 124211 (Sub-No. 109), issued August 8, 1968, authorizing as pertinent, operation as a common carrier, by motor vehicle, over irregular routes, transporting: *Advertising matter and advertising paraphernalia,* when intended for use by the beverage industry and when moving in the same vehicle and at the same time with beverages, *bottle openers and can openers, and unfrozen beverages,* from Pueblo, Colo., to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Michigan (except Detroit), Mississippi, North Dakota, Tennessee, and Texas; from points in Nebraska, to points in Alabama, Arkansas, Florida, Georgia, Illinois (except points in that part of Illinois north of U.S. Highway 24), Indiana, Kansas, Louisiana, Michigan, Minnesota, Mississippi, Nebraska, North Dakota, South Dakota, Tennessee, Texas, and Wisconsin; from Belleville, Peoria, and Quincy, Ill., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming; from Chicago, Ill., Kansas City and St. Louis, Mo., to points in Idaho, Montana, New Mexico, North Dakota, South Dakota, and Texas; from Detroit, Mich., to points in Idaho, Kansas, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, and Texas; from Minneapolis, Minn., Muskogee, Okla., and LaCrosse, Milwaukee, and Waukesha, Wis., to points in Arizona, California, Idaho, Kansas, Montana, Nebraska (except Omaha), Nevada, New Mexico, North Dakota, Oregon, South Dakota, Texas, Utah, and Washington; from St. Joseph, Mo., to points in Arizona, California, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, Texas, Utah, Washington, and Wyoming; from points in that part of Nebraska east of U.S. Highway 77, to points in Idaho, Montana, and New Mexico; and, from points in New Jersey, to David City, Fairbury, Fremont, Lincoln, McCook, Norfolk, Omaha, and Scottsbluff, Nebr. Restriction: The authority granted hereinabove is restricted against the transportation of whiskey, in containers, from Pueblo, Colo., Chicago, Belleville, Peoria, and Quincy, Ill., Detroit, Mich., Kansas City and St. Louis, Mo., and points in New Jersey. By the instant petition, petitioner seeks removal of the above-stated restriction from its certificate. Any interested person desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATION FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATION UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 22301 (Sub-No. 13), filed October 10, 1972. Applicant: SIOUX TRANSPORTATION COMPANY, INC., 1230 Steuben Street, Sioux City, IA 51102. Applicant's representative: Carl L.

V 37-216 NOV 8 72 XUM

Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, household goods as defined by the Interstate Commerce Commission, classes A and B explosives, commodities of unusual value and commodities which because of size or weight require special equipment) between points in Lake, DuPage, Cook, Will, Kane, and Kendall Counties, Ill., and points in McHenry and Grundy counties located on and east of Illinois Highway 47 and on and north of Illinois Highway 113 and points in Kankakee County on and north of Illinois Highway 17 (except Kankakee). NOTE: Applicant states that the requested authority can be tacked at points in the Chicago, Ill. commercial zone. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. The instant application seeks to purchase the operating rights of H & S Motor Service, Inc. under Certificate No. MC 120940. This is a matter directly related to MC–F 11692 published in the FEDERAL REGISTER issue of October 26, 1972. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–11654. (Correction) (McBRIDE TRANSPORTATION, INC.—PURCHASE (PORTION)—CHEMICAL LEAMAN TANK LINES, INC.), published in the September 20, 1972, issue of the FEDERAL REGISTER on page 19411. Prior notice should be modified to read, from Peekskill, N.Y., in lieu of *New York and Peekskill, N.Y.*

No. MC–F–11655. (Correction) (A) (C & J COMMERCIAL DRIVEAWAY, INC.—PURCHASE (PORTION)—HOWARD SOBER, INC.), and (AA) (HOWARD SOBER, INC.—PURCHASE (PORTION)—DEALERS TRANSIT, INC.), published in the September 20, 1972, issue of the FEDERAL REGISTER on pages 19411 and 19412. (A) *Automobiles, trucks, tractors, and chassis*, new, used, unfinished, or wrecked, in secondary movements, in truckaway service, and bodies, new, used, unfinished, or wrecked, and *parts* of the commodities specified immediately above, as a common carrier over irregular routes, between points named or described under the second commodity description herein, but excluding service from Allentown, Pa.; Springfield, Ohio; Fort Wayne and Union City, Ind., between points in Iowa, New Hampshire, Tennessee, Vermont, and Virginia, between points in Iowa, New Hampshire, Tennessee, Vermont, and Virginia, on the one hand, and, on the other, points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, West Virginia, Ohio, Kentucky, Michigan, Indiana, Wisconsin, Illinois, Missouri, Arkansas, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, that part of Texas north of U.S. Highway 80 and east of U.S. Highway 81, and the District of Columbia, but excluding service from Allentown, Pa.; Springfield, Ohio; Fort Wayne and Union City, Ind. (AA) *New trucks, new tractors, new trailers, new chassis*, and *new buses*, in initial movements, in driveaway service, and *new cabs*, from Allentown, Pa., to St. Paul and Minneapolis, Minn., St. Louis, Mo., and Chicago, Ill.; *new trucks, new tractors, new trailers, new chassis*, and *new commercial automobiles*, in initial movements in driveaway service, and *new cabs*, from places of manufacture and assembly in Wayne County and Warren Township, Macomb County, Mich., to points in Rhode Island, Connecticut, New York, Pennsylvania, Maryland, Ohio, Michigan, Indiana, Illinois, Wisconsin, Minnesota, Iowa, Nebraska, Kansas, Missouri, Arkansas, Tennessee, Georgia, North Carolina, and that part of North Dakota on and east of North Dakota Highway 18, from places of manufacture and assembly in Fort Wayne, Indiana to points in Ohio and Illinois.

No. MC–F–11669. (Correction) (McDUFFEE MOTOR FREIGHT, INC.—PURCHASE (PORTION) — WEBB TRANSFER LINE, INC.), published in the October 4, 1972, issue of the FEDERAL REGISTER on page 20907. Prior notice should be modified to include, service is authorized to and from all intermediate points; and the off-route points of Bagdad, Cropper, Finchville, Mount Eden, Waddy, and Christianburg, Ky.

No. MC–F–11700. Authority sought for control and merger by CONTRACT FREIGHTERS, INC., 2900 Davis Boulevard, Post Office Box 1375, Joplin, MO 64801, of the operating rights and property of SOUTHEAST TRANSPORTATION COMPANY, also of Joplin, Mo. 64801, and for acquisition by U. G. LEWELLEN, 115 West Atchison, Jefferson City, MO 65101, of control of such rights and property through the transaction. Applicants' attorney: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Operating rights sought to be controlled and merged: *Petroleum products*, in containers as a *common carrier* over irregular routes, from Bradford, Pa., to points in that part of Missouri bounded by a line beginning at the Kansas-Missouri State line but not including Kansas City, Mo., and extending along U.S. Highway 50 to certain specified points in Missouri; *green unfinished cheese*, from points in Iowa, to certain specified points in Missouri; *fresh meats*, and *food products* (except canned goods), from Springfield, Cabool, El Dorado Springs, Monett, and Lebanon, Mo., the site of the plant of M.F.A. Packing Division at or near Macon, Mo., and points in Jasper, Newton, Lawrence, and Christian Counties, Mo., to points in Nebraska; *meats, meat products, and meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, *food products* (except vegetable oil products and fats and oils, in bulk, in tank vehicles), and *agricultural commodities*, the transportation of which is not otherwise subject to economic regulation, when moving in mixed loads with the commodities described above, between Springfield, the plantsite of Missouri Farmers Association at Macon, Carthage, El Dorado Springs, Cabool, Lebanon, Monett, and Neosho, Mo., on the one hand, and, on the other, points in Kentucky and Tennessee (except Memphis, Tenn.), with restrictions. CONTRACT FREIGHTERS, INC., is authorized to operate as a *common carrier* in Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Louisiana, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, Tennessee, Texas, Wisconsin, and Wyoming. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11701. Authority sought for purchase by HOFFMAN RIGGING & CRANE SERVICE, INC., 560 Cortland Street, Belleville, NJ 07109, of the operating rights and property of RAYMOND INTERNATIONAL, INC., Post Office Box 22718, Houston, TX 77027, and for acquisition by HARRY L. HOFFMAN, JR., also of Belleville, N.J. 07109, of control of such rights and property. Applicants' attorney: Morton E. Kiel, 140 Cedar Street, New York, NY 10006. Operating rights sought to be transferred under provisions section 303(e)(2): It transports as a *contract carrier*, (1) by derricks and/or barges and tugs from and to ports on the Atlantic and gulf coasts of heavy or bulky articles such as tanks, boilers, airplanes, cracking chambers, machinery and similar pieces of freight, and (2) by towing vessels and derrick lighters of contractors' equipment and material, consisting of steam shovels, pile driving rigs, trucks, bulldozers, ditching machines, caterpillar cranes, compressors, dredges, derrick lighters, and other miscellaneous heavy and bulky material used in construction work between construction sites, and between contractors' yards and construction sites, along the Atlantic coast, on Long Island, N.Y., and along Long Island Sound, Block Island Sound, and their tributary waterways, Narragansett Bay, Providence River, and in the area defined in the order of March 26, 1941, in Ex Parte No. 140, *Determination of the Limits of New York Harbor and Harbors Contiguous Thereto;* (1) by non-self-propelled vessels with the use of separate towing vessels in the transportation of commodities generally between ports and points on Long Island Sound and Block Island Sound and their tributary waterways, Narragansett Bay, Providence River, and the area defined in the order of March 26, 1941 in Ex Parte No. 140, *Determination of the Limits of New York Harbor and Harbors Contiguous Thereto;* and (2) by towing vessels in the performance of general towage between ports and points along Long Island Sound, Block Island Sound, the Atlantic coast, and their tributary waterways (including Narragansett Bay and the Providence River) from the New York Harbor area as defined by the order of March 26, 1941, in Ex Parte No. 140, to Boston, Mass., inclusive, and on Nantucket, Martha's Vineyard, Plum, Fishers, and Gull Island. Vendee is authorized to operate as a *common carrier* in Pennsylvania, Delaware, Connecticut, Maryland, Massachusetts, New Jersey, New York, and Rhode Island. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11702. Authority sought for purchase by ILLINOIS-CALIFORNIA EXPRESS, INC., 510 East 51st Avenue, Denver, CO 80216, of a portion of the operating rights of HENNIS FREIGHT LINES, INC., OF NEBRASKA, Post Office Box 612, Winston-Salem, NC 27102, and for acquisition by CERRO CORPORATION, 300 Park Avenue, New York, NY 10022, of control of such rights through the purchase. Applicants' attorneys: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603 and James E. Wilson, 1032 Pennsylvania Building, Washington, D.C. 20004. Operating rights sought to be transferred: *General commodities*, except those of unusual value, class A and B explosives, inflammables, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, as a *common carrier* over regular routes, between Omaha, Nebr., and Kansas City, Mo., serving all intermediate points; and the off-route point of the site of the Goodyear plant (located approximately 1½ miles northwest of the city limits of Topeka, Kans., on U.S. Highway 24 and truck route U.S. Highway 40). Vendee is authorized to operate as a *common carrier* in Illinois, California, Wyoming, Colorado, Arizona, New Mexico, Iowa, Nebraska, Kansas, Missouri, Texas, and Utah. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11704. Authority sought for purchase by MOHAWK MOTOR, INC., 34200 Mound Road, Sterling Heights, MI 48077, of a portion of the operating rights of MICHIGAN EXPRESS, INC. (Maurice A. Edleman, receiver), 1122 Freeman Avenue SW., Grand Rapids, MI 49502, and for acquisition by CENTRAL TRANSPORT, INC., and in turn by, T. J. MOURN AND M. J. MOURN, all of Sterling Heights, Mich. 48077, of control of such rights through the purchase. Applicants' attorney: Jack Goodman, 39 South La Salle Street, Chicago, IL 60603. Operating rights sought to be transferred: *General commodities*, with exceptions, as a *common carrier* over regular routes, serving various intermediate and off-route points in connection with carrier's regular route operations to and from Cincinnati, Ohio, and Kentucky, between junction U.S. Highway 52 and Indiana Highway 44 and Cincinnati, Ohio, between junction U.S. Highway 52 and Indiana Highway 28 and Cincinnati, Ohio, between Dayton and Cincinnati, Ohio, between junction U.S. Highway 52 and U.S. Highway 40 and Dayton, Ohio, between junction U.S. Highway 52 and Indiana Highway 28 and Dayton, Ohio, serving all intermediate points; over one alternate route for operating convenience only. Vendee is authorized to operate as a *common carrier* in Ohio, Michigan, Indiana, and Illinois. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11705. Authority sought for purchase by FOOD TRANSPORT, INC., Post Office Box 1041, York, PA 17405, of the operating rights of ROBERT S. LOCKHART AND WALTER M. LOCKHART, doing business as LOCKHART EXPRESS, Post Office Box 15, Stephenson, VA 22656, and for acquisition by STEWART LLOYD, 2100 Pleasant View Drive, York, PA 17402, and PAUL HIVELY, 287 Dew Drop Road, York, PA 17402, of control of such rights through the purchase. Applicants' attorneys: Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101 and S. Harrison Kahn, Suite 733 Investment Building, Washington, D.C. Operating rights sought to be transferred: *Canned goods*, as a *common carrier* over irregular routes, from the plantsite of Bowman Apple Products Co., at Mount Jackson, Va., to points in Alabama and Tennessee. Vendee is authorized to operate as a *common carrier* in Pennsylvania, Florida, Maryland, Alabama, Georgia, New Jersey, Louisiana, Texas, New York, Mississippi, West Virginia, Virginia, Delaware, District of Columbia, Ohio, Kentucky, Tennessee, Rhode Island, Connecticut, Massachusetts, North Carolina, Arkansas, South Carolina, Indiana, Illinois, Missouri, Kansas, Michigan, Wisconsin, Iowa, North Dakota, South Dakota, Oklahoma, Maine, New Hampshire, and Vermont. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11706. Authority sought for purchase by CARL H. BETZ, Rural Delivery No. 1, Orefield, Lehigh County, Pa. 18069, of a portion of the operating rights of JOHN D. BOHR, INC., Box 217, Annville, Lebanon County, PA 17003. Applicants' attorney: Paul B. Kemmerer, 1620 North 19th Street, Allentown, PA 18104. Operating rights sought to be transferred: *Dolomitic limestone and dolomitic limestone products* (except when used for feed ingredients), in bulk, as a *common carrier* over irregular routes, from points in Upper Saucon Township, Lehigh County, Pa., to points in Maryland, New Jersey (except points in Cumberland, Salem, Gloucester, Cape May, Atlantic, Camden, and Burlington Counties), New York, and Delaware: *dolomitic limestone and dolomitic limestone products* (except when used for feed ingredients), in packages, from points in Upper Saucon Township, Lehigh County, Pa., to points in New Jersey, New York, and Delaware. Vendee is authorized to operate as a *common carrier* in Maryland, New Jersey, and Pennsylvania. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11707. Authority sought for purchase by INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, MN 55113, of a portion of the operating rights and property of MICHIGAN EXPRESS, INC., 1122 Freeman Avenue SW., Grand Rapids, MI 49502, and for acquisition by LESTER A. WILSEY, Jr., 1178 Tiller Lane, St. Paul, MN 55113, of control of such rights and property through the purchase. Applicants' attorneys: Paul C. Gartzke, 121 West Doty Street, Madison, WI 53703, and William L. Alvey, 1947 West County Road C, St. Paul, MN 55113. Operating rights sought to be transferred: *General commodities*, excepting among others, classes A and B explosives, household goods, and commodities in bulk, as a *common carrier* over regular routes, serving off-route points in connection with carrier's regular route operations between Findlay and Toledo, Ohio, and to and from Cincinnati, Ohio, between Lima and Toledo, Ohio, between Lima and Cincinnati, Ohio, serving all intermediate points. Vendee is authorized to operate as a *common carrier* in Wisconsin, Minnesota, Iowa, South Dakota, North Dakota, Illinois, Montana, Nebraska, Missouri, Indiana, Kansas, Oklahoma, Michigan, Kentucky, Ohio, Arkansas, Colorado, Wyoming, Texas, Tennessee, New Jersey, and West Virginia. Application has been filed for temporary authority under section 210a(b).

NOTICE

SOO LINE RAILROAD COMPANY (SOO LINE), with offices at Room 800, Soo Line Building, Minneapolis, Minn. 55440, hereby gives notice that on the 16th day of October 1972, it filed with the Interstate Commerce Commission at Washington, D.C., in Finance Docket No. 27211, an application for authority to acquire trackage rights over approximately 4.59 miles of the multi-track terminal trackage of the Burlington Northern, Inc. (BN), between Soo Line's Shoreham yard in Minneapolis, Minn., and the main yard of the Minnesota Transfer Railway Co. in St. Paul, Minn., for the purpose of operating Soo Line's locomotives and cars with its own crews to interchange cars with said Minnesota Transfer Railway. Said rights were a condition of the Northern Lines merger case in Finance Docket No. 21478 et al., and are described in section 21(b) of Appendix L in 331 ICC 228.

In the opinion of the applicant, the Commission's actions requested in this application will not have any significant

V 37 • 216 NOV 8 72 XUM

impact upon and will not significantly affect the quality of the human environment. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

Soo Line Railroad Co. is represented in the above matter by Mr. Robert G. Gehrz, Room 804, Soo Line Building, Minneapolis, Minn. 55440.

No. MC–F–11708. Authority sought for purchase by MILTON TRANSPORTATION, INC., Post Office Box 207, Milton, PA 17847, of the operating rights and property of ROWE CAMBRIDGE MOTOR TRANSPORTATION, INC., Tyrone, Pa. 16686 and for acquisition by RAY B. BOWERSOX, JAMES R. SPOTTS, GARY L. WIEAND, SANDRA J. BOWER, AND GLEN L. NAREHOOD, all of Post Office Box 207, Milton, PA 17847, of control of such rights and property through the purchase. Applicants' attorney: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Operating rights sought to be transferred: *Iron cores*, as a *contract carrier* over regular routes, from Dunellen, N.J., to Tyrone, Pa., serving no intermediate points; *activated carbon*, between Tyrone, Pa., and Luke, Md., from Tyrone, Pa., to Carney's Point, N.J., serving no intermediate points; *activated carbon*, over regular and irregular routes, from Tyrone, Pa., to points in New York and New Jersey, serving no intermediate points; *printing paper*, other than newsprint, between Tyrone and Williamsburg, Pa., and Luke, Md., from Tyrone and Williamsburg, Pa., to Brooklyn and New York, N.Y., and points within 25 miles of Newark, N.J., serving no intermediate points; *iron paper winding cores*, from Brooklyn and New York, N.Y., and points within 25 miles of Newark, N.J., to Tyrone and Williamsburg, Pa., serving no intermediate points; *flakeboard*, over irregular routes, from Tyrone, Pa., to points in Massachusetts, Rhode Island, Connecticut, Delaware, North Carolina, and South Carolina, and a defined area of Ohio, Maryland, West Virginia, New Jersey, and New York; paper and paper products, from Tyrone, Pa., to points in Vermont, from Tyrone, Pa., to points in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, that part of Maryland within 50 miles of Gaithersburg, Md., Michigan, Minnesota, Mississippi, Missouri, New Hampshire, that part of Ohio west of Ohio Highway 4, Oklahoma, Tennessee, Texas, Vermont, Virginia, that part of West Virginia within 50 miles of Gaithersburg, Md., Wisconsin, and the District of Columbia, with restrictions; *paper and paper products*, from Tyrone, Pa., to points in Vermont, with restriction; *paper and paper products, woodpulp, and wastepaper*, from the plantsite of Westvaco Corp., at or near Wickliffe, Ky., to points in Massachusetts, Connecticut, Rhode Island, New Jersey, Pennsylvania, Maryland, Delaware, Virginia, West Virginia, and the District of Columbia, from the plantsite of Westvaco Corp. near Wickliffe, Ky., to points in New York; *materials and supplies* used in the manufacture and distribution of paper products (except commodities in bulk), from points in Massachusetts, Connecticut, Rhode Island, New Jersey, Pennsylvania, Maryland, Delaware, Virginia, West Virginia, and the District of Columbia, from points in New York, to the plantsite of Westvaco Corp., near Wickliffe, Ky., with restrictions; *printing paper* (other than newsprint), from Tyrone, Pa., to points in Connecticut, New Hampshire, New York (except Poughkeepsie and New York, N.Y., and all intermediate points on U.S. Highway 9 between Poughkeepsie and New York, N.Y.), and Rhode Island, with restriction; *paper and paper products, and wood pulp*, from Tyrone, Pa., to points in Massachusetts, Maine and Michigan; *materials, equipment and supplies* used in the manufacture and distribution of paper and paper products (except commodities in bulk), from points in Massachusetts, Maine, and Michigan to Tyrone, Pa., with restriction; *scrap paper*, from points in Connecticut, Delaware, Maryland, Massachusetts, Michigan, New York, North Carolina, Ohio, and Virginia, to Williamsburg, Pa., from points in New Jersey to Williamsburg, Pa., with restrictions. Vendee is authorized to operate as a *contract carrier* in Pennsylvania, New York, New Jersey, Maryland, Delaware, Ohio, Virginia, West Virginia, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Maine, Indiana, Illinois, Michigan, Iowa, Kentucky, Missouri, North Carolina, Tennessee, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

NOTICE

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD COMPANY hereby gives notice that on October 18, 1972, it filed with the Interstate Commerce Commission at Washington, D.C., an application for authority to acquire trackage rights over and joint use of certain lines of railroad of Burlington Northern Inc. between Hinkley, Minn. and Central Avenue, Superior, Wis., a distance of approximately 64.14 miles, and between Boylston, Wis., and Cloquet, Minn., a distance of approximately 25.63 miles and over certain Burlington Northern terminal trackage in Duluth-Superior and interchange trackage in Saunder, Wis. The proceeding assigned Finance Docket No. 27217 will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

Applicant believes that the requested Commission action will have no adverse effect or other impact on the quality of the human environment.

In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation—Nat'l Environmental Policy Act, 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b) (1)–(5), 340 I.C.C. 431, 461. A copy of any protest should also be sent to Mr. Joseph J. Nagle, General Attorney, 888 Union Station, 516 West Jackson Boulevard, Chicago, IL 60606.

NOTICE

The Atchison, Topeka & Santa Fe Railway Co. hereby gives notice that on the 24th day of October 1972 it filed with the Interstate Commerce Commission at Washington, D.C., an application under section 5(2)(a)(ii) of the Interstate Commerce Act for authority to acquire trackage rights over a line of railroad of St. Louis-San Francisco Railway Co. between Black Bear, Noble County and Camp, Pawnee County, Okla., a distance of approximately 31.14 miles. The application has been assigned Finance Docket No. 27220. In Docket No. 27221 applicant filed a directly related application for authority to abandon a line of railroad between Esau Junction and Pawnee, Pawnee County, Okla. The proceedings will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. In the opinion of the applicant, the authoirty sought by these applications will have no significant effect upon the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation—National Environmental Policy Act of 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present the statement shall include such information relating to the facts set forth in Ex Parte No. 55 (Sub-No. 4), supra Part (b) (1)–(5), 340 I.C.C. 431, 461. Any person opposed to this trackage rights application should advise the Commission promptly, with an original and six copies, identifying the docket number, and send a copy of the protest to Mr. Harvey Huston, General Attorney, The Atchison, Topeka & Santa Fe Railway Co., 80 East Jackson Boulevard, Chicago, IL 60606. Any protests shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

The Atchison, Topeka & Santa Fe Railway Co.

By the Commission.

[I.C.C. Order 73–A; Rev. Service Order 994]

ST. JOHNSBURY & LAMOILLE COUNTY RAILROAD

Rerouting Traffic

TO ALL RAILROADS: Upon further consideration of I.C.C. Order No. 73 (St. Johnsbury & Lamoille County Railroad) and good cause appearing therefor:

It is ordered, That:

(a) I.C.C. Order No. 73 be, and it is hereby, vacated and set aside.

(b) This order shall become effective at 12:01 a.m., November 5, 1972.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., November 2, 1972.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER, *Agent.*

[FR Doc.72-19176 Filed 11-7-72;8:53 am]

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

NOVEMBER 3, 1972.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Kansas Docket No. 93, 452 M, Route No. 9047 (Amendment) filed April 14, 1972, published in the FEDERAL REGISTER issue of May 17, 1972 and republished as amended this issue. Applicant: JAYHAWK TRUCK LINES, INC., 1400 Vickers–KSB&T Building, Wichita, KS. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General commodities*: To, from and between Wichita, Kans., and Herington, Kans., and a 5-mile radius thereof; and the intermediate points of Lincolnville, Lost Springs, Admire, Council Grove, Wilsey, Delavan, Hope, Elmo, Durham, Goessel, and Newton, Kans., and a 5-mile radius thereof; and the off-route points of Pilsen, Burdick, Ramona, Woodbine, Navarre, Enterprise, Carlton, Gypsum, Roxbury, Hesston, and Tampa, Kans., and a 5-mile radius thereof. From Florence, Kans., on present authority, north of U.S. Highway 77 to Herington, Kans.; thence west on Kansas Highway 4 to Elmo, Kans.; thence south on Kansas Highway 15 to Newton, Kans.; thence south on U.S. Interstate 35W to Wichita, Kans., and return over the same route. Also, from Strong City, Kans., on present authority, north on Kansas Highway 177 to Council Grove, Kans.; thence west on U.S. Highway 56 to Herington, Kans.; thence on route as herein described, and return over the same route. Also, from Emporia, Kans., on present authority, north on Kansas Turnpike to U.S. Highway 56, thence west on U.S. Highway 56 to Herington, Kans., thence on route as herein described and return over the same route. As an alternate route for operating convenience only; from Elmo, Kans., west on Kansas Highway 4 to the intersection of Kansas Highway 4 and U.S. Interstate 35W, thence south on U.S. Interstate 35 to Wichita, Kans., and return over the same route. Both intrastate and interstate authority sought.

HEARING: Before the State Corporation Commission, Morris County Courthouse, Public Meeting Room, Council Grove, Kans., on Tuesday, December 12, 1972. Requests for procedural information including the time for filing protests concerning this application should be addressed to the State Corporation Commission, Fourth Floor, State Office Building, Topeka, Kans. 66612 and should not be directed to the Interstate Commerce Commission. NOTE: The purpose of this republication is to seek an extension of certificate of convenience and necessity to transport general commodities.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Sec. 5a Application 61, Amdt. 22]

NATIONAL CLASSIFICATION COMMITTEE—AGREEMENT

Application for Approval of Amendments

AUGUST 9, 1972.

The Commission is in receipt of an application in the above-entitled proceeding for approval of amendments to the agreement therein approved.

Filed June 7, 1972, by Richard H Hinchcliff, Secretary, National Classification Committee, 1616 P Street NW., Washington, DC 20036 and Bryce Rea, Jr., 1329 E Street NW., Washington, DC 20004.

The amendments involve: (1) Authorizing the chairman of the classification committee to appoint not more than 10 members-at-large to such committee, in addition to the 100 elected members (article II, section 1); (2) preclude eligibility for reelection to classification committee membership by failure to attend one of three regular meetings preceding the mailing of ballots (article II, section 3); and (3) revise the appeal procedure to permit the classification committee to modify and approve a recommendation of the classification board and to provide for publication of approved committee actions without further submittal to the board (article IV, rule 11).

The complete amended application may be inspected at the Office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 20 days from the date of publication of this notice in the FEDERAL REGISTER. As provided by the general rules of practice of the Commission, persons other than applicants should fully disclose their interest, and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved without public hearing.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Dockets Nos. 19620, 19621; FCC 72-950]

CABOOL BROADCASTING CORP., AND KICKAPOO PRAIRIE BROADCASTING CO., INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

In regard applications of Cabool Broadcasting Corp., Cabool, Mo., Docket No. 19620, File No. BPH-7806, Requests: 92.7 MHz, No. 224; 3 kW (H & V), 191.5 feet; Kickapoo Prairie Broadcasting Co., Inc., Mountain Grove, Mo., Docket No. 19621, File No. BPH-7903, Requests: 92.7 MHz, No. 224; 3 kW (H & V), 300 feet; for construction permits.

1. The Commission has before it the captioned applications which are mutually exclusive in that operation by the applicants as proposed would result in mutually destructive interference. Therefore, a comparative hearing must be held.

2. The respective proposals, although for different communities would serve substantial areas in common. Consequently, in addition to determining, pursuant to section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service, a contingent comparative issue will also be specified.

3. Cabool Broadcasting Corp. proposes independent programing, while Kickapoo Prairie Broadcasting Co., Inc., proposes to duplicate the programing of its commonly owned AM station, KLRS, during 47 percent of its broadcast time. Therefore, evidence regarding program duplication will be admissible under the contingent comparative issue. When duplicated programing is proposed, the showing permitted under the contingent comparative issue will be limited to evidence concerning the benefits to be derived from the proposed duplication, and

V37-216 NOV 8 72 XUM

a full comparison of the applicants' program proposals will not be permitted in the absence of a specific programing inquiry. "Jones T. Sudbury," 8 FCC 2d 360 (1967).

4. Each of the applicants is qualified to construct and operate as proposed. However, because of their mutual exclusivity, the Commission is unable to make a statutory finding that a grant of the subject applications would serve the public interest, convenience, and necessity. Therefore, they must be designated for hearing in a consolidated proceeding on the issues set forth below.

5. *Accordingly, it is ordered,* That pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

(1) To determine the areas and populations which would receive FM service of 1 m.v./m or greater intensity from the respective proposals together with the availability of other primary (1 m.v./m or better for FM) aural services in such areas.

(2) To determine, in light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient, and equitable distribution of radio service.

(3) To determine, in the event it is concluded that a choice between the applications should not be based solely on considerations relating to section 307(b), which of the proposals would better serve the public interest.

(4) To determine, in light of the evidence adduced under the above issues, which of the applications should be granted.

6. *It is further ordered,* That the applicants shall file a written appearance stating an intention to appear and present evidence on the specified issues, within the time and in the manner required by § 1.221(c) of the rules.

7. *It is further ordered,* That the applicants shall give notice of the hearing within the time and in the manner specified in § 1.594 of the rules, and shall seasonably file the statement required by § 1.594(g).

Adopted: October 26, 1972.

Released: October 31, 1972.

Secretary.

[FR Doc.72-19152 Filed 11-7-72;8:51 am]

[Docket No. 19562]

SAMUEL C. McCLUNEY III

Order for Hearing and Consolidation

In the matter of Samuel C. McCluney III, 1536 Pearl Street, Jacksonville, FL 32206, suspension of amateur radio operator license KOECG, and order to show cause why the license for radio station KOECG in the amateur radio service should not be revoked, Docket No. 19562.

The Commission, by the Chief, Safety and Special Radio Services Bureau, under delegated authority, having under consideration its order released June 29, 1972, which suspended amateur radio operator license KOECG for the balance of the license term and also having under consideration its order released June 29, 1972 (Docket No. 19562), directing Samuel Copp McCluney III, to show cause why the license for amateur radio station KOECG should not be revoked; and

It appearing, that respondent, in accordance with section 303(m)(2) of the Communications Act of 1934, as amended, has filed a timely application for hearing on the suspension order;

It is ordered, Pursuant to sections 303(m)(1)(a) and (d) and 303(m)(2) of the Communications Act of 1934, as amended, and §§ 0332(f) and 1.85 of the Commission's rules, that the matter of the suspension of the amateur radio operator license of Samuel Copp McCluney III, is designated for hearing before an Administrative Law Judge to be named and at a time and place to be specified by subsequent order upon the following issues:

1. To determine whether respondent committed violations of §§ 97.19 and 97.129 of the Commission's rules; and

2. To determine whether respondent's actions as described in the order of suspension are contrary to the public interest, convenience, and necessity and contrary to the provisions of sections 301 and 307(a) of the Communications Act of 1934, as amended; and

3. To determine whether respondent has misrepresented or concealed material facts or was lacking in candor in that:

(a) Respondent represented by his application filed August 20, 1970, that he had been issued an amateur extra class radio station license August 31, 1965;

(b) Respondent, in his letters to the Commission dated September 3, 1971, and April 20, 1972, stated that he had taken the amateur extra class examination in the spring of 1966 or 1967; and

4. To determine, in view of the foregoing, whether the Commission would be warranted in refusing to grant an application filed by respondent for an amateur radio station license if the original application were now before it; and

5. To determine, in light of the evidence adduced pursuant to the foregoing issues, whether the order of suspension should be affirmed, modified, or revoked; and

It further appearing, that the proceeding in Docket No. 19562 involves the same respondent and the issues are substantially the same and that consolidation of these proceedings will be conducive to the proper dispatch of business and to the ends of justice;

It is ordered, Pursuant to the provisions of § 1.227 of the Commission's rules, that the proceeding on the order of suspension and the proceeding on the issues on the order to show cause are consolidated for hearing; and

It is further ordered, That a copy of this order shall be sent to respondent by airmail at 1536 Pearl Street, Jacksonville, FL 30206.

Adopted: October 27, 1972.

Released: October 31, 1972.

[No. 91171]

INSPECTION BY PUBLIC OF REPORTS SUBMITTED BY COMMON CARRIERS

Ruling. In the matter of inspection by the public of reports submitted by common carriers pursuant to 47 CFR 43.61.

1. Pursuant to § 43.61 of the Commission's rules, 47 CFR 43.61, certain common carriers are required to submit two reports containing detailed information concerning overseas traffic handled with overseas points, one for the first 6 months of the calendar year, and the second for the entire calendar year.[1] These particular reports are not listed in 47 CFR 0.455 as routinely available for inspection although other reports filed pursuant to § 43.71 of the rules are so listed.

2. For several years, the Commission has been publishing consolidated data from individual reports submitted by the carriers in the FCC Statistical Yearbook (Statistics of Communications Common Carriers). For example, Tables 23 and 24 of the yearbook contain an analysis of overseas message telegraph and telex by country or point on a consolidated industry basis.[2]

3. Recently, the Commission, with the agreement of the carriers, established procedures for the computerization of these reports. Since it has been our understanding that several of the carriers principally engaged in handling telegraph traffic have been informally exchanging their individual reports among themselves for several years, it was proposed that the new computerized reports showing results for each carrier be made available to all carriers as well as to the general public. (In this connection, several carriers proposed that we indicate each carrier's percentage of participation in overseas message telegraph and telex by country or points.) Accordingly, all carriers required to submit reports under § 43.61 of the rules were asked to advise the Commission, in writing, as to their views with respect to making their individual data available to each other and to the general public.

[1] Reports are filed by, among others, American Telephone & Telegraph Co. (A.T. & T.), various subsidiaries of International Telegraph Co. ITT World Communications, Inc. (ITT Worldcom), All America Cables & Radio, Inc. (A.A.C. & R.), ITT Communications, Inc.-Virgin Islands (ITTCIVI), RCA Global Communications, Inc. (RCA Globcom), Western Union International, Inc. (WUI), Cable & Wireless/Western International, Inc. (C&W/WUI), Tropical Radio Telegraph Co., Inc. (Tropical Radio), U.S.-Liberia Radio Co. (USLR), the French Cable Co. (FC), the Hawaiian Telephone Co. (HAWTEL), and the Western Union Telegraph Co. (WUTC).

[2] Although these statistics do not show the individual data reported by each carrier, Table 15 contains an analysis of overseas telephone traffic by country or point which reports information obtained solely from A.T. & T.'s reports filed pursuant to 47 CFR 43.61.

4. All of the carriers responded and a number stated they would have no objection to making their statistical data filed in compliance with § 43.61 available for public inspection. However, ITT Worldcom, RCA Globcom, and WUI indicated that their individual reports should not be made available for public inspection but that they would be willing to permit inspection by some of the other record carriers on a reciprocal basis.[3] By letter of December 10, 1971, the Common Carrier Bureau asked the carriers opposing total disclosure to submit their reasons for limiting disclosure to select carriers.

5. The carriers gave several different reasons to support their requests for selective disclosure. One contended that the detailed nature of the data would permit the identification of "information relating to individual customers or groups of customers" (ITT Worldcom letter of December 23, 1971). Another carrier pointed out that disclosure would cause information to be made available not only to competitors but also to persons who had "contributed little or no effort" to compile it (RCA Globcom letter of February 29, 1972).[4] The carriers also submitted that there are often "important purposes in the areas of planning and evaluation" to be served by the exchange of individual reports among the record carriers and that no similar purpose would be served by "total disclosure" (WUI letter of February 18, 1972, concurred in by C&W/WUI). These carriers further contended that the information involved is commercial or financial data "entitled to exemption from public disclosure" under section 552(b)(4) of the Public Information Act, 5 U.S.C. 552(b)(4), and § 0.457(d) of the Commission's rules, 47 CFR 0.457(d), and that they are entitled to have it maintained on a confidential basis by the Commission even though they may be willing to make it available to some of their competitors on a reciprocal basis (WUI letter, supra). In addition, the carriers argued that unlimited disclosure could work to their detriment in meeting the competition of foreign communications carriers (letters of ITT Worldcom, WUI, supra).

6. We have considered the reasons submitted by the carriers in support of limited disclosure and believe that their requests for limited confidentiality should not be granted. Initially, it is difficult to understand how the public availability of this information would cause them serious competitive injury in view of their apparent willingness to furnish it to their principal competitors. As for the contention that this is the kind of material that is exempted from public disclosure under the Public Information Act and the Commission's rules, it should be noted that the information normally entitled to protection under these provisions is the kind which ordinarily would not be made available to competitors by the person submitting it. It seems obvious that the Commission should be under no obligation to maintain this information on a confidential basis when the persons submitting it intend to give it to their principal competitors. That the usual justification for protecting this data is lacking here is reinforced by the willingness of the other carriers to make it available to everyone. The fact that the carriers would receive, in some instances no comparable information in return is, of course, no basis for nondisclosure. Nor does the fact that there may be "important purposes" to be served by exchanging the information among principal competitors provide such a basis.

7. Finally, it should be noted in this connection that section 412 of the Communications Act, 47 U.S.C. 412, among other things, expressly provides that reports the Commission requires the carriers to file pursuant to the Communications Act, are to be public records unless, in accordance with the same section's proviso clause, the Commission determines it would be in the public interest to keep them confidential because their publication would place the U.S. domestic carriers at a disadvantage with their foreign competitors.[5] Section 0.457(3) of the rules provides that any person may file a petition requesting that materials covered by section 412 be withheld from public inspection and that such a petition must demonstrate that the material "* * * relates to foreign wire or radio communications; that its publication would place American communication companies at a disadvantage in meeting the competition of foreign communication companies; and that the public interest would be served by keeping its terms confidential."

8. While the carriers have made the bare claim that total disclosure would place them at a disadvantage with respect to their foreign competition, but that a disclosure limited to U.S. international record carriers would not, they have given no reasons to support these assertions. Nor have they provided any reasons as to how the public interest would be served by disclosure limited only to their principal competitors. It seems clear that an unsubstantiated allegation of potential economic injury should not be sufficient to invoke the protection afforded by section 412 in view of the explicit disclosure requirements set forth in that section.

9. Accordingly, pursuant to 47 CFR 0.459, the Bureau has determined that the individual reports submitted pursuant to 47 CFR 43.61 should be available for public inspection.

10. Pursuant to 47 CFR 0.459(g), the individual reports will be held in confidential status for a period of 30 days from the date of release of this order, to afford ITT Worldcom, RCA Globcom, and WUI an opportunity within that period to file an application for review by the Commission and to petition for judicial review of this action.

Released: October 24, 1972.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BERNARD STRASSBURG,
Chief, Common Carrier Bureau.

[FR Doc.72-19148 Filed 11-7-72;8:52 am]

[3] ITT Worldcom's reply was also made in behalf of A.A.C. & R. and ITTCIVI and WUI's response was made in behalf of C&W/WUI.

[4] RCA Globcom also suggested that a "consolidated industry report" should be prepared for public consumption, that its individual data should be returned, and that the carriers, rather than the Commission, should arrange for the exchange of their individual statistics among themselves. (RCA letter, supra)

[5] This section entitled "Documents Filed To Be Public Records-Use in Proceedings," provides in pertinent part as follows: "* * * and the statistics, tables, and figures contained in the annual or other reports of carriers * * * made to the Commission as required under the provisions of this Act shall be preserved as public records in the custody of the secretary of the Commission, * * * *Provided*, That the Commission may, if the public interest will be served thereby, keep confidential any contract, agreement, or arrangement relating to foreign wire or radio communication when the publication of such contract, agreement, or arrangement would place American communication companies at a disadvantage in meeting the competition of foreign communication companies."

CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Proposed Modification to Allowable Maintenance on Light Duty Vehicles

No. 216—Pt. II——1

V 37-216 NOV 8 72 XUM

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 85]

CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Proposed Modification to Allowable Maintenance on Light-Duty Vehicles

Section 85.90 of the motor vehicle emission certification regulations (40 CFR Part 85) presently prescribes a specific schedule of allowable maintenance on durability data vehicles. To meet the stringent Federal motor vehicle emission standards for 1975/1976, it is likely that certain advanced emission control systems may need maintenance that is not now provided for by the regulations.

The amendments proposed in this notice would allow the manufacturer to establish, prior to the beginning of 1975 model year certification testing, a schedule for maintenance on Exhaust Gas Recirculation (EGR) systems at no more than the 12,000, 24,000, and 36,000 mile test points and catalytic converters (no more than once during 50,000 miles) on durability data vehicles if: (1) Failure to perform maintenance is not likely to result in an improvement in vehicle performance, and (2) the same type of maintenance at the same intervals will be specified in the maintenance instructions furnished to the original purchaser of the motor vehicle.

The proposed amendments would also clarify the criteria upon which the Administrator would approve any additional maintenance not otherwise provided for in the regulations. For example, the Administrator would allow scheduled maintenance related to emission control for components other than those specifically authorized in the regulations if parts and components not requiring so high a level of maintenance as is being requested to be authorized are unavailable. The Administrator would allow unscheduled maintenance if such maintenance would not affect emission deterioration of the test vehicles, not change the engine-system combination and not require access to the combustion chamber (except for spark plug removal or replacement). By not allowing unscheduled maintenance which requires direct access to the combustion chamber, the proposed regluations would, for example, prohibit valve replacement unless such replacement is approved as scheduled maintenance at specified mileage intervals.

Any maintenance not specifically allowed by these regulations would be prohibited.

The proposed regulations would also modify the durability testing procedure to:

(1) Increase the allowable frequency of scheduled spark plug replacement to the 12,000, 24,000, and 36,000 mile test point (present regulations, allowing replacement every 12,000 miles for small engines and 24,000 miles for large ones, are considered unrepresentative in view of recent studies of in-use vehicle spark plug maintenance),

(2) Prohibit emission testing other than as provided by the regulations or as specifically authorized by the Administrator (this prohibition would reduce the likelihood of unauthorized maintenance being performed on durability data vehicles), and

(3) Remove the requirement for emission testing at the 48,000 mile test point (since the final test—at 50,000 miles—occurs only 2,000 miles later).

Reasonable assurance that maintenance proposed to be allowed on test vehicles will in fact be performed on vehicles in actual use is anticipated to be provided by State vehicle inspection programs. States with safety inspection programs will be encouraged to require documentation that periodic maintenance on EGR systems and catalytic converters has been performed. When State-operated emission test-based inspection systems go into effect, corrections for vehicles failing such inspections will be made in accordance with section 207(b) of the Clean Air Act.

40 CFR Part 85 as revised by this amendment would become effective 30 days after promulgation and would be applicable to 1975 and subsequent model year vehicles. The current regulations which appear at 40 CFR Part 85 would remain in effect for the purpose of their applicability to 1974 and earlier model year vehicles.

Interested persons may submit written data, views, or arguments (in quadruplicate) in regard to the proposed regulations to the Administrator, Environmental Protection Agency, Attention: Mobile Source Pollution Control Program, Office of Air and Water Programs, Washington, D.C. 20460. All relevant material received not later than 60 days after publication of this notice will be considered.

EPA is particularly interested in comments on other emission-control-related components and systems for which maintenance should be specifically allowed, the need for allowing such maintenance, and a suggested basis on which the Administrator should allow such maintenance consistent with the objective of providing reasonable assurance that maintenance allowed to be performed on durability vehicles will in fact also be performed on cars in actual use.

Comments from interested parties are particularly solicited on the desirability of a warranty by the manufacturer to the vehicle owner to cover the cost of replacement of all emission-control-related components, including the extent to which the provision would increase the probability that a vehicle owner would obtain necessary replacements, the feasibility of administering such a warranty, and its competitive impact.

In addition, the EPA is interested in receiving comments on a concept that has potential for assuring that emission control system maintenance will be performed as it is needed, but on which insufficient technical data is available to allow it to be proposed at this time. Such a concept would require the manufacturer to equip the vehicle with sensors that would trigger an overt signal, such as a light or a buzzer, in the event that a critical emission control component such as a catalyst should fail to function. Such signal could be on the dashboard, to alert the driver; or could be visible from the outside of the car, to alert local authorities to the need for maintenance of the vehicle's emission control system. A variant on this concept on which comments are also solicited would be to require the manufacturer to build into the vehicle sensors which would give an indication of major emission control component failure when a specialized test instrument is plugged in at a vehicle testing facility. Comments from vehicle manufacturers and from sensor and test equipment manufacturers, as well as from other interested parties, are specifically sought on such concepts which may be considered for application to future model years.

Comments submitted shall be available for public inspection during normal business hours at the Office of Public Affairs, Environmental Protection Agency, Fourth and M Streets SW., Washington, D.C. 20460.

This notice of proposed rule making is issued under the authority of section 206 of the Clean Air Act, as amended (42 U.S.C. 1857f–5).

Dated: October 31,1972.

WILLIAM D. RUCKELSHAUS,
Administrator.

1. Section 85.90 of Part 85, Title 40 of the Code of Federal Regulations as applicable to 1975 and later model light duty vehicles, is proposed to be revised as follows:

§ 85.90 Maintenance.

(a) (1) Maintenance on the engines and fuel systems of durability vehicles may be performed only under the following provisions:

(i) One scheduled major engine tuneup to manufacturer's specifications may be performed at 24,000 miles (±250 miles) of scheduled driving with the following exception: On a vehicle with an engine displacement of 150 cubic inches or less (or a rating of at least 0.8 maximum rated horsepower per cubic inch of displacement) scheduled major engine tuneups may be performed at 12,000, 24,000, and 36,000 miles (±250 miles) of scheduled driving. A scheduled major engine tuneup shall be restricted to the following and shall be conducted in a manner consistent with maintenance instructions provided by the manufacturer for the use of service personnel in the field:

(*a*) Inspect ignition wiring, distributor cap, and rotor and replace as required.

(*b*) Replace distributor breaker points and condenser as required.

(*c*) Lubricate distributor cam.

(*d*) Check distributor advance and breaker point dwell angle and adjust as required.

(*e*) Check automatic choke for free operation and correct as required.

(*f*) Adjust carburetor idle speed and mixture.

(*g*) Adjust drive belt tension on engine accessories.

(*h*) Adjust valve lash if required.

(*i*) Check exhaust heat control valve for free operation.

(*j*) Check engine bolt torque and tighten as required.

(ii) Spark plugs may be changed at the 12,000, 24,000, and 36,000 mile test points, and at other times only if a persistent misfire is detected.

(iii) Normal vehicle lubrication services (engine and transmission oil change and oil filter, fuel filter, and air filter servicing) will be allowed at manufacturer's recommended intervals.

(iv) The crankcase emission control system may be serviced at 12,000, 24,000, and 36,000 miles (±250 miles) of scheduled driving.

(v) The fuel evaporative emission control system may be serviced at 12,000, 24,000, and 36,000 (±250 miles) of scheduled driving.

(vi) Readjustment of the engine choke mechanism or idle settings may be performed only if there is a problem of stalling at stops.

(vii) Engine idle speed may be adjusted at the 4,000 mile test point.

(viii) An Exhaust Gas Recirculation (EGR) system may be serviced at any or all of the following mileage points: 12,000, 24,000, and 36,000: *Provided:*

(*a*) The manufacturer satisfies the Administrator that failure to perform EGR system maintenance is not likely to result in an improvement in vehicle performance; and

(*b*) Maintenance instructions furnished to the ultimate purchaser of the motor vehicle reflect the EGR maintenance required and the mileage points at which such maintenance is to be performed.

(ix) The catalytic converter may be serviced once during 50,000 miles of scheduled driving, but not prior to 25,000 miles of scheduled driving: *Provided:*

(*a*) The manufacturer satisfies the Administrator that failure to perform such maintenance is not likely to result in the improvement of vehicle performance; and

(*b*) Maintenance instructions furnished to the ultimate purchaser of the motor vehicle specify the catalytic converter maintenance required and the mileage point at which such maintenance is to be performed.

(x) Any other engine, emission control system, or fuel system adjustment, repair, removal, replacement, or disassembly on durability data vehicles shall be performed only with the advance approval of the Administrator.

(*a*) In the case of unscheduled maintenance, such approval will be given only if the Administrator:

(*1*) Has made a preliminary determination that such maintenance or repairs will not significantly affect emission deterioration of the test vehicles, will not result in a significant change in the engine-system combination, and, except for spark plug, fuel injection component, or removable prechamber removal or replacement, does not require direct access to the combustion chamber; and

(*2*) Has made a determination that the need for maintenance or repairs is indicated by substantial or significant overt indication of malfunction such as persistent misfire, vehicle stall, overheating, fluid leakage, loss of oil pressure, or charge indicator warning.

(*b*) Emission measurements may not be used as a means of determining the need for unscheduled maintenance under (*a*) of this subdivision.

(c) In the case of scheduled maintenance for emission-control-related components not specifically authorized to be maintained by these regulations which the manufacturer requests to be authorized, such requests will be considered only prior to the beginning of durability testing. The Administrator will precondition his approval on a showing of unavailability of parts and components that may not require so high a level of maintenance as is requested to be authorized. In no case will such scheduled maintenance as would be authorized under this paragraph be allowed to be performed if the failure to perform such maintenance is likely to result in the improvement of vehicle performance.

(2) Where the Administrator agrees under § 85.91 to a mileage accumulation of less than 50,000 miles for durability testing, he may modify the requirements of this paragraph.

(b) Allowable maintenance on emission data vehicles shall be limited to the adjustment of engine idle speed at the 4,000 mile test point. Any other engine, emission control system, or fuel system adjustment, repair, removal, replacement, or disassembly on emission data vehicles shall be performed only with the advance approval of the Administrator.

(c) Repairs to vehicle components of the durability or emission data vehicle, other than the engine, emission control system, or fuel system, shall be performed only as a result of part failure or vehicle system malfunction.

(d) Complete emission tests (see §§ 85.71–85.88) shall be run before and after any vehicle maintenance which may reasonably be expected to affect emissions. These test data shall be supplied to the Administrator immediately after the tests, along with a complete record of all pertinent maintenance, including an engineering report of any malfunction diagnosis and the corrective action taken. In addition, all test data and maintenance reports shall be compiled and provided to the Administrator in accordance with § 85.53.

(e) If the Administrator determines that maintenance or repairs performed have resulted in a substantial change to the engine-system combination, the vehicle shall not be used as a durability or emission data vehicle.

(f) The use of instruments, tools, or emission tests to identify malfunctioning, maladjusted, or defective engine components is not allowed unless (1) performed in conjunction with scheduled maintenance under this section, or (2) performed subsequent to the identification of a vehicle or engine malfunction as provided in paragraph (a)(1)(x) of this section for durability data vehicles or paragraph (b) of this section for emission data vehicles, or (3) unless otherwise specifically authorized by the Administrator.

2. In § 85.91 of Part 85, Title 40 of the Code of Federal Regulations, as applicable to 1974 and later model year light duty vehicles, paragraphs (b) and (c) are proposed to be revised and paragraph (h) is proposed to be added as follows:

§ 85.91 Mileage accumulation and emission measurements.

* * * * *

(b) Durability data vehicles: Each durability data vehicle shall be driven, with all emission control systems installed and operating, for 50,000 miles or such lesser distance as the Administrator may agree to as meeting the objectives of this procedure. Emission measurements from a cold start, taken in accordance with §§ 85.81 and 85.82, shall be made at the following mileage points: 0, 4,000, 8,000, 12,000, 16,000, 20,000, 24,000, 28,000, 32,000, 36,000, 40,000, 44,000, and 50,000.

(c) All tests required by this subpart to be conducted after 4,000 miles of driving or at any subsequent test point listed in paragraph (b) of this section may be conducted at any accumulated mileage within 250 miles of each of those test points.

* * * * *

(h) Emission testing of any type with respect to any certification vehicle other than that specified in this subpart is not allowed except as such testing may be specifically authorized by the Administrator.

3. Section 85.92 of Part 85, Title 40 of the Code of Federal Regulations, as applicable to 1975 and later model light duty vehicles, is proposed to be amended, as follows:

§ 85.92 Compliance with emission standards.

* * * * *

(c) * * *

(1) * * *

(l) * * *

(*b*) All emission data from the tests conducted before and after the scheduled maintenance provided in § 85.90 (a)(1).

* * * * *

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1036]

[Docket No. AD 179-A36]

MILK IN THE EASTERN OHIO-WESTERN PENNSYLVANIA MARKETING AREA

Decision on Proposed Amendments to Marketing Agreement and to Order

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Cleveland, Ohio, on January 25–28, 1972, pursuant to notice thereof issued on January 7, 1972 (37 F.R. 465).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Regulatory Programs, on July 17, 1972 (37 F.R. 14393) filed with the Hearing Clerk, U.S. Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

1. Under "1. *Pool plant qualifications.*", the first paragraph is changed.

2. Under "2. *Diversion of producer milk.*", four paragraphs are added thereto.

3. "3. *Location adjustments.*" is completely changed.

4. Under "4. *Butterfat differential.*", the eighth and ninth paragraphs are deleted.

5. Under "7. *Miscellaneous and conforming changes.*", a paragraph is added thereto.

The material issues on the record of the hearing relate to:

1. Pool plant qualifications.
2. Diversion of producer milk.
3. Location adjustments.
4. Butterfat differentials.
5. Class I price.
6. Classification provisions.
7. Miscellaneous and conforming changes.

Findings and Conclusions

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Pool plant qualifications.* (a) *Balancing plant.* A milk processing plant that is operated by a cooperative and is approved by a duly constituted health authority to handle milk for fluid consumption should be accorded pool plant status if, during the month, a quantity of fluid milk products that is not less than a specified percentage (65 percent in September–April and 50 percent in other months) of its producer members' milk is received at pool distributing plants, either by direct delivery from the producers' farms or as a shipment from the cooperative's supply plant.

Enabling such a plant to qualify as a pool plant was proposed by a principal cooperative in the market. There was no opposition to the proposal at the hearing.

A plant operated by the proponent cooperative, which now must qualify for pooling by meeting the pooling requirements for a supply plant, serves the market as a "balancing plant." In that capacity it enables proprietary plant operators to tailor their receipts each day to their bottling needs. A bottling plant that receives milk by direct delivery from the farms of designated producer members of the cooperative may accept a part or none of such deliveries on any day. That is, the total deliveries of such producers on the days the bottling plant is not operated, and the amounts in excess of its Class I needs on other days, are received at the cooperative's plant. When the direct deliveries of the producers assigned to such plants are inadequate for its needs, the bottling plant obtains from the cooperative's plant supplemental supplies for the balance of its needs.

The cooperative claims that it is becoming increasingly difficult to qualify its plant for pooling on the basis of its shipping performance as a supply plant. This is because the cooperative's plant is operating mainly as an equalizing, or balancing, plant in handling the reserve supplies associated with the Class I requirements of the increasing number of pool distributing plants it serves. Under these circumstances, the cooperative contends, to continue to require its balancing plant to qualify under the pooling requirements of a supply plant will force it to make unnecessary and uneconomic movements of milk.

The balancing plant now serving the market (which now qualifies for pooling as a supply plant) used 246 million pounds of milk for manufacturing in 1971. This represented supplies that were not needed by buying handlers for Class I purposes. As might be expected, the quantities of milk used for manufacture at this plant were lowest during those months of the year when the market's Class I sales were highest relative to producer deliveries. Conversely, the quantities of milk utilized in the balancing plant for manufacture were highest in the months when the Class I needs of the market were lowest relative to production. In 1971 the average daily quantity of milk utilized for manufacture at the balancing plant was 1,015,000 pounds in May through August, and 502,000 in the other 8 months of the year.

Requiring that a quantity of fluid milk products that is at least 65 percent of a cooperative's member producer milk received at pool plants during the month, either by direct delivery from such members' farms or as a shipment from the cooperative's balancing plant, is a reasonable basis to qualify such plant for pooling in September through April. In the months of May through August, when the quantity of reserve milk in the pool is substantially greater than that in the other months, a 50-percent requirement (instead of 65 percent) to qualify a balancing plant to pool is an appropriate basis for determining association with the market.

In proposing the above percentages, the proponent cooperative stated that the pool distributing plants that it supplies are basically Class I operations. As a consequence, the percentages listed above would tend to approximate the actual utilization of the milk of their producer members. Percentages proposed by the cooperative and herein adopted also approximate the Class I utilization for the total market for the months to which they apply.

It was not indicated that any plant other than the proponent's is now serving the market as a balancing plant. Proponent stated, however, that its proposal is intended to enable any cooperative to pool one or more of its plants that meet the requirements herein adopted.

A cooperative should be permitted to qualify two or more plants with manufacturing facilities for pooling as balancing plants if such plants collectively meet the standards herein adopted. The balancing plant function performed by a cooperative for the market would in no way be diminished, and might even be enhanced, if two or more plants were considered as a unit to qualify them for pooling as balancing plants.

Enabling a cooperative's balancing plant to obtain pool-plant status under the conditions adopted in this decision will contribute to the orderly marketing of producer milk under the order. When the production of dairy farmers regularly supplying the market is not needed at the bottling plant to which it is usually assigned, their milk will be pooled by delivery to the balancing plant. The plant thus is an assured outlet for reserve milk without involving arrangements under which the producers' milk would need to be diverted from the bottling plants in order to maintain pool status.

A cooperative should be permitted at any time to request nonpool status for a plant that would qualify for pooling as a balancing plant unless such plant during the same month would qualify for pooling on the basis of its performance as a distributing plant or a supply plant. However, if the cooperative elects nonpool status for a balancing plant, such plant could not be reinstated for pooling as a balancing plant in the next 12 months. If a balancing plant were allowed to move from pool to nonpool status and back in shorter periods, it could not be considered as a plant on

which the market could depend to perform the function of a balancing plant.

A balancing plant should not be eligible to qualify as a pool plant under this order if it qualified in the same month as a pool plant under another order and the volume of fluid milk products (except filled milk) disposed of from such plant in the other order's marketing area as route disposition and to fully regulated distributing plants under that order was greater than the volume of route disposition in this marketing area and transfers to pool distributing plants under this order during the same month from that plant. Such a provision will preclude the pooling in the Eastern Ohio-Western Pennsylvania order a plant with primary association in another order market.

(b) *Pooling a supply plant in March–August based on its supplying the market in the preceding September–February period.* The requirements for pooling a supply plant in March through August based on its supplying the market in the preceding September through February should be modified.

To qualify for pooling in any individual month a supply plant must move to pool distributing plants, by transfer or diversion, not less than 50 percent during the months of September, October, and November (40 percent in other months) of the milk received from dairy farmers (excluding that diverted from other plants) at such plant during the month. It may count also toward such percentage its route disposition in the marketing area. A supply plant thus qualified for each month of September through February is accorded "automatic" pool plant status for the following March through August, i.e., without being required to ship.

The provision to count route disposition in the marketing area the same as a shipment to a pool distributing plant in determining qualification to pool was instituted in the order effective October 1, 1970. At the present hearing it was proposed that the order be clarified as to whether such disposition is to be counted in determining whether a supply plant qualifies for automatic pooling in the March–August period.

Qualifying a supply plant for pooling in March through August only on the basis of its transfers and diversions to pool distributing plants in the preceding September–February period recognizes the supply plant function of such a plant. When the automatic pooling provision was instituted in the order, it contemplated that a supply plant would qualify for automatic pooling in March–August solely on the basis of transfers and divisions to pool distributing plants in the preceding September through February. It was not contemplated at that time, or has it ever been proposed, that its route disposition would be credited as performance toward its automatic pool status as a supply plant.

Accordingly, it is concluded that the order should be clarified by providing for automatic pooling in the March–August period for a supply plant only on the basis of its actual shipments and diversions to pool distributing plants in the preceding months of September through February.

(c) *Specifying plant at which diverted milk shall be pooled.* The order should be clarified to specify that all milk diverted from a pool distributing plant to other plants (except another pool distributing plant) shall be considered as having been received at the distributing plant in determining its qualification to pool.

To qualify as a pool plant for each month, a distributing plant must have route disposition of 50 percent (40 percent in April–August) of its receipts of fluid milk products. In addition, its route disposition in the marketing area during the month must be at least 15 percent of such receipts.

For determining its pooling qualification, a plant's receipts now include fluid milk products (except filled milk) physically received at such plant or diverted as producer milk to a nonpool plant. As proposed at the hearing, milk diverted from a distributing plant to a pool supply plant also would be considered as a receipt at the distributing plant in determining its pooling qualification.

Prior to October 1970 such diversions were considered as a receipt at the pool supply plant to which diverted. The order was amended effective October 1, 1970, however, to exclude milk diverted to a pool supply plant as a receipt at such plant in determining its pooling qualifications. That change necessarily means that such diverted milk be considered a receipt at the plant with which it is primarily associated, the distributing plant from which diverted. The amendment adopted by this decision provides the appropriate language to accomplish this.

2. *Diversion of producer milk.* Milk diverted from a pool plant to another pool plant or to a nonpool plant should be priced at the location of the plant to which diverted.

Diversions to nonpool plants are now priced at the location of the pool plant from which diverted. Likewise, milk of a producer diverted from the pool plant at which his milk is customarily received to another pool plant is now priced at the location of the plant from which diverted, to the extent that his number of days' production involved in the diversion does not exceed his number of days of production physically received at the plant from which diverted. Diversions to pool plants in excess of such limit are priced at the location of the plant to which diverted.

Changes in the diversion provisions were considered at the hearing as well as proposals to revise location adjustments. As provided by this decision, the location adjustments are changed to recognize the greater value of producer milk f.o.b. plants in or near the principal population centers in the marketing area, as compared to its value at other locations. In view of this, it would be inconsistent to continue to price milk as if delivered to a plant in or near the principal population centers in the market when actually delivered as diverted milk to a plant at a location at which a different price is appropriate based on the location adjustment provisions adopted in this decision.

The purpose of the diversion provisions is to facilitate marketing the reserve milk that is a necessary part of the market's supply. Because of variations in market needs and in production, the milk of each producer is not needed every day for processing as fluid milk at the plant to which it is customarily delivered. It is necessary, however, that there be a reserve of qualified milk available for the fluctuating needs of handlers serving the market. At times, therefore, when milk of a dairy farmer regularly supplying the market is not needed at the plant to which it is usually shipped, it can be handled most economically by moving it directly as diverted milk from the farm to another pool plant where it is needed for Class I purposes or (when it is not needed for Class I purposes) to a nearby manufacturing plant, whether it be a pool plant or a nonpool plant.

The location adjustments adopted by this decision appropriately reflect the relative values for producer milk received at pool plants according to their respective locations. When producer milk is received as diverted milk at a nonpool plant, its location value is similar to that of milk delivered by producers to a pool plant at the same distance from the market.

In its exceptions to the recommended decision, a cooperative asked that the diverted milk of a producer be priced at the location of the plant to which diverted only when more than 30 percent of his deliveries during the month is diverted milk. The cooperative stated that such provision is desirable because most distributing plants operate only 4 or 5 days a week, and the milk of producers regularly assigned to such plants must be diverted on the remaining days of the week. As stated by the cooperative, "Unless the order accommodates this balancing function in relation to zone pricing, orderly marketing will suffer and some producers will benefit at the expense of other producers with different net prices to producers in the same area."

Most pool distributing plants under the order are located in the zones (2, 3, and 4) in which plus location adjustments apply. On days when the milk of producers assigned to such plants is not needed by them, it is diverted to other plants for manufacturing. The plants to which milk is diverted are located principally in areas where no location adjustment, or a minus location adjustment, would apply as provided by this decision.

To adopt the provision proposed by the cooperative in its exceptions (which could price as much as 30 percent of a producer's deliveries diverted to a plant at which no location adjustment applies at the price applicable at a plant where a higher price applies) could nullify the effect of the order change adopted herein, i.e., pricing producer milk based on the location of the plant at

Zone 3 would include Cuyahoga and hauling expense. The cooperative's

In this market the current problem of throughout the marketing area and be

competition with milk from plants

V37-216-NOV 8 72 XUM

which the milk is received directly from the farm.

The cooperative's proposed provision would result in different prices being paid to producers for milk physically delivered to the same plant during the month. For example, if 30 percent of the milk of a producer shipping to a pool distributing plant in Zone 4 (plus 10-cent location adjustment) were physically delivered as diverted milk to a pool supply plant in Zone 1 (no location adjustment) the producer would receive the plus 10-cent location adjustment for the diverted milk. On the other hand, the producer whose entire production was delivered to the pool supply plant would receive the Zone 1 price, 10 cents less than that paid to producers for milk diverted to the same plant from a Zone 4 plant. It cannot be concluded that such a provision would promote equity among producers or be in the best interests of the market.

3. *Location adjustments.* Location adjustments (the amounts by which the Class I price and the uniform price are adjusted for milk received at plants variously located) should be based on a plant's location relative to the major consumption centers in the market.

For the purpose of applying location adjustments, the marketing area should be divided into three zones designated as follows:

Zone 1 would include the Ohio counties of Ashtabula, Carroll, Geauga, Guernsey (limited to the townships of Londonderry, Millwood, and Oxford), Harrison, Holmes, Monroe, Portage, Tuscarawas, Wayne, Ashland (except the townships of Ruggles, Sullivan, and Troy), Stark (limited to Sugar Creek township) and Trumbull (limited to the townships of Bazetta, Bloomfield, Bristol, Champion, Farmington, Fowler, Greene, Gustavus, Hartford, Johnston, Kinsman, Mecca, Mesopotamia, Southington, and Vernon); and the Pennsylvania counties of Clarion (limited to the townships of Ashland, Beaver, Licking, Madison, Perry, Piney, Richland, Salem, and Toby), Crawford, Erie, and Venango.

Zone 2 would include the Ohio counties of Belmont, Columbiana, Jefferson, Mahoning, Stark, Summit, Lorain (limited to the townships of Amherst, Avon, Avon Lake, Black River, Carlisle, Columbia, Eaton, Elyria, Grafton, Ridgeville and Sheffield), Medina (except the townships of Chatham, Homer, Litchfield, and Spencer), Stark (except Sugar Creek township), Trumbull (limited to the townships of Braceville, Brookfield, Howland, Hubbard, Liberty, Lordstown, Newton, Warren, Weathersfield, and Vienna); the Pennsylvania counties of Armstrong, Beaver, Butler, Fayette, Greene, Lawrence, Mercer, Washington, and Westmoreland (except the boroughs of Bolivar, Donegal, Ligonier, New Florence, and Seward and the townships of Cook, Donegal, Fairfield, Ligonier, and St. Clair); and the West Virginia counties of Barbour, Brooke, Doddridge, Hancock, Harrison, Lewis, Marion, Marshall, Monongalia, Ohio, Preston, Randolph, Taylor, Tucker, Tyler, Upshur, and Wetzel.

Zone 3 would include Cuyahoga and Lake Counties, Ohio, and Allegheny County, Pa.

Zone 4 would include Allegheny County, Pa.

No location adjustment should apply at plants in Zone 1. At plants in Zone 2 the location adjustment should be plus 5 cents; at plants in Zone 3, plus 8 cents; and at plants in Zone 4 plus 10 cents.

For a plant outside the marketing area, the Class I and uniform prices should be those applicable nearest to the plant of six cities (Canton and Cleveland, Ohio; Erie, Pittsburgh, and Uniontown, Pa.; and Clarksburg, W. Va.) that are now used as basing points for determining location adjustments, adjusted by a reduction of 1.5 cents for each 10 miles or fraction thereof that the plant is located from the city hall of such nearest city.

The order now provides for two zones for pricing milk at plants in the marketing area. At plants in the presently designated Pittsburgh district (that portion of the marketing area that is either in West Virginia or within 80 miles of the Pittsburgh city hall), the applicable Class I and uniform prices are 10 cents more than at plants in the remainder of the marketing area, which is currently designated as the Cleveland-Erie district. At plants outside the marketing area, the location adjustment rates are essentially the same as those adopted in this decision, except that they are applicable only at plants more than 85 miles from the six specified basing points.

The principal cooperative in the market proposed that the marketing area be divided into three zones for the purpose of applying location adjustments. As proposed by the cooperative, Zone 3 would include only Allegheny County, Pa. Zone 2 would include the Pennsylvania counties of Armstrong, Beaver, Butler, Fayette, Greene, Washington, and Westmoreland; the Ohio counties of Belmont, Cuyahoga, Guernsey, Harrison, Jefferson, Lake, and Monroe; and the 17 West Virginia counties in the marketing area. Zone 1 would include the remaining territory in the marketing area.

As proposed by the cooperative, no location adjustment would be applicable at plants in Zone 1. At Zone 2 plants, the location adjustment would be plus 8 cents and at Zone 3 plants, plus 13 cents. At a plant outside the marketing area, the Class I and uniform prices would be those applicable at the nearest of the six designated cities for measuring location adjustments, less 3 cents, and less an additional 1.5 cents for each 10 miles or fraction thereof that such plant is located from the nearest of the six cities.

The proponent cooperative emphasized that the purpose of its location adjustment proposal is to make it economically feasible for producers to ship directly from their farms to bottling plants in the principal population centers in the marketing area, instead of to places nearer their farms where they would incur less hauling expense. The cooperative's spokesman stated that its proposal contemplated no increase in the total value of Class I milk in the pool. That is, the total cost to handlers for Class I milk purchased from producers, as proposed, would approximate the present aggregate value of producer milk in Class I.

The operator of a pool plant in Youngstown, Ohio, supported the cooperative proposal. It would include such plant in Zone 1, at which no location adjustment would apply. Such plant is now in the Pittsburgh district and is subject to a plus 10 cent location adjustment.

A pool plant operator in Clarksburg, W. Va., proposed that no location adjustment apply at plants in the West Virginia portion of the marketing area. He contended that West Virginia handlers should not continue to be subject to the same location pricing as Pittsburgh handlers, particularly since none of the West Virginia handlers sell in Pennsylvania.

Five handlers whose pool plants and principal sales areas are within that contiguous territory made up of the northernmost West Virginia counties in the marketing area and the nearby Ohio counties of Belmont, Jefferson, Harrison, Monroe, and Guernsey, proposed that no location adjustments apply at plants in these counties. They contend that they should not be subject to the Pittsburgh district location pricing (as they now are) because their competition for sales is predominately with milk from regulated plants at locations at which the present and proposed applicable Class I prices are lower.

Handlers operating plants in Allegheny County, Pa., objected to any change in the present location pricing. The principal basis for their objection to the location pricing proposed by the cooperative is that the Class I price for plants in Allegheny County would be increased 4 cents while the Class I price for plant operators in surrounding counties, with whom they have substantial competition, would be decreased 1 cent.

The spokesmen for 15 handlers in the northern Ohio portion of the marketing area, principally Cuyahoga County, likewise opposed any change in location pricing. The location adjustment proposed by the cooperative would increase their Class I price 8 cents. This, they claim, would place them at a disadvantage in competing for sales in the Cleveland area with milk distributed from plants located elsewhere at which no location adjustment would apply.

A relatively small cooperative in northern Ohio also opposed any change from the present location pricing. The pool plant to which its producer members ship is not now subject to any location adjustment. Neither would it be subject to a location adjustment under the hearing notice proposal. The cooperative opposed the proposed location pricing, contending that it would result in its members subsidizing the higher blend prices to be paid to producers delivering to plants at which plus location adjustments would apply.

In this market the current problem of location pricing is essentially one of insuring adequate supplies at the main, but widely separated, population centers of the market, where a high proportion of the market supply is processed for distribution as fluid milk products.

Fluid milk products are bulky and perishable, and incur a relatively high transportation cost when they are moved a considerable distance. The location adjustment provisions assist in facilitating, under the minimum price provisions, the movement of milk from supply plants to the points where processed for Class I uses. Since minus location adjustments apply only at outlying plant locations, no minus location adjustment applies when milk is received directly from the farm at a plant in the marketing area. The transportation or hauling cost on such milk is paid for by the individual producer and the hauling rate is not fixed by the order. Location price adjustments reflect, however, the lesser value of milk when received at an outlying plant location, or when diverted to an outlying location.

When milk is received at a supply plant, located a considerable distance from the market, the handler, rather than the producer, incurs the cost of moving that milk from the outlying plant to the market center for processing. Under these conditions, the value of producer milk delivered to a supply plant located some distance from the central market reduces in proportion to the distance and the cost of transporting such milk from the plant of first receipt to the distributing plant. If a distributing plant is located at a considerable distance from any of the main centers of population in the marketing area, the price at such plant will reflect a value relative to the market center, equivalent to that of milk received at a supply plant similarly located.

A primary consideration in establishing location adjustments is to identify the major consumption centers in the marketing area. Of the 8.5 million population (1970 census) in the Eastern Ohio-Western Pennsylvania marketing area, 2.4 million reside in the several counties making up the Pittsburgh Standard Metropolitan Statistical Area [1] (SMSA), and 2.1 million in the Cleveland SMSA.

The principal concentration of population in the Pittsburgh SMSA is in Allegheny County. The population of the Cleveland SMSA is primarily that of Cuyahoga and Lake Counties.

The 17 pool distributing plants in Allegheny County and the 16 in Cuyahoga and Lake Counties process a high portion of the total Class I milk priced under the order. They are not only the major distributors in these counties but also have substantial distribution in other parts of the marketing area. Producer supplies of milk are moved to plants in these major population centers in the market from various locations throughout the marketing area and beyond.

Greater monetary incentive is needed if producers, responding to the minimum prices established by the order, are to deliver adequate quantities of milk to plants in these population centers when alternative plant outlets nearer their farms are available. A producer whose farm is nearer to a secondary population center in the marketing area than to Pittsburgh or Cleveland frequently can achieve a better net return, after paying hauling cost, by shipping to the secondary market. This has been particularly true with the price realized for milk delivered to Cleveland being the same as that for milk delivered to any other point in the marketing area, except the Pittsburgh district where a 10-cent higher price has applied.

Also, all diverted milk is now priced at the plant from which diverted. This enables producers to receive a price f.o.b. the marketing area location even though their milk actually is diverted to, and physically received at, a plant at a distance from the marketing area. Provision for pricing diverted milk at the location of the plant to which diverted is made elsewhere in this decision.

In providing milk for Metropolitan Cleveland plants, the cooperative that is the major supplier of Cleveland handlers currently finds it necessary to subsidize the hauling of producer milk to such plants to substantial degree to insure such plants adequate supplies for their Class I milk needs.

Although producers proposed an increased location adjustment for Pittsburgh area plants, it was not shown that the present plus 10-cent adjustment for the Pittsburgh area (Allegheny County) is not inducing delivery of adequate supplies of milk for plants in that area. Moreover, the smaller location adjustment to be applicable in the counties adjacent to and nearby Pittsburgh, as provided in this decision, will make shipping to Pittsburgh area handlers relatively more attractive than at present. Heretofore, producers receive the same plus location adjustment for milk delivered to plants in these counties as when shipped to Pittsburgh.

The recommended decision proposed a plus 10-cent location adjustment (compared to 8 cents provided herein) at plants in Cuyahoga and Lake Counties. Exceptions of Cleveland area handlers claim the proposed 10-cent adjustment would disadvantage them in competition with milk distributed from plants in the lower-priced zones. The exceptors stressed that the location pricing at their plants and at those in nearby counties (where a plus 5-cent location adjustment is provided by this decision) should be the same, or that the difference between the applicable Class I prices at Cleveland area plants and those in the nearby counties should be reduced.

About 30 percent of the total Class I distribution in Cuyahoga and Lake Counties emanates from plants in other counties. Also, there is substantial distribution from Cuyahoga County and Lake County plants outside these counties in competition with milk from plants in lower-priced zones.

At present, a number of relatively large plants in the counties adjacent to and near Cuyahoga County are attractive outlets for the milk of producers as well as plants in metropolitan Cleveland (in Cuyahoga and Lake Counties). Since Cleveland is located on Lake Erie, the supply of producer milk for these plants must move from the south past the plants of other regulated handlers to Cleveland area plants.

Recognition is given to the fact of handler competition involving interzone movements of milk. This must be weighed along with the fact of the greater cost (than is incurred at plant locations nearer the principal production areas for the market) incurred by producers supplying milk f.o.b. Cleveland area plants from their farms. Producers should not be required, under order terms, to absorb the extra cost thus involved, and thereby realize a lower net return for milk delivered to plants in the metropolitan Cleveland area than for milk delivered to many other regulated plants under the order. The differential provided will promote appropriate distribution of supplies to plants without undue expense in connection therewith being incurred by a particular group of producers. The plus 8-cent location adjustment (over base zone price) adopted in this decision will provide needed incentive for producers to supply the Class I needs of Cleveland area plants.

The plus 5-cent location adjustment for Zone 2 adopted by this decision would be applicable in the secondary population centers in the market and in those counties adjacent to and in the vicinity of Allegheny and Cuyahoga and Lake Counties. The regulated plants in these primarily urban counties are geographically somewhat nearer the farm production area than are the plants in Cleveland and Pittsburgh. The cost of transporting farm supplies of milk to these secondary population centers is less than for transporting it the greater distances to Cleveland or Pittsburgh. Providing for a lesser location adjustment (of plus 5 cents) at these Zone 2 plants than at Zone 3 and Zone 4 plants gives appropriate recognition to this cost difference.

Seventeen West Virginia counties, currently in the Pittsburgh district, are included in Zone 2, as defined herein. Also, the plants in the Pennsylvania counties of Armstrong, Beaver, Butler, Fayette, Greene, Lawrence, Mercer, Washington, and Westmoreland, likewise in the Pittsburgh district, are moved to Zone 2. Handlers in these areas do not experience the same difficulty in obtaining supplies as do Pittsburgh handlers. This is because the plants in these areas are nearer to the principal production area than are Pittsburgh plants.

There is a substantial overlapping of the sales areas of West Virginia regulated handlers in the West Virginia portion of the marketing area. In addition, these handlers compete for sales in the West Virginia portion of the marketing area with fluid milk products emanating

[1] As defined by the Bureau of the Census of the U.S. Department of Commerce.

V 37-216 NOV 8 72 XUM

from plants in Ohio and Pennsylvania regulated by this order and from plants regulated by the Ohio Valley order.

The Ohio and Pennsylvania pool plants with distribution in West Virginia are included in Zone 2 in this decision, the same as West Virginia plants. Presently some of these plants are not subject to the 10-cent higher Pittsburgh district Class I price as are the West Virginia plants. Also, the $1.85 Class I price differential provided by this decision in conjunction with the 5-cent lower location adjustment will result in a $1.90 Class I differential applicable at West Virginia plants compared to $1.97 at present.

The revised location pricing adopted in this decision will place West Virginia handlers in a more equitable competitive position with milk distributed in West Virginia from plants in other States that are regulated by this order and the Ohio Valley order.

The Ohio counties of Belmont, Columbiana, Jefferson, Mahoning, and Summit, those portions of Lorain and Medina Counties that are in the marketing area, Stark County (except Sugar Creek township), and the 10 southernmost townships of Trumbull County should also be in Zone 2.

The southern portion of Trumbull County, which is mostly urban, contains a substantial portion of the Youngstown-Warren Metropolitan area. The population of the 10 southern townships is about 190,000 compared to about 43,000 in the 15 northern townships of such county. Milk at plants in these areas are now subject to Pittsburgh district pricing.

The other Ohio counties to be included in Zone 2, Stark (except Sugar Creek township), Summit, Lorain, and Medina, are now in the Cleveland-Erie district. A plus location adjustment of 5 cents in these counties should provide sufficient incentive to attract adequate supplies of milk to the city plants in these counties. In addition, a 3-cent difference in price between plants in Cuyahoga and Lake Counties and these nearby counties should be adequate to move sufficient milk from the production area the additional distance to Cleveland area plants.

In the recommended decision, Sugar Creek township in Stark County was included in Zone 2 (plus 5-cent location adjustment). Substantial quantities of producer milk are diverted from city bottling plants to a nonpool manufacturing plant at Brewster in rural Sugar Creek township, the western and southern limits of which border on territory in Zone 1 (no location adjustment).

A major cooperative excepted to the plus location adjustment for the Sugar Creek vicinity. The cooperative's regulated plant at Orrville in adjacent Wayne County (Zone 1) receives and processes a large proportion of the market's reserve supply of producer milk.

The Orrville and Brewster plants are approximately the same distance from major consumption centers in the marketing area. (e.g., Orrville is about 60 and Brewster about 64 miles from Cleveland.) If the location pricing proposed in the recommended decision for Sugar Creek township were adopted, the Orrville plant would be at a competitive disadvantage since the uniform price payable to producers at that location would be 5 cents less than that for producer milk diverted to the nearby Brewster plant.

Providing for the same location pricing at the Orrville and Brewster locations will tend to insure orderly marketing of producer milk in this area, in which are located two of the principal plants to which milk is moved directly from producers' farms when it is not needed by city bottling plants for Class I purposes. It is appropriate, therefore, that Sugar Creek township be in Zone 1.

The territory in the marketing area that is not included in either Zone 4, Zone 3, or Zone 2, as adopted in this decision, should be included in Zone 1. There has been no problem of inducing adequate supplies of milk for plants in this area at the order prices. None of the proposals at the hearing suggested a location adjustment for plants in Zone 1.

As earlier stated, the location adjustment for a plant outside the marketing area should be based on its distance from the nearest of the following city halls: Canton and Cleveland, in Ohio; Erie, Pittsburgh, and Uniontown, in Pennsylvania; and Clarksburg, in West Virginia. There were no proposals at the hearing to change these basing points for determining location adjustments for out-of-area plants. For example, if the nearest basing point to such plant outside the marketing area were Pittsburgh (in Zone 4), the location adjustment for the plant would be computed on the Class I and uniform prices applicable in Zone 4. This method is essentially the same as now provided in the order.

As proposed by producers, and adopted in this decision, minus location adjustments would apply at all plants outside the marketing area at the rate of 1.5 cents for each 10 miles or fraction thereof that a plant is from the nearest of the six designated basing points. The order now applies location adjustments only at a plant more than 85 miles from its basing point. There was no support at the hearing for continuing to exempt all plants within 85 miles of the basing points from the location adjustment provisions.

The hearing proposal of the cooperative provided that in addition to a minus location adjustment of 1.5 cents for each 10 miles, the applicable location adjustment be further reduced by 3 cents. This amount is not now included in computing the minus location adjustments under the order.

The cooperative stated that a 3-cent reduction in the location adjustment at all supply plants outside the marketing area is desirable to "overcome the inertia" to move milk to the market. It was not demonstrated, however, that the rate of 1.5 cent for each 10 miles now included in the order, and continued by this decision, is inappropriate. This rate is representative of the cost of transporting milk. It is the same rate that is commonly accepted and used in Federal orders for similar purpose.

Since this decision provides for minus location adjustments at all supply plants outside the marketing area instead of only at those more than 85 miles from designated basing points, the Class I and uniform prices at the three supply plants now under the order, all of which are within 85 miles of a designated basing point, would be reduced 4.5, 7.5, and 13.5 cents, respectively. These adjustments are based on the location of these plants from established basing points in the marketing area at the rate of 1.5 cents for each 10 miles.

Exceptions filed on behalf of some of the handlers operating plants in and near Cuyahoga County, Ohio, ask that the order's present location pricing applicable to Class I milk not be changed and that the location adjustments provided in the recommended decision, and adopted herein, apply only to the uniform price paid to producers. The same handlers requested that the hearing be reopened unless the location pricing applicable to Class I milk proposed in their exceptions is adopted in this decision.

The location adjustments as applied to the Class I and uniform prices reflect the value of milk at specified locations after giving consideration to transporting such milk from producers' farms to plants at such specified locations. This is generally accomplished in Federal orders, and is currently effectuated in the eastern Ohio-western Pennsylvania order, by providing the same location pricing to the Class I price paid by handlers and to the uniform price paid to producers. Appropriate reflection of these relative values is made at the rate specified for milk moved in fluid form.

To be useful in meeting fluid requirements at urban bottling plants, milk must be moved in fluid form when transported at the handler's expense from an outlying plant. For the producer, the alternative for delivery to an outlying plant is to deliver his milk to the urban plant, again in fluid form, to serve the fluid requirements of the plant and to enjoy the higher price of the urban location. Applying a similar rate to Class I milk moved on an interplant basis and to the blend price when the producer's milk is delivered to the outlying plant location recognizes these conditions.

The handlers' requests to reopen the hearing are, in effect, presented as options. That is, they ask that either (a) the location pricing applicable to Class I milk provided in the recommended decision be set aside and that which is now provided in the order be retained, or (b) the hearing be reopened to receive further testimony on location pricing.

Requests for reopening the hearing are directed primarily at obtaining a reduction, or elimination, of the difference in zone pricing between Cleveland area plants and those nearby plants in Zone 2. Recognition has been given to this matter elsewhere in this discussion. Extensive testimony on location pricing was presented at the hearing and the

comprehensive record made was fully considered in this decision. There is no indication that conditions in the market since the hearing have so changed to warrant reopening the hearing to receive additional testimony. The requests for reopening the hearing are denied.

4. *Butterfat differential.* A single butterfat differential, 11.5 percent of the Chicago butter price for the current month, should be used to adjust the class prices and the uniform price.

Presently, the order provides for three different butterfat differentials. That for Class I is 12 percent of the Chicago butter price for the preceding month; for Class II and Class III, it is 11.5 percent of the Chicago butter price for the current month. The butterfat differential used in adjusting the uniform price is the average of the butterfat differentials for the three classes, weighted by the proportion of producer milk in each class.

The principal cooperative in the market proposed that the Class I butterfat differential be reduced from 12 percent of the butter price for the preceding month to 11.5 percent of the butter price for the current month. This proposal was supported at the hearing by other producer associations, which, together with proponent, represent a substantial majority of the 9,500 producers on the market. In proposing a lower Class I butterfat differential, producers contended that the values now assigned to butterfat and skim milk in Class I products do not reflect the current market values of these components of milk.

One producer group opposed a reduction in the Class I butterfat differential. This cooperative contended that its members would receive less money for butterfat in milk in excess of 3.5 percent butterfat. The average butterfat test of the production of this cooperative's members, 3.85 percent, is above the market average.

Handlers spoke strongly against reducing the Class I butterfat differential. Handler witnesses emphasized that reducing the Class I butterfat differential without making any change in the Class I price would cause an unwarranted increase in their cost of Class I milk. Handlers took the position that if the Class I butterfat differential were reduced, an adjustment should be made in the Class I price differential in order that their cost of Class I milk would not be changed.

Indicative of the declining proportion of butterfat in Class I sales is the continuous decline in the average test of fluid milk products sold in the Federal order marketing areas. In 1966 the average butterfat test in 66 Federal order markets for such sales was 3.53 percent.[1] This percentage declined from year to year, and in 1971 the comparable average butterfat test was 3.21 percent. On a percentage basis, the average butterfat content in these fluid milk products declined 9 percent from 1966 to 1971. It can reasonably be expected that the decline at a comparable rate will continue in the several years immediately ahead.

Under the Eastern Ohio-Western Pennsylvania order the average butterfat tests of Class I sales has been declining at a rate similar to that experienced nationally. Most recently, from 1970 to 1971, the average test of producer milk classified in Class I dropped from 3.28 to 3.15 percent, a decline of 4 percent. The increasing demand for Class I products of lower butterfat content can expect to result in a continuing decline in the average butterfat test of Class I sales under the order. Adopting the same butterfat differential for Class I milk as for other classes, as provided in this decision, gives recognition to a lower market value of butterfat in the fluid milk products in Class I.

While the butterfat content in producer milk is relatively close to the average butterfat content of whole milk sold as class I, it is now running substantially above the average test of all Class I milk. This is because fluid skim milk and lowfat milk items have become an increasing proportion of Class I sales at the expense of whole milk.

During 1971, when the butterfat in producer milk classified in Class I averaged 3.15 percent, producer deliveries averaged 3.72 percent butterfat.

The order price for Class I milk of 3.15 percent butterfat sold by handlers during 1971 averaged $6.383. This is computed by subtracting 28.7 cents (3.5 points of butterfat at 8.2 cents per point) from the average $6.67 Class I price for 3.5 percent milk. At the lower butterfat differential adopted in this decision, the adjustment in butterfat for such period would have been 27.3 cents (3.5 points of butterfat at 7.8 cents per point). This would have resulted in an average price of $6.397 for producer milk sold in Class I, 1.4 cents more than the actual Class I price ($6.383) for producer milk of 3.15 percent butterfat sold in Class I in 1971.

As indicated above, only the Class I butterfat differential is based on the butter price for the preceding month. That quotation no longer would be used for pricing under the order in the current month. The differential adopted in this decision would be based on the butter price for the current month, which butter price is now used for computing the Class II and Class III prices.

Because there is little change from month to month in the Chicago butter price, it is unnecessary to provide for average monthly butter quotations for both the current month and the preceding month for computing butterfat differentials applicable in the same month. Providing for the use of 1 average monthly butterfat quotation, that for the current month, as proposed at the hearing and here adopted, will simplify application of the order's provisions.

Since a single butterfat differential will apply to all classes of milk, such differential will determine the value of all butterfat in producer milk. If the differential is the same for each class, as proposed herein, the provisions for weighting the values of butterfat by classes become unnecessary and the same butterfat differential will be used for adjusting the producer's uniform price.

5. *Class I price.* The Class I price should be the basic formula price for the second preceding month plus $1.85 in Zone 1.

The Class I differential is now $1.87 for plants in the Cleveland-Erie district, and $1.97 in the Pittsburgh district.

Producers proposed a single Class I differential of $1.88 in conjunction with their proposal to revise the location pricing schedule under the order. Proponents stated their intention that the proposed change should return to producers the same total dollar value for Class I milk as they now receive under the order.

Adopting a Class I differential of $1.85 in conjunction with the other changes applicable to Class I milk adopted in this decision (e.g., location pricing, butterfat differential) will return to producers approximately the same aggregate amount for Class I milk that they are presently receiving. The Class I differential herein adopted is reasonable under current conditions affecting the supply and demand for milk in the market.

6. *Classification provisions.* (a) *Direct allocation of nonfluid other source milk to Class II utilization.* The order should permit the direct allocation to Class II of other source milk received in a form other than fluid milk products or fluid cream products (such as nonfat dry milk and condensed milk or skim milk) and used to produce Class II products.

Several handlers proposed a direct allocation to Class II utilization for other source milk, except that received in the form of a fluid milk product. The basis for their proposal was that there is no need to protect the local dairy farmers against the use of nonfat dry milk solids and condensed milk or skim milk in Class II products because such products involve greater cost than producer milk. They indicated that handlers rely principally on producers for a supply of milk for Class II uses, and use alternative sources only when producer milk is not available or the Class II product is modified by the addition of nonfat dry milk solids.

The major use of other source milk in Class II products is the addition of nonfat dry milk to cream products and to skim milk being used for the manufacture of cottage cheese. When supplies of producer milk are short, handlers also may reconstitute nonfat dry milk for cottage cheese production. Condensed milk or condensed skim milk may be similarly used.

Nonfat dry milk has certain processing advantages for handlers. It can be added readily to milk or milk products to increase their nonfat milk solids content. Also, its storability enables handlers to have a concentrated form of nonfat milk solids on hand at all times for emergency use. Nevertheless, any higher cost of nonfat dry milk to the handler relative to producer milk would tend to limit its use only to those situations where the nonfat dry milk provides a distinct processing advantage.

XUM
V37-216 NOV 8 72
XUM

(b) *Assignment of utilization to milk transferred to a nonpool plant.* The transfer provisions of the order should be revised so that any assignment of Class I milk at a nonpool plant to dairy farmers who the market administrator determines constitute the regular sources of supply for such nonpool plant is limited to those farmers whose milk is of bottling grade quality.

If a nonpool plant receives milk from a pool plant, the market administrator must determine the classification to be assigned the receipt of pool plant milk. This necessitates assignment of Class I utilization at the nonpool plant to its various receipts.

The order provides priorities in Class I milk assignments to the milk of dairy farmers who constitute such nonpool plant's regular sources of supply. The order does not, however, differentiate between the milk of bottling grade quality received from some dairy farmers and the manufacturing grade milk received from others at the nonpool plant. Consequently, the manufacturing grade milk may now be assigned Class I utilization before any such assignment is made to fluid milk products received from pool plants.

The manufacturing grade milk received from dairy farmers is not involved in a nonpool plant's Class I operation. Accordingly, it should not be assigned to any of the plant's Class I utilization in the process of determining the classification of pool plant milk at such nonpool plant.

(c) *Allowable Class III shrinkage on bulk cream transfers.* There should be no division of shrinkage between the transferring handler and the receiving handler on transfers of bulk cream between plants. The handler first receiving the milk should receive the full amount of allowable shrinkage associated with the processing of such milk into bulk cream. As the result of a suspension order currently in effect, the regulation so provides at the present time.

A cooperative proposed that the division of shrinkage be eliminated in order that the plant processing the bulk cream will not be disadvantaged in processing. The cooperative handles a substantial portion of the market's reserve supplies. It receives producer milk at farm weights and tests, separates such milk at its plant, and transfers large quantities of cream to other plants. The association indicated that it is experiencing losses greatly in excess of the 0.5 percent permitted a receiving operation, and that a large amount of its loss is occurring in the process of separating milk for cream.

When bulk cream is transferred between plants, it is not necessary that the receiving handler be allotted any Class III shrinkage on such transfer. Such bulk cream usually would be used in a manufactured product and be fully accounted for on a "used to produce" basis. Since the handler would report that his total receipts of bulk cream were used to produce specified Class II or Class III products, there is no remainder of the cream to be considered as unaccounted for, or shrinkage.

(d) *Limiting Class III shrinkage on transfers to other plants.* The shrinkage allowable in Class III on a pool plant's transfers to other plants should be limited to a quantity that is not more than the Class III shrinkage computed on the basis of the pool plant's total receipts.

The allowable Class III shrinkage at a plant is computed on the basis of its receipts of producer milk, milk diverted to other plants and fluid milk products received from other plants. Up to 2 percent of producer milk may be eligible for Class III shrinkage; on milk diverted from the plant, the Class III shrinkage allowance is 0.5 percent; and on bulk fluid milk products received from other plants, the allowable Class III shrinkage is 1.5 percent, except that no shrinkage is allowed on such transfers if a Class II or Class III use is requested. The order also provides for deducting from a plant's allowable Class III shrinkage 1.5 percent of the bulk fluid milk products transferred to other plants. Thus, a "negative" shrinkage allowance results when 1.5 percent of the bulk fluid milk products transferred from a plant exceeds the allowable Class III shrinkage that was computed on the basis of the plant's receipts of producer milk, its milk diverted to other plants and bulk fluid milk products received from other plants.

If, for example, a plant has receipts of 1 million pounds of producer milk, and it is buying such milk on the basis of farm weights, it is permitted actual shrinkage up to 2 percent in Class III, e.g., 20,000 pounds. If the plant has additional receipts of other source milk for which Class III utilization is requested, it receives no allowable shrinkage thereon. In the event the plant transferred 1.5 million pounds of milk to other plants, the transferor-handler must deduct 1.5 percent of such transfer, or 22,500 pounds, from the pool plant's allowable Class III shrinkage of 20,000 pounds. In such instance the transferor-pool plant would have a negative allowable shrinkage of 2,500 pounds.

The order amendments provided herein would limit the allowable shrinkage in the example cited above to zero.

(e) *Shrinkage assigned to other source milk.* The method of prorating shrinkage to producer milk and other source milk should be clarified by providing that the proration to other source milk will be limited to that in the form of bulk fluid milk products.

The order now provides for a proration of plant shrinkage to (1) the quantity of producer milk, and other source milk in bulk form for which Class II or III utilization is not requested, and (2) the quantity of remaining other source milk.

A cooperative proposed that the second category to which shrinkage is prorated be limited to that in the form of bulk fluid milk. Proponent stated that little, if any, shrinkage occurs whenever nonfat dry milk solids are used in reconstituting or fortifying a fluid milk product. The cooperative also indicated that other source milk received in the from of packaged fluid milk products should not receive any shrinkage at the plant of receipt because the principal shrinkage on such milk would have occurred at the plant where such milk was processed and packaged.

Handlers stated, contrarily, that the losses in a processing operation involving the use of nonfluid other source milk are not significantly different than the losses occurring in an operation using other source milk in fluid form.

Nonfat dry milk solids, condensed milk, and condensed skim milk are used primarily for Class III purposes. These products are also widely used to fortify fluid milk products disposed of as Class I, but the quantities so used are relatively small compared to the quantities used for other purposes. When nonfat dry milk solids or condensed milk products are used in the manufacture of a Class II or Class III milk product, the proration of shrinkage to the quantity so used is not on the basis of the actual weight of such products but on the basis of the skim milk equivalent (nonfat milk solids contained in such product plus all of the water originally associated with such solids). Accordingly, the proration of shrinkage should be limited to other source milk in the form of bulk fluid milk products in order that a disproportionate amount of shrinkage is not allocated to the manufacturing segment of a plant's operation.

7. *Miscellaneous and conforming changes*—(a) *Receipts of fluid milk products priced by an order at a pool plant from an unregulated supply plant.* No pool charge should be made on fluid milk products received at a pool plant or a partially regulated distributing plant from an unregulated supply plant when it is determined that such fluid milk products have been priced as Class I under this or any other Federal order. When an unregulated supply plant makes Class I purchases from a regulated plant under any order, the obligation to the order pool at the Class I price has been met, and there is no justification for any additional charge. On any unpriced milk received from an unregulated supply plant and allocated to Class I at a pool plant, the eastern Ohio-western Pennsylvania order will continue to provide for payment to the producer settlement fund at the difference between the Class I and uniform prices.

(b) *Definition of fluid cream product.* A definition of "fluid cream product" should be added to the order to mean cream (including aerated cream and sterilized cream) or a mixture of cream and milk or skim milk containing 10.5 percent or more butterfat. These products, when disposed of by a handler for fluid consumption, are classified in Class II.

Reference is frequently made throughout the order to the various products herein proposed to be included in the fluid cream product definition. Incorporating a definition in the order will facilitate such reference to the many order provisions concerned with these products that are herein designated as fluid cream products.

(c) *Equivalent price.* The order language providing for the "use of equivalent prices" should be modified.

The order now provides that if for any reason a price quotation required by the order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price that is required. At the hearing, it was proposed that this provision be made more definitive so as to encompass items other than price quotations that might be required for computing class prices when such prices are not available in the manner described.

Although the various quotations now used in the order are specified price quotations, a different price constituent (e.g., a price index) that is reflective of one or more price quotations might under some circumstances be instituted in the order as a basis for determining class prices. Replacing "price quotation" with "price or pricing constituent" in the order language relating to the use of equivalent prices will more appropriately express the intent of this provision of the order, and is therefore adopted in this decision.

(d) *Repositioning of location adjustment applicable to other source milk.* The provisions which provide that the Class I and weighted average price for other source milk, when adjusted for location of the shipping plant, shall not be less than the Class III price, should be repositioned in the order.

A pool plant operator's obligation to the producer settlement fund includes a payment on fluid milk products received from unregulated supply plants and allocated to Class I. The handler's obligation to the pool is determined by charging him at the Class I price and crediting him at the weighted average price. The Class I price and the weighted average price used in such computation are those applicable at the unregulated supply plant, except that each is limited so as not to be less than the Class III price.

Presently such limits to the Class I price appear in the section dealing with computation of the net pool obligation of each handler. The phrase "but not to be less than the Class III price" should be deleted from such paragraph and placed within a new paragraph to be added to the section on location adjustments to handlers.

The limit to the weighted average price at which the pool handler is credited appears in the section specifying payments to the producer settlement fund. The parenthetical phrase "not to be less than the value at the Class III price" should be deleted from such paragraph and the location differentials on nonpool milk should be revised to include such limits.

These changes, as proposed herein, remove from certain sections of the order limits to the amount by which location adjustments might decrease the Class I or weighted average price and places such limits within sections of the order dealing with appropriate location adjustments.

(e) *Accounting for packaged fluid cream products received from other plants.* The order should specify that handlers report their receipts of packaged fluid cream products from other plants. Handlers are not now required to report such receipts. The order does require, however, that handlers report their month-end inventories of packaged fluid cream products, irrespective of their source.

It was proposed that packaged fluid cream products received at a pool plant and then disposed of from the plant without further processing be treated as "pass-through" products. Under this treatment, such "pass-through" products would not be considered other source milk and would not be subject to the allocation and pricing provisions of the order.

Although no handler obligation would result under the provisions herein proposed (requiring handlers to report their receipts of packaged fluid cream products from other plants) their adoption will be helpful in establishing a more complete accounting of all processing operations within the plant that involve the use of fluid cream products. To facilitate the accounting for all fluid cream products handled at a plant, the other source milk definition should include all fluid cream products, whether in bulk or packaged form. This will preclude the recordkeeping difficulties that might otherwise be experienced in accounting separately for inventories and sales of fluid cream products that are processed in the handler's plant and those received at the plant in packaged form from other plants.

(f) *Order format.* The order format should be revised to result in a more compact order and a more precise grouping of related order provisions. In addition to redesignation of section numbers (and codified subunits), some changes have been made in section titles, introductory paragraphs, and section content. These modifications conform with the format recently incorporated in several Federal milk orders and proposed for a number of others. No substantive change in the Eastern Ohio-Western Pennsylvania order provisions will result from the adoption of the revised order format.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions, and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act.

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a marketing agreement regulating the handling of milk, and an order amending the order regulating the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

Referendum Order To Determine Producer Approval

Prior to the effective date of the order amending the order regulating the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area, a referendum shall be conducted among producers (as defined in the tentative marketing agreement) who, during the representative period, have been engaged in the production of milk for sale in the marketing area, to determine whether they favor the issuance of the order.

The representative period for the conduct of such referendum is hereby determined to be October 1972.

The agent of the Secretary to conduct such referendum is hereby designated to be the Director, Dairy Division, Consumer and Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250.

The ballots used in such referendum shall be in accordance with the provisions of § 900.400 of the general rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900).

All milk which is received at pool plants during the representative period and which is not subsequently classified as Class I milk shall be deemed to be milk not intended for fluid consumption in the marketing area.

List of Subjects in 7 CFR Part 1036

Milk marketing orders.

Proposed Amendments to Tentative Marketing Agreement

The following amendments to the tentative marketing agreement regulating the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area are proposed:

1. Section 1036.2 is revised to read as follows:

§ 1036.2 Eastern Ohio-Western Pennsylvania marketing area.

The Eastern Ohio-Western Pennsylvania marketing area hereinafter called the "marketing area" means all the territory within the boundaries of the following counties, including all territory within the boundaries of any military reservation, fort, or similar institution, which is entirely or partly within any county listed:

(a) In Ohio: Ashtabula, Belmont, Carroll, Columbiana, Cuyahoga, Geauga, Harrison, Jefferson, Lake, Mahoning, Portage, Stark, Summit, Trumbull, and Tuscarawas;

(b) In Pennsylvania: Allegheny, Armstrong, Beaver, Butler, Crawford, Erie, Fayette, Greene, Lawrence, Mercer, Venango, Washington, and Westmoreland;

(c) In West Virginia: Brooke, Hancock, Marshall, Ohio, and Wetzel; and

(d) In New York: Chautauqua.

2. Section 1036.4 is revised to read as follows:

§ 1036.4 [Reserved]

(iii) In Guernsey County: the township of Jackson;

during which it would not otherwise qualify as a pool plant.

V 37-216 NOV 8 72 XUM

REFERENDUM ORDER TO DETERMINE PRODUCER APPROVAL; DETERMINATION OF REPRESENTATIVE PERIOD; AND DESIGNATION OF REFERENDUM AGENT

It is hereby directed that a referendum be conducted and completed on or before the 30th day from the date this decision is issued, in accordance with the procedure for the conduct of referenda (7 CFR 900.300 et seq.), to determine whether the issuance of the attached order as amended and as hereby proposed to be amended regulating the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area is approved or favored by producers, as defined under the terms of the order, as amended and as hereby proposed to be amended, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The representative period for the conduct of such referendum is hereby determined to be July 1972.

The agent of the Secretary to conduct such referendum is hereby designated to be Mr. Cleo C. Taylor.

Signed at Washington, D.C., on November 3, 1972.

RICHARD E. LYNG,
Assistant Secretary.

Order[1] amending the order, regulating the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area.

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Eastern Ohio-Western Pennsylvania marketing area shall be in conformity to and in compliance with the terms and conditions of the order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Deputy Administrator, Regulatory Programs, on July 17, 1972, and published in the FEDERAL REGISTER on July 20, 1972 (37 F.R. 14393) shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein subject to the following modification in § 1036.6 as it appeared in the recommended decision.

The entire order (Part 1036), incorporating the provisions of this order, amending the order, is set forth in full herein in a revised order format. In addition to redesignation of section numbers (and codified subunits), some changes have been made in section titles, introductory paragraphs, and section content. The revised order format is concerned only with structure and makes no substantive changes in order provisions.

PART 1036—MILK IN EASTERN OHIO-WESTERN PENNSYLVANIA MARKETING AREA

GENERAL PROVISIONS

Sec.
1036.1 General provisions.

DEFINITIONS

1036.2 Eastern Ohio-Western Pennsylvania marketing area.
1036.3 Route disposition.
1036.4 [Reserved]
1036.5 Distributing plant.
1036.6 Supply plant.
1036.7 Pool plant.
1036.8 Nonpool plant.
1036.9 Handler.
1036.10 Producer-handler.
1036.11 [Reserved]
1036.12 Producer.
1036.13 Producer milk.
1036.14 Other source milk.
1036.15 Fluid milk product.
1036.16 Fluid cream product.
1036.17 Filled milk.
1036.18 Cooperative association.
1036.19 Reload point.

HANDLER REPORTS

1036.30 Reports of receipts and utilization.
1036.31 Payroll reports.
1036.32 Other reports.

CLASSIFICATION OF MILK

Sec.
1036.40 Classes of utilization.
1036.41 Shrinkage.
1036.42 Classification of transfers and diversions.
1036.43 General classification rules.
1036.44 Classification of producer milk.
1036.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1036.50 Class prices.
1036.51 Basic formula price.
1036.52 Plant location adjustments for handlers.
1036.53 Announcement of class prices.
1036.54 Equivalent price.

UNIFORM PRICE

1036.60 Handler's value of milk for computing uniform price.
1036.61 Computation of uniform price.
1036.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1036.70 Producer-settlement fund.
1036.71 Payments to the producer-settlement fund.
1036.72 Payments from the producer-settlement fund.
1036.73 Payments to producers and to cooperative associations.
1036.74 Butterfat differential.
1036.75 Plant location adjustments for producers and on nonpool milk.
1036.76 Payments by handler operating a partially regulated distributing plant.
1036.77 Adjustment of accounts.
1036.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1036.85 Assessment for order administration.
1036.86 Deduction for marketing services.

GENERAL PROVISIONS

§ 1036.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1036.2 Eastern Ohio-Western Pennsylvania marketing area.

The "Eastern Ohio-Western Pennsylvania marketing area," hereinafter called the "marketing area," means all the territory within the boundaries of the following geographical units, including all waterfront facilities connected therewith and all territory occupied by government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within the listed geographical units:

(a) "Zone 1" includes:

(1) In Ohio:

(i) The following counties in their entirety:

Ashtabula.	Monroe.
Carroll.	Portage.
Geauga.	Tuscarawas.
Harrison.	Wayne.
Holmes.	

(ii) Ashland County (except the townships of Ruggles, Sullivan, and Troy).

(iii) In Guernsey County: the townships of Londonderry, Millwood, and Oxford.

(iv) In Stark County: Sugar Creek Township.

(v) In Trumbull County: the townships of Bazetta, Bloomfield, Bristol, Champion, Farmington, Fowler, Greene, Gustavus, Hartford, Johnston, Kinsman, Mecca, Mesopotamia, Southington, and Vernon.

(2) In Pennsylvania:

(i) The following counties in their entirety:

Crawford.	Venango.
Erie.	

(ii) In Clarion County: the townships of Ashland, Beaver, Licking, Madison, Perry, Piney, Richland, Salem, and Toby.

(b) "Zone 2" includes:

(1) In Ohio:

(i) The following counties in their entirety:

Belmont.	Mahoning.
Columbiana.	Summit.
Jefferson.	

(ii) In Lorain County: the townships of Amherst, Avon, Avon Lake, Black River, Carlisle, Columbia, Eaton, Elyria, Grafton, Ridgeville, and Sheffield.

(iii) Medina County (except the townships of Chatham, Homer, Litchfield, and Spencer).

(iv) Stark County (except Sugar Creek Township).

(v) In Trumbull County: the townships of Braceville, Brookfield, Howland, Hubbard, Liberty, Lordstown, Newton, Warren, Weathersfield, and Vienna.

(2) In Pennsylvania:

(i) The following counties in their entirety:

Armstrong.	Greene.
Beaver.	Lawrence.
Butler.	Mercer.
Fayette.	Washington.

(ii) Westmoreland County (except the boroughs of Bolivar, Donegal, Ligonier, New Florence, and Seward and the townships of Cook, Donegal, Fairfield, Ligonier, and St. Clair).

(3) In West Virginia, the following counties in their entirety:

Barbour.	Ohio.
Brooke.	Preston.
Doddridge.	Randolph.
Hancock.	Taylor.
Harrison.	Tucker.
Lewis.	Tyler.
Marion.	Upshur.
Marshall.	Wetzel.
Monongalia.	

(c) "Zone 3" includes Cuyahoga and Lake counties, Ohio, in their entirety.

(d) "Zone 4" includes Allegheny County, Pa., in its entirety.

§ 1036.3 Route disposition.

"Route disposition" means a delivery (except to a plant), either directly or through any distribution facility (including disposition from a plant store, vendor, or vending machine), of a fluid milk product classified as Class I pursuant to § 1036.40(a)(1).

§ 1036.4 [Reserved]

§ 1036.5 Distributing plant.

"Distributing plant" means a plant in which fluid milk products approved by a duly constituted health authority for fluid consumption, or filled milk, are processed or packaged and from which there is route disposition in the marketing area during the month.

§ 1036.6 Supply plant.

"Supply plant" means a plant from which a fluid milk product acceptable to a duly constituted health authority, or filled milk, is transferred or diverted during the month to a pool plant.

§ 1036.7 Pool plant.

Except as provided in paragraph (e) of this section, "pool plant" means:

(a) A distributing pool plant that has:

(1) Route disposition, except filled milk, during the month of not less than 50 percent (40 percent for each month of April through August) of the total receipts of fluid milk products, except filled milk, that are approved by a duly constituted health authority for fluid consumption and that are physically received at such plant or diverted as producer milk pursuant to § 1036.13 to plants other than those qualified as pool plants pursuant to this paragraph; and

(2) Route disposition, except filled milk, in the marketing area during the month of not less than 15 percent of the receipts described in subparagraph (1) of this paragraph.

(b) A supply plant from which during the months of September, October, and November, not less than 50 percent, and in all other months not less than 40 percent, of the total quantity of milk approved by a duly constituted health authority for fluid consumption that is physically received (excluding that diverted from other plants) at such plant from dairy farmers and handlers defined in § 1036.9(c) or diverted as producer milk pursuant to § 1036.13 to pool plants and nonpool plants is transferred or diverted to and physically received in the form of fluid milk products, except filled milk, at pool plants qualified under paragraph (a) of this section or disposed of as route disposition in the marketing area.

(c) A plant that qualified as a pool plant under paragraph (b) of this section on the basis of its transfers and diversions to pool plants (exclusive of its route disposition in the marketing area) in each of the immediately preceding months of September through February shall be a pool plant for the months of March through August unless the milk received at the plant does not continue to meet the requirements of a duly constituted health authority or a written application is filed by the plant operator with the market administrator on or before the first day of any such month requesting that the plant be designated as a nonpool plant for such month and each subsequent month through August during which it would not otherwise qualify as a pool plant.

(d) A plant(s) that is approved by a duly constituted health authority to handle milk for fluid consumption, that is operated by a cooperative association, and from which during the month the quantity of fluid milk products (except filled milk) shipped to pool plants qualified pursuant to paragraph (a) of this section plus the milk physically received at such plants by direct delivery from the farms of producer members of the cooperative association is not less than 65 percent in any month of September through April and not less than 50 percent in any other month of the cooperative association members' producer milk. If the cooperative association operating a plant qualified as a pool plant pursuant to this paragraph files with the market administrator prior to the first day of any month a written request for nonpool status for such plant, the plant shall be a nonpool plant for such month and for each of the next 11 months in which it does not qualify as a pool plant pursuant to paragraph (a), (b), or (c) of this section.

(e) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant; and

(2) A plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act, unless such plant is qualified as a pool plant pursuant to this section and a greater volume of fluid milk products, except filled milk, is disposed of from such plant in this marketing area as route disposition and to pool plants qualified on the basis of route disposition in this marketing area than is disposed of from such plant in the marketing area regulated pursuant to the other order as route disposition and to plants qualified as fully regulated plants under such other order on the basis of route disposition in its marketing area.

§ 1036.8 Nonpool plant.

"Nonpool plant" means a plant (except a pool plant) which receives milk from dairy farmers or is a milk or filled milk manufacturing, processing, or bottling plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means:

(1) A nonpool plant that is a distributing plant and is not an other order plant or a producer-handler plant; and

(2) An other order plant with respect to its route disposition in the marketing area that is not priced and pooled pursuant to any order issued pursuant to the Act.

(d) "Unregulated supply plant" means:

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

FEDERAL REGISTER, VOL. 37, NO. 216—WEDNESDAY, NOVEMBER 8, 1972

(1) A nonpool plant that is a supply plant and is not an other order plant or a producer-handler plant; and

(2) An other order plant with respect to fluid milk products which were received at a pool plant from such a plant and which are not priced and pooled pursuant to any order issued pursuant to the Act.

§ 1036.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants;

(b) Any cooperative association with respect to producer milk which it causes to be diverted for its account from a pool plant of another handler to a nonpool plant;

(c) Any cooperative association with respect to milk of its producer-members which is delivered from the farm to the pool plant of another handler in a tank truck owned and operated by or under contract to such cooperative association. The milk for which a cooperative association is the handler pursuant to this paragraph shall be deemed to have been received at the location of the pool plant to which it was delivered;

(d) Any person in his capacity as the operator of a partially regulated distributing plant;

(e) Any producer-handler; and

(f) Any person in his capacity as the operator of an other order plant that is either a distributing plant or a supply plant.

§ 1036.10 Producer-handler.

"Producer-handler" means any person who:

(a) Operates a dairy farm and a distributing plant;

(b) Receives no fluid milk products from sources other than his own farm production and pool plants;

(c) Uses no milk products other than fluid milk products for reconstitution into fluid milk products; and

(d) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary for his own farm production and the operation of the processing and packaging business are the personal enterprise and risk of such person.

§ 1036.11 [Reserved]

§ 1036.12 Producer.

(a) "Producer" means any person, except a producer-handler as defined in any order (including this part) issued pursuant to the Act, who produces milk for fluid consumption in compliance with the inspection requirements of a duly constituted health authority, which milk is received at a pool plant or diverted pursuant to § 1036.13 from a pool plant to a nonpool plant or another pool plant.

(b) "Producer" shall not include a person with respect to milk that is physically received at a pool plant as diverted milk from an other order plant if a Class II or Class III classification under this order is designated for such milk and it is subject to the pricing and pooling provisions of another order issued pursuant to the Act.

§ 1036.13 Producer milk.

"Producer milk" means the skim milk and butterfat contained in milk of a producer which is:

(a) With respect to a handler defined in § 1036.9(a):

(1) Received at the handler's pool plant directly from the producer, excluding receipts of milk diverted from another pool plant;

(2) Received at the handler's pool plant from a handler defined in § 1036.9(c) that does not operate a pool plant;

(3) Diverted for the handler's account from his pool plant to a nonpool plant that is not a producer-handler plant, subject to the conditions set forth in paragraph (e) of this section; or

(4) Diverted for the handler's account from his pool plant to another pool plant, subject to the conditions set forth in paragraph (f) of this section;

(b) With respect to a handler defined in § 1036.9(b), diverted for the handler's account from a pool plant of another handler to a nonpool plant that is not a producer-handler plant, subject to the conditions set forth in paragraph (e) of this section;

(c) With respect to a handler defined in § 1036.9(c) that does not operate a pool plant, received by the handler from the producer's farm in excess of the producer's milk that is received by a pool plant operator pursuant to paragraph (a)(2) of this section; and

(d) With respect to a handler defined in § 1036.9(c) that also operates a pool plant, received by the handler from the producer's farm.

(e) The following conditions shall apply to milk diverted from a pool plant to a nonpool plant that is not a producer-handler plant:

(1) Such milk shall be deemed to have been received by the diverting handler at the location of the nonpool plant to which diverted;

(2) To the extent that it would result in nonpool plant status for the pool plant from which diverted, milk diverted for the account of a cooperative association from the pool plant of another handler shall not be deemed to have been received at such pool plant and shall not be producer milk;

(3) In any month of August through March, the quantity of milk of any producer diverted to nonpool plants that exceeds that physically received at pool plants shall be deemed to have not been received by the diverting handler and shall not be producer milk;

(4) The diverting handler shall designate the dairy farmers' deliveries that are not producer milk pursuant to this paragraph. If the handler fails to make such designation, no milk diverted by him to a nonpool plant shall be producer milk;

(5) In determining if the diversion limitations specified in this paragraph have been exceeded, the quantity of milk diverted to nonpool plants or physically received at pool plants shall be considered in terms of days of production of the producer; and

(6) Milk diverted to an other order plant shall be producer milk only if a Class II or Class III classification is designated for such milk pursuant to the provisions of another order issued pursuant to the Act and such milk is not subject to the pricing and pooling provisions of such order.

(f) Milk diverted from a pool plant to another pool plant shall be deemed to have been received by the diverting handler at the location of the pool plant to which diverted.

§ 1036.14 Other source milk.

"Other source milk" means the skim milk and butterfat contained in or represented by:

(a) Fluid milk products and bulk fluid cream products from any source except producer milk, fluid milk products and bulk fluid cream products from pool plants, and fluid milk products and bulk fluid cream products in inventory at the beginning of the month;

(b) Receipts of packaged fluid cream products from other plants;

(c) Products, other than fluid milk products, bulk fluid cream products and Class II products listed in § 1036.40(b)(3), from any source (including those produced at the plant) which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Any disappearance of nonfluid products in a form in which they may be converted into a Class I product and which are not otherwise accounted for.

§ 1036.15 Fluid milk product.

"Fluid milk product" means the following products or mixtures in either fluid or frozen form, including such products or mixtures that are flavored, cultured, modified (with added nonfat milk solids), concentrated, or reconstituted: Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, milk shake mixes containing less than 12 percent total milk solids, and mixtures of cream and milk or skim milk containing less than 10.5 percent butterfat. The term "fluid milk product" shall not include those products and mixtures listed in § 1036.40(b)(1) and (3), and (c)(1).

§ 1036.16 Fluid cream product.

"Fluid cream product" means cream (including aerated cream and sterilized cream) or a mixture of cream and milk or skim milk containing 10.5 percent or more butterfat.

§ 1036.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1036.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, known as the "Capper-Volstead Act";

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales or marketing milk or its products for its members; and

(c) To have all of its activities under the control of its members.

§ 1036.19 Reload point.

"Reload point" means a location at which milk moved from a farm in a tank truck is transferred to another tank truck and commingled with other milk before entering a plant. A reload operation on the premises of a plant shall be considered a part of the plant operation.

HANDLER REPORTS

§ 1036.30 Reports of receipts and utilization.

On or before the 8th day after the end of each month, reports of receipts and utilization for such month shall be made to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(a) Each handler operating a pool plant shall report for each of his pool plants:

(1) Receipts of skim milk and butterfat contained in or represented by:

(i) Producer milk, showing in the case of milk received directly from each producer the pounds and butterfat test and the number of days of production involved for each producer;

(ii) Fluid milk products and fluid cream products from other pool plants and from a handler defined in § 1036.9(c) that also operates a pool plant; and

(iii) Other source milk;

(2) Inventories at the beginning and end of the month of the following products:

(i) Fluid milk products; and

(ii) Fluid cream products, showing separately such inventories in bulk form and in packaged form;

(3) The utilization or disposition of all skim milk and butterfat required to be reported pursuant to this paragraph, showing separately:

(i) Total route disposition and route disposition in the marketing area, showing separately such disposition of filled milk inside and outside the marketing area; and

(ii) Transfers and diversions to other plants; and

(4) Such other information with respect to the receipts and utilization of skim milk and butterfat as the market administrator may prescribe;

(b) Each cooperative association shall report:

(1) The quantities of skim milk and butterfat contained in milk from producers for which it is the handler pursuant to § 1036.9 (b) and (c), showing:

(i) The quantity of milk delivered to each plant; and

(ii) For each producer the pounds and butterfat test of the milk and the number of days of production involved;

(2) The utilization of all skim milk and butterfat required to be reported pursuant to subparagraph (1) of this paragraph, except that contained in producer milk described in § 1036.13(a)(2); and

(3) Such other information with respect to its receipts and utilization of skim milk and butterfat as the market administrator may prescribe; and

(c) Each handler operating a partially regulated distributing plant shall report as required in paragraph (a) of this section except that receipts of bottling grade milk from dairy farmers shall be reported in lieu of receipts of producer milk. Such report shall include a separate statement showing the amount of reconstituted skim milk in route disposition in the marketing area.

§ 1036.31 Payroll reports.

(a) Each handler defined in § 1036.9 (a), (b), and (c) shall report to the market administrator on or before the 25th day after the end of the month, in the detail and on forms prescribed by the market administrator, his producer payroll for such month which shall show for each producer:

(1) His identity;

(2) The quantity of milk received from such producer and the number of days, if less than the entire month, on which milk was received from such producer;

(3) The average butterfat content of such milk; and

(4) The net amount of such handler's payment, together with the price paid and the amount and nature of any deductions.

(b) Each handler operating a partially regulated distributing plant who does not elect to make payments pursuant to § 1036.76(b) shall report to the market administrator on or before the 25th day after the end of the month the same information required of handlers pursuant to paragraph (a) of this section. In such report, payments to dairy farmers delivering milk that is approved by a duly constituted health authority for fluid consumption shall be reported in lieu of payments to producers.

§ 1036.32 Other reports.

(a) Each producer-handler shall report to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler who operates an other order plant shall report total receipts and utilization or disposition of skim milk and butterfat at the plant at such time and in such manner as the market administrator may require and shall allow verification of such reports by the market administrator.

CLASSIFICATION OF MILK

§ 1036.40 Classes of utilization.

Except as provided in § 1036.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1036.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as provided in paragraphs (b) and (c) of this section; and

(2) Not accounted for as Class II or Class III milk.

(b) *Class II milk.* Except as provided in paragraph (c) of this section, Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product;

(2) In inventory at the end of the month of packaged fluid cream products;

(3) Used to produce yogurt, sour cream, sour cream products (e.g., dips), cottage cheese, and cottage cheese curd; and

(4) Disposed of in bulk as fluid milk products or fluid cream products to any commercial food processing establishment (other than a milk or filled milk plant) for the manufacture of packaged food products (other than milk products and filled milk) for consumption off the premises.

(c) *Class III milk.* Class III milk shall be:

(1) Skim milk and butterfat used to produce frozen desserts and frozen dessert mixes, eggnog, frozen cream, butter, cheese (excluding cottage cheese and cottage cheese curd), evaporated and condensed milk (plain or sweetened), nonfat dry milk, dry whole milk, dry whey, condensed or dry buttermilk, any product containing 6 percent or more nonmilk fat (or oil), milk shake mixes containing 12 percent or more total milk solids, and sterilized products (except fluid cream products and those products listed in paragraph (b)(3) of this section) in hermetically sealed glass or metal containers;

(2) Skim milk and butterfat in fluid milk products, fluid cream products and products listed in paragraph (b)(3) of this section that are disposed of by a handler for livestock feed;

(3) Skim milk and butterfat in fluid milk products, fluid cream products and products listed in paragraph (b)(3) of this section that are dumped by a handler after notification to, and opportunity for verification by, the market administrator;

(4) Skim milk and butterfat in inventory of fluid milk products and bulk fluid cream products at the end of the month;

(5) Skim milk represented by the nonfat milk solids added to a fluid milk product which is in excess of an equivalent volume of such product prior to the addition;

(6) Skim milk and butterfat, respectively, in each pool plant's shrinkage, but not in excess of:

(i) Two percent of producer milk physically received at the plant (except that received from a handler defined in § 1036.9(c)); plus

(ii) Plus 1.5 percent of milk received from a handler defined in § 1036.9(c) and of milk diverted to such plant from another pool plant, except that if the plant operator receiving such milk files

notice with the market administrator

class in the transferee plant after the

notice with the market administrator that he is purchasing such milk on the basis of farm weights, the applicable percentage shall be 2 percent;

(iii) Plus 0.5 percent of producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the other plant purchases such milk on the basis of farm weights, no percentage shall apply;

(vi) Plus 1.5 percent of bulk fluid milk products received by transfer from other pool plants;

(v) Plus 1.5 percent of bulk fluid milk products received from other order plants exclusive of the quantity for which Class II or Class III classification was requested by the operators of both plants;

(vi) Plus 1.5 percent of bulk fluid milk products received from unregulated supply plants exclusive of the quantity for which Class II or Class III classification is requested by the handler; and

(vii) Less 1.5 percent of the quantity of bulk fluid milk products transferred to other plants that does not exceed such quantity to which percentages were applied pursuant to subdivisions (i), (ii), (iv), (v), and (vi) of this subparagraph;

(7) Skim milk and butterfat, respectively, in shrinkage of other source milk assigned pursuant to § 1036.41(b)(2); and

(8) Skim milk and butterfat, respectively, in shrinkage of milk from producers that is diverted from a pool plant to a nonpool plant by a cooperative association acting as a handler pursuant to § 1036.9(b) or in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1036.9(c), but not in excess of 0.5 percent of the receipts of milk from producers, exclusive of such receipts for which farm weights are used as the basis of receipt at the plant to which delivered.

§ 1036.41 Shrinkage.

The market administrator shall allocate shrinkage over each pool plant's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat, respectively, for each pool plant; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat, respectively, in:

(1) The net quantity of producer milk and other fluid milk products specified in § 1036.40(c)(6); and

(2) Other source milk in the form of bulk fluid milk products exclusive of that specified in § 1036.40(c)(6).

§ 1036.42 Classification of transfers and diversions.

Skim milk or butterfat in the form of a fluid milk product or a bulk fluid cream product shall be classified:

(a) At the utilization indicated by the operators of both plants, otherwise as Class I milk, if transferred or diverted from a pool plant to the pool plant of another handler, subject to the following conditions:

(1) The skim milk or butterfat so assigned to each class shall be limited to the amount thereof remaining in such class in the transferee plant after the computations pursuant to § 1036.44(a)(13) and the corresponding step of § 1036.44(b);

(2) If the transferor plant received during the month other source milk to be allocated pursuant to § 1036.44(a)(7) and the corresponding step of § 1036.44(b), the skim milk and butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor plant received during the month other source milk to be allocated pursuant to § 1036.44(a)(12) or (13) and the corresponding steps of § 1036.44(b), the skim milk and butterfat so transferred or diverted up to the total of such receipts shall not be classified as Class I milk to a greater extent than would be applicable to a like quantity of such other source milk received at the transferee plant;

(b) As Class I milk, if transferred from a pool plant to a producer-handler plant;

(c) As Class I milk, if transferred or diverted in bulk to a nonpool plant that is neither an other order plant nor a producer-handler plant, unless the requirements of subparagraph (1) and (2) of this paragraph are met, in which case the skim milk and butterfat so transferred or diverted shall be classified in accordance with the assignment resulting from subparagraph (3) of this paragraph:

(1) The transferring or diverting handler claims classification as Class II or Class III in his report submitted pursuant to § 1036.30;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) The skim milk and butterfat so transferred or diverted shall be classified on the basis of the following assignment of utilization at such nonpool plant in excess of receipts of packaged fluid milk products from all pool plants and other order plants:

(i) Any route disposition in the marketing area shall be first assigned to the skim milk and butterfat in the fluid milk products so transferred or diverted from pool plants, next pro rata to receipts from other order plants, and thereafter to receipts from dairy farmers who the market administrator determines constitute regular sources of supply of milk (approved by a duly constituted health authority for fluid consumption) for such nonpool plant;

(ii) Any route disposition in the marketing area of another order issued pursuant to the Act shall be first assigned to receipts from plants fully regulated by such order, next pro rata to receipts from pool plants and other order plants not regulated by such order, and thereafter to receipts from dairy farmers who the market administrator determines constitute regular sources of supply of milk (approved by a duly constituted health authority for fluid consumption) for such nonpool plant;

(iii) Class I utilization (exclusive of that resulting from transfers of fluid milk products to pool plants and other order plants) in excess of that assigned pursuant to subdivisions (i) and (ii) of this subparagraph shall be assigned first to remaining receipts from dairy farmers who the market administrator determines constitute regular sources of supply of milk (approved by a duly constituted health authority for fluid consumption) for such nonpool plant and any remaining Class I utilization (including that resulting from transfers of fluid milk products to pool plants and other order plants) shall be assigned pro rata to unassigned receipts at such nonpool plant from all pool plants and other order plants; and

(iv) To the extent that Class I utilization is not so assigned to it, the skim milk and butterfat so transferred or diverted shall be classified as Class III milk to the extent Class III utilization is available and the remainder as Class II milk; and

(d) As follows, if transferred to another order plant in excess of receipts from such plant in the same category as described in subparagraph (1), (2), or (3) of this paragraph:

(1) If transferred in packaged form, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in subparagraph (3) of this paragraph);

(3) If the operators of both the transferor and transferee plants so request in the reports of receipts and utilization filed with their respective market administrators, movements in bulk form shall be classified as Class III milk to the extent of the Class III utilization (or comparable utilization under such other order) available for such assignment pursuant to the allocation provisions of the transferee order;

(4) If information concerning the classification to which allocated under the other order is not available to the market administrator for purposes of establishing classification pursuant to this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the transferee order provides for only two classes of utilization, skim milk and butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk and butterfat allocated to the other class shall be classified as Class III milk; and

(6) If the form in which any fluid milk product is transferred to an other order plant is not defined as a fluid milk product under such other order, classification shall be in accordance with the provisions of § 1036.40.

§ 1036.43 General classification rules.

For each month, the market administrator shall correct for mathematical and other obvious errors all reports submitted pursuant to § 1036.30 and shall compute for each handler the total pounds of skim milk and butterfat in each class: *Provided*, That the skim milk contained in any product utilized, produced or disposed of by the handler during the month shall be considered to be an amount equivalent to the nonfat milk solids contained in such product plus all the water originally associated with such solids.

§ 1036.44 Classification of producer milk.

After making the computations pursuant to § 1036.43, the market administrator shall determine the classification of producer milk for each handler as follows: *Provided*, That the classification of producer milk for which a cooperative association is the handler pursuant to § 1036.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk classified as Class III milk pursuant to § 1036.40(c)(6);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under this or any other order issued pursuant to the Act is classified and priced as Class I milk and is not used as an offset on any other payment obligation under this or any other order;

(3) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk in fluid milk products received in packaged form from other order plants, except that to be subtracted pursuant to subparagraph (7)(v) of this paragraph, as follows:

(i) From Class III milk, the lesser of the pounds remaining or the quantity associated with such receipts and classified as Class III milk pursuant to § 1034.40(c)(5) plus 2 percent of the remainder of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in packaged fluid cream products received from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in packaged fluid cream products that are in inventory at the beginning of the month, but not in excess of the pounds of skim milk remaining in Class II;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is added to, or used to produce, any product specified in § 1036.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product or a fluid cream product) that was not subtracted pursuant to subparagraphs (4) and (6) of this paragraph;

(ii) Receipts of fluid milk products (except filled milk) and bulk fluid cream products for which appropriate health approval is not established and receipts of fluid milk products and bulk fluid cream products, from unidentified sources;

(iii) Receipts of fluid milk products and bulk fluid cream products from a producer-handler, as defined under this or any other Federal order;

(iv) Receipts of reconstituted skim milk in filled milk from unregulated supply plants that were not subtracted pursuant to subparagraph (2) of this paragraph; and

(v) Receipts of reconstituted skim milk in filled milk from other order plants which are regulated under an order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor plant;

(8) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in bulk fluid cream products received from nonpool plants that were not subtracted pursuant to subparagraph (7)(iii) of this paragraph and in packaged fluid cream products in inventory at the beginning of the month that were not subtracted pursuant to subparagraph (5) of this paragraph;

(9) Subtract, in the order specified below, from the pounds of skim milk remaining in Class II and Class III (beginning with Class III), but not in excess of such quantities:

(i) Receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to subparagraph (2) and (7)(iv) of this paragraph:

(*a*) For which the handler requests Class III classification; or

(*b*) Which are in excess of the pounds of skim milk determined by multiplying the pounds of skim milk remaining in Class I milk by 1.25 and subtracting the sum of the pounds of skim milk in producer milk, receipts from other pool handlers, and receipts in bulk from other order plants that were not subtracted pursuant to subparagraph (7)(v) of this paragraph; and

(ii) Receipts of fluid milk products in bulk from an other order plant that were not subtracted pursuant to subparagraph (7)(v) of this paragraph, in excess of similar transfers to such plant, if Class III classification was requested by the operator of such plant and the handler;

(10) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in inventory of fluid milk products and bulk fluid cream products;

(11) Add to the remaining pounds of skim milk in Class III the pounds subtracted pursuant to subparagraph (1) of this paragraph;

(12) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of fluid milk products from unregulated supply plants that were not subtracted pursuant to subparagraphs (2), (7)(iv), and (9)(i) of this paragraph;

(13) Subtract from the pounds of skim milk remaining in each class, in the following order, the pounds of skim milk in receipts of fluid milk products in bulk from an other order plant that are in excess of similar transfers to the same plant and that were not subtracted pursuant to subparagraphs (7)(v) and (9)(ii) of this paragraph:

(i) In series beginning with Class III, the pounds determined by multiplying the pounds of such receipts by the larger of the percentage of estimated Class II and Class III utilization of skim milk announced for the month by the market administrator pursuant to § 1036.45(a) or the percentage that Class II and Class III utilization remaining is of the total remaining utilization of skim milk of the handler; and

(ii) From Class I, the remaining pounds of such receipts;

(14) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products and bulk fluid cream products received from pool plants of other handlers according to the classification of such products pursuant to § 1036.42(a);

(15) Subtract from the pounds of skim milk remaining in each class, pro rata to such quantities, the pounds of skim milk in receipts of milk from a handler defined in § 1036.9(c) that also operates a pool plant;

(16) If the pounds of skim milk remaining exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to § 1036.44(a)(16) and the corresponding step of § 1036.44(b).

CLASS PRICES

§ 1036.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

XUM
V 37 • 216 NOV 8 72
XUM

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1036.44(a)(13) and the corresponding step of § 1036.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the classification to which such receipts are allocated pursuant to § 1036.44 pursuant to such report, and thereafter any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products and bulk fluid cream products to an other order plant the classification to which the skim milk and butterfat in such fluid milk products and bulk fluid cream products were allocated by the market administrator of the other order on the basis of the report of the receiving handler; and, as necessary, any changes in such classification arising in the verification of such report.

(d) On or before the 20th day of each month, report to each cooperative association that so requests the class utilization of milk received during the preceding month by each handler from producers who are members of such association, prorating to such receipts the class utilization of all producer receipts of such handler.

§ 1036.50 Class prices.

Subject to the provisions of § 1036.52, the class prices per hundredweight for milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.85.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month, but not to exceed an amount computed as follows:

(1) Multiply by 4.2 the simple average of the wholesale prices (using the midpoint of any price range as one price) of Grade A (92 score) bulk butter per pound at Chicago, as reported by the Department for the month;

(2) Multiply by 8.2 the weighted average of carlot prices per pound of nonfat dry milk solids, spray process, for human consumption, f.o.b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department; and

(3) From the sum of the results arrived at under subparagraphs (1) and (2) of this paragraph subtract 48 cents, and round to the nearest cent.

§ 1036.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92 score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1036.52 Plant location adjustments for handlers.

(a) At a plant in the marketing area and outside Zone 1, the Class I price for producer milk shall be adjusted as follows:

(1) At a plant in Zone 2, the Class I price shall be increased 5 cents;

(2) At a plant in Zone 3, the Class I price shall be increased 8 cents; and

(3) At a plant in Zone 4, the Class I price shall be increased 10 cents.

(b) At a plant outside the marketing area, the Class I price shall be that applicable pursuant to paragraph (a) of this section at the location of the nearest of the cities here listed (Canton and Cleveland, Ohio; Erie, Pittsburgh, and Uniontown, Pa.; and Clarksburg, W. Va. to such plant. Such Class I price shall be further adjusted by a reduction of 1.5 cents for each 10 miles or fraction thereof that such plant is from the city hall of the nearest of the above named cities. Distances applied pursuant to this paragraph shall be the shortest hard-surfaced highway distances as determined by the market administrator.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraphs (a) and (b) of this section, except that the adjusted Class I price shall not be less than the Class III price.

(d) For the purpose of computing location adjustments pursuant to paragraph (b) of this section, fluid milk products physically received at a pool plant from other pool plants shall be assigned any remainder of Class I milk at such plant that is in excess of 92.5 percent of the sum of producer milk receipts at the plant and that assigned as Class I to receipts from other order plants and unregulated supply plants. Such assignment shall be made in sequence beginning with receipts from the plant(s) at which the highest Class I price is applicable.

§ 1036.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1036.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

UNIFORM PRICE

§ 1036.60 Handler's value of milk for computing uniform price.

The net pool obligation of each handler defined in § 1036.9 (a), (b), and (c) for each month shall be a sum of money computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class as computed pursuant to § 1036.44(c) by the applicable class price, adjusted pursuant to § 1036.52;

(b) Add the amounts obtained from multiplying the overage deducted from each class pursuant to § 1036.44(a)(16) and the corresponding step of § 1036.44(b) by the applicable class price adjusted pursuant to §§ 1036.52 and 1036.74;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I or Class II price for the current month, as the case may be, by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1036.44(a)(10) and the corresponding step of § 1036.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price at the pool plant and the Class III price, both for the current month, by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1036.44(a)(7) and (8) and the corresponding steps of § 1036.44(b), except that for receipts of fluid milk products assigned to Class I pursuant to § 1036.44(a)(7)(iv) and (v) and the corresponding steps of § 1036.44(b) the Class I price shall be adjusted to the location of the transferor plant; and

(e) Add the amount obtained from multiplying the Class I price adjusted for the location of the nearest nonpool plants from which an equivalent volume was received by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1036.44(a)(12) and the corresponding step of § 1036.44(b), excluding such skim milk or butterfat in bulk receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under this or any other order issued pursuant to the Act is classified and priced as Class I milk and is not used as an offset on any other payment obligation under this or any other order.

§ 1036.61 Computation of uniform price.

For each month, the market administrator shall compute a uniform price per hundredweight of milk of 3.5 percent butterfat content as follows:

(a) Combine into one total the values computed pursuant to § 1036.60 for all handlers who filed the reports pursuant to § 1036.30 for the month, except those in default of payments required pursuant to § 1036.71 for the preceding month;

(b) Add an amount equal to the total value of the minus location adjustments applicable pursuant to § 1036.75;

(c) Subtract an amount equal to the total value of the plus location adjustments applicable pursuant to § 1036.75;

(d) Add an amount equal to one-half the unobligated balance in the producer settlement fund;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1036.60(e);

(f) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "weighted average price," and, except for the months specified below, shall be the "uniform price" for milk received from producers;

(g) For the months specified in paragraphs (h) and (i) of this section, subtract from the amount resulting from the computations pursuant to paragraphs (a) through (d) of this section an amount computed by multiplying the hundredweight of milk specified in paragraph (e)(2) of this section by the weighted average price;

(h) Subtract for each of the months of April, May, June, and July the amount obtained by multiplying the hundredweight of producer milk specified in paragraph (e)(1) of this section by a rate that is equal to 6 percent of the average basic formula price (computed to the nearest cent) for the preceding calendar year but not to exceed 25 cents;

(i) Add for each of the months of September, October, and November one-fourth of the total amount subtracted pursuant to paragraph (h) of this section for the preceding period of April through July, and add for the month of December the remainder of such total amount plus any interest earned on such total amount;

(j) Divide the amount resulting from the computations pursuant to paragraphs (g), (h), and (i) of this section by the hundredweight of producer milk specified in paragraph (e)(1) of this section; and

(k) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

§ 1036.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce on or before:

(a) The fifth day of each month, the butterfat differential for the preceding month; and

(b) The 14th day of each month, the uniform price for the preceding month.

PAYMENTS FOR MILK

§ 1036.70 Producer-settlement fund.

(a) The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments pursuant to §§ 1036.71 and 1036.76 and out of which he shall make all payments pursuant to § 1036.72: *Provided*, That the market administrator shall offset the payments due to a handler against payments due from such handler.

(b) All amounts subtracted pursuant to § 1036.61(h) shall be deposited in the producer-settlement fund and set aside as an obligated balance until withdrawn for the purpose of effectuating § 1036.61(i).

§ 1036.71 Payments to the producer-settlement fund.

(a) On or before the 16th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in subparagraph (1) of this paragraph exceeds the amount specified in subparagraph (2) of this paragraph:

(1) The net pool obligation pursuant to § 1036.60 for such handler; and

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1036.75, of such handler's receipts of producer milk; and

(ii) The value at the weighted average price applicable at the location of the plants from which received of other source milk for which a value is computed pursuant to § 1036.60(e).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in subparagraph (1) of this paragraph to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1036.72 Payments from the producer-settlement fund.

On or before the 17th day after the end of each month, the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1036.71(a)(2) exceeds the amount computed pursuant to § 1036.71(a)(1). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the funds are available.

§ 1036.73 Payments to producers and to cooperative associations.

(a) Except as provided in paragraph (b) of this section, each handler shall make payment for producer milk as follows:

(1) On or before the last day of the month, to each producer who has not discontinued delivery of milk to such handler, not less than the amount determined by multiplying the pounds of producer milk received from such producer during the first 15 days of the month by the Class III price for the preceding month, without adjustment for butterfat content, less proper deductions authorized by the producer; and

(2) On or before the 18th day after the end of the month, to each producer not less than the amount determined by multiplying the pounds of producer milk received from such producer during the month by the uniform price as adjusted pursuant to §§ 1036.74 and 1036.75, less the following amounts:

(i) The payment made pursuant to subparagraph (1) of this paragraph for such month;

(ii) Proper deductions authorized by the producer;

(iii) Any marketing service deduction pursuant to § 1036.86; and

(iv) If before such date the handler has not received full payment from the market administrator pursuant to § 1036.72 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payment to producers shall be completed thereafter not later than the date for making payments pursuant to this subparagraph next following after receipt of the balance due from the market administrator.

(b) Upon receipt of a written request from a cooperative association which the Secretary determines is authorized by its members to collect payment for their milk and receipt of a written promise to reimburse the handler the amount of any actual loss incurred by him because of any improper claim on the part of the cooperative association, each handler shall pay to the cooperative association for producer milk received from such members an amount equal to the sum of the individual payments otherwise payable to such producers pursuant to subparagraph (1) or (2), as the case may be, of paragraph (a) of this section. Such payment shall be made on or before the second day prior to the date specified in such applicable subparagraph. Payments under this paragraph shall be subject to the following conditions:

(1) Each handler shall submit to the cooperative association with such pay-

ments written information which shows

cable to the uniform price, except that

(2) From this obligation, deduct the

§§ 1036.71, 1036.72, 1036.77, 1036.85, and

Class I pursuant to § 1036.44(a)(7) and

16th day after the end of the month,

V 37-216 NOV 8 72 XUM

ments written information which shows for each such producer:

(i) The total pounds of milk received from him during the period for which the payment applies;

(ii) With respect to the payment described in paragraph (a)(2) only of this section, the total pounds of butterfat contained in such milk;

(iii) The number of days on which milk was received; and

(iv) The amount of any deductions authorized by the producer;

(2) Payments to a cooperative association and the submission of information by handlers pursuant to this paragraph shall be made with respect to that milk of each producer whom the cooperative association certifies is a member which is received on and after the first day of the calendar month next following the receipt of such certification through the last day of the month next preceding the receipt of a notice from the cooperative association of a termination of membership or until the original request is rescinded in writing by the cooperative association; and

(3) A copy of each such request, promise to reimburse, and certified list, of members shall be filed simultaneously with the market administrator by the cooperative association and shall be subject to verification at his discretion through audit of the records of the cooperative association pertaining thereto. Exceptions, if any, to the accuracy of such certification by a producer claimed to be a member, or by a handler, shall be made by written notice to the market administrator and shall be subject to his determination.

(c) On or before the 15th day after the end of each month, each handler shall pay a cooperative association at not less than the class prices adjusted pursuant to §§ 1036.52 and 1036.74 for milk which he receives:

(1) By transfer or diversion from a pool plant operated by such cooperative association; or

(2) From such cooperative association in its capacity as a handler pursuant to § 1036.9(c), if such cooperative association also operates a pool plant.

§ 1036.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent at a rate (rounded to the nearest one-tenth cent) determined by multiplying the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1036.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price for producer milk received at a plant shall be adjusted according to the location of such plant at the rates set forth in § 1036.52.

(b) The weighted average price applicable to other source milk shall be subject to the same adjustments applicable to the uniform price, except that the weighted average price shall not be less than the Class III price.

§ 1036.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to §§ 1036.30 and 1036.31(b) the information necessary to compute the amount specified in paragraph (a) of this section, he shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1) The obligation that would have been computed pursuant to § 1036.60 at such plant shall be determined as though such plant were a pool plant, subject to the following modifications:

(i) Receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant;

(ii) Transfers from such nonpool plants to a pool plant or other order plant shall be classified as Class II or Class III milk if allocated to such class at the pool plant or other order plant and be valued at the weighted average price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. No obligation shall apply to Class I milk transferred to a pool plant or an other order plant if such Class I utilization is assigned to receipts at the partially regulated distributing plant from pool plants and other order plants at which such milk was classified and priced as Class I milk. There shall be included in the obligation so computed a charge in the amount specified in § 1036.60(e) and a credit in the amount specified in § 1036.71(a)(2)(ii) with respect to receipts from an unregulated supply plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified below in subdivision (iii) of this subparagraph;

(iii) If the operator of the partially regulated distributing plant so requests, and provides with his report pursuant to § 1036.30 a similar report for each nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of § 1036.7 (b) and (c), with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

(2) From this obligation, deduct the sum of;

(i) The gross payments made by such handler for milk (adjusted to a 3.5-percent butterfat basis pursuant to § 1036.74) received during the month from dairy farmers at such plant and like payments made by the operator of a supply plant(s) included in the computations pursuant to subparagraph (1) of this paragraph; and

(ii) Payments to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant.

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat in the plant's route disposition in the marketing area;

(2) Deduct the respective amounts of skim milk and butterfat received at the plant;

(i) As Class I milk from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act; and

(ii) From a nonpool plant that is not an other order plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such nonpool plant by handlers fully regulated under this or any other order issued pursuant to the Act is classified and priced as Class I milk and is not used as an offset on any other payment obligation under this or any other order;

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in subparagraph (3) of this paragraph by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

§ 1036.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses adjustments to be made, for any reason, which result in moneys due the market administrator from such handler, due such handler from the market administrator, or due any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any such amount due, and payment thereof shall be made on or before the next date for making payment set forth in the provision under which such error occurred, following the 5th day after such notice.

§ 1036.78 Charges on overdue accounts.

Any unpaid obligation of a handler or of the market administrator pursuant to

§§ 1036.71, 1036.72, 1036.77, 1036.85, and 1036.86 shall be increased one-half of 1 percent on the first day of the calendar month next following the due date of such obligation, and on the first day of each calendar month thereafter until such obligation is paid.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1036.85 Assessment for order administration.

As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 16th day after the end of the month 3 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including such handler's own production);

(b) Other source milk allocated to Class I pursuant to § 1036.44(a)(7) and (12) and the corresponding steps of § 1036.44(b), except such other source milk on which no handler obligation applies pursuant to § 1036.60(e); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1036.76(b)(2).

§ 1036.86 Deduction for marketing services.

(a) Except as provided in paragraph (b) of this section, each handler in making payments for producer milk received during the month shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe (except on such handler's own farm production) and shall pay such deductions to the market administrator not later than the 16th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of producer milk and to provide producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers for whom a cooperative association is performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 16th day after the end of each month, pay over such deductions to the association rendering such services.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

Pages 23801–23893

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

DRUG ABUSE PREVENTION AND CONTROL—Justice Dept. proposal on registration of researchers; comments by 12–15–72 23842

SMOKING ON AIRCRAFT—CAB extends comment period on proposal to segregate passengers to 12–4–72 23845

PURCHASE OR POSSESSION OF INTOXICANTS BY INDIANS—Interior Dept. notice on legality 23852

1973 FEDERAL CROP INSURANCE—USDA releases list of counties designated (21 documents) 23811–23818

EARNINGS AND REVENUES—SEC proposal on estimates, forecasts or projections 23850

CANNED PLUMS—USDA revises grade standards; effective 12–15–72 23807

TOBACCO MARKETING QUOTAS—USDA proposed determinations for 1973–74, 1974–75 and 1975–76; comments within 30 days 23843

OIL AND GAS RIGHTS—SEC amendments relating to exemption from registration requirements for certain offerings of fractional undivided interests; effective 1–1–73 23829

ANTIBIOTIC DRUGS—
FDA proposal to revise upper limit of potency for troleandomycin oral suspension; comments within 60 days 23845
FDA regulation raising moisture content for erythromycin stearate 23836

AMATEUR RADIO SERVICE—FCC regulation on alien permittees 23840

Current White House Releases

WEEKLY COMPILATION OF PRESIDENTIAL DOCUMENTS

This unique service makes available transcripts of the President's news conferences; messages to Congress; public speeches, remarks, and statements; and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. It includes an Index of Contents and a system of cumulative indexes. Other finding aids include lists of laws approved by the President and of nominations submitted to the Senate, a checklist of White House releases, and a digest of other White House announcements.

This systematic publication of Presidential items provides users with up-to-date information and a permanent reference source concerning Presidential policies and pronouncements.

Subscription Price: $9.00 per year

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from: Superintendent of Documents
U.S. Government Printing Office,
Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

NEW DRUGS—FDA notices releasing additional evaluation reports on drug efficacy study and revising indications for mannitol (2 documents).. 23864

DANGEROUS DRUGS—Justice Dept. announces narcotics, cocaine and phenmetrazine (preludin) aggregate production quotas for 1973 (2 documents); effective 11–9–72..... 23851

CLEAN AIR—
EPA disapproval of variance to sulfur content of fuel by General Electric..... 23837
EPA regulation on significant deterioration of air quality..... 23836

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—U.S. Standards for Grades of Canned Plums [1]

On April 20, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 7801) regarding a proposed revision of the U.S. Standards for Grades of Canned Plums.

Comments were received from one consumer group, the Oregon Consumer League of Portland, Oreg., and one individual consumer. Both of these endorsed the proposal in its entirety. No comments were received from the plum canning industry and no adverse comments were received from the Federal Food and Drug Administration. After consideration of all such relevant matters as was presented by interested persons, therefore, the proposed revision as so proposed is hereby adopted in its entirety.

Effective date. This revision is effective December 15, 1972, and thereupon will supersede the U.S. Standards for Grades of Canned Plums (7 CFR Part 52) which have been in effect since September 11, 1962.

Dated: November 2, 1972.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

The revision is as follows:

PRODUCT DESCRIPTION, VARIETIES, STYLES, AND GRADES

AUTHORITY: The provisions of this subpart issued under sec. 205, 60 Stat. 1090 as amended; 7 U.S.C. 1624.

PRODUCT DESCRIPTION, VARIETIES, STYLES, AND GRADES

§ 52.1781 Product description.

"Canned plums," as defined in the standards of identity for canned fruits (21 CFR 27.45) issued pursuant to the Federal Food, Drug, and Cosmetic Act, is the food prepared from mature plums of the domestic (Prunus domestica L.) varietal groups; are packed in water or plum juice with or without nutritive sweetening ingredients; and are sealed in a container and so processed by heat as to prevent spoilage. The food may be seasoned with one or more of the optional ingredients permitted under the Federal Food, Drug, and Cosmetic Act.

§ 52.1782 Varietal types.

(a) Purple plum groups.
(b) Green-yellow plum groups.

§ 52.1783 Styles.

(a) "Whole, unpeeled, unpitted."
(b) "Whole, peeled, unpitted."
(c) "Whole, unpeeled pitted."
(d) "Whole, peeled, pitted."
(e) "Halves, unpeeled, pitted."
(f) "Halves, peeled, pitted."

§ 52.1784 Grades.

(a) "U.S. Grade A" or "U.S. Fancy" is the quality of canned plums that:
(1) Have similar varietal characteristics;
(2) Have a normal flavor and odor;
(3) Have a good, practically uniform color;
(4) Are at least reasonably uniform in size;
(5) Are practically free from defects;
(6) Have a good character; and
(7) Score not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade B" or "U.S. Choice" is the quality of canned plums that:
(1) Have similar varietal characteristics;
(2) Have a normal flavor and odor;
(3) Have a reasonably good and reasonably uniform color;
(4) Are at least fairly uniform in size;
(5) Are reasonably free from defects;
(6) Have a reasonably good character; and
(7) Score not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U.S. Grade C" or "U.S. Standard" is the quality of canned plums that:
(1) Have similar varietal characteristics;
(2) Have a normal flavor and odor;
(3) Have a fairly good color;
(4) Are fairly uniform in size;
(5) Are fairly free from defects;
(6) Have a fairly good character; and
(7) Score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of canned plums that fail to meet the requirements of U.S. Grade C.

LIQUID MEDIA, FILL OF CONTAINER, DRAINED WEIGHTS, AND FILL WEIGHTS

§ 52.1785 Liquid media and Brix measurements for canned plums.

"Cut-out" requirements for liquid media in canned plums are not incorporated in the grades of the finished product since sirup or any other liquid medium, as such, is not a factor of quality for the purposes of these grades. The "cut-out" Brix measurements for the particular varieties and respective designations are specified in Table I:

TABLE I—BRIX REQUIREMENTS

Designations	Brix measurement	
	Purple plum groups	Other varieties
Extra heavy sirup or extra heavy plum juice sirup.	26° or more but not more than 35°.	24° or more but not more than 35°.
Heavy sirup or heavy plum juice sirup.	21° or more but less than 26°.	19° or more but less than 24°.
Light sirup or light plum juice sirup.	18° or more but less than 21°.	16° or more but less than 19°.
Slightly sweetened water or slightly sweetened plum juice.	Less than 18°.	Less than 16°.
In water	Not applicable.	Not applicable.
In plum juice	do.	Do.

§ 52.1786 Recommended fill of container.

The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container be filled with plums as full as practicable without impairment of quality, and that the product and packing medium occupy not

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

TABLE III—Continued

of the largest full-sized unit exceeds the

XUM V37-217 NOV 9 72 XUM

with the U.S. Department of Agriculture's "Variables Control Chart Plan" and adaptations thereto, as applicable to processed fruits and vegetables and related products.

(c) *Definitions of terms and symbols.* "Subgroup" means a group of sample units representing a portion of a sample.

$\bar{X}_{min}$ means the minimum lot average fill weight.

LWL_1 means the lower warning limit for subgroup averages.

LRL_1 means the lower reject limit for subgroup averages.

LWL_2 means the lower warning limit for individual fill weight measurements.

LRL_2 means the lower reject limit for individual fill weight measurements.

$\bar{R}$ means a specified average range value.

R_{max} means a specified maximum range for a subgroup.

Sampling allowance code means a code letter on the Sampling Allowance Chart of the Variables Control Chart Plan. This letter identifies the appropriate line which gives the amount of sampling allowance to be applied to the specification average for fill weights in order to determine compliance with requirements for fill weight averages for a sample.

(d) *Subgroup size.* The subgroup size for the determination of fill weights shall be 5 containers.

(e) *Sampling frequency.* (1) Small lots—for lots consisting of 100 cases or less which require 4 hours or more to pack use the "optional fill weight procedure" contained in the Instructions for Adaptation of the Variables Control Chart Plan to Fill Weights.

(2) Other than small lots—draw at least one subgroup per code approximately every 40 minutes.

(f) *Compliance with recommended fill weights.* Compliance with the recommended fill weights shall be in accordance with the acceptance criteria specified in the U.S. Department of Agriculture's "Variables Control Chart Plan" and adaptations thereto, as applicable to processed fruits and vegetables and related products.

§ 52.1788 **Recommended fill weights.**

(a) *General.* The minimum fill weight recommendations specified in Table III are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purposes of these grades.

(b) *Method for ascertaining fill weight.* Fill weight is determined in accordance

plums less the weight of the dry sieve. A sieve 8 inches in diameter is used for the equivalent of No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the equivalent of the No. 3 size can.

(c) *Compliance with recommended drained weights.* A lot of canned plums is considered as meeting the minimum drained weight recommendations if the following criteria are met:

(1) The average of the drained weights from all the sample units in the sample meets the recommended minimum average drained weight (designated as "$\bar{X}_d$" in Table II); and

(2) The number of sample units which fail to meet the recommended drained weight lower limit for individuals (designated as "LL" in Table II does not exceed the applicable acceptance number specified in the single sampling plan contained in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables and Related Products.

SAMPLE UNIT SIZE

§ 52.1789 **Sample unit size.**

Compliance with requirements for the various quality factors is based on the following sample unit size for the applicable style:

(a) Whole—25 whole plums.

(b) Halves—50 halves.

FACTORS OF QUALITY

§ 52.1790 **Ascertaining the grade of a sample unit.**

(a) *General.* In addition to considering other requirements outlined in the standards the following quality factors are evaluated:

(1) *Factors not rated by score points.*

(i) Varietal characteristics.

(ii) Flavor and ordor.

(2) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

Factors:	Points
Color	20
Uniformity of size	20
Defects	30
Character	30
Total score	100

(b) *Definition of flavor and odor.* "Normal flavor and odor" means that the product is free from objectionable flavors and objectionable odors of any kind.

§ 52.1791 **Ascertaining the rating for the factors which are scored.**

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.1792 **Color.**

(a) *General.* The factor of color refers to the color of the skin and any exposed flesh typical for the varietal group and to the intensity and brightness of such characteristic color. Characteristic mottling on the skin for the varietal group is considered as typical color and not as lacking in uniformity of color.

(b) *Definitions of color*—(1) *Well colored.* The color is bright and well developed, typical of well-matured plums. Any exposed flesh is at least reasonably bright and with respect to purple plums the packing media is a practically clear and highly colored purple liquid.

(2) *Reasonably well colored.* The color is reasonably bright and reasonably well developed, typical of reasonably well-matured plums. Any exposed flesh is at least fairly bright and with respect to purple plums and packing media is a reasonably clear and reasonably high-colored purple liquid.

(3) *Fairly well colored.* The color is fairly bright and fairly well developed, typical of fairly well-matured plums. Any exposed flesh may be lightly dull.

(4) *Poorly colored.* The color may be dull, poorly developed, typical of immature plums, including the "dead brown" color of canned purple plums. Any exposed flesh may be excessively dull; or the plums may be off-color due to improper processing.

(c) (*A*) *classification.* Canned plums that possess a good color may be given a score of 18 to 20 points. "Good color" means that the plums are well colored and as a mass possess a practically uniform color, typical of a single varietal group; and the number of reasonably well colored plums does not exceed the number specified for the style in § 52.1796.

(d) (*B*) *classification.* Canned plums that possess a reasonably good color may be given a score of 16 or 17 points. Canned plums that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score (this is a limiting rule). "Reasonably good color" means that the plums are reasonably well colored and as a mass possess a reasonably uniform color, typical of a single varietal group; and the number of fairly well colored units does not exceed the number specified for the style in § 52.1796.

(e) (*C*) *classification.* Canned plums that possess a fairly good color may be given a score of 14 or 15 points. Canned plums that fall into this classification shall not be graded above U.S. Grade C regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the plums may be at least fairly well colored; possess a color typical of a single varietal group which have been properly processed; that such characteristic color may be markedly variable; and the number of poorly colored plums does not exceed the number specified for the style in § 52.1796.

(f) (*SStd*) *classification.* Canned plums that fail to meet the requirements of paragraph (e) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1793 **Uniformity of size.**

(a) *General.* Compliance with uniformity of size is ascertained by determining the percent by which the weight of the largest full-sized unit exceeds the weight of the smallest full-sized unit in the sample unit. Plums of halved style that are not cleanly divided into halves shall be separated into two approximately equal halves before ascertaining uniformity of size.

(b) (*A*) *classification.* Canned plums that are practically uniform in size may be given a score of 18 to 20 points. "Practically uniform in size" means that the number of units that are in excess of the maximum weight variation does not exceed the number specified for the style for U.S. Grade A in § 52.1796.

(c) (*B*) *classification.* Canned plums that are reasonably uniform in size may be given a score of 16 or 17 points. "Reasonable uniform in size" means that the number of units that are in excess of the maximum weight variation does not exceed the number specified for the style for U.S. Grade B in § 52–1796.

(d) (*C*) *classification.* Canned plums that are fairly uniform in size may be given a score of 14 or 15 points. Canned plums that fall into this classification shall not be classified above U.S. Grade B, regardless of the total score (this is a partial limiting rule). "Fairly uniform in size" means that the number of units that are in excess of the maximum weight variation does not exceed the number specified for the style for U.S. Grade C in § 52.1796.

(e) (*SStd*) *classification.* Canned plums that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 13 points and shall not be graded above substandard, regardless of the total score (this is a limiting rule).

§ 52.1794 **Defects.**

(a) *General.* The factor of defects refers to the degree of freedom from stems, leaves, crushed or broken units, pits or loose pits for the applicable style—damaged and seriously damaged units—and from any other defects not specifically mentioned which detract from the appearance or edibility of the product.

(b) *Definitions.* (1) A "unit," in whole style, means a whole or substantially whole plum. In halved style, any whole or partially whole plum is separated into two approximately equal halves and each half therefrom is considered a "unit."

(2) "Small stem" means the small stem or portion thereof that attaches the plum to the branch of the tree.

(3) "Harmless extraneous material" means leaves or portions thereof or other harmless plant material.

(4) "Crushed or broken" means that a unit bears marks of crushing or is otherwise crushed or broken not due to ripeness. In whole style, plums that possess broken skins or that are split to the pit cavity are not considered crushed or broken unless the entire pit cavity is exposed or the unit is mutilated to the extent that it is not intact as a whole or substantially whole plum. In halved style, halves of plums that are slightly split are not considered crushed or broken unless the unit is seriously mutilated.

TABLE V—STYLE—HALVES SAMPLE UNIT SIZE—50 UNITS

ALABAMA

V 37-217 NOV 9 72 V
XUM
XUM

(5) A "pit" means a whole pit or any portion thereof. In whole style, only "loose pits" are considered as defects. In halved style, pits are considered as defects whether loose or attached to a unit.

(6) "Damaged" means any injury which, singly or in the aggregate on a unit or in a unit (except for internal gummosis), materially affects the appearance of the unit and includes, but is not limited to:

(i) Surface areas blemished by sunburn, scab, or other discoloration (exclusive of characteristic mottling having an aggregate area exceeding that of a circle three-sixteenths of an inch in diameter not extending into the fruit tissue and materially affects the appearance or eating quality of the unit.

(ii) Surface areas blemished by sunburn, scab, or other serious discoloration (exclusive of characteristic mottling) having an aggregate area equivalent of, or less than, that of a circle three-sixteenths of an inch in diameter and extending into the fruit tissue so that the flesh is materially discolored or toughened;

(iii) Abnormalities, such as "doubles" and growth cracks, but not "shriveled" areas:

(iv) External gummosis.

(7) "Seriously damaged" means any damage that seriously affects the appearance or edibility of the unit, regardless of area.

(c) (*A*) *classification.* Canned plums that are practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means that the number of defects that may be present does not exceed the number specified for the style and respective type of defect in § 52.1796.

(d) (*B*) *classification.* Canned plums that are reasonably free from defects may be given a score of 24 to 26 points. Canned plums that fall into this classification shall not be graded above U.S. Grade B, regardles of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the number of defects that may be present does not exceed the number specified for the style and respective type of defect in § 52.1796.

(e) (C) *classification.* Canned plums that are fairly free from defects may be given a score of 21 to 23 points. Canned plums that fall into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the number of defects that may be present does not exceed the number specified for the style and respective type of defect in § 52.1796.

(f) (*SStd*) *classification.* Canned plums that fail to meet the requirements of paragraph (e) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.1795 **Character.**

(a) *General.* The factor of character refers to the texture and condition of the flesh, to the tenderness and firmness of the plums, and to shriveled areas of the skin.

(b) *Definitions*—(1) *Good character.* The units are thick-fleshed, tender, may be soft but hold their apparent original conformation, and otherwise possess a good texture of both skin and flesh characteristic of canned plums that have been properly processed from well-ripened or well-matured plums.

(2) *Reasonably good character.* The units may be reasonably fleshy, may be variable in texture from soft to slightly firm, and otherwise possess a reasonably good texture of both skin and flesh characteristic of canned plums that have been properly processed from reasonably well-ripened or reasonably well-matured plums.

(3) *Fairly good character.* The units may be thin fleshed, possess a fairly good texture of both skin and flesh, may be variable in texture from very soft to slightly tough but are not so soft as to show material disintegration, and may possess shriveled areas that materially affect, but do not seriously affect, the appearance of the product.

(4) *Poor character.* The units may be very thin fleshed, possess a poor texture of both skin and flesh, may be variable in texture from mushy to more than slightly tough, and may possess shriveled areas that seriously affect the appearance of the product.

(c) (*A*) *classification.* Canned plums that possess a good character may be given a score of 27 to 30 points. To score in this classification the number of units that are of reasonably good character shall not exceed the number specified for the style in § 52.1796.

(d) (*B*) *classification.* Canned plums that possess a reasonable good character may be given a score of 24 to 26 points. Canned plums that fall into this classification shall not be graded above "U.S. Grade B," regardless of the total score for the product (this is a limiting rule). To score in this classification the number of units that are of fairly good character shall not exceed the number specified for the style in § 52.1796.

(e) (C) *classification.* Canned plums that possess a fairly good character may be given a score of 21 to 23 points. Canned plums that fall into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). To score in this classification the number of units that are of poor character shall not exceed the number specified for the style in § 52.1796.

(f) (*SStd*) *classification.* Canned plums that fail to meet the requirements of paragraph (e) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

ALLOWANCES FOR QUALITY FACTORS

§ 52.1796 **Allowances for quality factors.**

TABLE IV

STYLE—WHOLE SAMPLE UNIT SIZE—25 UNITS

Factors	Maximum number of units permissible for respective grade

[1] N/A—Means not applicable.
[2] Ind—Means individual sample unit.
[3] Avg—Means average of all the sample units in the sample.

LOT COMPLIANCE

§ 52.1797 **Ascertaining the grade of a lot.**

The grade of a lot of canned plums covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 through 52.87).

SCORE SHEET

§ 51.1798 **Score sheet for canned plums.**

Chapter IV—Federal Crop Insurance Corporation, Department of Agriculture

PART 401—FEDERAL CROP INSURANCE

Subpart—Regulations for the 1969 and Succeeding Crop Years

APPENDIX; COUNTIES DESIGNATED FOR COMBINED CROP INSURANCE

Pursuant to authority contained in § 401.101 of the above-identified regulations, as amended, the following counties have been designated for combined crop insurance for the 1973 crop year. The crops on which insurance is offered are shown opposite the name of the county.

STATE AND COUNTY—CROP(S)

North Dakota: Barnes, barley, flax, oats, rye, wheat; Grand Forks, barley, flax, oats, wheat; Pierce, barley, flax, oats, rye, wheat; Ransom, barley, corn, flax, oats, wheat; Richland, barley, corn, flax, oats, rye, soybeans, wheat; Sargent, barley, corn, flax, oats, wheat; Steele, barley, flax, oats, and wheat.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U.S.C. 1506, 1516)

[SEAL] D. W. MCELWRATH,
Acting Manager, Federal Crop Insurance Corporation.

Correction

In F.R. Doc. 72-17691 appearing on page 21988 of the issue for Wednesday, October 18, 1972, the file line at the end of the document should appear as follows: [FR Doc.72-17691 Filed 10-13-72; 9:32 am].

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 274]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 907.574 Navel Orange Regulation 274.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on November 7, 1972.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period November 10, through November 16, 1972, are hereby fixed as follows:

(i) District 1: 893,000 cartons;

(ii) District 2: Unlimited;

(iii) District 3: 57,000 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 8, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-19420 Filed 11-8-72;11:17 am]

PART 909—GRAPEFRUIT GROWN IN ARIZONA; IN IMPERIAL COUNTY, CALIF.; AND IN THAT PART OF RIVERSIDE COUNTY, CALIF., SITUATED SOUTH AND EAST OF WHITE WATER, CALIF.

Expenses, Rate of Assessment, and Carryover of Unexpended Funds

On October 25, 1972, notice of proposed rulemaking was published in the FEDERAL REGISTER (37 F.R. 22798) regarding proposed expenses, the proposed rate of assessment, and the proposed carryover of unexpended assessment funds, for the fiscal period September 1, 1972, through August 31, 1973, pursuant to marketing Order No. 909, as amended (7 CFR Part 909), regulating the handling of grapefruit grown in Arizona and designated part of California. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Administrative Committee (established pursuant to the said amended marketing order), it is hereby found and determined that:

§ 909.211 Expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses.* The expenses that are reasonable and likely to be incurred by the Administrative Committee during the period September 1, 1972, through August 31, 1973, will amount to $37,875.

(b) *Rate of assessment.* The rate of assessment for such period, payable by each handler in accordance with § 909.41, is hereby fixed at three-fourths of a cent ($0.0075) per carton, or equivalent quantity of grapefruit.

(c) *Operating reserve.* Unexpended assessment funds, in excess of expenses incurred during such period, shall be carried over as a reserve in accordance with the applicable provisions of § 909.42.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of grapefruit grown in the designated production area are now being made; (2) the relevant provisions of said marketing order require that the rate of assessment herein fixed shall be applicable to all assessable grapefruit handled during the aforesaid period; and (3) such period began on September 1, 1972, and said rate of assessment will automatically apply to all such grapefruit beginning with such date.

(Secs. 1–19, 48 Stat. 81, as amended; 7 U.S.C. 601–674)

Dated: November 6, 1972.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-19294 Filed 11-8-72;8:54 am]

PART 999—SPECIALTY CROPS; IMPORT REGULATIONS

Importation and Reporting Requirements

Notice was published in the October 12, 1972, issue of the FEDERAL REGISTER (37 F.R. 21538) regarding a proposal to: (1) Amend paragraph (e) of § 999.300 (7 CFR 999.300; 37 F.R. 5282; 13634) governing the importation of raisins, to permit importation of raisins, which do not meet the requirements pursuant to paragraph (b) of § 999.300 with respect to mechanical damage and sugaring, for use in the production of raisin paste; and (2) delete the phrase, "at the port of arrival" from § 999.300(a)(7); § 999.300

(b); and § 999.300(d). In conjunction with importation for such usage, certain reporting requirements were included in the proposal. This action is pursuant to section 8e (7 U.S.C. 608e–1) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the "act".

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal. Written comments were received from three persons within the period prescribed therefor.

Section 8c of the act provides, in part, that whenever a marketing order issued by the Secretary of Agriculture pursuant to section 8c of the act (7 U.S.C. 608c) contains any terms or conditions regulating the grade, size, quality, or maturity of raisins produced in the United States, the importation of raisins into the United States during the period of time such order is in effect shall be prohibited unless such commodity complies with the grade, size, quality, and maturity provisions of such order or comparable restrictions promulgated under said section 8e.

Order No. 989, as amended (7 CFR Part 989; 37 F.R. 19621; 20022), regulating the handling of raisins produced from grapes grown in California (hereinafter referred to as the "order"), is effective under the act. The order prescribes terms and conditions regulating the grade and size of such raisins. Under a recent amendment of the order, raisins which do not meet the applicable grade and size requirements with respect to mechanical damage and sugaring may be used in the production of raisin paste. Therefore, raisins for importation which do not meet the applicable grade and size requirements of § 999.300 with respect to mechanical damage and sugaring should similarly be permitted to be used in the production of raisin paste.

With regard to deletion of the phrase "at the port of arrival," the current regulation defines importation, in paragraph (a)(7), as release of raisins from custody of the Bureau of Customs at the port of arrival; prohibits, in paragraph (b), importation of raisins unless they are inspected at the port of arrival; and, in paragraph (d), permits reconditioning of raisins only at the port of arrival. Since all raisins for importation are under Customs' custody until released, the current regulation could be unnecessarily restrictive and impose financial hardships and delays on importers because all ports of arrival do not have inspection and reconditioning facilities readily available. Therefore such requirement should be deleted.

Written comments submitted pursuant to the notice by three persons all recommended the proposal be adopted. In the written comments submitted, two persons further recommended that raisins which do not meet the tolerance for capstems should also be permitted to be imported for use in production of raisin paste, or a tolerance for capstems should be established for raisins to be imported for use in the production of raisin paste at a level of 70 to 80 capstems per 500 grams of raisins. This proposal is not adopted because the domestic marketing order contains no comparable provision with respect to domestically produced raisins and section 8e requires the same or comparable restrictions be placed on imported raisins as are placed upon domestically produced raisins under the marketing order.

The amended regulation will continue to require that all raisins be inspected by USDA inspectors. Importers of raisins which do not meet the applicable grade and size requirements with respect to mechanical damage and sugaring and which are to be imported for use in the production of raisin paste will be required to file certain forms with the Bureau of Customs and the Department for administrative and compliance purposes.

After consideration of all relevant information, including that in the notice, the written comments received pursuant to the notice, and other available information, it is hereby ordered that § 999.300 is amended as follows:

1. In paragraphs (a)(7), (b), and (d), of § 999.300, the phrase "at the port of arrival" is deleted.

2. Subparagraph (2) of § 999.300(e) is revised to read as follows:

(2) Any person may import any lot of raisins which does not meet the applicable grade and size requirements of paragraph (b) of this section for use in the production of alcohol, syrup for industrial use, or which does not meet such requirements with respect to mechanical damage or sugaring for use in the production of raisin paste. Prior to such importation, such person shall file with the Bureau of Customs' Regional Commissioner or District Director, as applicable, at the port at which the customs entry is filed an executed "Raisins—Section 8e Entry Declaration" prescribed in subdivision (i) of this subparagraph as "Raisin Form No. 1". Promptly after such filing, such person shall transmit a copy of this form to the Fruit and Vegetable Division. No person may import, sell, or use any raisins which do not meet the applicable grade and size requirements of paragraph (b) of this section, for use in the production of alcohol, syrup for industrial use, or raisin paste shall obtain from each purchaser, not later than the time of delivery to such purchaser, and file with the Fruit and Vegetable Division not later than the fifth day of the month following the month in which the raisins were delivered, an executed "Raisins—Section 8e Certification of Processor or Reseller," prescribed in subdivision (ii) of this subparagraph as "Raisin Form No. 2." One copy of this executed form shall be retained by the importer and one copy shall be retained by the purchaser. Each reseller of raisins imported pursuant to this subparagraph should, for his protection, obtain from each purchaser and hold in his files an executed Raisin Form No. 2, covering such sales of such raisins during the calendar year. One copy of this executed form shall be retained by the reseller and one copy shall be retained by the purchaser.

(i) *Raisin Form No. 1.* The following is prescribed as Raisin Form No. 1.

RAISIN FORM NO. 1

RAISINS—SECTION 8e ENTRY DECLARATION

I certify to the U.S. Department of Agriculture and the Bureau of Customs that none of the raisins being imported and which are identified below will be used other than in the production of alcohol, syrup for industrial use, or raisin paste.

1. Name of vessel: _____
2. Country of origin of raisins: _____
3. Date of arrival: _____
4. City of arrival: _____
5. Unloading pier: _____
6. USDA Certificate of Quality and Condition Number: _____
7. Raisins entered: _____

Lot or chop mark	Number of containers	Total net weight (pounds)

I agree to obtain from each person to whom any of the raisins listed above are delivered, an executed Raisin Form No. 2 "Raisins—Section 8e Certification of Processor or Reseller" and to file the same with the Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, not later than the fifth day of the month following the month in which the raisins were delivered.

Dated: _____

Name of firm: _____
Address: _____
Signature: _____
Title: _____

(ii) *Raisin Form No. 2.* The following is prescribed as Raisin Form No. 2.

RAISIN FORM NO. 2

RAISINS—SECTION 8e CERTIFICATION OF PROCESSOR OR RESELLER

I hereby certify to the U.S. Department of Agriculture that I have acquired the raisins covered by this certification; that I will use or sell them for use only in production of alcohol, syrup for industrial use, or raisin paste, as permitted by the Regulation Governing the Importation of Raisins (7 CFR 999.300; 37 F.R. 5282; 13634) and I am: (Check one or more if applicable)

____ Producer of alcohol ____ Producer of syrup for industrial use ____ Producer of raisin paste ____ Reseller

1. Date of purchase: _____
2. Place of purchase: _____
3. Name and address of importer or seller: _____
4. USDA Certificate of Quality and Condition Number: _____
5. Raisins acquired:

Number of containers	Total net weight (lbs.)

Dated: _____
Name of firm: _____
Address: _____
Signature: _____
Title: _____

It is hereby found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553), and for making it effective on the date hereinafter stated, in that: (1) This action permits importation of raisins, which do not meet the applicable grade and size requirements of this part with respect to mechanical damage and sugaring, for use in the production of raisin paste; (2) heretofore, the importation of such raisins for use in such outlets was prohibited, and thus this action relieves restriction on importation of raisins; (3) importers of such raisins require no advance preparation to comply with this action; and (4) no useful purpose would be served by postponing the effective time of this amendatory action.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 6, 1972, to become effective November 10, 1972.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72–19295 Filed 11–8–72;8:54 am]

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

[Docket No. 72–575]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined and Released

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

1. In § 76.2, paragraph (e)(2) relating to the State of Indiana, a new subdivision (iv) relating to Madison, Henry, and Hancock Counties is added to read:

(e) • • •

(2) *Indiana.* • • •

(iv) The adjacent portions of Madison, Henry, and Hancock Counties bounded by a line beginning at the junction of U.S. Highway 36 and the Fall Creek-Adams Township line in Madison County; thence, following U.S. Highway 36 in an easterly direction to the Fall Creek-Jefferson Township line in Henry County; thence, following the Fall Creek-Jefferson Township line in a southerly direction to the junction of the Fall Creek-Jefferson-Harrison Township lines; thence, following the Jefferson-Harrison Township line in an easterly direction to County Road 400 W; thence, following County Road 400 W in a southerly direction to Greensboro Road; thence, following Greensboro Road in an easterly direction to the junction of the Greensboro-Henry-Spiceland Township lines; thence, following the Greensboro-Spiceland Township line in a southerly, then westerly direction to Interstate Highway 70; thence, following Interstate Highway 70 in a southwesterly direction to State Highway 209 in Hancock County; thence, following State Highway 209 in a northerly direction to the Hancock-Madison County line; thence, following the Hancock-Madison County line in an easterly direction to the Fall Creek-Adams Township line in Madison County; thence, following the Fall Creek-Adams Township line in a northerly direction to its junction with U.S. Highway 36 in Madison County.

2. In § 76.2, paragraph (e)(5) relating to the State of Mississippi is deleted.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264–1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210, as amended, 36 F.R. 20707, 21529, 21530, 37 F.R. 6327, 6505)

Effective date. The foregoing amendments shall become effective upon issuance.

The amendments quarantine portions of Madison, Henry, and Hancock Counties in Indiana because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined areas.

The amendments exclude portions of Kemper and Lauderdale Counties in Mississippi from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas contained in 9 CFR Part 76, as amended, do not apply to the excluded areas, but will continue to apply to the quarantined areas described in § 76.2(e). Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 apply to the excluded areas. No areas in Mississippi remain under quarantine.

Insofar as the amendments impose certain further restrictions necessary to prevent the interstate spread of hog cholera, they must be made effective immediately to accomplish their purpose in the public interest. Insofar as the amendments relieve restrictions presently imposed, they are no longer deemed necessary to prevent the spread of hog cholera, and they should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 3d day of November 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

the West River-Washington-White River Township lines; thence, following the White River-Washington Township line in an easterly direction to Huntsville Pike; thence, following Huntsville Pike in a northeasterly direction to State Highway 32; thence, following State Highway 32 in an easterly direction to its junction with Greenville Pike.

2. In § 76.2, in paragraph (e)(7) relating to the State of Ohio, a new subdivision (iv) relating to Darke County is added to read:

(e) * * *

(7) *Ohio.* * * *

(iv) That portion of Darke County bounded by a line beginning at the junction of the Ohio-Indiana State line and Washington Road: thence, following Washington Road in an easterly direction to New Madison-Coletown Road; thence, following New Madison-Coletown Road in a southerly direction to State Highway 502; thence, following State Highway 502 in a westerly direction to the Ohio-Indiana State line; thence, following the Ohio-Indiana State line in a northerly direction to its junction with Washington Road.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264–1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132, 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210 as amended, 36 F.R. 20707, 21529, 21530, 37 F.R. 6327, 6505)

Effective date. The foregoing amendments shall become effective upon issuance.

The amendments quarantine a portion of Darke County in Ohio and an additional portion of Randolph County in Indiana because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined areas.

The amendments impose certain further restrictions necessary to prevent the interstate spread of hog cholera, and must be made effective immediately to accomplish their purpose in the public interest. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 3d day of November 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.72-19264 Filed 11-8-72;8:51 am]

Chapter III—Animal and Plant Health Inspection Service (Meat and Poultry Products Inspection), Department of Agriculture

SUBCHAPTER A—MANDATORY MEAT INSPECTION

PART 318—ENTRY INTO OFFICIAL ESTABLISHMENTS; REINSPECTION AND PREPARATION OF PRODUCTS

Sorbitol in Cooked Sausages

On December 17, 1971, there appeared in the FEDERAL REGISTER (36 F.R. 24005) a notice of proposed rule making to provide for the use of sorbitol in formulas for cooked sausages labeled frankfurter, frank, furter, wiener, and knockwurst. The food additive was proposed for use as an optional flavoring agent, to facilitate removal of the artificial casing from products after processing, and to reduce charring when the products are cooked by means of prolonged direct contact with heated metal surfaces. The notice cited data supplied to the Department as support for the use of sorbitol as proposed. The data along with information from observations of test products by USDA staff members were filed for public examination in the Office of the Hearing Clerk.

Statement of considerations: The proposal indicated the Department's intent to preclude the simultaneous use of sorbitol with corn syrup and similar sweetening agents. This restriction was based on the lack of a practical routine laboratory procedure to quantitate sorbitol in the presence of corn syrup and corn syrup solids. Also, methodology was not available to determine corn syrup and corn syrup solids when in a mixture with sorbitol. Therefore, the use of the flavoring agents in excess of the permitted 2 percent would not be analytically determined. The comments submitted on the proposal did not contain information or data on practical or effective laboratory procedures to determine individual quantities of corn syrup, corn syrup solids, or sorbitol when together in formulas.

The comments on the whole consisted mainly of opinions. They contained very little additional information or data on sorbitol or its use as a food additive for the purposes cited in the FEDERAL REGISTER notice.

A thorough review of the entire record on sorbitol indicates that:

(1) Sorbitol is safe for use as a food ingredient. A regulation of the Food and Drug Administration provides for the use of sorbitol as a food additive when amounts are not used in excess of reasonable quantity requirements to accomplish the intended physical or technical effects.

(2) Sorbitol occurs naturally in a variety of fruits and berries.

(3) Sorbitol is widely used in the manufacture of candies, shredded sweetened cocoanut, and other confections and as an ingredient of various pharmaceuticals.

(4) Sorbitol effectively facilitates the removal of artificial casings from processed cooked sausages.

(5) The surfaces of sausages that contain sorbitol are able to resist charring during prolonged contact with heated metal surfaces while awaiting sale.

(6) The sweetening power of sorbitol is sufficient to adequately contribute to the flavor of cooked sausages.

The available information substantiates the usefulness of sorbitol at the proposed rate in the preparation of the specific cooked sausages. It shows that sorbitol can be expected to provide processors with opportunities to prepare products that have the versatilities necessary to permit merchandising under a variety of market display conditions.

In consideration of all factors concerned with the proposal, the Department concludes that the meat inspection regulations should be amended to provide for the use of sorbitol in certain cooked sausages. Accordingly, in subparagraph (4) of paragraph (c) of § 318.7, as amended, the chart is amended as stated below:

In that portion of the chart dealing with class of substance, flavoring agents, protectors, and developers, the following information is added in alphabetical order:

§ 318.7 Approval of substances for use in the preparation of products.

* * * * *

Class of substance	Substance	Purpose	Products	Amounts
Flavoring agents, protectors and developers.	Sorbitol . . .	To flavor, to facilitate the removal of casings from product and to reduce caramelization and charring.	Cooked sausage labeled frankfurter, frank, furter, wiener, knockwurst.	Not more than 2 percent of the weight of the formula, excluding the formula weight of water or ice; not permitted in combination with corn syrup, and/or corn syrup solids.

* * * * *

(Sec. 21, 34 Stat. 1260, as amended, 21 U.S.C. 621; 29 F.R. 16210, as amended, 37 F.R. 6327, 6505)

The wording of the amendment differs in certain respects from that proposed in the notice of rule making. The wording changes were made to clarify the regulation, to be more consistent with § 318.7 (c)(4) of the regulations governing the use of certain other sweetening agents allowed in the same meat food products, and to provide a more uniform base from which inspectional surveillance can be exercised.

It does not appear that further public participation in rule making proceedings on the amendment would make additional information available to the Department. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that further notice and other rule making procedure on the amendment is impracticable and unnecessary.

The foregoing amendment to the regulations shall become effective 30 days after publication of this notice in the FEDERAL REGISTER.

Done at Washington, D.C., on November 6, 1972.

RICHARD E. LYNG,
Assistant Secretary.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72-SW-56]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Kerrville, Tex., 700-foot transition area.

On August 19, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 16810) stating the Federal Aviation Administration proposed to alter the Kerrville, Tex., transition area by enlarging the area to the northwest.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., January 4, 1973, as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the Kerrville, Tex., transition area is amended to read:

KERRVILLE, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Kerrville Municipal (Louis Schreiner Field) Airport (latitude 29°58'41" N., longitude 99°05'11" W.); within 3 miles each side of the 134° bearing from the Kerrville RBN (latitude 29°59'11" N., longitude 99°04'31" W.) extending from the 5-mile radius area to 8 miles southeast of the RBN; within 3.5 miles each side of the 306° radial from the proposed non-Federal TVOR site (latitude 30°00'29" N., longitude 99°08'15" W.) to 11.5 miles northwest.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; Sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on October 31, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.72-19190 Filed 11-8-72;8:45 am]

[Airspace Docket No. 72-SW-63]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter controlled airspace in the Austin, Tex., terminal area.

On September 26, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 20121) stating the Federal Aviation Administration proposed to alter the Austin, Tex. (Robert Mueller Municipal Airport), control zone and the Austin, Tex., transition area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., January 4, 1973, as hereinafter set forth.

(1) In § 71.171 (37 F.R. 2056), the Austin, Tex. (Robert Mueller Municipal Airport), control zone is amended to read:

Austin, Tex. (Robert Mueller Municipal Airport) Within a 5-mile radius of Robert Mueller Municipal Airport (latitude 30°-17'55" N., longitude 97°42'00" W.); within 1.5 miles each side of the Austin VORTAC 304° radial extending from the 5-mile radius zone to 6 miles northwest of the Austin VORTAC; and within 1.5 miles each side of the Austin VORTAC 329° radial extending from the 5-mile radius zone to 6 miles northwest of the Austin VORTAC.

(2) In § 71.181 (37 F.R. 2143), the Austin, Tex., transition area is amended to read:

AUSTIN, TEX.

That airspace extending upward from 700 feet above the surface within a 16-mile radius of Robert Mueller Municipal Airport (latitude 30°17'55" N., longitude 97°42'00" W.); within 2 miles each side of the Bergstrom ILS localizer south course, extending from the 16-mile radius area to 12 miles south of the LOM.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; Sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on October 31, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.72-19191 Filed 11-8-72;8:45 am]

[Reg. Docket No. 12339, Amdt. 95-226]

PART 95—IFR ALTITUDES

Miscellaneous Amendments

The purpose of this amendment to Part 95 of the Federal Aviation Regulations is to make changes in the IFR altitudes at which all aircraft shall be flown over a specified route or portion thereof. These altitudes, when used in conjunction with the current changeover points for the routes or portions thereof, also assure navigational coverage that is adequate and free of frequency interference for that route or portion thereof.

As a situation exists which demands immediate action in the interest of safety, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 95 of the Federal Aviation Regulations is amended, effective December 7, 1972 as follows:

1. By amending Subpart C as follows:

Section 95.101 *Amber Federal Airway 1* is amended to read in part:

From, To, and Mea

Port Alexander INT, Alaska; Sitka, Alaska, LF/RBN; 5,200.
Sitka, Alaska, LF/RBN; Harbor Point INT, Alaska; 5,200.

Section 95.102 *Amber Federal Airway 2* is amended to read in part:

Chip River INT, Alaska; Browerville, Alaska, LF/RBN; 2,000.

Section 95.679 *Blue Federal Airway 79* is amended to read in part:

Hazy Island INT, Alaska; Sitka, Alaska, LF/RBN; *6,900. *6,100—MOCA.
Sitka, Alaska, LF/RBN; Sisters Island, Alaska, LF/RBN; *6,500. *6,300—MOCA.

Section 95.1001 *Direct Routes—United States* is amended by adding:

Austin, Tex., VOR; Lockhart INT, Tex.; *2,500. *1,900—MOCA.

Section 95.1001 *Direct Routes—United States* is amended to delete:

Adak, Alaska, LF/RBN; Nikolski, Alaska, LF/RBN; 9,000.
Cold Bay, Alaska, LFR; Crab INT, Alaska; *4,000. *2,200—MOCA.
King Salmon, Alaska, LFR (Control 1484); Crab INT, Alaska; 2,000.
Crab INT, Alaska; Marlin INT, Alaska; 4,000.
Marlin INT, Alaska; Cold Bay, Alaska, LFR; 4,000.
Shemya, Alaska, LF/RBN; Adak, Alaska, LF/RBN; 8,000.
Toolik INT, Alaska; Bettles, Alaska, LF/RBN; *10,000. *9,600—MOCA.
Prudhoe Bay, Alaska, NDB; Toolik INT, Alaska; 3,000.
Domestic Yakutat INT, Alaska; Middleton Island, Alaska VOR; *2,000. *10,000 required without HF airborne communication equipment.
Domestic Anette INT, Alaska; Domestic Yakutat INT, Alaska; *2,000. *10,000 required without HF airborne communication equipment.
Juniper INT, Alaska; Flaxman, Alaska, LF/RBN; *2,000. *1,900—MOCA.
Juniper INT, Alaska; Flaxman Island, Alaska NDB; 2,000.
Sagwon, Alaska, NDB; Flaxman Island Alaska, NDB; 3,000.
Bergstrom INT, Tex.; Austin, Tex., VOR; 2,500.
Elroy INT, Tex.; Bergstrom INT, Tex.; *3,500. *1,800—MOCA.

		From, To, and MEA
Johnson City INT Tex.; Capitol INT, Tex.;	Ontario, Calif., VOR; Rialto INT, Calif., 4,500.	Barberville INT, Fla.; Roy INT, Fla.; *2,500. *1,200—MOCA.

Section 95.7507 *Jet Route No. 507* is amended to read in part:

States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150

Muscatine, Iowa—Muscatine Municipal Airport; NDB Runway 5, Amdt. 3; Revised.
Pocatello, Idaho—Pocatello Municipal Airport; NDB Runway 21, Amdt. 14; Revised.

XUM

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Form 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 F.R. 5609).

SIAP's are available for examination at the rules docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue SW., Washington, DC 20591, or from the applicable FAA regional office in accordance with the fee schedule prescribed in (49 CFR 7.85). This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by establishing, revising, or canceling the following VOR–VOR/DME SIAP's, effective December 21, 1972.

Biddeford, Maine—Biddeford Municipal Airport; VOR–A, Original; Established.
Hickory, N.C.—Hickory Municipal Airport; VOR Runway 24, Amdt. 14; Revised.
Muscatine, Iowa—Muscatine Municipal Airport; VOR/DME–A, Amdt. 1; Revised.
Norfolk, Va.—Norfolk Regional Airport; VOR Runway 4, Amdt. 8; Canceled.
Norfolk, Va.—Norfolk Regional Airport; VOR/DME Runway 5, Original; Established.
Norfolk, Va.—Norfolk Regional Airport; VOR/DME Runway 23, Amdt. 3; Revised.
Pocatello, Idaho—Pocatello Municipal Airport; VOR Runway 3, Amdt. 12; Revised.
Pocatello, Idaho—Pocatello Municipal Airport; VOR/DME Runway 21, Amdt. 4; Revised.

2. Section 97.23 is amended by establishing, revising, or canceling the following VOR–VOR/DME SIAP's, effective October 31, 1972.

Pierre, S. Dak.—Pierre Municipal Airport; VOR/DME Runway 7, Amdt. 3; Revised.
Pierre, S. Dak.—Pierre Municipal Airport; VOR Runway 25, Amdt. 11; Revised.

3. Section 97.25 is amended by establishing, revising, or canceling the following SDF–LOC–LDA SIAP's effective December 21, 1972.

Columbus, Ga.—Columbus Metropolitan Airport; LOC (BC) Runway 23, Amdt. 5; Revised.

4. Section 97.25 is amended by establishing, revising, or canceling the following SDF–LOC–LDA SIAP's effective October 27, 1972.

Bar Harbor, Maine—Bar Harbor Airport; LOC Runway 22, Amdt. 1; Revised.

5. Section 97.27 is amended by establishing, revising, or canceling the following NDB/ADF SIAP's, effective December 21, 1972.

Amchitka, Alaska—Amchitka Airport; NDB Runway 7, Amdt. 2; Revised.
Amchitka, Alaska—Amchitka Airport; NDB Runway 25, Amdt. 3; Revised.
Atlantic, Iowa—Atlantic Municipal Airport; NDB Runway 12, Amdt. 2; Revised.
Columbus, Ga.—Columbus Metropolitan Airport; NDB Runway 5, Amdt. 21; Revised.
Muscatine, Iowa—Muscatine Municipal Airport; NDB Runway 5, Amdt. 3; Revised.
Pocatello, Idaho—Pocatello Municipal Airport; NDB Runway 21, Amdt. 14; Revised.
Shenandoah, Iowa—Shenandoah Municipal Airport; NDB Runway 30, Amdt. 3; Revised.

6. Section 97.27 is amended by establishing, revising, or canceling the following NDB/ADF SIAP's, effective October 27, 1972.

Bar Harbor, Maine—Bar Harbor Airport; NDB–B, Amdt. 1; Revised.

7. Section 97.29 is amended by establishing, revising, or canceling the following ILS SIAP's, effective December 21, 1972.

Columbus, Ga.—Columbus Metropolitan Airport; ILS Runway 5, Amdt. 16; Revised.
Norfolk, Va.—Norfolk Regional Airport; ILS Runway 5, Amdt. 14; Revised.
Pocatello, Idaho—Pocatello Municipal Airport; ILS Runway 21, Amdt. 17; Revised.

8. Section 97.29 is amended by establishing, revising, or canceling the following ILS SIAP's, effective November 2, 1972.

New York, N.Y.—John F. Kennedy International Airport; ILS Runway 4R, Amdt. 19; Revised.

9. Section 97.31 is amended by establishing, revising, or canceling the following radar SIAP's, effective December 21, 1972.

Columbus, Ga.—Columbus Metropolitan Airport; Radar–1, Amdt. 2; Revised.
Norfolk, Va.—Norfolk Regional Airport; Radar–1, Amdt. 5; Revised.

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1958; 49 U.S.C. 1438, 1354, 1421, 1510, Sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c) and 5 U.S.C. 552(a)(1))

Issued in Washington, D.C., on November 2, 1972.

C. R. MELUGIN, JR.,
Acting Director,
Flight Standards Service.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (35 F.R. 5610) approved by the Director of the FEDERAL REGISTER on May 12, 1969.

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

SUBCHAPTER A—PROCEDURES AND RULES OF PRACTICE

PART 2—NONADJUDICATIVE PROCEDURES

Subpart C—Consent Order Procedure

The Commission announces the following amendment to Subpart A of Part 2 of Chapter I of Title 16 of the Code of Federal Regulations. This amendment is effective on the date of publication in the FEDERAL REGISTER (11–9–72).

Section 2.34(b) is amended to read as

Articles 12, 13, 14, 15, 27, 30–8, and

functioning of the Office of Administra-

delegates, until the Commission orders

Secretary by administrative law judges designated to prepare such, pursuant to

trial memoranda setting forth the legal theories on which the parties rely, and

V37-217 NOV 9 72 XUM

Section 2.34(b) is amended to read as follows:

§ 2.34 Disposition.

* * * * *

(b) Upon receiving such an agreement, the Commission may: (1) Accept it; (2) reject it and issue its complaint and set the matter down for adjudication in regular course; or (3) take such other action as it may deem appropriate. If an agreement is accepted, the Commission will place the order contained therein on the public record for a period of thirty (30) days, during which it will receive and consider any comments or views concerning the order that may be filed by any interested persons. Thereafter, within thirty (30) days, the Commission may either withdraw its acceptance of the agreement and so notify the other party, in which event it will take such other action as it may consider appropriate, or issue and serve its complaint (in such form as the circumstances may require), and decision, in disposition of the proceeding.

* * * * *

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46)

By direction of the Commission, dated October 25, 1972.

[SEAL] CHARLES A. TOBIN, *Secretary.*
